"(A) The minimum energy efficiency ratio of air-cooled central air conditioners and central air conditioning heat pumps at or above 135,000 Btu per hour (cooling capacity) and less than 240,000 Btu per hour (cooling capacity) shall be 8.5 (at a standard rating of 95 degrees F db).

"(B) The minimum coefficient of performance in the heating mode of air-cooled central air conditioning heat pumps at or above 135,000 Btu per hour (cooling capacity) and less than 240,000 Btu per hour (cooling capacity) shall be 2.9.

"(C) The minimum energy efficiency ratio of water- and evaporatively-cooled central air conditioners and central air conditioning heat pumps at or above 135,000 Btu per hour (cooling capacity) shall be 9.6 (according to ARI Standard 360-86).

"(3) Each packaged terminal air conditioner and packaged terminal heat pump manufactured on or after January 1, 1994, shall meet the standard levels set forth for such products in ASHRAE/IES Standard 90.1 as in effect on the date of the enactment of this paragraph. Such standards are as follows:

"(A) The minimum energy efficiency ratio of packaged terminal air conditioners and packaged terminal heat pumps in the cooling mode shall be 10.0 — (0.16 x Capacity [in thousands of Btu per hour] EER) (at a standard rating of 95 degrees F db, outdoor temperature). If a unit has a capacity of less than 7000 Btu per hour, then 7000 Btu per hour shall be used in the calculation. If a unit has a capacity of greater than 15,000 Btu per hour, then 15,000 Btu per hour shall be used in the calculation.

"(B) The minimum coefficient of performance of packaged terminal heat pumps in the heating mode shall be 1.3 + (0.16 x the minimum cooling EER as specified in subparagraph (A)) (at a standard rating of 47 degrees F db).

"(4) Each warm air furnace and packaged boiler manufactured on or after January 1, 1994, shall meet the standard levels set forth for such products in ASHRAE/IES Standard 90.1 as in effect on the date of the enactment of this paragraph. Such standards are as follows:

"(A) The minimum thermal efficiency at the maximum rated capacity of gas-fired warm-air furnaces with capacity of 225,000 Btu per hour or more shall be 80 percent.

"(B) The minimum thermal efficiency at the maximum rated capacity of oil-fired warm-air furnaces with capacity of 225,000 Btu per hour or more shall be 81 percent.

"(C) The minimum combustion efficiency at the maximum rated capacity of gas-fired packaged boilers with capacity of 300,000 Btu per hour or more shall be 80 percent.

"(D) The minimum combustion efficiency at the maximum rated capacity of oil-fired packaged boilers with capacity of 300,000 Btu per hour or more shall be 83 percent.

"(5) Each storage water heater, instantaneous water heater, and unfired water storage tank manufactured on or after January 1, 1994, shall meet the standard levels set forth for such products in ASHRAE/IES Standard 90.1 as in effect on the date of the enactment of this paragraph. Such standards are as follows:

"(A) Except as provided in subparagraph (G), the maximum standby loss, in percent per hour, of electric storage water heaters shall be 0.30 + (27/Measured Storage Volume [in gallons]).

"(B) Except as provided in subparagraph (G), the maximum standby loss, in percent per hour, of gas- and oil-fired storage water heaters with input ratings of 155,000 Btu per hour or less shall be 1.30 + (114/Measured Storage Volume [in gallons]). The minimum thermal efficiency of such units shall be 78 percent.

"(C) Except as provided in subparagraph (G), the maximum standby loss, in percent per hour, of gas- and oil-fired storage water heaters with input ratings of more than 155,000 Btu per hour shall be 1.30 + (95/Measured Storage Volume [in gallons]). The minimum thermal efficiency of such units shall be 78 percent.

"(D) The minimum thermal efficiency of instantaneous water heaters with a storage volume of less than 10 gallons shall be 80 percent.

"(E) Except as provided in subparagraph (G), the minimum thermal efficiency of instantaneous water heaters with a storage volume of 10 gallons or more shall be 77 percent. The maximum standby loss, in percent/hour, of such units shall be 2.30 + (67/Measured Storage Volume [in gallons]).

"(F) Except as provided in subparagraph (G), the maximum heat loss of unfired hot water storage tanks shall be 6.5 Btu per hour per square foot of tank surface area.

"(G) Storage water heaters and hot water storage tanks having more than 140 gallons of storage capacity need not meet the standby loss or heat loss requirements specified in subparagraphs (A) through (C) and subparagraphs (E) and (F) if the tank surface area is thermally insulated to R–12.5 and if a standing pilot light is not used.

"(6)(A) If ASHRAE/IES Standard 90.1, as in effect on the date of enactment of the Comprehensive National Energy Policy Act, is amended with respect to any small commercial package air conditioning and heating equipment, large commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, or unfired hot water storage tanks, the Secretary shall establish an amended uniform national standard for that product at the minimum level for each effective date specified in the amended ASHRAE/IES Standard 90.1, unless the Secretary determines, by rule published in the Federal Register and supported by clear and convincing evidence, that adoption of a uniform national standard more stringent than such amended ASHRAE/IES Standard 90.1 for such product would result in significant additional conservation of energy and is technologically feasible and economically justified.

"(B)(i) If the Secretary issues a rule containing such a determination, the rule shall establish such amended standard. In determining whether a standard is economically justified for the purposes of subparagraph (A), the Secretary shall, after receiving views and comments furnished with respect to the proposed standard, determine whether the benefits of the standard exceed its burdens by, to the greatest extent practicable, considering—

"(I) the economic impact of the standard on the manufacturers and on the consumers of the products subject to such standard;

"(II) the savings in operating costs throughout the estimated average life of the product in the type (or class) compared to any increase in the price of, or in the initial charges for, or maintenance expenses of, the products which are likely to result from the imposition of the standard;

"(III) the total projected amount of energy savings likely to result directly from the imposition of the standard;

"(IV) any lessening of the utility or the performance of the products likely to result from the imposition of the standard;

"(V) the impact of any lessening of competition, as determined in writing by the Attorney General, that is likely to result from the imposition of the standard;

"(VI) the need for national energy conservation; and

"(VII) other factors the Secretary considers relevant.

"(ii) The Secretary may not prescribe any amended standard under this paragraph which increases the maximum allowable energy use, or decreases the minimum required energy efficiency, of a covered product. The Secretary may not prescribe an amended standard under this subparagraph if the Secretary finds (and publishes such finding) that interested persons have established by a preponderance of the evidence that a standard is likely to result in the unavailability in the United States in any product type (or class) of performance characteristics (including reliability), features, sizes, capacities, and volumes that are substantially the same as those generally available in the United States at the time of the Secretary's finding. The failure of some types (or classes) to meet this criterion shall not affect the Secretary's determination of whether to prescribe a standard for other types or classes.

"(C) A standard amended by the Secretary under this paragraph shall become effective for products manufactured—

"(i) with respect to small commercial package air conditioning and heating equipment, packaged terminal air conditioners, packaged terminal heat pumps, warm-air furnaces, packaged boilers, storage water heaters, instantaneous water heaters, and unfired hot water storage tanks, on or after a date which is two years after the effective date of the applicable minimum energy efficiency requirement in the amended ASHRAE/IES standard referred to in subparagraph (A); and

"(ii) with respect to large commercial package air conditioning and heating equipment, on or after a date which is three years after the effective date of the applicable minimum energy efficiency requirement in the amended ASHRAE/IES standard referred to in subparagraph (A);

except that an energy conservation standard amended by the Secretary pursuant to a rule under subparagraph (B) shall become effective for products manufactured on or after a date which is four years after the date such rule is published in the Federal Register.

"(b) Electric Motors.—(1) Except for definite purpose motors, special purpose motors, and those motors exempted by the Secretary under paragraph (2), each electric motor manufactured (alone or as a component of another piece of equipment) after the 60-month period beginning on the date of the enactment of this subsection, or in the case of an electric motor which requires listing or certification by a nationally recognized safety testing laboratory, after the 84-month period beginning on such date, shall have a nominal full load efficiency of not less than the following:

	"Nominal Full-Load Efficiency					
"Number of poles	Open Motors			Closed Motors		
	6	4	2	6	4	2
Motor Horsepower						
1	80.0	82.5	....	80.0	82.5	75.5
1.5	84.0	84.0	82.5	85.5	84.0	82.5
2	85.5	84.0	84.0	86.5	84.0	84.0
3	86.5	86.5	84.0	87.5	87.5	85.5
5	87.5	87.5	85.5	87.5	87.5	87.5
7.5	88.5	88.5	87.5	89.5	89.5	88.5
10	90.2	89.5	88.5	89.5	89.5	89.5
15	90.2	91.0	89.5	90.2	91.0	90.2
20	91.0	91.0	90.2	90.2	91.0	90.2
25	91.7	91.7	91.0	91.7	92.4	91.0
30	92.4	92.4	91.0	91.7	92.4	91.0
40	93.0	93.0	91.7	93.0	93.0	91.7
50	93.0	93.0	92.4	93.0	93.0	92.4
60	93.6	93.6	93.0	93.6	93.6	93.0
75	93.6	94.1	93.0	93.6	94.1	93.0
100	94.1	94.1	93.0	94.1	94.5	93.6
125	94.1	94.5	93.6	94.1	94.5	94.5
150	94.5	95.0	93.6	95.0	95.0	94.5
200	94.5	95.0	94.5	95.0	95.0	95.0

"(2)(A) The Secretary may, by rule, provide that the standards specified in paragraph (1) shall not apply to certain types or classes of electric motors if—

"(i) compliance with such standards would not result in significant energy savings because such motors cannot be used in most general purpose applications or are very unlikely to be used in most general purpose applications; and

"(ii) standards for such motors would not be technically feasible or economically justified.

"(B) Not later than one year after the date of the enactment of this subsection, a manufacturer seeking an exemption under this paragraph with respect to a type or class of electric motor developed on or before the date of the enactment of such subsection shall submit a petition to the Secretary requesting such exemption. Such petition shall include evidence that the type or class of motor meets the criteria for exemption specified in subparagraph (A).

"(C) Not later than two years after the date of the enactment of this subsection, the Secretary shall rule on each petition for exemption submitted pursuant to subparagraph (B). In making such ruling, the Secretary shall afford an opportunity for public comment.

"(D) Manufacturers of types or classes of motors developed after the date of the enactment of this subsection to which standards under paragraph (1) would be applicable may petition the Secretary for exemptions from compliance with such standards based on the criteria specified in subparagraph (A).

"(3)(A) The Secretary shall publish a final rule no later than the end of the 24-month period beginning on the effective date of the standards established under paragraph (1) to determine if such standards should be amended. Such rule shall provide that any amendment shall apply to electric motors manufactured on or after a date which is five years after the effective date of the standards established under paragraph (1).

"(B) The Secretary shall publish a final rule no later than 24 months after the effective date of the previous final rule to determine whether to amend the standards in effect for such product. Any such amendment shall apply to electric motors manufactured after a date which is five years after—

"(i) the effective date of the previous amendment; or

"(ii) if the previous final rule did not amend the standards, the earliest date by which a previous amendment could have been effective.".

(e) ADMINISTRATION, PENALTIES, ENFORCEMENT, AND PREEMPTION.—(1) Section 345(a) of such Act (42 U.S.C. 6316(a)) is amended—

(A) in the material preceding paragraph (1)—

(i) by inserting after "to this part" the following: "(other than the equipment specified in subparagraphs (B), (C), (D), (E), and (F) of section 340(1))"; and

(ii) by striking out "and sections 328" and inserting in lieu thereof ", the provisions of subsections (l) through (s) of section 325, and sections 327";

(B) in paragraph (1)—

(i) by striking out "and 324" and inserting in lieu thereof ", 324, and 325"; and

(ii) by striking out "343 and 344, respectively" and inserting in lieu thereof "343, 344, and 342, respectively";

(C) in paragraph (3), by striking out "and" at the end thereof;

(D) in paragraph (4), by striking out the period and inserting in lieu thereof a semicolon; and

(E) by adding after paragraph (4) the following new paragraphs:

"(5) section 327(a) shall be applied, in the case of electric motors, as if the National Appliance Energy Conservation Act of 1987 was the Comprehensive National Energy Policy Act;

"(6) section 327(b)(1) shall be applied as if electric motors were fluorescent lamp ballasts and as if the National Appliance Energy Conservation Amendments of 1988 were the Comprehensive National Energy Policy Act;

"(7) section 327(b)(4) shall be applied as if electric motors were fluorescent lamp ballasts and as if paragraph (5) of section 325(g) were section 342; and

"(8) notwithstanding any other provision of law, a regulation or other requirement adopted by a State or subdivision of a State contained in a State or local building code for new construction concerning the energy efficiency or energy use of an electric motor covered under this part is not superseded by the standards for such electric motor established or prescribed under section 342(b) if such regulation or requirement is identical to the standards established or prescribed under such section.".

(2) Section 345 of such Act (42 U.S.C. 6316) is amended by adding at the end the following new subsection:

"(b)(1) The provisions of section 326(a), (b), and (d), section 327(a), and sections 328 through 336 shall apply with respect to the equipment specified in subparagraphs (B), (C), (D), (E), and (F) of section 340(1) to the same extent and in the same manner as they apply in part B. In applying such provisions for the purposes of such equipment, paragraphs (1), (2), (3), and (4) of subsection (a) shall apply.

"(2)(A) A standard prescribed or established under section 342(a) shall, beginning on the effective date of such standard, supersede any State or local regulation concerning the energy efficiency or energy use of a product for which a standard is prescribed or established pursuant to such section.

"(B) Notwithstanding subparagraph (A), a standard prescribed or established under section 342(a) shall not supersede a standard for such a product contained in a State or local building code for new construction if—

"(i) the standard in the building code does not require that the energy efficiency of such product exceed the applicable minimum energy efficiency requirement in amended ASHRAE/IES Standard 90.1; and

"(ii) the standard in the building code does not take effect prior to the effective date of the applicable minimum energy efficiency requirement in amended ASHRAE/IES Standard 90.1.

"(C) Notwithstanding subparagraph (A), a standard prescribed or established under section 342(a) shall not supersede the standards established by the State of California set forth in Table C-6, California Code of Regulations, Title 24, Part 2, Chapter 2-53, for water-source heat pumps below 135,000 Btu per hour (cooling capacity) that become effective on January 1, 1993.

"(D) Notwithstanding subparagraph (A), a standard prescribed or established under section 342(a) shall not supersede a State regulation which has been granted a waiver by the Secretary. The Secretary may grant a waiver pursuant to the terms, conditions, criteria, procedures, and other requirements specified in section 327(d) of this Act.".

(3) Section 345 of such Act (42 U.S.C. 6316) is amended by striking out the section heading and inserting in lieu thereof "ADMINISTRATION, PENALTIES, ENFORCEMENT, AND PREEMPTION".

(f) TECHNICAL AMENDMENTS.—(1) Section 340(3) of such Act is amended by striking out "(3) the" and inserting in lieu thereof the following: "(3) The".

(2) Section 343 of such Act (42 U.S.C. 6314) is amended by redesignating the first subsection designated as subsection (d) as subsection (c).

(3) The table of contents of such Act is amended—

(A) by striking out the item relating to section 342 and inserting in lieu thereof the following new item:

"Sec. 342. Standards.";

and

(B) by striking the item for section 345 and inserting in lieu thereof the following new item:

"Sec. 345. Administration, penalties, enforcement, and preemption.".

SEC. 164. ENERGY CONSERVATION REQUIREMENTS FOR CERTAIN LAMPS AND SHOWERHEADS.

(a) DEFINITIONS.—Section 321(a) of the Energy Policy and Conservation Act (42 U.S.C. 6291(a)) is amended—

(1) by striking out the subsection designation;

(2) in paragraph (1)—

(A) in subparagraph (A), by inserting before the semicolon the following: "or, with respect to showerheads, water"; and

(B) in subparagraph (B), by striking out "ballasts" and inserting in lieu thereof the following: "ballasts, general service fluorescent lamps, incandescent reflector lamps, and showerheads";

(3) in paragraph (6)—

(A) in subparagraph (A), by inserting ", or, in the case of showerheads, water use," after "energy use"; and

(B) in subparagraph (B)—

(i) by striking out "(14)" and inserting in lieu thereof "(16)"; and

(ii) by striking out "325(o)" and inserting in lieu thereof "325(q)";

(4) in paragraph (7), by inserting after "to be consumed annually" the following: ", and in the case of showerheads, the aggregate retail cost of water and wastewater treatment services likely to be incurred annually,"; and

(5) by adding at the end the following new paragraphs:

"(30)(A) Except as provided in subparagraph (E), the term 'fluorescent lamp' means a low pressure mercury electric-discharge source in which a fluorescing coating transforms some of the ultraviolet energy generated by the mercury discharge into light, including only the following:

"(i) Any straight-shaped lamp (commonly referred to as 4-foot medium bi-pin lamps) with medium bi-pin bases of nominal overall length of 48 inches and rated wattage of 28 or more.

"(ii) Any U-shaped lamp (commonly referred to as 2-foot U-shaped lamps) with medium bi-pin bases of nominal overall length between 22 and 25 inches and rated wattage of 28 or more.

"(iii) Any rapid start lamp (commonly referred to as 8-foot high output lamps) with recessed double contact bases of nominal overall length of 96 inches and 0.800 nominal amperes, as defined in ANSI C78.1-1978 and related supplements.

"(iv) Any instant start lamp (commonly referred to as 8-foot slimline lamps) with single pin bases of nominal overall length of 96 inches and rated wattage of 52 or more, as defined in ANSI C78.3-1978 (R1984) and related supplement ANSI C78.3a-1985.

"(B) The term 'general service fluorescent lamp' means fluorescent lamps which can be used to satisfy the majority of fluorescent applications, but does not include any lamp designed and marketed for the following nongeneral lighting applications:

"(i) Fluorescent lamps designed to promote plant growth.

"(ii) Fluorescent lamps specifically designed for cold temperature installations.

"(iii) Colored fluorescent lamps.

"(iv) Impact-resistant fluorescent lamps.

"(v) Reflectorized or aperture lamps.

"(vi) Fluorescent lamps designed for use in reprographic equipment.

"(vii) Lamps primarily designed to produce radiation in the ultra-violet region of the spectrum.

"(viii) Lamps with a color rendering index of 82 or greater.

"(C) Except as provided in subparagraph (E), the term 'incandescent lamp' means a lamp in which light is produced by a filament heated to incandescence by an electric current, including only the following:

"(i) Any lamp (commonly referred to as lower wattage nonreflector general service lamps, including any tungsten-halogen lamp) that has a rated wattage between 30 and 199 watts, has an E26 medium screw base, has a rated voltage or voltage range that lies at least partially within 115 and 130 volts, and is not a reflector lamp.

"(ii) Any lamp (commonly referred to as a reflector lamp) which is not colored or designed for rough or vibration service applications, that contains an inner reflective coating on the outer bulb to direct the light, an R, PAR, or similar bulb shapes (excluding ER or BR) with E26 medium screw bases, a rated voltage or voltage range that lies at least partially within 115 and 130 volts, a diameter which exceed 2.75 inches, and is either—

"(I) a low(er) wattage reflector lamp which has a rated wattage between 40 and 205 watts; or

"(II) a high(er) wattage reflector lamp which has a rated wattage above 205 watts.

"(iii) Any general service incandescent lamp (commonly referred to as a high- or higher wattage lamp) that has a rated wattage above 199 watts (above 205 watts for a high wattage reflector lamp).

"(D) The term 'general service incandescent lamp' means incandescent lamps (other than miniature or photographic lamps) which can be used to satisfy the majority of lighting applications, but does not include any lamp specifically designed for—

"(i) traffic signal, or street lighting service;

"(ii) airway, airport, aircraft, or other aviation service;

"(iii) marine or marine signal service;

"(iv) photo, projection, sound reproduction, or film viewer service;

"(v) stage, studio, or television service;

"(vi) mill, saw mill, or other industrial process service;

"(vii) mine service;

"(viii) headlight, locomotive, street railway, or other transportation service;

"(ix) heating service;

"(x) code beacon, marine signal, lighthouse, reprographic, or other communication service;

"(xi) medical or dental service;

"(xii) microscope, map, microfilm, or other specialized equipment service;

"(xiii) swimming pool or other underwater service;

"(xiv) decorative or showcase service;

"(xv) producing colored light;

"(xvi) shatter resistance which has an external protective coating; or

"(xvii) appliance service.

"(E) The terms 'fluorescent lamp' and 'incandescent lamp' do not include any lamp excluded by the Secretary, by rule, as a result of a determination that standards for such lamp would not result in significant energy savings because such lamp is designed for special applications or has special characteristics not available in reasonably substitutable lamp types.

"(F) The term 'incandescent reflector lamp' means a lamp described in subparagraph (C)(ii).

"(G) The term 'average lamp efficacy' means the lamp efficacy readings taken over a statistically significant period of manufacture with the readings averaged over that period.

"(H) The term 'base' means the portion of the lamp which connects with the socket as described in ANSI C81.61-1990.

"(I) The term 'bulb shape' means the shape of lamp, especially the glass bulb with designations for bulb shapes found in ANSI C79.1-1980 (R1984).

"(J) The term 'color rendering index' or 'CRI' means the measure of the degree of color shift objects undergo when illuminated by a light source as compared with the color of those same objects when illuminated by a reference source of comparable color temperature.

"(K) The term 'correlated color temperature' means the absolute temperature of a blackbody whose chromaticity most nearly resembles that of the light source.

"(L) The term 'IES' means the Illuminating Engineering Society of North America.

"(M) The term 'lamp efficacy' means the lumen output of a lamp divided by its wattage, expressed in lumens per watt (LPW).

"(N) The term 'lamp type' means all lamps designated as having the same electrical and lighting characteristics and made by one manufacturer.

"(O) The term 'lamp wattage' means the total electrical power consumed by a lamp in watts, after the initial seasoning period referenced in the appropriate IES standard test procedure and including, for fluorescent, arc watts plus cathode watts.

"(P) The terms 'life' and 'lifetime' mean length of operating time of a statistically large group of lamps between first use and failure of 50 percent of the group in accordance with test procedures described in the IES Lighting Handbook-Reference Volume.

"(Q) The term 'lumen output' means total luminous flux (power) of a lamp in lumens, as measured in accordance with applicable IES standards as determined by the Secretary.

"(R) The term 'tungsten-halogen lamp' means a gas-filled tungsten filament incandescent lamp containing a certain proportion of halogens in an inert gas.

"(S) The term 'medium base compact fluorescent lamp' means an integrally ballasted fluorescent lamp with a medium screw base and a rated input voltage of 115 to 130 volts and which is designed as a direct replacement for a general service incandescent lamp.

"(31)(A) The term 'water use' means the quantity of water flowing through a showerhead at point of use, determined in accordance with test procedures under section 323.

"(B) The term 'ASME' means the American Society of Mechanical Engineers.

"(C) The term 'ANSI' means the American National Standards Institute.".

(b) COVERAGE.—Section 322(a) of such Act (42 U.S.C. 6292(a)) is amended—

(1) by redesignating paragraph (14) as paragraph (16); and

(2) by inserting after paragraph (13) the following new paragraphs:

"(14) General service fluorescent lamps and incandescent reflector lamps.

"(15) Showerheads, except safety shower showerheads.".

(c) TEST PROCEDURES.—Section 323 of such Act (42 U.S.C. 6293) is amended—

(1) in subsection (b)—

(A) in paragraph (3), by inserting after "energy use," the following "water use (in the case of showerheads),"; and

(B) by adding at the end the following new paragraphs:

"(6) With respect to fluorescent lamps and incandescent reflector lamps to which standards are applicable under subsection (i) of section 325, the Secretary shall prescribe test procedures, to be carried out by accredited test laboratories, that take into consideration the applicable IES or ANSI standard.

"(7)(A) With respect to showerheads manufactured after July 1, 1992, and to which standards are applicable under subsection (j) of section 325, the Secretary shall prescribe test procedures that are consistent with ASME/ANSI A112.18.1M-1989.

"(B) If the test procedure requirements of ASME/ANSI A112.18.1M-1989 are revised at any time, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such revised ASME/ANSI requirements unless the Secretary determines, by rule, that to do so would not meet the requirements of paragraph (3).";

(2) in paragraphs (1) and (2) of subsection (c), by inserting "or water use" after "efficiency"; and

(3) in subsection (e)—

(A) in paragraph (1), by striking out "or measured energy use" and inserting in lieu thereof ", measured energy use, or measured water use";

(B) in paragraph (2), by striking out "energy efficiency or energy use" each place it appears and inserting in lieu thereof "energy efficiency, energy use, or water use"; and

(C) in paragraph (3), by striking out "energy efficiency or energy use" and inserting in lieu thereof "energy efficiency, energy use, or water use".

(d) LABELING.—Section 324 of such Act (42 U.S.C. 6294) is amended—

(1) in subsection (a)(2), by adding at the end the following new subparagraphs:

"(C) Not later than one year after the date of the enactment of the Comprehensive National Energy Policy Act, the Commission shall prescribe labeling rules under this section applicable to general service fluorescent lamps, medium base compact fluorescent lamps, and general service incandescent lamps. Such rules shall provide that the labeling of any general service fluorescent lamp, medium base compact fluorescent lamp, and general service incandescent lamp manufactured after the 12-month period beginning on the date of the publication of such rule shall indicate conspicuously on the packaging of the lamp, in a manner prescribed by the Commission under subsection (b), such information as the Commission deems necessary to enable consumers to select the most energy efficient lamps which meet their requirements. Labeling information for incandescent lamps shall be based on performance when operated at 120 volts input, regardless of the rated lamp voltage.

"(D)(i) The Commission shall prescribe labeling rules under this section for showerheads to which standards are applicable under subsection (j) of section 325. Such rules shall provide that the labeling of any showerhead manufactured after July 1, 1992, shall be consistent with the marking and labeling requirements of ASME/ANSI A112.18.1M-1989.

"(ii) If the marking and labeling requirements of ASME/ANSI A112.18.1M-1989 are revised at any time, the Commission shall amend the labeling rules established pursuant to clause (i) to be consistent with such revised ASME/ANSI requirements unless the Commission determines under the second sentence of subsection (b)(5) that such labeling is not technologically or economically feasible.";

(2) in subsection (a)(3), by striking out "(14)" and inserting in lieu thereof "(16)";

(3) in subsection (b)(1)(B), by striking out "(14)" and inserting in lieu thereof "(13), (15), and (16)";

(4) and in paragraphs (3) and (5) of subsection (b), by striking out "(14)" and inserting in lieu thereof "(16)"; and

(5) in subsection (c)(7), by striking out "paragraph (13) of section 322" and inserting in lieu thereof "paragraphs (13), (14), and (15) of section 322(a)".

(e) STANDARDS.—Section 325 of such Act (42 U.S.C. 6295) is amended—

(1) by redesignating subsections (i) through (q) as subsections (k) through (s); and

(2) by inserting after subsection (h) the following:

"(i) GENERAL SERVICE FLUORESCENT LAMPS AND INCANDESCENT REFLECTOR LAMPS.—(1)(A) Each of the following general service fluorescent lamps and incandescent reflector lamps manufactured after the effective date specified in the tables listed in this paragraph shall meet or exceed the following lamp efficacy and CRI standards:

"FLUORESCENT LAMPS

"Lamp Type	Nominal Lamp Wattage	Minimum CRI	Minimum Average Lamp Efficacy (LPW)	Effective Date (Months)
4-foot medium bi-pin.	>35 W	69	75.0	36
	≤35 W	45	75.0	36
2-foot U-shaped.	>35 W	69	68.0	36
	≤35 W	45	64.0	36

"INCANDESCENT REFLECTOR LAMPS

"Nominal Lamp Wattage	Minimum Average Lamp Efficacy (LPW)	Effective Date (Months)
40–50	10.5	36
51–66	11.0	36
67–85	12.5	36
86–115	14.0	36
116–155	14.5	36
156–205	15.0	36

"(B) For the purposes of the tables set forth in subparagraph (A), the term 'effective date' means the last day of the month set forth in the table which follows the date of the enactment of the Comprehensive National Energy Policy Act.

"(2) Notwithstanding section 332(a)(5) and section 332(b), it shall not be unlawful for a manufacturer to sell a lamp which is in compliance with the law at the time such lamp was manufactured.

"(3) Not less than 36 months after the date of the enactment of this subsection, the Secretary shall initiate a rulemaking procedure and shall publish a final rule not later than the end of the 54-month period beginning on the date of the enactment of this subsection to determine if the standards established under paragraph (1) should be amended. Such rule shall contain such amendment, if any, and provide that the amendment shall apply to products manufactured on or after the 36-month period beginning on the date such final rule is published.

"(4) Not less than eight years after the date of the enactment of this subsection, the Secretary shall initiate a rulemaking procedure and shall publish a final rule not later than nine years and six months after the date of the enactment of this subsection to determine if the standards in effect for fluorescent lamps and incandescent lamps should be amended. Such rule shall contain such amendment, if any, and provide that the amendment shall apply to products manufactured on or after the 36-month period beginning on the date such final rule is published.

"(5) Not later than the end of the 24-month period beginning on the date labeling requirements under section 324(a)(2)(C) become effective, the Secretary shall initiate a rulemaking procedure to determine if the standards in effect for fluorescent lamps and incandescent lamps should be amended so that they would be applicable to additional general service fluorescent and general service incandescent lamps and shall publish, not later than 18 months after initiating such rulemaking, a final rule including such amended standards, if any. Such rule shall provide that the amendment shall apply to products manufactured after a date which is 36 months after the date such rule is published.

"(6)(A) With respect to any lamp to which standards are applicable under this subsection or any lamp specified in section 346, the Secretary shall inform any Federal entity proposing actions which would adversely impact the energy consumption or energy efficiency of such lamp of the energy conservation consequences of such action. It shall be the responsibility of such Federal entity to carefully consider the Secretary's comments.

"(B) Notwithstanding section 325(n)(1), the Secretary shall not be prohibited from amending any standard, by rule, to permit increased energy use or to decrease the minimum required energy efficiency of any lamp to which standards are applicable under this subsection if such action is warranted as a result of other Federal action (including restrictions on materials or processes) which would have the effect of either increasing the energy use or decreasing the energy efficiency of such product.

"(7) Not later than the date on which standards established pursuant to this subsection become effective, or, with respect to high-intensity discharge lamps covered under section 346, the effective date of standards established pursuant to such section, each manufacturer of a product to which such standards are applicable shall file with the Secretary a laboratory report certifying compliance with the applicable standard for each lamp type. Such report shall include the lumen output and wattage consumption for each lamp type as an average of measurements taken over the preceding 12-month period. With respect to lamp types which are not manufactured during the 12-month period preceding the date such standards become effective, such report shall be filed with the Secretary not later than the date which is 12 months after the date manufacturing is commenced and shall include the lumen output and wattage consumption for each such lamp type as an average of measurements taken during such 12-month period.

"(j) STANDARDS FOR SHOWERHEADS.—(1) The maximum water use allowed for any showerhead (other than safety shower showerheads) manufactured after July 1, 1992, is 2.5 gallons per minute when measured at a flowing water pressure of 80 pounds per square inch.

"(2) If the ASME/ANSI standard for showerheads is revised at any time in a manner that the Secretary determines will improve the efficiency of water use and insure the protection of the health and safety of the public, the Secretary shall, not later than 12 months after the date of such revision, publish a final rule amending the standard established by paragraph (1) to be consistent with such revised ASME/ANSI standard. Such rule shall contain such amendment and provide that the amendment shall apply to products manufactured after a date which is one year after publication of the final rule establishing such amended standard.";

(3) in subsection (k) (as redesignated by paragraph (1) of this subsection)—

(A) in paragraphs (1) and (2), by striking out "(14)" and inserting in lieu thereof "(16)"; and

(B) in paragraphs (1) and (3), by striking out "(l) and (m)" and inserting in lieu thereof "(n) and (o)";

(4) in subsection (l) (as redesignated by paragraph (1) of this subsection), by striking out "(h)" and inserting in lieu thereof "(i)";

(5) in subsection (m) (as redesignated by paragraph (1) of this subsection)—

(A) in paragraph (1)—

(i) by striking out "and in paragraph (13)" and inserting in lieu thereof ", (13), and (14)"; and

(ii) by striking out "(h)" and inserting in lieu thereof "(i)";

(B) in paragraph (2)(C), by striking out "(l)(2)(B)(i)(II)" and inserting in lieu thereof "(n)(2)(B)(i)(II)"; and

(C) in paragraph (3)(B), by inserting "general service fluorescent lamps, incandescent reflector lamps," after "fluorescent lamp ballasts,"; and

(6) in subsection (o)(3)(A) (as redesignated by paragraph (1) of this subsection)—

(A) by striking out "(l)(2)" and inserting in lieu thereof "(n)(2)"; and

(B) by striking out "(l)(4)" and inserting in lieu thereof "(n)(4)".

(f) REQUIREMENTS OF MANUFACTURERS.—Section 326 of such Act (42 U.S.C. 6296) is amended—

(1) in subsection (b)(4), by inserting "or water use" after "consumption"; and

(2) in subsection (d)(1), by striking out "or energy use" and inserting in lieu thereof ", energy use, or, in the case of showerheads, water use".

(g) EFFECT ON OTHER LAW.—Section 327 of such Act (42 U.S.C. 6297) is amended—

(1) in subsection (a)—

(A) in paragraph (1) in the material preceding subparagraph (A), by inserting "or water use" after "energy consumption";

(B) in paragraph (1)(A), by inserting ", water use," after "energy consumption";

(C) in paragraph (1)(B), by striking out "or energy efficiency" and inserting in lieu thereof ", energy efficiency, or water use"; and

(D) in paragraph (2), by inserting before the period at the end the following: "or, with respect to showerheads, any regional authority that has jurisdiction within a State";

(2) in subsection (b)—

(A) in the material preceding paragraph (1), by striking out "or energy use of the covered product" and inserting in lieu thereof ", energy use, or water use of the covered product";

(B) by inserting before the semicolon at the end of paragraph (1) the following: ", or in the case of any portion of any regulation which establishes requirements for fluorescent or incandescent lamps or flow rate requirements for showerheads, was prescribed or enacted before the date of the enactment of the Comprehensive National Energy Policy Act"; and

(C) in paragraph (4), by inserting before the semicolon at the end the following: ", or is a regulation (or portion thereof) regulating fluorescent or incandescent lamps other than those to which section 325(i) is applicable, or is a regulation (or portion thereof) regulating showerheads other than those to which section 325(j) is applicable";

(3) in subsection (c)(1), by inserting before the semicolon at the end the following: ", except that a State regulation (or portion thereof) regulating fluorescent or incandescent lamps other than those to which section 325(i) is applicable shall be effective only until the effective date of a standard that is prescribed by the Secretary and is applicable to such lamps"; and

(4) in subsection (d)(1)—

(A) in subparagraph (A), by striking out "or energy efficiency" and inserting in lieu thereof ", energy efficiency, or water use";

(B) in subparagraph (B), by inserting "or water" after "energy"; and

(C) in subparagraph (C), by inserting "or water" after "energy" each place it appears.

SEC. 165. ENERGY CONSERVATION REQUIREMENTS FOR CERTAIN OTHER EQUIPMENT AND ENERGY EFFICIENCY LABELING FOR LUMINAIRES.

(a) STANDARDS FOR CERTAIN OTHER EQUIPMENT.—Section 346 of the Energy Policy and Conservation Act (42 U.S.C. 6317) is amended to read as follows:

"ENERGY CONSERVATION STANDARDS FOR CERTAIN OTHER EQUIPMENT

"SEC. 346. (a)(1) The Secretary shall, within 18 months after the date of the enactment of the Comprehensive National Energy Policy Act, prescribe testing requirements for those high-intensity discharge lamps, distribution transformers, and certain office equipment for which the Secretary makes a determination that energy conservation standards, or, in the case of certain office equipment, labeling, would result in significant energy savings.

"(2) The Secretary shall, within 18 months after the date on which testing requirements are prescribed by the Secretary pursuant to paragraph (1), prescribe, by rule, energy conservation standards for those high-intensity discharge lamps and distribution transformers for which the Secretary prescribed testing requirements under paragraph (1).

"(3) Any standard prescribed under paragraph (2) with respect to high-intensity discharge lamps shall apply to such lamps manufactured 36 months after the date such rule is published.

"(b)(1) The Secretary shall, within 24 months after the date of the enactment of the Comprehensive National Energy Policy Act, prescribe testing requirements for those small electric motors for which the Secretary makes a determination that energy conservation standards would be technically feasible and economically justified, and would result in significant energy savings.

"(2) The Secretary shall, within 24 months after the date on which testing requirements are prescribed by the Secretary pursuant to paragraph (1), prescribe, by rule, energy conservation standards for those small electric motors for which the Secretary prescribed testing requirements under paragraph (1).

"(3) Any standard prescribed under paragraph (2) shall apply to small electric motors manufactured 60 months after the date such rule is published or, in the case of small electric motors which require listing or certification by a nationally recognized testing laboratory, 84 months after such date. Such standards shall not apply to any small electric motor which is a component of a covered product under section 322(a) or a covered equipment under section 340.

"(c) In establishing any standard under this section, the Secretary shall take into consideration the criteria contained in section 325(n).

"(d)(1) The Secretary shall, within six months after the date on which testing requirements are prescribed by the Secretary pursuant to subsection (a) for certain office equipment, prescribe labeling requirements for such equipment.

"(2) The Secretary, within six months after the date on which energy conservation standards are prescribed by the Secretary for distribution transformers pursuant to subsection (a)(2) and, within six months after the date on which energy conservation standards are prescribed by the Secretary for small electric motors pursuant to subsection (b)(2), shall prescribe labeling requirements for such transformers and small electric motors, respectively.

"(3) The Federal Trade Commission shall, within six months after the date on which energy conservation standards are prescribed by the Secretary for high-intensity discharge lamps pursuant to subsection (a)(2), prescribe labeling requirements for such lamps.

"(e) Beginning on the date which occurs six months after the date on which a labeling rule is prescribed for a product under subsection (d), each manufacturer of a product to which such a rule applies shall provide a label which meets, and is displayed in accordance with, the requirements of such rule.

"(f)(1) After the date on which a manufacturer must provide a label for a product pursuant to subsection (e)—

"(A) each such product shall be considered, for purposes of paragraphs (1) and (2) of section 332(a), a new covered product to which a rule under section 324 applies; and

"(B) it shall be unlawful for any manufacturer or private labeler to distribute in commerce any new product—

"(i) in the case of high-intensity discharge lamps, distribution transformers, and small electric motors for which an energy conservation standard is prescribed under subsection (a)(2) or (b)(2), any such lamp, transformer, or small electric motor which is not in conformity with the applicable energy conservation standard; and

"(ii) in the case of certain office equipment to which a labeling rule is applicable under subsection (d)(1), any such office equipment which is not in conformity with the applicable labeling requirement prescribed for it under subsection (d)(1).

"(2) For purposes of section 333(a), paragraph (1) of this subsection shall be considered to be a part of section 332.".

(b) ENERGY EFFICIENCY LABELING FOR LUMINAIRES.—Part C of title III of such Act (42 U.S.C. 6311 et seq.) is amended by adding at the end the following new section:

"ENERGY EFFICIENCY LABELING FOR LUMINAIRES

"SEC. 347. (a)(1) Not later than one year after the date of the enactment of this Act, and in consultation with the National Electric Manufacturers Association, representatives of the lighting and electric utility industries, the National Institute of Standards and Technology, and other appropriate organizations, the Secretary shall provide financial and technical assistance to support the voluntary development of a national energy efficiency rating and labeling program for luminaires.

"(2) Such program shall set forth information that will enable purchasers of luminaires to make informed decisions about the energy efficiency and costs of alternative luminaires. Such information may include labels affixed to equipment in product showrooms, information printed in product catalogs and other promotional material, and other reasonable and appropriate mechanisms.

"(b) Not later than three years after the date of the enactment of this Act, the Secretary shall, by rule, establish a rating and testing program for luminaires under section 343 and 344 to meet the objectives of subsection (a). In developing such rule, if a national energy efficiency rating and labeling program was successfully developed under subsection (a), the Secretary shall adopt such program, unless the Secretary determines, by rule, that to do so would not meet the requirements of subsection (a).

"(c)(1) Beginning on the date which occurs six months after the date on which a labeling rule is prescribed for luminaires under subsection (b), each manufacturer of a luminaire to which such a rule applies shall provide a label which meets, and is displayed in accordance with, the requirements of such rule.

"(2) After the date on which a manufacturer must provide a label for a luminaire pursuant to paragraph (1), each such luminaire shall be considered, for purposes of paragraphs (1) and (2) of section 332(a), a new covered product to which a rule under section 324 applies.

"(d) For purposes of sections 343 and 344, luminaires shall be considered covered equipment under section 340 to the extent necessary to carry out this section.

"(e) There are authorized to be appropriated $750,000 for each of the fiscal years

1993 and 1994 to carry out the purposes of this section.".

(c) TECHNICAL AMENDMENT.—The table of contents of such Act is amended by striking out the item for section 346 and inserting in lieu thereof the following new items:

"Sec. 346. Energy conservation standards for certain other equipment.

"Sec. 347. Energy efficiency labeling for luminaires.".

SEC. 166. COOPERATIVE ADVANCED APPLIANCE AND EQUIPMENT DEVELOPMENT.

(a) IN GENERAL.—The Secretary of Energy shall establish and carry out a program, with funds available for such purpose, to assist utilities and appliance manufacturers in the early introduction of high-efficiency appliances and equipment. The purpose of this program shall be to promote the production and use of appliances and equipment which are substantially more efficient than required by Federal or State law.

(b) PLAN.—(1) Within 12 months after the date of enactment of this Act, the Secretary of Energy shall prepare, and submit to Congress, a plan for the program to be established under this section.

(2) Such plan shall identify candidate technologies, appliances, and equipment which meet the following criteria:

(A) The potential exists for substantial improvement in the technology's energy efficiency beyond the minimum established in Federal and State law.

(B) The potential for total energy savings at the national or regional level from widespread use of the technology is substantial.

(C) With an adequate volume of production, the technology is likely to be cost-effective for consumers.

(D) Electric, water, or gas utilities are prepared to support and promote the introduction of such appliances or equipment.

(E) Manufacturers are unlikely to undertake development and production of such appliances or equipment on their own, or development and production would be substantially accelerated by support to manufacturers.

(3) The program plan also shall—

(A) be developed in close consultation with utilities, appliance and equipment manufacturers, and other interested parties;

(B) describe the steps the Secretary of Energy will take to provide continuing coordination and assistance of utility efforts to speed the introduction of highly efficient appliances and equipment;

(C) describe proposals for the development and production of highly efficient appliances and equipment which would be jointly funded by the Secretary of Energy, utilities, and appliance manufacturers;

(D) identify methods by which Federal purchase of highly efficient appliances and equipment could assist the early introduction of such appliances and equipment and also assist utility and manufacturer efforts; and

(E) identify such additional budget authorizations as may be needed to carry out the plan.

SEC. 167. EVALUATION OF UTILITY EARLY REPLACEMENT PROGRAMS FOR APPLIANCES.

Within 1 year after the date of the enactment of this Act, the Secretary, in consultation with utilities and appliance manufacturers, shall evaluate and report to the Congress on the energy savings and environmental benefits of programs which are directed to the early replacement of older, less efficient appliances presently in use by consumers with existing products which are more efficient than required by Federal law.

Subtitle E—Miscellaneous

SEC. 171. COMMERCIAL APPLICATION OF ENERGY EFFICIENT LIGHTING TECHNOLOGY.

(a) PURPOSE.—The purpose of this section is to promote commercial application of energy efficient lighting technology.

(b) DEFINITION.—For purposes of this section, the term "energy efficient lighting" means lighting technologies, including but not limited to, advanced lighting technologies such as high intensity discharge, compact fluorescent, high efficiency fluorescent, and incandescent lamps; electronic ballasts; luminaires; day lighting strategies; shading strategies; and lighting controls, such as light sensors and continuous dimming systems.

(c) REGIONAL ENERGY EFFICIENT LIGHTING AND DEMONSTRATION CENTERS.—

(1) GRANTS FOR ESTABLISHMENT.—Not later than 12 months after the date of the enactment of this Act, the Secretary shall make grants to nonprofit institutions (or consortiums that may include nonprofit institutions, State and local governments, and utilities) to establish or enhance one regional energy efficient lighting demonstration center (hereafter in this section referred to as a "regional center") in each of the ten regions served by a Department of Energy regional support office.

(2) RESPONSIBILITIES.—Each regional center established under this subsection shall—

(A) hold special workshops for architects, lighting designers, and other professionals;

(B) prepare outreach materials and publications;

(C) provide information on energy efficient lighting technologies, design, installation, operation, and maintenance;

(D) display the latest energy efficient lighting technologies;

(E) serve as a clearing house to ensure that information about new energy efficient lighting technologies, including case studies of successful applications, is disseminated to end-users in the region; and

(F) study lighting needs of the region and make available region-specific lighting information to facilitate the adoption of cost-effective energy efficient lighting.

(3) APPLICATION.—Any nonprofit institution or consortium interested in receiving a grant under this subsection shall submit to the Secretary an application in such form and containing such information as the Secretary may require. A lighting center in existence on the date of the enactment of this section which is owned and operated by a nonprofit institution or a consortium as described in paragraph (1) shall be eligible for a grant under this subsection.

(4) SELECTION CRITERIA.—The Secretary shall select recipients of grants under this subsection on the basis of the following criteria:

(A) The capability of the grant recipient to establish a board of directors for the regional center composed of representatives from State and local governments, industry trade and professional associations, lighting manufacturers, electric utilities, electrical contractors, lighting designers, and nonprofit energy and environmental organizations.

(B) The demonstrated resources available to the grant recipient for carrying out this subsection.

(C) The demonstrated ability of the grant recipient to disseminate results of energy efficient lighting technology developments.

(D) The projects which the grant recipient proposes to carry out under the grant.

(E) The demonstrated ability of the grant recipient to carry out the responsibilities specified in paragraph (2).

(5) REQUIREMENT OF MATCHING FUNDS.—

(A) FEDERAL SHARE.—The Federal share of a grant under this subsection shall be 50 percent of the costs of establishing and operating the regional center.

(B) NON-FEDERAL CONTRIBUTIONS.—No grant may be made under this subsection in any fiscal year unless the recipient of such grant enters into such agreements with the Secretary as the Secretary may require to ensure that such recipient will provide non-Federal contributions in an amount not less than an amount equal to the Federal share. Such non-Federal contributions may be provided through donations by State governments, nonprofit institutions, foundations, corporations, electric utilities, and other non-Federal entities.

(6) ALLOCATION OF FUNDS.—Of the amounts available to carry out this subsection for any fiscal year, not more than **$500,000** shall be awarded to any regional center.

(7) TASK FORCE.—The Secretary shall establish a task force to—

(A) advise the Secretary on activities to be carried out by grant recipients;

(B) review and evaluate programs carried out by grant recipients; and

(C) make recommendations regarding possible future program modifications.

(8) MEMBERSHIP TERMS AND ADMINISTRATION OF TASK FORCE.—

(A) IN GENERAL.—The task force shall be composed of 25 members with expertise in the area of energy efficient lighting.

(B) APPOINTMENT.—Members of the task force shall be appointed by the Secretary as follows:

(i) Not less than 2 members shall be representatives from State or local energy offices.

(ii) Not less than 2 members shall be representatives from building industry trade or professional associations.

(iii) Not less than 2 members shall be representatives from engineering industry trade or professional associations.

(iv) Not less than 2 members shall be representatives from lighting manufacturers, design firms, or industry trade or professional associations.

(v) Not less than 2 members shall be representatives from electric utilities or related associations.

(vi) Not less than 2 members shall be representatives from electrical contractors or management companies.

(vii) Not less than 2 members shall be representatives from national laboratories.

(viii) Not less than 2 members shall be representatives from nonprofit energy or environmental organizations.

(C) GEOGRAPHIC REPRESENTATION.—Of the members appointed under this paragraph, the Secretary shall ensure that there is at least one member from each of the 10 regions in which a regional center is authorized to be established pursuant to paragraph (1).

(D) TERMS.—Members shall be appointed for a term of 3 years. A vacancy in the task force shall be filled in the manner in which the original appointment was made.

(E) PAY.—Members shall serve without pay. Each member shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(F) CHAIRPERSON.—The Chairperson and Vice Chairperson of the task force shall be elected by the members.

(G) Meetings.—The task force shall meet biannually and at the call of the Chairperson.

(H) Termination date inapplicable.—Section 14 of the Federal Advisory Committee Act shall not apply to the task force.

(9) Report.—The Secretary shall transmit annually to the Congress a report containing a detailed statement of the activities of regional centers established under this subsection, including the degree to which matching funds are being leveraged from private sources to operate such centers.

(10) Authorization of appropriations.—There is authorized to be appropriated for purposes of carrying out this subsection not more than $5,000,000 for each of fiscal years 1993, 1994, and 1995.

(d) State Energy Offices.—

(1) Workshops.—State energy offices are encouraged to supplement the activities of the regional centers established under subsection (c) in providing workshops for local building owners, developers, and facility energy and financial managers regarding energy efficient lighting. Such workshops shall be conducted in cooperation with the regional center for the region in which the State is located.

(2) Grants to states.—

(A) In general.—The Secretary may provide matching grants to States for the purposes of carrying out paragraph (1).

(B) Preference.—In awarding grants under this paragraph, the Secretary shall give preference to States in which a regional center has not been established.

(C) Application.—The Secretary shall prescribe the form and procedures for States to follow in applying for grants under this paragraph.

(D) Allocation of funds.—Of the amounts available to carry out this subsection for any fiscal year, not more than $100,000 shall be awarded to any State energy office.

(3) Report.—The Secretary shall transmit to the Congress an annual report containing a detailed description of the workshops supported by State energy offices on a State-by-State basis.

(4) Authorization of appropriations.—There is authorized to be appropriated for purposes of carrying out this subsection not more than $2,000,000 for each of fiscal years 1993, 1994, and 1995.

SEC. 172. ENERGY EFFICIENCY IN INDUSTRIAL FACILITIES.

(a) Industrial Energy Savings Targets.—

(1) In general.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall establish voluntary energy efficiency improvement targets for each major energy consuming industry specified in paragraph (5). The targets shall represent a percentage reduction in energy consumption per unit of production that the Secretary determines is cost effective and achievable by 1997.

(2) Targets for specific industries.—Within each major energy consuming industry specified in paragraph (5), the Secretary may also set voluntary energy efficiency improvement targets for industries specified in 3-digit or 4-digit Standard Industrial Classification code levels.

(3) Opportunity for public comment.—The Secretary shall seek input from industries affected by this section and provide an opportunity for public comment in establishing voluntary energy efficiency improvement targets.

(4) Modification of targets.—The Secretary, in consultation with the Administrator of the Energy Information Administration, shall assess the degree to which industries have achieved the targets established by this subsection and shall modify the targets every 5 years, beginning in 1997 for targets that shall become applicable in 2002.

(5) Definition.—For the purposes of this subsection, the term "major energy consuming industry" means the following industries:

(A) Food and kindred products.
(B) Textiles.
(C) Lumber and wood products.
(D) Paper.
(E) Chemicals.
(F) Petroleum.
(G) Stone, clay, and glass.
(H) Primary metals.
(I) Fabricated metal products.
(J) Transportation equipment.
(K) Such industries as the Secretary determines to be appropriate.

(b) Manufacturing Energy Consumption Survey.—Section 205(i)(1) of the Department of Energy Organization Act (42 U.S.C. 7135(i)(1)) is amended by striking out "on at least a triennial basis" and inserting in lieu thereof the following: "at least once every two years".

(c) Award Program.—The Secretary shall establish an annual award program to recognize industry associations and individual industrial companies that have significantly improved their energy efficiency.

(d) Grants.—

(1) In general.—The Secretary shall make grants to industry associations (or otherwise as the Secretary determines is appropriate) to support achievement of the voluntary energy efficiency improvement targets established under subsection (a) through educational and promotional projects.

(2) Awarding of grants.—The Secretary shall request project proposals and provide grants on a competitive basis each year. In evaluating grant proposals under this paragraph, the Secretary shall consider—

(A) potential energy savings;
(B) potential environmental benefits;
(C) the degree of cost sharing;
(D) the degree to which new and innovative technologies will be encouraged;
(E) the level of industry involvement; and
(F) estimated project cost effectiveness.

(3) Eligible projects.—Projects eligible for grants may include the following:

(A) Workshops.
(B) Training seminars.
(C) Handbooks.
(D) Newsletters.
(E) Data bases.
(F) Other activities approved by the Secretary.

(4) Limitation; cost sharing.—A grant provided under this subsection shall not exceed $250,000 and shall not exceed 75 percent of the total cost of the project for which the grant is made.

(e) Authorization.—There are authorized to be appropriated such sums as are necessary to carry out this section.

SEC. 173. PROCESS-ORIENTED INDUSTRIAL ENERGY EFFICIENCY.

(a) Definitions.—For the purposes of this section—

(1) the term "covered industry" means the food and food products industry, lumber and wood products industry, petroleum and coal products industry, and all other manufacturing specified in Standard Industrial Classification Codes 20 through 39 (or successor classification codes);

(2) the term "process-oriented industrial assessment" means—

(A) the identification of opportunities in the production process (from the introduction of materials to final packaging of the product for shipping) for—

(i) improving energy efficiency;
(ii) reducing environmental waste; and
(iii) technological improvements designed to increase competitiveness and achieve cost-effective product quality enhancement;

(B) the identification of opportunities for improving the energy efficiency of lighting, heating, ventilation, air conditioning, and building envelope systems operating outside of the production process; and

(C) the identification of opportunities for using renewable energy technology both in the production process and in the systems described in subparagraph (B);

(3) the term "Secretary" means the Secretary of Energy; and

(4) the term "utility" means any person, State agency (including any municipality), or Federal agency, which sells electric or gas energy to retail customers.

(b) Grant Program—

(1) Use of funds.—The Secretary shall make grants to States to be used for the following purposes:

(A) To promote, through appropriate institutions such as universities, nonprofit organizations, State and local government entities, technical centers, utilities, and trade organizations, the use of energy-efficient technologies in covered industries.

(B) To establish programs to train individuals (on an industry-by-industry basis) in conducting process-oriented industrial assessments and to encourage the use of such trained assessors.

(C) To assist utilities in developing, testing, and evaluating energy efficiency programs and technologies for industrial customers in covered industries.

(2) Consultation.—States receiving grants under this subsection shall consult with utilities and industry representatives, as appropriate, in determining the most effective use of such funds consistent with the requirements of paragraph (1).

(3) Eligibility criteria.—Not later than 6 months after the date of the enactment of this Act, the Secretary shall establish eligibility criteria for grants made pursuant to this subsection. Such criteria shall require a State applying for a grant to demonstrate that such State, by legislation or regulation—

(A) allows utilities to recover the prudently incurred costs of providing process-oriented industrial assessments;

(B) requires least-cost planning as provided in section 111(d)(7) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) (as added by section 131(a) of this Act);

(C) provides for investments in conservation and demand management as provided in section 111(d)(8) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) (as added by section 131(a) of this Act); and

(D) encourages utilities to provide to covered industries served—

(i) process-oriented industrial assessments; and

(ii) financial incentives for implementing energy efficiency improvements.

(4) Allocation of funds.—Grants made pursuant to this subsection shall be allocated each fiscal year among States meeting the criteria of paragraph (3) who have submitted applications 60 days before the first day of such fiscal year. Such allocation shall be made in accordance with a formula to be prescribed by the Secretary based on each such State's share of value added in industry

(as determined by the Census of Manufactures) as a percentage of the value added by all such States.

(5) Renewal of Grants.—A grant under this subsection may be renewed for 1 additional year after 2 consecutive fiscal years during which a State receives a grant under this subsection, subject to the availability of funds, if—

(A) the Secretary determines that the funds made available to the State during the previous 2 years were used in a manner required under paragraph (1); and

(B) such State demonstrates, in a manner prescribed by the Secretary, utility participation in programs established pursuant to this subsection.

(6) Coordination with other Federal Programs.—In carrying out the functions described in paragraph (1), States shall, to the extent practicable, coordinate such functions with activities and programs conducted by the Energy Analysis and Diagnostic Centers of the Department of Energy and the Manufacturing Technology Centers of the National Institute of Standards and Technology.

(c) Other Federal Assistance.—

(1) Model assessment guidelines.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall, by contract with one or more nonprofit organizations expert in process-oriented industrial energy efficiency technology, establish and update as appropriate, on an industry-by-industry basis, model guidelines for conducting process-oriented industrial assessments. Such guidelines shall be made available to State governments, public utility commissions, utilities, and other interested parties.

(2) Directory.—The Secretary shall establish a nationwide directory, on an industry-by-industry basis, of organizations offering industrial energy efficiency technologies and services consistent with the purposes of this section. Such directory shall be made available to State governments, public utility commissions, utilities, industry representatives, and other interested parties.

(3) Award program.—The Secretary shall establish an annual award program to recognize utilities operating outstanding or innovative industrial energy efficiency technology assistance programs.

(4) Meetings.—The Secretary shall convene annual meetings of State energy officials, public utility commission officials, industry and utility representatives, and other interested parties for the purpose of developing strategies to—

(A) transfer information among States and utilities;

(B) encourage States to establish programs for encouraging utilities to provide energy efficiency financial and technical assistance to industry;

(C) encourage effective implementation of such programs; and

(D) provide coordination between such programs which are conducted by States and utilities and Federal programs such as those conducted by the Energy Analysis and Diagnostic Centers of the Department of Energy and the Manufacturing Technology Centers of the National Institute of Standards and Technology.

(d) Report.—Not later than 2 years after the date of the enactment of this Act, and annually thereafter, the Secretary shall submit to the Congress a report which—

(1) identifies barriers encountered in implementing this section;

(2) makes recommendations for overcoming such barriers;

(3) documents the results achieved as a result of the programs established and grants awarded pursuant to this section;

(4) reviews any difficulties encountered by industry in securing and implementing energy-efficient technologies recommended in process-oriented industrial assessments or otherwise identified as a result of programs established pursuant to this section; and

(5) recommends methods for further promoting the distribution and implementation of energy-efficient technologies consistent with the purposes of this section.

(e) Authorization.—There are authorized to be appropriated $8,000,000 for fiscal year 1993, $10,000,000 for fiscal year 1994, and $12,000,000 for fiscal year 1995 for the purposes of carrying out subsection (b).

SEC. 174. MISCELLANEOUS.

(a) Energy Information Administration.—Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding after subsection (i) the following new subsections:

"(j) With regard to renewable energy, the Administrator shall, annually and on a State-by-State basis, including where applicable Indian reservations, as defined in section 2602(2)—

"(1) collect and analyze data on the number of new wind machines installed, the power production of such machines, total installed capacity, kilowatt hours produced, and measures of wind turbine efficiency as the Administrator deems appropriate;

"(2) collect and analyze data on the new installed capacity of geothermal power projects, the total installed capacity, kilowatt hours produced, and measures of geothermal powerplant efficiency the Administrator deems appropriate;

"(3) collect and analyze data on the new installed capacity of biomass fueled powerplants by type of biomass fuel (including wood, municipal solid waste, agricultural residues, methane, and any others the Administrator deems appropriate), heating systems, total installed capacity, kilowatt hours produced, British thermal units produced from industrial process heating systems and other information that the Administrator deems appropriate;

"(4) collect and analyze data on shipments of solar thermal collectors (determining how much of such shipments are installed domestically by State, and estimating the amount of energy produced annually from such collectors), the amount of solar thermal electric power capacity installed each year, and the total capacity and number of kilowatt hours generated each year; and

"(5) determine the percentage of photovoltaic production exported versus the percentage installed in the United States for remote and utility connected applications.

"(k) With regard to energy use, the Administrator shall conduct surveys of residential, commercial, and industrial energy use at least once every three years and make such information available to the public on a State-by-State basis.

"(l) With regard to utility demand side management, the Administrator shall, when surveying electric utilities, collect information on demand side management programs conducted by such utilities, including information regarding the types of demand side management programs being operated, the quantity of measures installed, expenditures on demand side management programs, and estimates of energy savings resulting from such programs.".

(b) Repeal.—The National Energy Extension Service Act, title V of Public Law 95-39, is repealed.

(c) District Heating and Cooling Programs.—(1) The Secretary of Energy, in consultation with appropriate industry organizations, shall conduct a study to—

(A) assess existing district heating and cooling technologies to determine cost-effectiveness, technical performance, energy efficiency, and environmental impacts compared to alternative methods for heating and cooling buildings;

(B) estimate the economic value of benefits that may result from implementation of district heating and cooling systems but that are not currently recognized, such as reduced emissions of air pollutants, local economic development, and energy security;

(C) evaluate the cost-effectiveness, including the economic value referred to in subparagraph (B), of cogenerated district heating and cooling technologies compared to other alternatives for generating or conserving electricity; and

(D) assess, and make recommendations for reducing, institutional and other constraints on the implementation of district heating and cooling systems.

(2) Within 24 months after the date of the enactment of this Act, the Secretary shall transmit to the Congress a report containing the findings and conclusions made by the Secretary as a result of the study conducted under paragraph (1).

(3) Based on such findings and conclusions, the Secretary shall, within 24 months after the date of the enactment of this Act, establish and carry out a program, with funds available for such purpose, to—

(A) provide information to city governments, electric utilities, and others about the technical performance, efficiency, costs, environmental aspects, and other characteristics of district heating and cooling systems; and

(B) assess the prospects for implementing new or expanded district heating and cooling systems, taking into consideration the needs of local governments and electric utilities and other factors.

(4) The Secretary may provide, with funds available for such purpose, technical and financial assistance to local governments, on a cost-share basis, for the assessment and design of district heating and cooling systems.

(d) Study and Report.—(1) The Secretary of Energy shall, in consultation with the appropriate industry representatives, conduct a study to assess the cost-effectiveness, technical performance, energy efficiency, and environmental impacts of active noise and vibration cancellation technologies that use fast adapting algorithms.

(2) In carrying out such study, the Secretary shall—

(A) estimate the potential for conserving energy and the economic and environmental benefits that may result from implementing active noise and vibration abatement technologies in demand-side management; and

(B) evaluate the cost effectiveness of active noise and vibration cancellation technologies as compared to other alternatives for reducing noise and vibration.

(3) The Secretary shall transmit to the Congress, within 18 months after the date of the enactment of this Act, a report containing the findings and conclusions of the study carried out under this subsection.

(4) The Secretary may, based on the findings and conclusions of such study, carry out at least one project designed to demonstrate the commercial application of active noise and vibration cancellation technologies using fast adapting algorithms in products or equipment with a significant potential for increased energy efficiency.

TITLE II—NATURAL GAS PIPELINES

SEC. 201. FEWER RESTRICTIONS ON CERTAIN NATURAL GAS IMPORTS.

(a) Section 3 of the Natural Gas Act (15 U.S.C. 717b) is amended by inserting "(a)" before "After six months"; and by adding at the end a new subsection as follows:

"(b) With respect to natural gas which is imported into the United States from a nation with which there is in effect a free trade agreement requiring national treatment for trade in natural gas, and with respect to liquefied natural gas—

"(1) the importation of such natural gas shall be treated as a 'first sale' within the meaning of section 2(21) of the Natural Gas Policy Act of 1978;

"(2) neither the Commission nor a State may prohibit or condition the importation of such natural gas, nor treat such natural gas while it is within the United States differently than domestic natural gas, nor permit any pipeline transporting such natural gas to maintain rates, terms, or conditions of service for such natural gas different from those it maintains for domestic natural gas; and

"(3) for purposes of subsection (a), the importation of such natural gas shall be deemed to be consistent with the public interest, and applications for such importation shall be granted without modification or delay.".

(b) Section 4 of the Natural Gas Act (15 U.S.C. 717c) is amended by adding at the end the following new subsection:

"(h) In exercising its authority under this section and sections 5 and 7 of this Act with respect to the transportation rates and charges of an interstate pipeline (as such term is defined in section 2(15) of the Natural Gas Policy Act of 1978), the Commission shall base any determination of whether rates and charges are just and reasonable on costs and other relevant factors relating directly to an interstate pipeline's transportation function, and not on any factors relating to the natural gas being transported by the interstate pipeline or on rates and charges with respect to pipelines not subject to the Commission's jurisdiction.".

SEC. 202. OPTIONAL CERTIFICATES FOR CERTAIN PROJECTS.

(a) OPTIONAL CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY.—Section 7(c)(1) of the Natural Gas Act (15 U.S.C. 717f(c)(1)) is amended by adding at the end the following new subparagraph:

"(D) OPTIONAL CERTIFICATE.—

"(i) ISSUANCE.—

"(I) CONSTRUCTION OF NEW FACILITIES.—Upon application by any natural-gas company, or person which will become a natural-gas company upon completion of any proposed construction or extension, the Commission shall issue an optional certificate of public convenience and necessity for the construction, extension, and operation of, and transportation of natural gas through, open access facilities constructed after the date of enactment of this subparagraph, without requiring a hearing or further proof that the public convenience and necessity would be served by those facilities, if the requirements of this subparagraph are met.

"(II) CONVERSION OF EXISTING FACILITIES.—Upon application by any natural-gas company, or person which will become a natural-gas company upon completion of any proposed conversion or operation, the Commission shall issue an optional certificate of public convenience and necessity for the conversion and operation of existing facilities which are not subject to rate or abandonment regulation, and the transportation of natural gas through such facilities, provided that such facilities were not constructed under section 311 of the Natural Gas Policy Act of 1978 or this section, without requiring a hearing or further proof that the public convenience and necessity would be served by those facilities, if the requirements of this subparagraph are met.

"(III) NONEXCLUSIVITY.—An optional certificate issued under subclause (I) or (II) shall be nonexclusive and nonprejudicial to any other authorization under this Act or the Natural Gas Policy Act of 1978.

"(ii) CONDITIONS.—

"(I) IMPAIRMENT OF ADEQUATE SERVICE.—The Commission shall issue an optional certificate under this subparagraph unless it finds that the construction, extension, conversion, and operation of facilities will impair any certificate holder's ability to render adequate service to its customers.

"(II) ENVIRONMENTAL AND OTHER REQUIREMENTS.—The Commission shall attach to an optional certificate issued under this subparagraph conditions respecting the environment, including mitigation measures and alternate routes, and other conditions to ensure compliance with requirements under environmental and other applicable laws.

"(III) STAND ALONE PRICING.—No costs or expenses incurred in relation to the construction, extension, conversion, and operation of facilities, or the sale of facilities, covered by an optional certificate issued under this subparagraph may be included in the rates and charges of any other rate schedule filed with the Commission under this Act or the Natural Gas Policy Act of 1978.

"(IV) NO CREDITING.—The Commission shall not require the holder of an optional certificate issued under this subparagraph to credit any revenues received in relation to providing transportation under such certificate, or the sale of facilities authorized under such certificate, to any other rate filed with the Commission under this Act or the Natural Gas Policy Act of 1978.

"(V) PREVENTION OF DELAY.—Notwithstanding section 15(a) of this Act, the holder of an optional certificate issued under this subparagraph shall not participate in any proceedings (other than those it may initiate) for the construction, extension, conversion, or operation of facilities that would serve the same market served by the facilities authorized by the holder's optional certificate. The Commission may waive this subclause if the participation of the holder of an optional certificate will help expedite a proceeding.

"(VI) SEPARATE BOOKS.—The holder of an optional certificate issued under this subparagraph shall maintain a separate system of books, accounts, and records for the facilities and transportation authorized under such certificate.

"(iii) NEGOTIATION RULE.—The Commission shall ensure that all agreements between the certificate holder and all persons, including affiliates of the certificate holder, contracting for transportation utilizing facilities authorized in an optional certificate issued under this subparagraph are negotiated at arms length (or in the case of affiliates, the substantial equivalent thereof).

"(iv) PUBLIC NOTICE.—The Commission shall provide reasonable public notice of the application for the issuance of an optional certificate under this subparagraph, including notification at the time of application to the State commission for the State in which the pipeline facility will be located.

"(v) RATES REQUIRED TO BE PUBLIC.—Not later than 60 days before the commencement of transportation pursuant to an optional certificate issued under this subparagraph, or at such time as the Commission may find necessary and reasonable, the certificate holder shall file with the Commission copies of all agreements between the certificate holder and all persons, including affiliates of the certificate holder, contracting for transportation utilizing facilities authorized in the optional certificate. After the commencement of such transportation, the certificate holder shall file with the Commission, not later than 10 days before the initiation of any new transportation utilizing such facilities, a copy of any new or amended agreement entered into by the certificate holder and any person, including any affiliate of the certificate holder, contracting for transportation utilizing such facilities. The Commission shall keep and make available for public inspection all agreements required to be filed with the Commission pursuant to this clause.

"(vi) NEGOTIATED RATES DEEMED LAWFUL; EXCEPTION.—The rates, charges, classifications, or practices for the transportation of natural gas contained in the agreements filed with the Commission pursuant to clause (v) shall be deemed to be lawful within the meaning of sections 4 and 5 of this Act. If, however, the Commission, after a hearing held upon the petition of a person who has made a bona-fide offer to enter into a contract for the transportation of natural gas utilizing facilities authorized in an optional certificate issued under this subparagraph, finds that the failure to provide a requested rate, charge, classification, or practice in connection with such requested transportation is an unjustifiable, effective denial of access to such facilities, the Commission shall determine the rates, charges, classifications, or practices which allow access, and shall fix the same by order. The Commission may not order the requested transportation to the extent that it finds that transportation capacity is not available. Unless the Commission issues a final order on a petition filed pursuant to this clause within 120 days after it is filed, such petition shall be deemed denied.".

(b) NONAPPLICABILITY OF ABANDONMENT RULE.—Section 7(b) of the Natural Gas Act (15 U.S.C. 717c(b)) is amended by adding at the end the following: "This subsection shall not apply to any facility or transportation certificated pursuant to subsection (c)(1)(D) of this section.".

(c) NONAPPLICABILITY OF NATURAL GAS ACT SECTION 4 PROCEDURES.—Section 4 of the Natural Gas Act (15 U.S.C. 717c) is amended by adding the following after subsection (e):

"(f) Subsections (c), (d) and (e) of this section shall not apply to the transportation of natural gas through facilities authorized by a certificate of public convenience and necessity issued under section 7(c)(1)(D) of this Act.".

(d) NONAPPLICABILITY OF NATURAL GAS ACT SECTION 5 PROCEDURES.—Section 5(a) of the Natural Gas Act (15 U.S.C. 717d(a)) is amended by adding at the end the following: "This subsection shall not apply to any rate, charge, classification, or practice by a natural-gas company in connection with the transportation of natural gas through facilities authorized by a certificate issued under section 7(c)(1)(D) of this Act.".

SEC. 203. TRANSPORTATION UNDER SECTION 311 OF THE NATURAL GAS POLICY ACT OF 1978.

(a) AMENDMENT.—Section 311 of the Natural Gas Policy Act of 1978 (15 U.S.C. 3371) is amended—

(1) in the section head, by inserting "; **CONSTRUCTION**" after "**SALES AND TRANSPORTATION**";

(2) in the subsection head for subsection (a), by inserting "; CONSTRUCTION" after "APPROVAL OF TRANSPORTATION";

(3) by striking subsection (a)(1), and inserting in lieu thereof the following:

"(1) INTERSTATE PIPELINES.—

"(A) IN GENERAL.—The Commission may, by rule or order, authorize any interstate pipeline to transport natural gas on behalf of—

"(i) any intrastate pipeline;

"(ii) any local distribution company; or

"(iii) any other person, including such interstate pipeline.

"(B) JUST AND REASONABLE RATES.—The rates and charges of any interstate pipeline with respect to any transportation authorized under subparagraph (A) shall be just and reasonable (within the meaning of the Natural Gas Act).

"(C) NONDISCRIMINATORY TRANSPORTATION.—Any transportation authorized under subparagraph (A) shall not be unjust, unreasonable, unduly discriminatory, or preferential (within the meaning of the Natural Gas Act).

"(D) CONSTRUCTION.—60 days after notification to the State commission (as such term is defined in the Natural Gas Act) for the State in which the pipeline facility will be located, an interstate pipeline may construct facilities of any size or capacity to be used solely for transportation provided under this subsection.";

(4) by striking subsection (a)(2)(A), and inserting in lieu thereof the following:

"(A) IN GENERAL.—The Commission may, by rule or order, authorize any intrastate pipeline to transport natural gas on behalf of—

"(i) any interstate pipeline;

"(ii) any local distribution company served by an interstate pipeline; or

"(iii) any other person, including such intrastate pipeline."; and

(5) by adding at the end the following new subsection:

"(d) PROGRAMMATIC ENVIRONMENTAL IMPACT STATEMENT.—The Commission shall prepare a programmatic environmental impact statement under the National Environmental Policy Act of 1969 to accompany the regulations to implement the amendments to this section made by the Comprehensive National Energy Policy Act. The programmatic environmental impact statement shall be prepared in accordance with the regulations of the Council on Environmental Quality implementing the National Environmental Policy Act of 1969.".

(b) TABLE OF CONTENTS AMENDMENT.—The item relating to section 311 in the table of contents of the Natural Gas Policy Act of 1978 is amended to read as follows:

"Sec. 311. Authorization of certain sales and transporation; construction.".

SEC. 204. RULES IN LOCAL DISTRIBUTION COMPANY BYPASS CASES.

(a) NOTICE.—In any case where service by a natural gas company under section 7(c)(1)(D) of the Natural Gas Act or section 311 of the Natural Gas Policy Act of 1978 would displace existing service by a local distribution company, no contract for such service shall be binding on the buyer, and no such service shall commence, before 60 days after notice to the local distribution company whose service would be displaced.

(b) RECOVERY OF TAKE OR PAY COSTS.—In any case where service by a natural gas company under section 7(c)(1)(D) of the Natural Gas Act or section 311 of the Natural Gas Policy Act of 1978 displaces existing service by a local distribution company, such natural gas company shall not recover from such local distribution company any take or pay costs allocated by the Federal Energy Regulatory Commission on a volumetric basis to the recipient of the new service. Such natural gas company may not reallocate costs not recoverable from the local distribution company by reason of this subsection to any other service provided by such natural gas company, except that those costs may be included in the rates charged to the recipient of the new service.

(c) APPLICABILITY.—This section shall apply to service under section 311 of the Natural Gas Policy Act of 1978 only if such service commences or will commence after the date of enactment of this Act.

(d) DEFINITIONS.—For purposes of this section—

(1) the term "local distribution company" means—

(A) a local distribution company, as such term is defined in section 2(17) of the Natural Gas Policy Act of 1978; and

(B) a holder of a service area determination described in section 7(f)(2) of the Natural Gas Act; and

(2) the term "natural gas company" has the meaning given the term "natural-gas company" in section 2(6) of the Natural Gas Act.

SEC. 205. THIRD PARTY CONTRACTING BY THE FEDERAL ENERGY REGULATORY COMMISSION FOR NATURAL GAS ACT FACILITIES.

(a) THIRD PARTY CONTRACTING.—Section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) is amended by adding the following after paragraph (2):

"(3) THIRD PARTY CONTRACTING.—

"(A) GENERAL RULE.—Where the Commission is required to prepare a draft or final environmental impact statement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) in connection with applications for authority to construct, extend, or operate facilities under this Act, the Commission shall permit, at the election of the applicant, a contractor, consultant, or other person funded by the applicant to prepare such environmental impact statement for the Commission. Such contractor, consultant, or other person shall be selected by the applicant from among a list of individuals or companies determined by the Commission to be qualified to do such work. The Commission shall establish the scope of work for the environmental impact statement, and procedures to oversee the preparation of the statement and to ensure that the contractor, consultant, or other person has no financial or other potential conflict of interest in the outcome of the proceeding. To determine the scope of work, the Commission shall institute a scoping process in accordance with regulations issued by the Council on Environmental Quality.

"(B) ENVIRONMENTAL ASSESSMENTS.—Where an environmental assessment is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) in connection with an application for authority to construct, extend, or operate facilities under this Act, the Commission shall permit an applicant, or a contractor, consultant, or other person selected by the applicant, to prepare such environmental assessment. The Commission shall institute procedures, including preapplication consultations, to advise potential applicants of studies or other information related to such environmental assessment foreseeably required by the Commission. The Commission shall allow the filing of such environmental assessment as part of the application.

"(C) RELATIONSHIP TO OTHER LAW.—Nothing in this paragraph shall be construed to—

"(i) relieve the Commission of its responsibilities to review and approve or disapprove environmental documents or to otherwise carry out its responsibilities under the National Environmental Policy Act of 1969; or

"(ii) supersede the responsibility of any Federal agency under any Federal statute, including the National Environmental Policy Act of 1969.

"(D) FUNDS NOT CONSIDERED APPROPRIATIONS.—Funds paid to a contractor, consultant, or other person pursuant to this paragraph shall not be considered an appropriation to the Commission, except as otherwise specified in appropriations Acts.".

(b) COMMUNICATIONS WITH THE COMMISSION.—The Federal Energy Regulatory Commission, within 1 year after the date of enactment of this Act, shall amend its rules governing ex parte communications to clarify that the prohibitions contained in such rules do not apply to communications between the Commission's environmental advisory staff and other Federal and State agencies that are cooperating agencies for purposes of compliance with title I of the National Environmental Policy Act of 1969 (42 U.S.C. 4331–35). In the event of a communication between such parties, an accurate public record of all such communications shall be kept, and any party to the proceeding with respect to which such communication was made may respond in writing to such communication.

(c) NEPA COMPLIANCE.—Except as provided in sections 203(d) and 205, nothing in this title or the amendments made by this title shall be construed to modify, impair, or supersede the applicability and operation of the National Environmental Policy Act of 1969.

SEC. 206. NEW RATES AND JOINT THROUGH RATES.

(a) NOTICE OF CHANGES.—The first and third sentences of section 4(d) of the Natural Gas Act (17 U.S.C. 717c(d)) are amended by striking "thirty days' notice" and inserting in lieu thereof "sixty days' notice".

(b) JOINT RATES.—Section 4 of the Natural Gas Act (15 U.S.C. 717c) is amended by adding after subsection (f) the following new subsection:

"(g) Under such rules and regulations as the Commission may prescribe to preclude anticompetitive conduct, natural-gas companies may jointly file with the Commission rates for the sequential transportation of natural gas through their facilities.".

SEC. 207. UTILIZATION OF INFORMAL RULEMAKING PROCEDURES.

The first sentence of section 403(c) of the Department of Energy Organization Act (42 U.S.C. 7173(c)) is amended to read as follows: "Any function described in section 402 of this Act which relates to the establishment of rates and charges under the Federal Power Act or to the establishment of rates and charges, the issuance of a certificate of public convenience and necessity, or the abandonment of facilities and services under the Natural Gas Act may be conducted by rulemaking procedures.".

SEC. 208. FASTER ISSUANCE AND REVIEW OF COMMISSION ORDERS.

(a) NATURAL GAS ACT AMENDMENTS.—

(1) REHEARING.—Section 19(a) of the Natural Gas Act (15 U.S.C. 717r(a)) is amended by striking "Unless the Commission acts upon the application for rehearing within thirty days after it is filed, such application may be deemed to have been denied." and inserting in lieu thereof "Unless the Commission issues a final order on the application for rehearing within 60 days after it is filed, such application shall be deemed denied, except that the Commission may, for good cause, extend the period for rehearing an additional 90 days or, in the case of a rulemaking proceeding, an additional 120 days.".

(2) COURT REVIEW.—Section 19(b) of the Natural Gas Act (15 U.S.C. 717r(b)) is amended by striking the first and second sentences and inserting in lieu thereof the following: "Any party to a proceeding under this Act aggrieved by an order issued by the Commission in such proceeding may obtain a review of such order in the circuit court of appeals of the United States for any circuit wherein the natural-gas company to which the order relates is located or has its principal place of business, or in the United States Court of Appeals for the District of Columbia, by filing in such court, within 30 days after the order of the Commission upon the application for rehearing, a written petition praying that the order of the Commission be modified or set aside in whole or in part. The petition shall set forth specifically the ground or grounds upon which such petition is based. A copy of such petition shall forthwith be transmitted by the clerk of the court to the Chairman of the Commission and thereupon the Commission shall file with the court the record upon which the order complained of was entered, as provided in section 2112 of title 28, United States Code.".

(b) NATURAL GAS POLICY ACT OF 1978 AMENDMENTS.—

(1) REHEARING.—Section 506(a)(2) of the Natural Gas Policy Act of 1978 (15 U.S.C. 3416(a)(2)) is amended by striking "Unless the Commission acts upon such application for rehearing within 30 days after it is filed, such application shall be deemed to have been denied." and inserting in lieu thereof "Unless the Commission issues a final order on the application for rehearing within 60 days after it is filed, such application shall be deemed denied, except that the Commission may, for good cause, extend the period for rehearing an additional 90 days or, in the case of a rulemaking proceeding, an additional 120 days.".

(2) COURT REVIEW.—Section 506(a)(4) of the Natural Gas Policy Act (15 U.S.C. 3416(a)(4)) is amended by striking the second and third sentences and inserting the following in lieu thereof: "Review shall be obtained by filing a written petition, requesting that such order be modified or set aside in whole or in part, in such Court of Appeals within 30 days after the final action of the Commission on the application for rehearing required under paragraph (2). The petition shall set forth specifically the ground or grounds upon which such petition is based. A copy of such petition shall forthwith be transmitted by the clerk of the court to the Chairman of the Commission and thereupon the Commission shall file with the court the record upon which the order complained of was entered, as provided in section 2112 of title 28, United States Code.".

SEC. 209. STREAMLINED CERTIFICATE PROCEDURES.

(a) UNOPPOSED APPLICATIONS.—Section 7(c)(1) of the Natural Gas Act (15 U.S.C. 717f(c)(1)) is amended by striking subparagraph (B) and inserting in lieu thereof the following:

"(B) UNOPPOSED APPLICATIONS.—In any case not described in the proviso of subparagraph (A), the Commission shall file notice in the Federal Register of the proposed certificate of public convenience and necessity as soon as the required information in connection therewith has been received by the Commission. If no party has filed a protest or objection in response to such notice within 60 days after publication of such notice, or if all protests and objections are withdrawn, the certificate of public convenience and necessity shall, after completion by the Commission of any responsibilities under the National Environmental Policy Act of 1969, be issued.

"(C) HEARINGS; EMERGENCY CERTIFICATES.—

"(i) HEARING REQUIREMENT.—If a party has filed a protest or objection that has not been withdrawn, the Commission shall set the matter for hearing and shall give such reasonable notice of the hearing thereon to all interested persons as in its judgment may be necessary under rules and regulations to be prescribed by the Commission; and the application shall be decided in accordance with the procedure provided in subsection (e) of this section and such certificate shall be issued or denied accordingly. Within 90 days after the date of enactment of the Comprehensive National Energy Policy Act, the Commission shall institute a rulemaking to establish a procedure for dealing expeditiously with protests which do not raise material issues of fact necessitating an evidentiary hearing.

"(ii) CONCLUSIVE EVIDENCE OF NEED.—In a hearing under this subparagraph, proof of binding contractual commitments by bona fide shippers for firm natural gas service to be rendered utilizing substantially all the capacity of the facilities proposed to be constructed or extended shall be conclusive evidence of the need for such proposed service and facilities, and shall be sufficient to dismiss any claim of mutual exclusivity by another applicant.

"(iii) PHASED CERTIFICATE PROCEDURES.—In a hearing under this subparagraph, the Commission, where appropriate, may phase its consideration of issues raised in connection with the application and may issue an initial order containing preliminary findings with respect to such issues. Notwithstanding the preliminary findings in such initial order, the issuance of a certificate of public convenience and necessity shall be subject to a final order based upon the complete record of the hearing under this subparagraph.

"(iv) EMERGENCY CERTIFICATE.—The Commission may issue a temporary certificate in cases of emergency, to assure maintenance of adequate service or to serve particular customers, without notice or hearing, pending the determination of an application for a certificate, and may be regulation exempt from the requirements of this section temporary acts or operations for which the issuance of the certificate will not be required in the public interest."

(b) CERTIFICATE NOT REQUIRED FOR REPLACEMENT FACILITIES.—Section 7(c)(1) of the Natural Gas Act (15 U.S.C. 717f(c)(1)) is amended by adding at the end the following new subparagraph:

"(E) CERTAIN REPLACEMENT FACILITIES.—The replacement or repair of physically deteriorated or obsolete facilities shall not be subject to any certification requirements of this subsection if—

"(i) such replacement or repair does not result in a reduction or abandonment of service by means of such facilities;

"(ii) such replacement or repair has substantially equivalent designed delivery capacity as the particular facilities being replaced or repaired; and

"(iii) the cost of such replacement or repair does not exceed $20,000,000 per project, as adjusted pursuant to the implicit price deflator for gross national product.".

(c) PRIORITY PROJECTS.—Section 7(c)(1) of the Natural Gas Act (15 U.S.C. 717f(c)(1)) is amended by adding at the end the following new subparagraph:

"(F) PRIORITY PROJECTS.—(i) If the Chairman of the Commission finds that the national interest requires expeditious construction or extension of facilities for the transportation of natural gas—

"(I) over a specific route;

"(II) from a specific gas-producing area; or

"(III) into a specific gas-consuming market,

the Chairman may designate facilities needed to serve such route, area, or market as a priority project for purposes of this subparagraph.

"(ii) If the Chairman designates facilities as a priority project under clause (i), the Commission shall issue, within such period as the Chairman may prescribe in such designation order, a certificate of public convenience and necessity under this section to authorize one or more proposals for the construction or extension of the facilities so designated. The Commission may impose such conditions under subsection (e) as it determines the public convenience and necessity require.

"(iii)(I) The Commission shall provide public notice and reasonable opportunity, consistent with time limits under the designation order, for the presentation of alternative proposals to construct or extend facilities designated as a priority project under this subparagraph, and for presentation of written data, views, and arguments on such proposals.

"(II) Sections 556 and 557 of title 5, United States Code, shall not apply to Commission proceedings under this subparagraph.

"(III) Nothing in this subparagraph shall affect the Commission's responsibility to comply with the National Environmental Policy Act of 1969.

"(iv) Actions taken under this subparagraph, and the validity of this subparagraph, shall be subject to judicial review in the same manner as are actions and provisions under section 10(a), (b), and (c)(1) and (2) of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719h(a), (b), and (c)(1) and (2)).".

SEC. 210. EXPEDITED FEDERAL ENERGY REGULATORY COMMISSION RULES.

The Federal Energy Regulatory Commission shall, within 1 year after the date of enactment of this Act, issue regulations to expedite the process by which the Commission considers applications under section 7 of the Natural Gas Act for the grant of certificates of public convenience and necessity for natural gas transportation facilities.

SEC. 211. GAS DELIVERY INTERCONNECTIONS IN PRODUCTION AREAS.

Section 7(a) of the Natural Gas Act (15 U.S.C. 717f(a)) is amended by—

(1) by striking "(a)" and inserting in lieu thereof "(a) EXTENSION OF FACILITIES.—

"(1) GENERAL RULE.—"; and

(2) inserting at the end the following new paragraph—

"(2) REQUIRED CONNECTIONS.—Upon the petition of any person, the Commission by order may direct a natural-gas company, for the sole purpose of receiving natural gas from the petitioner, to establish, at petitioner's expense, and upon such reasonable terms as the Commission may prescribe, physical connection of the natural-gas company's gas transportation facilities, including facilities constructed under section 311 of the Natural Gas Policy Act of 1978, with—

"(A) the petitioner's production or gathering facilities;

"(B) the petitioner's intrastate pipeline (as such term is defined in section 2(16) of the Natural Gas Policy Act of 1978) within a production area (as such term is defined by the Commission); or

"(C) the petitioner's pipeline certificated pursuant to subsection (c) of this section, within a production area (as such term is defined by the Commission).

The proviso in paragraph (1) shall apply to interconnections required under this paragraph.".

SEC. 212. GAS DELIVERY INTERCONNECTIONS IN MARKET AREAS FOR LOCAL UTILITIES.

Section 7(a)(1) of the Natural Gas Act, as so redesignated by section 212 of this Act, is amended—

(1) by inserting "or transport" after "facilities of, and sell"; and

(2) by inserting "or transport" after "physical connection or sell".

SEC. 213. TECHNICAL AMENDMENTS.

Section 7 of the Natural Gas Act (15 U.S.C. 717f) is amended—

(1) in subsection (b), by inserting "ABANDONMENT.—" before "No natural-gas company";

(2) in subsection (c)—

(A) by striking "(c)(1)(A)" and inserting in lieu thereof the following:

"(c) CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY.—

"(1) TRADITIONAL AND OPTIONAL CERTIFICATES.—

"(A) GENERAL RULE.—"; and

(B) by inserting "HIGH-PRIORITY CERTIFICATES.—" before "The Commission may issue" in paragraph (2);

(3) in subsection (d), by inserting "APPLICATIONS.—" before "Application for certificates";

(4) in subsection (e), by inserting "ISSUANCE OF CERTIFICATES; CONDITIONS.—" before "Except in the cases";

(5) in subsection (f)—

(A) by striking "(f)(1)" and inserting in lieu thereof the following:

"(f) SERVICE AREAS.—

"(1) COMMISSION DETERMINATION.—"; and

(B) by inserting "TRANSPORTATION EXCEPTION.—" before "If the Commission" in paragraph (2);

(6) in subsection (g), by inserting "NONEXCLUSIVITY.—" before "Nothing contained in ";

(7) in subsection (h), by inserting "EMINENT DOMAIN.—" before "When any holder"; and

(8) by conforming the indentation of each subsection, paragraph, and subparagraph to those established in section 212 of this title.

TITLE III—ALTERNATIVE FUELS—GENERAL

SEC. 301. DEFINITIONS.

For purposes of this title, title IV, title V, and title VI—

(1) the term "Administrator" means the Administrator of the Environmental Protection Agency;

(2) the term "alternative fuel" means methanol, ethanol, and other alcohols; mixtures containing 85 percent or more (or such other percentage, but not less than 80 percent, as determined by the Secretary, by rule, to provide for requirements relating to cold start, safety, or vehicle functions) by volume of methanol, ethanol, and other alcohols with gasoline or other fuels; natural gas; liquefied petroleum gas; hydrogen; electricity; and any other fuel the Secretary determines, by rule, is substantially not petroleum and would yield substantial energy security benefits and substantial environmental benefits;

(3) the term "alternative fueled vehicle" means a dedicated vehicle or a dual fueled vehicle;

(4) the term "dedicated vehicle" means—

(A) a dedicated automobile, as such term is defined in section 513(h)(1)(C) of the Motor Vehicle Information and Cost Savings Act; or

(B) a motor vehicle, other than an automobile,

that operates solely on alternative fuel;

(5) the term "domestic" means derived from resources within the several States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, America Samoa, the Commonwealth of the Northern Mariana Islands, or any other Commonwealth, territory, or possession of the United States, including the outer Continental Shelf, as such term is defined in the Outer Continental Shelf Lands Act, or from resources within a Nation with which there is in effect a free trade agreement requiring national treatment for trade;

(6) the term "dual fueled vehicle" means—

(A) dual fueled automobile, as such term is defined in section 513(h)(1)(D) of the Motor Vehicle Information and Cost Savings Act; or

(B) a motor vehicle, other than an automobile,

that is capable of operating on alternative fuel and is capable of operating on gasoline or diesel fuel;

(7) the term "fleet" means a group of light duty motor vehicles, located in a metropolitan statistical area or consolidated metropolitan statistical area, as established by the Bureau of the Census, with a 1990 population of more than 250,000, that are centrally fueled or capable of being centrally fueled and are owned, operated, leased, or otherwise controlled by a governmental entity or other person, by any person who controls such person, by any person controlled by such person, and by any person under common control with such person, except that such term does not include—

(A) motor vehicles held for lease or rental to the general public;

(B) motor vehicles held for sale by motor vehicle dealers, including demonstration motor vehicles;

(C) motor vehicles used for motor vehicle manufacturer product evaluations or tests;

(D) law enforcement motor vehicles;

(E) emergency motor vehicles;

(F) motor vehicles acquired and used for military purposes that the Secretary of Defense has certified to the Secretary must be exempt for national security reasons;

(G) nonroad vehicles, including farm and construction motor vehicles; or

(H) motor vehicles which under normal operations are garaged at personal residences at night;

(8) the term "fuel provider" means—

(A) any person engaged in the importing, refining, or processing of crude oil to produce motor fuel;

(B) any person engaged in the importation, production, storage, transportation, distribution, or sale of motor fuel; and

(C) any person engaged in generating, transmitting, importing, or selling at wholesale or retail electricity;

(9) the term "light duty motor vehicle" means a light duty truck or light duty vehicle, as such terms are defined under section 216(7) of the Clean Air Act (42 U.S.C. 7550(7)), of less than or equal to 8,500 pounds gross vehicle weight rating;

(10) the term "motor fuel" means any substance suitable as a fuel for a motor vehicle;

(11) the term "motor vehicle" has the meaning given such term under section 216(2) of the Clean Air Act (42 U.S.C. 7550(2));

(12) the term "replacement fuel" means the portion of any motor fuel that is methanol, ethanol, or other alcohols, natural gas, liquefied petroleum gas, hydrogen, electricity, ethers, or any other fuel the Secretary determines, by rule, is substantially not petroleum and would yield substantial energy security benefits and substantial environmental benefits; and

(13) the term "Secretary" means the Secretary of Energy.

SEC. 302. AMENDMENTS TO THE ENERGY POLICY AND CONSERVATION ACT.

(a) AMENDMENTS.—Section 400AA of the Energy Policy and Conservation Act (42 U.S.C. 6374) is amended—

(1) in subsection (a)(1)—

(A) by striking "passenger automobiles and light duty trucks" and inserting in lieu thereof "vehicles"; and

(B) by striking "alcohol powered vehicles, dual energy vehicles, natural gas powered vehicles, or natural gas dual energy vehicles." and inserting in lieu thereof "alternative fueled vehicles. In no event shall the number of such vehicles acquired be less than the number required under subsection (h).";

(2) by amending subsection (a)(3) to read as follows:

"(3)(A) To the extent practicable, the Secretary shall acquire both dedicated and dual fueled vehicles, and shall ensure that each type of alternative fueled vehicle is used by the Federal Government.

"(B) Vehicles acquired under this section shall be acquired from original equipment manufacturers. If such vehicles are not available from original equipment manufacturers, vehicles converted to use alternative fuels may be acquired if, after conversion, the original equipment manufacturer's warranty continues to apply to such vehicles, pursuant to an agreement between the original equipment manufacturer and the person performing the conversion. This subparagraph shall not apply to vehicles acquired by the United States Postal Service pursuant to a contract entered into by the United States Postal Service before the date of enactment of this subparagraph and which terminates on or before December 31, 1997.

"(C) Alternative fueled vehicles, other than those described in subparagraph (B), may be acquired solely for the purposes of studies under subsection (b), whether or not original equipment manufacturer warranties still apply.

"(D) In deciding which types of alternative fueled vehicles to acquire in implementing this part, the Secretary shall consider as a factor—

"(i) which types of vehicles yield the greatest reduction in pollutants emitted per dollar spent; and

"(ii) the source of the fuel to supply the vehicles, giving preference to vehicles that operate on alternative fuels derived from domestic sources.

"(E) Dual fueled vehicles acquired pursuant to this section shall be operated on alternative fuels unless the Secretary determines that operation on such alternative fuels is not feasible.

"(F) At least 50 percent of the alternative fuels used in vehicles acquired pursuant to this section shall be derived from domestic feedstocks. The Secretary shall issue regulations to implement this requirement. For purposes of this subparagraph, the term 'domestic' has the meaning given such term in section 301(5) of the Comprehensive National Energy Policy Act.

"(G) Vehicles acquired under this section shall be acquired from domestic manufacturers.";

(3) by adding at the end of subsection (a) the following new paragraph:

"(4) Acquisitions of vehicles under this section shall, to the extent practicable, be coordinated with acquisitions of alternative fueled vehicles by State and local governments.";

(4) in subsection (b), by inserting after paragraph (2) the following new paragraphs:

"(3)(A) The Secretary, in cooperation with the Environmental Protection Agency and the Department of Transportation, shall collect data and conduct a study of heavy duty vehicles acquired under subsection (a), which shall at a minimum address—

"(i) the performance of such vehicles, including reliability, durability, and performance in cold weather and at high altitude;

"(ii) the fuel economy, safety, and emissions of such vehicles; and

"(iii) a comparison of the operation and maintenance costs of such vehicles to the operation and maintenance costs of conventionally fueled heavy duty vehicles.

"(B) The Secretary shall provide a report on the results of the study conducted under subparagraph (A) to the Committees on Commerce, Science, and Transportation and Governmental Affairs of the Senate, and the Committees on Energy and Commerce and Government Operations of the House of Representatives, within one year after the first such vehicles are acquired, and annually thereafter.

"(4)(A) The Secretary and the Administrator of the General Services Administration shall conduct a study of the advisability, feasibility, and timing of the disposal of heavy duty vehicles acquired under subsection (a) and any problems with such disposal. Such study shall take into account existing laws governing the sale of Government vehicles and shall specifically focus on when to sell such vehicles and what price to charge.

"(B) The Secretary and the Administrator of the General Services Administration shall report the results of the study conducted under subparagraph (A) to the Committees on Commerce, Science, and Transportation and Governmental Affairs of the Senate, and the Committee on Energy and Commerce and the Committee on Government Operations of the House of Representatives, within one year after funds are appropriated for carrying out this paragraph.

"(5) Studies undertaken under this subsection shall be coordinated with relevant testing activities of the Environmental Protection Agency and the Department of Transportation.";

(5) in subsection (c)—

(A) by striking "alcohol or natural gas, alcohol or natural gas" and inserting in lieu thereof "alternative fuels, such fuels"; and

(B) by striking "alcohol or natural gas" and inserting in lieu thereof "alternative fuel" in paragraph (1);

(6) in subsection (d)(2)(B), by striking "The Secretary" and inserting in lieu thereof "To the extent that appropriations are available for such purposes, the Secretary";

(7) in subsection (g), by striking paragraphs (2) through (6) and inserting in lieu thereof the following:

"(2) the term 'alternative fuel' means methanol, ethanol, and other alcohols; mixtures containing 85 percent or more (or such other percentage, but not less than 80 percent, as determined by the Secretary, by rule, to provide for requirements relating to cold start, safety, or vehicle functions) by volume of methanol, ethanol, and other alcohols with gasoline or other fuels; natural gas; liquefied petroleum gas; hydrogen; and electricity; and any other fuel the Secretary determines, by rule, is substantially not petroleum and would yield substantial energy security benefits and substantial environmental benefits;

"(3) the term 'alternative fueled vehicle' means a dedicated vehicle or a dual fueled vehicle;

"(4) the term 'dedicated vehicle' means—

"(A) a dedicated automobile, as such term is defined in section 513(h)(1)(C) of the Motor Vehicle Information and Cost Savings Act; or

"(B) a motor vehicle, other than an automobile,

that operates solely on alternative fuel;

"(5) the term 'dual fueled vehicle' means—

"(A) dual fueled automobile, as such term is defined in section 513(h)(1)(D) of the Motor Vehicle Information and Cost Savings Act; or

"(B) a motor vehicle, other than an automobile,

that is capable of operating on alternative fuel and is capable of operating on gasoline or diesel fuel; and

"(6) the term 'heavy duty vehicle' means a vehicle of greater than 8,500 pounds gross vehicle weight rating.";

(8) by inserting after subsection (g) the following new subsection:

"(h) MINIMUM FEDERAL FLEET REQUIREMENT.—(1)(A) The Federal Government shall acquire at least—

"(i) 5,000 light duty alternative fueled vehicles in fiscal year 1993;

"(ii) 7,500 light duty alternative fueled vehicles in fiscal year 1994; and

"(iii) 10,000 light duty alternative fueled vehicles in fiscal year 1995.

"(B) The Secretary shall allocate the acquisitions necessary to meet the requirements under subparagraph (A).

"(2)(A) Of the total number of vehicles acquired by a Federal fleet, at least—

"(i) 25 percent in fiscal year 1996;

"(ii) 33 percent in fiscal year 1997; and

"(iii) 50 percent in fiscal year 1998 and thereafter,

shall be alternative fueled vehicles.

"(B) The Secretary, in consultation with the Administrator of General Services where appropriate, may permit a Federal fleet to acquire a smaller percentage than is required in subparagraph (A), so long as the aggregate percentage acquired by all Federal fleets is at least equal to the required percentage.

"(C) For purposes of this paragraph, the term 'Federal fleet' means 50 or more light duty motor vehicles, located in a metropolitan statistical area or consolidated metropolitan statistical area, as established by the Bureau of the Census, with a 1990 population of more than 250,000, that are centrally fueled or capable of being centrally fueled and are owned, operated, leased, or otherwise controlled by or assigned to any Federal executive department, military department, Government corporation, independent establishment, or executive agency, the United States Postal Service, the Congress, the courts of the United States, or the Executive Office of the President. Such term does not include—

"(i) motor vehicles held for lease or rental to the general public;

"(ii) motor vehicles used for motor vehicle manufacturer product evaluations or tests;

"(iii) law enforcement vehicles;

"(iv) emergency vehicles;

"(v) motor vehicles acquired and used for military purposes that the Secretary of Defense has certified to the Secretary must be exempt for national security reasons; or

"(vi) nonroad vehicles, including farm and construction vehicles.

"(3) The General Services Administration, and any other Federal agency that procures motor vehicles for distribution to other Federal agencies may allocate the incremental cost of alternative fueled vehicles over the cost of comparable gasoline vehicles across the entire fleet of motor vehicles distributed by such agency."; and

(9) in subsection (i)(1), by striking "$3,000,000" and all that follows and inserting in lieu thereof "$60,000,000 for fiscal year 1992, and such sums as may be necessary for fiscal years 1993 through 1998, with amounts appropriated for fiscal years 1992 through 1998 to remain available until expended.".

(b) REPEAL OF TERMINATION DATE.—Section 4(b) of the Alternative Motor Fuels Act of 1988 is repealed.

SEC. 303. ASSURANCE OF ACQUISITION OF A VARIETY OF FUELING FACILITIES.

(a) ACQUISITION OF ALTERNATIVE FUELING FACILITIES.—The Secretary shall ensure, with the cooperation of other appropriate agencies and consistent with applicable provisions of Federal law, that the maximum practicable number of a variety of alternative fueling facilities be acquired by purchase, lease, or contract, or through construction, or by other methods by the Federal Government or a joint venture in which the Federal Government is a participant. Such facilities may include facilities at commercial refueling stations and other locations.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $31,000,000 for fiscal year 1993 and such sums as may be necessary for fiscal years 1994 through 1998, to remain available until expended.

SEC. 304. INCREASED FEDERAL FLEET REQUIREMENT.

If, after January 1, 1998, the Secretary determines that the goals of replacement fuel use described in section 502(b)(2), as modified under section 504, are not likely to be achieved—

(1) the requirement for the Federal Government to acquire 50 percent alternative fueled vehicles, as established under section 400AA(h) of the Energy Policy and Conservation Act, shall be increased to a requirement of 60 percent for fiscal year 2000, 70 percent for fiscal year 2001, and 75 percent for fiscal year 2002 and thereafter; and

(2) the minimum size of Federal fleets subject to the requirements of section 400AA(h) of the Energy Policy and Conservation Act shall be 10 light duty motor vehicles.

SEC. 305. USE OF ALCOHOL-ENHANCED GASOLINE IN FEDERAL MOTOR VEHICLES.

(a) PROCUREMENT BY CONTRACT.—Whenever any Federal agency enters into a contract for the procurement of fuel for Federal motor vehicles, the Federal agency shall procure alcohol-enhanced gasoline if such gasoline is reasonably available, costs not more than any other comparable available gasoline, and complies with applicable requirements under the Clean Air Act. For the purposes of this subsection, the cost of gasoline shall be the net cost to the Federal Government of such gasoline.

(b) PURCHASES BY FEDERAL AGENCIES.—Any Federal agency that purchases fuel for Federal motor vehicles shall issue guidelines to ensure the purchase of alcohol-enhanced gasoline if such gasoline is reasonably available, costs not more than any other comparable available gasoline, and complies with applicable requirements under the Clean Air Act. For the purposes of this subsection, the cost of gasoline shall be the net cost to the Federal Government of such gasoline.

(c) EXCEPTION.—The acquisition of alternative fuel shall not be subject to the requirements of subsections (a) and (b).

(d) DEFINITIONS.—For purposes of this section—

(1) the term "alcohol-enhanced gasoline" means gasoline that is blended with alcohol or ether; and

(2) the term "Federal motor vehicle" means a motor vehicle that is owned or leased by a Federal agency and is capable of operating on alcohol-enhanced gasoline.

(e) EFFECTIVE DATE.—This section shall apply to contracts entered into, and fuel purchases made, after the expiration of 6 months after the date of enactment of this Act.

SEC. 306. DISADVANTAGED BUSINESS ENTERPRISES.

(a) GENERAL RULE.—Except to the extent that the head of each agency or department determines otherwise, not less than 10 percent of the total combined amounts obligated for contracts and subcontracts by each agency under subsection (b) shall be expended with small business concerns or other organizations controlled by socially and economically disadvantaged individuals and women, including historically Black colleges and universities and colleges and universities having a student body in which more than 20 percent of the students are Hispanic Americans or Native Americans.

(b) COVERED OBLIGATIONS.—The requirements of subsection (a) shall apply to the combined total for each agency or department of—

(1) the amounts obligated under titles I and III of this Act and the amendments made by titles I and III of this Act; and

(2) the amounts obligated for research under this Act and the amendments made by this Act.

(c) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

(1) SMALL BUSINESS CONCERN.—The term "small business concern" has the meaning such term has under section 3 of the Small Business Act (15 U.S.C. 632). However, for purposes of contracts and subcontracts requiring engineering services the applicable size standard shall be that established for military and aerospace equipment and military weapons.

(2) SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—The term "socially and economically disadvantaged individuals" has the meaning such term has under section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations promulgated pursuant thereto.

TITLE IV—ALTERNATIVE FUELS—NON-FEDERAL PROGRAMS

SEC. 401. TRUCK COMMERCIAL APPLICATION PROGRAM.

(a) ALTERNATIVE FUELED TRUCKS.—Section 400BB(a) of the Energy Policy and Conservation Act (42 U.S.C. 6374a(a)) is amended by striking "alcohol and natural gas" and inserting in lieu thereof "alternative fuels".

(b) FUNDING.—Section 400BB(b)(1) of such Act (42 U.S.C. 6374a(b)(1)) is amended to read as follows: "(1) There are authorized to be appropriated to the Secretary for carrying out this section $4,000,000 for fiscal year 1992, and such sums as may be necessary for fiscal years 1993 through 1995, to remain available until expended.".

SEC. 402. CONFORMING AMENDMENTS.

Part J of title III of the Energy Policy and Conservation Act is amended—

(1) in section 400CC(a)—

(A) by striking "alcohol and buses capable of operating on natural gas" and inserting in lieu thereof "alternative fuels"; and

(B) by striking "both buses capable of operating on alcohol and buses capable of operating on natural gas" and inserting in lieu thereof "each of the various types of alternative fuel buses";

(2) in section 400DD(d), by striking "alcohols, natural gas, and other potential alternative motor" and inserting in lieu thereof "alternative"; and

(3) in section 400DD (d) and (e), by striking "motor" each place it appears.

SEC. 403. ALTERNATIVE MOTOR FUELS AMENDMENTS.

Title V of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2001 et seq.) is amended—

(1) in section 501(1), by striking "alcohol or natural gas" and inserting in lieu thereof "alternative fuel";

(2) in section 502(e)—

(A) by striking "alcohol powered automobiles or natural gas powered" and inserting in lieu thereof "dedicated"; and

(B) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled";

(3) in section 506(a)(4)—

(A) in subparagraph (A)—

(i) by striking "alcohol powered automobiles or natural gas powered" and inserting in lieu thereof "dedicated"; and

(ii) by striking "alcohol or natural gas, as the case may be" and inserting in lieu thereof "alternative fuels"; and

(B) in subparagraph (B)—

(i) by striking "energy automobiles or natural gas dual energy" and inserting in lieu thereof "fueled"; and

(ii) by striking "energy automobile or natural gas dual energy automobile, as the case may be" and inserting in lieu thereof "fueled automobile"; and

(4) in section 506(b)(3)—

(A) in subparagraph (A)—

(i) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled";

(ii) by striking "alcohol or natural gas, as the case may be" and inserting in lieu thereof "alternative fuels" in clause (i); and

(iii) by striking "alcohol or natural gas, as the case may be" and inserting in lieu thereof "alternative fuels" in clause (ii); and

(B) in subparagraph (B)—

(i) by striking "dual energy" and inserting in lieu thereof "dual fueled"; and

(ii) by striking "alcohol" and inserting in lieu thereof "alternative fuels" in clauses (i) and (ii); and

(5) in section 513—

(A) in subsection (a)—

(i) by striking "ALCOHOL POWERED" and inserting in lieu thereof "DEDICATED";

(ii) by striking "If" and inserting in lieu thereof "Except as provided in subsection (c) or in section 503(a)(3), if";

(iii) by striking "alcohol powered" and inserting in lieu thereof "dedicated";

(iv) by striking "content of the alcohol" and inserting in lieu thereof "content of the alternative fuel"; and

(v) by striking "gallon of alcohol" and inserting in lieu thereof "gallon of a liquid alternative fuel";

(B) in subsection (b)—

(i) by striking "ENERGY" and inserting in lieu thereof "FUELED";

(ii) by striking "If" and inserting in lieu thereof "Except as provided in subsection (d) or in section 503(a)(3), if";

(iii) by striking "energy" and inserting in lieu thereof "fueled"; and

(iv) by striking "alcohol" and inserting in lieu thereof "alternative fuel" in paragraph (2);

(C) in subsection (c)—

(i) by striking "NATURAL GAS POWERED" and inserting in lieu thereof "GASEOUS FUEL DEDICATED";

(ii) by striking "powered" and inserting in lieu thereof "dedicated";

(iii) by striking "natural gas" each place it appears in the first sentence and inserting in lieu thereof "gaseous fuel"; and

(iv) by adding at the end the following new sentence: "For purposes of this section, the Secretary shall determine the appropriate gallons equivalent measurement for gaseous fuels other than natural gas, and a gallon equivalent of such gaseous fuel shall be considered to have a fuel content of 15 one-hundredths of a gallon of fuel.";

(D) in subsection (d)—

(i) by striking "NATURAL GAS DUAL ENERGY" and inserting in lieu thereof "GASEOUS FUEL DUAL FUELED";

(ii) by striking "dual energy" and inserting in lieu thereof "dual fueled"; and

(iii) by striking "natural gas" each place it appears and inserting in lieu thereof "gaseous fuel";

(E) in subsection (e), by striking "alcohol powered automobile, dual energy automobile, natural gas powered automobile, or natural gas dual energy" and inserting in lieu thereof "dedicated automobile or dual fueled";

(F) in subsection (f)(2)(A)(i), by striking "alcohol powered automobiles, natural gas powered automobiles," and inserting in lieu thereof "alternative fueled automobiles";

(G) in subsection (g)—

(i) in paragraph (1)—

(I) by inserting ", other than electric automobiles," after "each category of automobiles" in subparagraph (A);

(II) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (A);

(III) by inserting ", other than electric automobiles," after "each category of automobiles" in subparagraph (B);

(IV) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (B);

(V) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled" both places it appears in subparagraph (C); and

(VI) by striking "energy automobile or natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (C); and

(ii) in paragraph (2)—

(I) by striking "energy passenger automobiles or natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (A);

(II) by striking "alcohol powered automobiles or natural gas powered" and inserting in lieu thereof "dedicated" in subparagraph (B); and

(III) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (B);

(H) in subsection (h)(1)—

(i) by striking subparagraphs (D) and (E) and redesignating subparagraph (C) as subparagraph (D);

(ii) by striking subparagraphs (A) and (B) and inserting in lieu thereof the following new subparagraphs:

"(A) the term 'alternative fuel' means methanol, ethanol, and other alcohols; mixtures containing 85 percent or more (or such other percentage, but not less than 80 percent, as determined by the Secretary, by rule, to provide for requirements relating to cold start, safety, or vehicle functions) by volume of methanol, ethanol, and other alcohols with gasoline or other fuels; natural gas; liquefied petroleum gas; hydrogen; electricity; and any other fuel the Secretary determines, by rule, is substantially not petroleum and would yield substantial energy security benefits and substantial environmental benefits;

"(B) the term 'alternative fueled automobile' means an automobile that—

"(i) is a dedicated automobile; or

"(ii) is a dual fueled automobile;

"(C) the term 'dedicated automobile' means an automobile that operates solely on alternative fuels; and"; and

(iii) in subparagraph (D), as so redesignated by clause (i) of this subparagraph—

(I) by striking "dual energy" and inserting in lieu thereof "dual fueled";

(II) by striking "alcohol" and inserting in lieu thereof "alternative fuel" in clauses (i), (ii), and (iii);

(III) by inserting "in the case of an automobile capable of operating on a mixture of an alternative fuel and gasoline or diesel fuel," before "which, for model years" in clause (iii); and

(IV) by striking the semicolon at the end of clause (iv) and inserting in lieu thereof a period; and

(I) in subsection (h)(2)—

(i) by striking "paragraphs (1) (C) and (D)" and inserting in lieu thereof "paragraph (1)(D)" in subparagraph (A);

(ii) by striking "energy automobiles when operating on alcohol, and by natural gas dual energy automobiles when operating on natural gas" and inserting in lieu thereof "fueled automobiles when operating on alternative fuels" in subparagraph (A);

(iii) by striking "energy automobiles or natural gas dual energy" and inserting in lieu thereof "fueled" both places it appears in subparagraph (A);

(iv) by striking "energy automobiles and natural gas dual energy" and inserting in lieu thereof "fueled" in subparagraph (A);

(v) by striking "energy" and inserting in lieu thereof "fueled" each place it appears in subparagraphs (B) and (C); and

(vi) by inserting "other than electric automobiles" after "automobiles" each place it appears in subparagraphs (B) and (C).

SEC. 404. VEHICULAR NATURAL GAS JURISDICTION.

(a) NATURAL GAS ACT AMENDMENTS.—(1) Section 1 of the Natural Gas Act (15 U.S.C. 717) is amended by inserting after subsection (c) the following new subsection:

"(d) The provisions of this Act shall not apply to any person solely by reason of, or with respect to, any sale or transportation of vehicular natural gas if such person is—

"(1) not otherwise a natural-gas company; or

"(2) subject to regulation by a State commission, whether or not such State commission has, or is exercising, jurisdiction over the sale, sale for resale, or transportation of vehicular natural gas.".

(2) Section 2 of the Natural Gas Act U.S.C. 717a) is amended by inserting after paragraph (9) the following new paragraph:

"(10) 'Vehicular natural gas' means natural gas that is ultimately used as a fuel in a self-propelled vehicle.".

(b) STATE LAWS AND REGULATIONS.—The transportation or sale of natural gas by any person who is not otherwise a public utility, within the meaning of State law—

(1) in closed containers; or

(2) otherwise to any person for use by such person as a fuel in a motor vehicle,

shall not be considered to be a transportation or sale of natural gas within the meaning of any State law, regulation, or order in effect before January 1, 1989. This subsection shall not apply to any State law, regulation, or order to the extent that such law, regulation, or order has as its primary purpose the protection of public safety.

(c) NONAPPLICABILITY OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935.—(1) A company shall not be considered to be a gas utility company under section 2(a)(4) of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79A(a)(4)) solely because it owns or operates facilities used for the distribution at retail of vehicular natural gas.

(2) Notwithstanding section 11(b)(1) of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79J(b)(1)), a holding company registered under such Act solely by reason of the application of section 2(a)(7) (A) or (B) of such Act with respect to control of a gas utility company or subsidiary thereof, may acquire or retain, in any geographic area, any interest in a company that is not a public utility company and which, as a primary business, is involved in the sale of vehicular natural gas or the manufacture, sale, transport, installation, servicing, or financing of equipment related to the sale for consumption of vehicular natural gas.

(3) The sale or transportation of vehicular natural gas by a company, or any subsidiary of such company, shall not be taken into consideration in determining whether under section 3 of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79B) such company is exempt from registration.

(4) For purposes of this subsection, terms that are defined under the Public Utility Holding Company Act of 1935 shall have the meaning given such terms in such Act.

(5) For purposes of this subsection, the term "vehicular natural gas" means natural or manufactured gas that is ultimately used as a fuel in a self-propelled vehicle.

SEC. 405. PUBLIC INFORMATION PROGRAM.

The Secretary, in consultation with appropriate Federal agencies and individuals and organizations with practical experience in the production and use of alternative fuels and alternative fueled vehicles, shall, for the purposes of promoting the use of alternative fuels and alternative fueled vehicles, establish a public information program on the benefits and costs of the use of alternative fuels in motor vehicles. Within 18 months after the date of enactment of this Act, the Secretary shall produce and make available an information package for consumers to assist them in choosing among alternative fuels and alternative fueled vehicles. Such information package shall provide relevant and objective information on motor vehicle characteristics and fuel characteristics as compared to gasoline, on a life cycle basis, including environmental performance, energy efficiency, domestic content, cost, maintenance requirements, reliability, and safety. Such information package shall also include information with respect to the conversion of conventional motor vehicles to alternative fueled vehicles. The Secretary shall include such other information as the Secretary determines is reasonable and necessary to help promote the use of alternative fuels in motor vehicles. Such information package shall be updated annually to reflect the most recent available information.

SEC. 406. LABELING REQUIREMENTS.

The Federal Trade Commission, in consultation with the Secretary, the Administrator of the Environmental Protection Agency, and the Secretary of Transportation, shall, within 18 months after the date of enactment of this Act, issue a notice of proposed rulemaking for a rule to establish uniform labeling requirements, to the greatest extent practicable, for alternative fuels and alternative fueled vehicles, including requirements for appropriate information with respect to costs and benefits, so as to reasonably enable the consumer to make choices and comparisons. Required labeling under the rule shall be simple and, where appropriate, consolidated with other labels providing information to the consumer. In formulating the rule, the Federal Trade Commission shall give consideration to the problems associated with developing and publishing useful and timely cost and benefit information, taking into account lead time, costs, the frequency of changes in costs and benefits that may occur, and other relevant factors. The Commission shall obtain the views of affected industries, consumer organizations, Federal and State agencies, and others in formulating the rule. A final rule shall be issued within 1 year after the notice of proposed rulemaking is issued. Such rule shall be updated periodically to reflect the most recent available information.

SEC. 407. AVAILABILITY OF FUELING FACILITIES.

(a) IDENTIFICATION.—The Secretary, within one year after the date of enactment of this Act, shall, to the greatest extent practicable, identify a list of all private and government alternative fueling facilities that are or could be made available to the public, and shall publish such list in the Federal Register. Within one year after the publication of such list, the Secretary shall submit a report to the Congress containing recommendations on how and to what extent to make listed facilities available to the public.

(b) AVAILABILITY TO PUBLIC.—The Secretary shall, within 1 year after the date of enactment of this Act, issue regulations requiring any person regulated under State law as a natural gas utility, and any interstate pipeline under the meaning of the Natural Gas Act, to make their alternative fueling facilities available, under reasonable terms, to the public.

SEC. 408. DATA ACQUISITION PROGRAM.

(a) Not later than one year after the date of enactment of this Act, the Secretary, through the Energy Information Administration, and in cooperation with appropriate State, regional, and local authorities, shall establish a data collection program to be conducted in at least 5 geographically and climatically diverse regions of the United States for the purpose of collecting data which would be useful to persons seeking to manufacture, convert, sell, own, or operate alternative fueled vehicles or alternative fueling facilities. Such data shall include—

(1) identification of the number and types of motor vehicle trips made daily and miles driven per trip, including commuting, business, and recreational trips;

(2) the projections of the Secretary as to the most likely combination of alternative fueled vehicle use and other forms of transit, including rail and other forms of mass transit;

(3) cost, performance, environmental, energy, and safety data on alternative fuels and alternative fueled vehicles; and

(4) other appropriate demographic information and consumer preferences.

(b) The Secretary shall consult with interested parties, including other appropriate Federal agencies, manufacturers, public utilities, owners and operators of fleets of light duty motor vehicles, and State or local governmental entities, to determine the types of data to be collected and analyzed under subsection (a).

SEC. 409. FEDERAL ENERGY REGULATORY COMMISSION AUTHORITY TO APPROVE RECOVERY OF CERTAIN EXPENSES IN ADVANCE.

(a) NATURAL GAS MOTOR VEHICLES.—The Federal Energy Regulatory Commission may, under section 4 of the Natural Gas Act, allow recovery of expenses, in advance, by natural-gas companies for research, development, and demonstration activities by the Gas Research Institute for projects on the use of natural gas, including fuels derived from natural gas, for transportation, and projects on the use of natural gas to control pollutants and to control emissions from the combustion of other fuels, if the Commission finds that the benefits, including environmental benefits, to existing and future ratepayers resulting from such activities exceed all direct costs to existing and future ratepayers. To the maximum extent practicable, through the establishment of cofunding requirements applicable to each project, the Commission shall ensure that, the costs of such activities shall be provided, in part, through contributions of cash, personnel, services, equipment, and other resources, by sources other than the recovery of expenses pursuant to this section.

(b) ELECTRIC MOTOR VEHICLES.—The Federal Energy Regulatory Commission may, under section 205 of the Federal Power Act, allow recovery of expenses, in advance, by electric utilities for research, development, and demonstration activities by the Electric Power Research Institute for projects on electric motor vehicles, if the Commission finds that the benefits, including environmental benefits, to existing and future ratepayers resulting from such activities exceed all direct costs to existing and future ratepayers. To the maximum extent practicable, through the establishment of cofunding requirements applicable to each project, the costs of such activities shall be provided, in part, through contributions of cash, personnel, services, equipment, and other resources, by sources other than the recovery of expenses pursuant to this section.

(c) REPEAL.—The second paragraph of the matter under the heading "FEDERAL ENERGY REGULATORY COMMISSION, SALARIES AND EXPENSES" in title III of the Energy and Water Development Appropriations Act, 1992, is repealed.

SEC. 410. STATE AND LOCAL INCENTIVES PROGRAMS.

(a) ESTABLISHMENT OF PROGRAM.—(1) The Secretary shall, within one year after the date of enactment of this Act, issue regulations establishing guidelines for comprehensive State alternative fuels and alternative fueled vehicle incentives and program plans designed to accelerate the introduction and use of such fuels and vehicles. Such guideline shall address the development, modification, and implementation of such State plans and shall describe those program elements, as described in paragraph (3), to be addressed in such plans.

(2) The Secretary, after consultation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall invite the Governor of each State to submit to the Secretary a State plan within one year after the effective date of the regulations issued under paragraph (1). Such plan shall include—

(A) provisions designed to result in scheduled progress toward, and achievement of, the goal of introducing substantial numbers of alternative fueled vehicles in such State by the year 2000; and

(B) a detailed description of the requirements, including the estimated cost of implementation, of such plan.

(3) Each proposed State plan, in order to be eligible for Federal assistance under this section, shall describe the manner in which coordination shall be achieved with Federal and local governmental entities in implementing such plan, and shall include an examination of—

(A) exemption from State sales tax or other State or local taxes or surcharges (other than such taxes or surcharges which are dedicated for transportation purposes) with respect to alternative fueled vehicles, alternative fuels, or alternative fueling facilities;

(B) the introduction of alternative fueled vehicles into State-owned or operated motor vehicle fleets;

(C) special parking at public buildings and airport and transportation facilities;

(D) programs of public education to promote the use of alternative fueled vehicles;

(E) the treatment of sales of alternative fuels for use in alternative fueled vehicles;

(F) methods by which State and local governments might facilitate—

(i) the availability of alternative fuels; and

(ii) the ability to recharge electric motor vehicles at public locations;

(G) allowing public utilities to include in rates the incremental cost of—

(i) new alternative fueled vehicles;

(ii) converting conventional vehicles to operate on alternative fuels; and

(iii) installing alternative fuel fueling facilities,

but only to the extent that the inclusion of such costs in rates would not create competitive disadvantages for other market participants, and taking into consideration the effect inclusion of such costs would have on rates, service, and reliability to other utility customers;

(H) such other programs and incentives as the State may describe;

(I) whether accomplishing any of the goals in this subsection would require amendment to State law or regulation, including traffic safety prohibitions;

(J) services provided by municipal, county, and regional transit authorities; and

(K) effects of such plan on programs authorized by the Intermodal Surface Transportation Efficiency Act of 1991 and amendments made by that Act.

(b) FEDERAL ASSISTANCE TO STATES.—(1) Upon request of the Governor of any State with a plan approved under this section, the Secretary may provide to such State—

(A) information and technical assistance, including model State laws and proposed regulations relating to alternative fueled vehicles;

(B) grants of Federal financial assistance for the purpose of assisting such State in the implementation of such plan or any part thereof; and

(C) grants of Federal financial assistance for the acquisition of alternative fueled vehicles.

(2) In determining whether to approve a State plan submitted under subsection (a), and in determining the amount of Federal financial assistance, if any, to be provided to any State under this subsection, the Secretary shall take into account—

(A) the energy-related and environmental-related impacts, on a life cycle basis, of the introduction and use of alternative fueled vehicles included in the plan compared to conventional motor vehicles;

(B) the number of alternative fueled vehicles likely to be introduced by the year 2000 as a result of successful implementation of the plan; and

(C) such other factors as the Secretary considers appropriate.

(3) The Secretary, in consultation with the Administrator of General Services, shall provide assistance to States in procuring alternative fueled vehicles, including coordination with Federal procurements of such vehicles.

(4) The Secretary may not approve a State plan submitted under subsection (a) unless the State agrees to provide at least 20 percent of the cost of activities for which assistance is provided under paragraph (1).

(c) GENERAL PROVISIONS.—(1) In carrying out this section, the Secretary shall consult with the Secretary of Transportation on matters relating to transportation and with other appropriate Federal and State departments and agencies.

(2) The Secretary shall report annually to the President and the Congress, and shall furnish copies of such report to the Governor of each State participating in the program, on the operation of the program under this section. Such report shall include—

(A) an estimate of the number of alternative fueled vehicles in use in each State;

(B) the degree of each State's participation in the program;

(C) a description of Federal, State, and local programs undertaken in the various States, whether pursuant to a State plan under this section or not, to provide incentives for introduction of alternative fueled vehicles;

(D) an estimate of the energy and environmental benefits of the program; and

(E) the recommendations of the Secretary, if any, for additional action by the Federal Government.

(d) DEFINITIONS.—For the purposes of this section, the following definitions apply:

(1) GOVERNOR.—The term "Governor" means the chief executive of a State.

(2) STATE.—The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other Commonwealth, territory, or possession of the United States.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for carrying out this section, $10,000,000 for each of the 5 fiscal years beginning after the date of enactment of this Act.

SEC. 411. ALTERNATIVE FUEL BUS PROGRAM.

(a) COOPERATIVE AGREEMENTS AND JOINT VENTURES.—(1) The Secretary of Transportation, in consultation with the Secretary, may enter into cooperative agreements and joint ventures proposed by any municipal, county, or regional transit authority in an urban area with a population over 100,000 (according to latest available census information) to demonstrate the feasibility of commercial application, including safety of specific vehicle design, of using alternative fuels for urban buses.

(2) The cooperative agreements and joint ventures under paragraph (1) may include interested or affected private firms willing to provide assistance in cash, or in kind, for any such demonstration.

(3) Federal assistance provided under cooperative agreements and joint ventures entered into under paragraph (1) to demonstrate the feasibility of commercial application of using alternative fuels for urban buses shall be in addition to Federal assistance provided under any other law for such purpose.

(b) LIMITATIONS.—(1) The Secretary of Transportation may not enter into cooperative agreement or joint venture under subsection (a) with any municipal, county, or regional transit authority, unless such government body agrees to provide 20 percent of the costs of such demonstration.

(2) The Secretary of Transportation may grant such priority under this section to any entity that demonstrates that the use of alternative fuels for transportation would have a significant beneficial effect on the environment.

(c) SCHOOL BUSES.—The Secretary of Transportation may also provide, in accordance with such rules as he may prescribe, financial assistance to any agency, municipality, or political subdivision in an urban area referred to in subsection (a), of any State or the District of Columbia for the purpose of meeting the incremental costs of school buses that are dedicated vehicles and used regularly for such transportation during the school term. Such costs may include the purchase and installation of alternative fuel refueling facilities to be used for school bus refueling, and the conversion of school buses to dedicated vehicles. The Secretary of Transportation may provide such assistance directly to a person who is a contractor of such agency, municipality, or political subdivision, upon the request of the agency, municipality, or political subdivision, and who, under such contract, provides for such transportation.

(d) FUNDING AUTHORIZATION.—There are authorized to be appropriated not more than $30,000,000 for each of the fiscal years 1993, 1994, and 1995 for purposes of this section.

SEC. 412. CERTIFICATION OF TRAINING PROGRAMS.

The Secretary shall ensure that the Federal Government establishes and carries out a program for the certification of training programs for technicians who are responsible for motor vehicle installation of equipment that converts gasoline or diesel-fueled motor vehicles into dedicated vehicles or dual fueled vehicles, and for the maintenance of such converted motor vehicles. A training program shall not be certified under the program established under this section unless it provides technicians with instruction on the proper and safe installation procedures and techniques, adherence to specifications (including original equipment manufacturer specifications), motor vehicle operating procedures, emissions testing, and other appropriate mechanical concerns applicable to these motor vehicle conversions. The Secretary shall ensure that, in the development of the program required under this section, original equipment manufacturers, fuel suppliers, companies that convert conventional vehicles to use alternative fuels, and other affected persons are consulted.

SEC. 413. ALTERNATIVE FUEL USE IN NONROAD VEHICLES AND ENGINES.

(a) NONROAD VEHICLES AND ENGINES.—(1) The Secretary shall conduct a study to determine whether the use of alternative fuels in nonroad vehicles and engines would contribute substantially to reduced reliance on imported energy sources. Such study shall be completed, and the results thereof reported to Congress, within 2 years after the date of enactment of this Act.

(2) The study shall assess the potential of nonroad vehicles and engines to run on alternative fuels. Taking into account the nonroad vehicles and engines for which running on alternative fuels is feasible, the study shall assess the potential reduction in reliance on foreign energy sources that could be achieved if such vehicles were to run on alternative fuels.

(3) The report required under paragraph (1) may include the Secretary's recommendations for encouraging or requiring nonroad vehicles and engines which can feasibly be run on alternative fuels, to tilize such alternative fuels.

(b) DEFINITION OF NONROAD VEHICLES AND ENGINES.—Nonroad vehicles and engines, for purposes of this section, shall include nonroad vehicles and engines used for surface transportation or principally for industrial or commercial purposes, vehicles used for rail transportation, motor vehicles used at airports, vehicles or engines used for marine purposes, and other vehicles or engines at the discretion of the Secretary.

(c) DESIGNATION.—Upon completion of the study required pursuant to subsection (a) of this section, the Secretary may designate such vehicles and engines as qualifying for loans pursuant to section 415 of this title.

SEC. 414. REPORTS TO CONGRESS.

Within 6 months after the date of enactment of this Act, the Secretary shall—

(1) identify and report to Congress on purchasing policies of the Federal Government which inhibit or prevent the purchase by the Federal Government of alternative fueled vehicles; and

(2) report to Congress on Federal, State, and local traffic control measures and policies and how the use of alternative fueled vehicles could be promoted by granting such vehicles exemptions or preferential treatment under such measures.

SEC. 415. LOW INTEREST LOAN PROGRAM.

(a) ESTABLISHMENT.—Within 1 year after the date of enactment of this Act, the Secretary shall establish a program for making low interest loans, giving preference to small businesses that own or operate fleets, for—

(1) the conversion of motor vehicles to operation on alternative fuels;

(2) covering the incremental costs of the purchase of motor vehicles which operate on alternative fuels, when compared with purchase costs of comparable conventionally fueled motor vehicles; or

(3) covering the incremental costs of purchase of non-road vehicles and engines designated by the Secretary pursuant to section 413(c) of this title.

(b) LOAN TERMS.—The Secretary, to the extent practicable, shall establish reasonable terms for loans made under this subsection, with preference given to repayment schedules that enable such loans to be repaid by the borrower from the cost differential between gasoline and the alternative fuel on which the motor vehicle operates.

(c) CRITERIA.—In deciding who loans shall be made to under this subsection, the Secretary shall consider—

(1) the financial need of the applicant;

(2) the goal of assisting the greatest number of applicants; and

(3) the ability of an applicant to repay the loan, taking into account the fuel cost savings likely to accrue to the applicant.

(d) PRIORITIES.—Priority shall be given under this section to fleets where the use of alternative fuels would have a significant beneficial effect on energy security and the environment.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section, $25,000,000 for each of the fiscal years 1992, 1993, and 1994.

SEC. 416. COMMERCIAL APPLICATION FUNDING FOR ALTERNATIVE FUELED VEHICLES.

(a) MOTOR VEHICLE COMMERCIAL APPLICATION PROGRAM.—The Secretary shall carry out a program of commercial application of techniques related to improving alternative fueled vehicle technology, including the following areas:

(1) Fuel injection.

(2) Carburetion.

(3) Manifolding.

(4) Advanced combustion.

(5) Power optimization.

(6) Efficiency.

(7) Lubricants, detergents, and other additives.

(8) Engine and fuel system durability.

(9) Ignition, including fuel additives to assist ignition.

(10) Multifuel engines.

(11) Emissions control, including catalysts.

(12) Advanced storage systems.

(13) Advanced fueling technology.

(14) Fuel cells.

(15) Advanced cold starting systems.

(16) The incorporation of advanced materials in these areas.

(b) COOPERATIVE AGREEMENTS AND FINANCIAL ASSISTANCE.—The Secretary may enter into cooperative agreements with, and provide financial assistance to, public entities or interested or affected private firms willing to provide 50 percent of the costs of programs under this section.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary $20,000,000 for each of the fiscal years 1992, 1993, and 1994 for carrying out this section.

SEC. 417. PROHIBITED ACTS.

It shall be unlawful for any person to violate any provision of section 407(b), or any regulation issued under such subsection.

SEC. 418. ENFORCEMENT.

(a) Whoever violates section 417 shall be subject to a civil penalty of not more than $5,000 for each violation.

(b) Whoever willfully violates section 417 shall be fined not more than $10,000 for each violation.

(c) Any person who knowingly and willfully violates section 417 after having been subjected to a civil penalty for a prior violation of section 417 shall be fined not more than $50,000 or imprisoned not more than six months, or both.

TITLE V—AVAILABILITY AND USE OF REPLACEMENT FUELS, ALTERNATIVE FUELS, AND ALTERNATIVE FUELED PRIVATE VEHICLES

SEC. 501. MANDATE FOR ALTERNATIVE FUEL PROVIDERS.

(a) IN GENERAL.—(1) The Secretary shall, before January 1, 1993, issue regulations requiring that, beginning January 1, 1994, any new light duty motor vehicle, or any other new motor vehicle weighing less than 26,000 pounds gross vehicle weight, initially owned, operated, leased, or otherwise controlled after December 31, 1993, by—

(A) a person whose principal business is producing, storing, refining, processing, transporting, distributing, importing, or selling at wholesale or retail any alternative fuel other than electricity;

(B) a person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity; and

(C) a person—

(i) who produces, imports, or produces and imports in combination, an average of 50,000 barrels per day or more of petroleum; and

(ii) a substantial portion of whose business is producing alternative fuels,

shall be acquired or operated as provided in subsections (b) and (c).

(2)(A) Regulations issued under paragraph (1) may provide for the exemption from the requirements of paragraph (1) of any person described in paragraph (1)(A) or (B) with demonstrated gross annual revenues of less than $100,000 from such principal business for the 3 immediately preceding calendar years.

(B) Regulations issued under paragraph (1) shall provide for the exemption from the requirements of paragraph (1) of any person, in whole or in part, if such person demonstrates to the satisfaction of the Secretary that alternative fueled vehicles that meet the normal requirements of that person's principal business are not available for acquisition.

(C) Regulations issued under paragraph (1) shall provide for the exemption from the requirements of paragraph (1) of the acquisition of diesel fueled vehicles of greater than 8,500 pounds gross vehicle weight rating.

(b) MOTOR VEHICLES CAPABLE OF BEING CENTRALLY FUELED.—The regulations issued under subsection (a) shall provide that any motor vehicle described in subsection (a) that is centrally fueled or is capable of being centrally fueled shall be a dedicated vehicle.

(c) OTHER MOTOR VEHICLES.—(1) Except as provided in paragraph (2), the regulations issued under subsection (a) shall provide that any light duty motor vehicle described in subsection (a) that is not capable of being centrally fueled shall be operated on alternative fuel at least 50 percent of the time.

(2) In the case of electric motor vehicles owned by a person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the Secretary may establish different standards with respect to central fueling and the percentage of alternative fuel use required.

(d) OPTION FOR ELECTRIC UTILITIES.—The Secretary shall, within 1 year after the date of enactment of this Act, issue regulations requiring that, in the case of a person whose principal business is generating, transmitting, importing, or selling at wholesale or retail electricity, the requirements of subsection (a)(1) shall not apply until after December 31, 1997, with respect to electric motor vehicles. Any person described in this subsection which plans to acquire electric motor vehicles to comply with the requirements of this section shall so notify the Secretary before January 1, 1994.

(e) ENFORCEMENT.—(1) A person who violates regulations issued under subsection (a) or (d) shall be subject to a civil penalty of not more than $10,000 per violation. Each month in which compliance has not been achieved shall be a separate violation.

(2) In determining the amount of a penalty to be assessed under this section, the Secretary or the court, as appropriate, shall take into consideration, in addition to other factors justice may require, the size of the business, the economic impact of the penalty on the business, the violator's full compliance history and good faith efforts to comply, the duration of the violation as established by any credible evidence, payment by the violator of penalties previously assessed for the same violation, the economic benefit of noncompliance, and the seriousness of the violation.

(f) REPORT TO CONGRESS.—The Secretary shall, before January 1, 1997, submit a report to the Congress providing detailed information on actions taken to carry out this section, and the progress made and problems encountered thereunder.

SEC. 502. REPLACEMENT FUEL SUPPLY AND DEMAND PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to promote the development and use in light duty motor vehicles of domestic replacement fuels. Such program shall promote the replacement of petroleum motor fuels with replacement fuels to the maximum extent practicable. Such program shall, to the extent practicable, ensure the availability of those replacement fuels that will have the greatest impact in reducing oil imports, improving the health of our Nation's economy and reducing greenhouse gas emissions.

(b) DEVELOPMENT PLAN AND PRODUCTION GOALS.—Under the program established under subsection (a), the Secretary, before October 1, 1993, in consultation with the Administrator, the Secretary of Transportation, the Secretary of Agriculture, the Secretary of Commerce, and the heads of other appropriate agencies, shall review appropriate information and—

(1) estimate the domestic and nondomestic production capacity for replacement fuels and alternative fueled vehicles needed to implement this section;

(2) determine the technical and economic feasibility of achieving the goals of producing sufficient replacement fuels to replace, on an energy equivalent basis—

(A) at least 10 percent by the year 2000; and

(B) at least 30 percent by the year 2010,

of the projected consumption of motor fuel in the United States for each such year, with at least one half of such replacement fuels being domestic fuels;

(3) determine the most suitable means and methods of developing and encouraging the production, distribution, and use of replacement fuels and alternative fueled vehicles in a manner that would meet the program goals described in subsection (a);

(4) identify ways to encourage the development of reliable replacement fuels and alternative fueled vehicle industries in the United States, and the technical, economic, and institutional barriers to such development; and

(5) determine the greenhouse gas emission implications of increasing the use of replacement fuels, including an estimate of the maximum feasible reduction in such emissions from the use of replacement fuels.

The Secretary shall publish in the Federal Register the results of actions taken under this subsection, and provide for an opportunity for public comment.

SEC. 503. REPLACEMENT FUEL DEMAND ESTIMATES AND SUPPLY INFORMATION.

(a) ESTIMATES.—Not later than October 1, 1993, and annually thereafter, the Secretary, in consultation with the Administrator, the Secretary of Transportation, and other appropriate State and Federal officials, shall estimate for the following calendar year—

(1) the number of each type of alternative fueled vehicle likely to be in use in the United States;

(2) the probable geographic distribution of such vehicles;

(3) the amount and distribution of each type of replacement fuel; and

(4) the greenhouse gas emissions likely to result from replacement fuel use.

(b) INFORMATION.—Beginning on October 1, 1994, the Secretary shall annually require—

(1) fuel providers to report to the Secretary on the amount of each type of replacement fuel that such provider—

(A) has provided in the previous calendar year; and

(B) plans to provide for the following calendar year;

(2) suppliers of alternative fueled vehicles to report to the Secretary on the number of each type of alternative fueled vehicle that such supplier—

(A) has made available in the previous calendar year; and

(B) plans to make available for the following calendar year; and

(3) such fuel providers and suppliers to provide the Secretary information necessary to determine the greenhouse gas emissions of the replacement fuels used, taking into account the entire fuel cycle.

(c) PROTECTION OF INFORMATION.—Information provided to the Secretary under subsection (b) shall be subject to applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18, United States Code.

SEC. 504. MODIFICATION OF GOALS; ADDITIONAL RULEMAKING AUTHORITY.

(a) EXAMINATION OF GOALS.—Within 3 years after the date of enactment of this Act, and periodically thereafter, the Secretary shall examine the goals established under section 502(b)(2), in the context of the program goals stated in section 502(a), to determine if the goals under section 502(b)(2), including the applicable percentage requirements and dates, should be modified under this section. The Secretary shall publish in the Federal Register the results of each examination under this subsection and provide an opportunity for public comment.

(b) MODIFICATION OF GOALS.—If, after analysis of information obtained in connection with carrying out subsection (a) or section 502, or other information, and taking into account the determination of technical and economic feasibility made under section 502(b)(2), the Secretary determines that goals described in section 502(b)(2), including the percentage requirements or dates, are not achievable, the Secretary, in consultation with appropriate Federal agencies, shall, by rule, establish goals that are achievable, for purposes of this title. The modification of goals under this section may include changing the target dates specified in section 502(b)(2).

(c) ADDITIONAL RULEMAKING AUTHORITY.—If the Secretary determines that the achievement of goals described in section 502(b)(2) would result in a significant and correctable failure to meet the program goals described in section 502(a), the Secretary shall issue such additional regulations as are necessary to remedy such failure.

SEC. 505. VOLUNTARY SUPPLY COMMITMENTS.

The Secretary shall, by January 1, 1996, and thereafter, undertake to obtain voluntary commitments in geographically diverse regions of the United States—

(1) from fuel providers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) from owners of fleets of 10 or more motor vehicles to acquire and use alternative fueled vehicles and alternative fuels; and

(3) from suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services,

in sufficient volume to achieve the goals described in section 502(b)(2) or established under section 504. The Secretary shall periodically report to the Congress on the results of efforts under this section. All voluntary commitments obtained pursuant to this section shall be available to the public, except to the extent provided in applicable provisions of law protecting the confidentiality of trade secrets and business and financial information, including section 1905 of title 18, United States Code.

SEC. 506. TECHNICAL AND POLICY ANALYSIS.

(a) REQUIREMENT.—Not later than March 1, 1995, and March 1, 1997, the Secretary shall prepare and transmit to the President and the Congress a technical and policy analysis under this section. The Secretary shall utilize the analytical capability and authorities of the Energy Information Administration and such other offices of the Department of Energy as the Secretary considers appropriate.

(b) PURPOSES.—The technical and policy analysis prepared under this section shall be based on the best available data and information obtainable by the Secretary under section 503, or otherwise, and on experience under this title and other provisions of law in the development and use of replacement fuels and alternative fueled vehicles, and shall evaluate—

(1) progress made in achieving the goals described in section 502(b)(2), as modified under section 504;

(2) the actual and potential role of replacement fuels and alternative fueled vehicles in significantly reducing United States reliance on imported oil to the extent of the goals referred to in paragraph (1); and

(3) the actual and potential availability of various domestic replacement fuels and dedicated vehicles and dual fueled vehicles.

(c) PUBLICATION.—The Secretary shall publish a proposed version of each analysis under this section in the Federal Register for public comment before transmittal to the President and the Congress. Public comment received in response to such publication shall be preserved for use in rulemaking proceedings under section 507.

SEC. 507. FLEET REQUIREMENT PROGRAM.

(a) ADVANCE NOTICE OF PROPOSED RULEMAKING.—Not later than April 1, 1998, the Secretary shall publish an advance notice of proposed rulemaking for the purpose of—

(1) evaluating the progress toward achieving the goals of replacement fuel use described in section 502(b)(2), as modified under section 504;

(2) identifying the problems associated with achieving those goals;

(3) assessing the adequacy and practicability of those goals; and

(4) considering all actions needed to achieve those goals.

The Secretary shall provide for at least 3 regional hearings on the advance notice of proposed rulemaking, with respect to which official transcripts shall be maintained. The comment period in connection with such advance notice of proposed rulemaking shall be completed within 7 months after publication of the advance notice.

(b) PROPOSED RULE.—Before May 1, 1999, the Secretary shall publish in the Federal Register a proposed rule for the rule required under subsection (e), and shall provide for a public comment period, with hearings, of not less than 90 days.

(c) DETERMINATION.—(1) Not later than January 1, 2000, the Secretary shall, through the rule required under subsection (e), determine whether a fleet requirement program is necessary under this section. Such a program shall be considered necessary if the Secretary finds that—

(A) the goal of replacement fuel use described in section 502(b)(2)(B), as modified under section 504, is not expected to be actually achieved by 2010, or such other date as is established under section 504, by voluntary means or pursuant to this title or any other law without such a fleet requirement program, taking into consideration the status of the achievement of the interim goal described in section 502(b)(2)(A), as modified under section 504; and

(B) such goal is practicable and actually achievable within periods specified in section 502(b)(2), as modified under section 504, through implementation of such a fleet requirement program in combination with voluntary means and the application of other programs relevant to achieving such goals.

(2) The rule under subsection (e) shall also modify the goal described in section 502(b)(2)(B) and establish a revised goal pursuant to section 504 if the Secretary determines, based on the proceeding required under subsection (a), that the goal in effect at the time of that proceeding is inadequate or impracticable, and not expected to be achievable. Such goal as modified and established shall be applicable in making the findings described in paragraph (1). If the Secretary modifies the goal under this paragraph, he may also modify the percentages stated in subsection (e)(1) and the minimum percentage stated in subsection (e)(2) shall be not less than 10 percent.

(d) EXPLANATION OF DETERMINATION THAT FLEET REQUIREMENT PROGRAM IS NOT NECESSARY.—If the Secretary determines, based on findings under subsection (c), that a fleet requirement program under this section is not necessary, the Secretary shall, by January 1, 2000, publish such determination in the Federal Register as a final agency action, including an explanation of the findings on which such determination is made and the basis for the determination.

(e) FLEET REQUIREMENT PROGRAM.—(1) If the Secretary determines under subsection (c) that a fleet requirement program is necessary, the Secretary shall, by January 1, 2000, by rule require that, except as provided in paragraph (2), of the total number of new light duty motor vehicles acquired for a non-Federal fleet—

(A) 20 percent of the motor vehicles acquired in model year 2002;

(B) 40 percent of the motor vehicles acquired in model year 2003;

(C) 60 percent of the motor vehicles acquired in model year 2004; and

(D) 70 percent of the motor vehicles acquired in model year 2005 and thereafter,

shall be alternative fueled vehicles.

(2) With respect to model years 2003 and thereafter, and so long as the goal described in section 502(b)(2)(B), as modified under section 504, will be achieved, the Secretary may—

(A) revise the percentage requirements under paragraph (1) downward, except that under no circumstances shall the percentage requirement for a model year be less than 20 percent; and

(B) extend the time under paragraph (1) for up to 2 model years.

(3) Nothing in this section shall be construed as requiring any fleet to acquire alternative fueled vehicles or alternative fuels that do not meet the normal business requirements and practices and needs of that fleet.

(4) A vehicle operating only on gasoline that complies with applicable requirements of the Clean Air Act shall not be considered an alternative fueled vehicle under this subsection, except that the Secretary, as part of the rule under this subsection, may determine that such vehicle should be treated as an alternative fueled vehicle for purposes of this section, for fleets subject to part C of title II of the Clean Air Act, taking into consideration the impact on energy security and the goals stated in section 502(a).

(f) EXTENSION OF DEADLINES.—The Secretary may, by notice published in the Federal Register, extend the deadlines established under subsections (c), (d), and (e) for an additional 90 days if the Secretary is unable to meet such deadlines. Such extension shall not be reviewable.

(g) EXEMPTIONS.—The rule issued under subsection (e) shall provide for the prompt exemption by the Secretary, through a simple and reasonable process, of any fleet from the requirements of subsection (e), in whole or in part, if it is demonstrated to the satisfaction of the Secretary that—

(1) alternative fueled vehicles that meet the normal requirements and practices of the principal business of the fleet owner are not reasonably available for acquisition;

(2) alternative fuels that meet the normal requirements and practices of the principal business of the fleet owner are not available in the area in which the vehicles are to be operated; or

(3) in the case of local government entities, the application of such requirements would pose an unreasonable financial hardship.

(h) SUBSTITUTION.—The rule issued under subsection (e) shall permit a fleet owner to substitute, or enter into an agreement with another party to substitute, an equal number of alternative fueled vehicles not subject to the requirements of subsection (a), including vehicles purchased before the effective date of such rule, for vehicles otherwise subject to subsection (a). Such substitute vehicles shall be counted toward meeting the requirement established under subsection (e). Such substitute vehicles may include vehicles converted to alternative fueled vehicles in accordance with applicable law, except that such substitute vehicles may not be conversions of or replacements for diesel fueled vehicles. Nothing in this title or the amendments made by this title shall require a fleet owner to acquire conversion vehicles.

(i) MINIMUM FLEET SIZE.—(1) Except as provided in paragraph (2), fleet requirements established under this section shall apply to fleets of 10 or more motor vehicles.

(2) So long as the goal described in section 502(b)(2)(B), as modified under section 504, will be achieved, the Secretary may increase the minimum fleet size to which the fleet requirement program under this section applies, except that under no circumstances shall such minimum fleet size be greater than 100.

(j) Inclusion of Law Enforcement Vehicles and Urban Buses.—(1) If the Secretary determines, by rule, that the inclusion of fleets of law enforcement motor vehicles in the fleet requirement program established under this section would contribute to achieving the goal described in section 502(b)(2)(B), as modified under section 504, and the Secretary finds that such inclusion would not hinder the use of the motor vehicles for law enforcement purposes, the Secretary may include such fleets in such program. The Secretary may only initiate one rulemaking under this paragraph.

(2) If the Secretary determines, by rule, that the inclusion of new urban buses, as defined by the Administrator under title II of the Clean Air Act, in the fleet requirement program established under this section would contribute to achieving the goal described in section 502(b)(2)(B), as modified under section 504, the Secretary may include such buses in such program, if the Secretary finds that such application will be consistent with energy security goals and the needs and objectives of encouraging and facilitating the greater use of such buses by the public, taking into consideration the impact of such application on public transit entities. The Secretary may only initiate one rulemaking under this paragraph.

(3) Rulemakings under paragraph (1) or (2) shall be separate from a rulemaking under subsection (e), but may not occur unless a rulemaking is carried out under subsection (e).

(k) Consideration of Factors.—In carrying out this section, the Secretary shall take into consideration energy security, costs, safety, lead time requirements, vehicle miles traveled annually, effect on greenhouse gases, technological feasibility, energy requirements, economic impacts, including impacts on workers and the impact on consumers and fleets, the availability of alternative fuels and alternative fueled vehicles, and other relevant factors.

(l) Consultation and Participation of Other Federal Agencies.—In carrying out this section and section 506, the Secretary shall consult with the Secretary of Transportation, the Administrator, and other appropriate Federal agencies. The Secretary shall provide for the participation of the Secretary of Transportation and the Administrator in the development and issuance of the rule under this section, including the public process concerning such rule.

SEC. 508. SECRETARY'S RECOMMENDATIONS TO CONGRESS.

(a) Recommendations To Require Availability or Acquisition.—If the Secretary determines, under section 507(d), that a fleet requirement program under section 507 is not necessary, the Secretary shall so notify the Congress. If the Secretary so notifies the Congress, the Secretary shall, within 2 years after such notification and by rule, prepare and submit to the Congress recommendations for requirements or incentives for—

(1) fuel providers to make available to the public replacement fuels, including providing for the construction or availability of related fuel delivery systems;

(2) suppliers of alternative fueled vehicles to make available to the public alternative fueled vehicles and to ensure the availability of necessary related services; and

(3) motor vehicle drivers to use replacement fuels,

to the extent necessary to achieve such goals of replacement fuel use and to ensure that the availability of alternative fuels and of alternative fueled vehicles are consistent with each other.

(b) Fair and Equitable Application.—In carrying out this section, the Secretary shall recommend the imposition of requirements proportionately on all appropriate fuel providers and purchasers of motor fuels and suppliers and purchasers of motor vehicles in a fair and equitable manner.

SEC. 509. EFFECT ON OTHER LAWS.

(a) In General.—Nothing in this Act or the amendments made by this Act shall be construed to alter, affect, or modify the provisions of the Clean Air Act, or regulations issued thereunder.

(b) Compliance by Alternative Fueled Vehicles.—Alternative fueled vehicles, whether dedicated vehicles or dual fueled vehicles, and the alternative fuels for operating such vehicles, shall comply with requirements of the Clean Air Act applicable to such vehicles and fuels.

SEC. 510. PROHIBITED ACTS.

It shall be unlawful for any person to violate any provision of section 503(b) or 507, or any regulation issued under such sections.

SEC. 511. ENFORCEMENT.

(a) Whoever violates section 510 shall be subject to a civil penalty of not more than $5,000 for each violation.

(b) Whoever willfully violates section 510 shall be fined not more than $10,000 for each violation.

(c) Any person who knowingly and willfully violates section 510 after having been subjected to a civil penalty for a prior violation of section 510 shall be fined not more than $50,000 or imprisoned not more than six months, or both.

SEC. 512. POWERS OF THE SECRETARY.

For the purpose of carrying out title III, title IV, this title, and title VI, the Secretary, or the duly designated agent of the Secretary, may hold such hearings, take such testimony, sit and act at such times and places, administer such oaths, and require, by subpena, the attendance and testimony of such witnesses and the production of such books, papers, correspondence, memorandums, contracts, agreements, or other records as the Secretary of Transportation is authorized to do under section 505(b)(1) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2005(b)(1)).

SEC. 513. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary for carrying out this title $10,000,000 for each of the fiscal years 1992 through 1996, and such sums as may be necessary for fiscal years 1997 through 2000.

TITLE VI—ELECTRIC MOTOR VEHICLES

SEC. 601. DEFINITIONS.

For the purposes of this title—

(1) the term "associated equipment" means equipment necessary for the regeneration, refueling, or recharging of batteries or other forms of electrical energy used to power an electric motor vehicle;

(2) the term "comparable conventionally fueled motor vehicle" means a motor vehicle powered by an internal combustion engine that utilizes gasoline or diesel fuel as its fuel source and provides passenger capacity or payload capacity the same or similar to an electric motor vehicle, as determined by the Secretary;

(3) the term "electric motor vehicle" means a motor vehicle primarily powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electrical current, and that may include a nonelectrical source of supplemental power;

(4) the term "price differential" means—

(A) in the case of a purchased motor vehicle, the difference between the manufacturer's suggested retail price of such motor vehicle and the manufacturer's suggested retail price of a comparable conventionally fueled motor vehicle; and

(B) in the case of a leased motor vehicle, the difference between the monthly lease payment of such motor vehicle and the monthly lease payment of a comparable conventionally fueled motor vehicle;

(5) the term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other Commonwealth, territory, or possession of the United States; and

(6) the term "user" means a person or entity that purchases or leases an electric motor vehicle.

Subtitle A—Electric Motor Vehicle Commercial Demonstration Program

SEC. 611. APPLICATIONS.

(a) The Secretary shall request proposals to demonstrate electric motor vehicles or electric motor vehicles and associated equipment in one or more metropolitan areas. The initial request for proposals shall be issued within 18 months after the date of enactment of this Act.

(b) Requests for proposals under this section shall require the proposals to include a description of the proposer, the manufacturer, the proposed users, the metropolitan area or areas, the number of motor vehicles to be demonstrated and their type, characteristics, and life-cycle costs, the price differential, the proposed discount payment, the contributions of State or local governments and other parties to the demonstration project, the domestic content of the motor vehicles, and any other information the Secretary requires to make selections under section 612.

SEC. 612. SELECTION OF PROPOSERS.

(a) After consulting with the Secretary of Transportation, the Secretary of Commerce, and the Administrator of the Environmental Protection Agency, and within 240 days after a request for proposals has been made under section 611, the Secretary may select one or more proposals to receive financial support pursuant to section 613.

(b)(1) No one project selected under this section shall receive more than 25 percent of the funds made available under section 615.

(2) A demonstration project may include electric vehicles in more than one metropolitan area and in more than one State.

(c) In determining whether to select a proposal the Secretary shall consider—

(1) the ability of the manufacturer, directly, indirectly, or in combination with the proposer, to develop, assist in the demonstration of, manufacture, distribute, sell, service, and ensure the continued availability of parts for, electric motor vehicles that are proposed to be included in the demonstration project;

(2) the geographic and climatic diversity of the metropolitan area or areas in which the demonstration project is to be undertaken, when considered in combination with other proposals or other selected demonstration projects;

(3) the suitability of the motor vehicles for their intended use;

(4) the environmental effects of the use of the proposed motor vehicles;

(5) the long-term technical and competitive viability of the electric motor vehicles;

(6) the price differential and the proposed discount payment;

(7) the extent of involvement of State or local government and other parties in the

demonstration project, and whether such involvement will permit a reduction of the Federal cost share per vehicle or will otherwise be used to leverage the Federal contribution to be provided among a greater number of electric vehicles;

(8) the proportion of domestic content of the electric motor vehicles;

(9) the safety of the electric motor vehicles; and

(10) other criteria as the Secretary considers appropriate.

(d) The Secretary shall require that—

(1) the electric motor vehicles will be used primarily in the metropolitan area or areas identified in the proposal;

(2) as a part of the demonstration project the user or users of the electric motor vehicles will provide to the proposer and the manufacturer information regarding the operation, maintenance, and usability of the electric motor vehicles for 5 years after purchase or lease;

(3) the proposer shall provide such information regarding the operation, maintenance, and use of the electric motor vehicles as the Secretary may request during the period of the demonstration project; and

(4) in the case of automobiles or light duty trucks, the number of electric vehicles to be included in the demonstration project shall be no less than 100 vehicles, except that the Secretary may select a demonstration project with fewer than 100 vehicles if the Secretary determines that selection of such a proposal will ensure that there is geographic or climatic diversity of the proposals selected and that an adequate demonstration to accelerate the development and use of electric vehicles can be undertaken with fewer than 100 electric vehicles.

SEC. 613. DISCOUNTS TO USERS.

(a) The Secretary shall provide a discount payment to a proposer reimbursing the proposer for a discount provided to users if the proposer certifies to the Secretary, in such form and at such time as may be required by the Secretary, that—

(1) electric motor vehicles have been purchased or leased by a user in accordance with the requirements of this subtitle; and

(2) the proposer has provided to the user a discount in accordance with this subtitle.

(b) Not later than 30 days after receipt from the proposer of certification which the Secretary determines satisfies the requirements of subsection (a), the Secretary shall pay to the proposer the full amount of the discount payment.

(c) The discount payment shall be—

(1) no greater than the price differential;

(2) no greater than the manufacturer's suggested retail price of a comparable conventionally fueled motor vehicle; and

(3) used by the proposer solely to reimburse the user for the purchase or lease of an electric motor vehicle.

(d) No discount payment shall be provided under this section if the actual purchase price of an electric motor vehicle, adjusted to reflect the discount payment and any additional reduction that may result from contributions provided by other parties, is more than 10 percent less than the manufacturer's suggested retail price of a comparable conventionally fueled motor vehicle.

SEC. 614. REPORTS TO CONGRESS.

(a) PROGRESS REPORTS.—The Secretary shall annually report to Congress on the progress being made, through demonstration projects supported under this subtitle, to accelerate the development and use of electric motor vehicles.

(b) REPORT ON ENCOURAGING THE PURCHASE AND USE OF ELECTRIC VEHICLES.—Within 18 months after the date of enactment of this Act, the Secretary shall submit to the Congress and the President a report on methods for encouraging the purchase and use of electric vehicles. Such report shall focus on the potential cost of purchasing and maintaining electric vehicles, including the initial cost of the batteries and the cost of replacement batteries, and shall identify methods for reducing, subsidizing, or sharing such costs. Such report shall also include recommendations for legislative and administrative measures to support and encourage the purchase and use of electric vehicles.

SEC. 615. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this subtitle $50,000,000 for the 10 fiscal year period beginning with the first full fiscal year after the date of enactment of this Act.

SEC. 616. TECHNOLOGY TRANSFER PROGRAM.

(a) The Secretary shall conduct a program designed to accelerate wider application of advanced electric vehicle technology, including advanced battery technologies.

(b) The Secretary, in carrying out the program authorized by subsection (a), shall—

(1) undertake an inventory and assessment of advanced electric vehicle technologies and their commercial capability; and

(2) develop a Federal-industry information exchange program to improve technology transfer, which may consist of workshops, publications, conferences, and a data base for use by the public and private sectors.

Subtitle B—Electric Motor Vehicle Infrastructure and Support Systems Development Program

SEC. 621. DEFINITIONS.

For purposes of this subtitle—

(1) the term "infrastructure and support systems" includes support and maintenance services and facilities, electricity delivery mechanisms and methods, regulatory treatment of investment in electric motor vehicles and associated equipment, consumer education programs, safety and health procedures, and battery availability, replacement, recycling, and disposal, that may be required to enable electric utilities, automobile manufacturers, and others to support the operation and maintenance of an electric motor vehicle and associated equipment; and

(2) the term "non-Federal person" means an entity not part of the Federal Government that is organized under the laws of the United States, including—

(A) a for-profit business;

(B) a private foundation;

(C) a nonprofit organization such as a university;

(D) a trade or professional society; or

(E) a unit of State or local government.

SEC. 622. GENERAL AUTHORITY.

(a) The Secretary shall undertake a program to enter into joint ventures with one or more eligible non-Federal persons for cost-shared research, development, or demonstration of an infrastructure and support systems program or system designed to support the use of electric motor vehicles.

(b) A non-Federal person shall be eligible to participate in a joint venture under this subtitle only if it demonstrates to the satisfaction of the Secretary that it will conduct a substantial portion of its activities under the joint venture in the United States using United States labor and materials.

(c) Activities under this subtitle shall be coordinated with activities under subtitle A.

SEC. 623. SOLICITATION OF JOINT VENTURES.

(a) Not later than 1 year after funds are appropriated for such purpose under this subtitle, the Secretary shall solicit proposals for joint ventures representing geographically and climatically diverse regions of the United States. Within 240 days after proposals have been solicited, the Secretary shall select proposals and thereafter enter into negotiations in order to obtain a final agreement where possible between the Secretary and the non-Federal person or persons submitting the proposal selected by the Secretary.

(b) The infrastructure and support systems programs for which joint ventures are selected under this section may be designed to address—

(1) the ability to service electric motor vehicles and to provide or service associated equipment;

(2) the installation of charging facilities;

(3) rates and cost recovery for electric utilities who invest in infrastructure capital-related expenditures;

(4) the conduct of information dissemination programs;

(5) the development of safety and health procedures and guidelines related to battery charging, watering, and emissions; and

(6) such other requirements as the Secretary considers necessary in order to address the infrastructure and support systems needed to support electric motor vehicles.

(c) The Secretary shall require at least 50 percent of the costs directly and specifically related to any selected proposal to be provided from non-Federal sources.

(d) In the case of joint ventures activities under this title and, in the case of any existing or future joint ventures related primarily to battery technology for electric motor vehicles under other provisions of law, where the knowledge resulting from research and development activities conducted pursuant to such joint ventures is for the benefit of the participating companies (particularly domestic companies) that provide financial resources to the program, the Secretary, for a period of up to 5 years after the development of information that—

(1) results from research and development activities conducted under such joint ventures; and

(2) would be a trade secret or commercial or financial information that is privileged or confidential if the information had been obtained from a participating company,

may, notwithstanding any other provision of law, provide appropriate protections against the dissemination of such information to the public, and the provisions of section 1905 of title 18, United States Code, shall apply to such information. Nothing in this subsection provides protections against the dissemination of such information to Congress. For purposes of this subsection, a "domestic company" means an entity which is substantially involved in the United States in the domestic production of motor vehicles for sale in the United States and has a substantial percentage of its production facilities in the United States.

SEC. 624. ELECTRIC UTILITY PARTICIPATION STUDY.

The Secretary, in consultation with appropriate Federal departments and agencies, representatives of State regulatory commissions and electric utilities, and such other persons as the Secretary considers appropriate, shall undertake or cause to have undertaken a study to determine the means by which electric utilities may invest in, own, sell, lease, service, or recharge batteries used to power electric motor vehicles.

SEC. 625. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this subtitle not to exceed $10,000,000 for each of the 5 fiscal years beginning after the date of enactment of this Act.

TITLE VII—ELECTRICITY

SEC. 701. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) in 1970, 24 percent of the fuel consumed in the United States was used to produce electricity; this figure rose to 36 percent in 1990 and is projected to rise to more than 41 percent by 2010;

(2) the energy efficiency and economic efficiency of the electric utility sector and the energy security of the Nation are best served by a regulatory structure providing for freer wholesale market entry by independent power producers;

(3) the Nation's environment is best served by the encouragement and further development of independent power producers, who account for 28 percent of new electric generation capacity made available in the last 5 years in conformity with the Clean Air Act new source performance standards;

(4) the protection of the public health, safety and welfare, preservation of national security, and the proper exercise of congressional authority under the Constitution to regulate interstate commerce require a program to—

(A) enhance the Nation's energy security by increasing the potential supplies and suppliers of electric power,

(B) allow for the broadest range of options for electric utilities that need new increments of electric power,

(C) build upon the established success of the cogeneration and small power production provisions of title II of the Public Utility Regulatory Policies Act of 1978,

(D) increase the reliability of electric supplies in order to bolster the Nation's reserves of electric power, which have dwindled substantially during the last decade,

(E) deliver electricity to consumers at the lowest reasonable price, and

(F) clarify existing Federal authority to ensure that essential transmission services will be available to facilitate independent power and other wholesale sales, while maintaining reliability of service and protecting other consumer interests.

(b) PURPOSES.—The purposes of this title are to—

(1) ensure an adequate and economical supply of electricity in the United States;

(2) encourage greater use of abundant domestic resources for generating electricity;

(3) facilitate power plant ownership by those best able to build power plants at the lowest reasonable cost;

(4) encourage conservation of the fuel and capital resources used to generate electricity; and

(5) clarify Federal authority to ensure that transmission service is provided on a nondiscriminatory basis.

Subtitle A—Public Utility Holding Company Act Amendments

SEC. 711. TREATMENT OF INDEPENDENT POWER PRODUCERS UNDER PUHCA.

Title I of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 and following) is amended by adding the following new section after section 31 and by redesignating sections 32 and 33 as sections 33 and 34 respectively:

"SEC. 32. INDEPENDENT POWER PRODUCERS.

"(a) DEFINITIONS.—For purposes of this section—

"(1) INDEPENDENT POWER PRODUCER.—The term 'independent power producer' means any person determined by the Federal Energy Regulatory Commission, under rules promulgated by such Commission, to be engaged directly and exclusively in the business of owning or operating (or both owning and operating) all or part of one or more eligible facilities. No person shall be deemed to be an independent power producer under this section unless such person has applied to the Federal Energy Regulatory Commission for a determination under this paragraph. The Federal Energy Regulatory Commission shall notify the Securities and Exchange Commission whenever a determination is made under this paragraph that any person is an independent power producer.

"(2) ELIGIBLE FACILITY.—

"(A) WHOLESALE GENERATION FACILITIES.—Except as provided in subparagraph (B), the term 'eligible facility' means a facility, wherever located, that is used for the generation of electric energy exclusively for sale at wholesale. Such term includes interconnecting transmission facilities necessary to effect such sale at wholesale.

"(B) EXISTING RATE-BASED FACILITIES NOT ELIGIBLE.—No facility which is included (in whole or in part), as of the date of enactment of this section, in the rate base of a State regulated electric utility, shall be deemed to be an eligible facility notwithstanding any subsequent sale or lease of such facility by such State regulated electric utility.

"(b) EXEMPTIONS FOR INDEPENDENT POWER PRODUCERS.—An independent power producer (1) shall not be deemed to be an electric utility company under section 2(a)(3) of this Act, and (2) shall be exempt from all provisions of this Act other than the provisions of this section. The preceding sentence shall apply whether or not the independent power producer is a subsidiary company, an affiliate, or an associate company of a holding company.

"(c) COMPANIES EXEMPT UNDER SECTION 3.—Notwithstanding any other provision of this Act, a holding company that is exempt under section 3 shall be permitted, without condition or limitation under this Act, to acquire and maintain an interest in the business of one or more independent power producers.

"(d) REGISTERED HOLDING COMPANIES.—Notwithstanding any other provision of this Act, a registered holding company shall be permitted (without the need to apply for, or receive approval from, the Commission, and otherwise without condition under any other provision of this Act) to acquire and hold the securities, or interest in the business, of one or more independent power producers. Any interest in the business of one or more independent power producers by a registered holding company (regardless of where facilities owned or operated by such independent power producers are located) shall be considered to be—

"(1) consistent with the operation of an integrated public utility system; and

"(2) reasonably incidental, or economically necessary or appropriate, to the operation of an integrated public utility system: *Provided*, That—

"(A) the creation or maintenance of any relationship (including any service, sales, or construction contract) with, and

"(B) the issuance of securities to finance an acquisition of securities of, or the guarantee of securities of,

an independent power producer, by a registered holding company (or a subsidiary or affiliate company of a registered company) shall remain subject to section 6 of this Act. In determining whether to approve any action under subparagraphs (A) and (B), the Commission shall not find that the security is not reasonably adapted to the earning power or the security structure of the registered company, or that the transaction is an improper risk, unless the Commission first finds that the issuance of the security or the transaction would have a substantial adverse impact on the financial integrity of the registered company system; and *Provided further*, That in determining whether to approve the issuance or sale of a security, or any other transactions by a registered company or its subsidiaries other than those with an independent power producer, the Commission shall not consider the effect of the capitalization or earnings of any subsidiary which is an independent power producer upon the registered holding company system unless the transaction, if approved, would have a substantial adverse impact on the financial integrity of the registered holding company system. The Commission may not make any determination or finding under subparagraph (A) or (B) until the Commission has promulgated regulations with respect to the actions which would be considered, for purposes of this subsection, to have a substantial adverse impact on the financial integrity of the registered holding company system. Such regulations shall ensure that the action has no adverse impact on any utility subsidiary or its customers, or on the ability of State commissions to protect such subsidiary or customers, and shall take into account the amount and type of capital invested in independent power producers, the ratio of such capital to the total capital invested in utility operations, the availability of books and records, and the financial and operating experience of the registered holding company and the independent power producer. The Commission shall promulgate regulations under this subsection within 6 months after the enactment of the Comprehensive National Energy Policy Act.

"(e) APPLICATION OF ACT TO OTHER ELIGIBLE FACILITIES.—After the date of the enactment of this section, in the case of any person engaged directly and exclusively in the business of owning or operating (or both owning and operating) all or part of one or more eligible facilities, an advisory letter from the Commission staff under this Act or an order issued by the Commission under this Act shall not be required for the purpose, or have the effect, of exempting such person from treatment as an electric utility company under section 2(a)(3) or exempting such person from any provision of this Act.

"(f) STATE AUTHORITIES.—Nothing in this section shall be construed to affect or limit in any way any authority of any State commission to review the financial structure of any independent power producer selling electric power to a State regulated electric utility, the rates and charges of which are subject to the jurisdiction of such State commission. Nothing in this section shall be construed to eliminate or reduce any existing State jurisdiction to define or regulate electric utilities.".

SEC. 712. OWNERSHIP OF INDEPENDENT POWER PRODUCERS AND QUALIFYING FACILITIES.

Section 3 of the Federal Power Act (16 U.S.C. 791a and following) is amended by adding the following after the semicolon at the end of paragraph (17)(C)(ii) and after the semicolon at the end of paragraph (18)(B)(ii): "the ownership by a person of one or more independent power producers shall not result in such person being considered as being primarily engaged in the generation or sale of electric power within the meaning of this clause;".

SEC. 713. AFFILIATE TRANSACTIONS; STATE AUTHORITIES.

(a) AFFILIATE TRANSACTIONS.—(1) Section 205 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

"(g)(1) It shall be a violation of this Act for an independent power producer to sell electric energy to a public utility if the independent power producer is an affiliate, associate company, or subsidiary company of the public utility.

"(2) As used in this subsection the terms 'affiliate', 'associate company', and 'subsidiary company' shall have the same meaning as when used in the Public Utility Holding Company Act of 1935.

"(3) This subsection shall take effect with respect to the sale of electric energy the rates and charges for which are approved or fixed by the Commission, or which the Commission permits to take effect, under section 205 or 206 after the date of the enactment of this subsection.".

(b) BOOKS AND RECORDS.—Section 201 of the Federal Power Act is amended by adding the following new subsection at the end thereof:

"(g) BOOKS AND RECORDS.—(1) Upon written order of a State Commission, a State commission may examine the books, accounts, memoranda, contracts, and records of—

"(A) an electric utility company subject to its regulatory authority under State law,

"(B) any independent power producer selling power at wholesale to such electric utility,

"(C) any subsidiary company, associate company, or affiliate of the electric utility company, and

"(D) any subsidiary company, associate company, or affiliate of the independent power producer which independent power producer sells power at wholesale to an electric utility company referred to in subparagraph (A),

wherever located, if such examination is required for the effective discharge of the State commission's regulatory responsibilities affecting the provision of electric service.

"(2) Any United States district court located in the State in which the State commission referred to in paragraph (1) is located shall have jurisdiction to issue an injunction compelling compliance with an order issued by the State commission under this subsection.

"(3) As used in this subsection the terms 'affiliate', 'associate company', 'electric utility company', and 'subsidiary company' shall have the same meaning as when used in the Public Utility Holding Company Act of 1935.".

Subtitle B—Federal Power Act; Interstate Commerce in Electricity

SEC. 721. INTERCONNECTION.

Section 210 of the Federal Power Act is amended in subsection (a) by striking "geothermal power producer" and all that follows down through "qualifying small power producer," and inserting ", or any other person generating electric energy for sale for resale" in paragraph (1).

SEC. 722. AMENDMENTS TO SECTION 211 OF FEDERAL POWER ACT.

Section 211 of the Federal Power Act (16 U.S.C. 824j) is amended as follows:

(1) The first sentence of subsection (a) is amended to read as follows: "Any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale, may apply to the Commission for an order under this subsection requiring a transmitting utility to provide transmission services (including any enlargement of transmission capacity necessary to provide such services) to the applicant.".

(2) In the second sentence of subsection (a), strike "the Commission may" and all that follows and insert "the Commission shall issue such order if it finds that such order meets the requirements of section 212, would maintain the reliability of any electric utility system to which the order applies, would otherwise be in the public interest, and would—

"(1) conserve a significant amount of energy,

"(2) significantly promote the efficient use of facilities and resources,

"(3) promote competition in the wholesale power market,

"(4) enhance protection of the environment, or

"(5) prevent, arrest, or abate discriminatory practices that are subject to the jurisdiction of the Commission.".

(3) In subsection (b)—

(A) Strike out "other electric utility" and insert "transmitting utility" in both places such term appears.

(B) After "affected electric utility," insert "each affected transmitting utility,".

(C) Strike out "an evidentiary hearing" in the second sentence and insert "a hearing".

(4) In subsection (c)—

(A) Strike out paragraph (1).

(B) In paragraph (2) strike "which requires the electric" and insert "which requires the transmitting".

(C) In paragraph (3) strike "electric" and insert "electric utilities or transmitting".

(5) In subsection (d)—

(A) In the first sentence of paragraph (1), strike "electric" and insert "transmitting" in each place it appears.

(B) In the second sentence of paragraph (1) before "and each affected electric utility," insert "each affected transmitting utility,".

(C) In paragraph (3), strike "electric" and insert "transmitting".

(D) Strike the period in subparagraph (B) of paragraph (1) and insert ", or" and after subparagraph (B) insert the following new subparagraph:

"(C) the order to provide such transmission services requires enlargement of transmission capacity and the transmitting utility subject to the order has failed, after making a good faith effort, to obtain the necessary approvals under applicable Federal, State, and local environmental and siting laws.".

SEC. 723. TRANSMISSION SERVICES.

(a) AMENDMENTS TO SECTION 212.—Section 212 of the Federal Power Act is amended as follows:

(1) Strike subsections (a) and (b) and insert the following:

"(a) LIMITATIONS.—No order under section 211 or 213 shall require any transmitting utility to provide transmission services which will (1) unduly impair the reliability of any transmitting utility, public utility, or electric utility, affected by the order; (2) unduly impair the ability of any such utility to render adequate services to its customers; or (3) unduly economically disadvantage the customers of the transmitting utility subject to the order. Whenever the Commission finds that any proposed order under section 211 or 213 would have any effect referred to in the preceding sentence, the Commission shall issue an order requiring the transmitting utility to provide so much of the proposed wholesale transmission services as would not have any such effect.

"(b) CHARGES FOR WHOLESALE TRANSMISSION SERVICES.—(1) An order under section 211 or 213 shall require the transmitting utility subject to the order to provide wholesale transmission services at rates and charges which permit the recovery by such utility of all prudent costs incurred in connection with the transmission services and necessary associated services, including an appropriate share of the costs of any enlargement of transmission facilities (plus a reasonable rate of return on investment, as appropriate) as determined by the Commission. Orders under section 211 or 213 which provide for tariffs of general applicability shall include in such tariffs, rates, terms, and conditions for firm and nonfirm, and long and short-term transmission services. Such rates, terms, and conditions shall not be unjust, unreasonable, unduly discriminatory or preferential.

"(2) Rates, charges, terms, and conditions applicable to transmission service ordered under sections 211 or 213, to the extent practicable, based on the facts and circumstances present at the time, shall be designed to—

"(A) compensate native load customers for legitimate and verifiable economic costs of providing the transmission service,

"(B) provide the lowest reasonable transmission rates for the transmission service, and

"(C) prevent the collection of monopoly rents by the transmitting utility and promote the efficient transmission and generation of electricity.

Such rates, charges, terms, and conditions shall account for any benefits to the transmission system of providing the transmission service, and a reasonable balance among subparagraphs (A), (B), and (C).".

(2) Subsection (e) is amended to read as follows:

"(e) SAVINGS PROVISIONS.—(1) No provision of section 210, 211, 213, or 215 shall be treated as requiring any person to utilize the authority of section 210, 211, 213, or 215 in lieu of any other authority of law, or as limiting, impairing, or otherwise affecting any authority of the Commission under any other provision of law.

"(2) Sections 210, 211, 213, 214, and 215, and this section, shall not be construed to modify, impair, or supersede the operation of the antitrust laws. For purposes of this section, the term 'antitrust laws' has the meaning given in subsection (a) of the first sentence of the Clayton Act, except that such term includes section 5 of the Federal Trade Commission Act to the extent that such section relates to unfair methods of competition.".

(3) Add the following new subsections at the end thereof:

"(g) PROHIBITION ON MANDATORY RETAIL WHEELING.—No order issued under this Act shall require the mandatory transmission of electric energy directly to an ultimate consumer.

"(h) LAWS APPLICABLE TO FEDERAL COLUMBIA RIVER TRANSMISSION SYSTEM.—(1) The Commission shall have authority pursuant to section 210, section 211, this section, section 213, and section 214 to (A) order the Administrator of the Bonneville Power Administration to provide transmission service and (B) establish the terms and conditions of such service. In applying such sections to the Federal Columbia River Power System, the Commission shall assure that—

"(i) the provisions of otherwise applicable Federal laws shall continue in full force and effect and shall continue to be applicable to the system; and

"(ii) the rates for the transmission of electric power on the system shall be governed only by such otherwise applicable provisions of law and not by any provision of section 210, section 211, this section, section 213, or section 214, except that no rate for the transmission of power on the system shall be unjust, unreasonable, or unduly discriminatory or preferential, as determined by the Commission.

"(2) Notwithstanding any other provision of this Act with respect to the procedures for the determination of terms and conditions for transmission service—

"(A) when the Administrator of the Bonneville Power Administration either (i) in response to a written request for specific transmission service terms and conditions does not offer the requested terms and conditions, or (ii) proposes to establish terms and conditions of general applicability for transmission service on the Federal Columbia River Transmission System, then the Administrator may provide opportunity for a hearing and, in so doing, shall—

"(I) give notice in the Federal Register and state in such notice the written explanation of the reasons why the specific terms and conditions for transmission services are not being offered or are being proposed;

"(II) adhere to the procedural requirements of paragraphs (1) through (3) of section 7(i) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839(i)(1) through (3)), except that the hearing officer shall, unless the hearing officer becomes unavailable to the agency, make a recommended decision to the Administrator that states the hearing officer's findings and conclusions, and the reasons or basis thereof, on all material issues of fact, law, or discretion presented on the record; and

"(III) make a determination, setting forth the reasons for reaching any findings and conclusions which may differ from those of the hearing officer, based on the hearing record, consideration of the hearing officer's recommended decision, section 211 and this section, as amended by the Comprehensive National Energy Policy Act, and the provisions of law as preserved in this section; and

"(B) if application is made to the Commission under section 211 for transmission service under terms and conditions different than those offered by the Administrator, or following the denial of a request for transmission service by the Administrator, and such application is filed within 60 days of the Administrator's final determination and in accordance with Commission procedures, the Commission shall—

"(i) in the event the Administrator has conducted a hearing as herein provided for (I) accord parties to the Administrator's hearing the opportunity to offer for the Commission record materials excluded by the Administrator from the hearing record, (II) accord such parties the opportunity to submit for the Commission record comments on appropriate terms and conditions, (III) afford those parties the opportunity for a hearing if and to the extent that the Commission finds the Administrator's hearing record to be inadequate to support a decision by the Commission, and (IV) establish terms and conditions for or deny transmission service based on the Administrator's hearing record, the Commission record, section 211 and this section, as amended by the Comprehensive National Energy Policy Act, and the provisions of law as preserved in this section, or

"(ii) in the event the Administrator has not conducted a hearing as herein provided for, determine whether to issue an order for transmission service in accordance with section 211 and this section, including providing the opportunity for a hearing.

"(3) Notwithstanding those provisions of section 313(b) of this Act (16 U.S.C. 825l) which designate the court in which review may be obtained, any party to a proceeding concerning transmission service sought to be furnished by the Administrator of the Bonneville Power Administration seeking review of an order issued by the Commission in such proceeding shall obtain a review of such order in the United States Court of Appeals for the Pacific Northwest, as that region is defined by section 3(14) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839a(14)).

"(4) To the extent the Administrator of the Bonneville Power Administration cannot be required under section 211 or 213, as a result of the Administrator's other statutory mandates, either to (A) provide transmission service to an applicant which the Commission would otherwise order, or (B) provide such service under rates, terms, and conditions which the Commission would otherwise require, the applicant shall not be required to provide similar transmission services to the Administrator or to provide such services under similar rates, terms, and conditions.

"(5) The Commission shall not issue any order under section 210, section 211, this section, section 213, or section 214 requiring the Administrator of the Bonneville Power Administration to provide transmission service if such an order would impair the Administrator's ability to provide such transmission service to the Administrator's power and transmission customers in the Pacific Northwest, as that region is defined in section 3(14) of the Pacific Northwest Electric Power Planning and Conservation Act (16 U.S.C. 839a(14)), as is needed to assure adequate and reliable service to loads in that region.

"(i) EQUITABILITY WITHIN TERRITORY RESTRICTED ELECTRIC SYSTEMS.—With respect to an electric utility which is prohibited by Federal law from being a source of power supply, either directly or through a distributor of its electric energy, outside an area set forth in such law, no order issued under section 211 may require such electric utility (or a distributor of such electric utility) to provide transmission services to another entity if the electric energy to be transmitted will be consumed within the area set forth in such Federal law, unless the order is in furtherance of a sale of electric energy to that electric utility: *Provided, however*, That the foregoing provision shall not apply to any area served at retail by an electric transmission system which was such a distributor on the date of enactment of this subsection and which before October 1, 1991, gave its notice of termination under its power supply contract with such electric utility.

"(j) SHAM TRANSACTIONS.—No order may be issued under section 211 or 213 to transmit electric energy if the applicant does not have a contractual right to purchase or sell such electric energy, or does not have a contractual right to, or an ownership interest in, a generation facility, or would not utilize transmission or distribution facilities owned or controlled by it to deliver such electric energy to retail consumers, or is not a State, political subdivision thereof, or any agency or instrumentality thereof, authorized by State law to generate, transmit, or distribute electric energy.".

(b) VOLUNTARY PROVISION OF TRANSMISSION SERVICES.—Title II of the Federal Power Act is amended by adding the following new section after section 212:

"SEC. 213. VOLUNTARY PROVISION OF TRANSMISSION SERVICES.

"(a) COVERED SALES.—For purposes of this section, a sale of electric energy shall be considered a 'covered sale of electric energy' if the sale is—

"(1) subject to the jurisdiction of the Commission; and

"(2) pursuant to rates and charges which are not based on the costs of providing such energy, including a reasonable rate of return,

except that no economy sale or sale which results from economic dispatch performed by a regional power pool arrangement, each as defined by the Commission, shall be treated as a covered sale of electric energy and no sale of electric energy by a qualifying small power production facility or qualifying cogenerator shall be treated as a covered sale of electric energy.

"(b) UTILITIES TO PROVIDE WHOLESALE TRANSMISSION SERVICES.—Whenever—

"(1) any order is issued permitting any transmitting utility or any affiliate thereof to make any covered sale of electric energy, or

"(2) any order is issued under section 203 permitting a transmitting utility or any affiliate thereof to merge or consolidate with any other public utility,

the Commission shall issue an order requiring each such transmitting utility (and each affiliate thereof which provides wholesale transmission service in a service area directly affected by the covered sale, merger, or consolidation, as determined by the Commission), to provide wholesale transmission services in accordance with this section and section 212. An order under this section shall include tariffs of general applicability for the transmission services to be provided and shall include such other terms and conditions as necessary pursuant to section 212.

"(c) SAVINGS CLAUSE.—Nothing in this section shall restrict or prevent any person from seeking interconnection pursuant to section 210 or transmission service pursuant to section 211.".

SEC. 724. INFORMATION REQUIREMENTS.

Part II of the Federal Power Act is amended by adding the following new section after section 213:

"SEC. 214. INFORMATION REQUIREMENTS.

"(a) REQUESTS FOR WHOLESALE TRANSMISSION SERVICES.—Whenever any electric utility, Federal power marketing agency, or any other person generating electric energy for sale for resale requests a transmitting utility to provide wholesale transmission services and requests specific rates and charges, and other terms and conditions, unless the transmitting utility agrees to provide such services in accordance with such rates and charges and other conditions, the transmitting utility shall, within 30 days of its receipt of the request, provide such person with a written explanation of the reasons why such wholesale transmission services are not being offered in accordance with such rates and charges and other conditions.

"(b) TRANSMISSION CAPACITY AND CONSTRAINTS.—Not later than 1 year after the enactment of this section, the Commission shall promulgate a rule requiring that the information be submitted annually to the Commission by transmitting utilities regarding:

"(1) existing and planned transmission facilities;

"(2) forecasts of load growth (firm and nonfirm);

"(3) existing and planned transmission arrangements;

"(4) actual line losses;

"(5) reliability assessments; and

"(6) such other matters related to electric power transmission as the Commission finds necessary.

Such information shall be adequate to enable the Commission to carry out the purposes of this section and sections 210, and 211, and to inform potential transmission customers, State regulatory authorities, and the public of available transmission capacity and potential constraints.".

SEC. 725. SALES BY INDEPENDENT POWER PRODUCERS.

Part II of the Federal Power Act is amended by adding the following new section after section 214:

"SEC. 215. SALES BY INDEPENDENT POWER PRODUCERS.

"(a) UNLAWFUL AGREEMENTS.—The Commission shall determine, after notice and opportunity for hearing, whether any agreement for the sale of electric energy by an independent power producer would result in the granting of any undue preference or advantage or would result in any undue prejudice or disadvantage. Any such agreement that would have such an effect shall be unlawful.

"(b) DENIAL OF TRANSMISSION ACCESS.—It shall be treated as an undue prejudice or disadvantage for any transmitting utility which purchases electric energy from an independent power producer to unreasonably deny or restrict access by potential competing sellers to nondiscriminatory transmission services.

"(c) COMPETITIVE SALES.—No agreement for the sale of electric energy by an independent power producer which—

"(1) results from a competitive process established by a State regulatory authority, and

"(2) satisfies such requirements as the Commission may, by rule, establish to ensure that genuine competition exists,

shall be treated as unlawful under subsection (a) unless an aggrieved person establishes that such agreement would result in the granting of any undue preference or advantage or would result in any undue prejudice or disadvantage.

"(d) STATE AUTHORITIES.—Nothing in this section shall be construed to eliminate or reduce any existing State jurisdiction to define or regulate electric utilities.".

SEC. 726. PENALTIES.

(a) EXISTING PENALTIES NOT APPLICABLE TO TRANSMISSION PROVISIONS.—Sections 315 and 316 of the Federal Power Act are each amended by adding the following at the end thereof:

"(c) This subsection shall not apply in the case of any provision of section 211, 212, 213, 214, or 215 or any rule or order issued under any such provision.".

(b) PENALTIES APPLICABLE TO TRANSMISSION PROVISIONS.—Title III of the Federal Power Act is amended by inserting the following new section after section 316:

"SEC. 316A. ENFORCEMENT CERTAIN PROVISIONS.

"(a) GENERAL RULE.—It shall be unlawful for any person to violate any provision of section 211, 212, 213, 214, or 215 or any rule or order issued under any such provision.

"(b) CIVIL PENALTIES.—

"(1) IN GENERAL.—Any person who knowingly violates any provision of section 211, 212, 213, 214, or 215 or any provision of any rule or order thereunder shall be subject to a civil penalty, which the Commission may assess, of not more than $25,000 for any one violation.

"(2) 'KNOWINGLY' DEFINED.—For purposes of paragraph (1), the term 'knowingly' means the having of—

"(A) actual knowledge; or

"(B) the constructive knowledge deemed to be possessed by a reasonable individual who acts under similar circumstances.

"(3) EACH DAY SEPARATE VIOLATION.—For purposes of this paragraph, in the case of a continuing violation, each day of violation shall constitute a separate violation.

"(4) STATUTE OF LIMITATIONS.—No person shall be subject to any civil penalty under this paragraph with respect to any violation occurring more than 3 years before the date on which such person is provided notice of the proposed penalty under subparagraph (5). The preceding sentence shall not apply in any case in which an untrue statement of material fact was made to the Commission or a State or Federal agency by, or acquiesced to by, the violator with respect to the acts or omissions constituting such violation, or if there was omitted a material fact necessary in order to make any statement made by, or acquiesced to by, the violator with respect to such acts or omissions not misleading in light of the circumstances under which such statement was made.

"(5) ASSESSED BY COMMISSION.—Before assessing any civil penalty under this paragraph, the Commission shall provide to such person notice of the proposed penalty. Following receipt of notice of the proposed penalty by such person, the Commission shall, by order, assess such penalty.

"(6) JUDICIAL REVIEW.—If the civil penalty has not been paid within 60 calendar days after the assessment order has been made under paragraph (5), the Commission shall institute an action in the appropriate district court of the United States for an order affirming the assessment of the civil penalty. The court shall have authority to review de novo the law and the facts involved, and shall have jurisdiction to enter a judgment enforcing, modifying, and enforcing as so modified, or setting aside in whole or in part, such assessment.".

SEC. 727. DEFINITIONS.

(a) ADDITIONAL DEFINITIONS.—Section 3 of the Federal Power Act is amended by adding the following at the end thereof:

"(23) TRANSMITTING UTILITY.—The term 'transmitting utility' means any electric utility or Federal power marketing agency which owns or operates electric power transmission facilities which are used for the sale of electric energy at wholesale.

"(24) WHOLESALE TRANSMISSION SERVICES.—The term 'wholesale transmission services' means the transmission of electric energy sold, or to be sold, at wholesale in interstate commerce.

"(25) INDEPENDENT POWER PRODUCER.—The term 'independent power producer' shall have the meaning provided by section 32 of the Public Utility Holding Company Act of 1935.".

(b) CLARIFICATION OF TERMS.—Section 3(22) of the Federal Power Act is amended by inserting "(including any municipality)" after "State agency".

Subtitle C—State and Local Authorities

SEC. 731. STATE AUTHORITIES.

Nothing in this title or in any amendment made by this title shall be construed as affecting or intending to affect, or in any way to interfere with, the authority of any State or local government relating to environmental protection or the siting of facilities.

TITLE VIII—HIGH-LEVEL RADIOACTIVE WASTE

SEC. 801. ENVIRONMENTAL PROTECTION AGENCY STANDARDS FOR DISPOSAL.

Section 121 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10141) is amended by adding at the end the following new subsection:

"(d) REINSTATEMENT AND REISSUANCE OF EPA STANDARDS.—

"(1) REINSTATEMENT.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the generally applicable environmental standards for the disposal of high-level radioactive waste, spent nuclear fuel, and transuranic waste that were contained in subpart B of part 191 of title 40, Code of Federal Regulations, as in effect on July 1, 1987, are reinstated.

"(B) EXCEPTION.—Subparagraph (A) shall not apply to sections 191.15 and 191.16 of such subpart B.

"(2) REISSUANCE.—

"(A) PROPOSED.—The Administrator shall issue and publish in the Federal Register, not later than 3 months after the date of the enactment of this subsection, proposed revisions to the standards described in subsection (a). Such proposed revisions shall include—

"(i) proposed standards governing the matters contained in sections 191.15 and 191.16 of subpart B of part 191 of title 40, Code of Federal Regulations, as in effect on July 1, 1987; and

"(ii) any other revisions that the Administrator considers to be appropriate.

"(B) FINAL.—The Administrator shall issue, not later than 9 months after the date of the issuance of the proposed revisions described in subparagraph (A), final revisions to the standards described in subsection (a).".

SEC. 802. INFLATION ADJUSTMENT FOR FEES.

Section 302(a) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222(a)) is amended by adding at the end the following new paragraph:

"(7)(A) In the case of any fiscal year beginning after September 30, 1992, the fee amount specified in paragraphs (2) and (3) shall be increased by an amount equal to—

"(i) such fee amount; multiplied by

"(ii) the inflation adjustment determined under subparagraph (B).

"(B) For purposes of subparagraph (A), the inflation adjustment for any fiscal year is the percentage (if any) by which—

"(i) the inflation index for the preceding fiscal year; exceeds

"(ii) the inflation index for fiscal year 1991.

"(C) For purposes of subparagraph (B), the inflation index for any fiscal year is the average of the Consumer Price Index (as published by the Department of Labor) for the 12 months in such fiscal year.".

SEC. 803. PLAN FOR TIMELY PAYMENT OF COSTS FOR DISPOSAL OF DEFENSE WASTE IN REPOSITORY.

Section 8(b)(2) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10107(b)(2)) is amended by adding at the end the following new sentence: "Not later than 12 months after the date of the enactment of the Energy Development and Environmental Protection Act, the Secretary shall submit to the Congress a plan for the payment in full by January 1, 2010, of all amounts obligated to be paid under such arrangements with respect to such waste.".

SEC. 804. INTERIM STORAGE.

Section 135 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10155) is amended by adding at the end the following new subsection:

"(j) APPLICABILITY TO STORAGE UNDER PRIOR AUTHORITY.—The provisions of subsection (d)(6) shall also apply to any additional storage capacity for civilian spent nuclear fuel that is provided—

"(1) by the Secretary after the date of the enactment of this subsection at any Federal site;

"(2) pursuant to any provision of law other than this section; and

"(3) pursuant to any agreement, contract, or other obligation that—

"(A) was in effect before January 7, 1983; and

"(B) authorizes or requires the Secretary to provide such storage capacity on or after such date.".

TITLE IX—URANIUM ENRICHMENT CORPORATION

SEC. 901. ESTABLISHMENT OF THE URANIUM ENRICHMENT CORPORATION.

(a) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is amended—

(1) by inserting at its beginning after

"ATOMIC ENERGY ACT OF 1954"

the following:

"TABLE OF CONTENTS

"TITLE I—ATOMIC ENERGY"; AND

(2) by adding at the end of the table of contents the following:

"TITLE II—URANIUM ENRICHMENT CORPORATION

"CHAPTER 22—GENERAL PROVISIONS

"Sec. 1201. Definitions.
"Sec. 1202. Purposes.

"CHAPTER 23—ESTABLISHMENT, POWERS, AND ORGANIZATION OF CORPORATION

"Sec. 1301. Establishment of the Corporation.
"Sec. 1302. Corporate offices.
"Sec. 1303. Powers of the Corporation..
"Sec. 1304. Board of Directors.
"Sec. 1305. Employees of the Corporation.
"Sec. 1306. Audits.
"Sec. 1307. Annual reports.
"Sec. 1308. Accounts.
"Sec. 1309. Obligations.
"Sec. 1310. Exemption from taxation and payments in lieu of taxes.
"Sec. 1311. Cooperation with other agencies.
"Sec. 1312. Applicability of certain Federal laws.
"Sec. 1313. Security.
"Sec. 1314. Control of information.
"Sec. 1315. Transition.
"Sec. 1316. Working Capital Account.

"CHAPTER 24—RIGHTS, PRIVILEGES, AND ASSETS OF THE CORPORATION

"Sec. 1401. Marketing and contracting authority.
"Sec. 1402. Pricing.
"Sec. 1403. Option to lease gaseous diffusion facilities of the Department.
"Sec. 1404. AVLIS.
"Sec. 1405. Assets, initial debt, and dividend policy.
"Sec. 1406. Patents and inventions.
"Sec. 1407. Liabilities.
"Sec. 1408. Uranium inventories.

"CHAPTER 25—PRIVATIZATION OF THE CORPORATION

"Sec. 1501. Strategic plan for privatization.
"Sec. 1502. Predeployment activities.
"Sec. 1503. Privatization.
"Sec. 1504. Restructuring of Corporation and Board.".

(b) The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is further amended by adding at the end of title I the following new title:

"TITLE II—URANIUM ENRICHMENT CORPORATION

"CHAPTER 22—GENERAL PROVISIONS

"SEC. 1201. DEFINITIONS.

"As used in this title:

"(1) The term 'alternative technologies for uranium enrichment' means technologies to enrich uranium by methods other than the gaseous diffusion process.

"(2) The term 'AVLIS' means atomic vapor laser isotope separation technology.

"(3) The term 'Board' means the Board of Directors of the Corporation established under section 1305.

"(4) The term 'Corporation' means the Uranium Enrichment Corporation.

"(5) The term 'corrective actions' shall have the meaning given such term by the Administrator of the Environmental Protection Agency under section 3004(u) of the Solid Waste Disposal Act (42 U.S.C. 6924 (u)).

"(6) The term 'decontamination and decommissioning' means those activities, other than response actions or corrective actions, undertaken to decontaminate and decommission inactive uranium enrichment facilities that have residual radioactive or mixed radioactive and hazardous chemical contamination, including depleted tailings.

"(7) The term 'Department' means the Department of Energy.

"(8) The term 'response actions' shall have the meaning given the term 'response' in section 101(25) of The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601(25)).

"(9) the term 'releases' shall have the meaning given the term 'release' in section 101(22) of The Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601(25)).

"(10) The term 'Secretary' means the Secretary of Energy.

"(11) The term 'uranium enrichment' means the separation of uranium of a given isotopic content into two components, one having a higher percentage of a fissile isotope and one having a lower percentage.

"SEC. 1202. PURPOSES.

"The Corporation is created for the following purposes:

"(1) To operate as a business enterprise on a profitable and efficient basis.

"(2) To maximize the long-term value of the Corporation to the Treasury of the United States and private investors.

"(3) To lease Department uranium enrichment facilities, as needed.

"(4) To acquire uranium for uranium enrichment, as needed.

"(5) To market and sell its enriched uranium and uranium enrichment and related services to—

"(A) the Department for governmental purposes; and

"(B) domestic and foreign persons, as provided in section 1303(6).

"(6) To conduct research and development as required to meet business objectives for the purposes of identifying, evaluating, improving, and testing alternative technologies for uranium enrichment.

"(7) To conduct the business as a self-financing corporation and eliminate the need for Federal Government appropriations or sources of Federal financing other than those provided in this title.

"(8) To help maintain a reliable and economical domestic source of uranium enrichment services.

"(9) To comply with laws, and regulations promulgated thereunder, to protect the public health, safety, and the environment.

"(10) To continue at all times to meet the objectives of ensuring the Nation's common defense and security, including abiding by United States laws and policies concerning special nuclear materials and nonproliferation of atomic weapons and other nonpeaceful uses of atomic energy.

"(11) To contribute to the recovery of the cost of decontamination and decommissioning of uranium enrichment facilities and costs under section 161 v.

"(12) To take all other lawful actions in furtherance of these purposes.

"CHAPTER 23—ESTABLISHMENT, POWERS, AND ORGANIZATION OF CORPORATION

"SEC. 1301. ESTABLISHMENT OF THE CORPORATION.

"(a) There is established a body corporate to be known as the Uranium Enrichment Corporation.

"(b) The Corporation shall be established as a wholly owned Government corporation subject to chapter 91 of title 31, United States Code (commonly referred to as the Government Corporation Control Act), except as otherwise provided in this title.

"SEC. 1302. CORPORATE OFFICES.

"(a) Notwithstanding subsection (b), the Corporation shall incorporate under the jurisdiction of a State of its choosing, and shall be subject to service of process and papers and venue in civil actions, only in that jurisdiction.

"(b) The Corporation shall maintain an office in the District of Columbia and may establish offices in any other place it determines necessary or appropriate in the conduct of its business.

"SEC. 1303. POWERS OF THE CORPORATION.

"In order to accomplish its purposes, the Corporation—

"(1) shall, subject to its articles of incorporation and applicable Federal and State law, have all the powers of a private corporation unless otherwise stated in this title;

"(2) shall have the priority of the United States with respect to the payment of debts out of bankrupt, insolvent, and decedents' estates;

"(3) may obtain from the Administrator of General Services the services the Administrator is authorized to provide agencies of the United States, on the same basis as those services are provided to other agencies of the United States;

"(4) shall enrich uranium, acquire enriched uranium, or provide for uranium to be enriched by others;

"(5) may conduct, or provide for conducting, those research and development activities related to uranium enrichment and related processes and activities the Corporation considers necessary or advisable to maintain the Corporation as a commercial enterprise operating on a profitable and efficient basis;

"(6) may enter into transactions regarding uranium, enriched uranium, or depleted uranium with—

"(A) persons licensed under section 53, 63, 103, or 104 of title I in accordance with the licenses held by those persons;

"(B) persons in accordance with, and within the period of, an agreement for cooperation arranged under section 123 of title I; or

"(C) persons otherwise authorized by law to enter into such transactions;

"(7) may enter into contracts with persons licensed under section 53, 63, 103, or 104 of title I, for as long as the Corporation considers necessary or desirable, to provide uranium or uranium enrichment and related services;

"(8) may enter into contracts to provide uranium or uranium enrichment and related services in accordance with, and within the period of, an agreement for cooperation arranged under section 123 of title I or as otherwise authorized by law; and

"(9) shall sell to the Department as provided in this title, without regard to section 57 e. of title I, the amounts of uranium enrichment and related services that the Department determines from time to time are required for it to—

"(A) carry out Presidential directions and authorizations under section 91 of title I; and

"(B) conduct other Department programs.

"SEC. 1304. BOARD OF DIRECTORS.

"(a) The powers of the Corporation are vested in the Board of Directors.

"(b) The Board of Directors shall consist of eleven individuals, to be appointed by the President by and with the advice and consent of the Senate. The President shall designate a Chairman of the Board from among members of the Board.

"(c) Members of the Board shall be citizens of the United States. No member of the Board shall be an employee of the Corporation or have any direct financial relationship with the Corporation other than that of being a member of the Board.

"(d)(1) Except as provided in paragraph (2), members of the Board shall serve five-year terms or until the election of a new Board of Directors under section 1604, whichever comes first.

"(2) Of the members first appointed to the Board—

"(A) two shall be appointed for one-year terms;

"(B) two shall be appointed for two-year terms;

"(C) two shall be appointed for three-year terms; and

"(D) two shall be appointed for four-year terms.

"(e) Upon the occurrence of a vacancy on the Board, the President by and with the advice and consent of the Senate shall appoint an individual to fill such vacancy for the remainder of the applicable term. No member of the Board shall serve in more than two terms.

"(f) The Board shall meet at least ten times a year. Seven members of the Board shall constitute a quorum. A majority of the Board shall adopt and from time to time may amend bylaws for the operation of the Board.

"(g) The Board shall be responsible for general management of the Corporation and shall, subject to its articles of incorporation and bylaws, have the same authority, privileges, and responsibilities as the board of directors of a private corporation.

"(h) Members of the Board shall serve on a part-time basis and shall receive per diem, when engaged in the actual performance of Corporation duties, plus reimbursement for travel, subsistence, and other necessary expenses incurred in the performance of their duties.

"(i) Members of the Board, officers, and other management level employees of the Corporation shall, as a condition of continued service or employment, comply with the conflict of interest provisions described in part A of title VI of the Department of Energy Organization Act (42 U.S.C. 7211 et seq.) in the same manner as persons who are supervisory employees of the Department are required to comply with such provisions.

"SEC. 1305. EMPLOYEES OF THE CORPORATION.

"(a) Officers and employees of the Corporation shall not be officers and employees of the United States.

"(b)(1) It is the purpose of this subsection to ensure that the establishment of the Corporation pursuant to this chapter shall not result in any adverse effects on the employment rights, wages, or benefits of employees at facilities that are operated, directly or under contract, in the performance of the functions vested in the Corporation.

"(2) Any employer (including the Corporation) at a facility described in paragraph (1) shall abide by the terms of a collective bargaining agreement in effect on April 30, 1991, at such facility until—

"(A) the earlier of the date on which a new bargaining agreement is signed; or

"(B) the end of the 2-year period beginning on the date of the enactment of this title.

"(3) Except as specifically provided in this subsection, the Corporation is subject to the provisions of the National Labor Relations Act (29 U.S.C. 151 et seq.).

"SEC. 1306. AUDITS.

"(a)(1) The financial statements of the Corporation shall be prepared in accordance with generally accepted accounting principles and shall be audited annually by an independent certified public accountant in accordance with auditing standards issued by the Comptroller General.

"(2) The Comptroller General may review any audit of the Corporation's financial statements conducted under paragraph (1). The Comptroller General shall report to the Congress and the Corporation the results of any such review and shall include in such report appropriate recommendations.

"(b)(1) The Comptroller General may audit the financial statements of the Corporation for any year in the manner provided in subsection (a)(1).

"(2) The Corporation shall reimburse the Comptroller General for the full cost of any audit conducted under this subsection, as determined by the Comptroller General.

"(c) All books, accounts, financial records, reports, files, papers, and other property belonging to or in use by the Corporation and its auditor that the Comptroller General considers necessary to the performance of any audit or review under this section shall be made available to the Comptroller General.

"(d) Activities the Comptroller General conducts under this section shall be in lieu of any other audit of the financial transactions of the Corporation the Comptroller General is required to make under chapter 91 of title 31, United States Code, or other law.

"SEC. 1307. ANNUAL REPORTS.

"(a) The Corporation shall prepare and submit an annual report of its activities to the President and the Congress. This report shall contain—

"(1) a general description of the Corporation's operations;

"(2) a summary of the Corporation's operating and financial performance, including an explanation of the decision to pay or not pay dividends;

"(3) copies of audit reports prepared under section 1305 of this title;

"(4) the information required under regulations issued under section 13 of the Securities Exchange Act of 1934 (15 U.S.C. 78m); and

"(5) an identification and assessment of any impairment of capital or ability of the Corporation to comply with this title.

"(b) The report shall be completed not later than 150 days following the close of each of the Corporation's fiscal years and shall accurately reflect the financial position of the Corporation at fiscal year end.

"SEC. 1308. ACCOUNTS.

"There is established in the Treasury of the United States a revolving fund, to be known as the 'Uranium Enrichment Corporation Fund', which shall be available to the Corporation without fiscal year limitation for carrying out its purposes, functions, and powers, and which shall not be subject to apportionment under subchapter II of chapter 15 of title 31, United States Code.

"SEC. 1309. OBLIGATIONS.

"(a)(1) The Corporation may issue and sell bonds, notes, and other evidences of indebtedness (collectively referred to in this title as 'bonds') except that the Corporation may not issue or sell bonds for the purpose of constructing new uranium enrichment facilities or conducting directly related preconstruction activities.

"(2) The Corporation may pledge and use its revenues for payment of the principal of and interest on its bonds, for their purchase or redemption, and for other purposes incidental to these functions, including creation of reserve funds and other funds which may be similarly pledged and used.

"(3) The Corporation may enter into binding covenants with the holders and trustees of its bonds with respect to—

"(A) the establishment of reserve and other funds;

"(B) stipulations concerning the subsequent issuance of bonds; and

"(C) other matters not inconsistent with this title,

that the Corporation determines necessary or desirable to enhance the marketability of the bonds.

"(b) Bonds issued by the Corporation under this section shall not be obligations of, nor shall payments of the principal thereof or interest thereon be guaranteed by, the United States.

"(c)(1) Bonds issued by the Corporation under this section shall be negotiable instruments unless otherwise specified in the bond and shall mature not more than 30 years after their date of issuance.

"(2) The Corporation may set the terms and conditions of bonds issued under this section, subject to disapproval of such terms and conditions by the Secretary of the Treasury within 15 days after the Secretary of the Treasury is notified of the following terms and conditions of the bonds:

"(A) Their forms and denominations.

"(B) The times, amounts, and prices at which they are sold.

"(C) Their rates of interest.

"(D) The terms at which they may be redeemed by the Corporation before maturity.

"(E) The priority of their claims on the Corporation's net revenues with respect to principal and interest payments.

"(F) Any other terms and conditions.

"(d) Section 9108(a) of title 31, United States Code, shall not apply to the Corporation.

"(e) The Corporation shall be considered an executive department of the United States for purposes of section 3(c) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(c)).

"(f) The Corporation shall not issue or sell any bonds to the Federal Financing Bank.

"SEC. 1310. EXEMPTION FROM TAXATION AND PAYMENTS IN LIEU OF TAXES.

"(a) In order to render financial assistance to those States and localities in which the facilities of the Corporation are located, the Corporation shall, beginning in fiscal year 1998, make payments to State and local governments as provided in this section. These payments shall be in lieu of any and all State and local taxes on the real and personal property of the Corporation. All property of the Corporation is expressly exempted from taxation in any manner or form by any State, county, or other local government entity including State, county, or other local government sales tax.

"(b) Beginning in fiscal year 1998, the Corporation shall make annual payments, in amounts determined by the Corporation to be fair and reasonable, to the State and local governmental agencies having tax jurisdiction in any area where facilities of the Corporation are located. In making these determinations, the Corporation shall be guided by the following criteria:

"(1) The Corporation shall take into account the customs and practices prevailing in the area with respect to appraisal, assessment, and classification of industrial property and any special considerations extended to large-scale industrial operations.

"(2) The payment made to any taxing authority for any period shall not be less than the payments which would have been made to the taxing authority for the same period by the Department and its cost-type contractors on behalf of the Department with respect to property that has been transferred to the Corporation under section 1404 of this title and which would have been attributable to the ownership, management, operation, and maintenance of the Department's uranium enrichment facilities, applying the laws and policies prevailing immediately prior to the date of enactment of this title.

"(c) Payments shall be made by the Corporation at the time when payments of taxes by taxpayers to each taxing authority are due and payable.

"(d) The determination by the Corporation of the amounts due under this section shall be final and conclusive.

"SEC. 1311. COOPERATION WITH OTHER AGENCIES.

"The Corporation may request to use on a reimbursable basis the available services, equipment, personnel, and facilities of agencies of the United States, and on a similar basis may cooperate with such agencies in the establishment and use of services, equipment, and facilities of the Corporation. Further, the Corporation may confer with and avail itself of the cooperation, services, records, and facilities of State, territorial, municipal, or other local agencies.

"SEC. 1312. APPLICABILITY OF CERTAIN FEDERAL LAWS.

"(a) The Corporation shall conduct its activities in a manner consistent with the policies expressed in the following antitrust laws:

"(1) The Sherman Act (15 U.S.C. 1–7).

"(2) The Clayton Act (15 U.S.C. 12–27).

"(3) Sections 73 and 74 of the Wilson Tariff Act (15 U.S.C. 8 and 9).

"(b) Except as specifically provided in this title, the Corporation is subject to Federal, State, and local laws to the same extent as a privately owned corporation.

"(c) The Corporation shall be subject to, and comply with, all Federal and State, interstate, and local environmental laws and requirements, both substantive and procedural, in the same manner, and to the same extent, as any person is subject to such laws and requirements. For purposes of enforcing any such law or substantive or procedural requirements (including any injunctive relief, administrative order, or civil or administrative penalty or fine) against the Corporation, the United States expressly waives any immunity otherwise applicable to the Corporation. For the purposes of this subsection, the term 'person' means an individual, trust, firm, joint stock company, corporation, partnership, association, State, municipality, or political subdivision of a State.

"(d) Notwithstanding sections 3(5), 4(b)(1), and 19 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 652(5), 653(b)(1), and 668)), the Corporation shall be subject to, and comply with, such Act and all regulations and standards promulgated thereunder in the same manner, and to the same extent, as an employer is subject to such Act. For the purposes of enforcing such Act (including any injunctive relief, administrative order, or civil, administrative, or criminal penalty or fine) against the Corporation, the United States expressly waives any immunity otherwise applicable to the Corporation.

"(e) The Act of March 3, 1931 (known as the Davis-Bacon Act) (40 U.S.C. 276a et seq.) and the Service Contract Act of 1965 (41 U.S.C. 351 et seq.) shall apply to the Corporation. All laborers and mechanics employed on the construction, alteration, or repair of projects funded, in whole or in part, by the Corporation shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with such Act of March 3, 1931. The Secretary of Labor shall have, with respect to the labor standards specified in this subsection, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176, 64 Stat. 1267) and the Act of June 13, 1934 (40 U.S.C. 276c).

"(f) The Corporation is subject to the provisions of section 210 of the Energy Reorganization Act of 1974 to the same extent as an employer subject to such section.

"SEC. 1313. SECURITY.

"Any references to the term 'Commission' or to the Department in sections 161k., 221a., and 230 of title I shall be considered to include the Corporation.

"SEC. 1314. CONTROL OF INFORMATION.

"Section 552(d) of title 5, United States Code, shall apply to the Corporation, and the employees of the Corporation shall be considered employees of the Federal Government for the purposes of section 1905 of title 18, United States Code.

"SEC. 1315. TRANSITION.

"For the purpose of continuity of operations, maintenance, and authority, the Department shall detail, for up to 18 months after the date of enactment of this title, appropriate Department personnel as may be required in an acting capacity, until such time as a Board is confirmed and top officers of the Corporation are hired. The Corporation shall reimburse the Department and its contractors for the detail of such personnel.

"SEC. 1316. WORKING CAPITAL ACCOUNT.

"There shall be established within the Corporation a Working Capital Account in which the Corporation may retain all revenue necessary for legitimate business expenses related to carrying out its purposes.

"CHAPTER 24—RIGHTS, PRIVILEGES, AND ASSETS OF THE CORPORATION

"SEC. 1401. MARKETING AND CONTRACTING AUTHORITY.

"(a) The Corporation shall act as the exclusive marketing agent on behalf of the United States Government for entering into contracts for providing uranium enrichment and related services. The Department may not market uranium enrichment and related services after the date of the enactment of this title.

"(b) All contracts, agreements, and leases with the Department, including all uranium enrichment contracts and power purchase contracts, that have been executed by the Department before the date of enactment of this title and that relate to uranium enrichment and related services shall transfer to the Corporation, except that the rights and responsibilities of the Department under the settlement agreement with the Tennessee Valley Authority, filed on December 18, 1987, with the United States Claims Court, shall not transfer to the Corporation.

"SEC. 1402. PRICING.

"The Corporation shall charge prices to the Department for uranium enrichment services provided under section 1303(9) on a basis that will—

"(1) allow it to recover its costs, on a yearly basis, for providing products, materials, and services, including a proportionate share of depreciation and interest and the costs of decontamination and decommissioning of the Corporation's uranium enrichment facilities; and

"(2) provide for a reasonable profit.

"SEC. 1403. OPTION TO LEASE GASEOUS DIFFUSION FACILITIES OF THE DEPARTMENT.

"(a) The Corporation shall have the exclusive rights to an option to lease the gaseous diffusion uranium enrichment facilities and related property of the Department.

"(b) The Corporation and the Department shall set mutually agreeable terms for a lease under subsection (a), including specifying annual payments to the Department by the Corporation to be made. In setting the level of annual leasing payments, the Department and the Corporation shall take into account—

"(1) the need to maintain a viable Corporation;

"(2) the importance of maximizing revenue to the Treasury; and

"(3) the equitable treatment of utility ratepayers.

"(c) The option to lease under subsection (a) shall not include Department facilities necessary for the production of highly enriched uranium. The Secretary may grant to the Corporation access to such facilities for purposes other than the production of highly enriched uranium.

"(d) The payment of any costs of response actions or corrective actions with respect to conditions existing before the date of enactment of this title, in connection with property of the Department leased under subsection (a), shall remain the sole responsibility of the Department.

"SEC. 1404. AVLIS.

"(a) The Corporation shall have the exclusive commercial right to deploy and use any AVLIS patents, processes, and technical information owned or controlled by the Government, upon completion of a royalty agreement with the Department. In setting the level of payments under a royalty agreement, the Department and the Corporation shall take into account—

"(1) the need to maintain a viable Corporation;

"(2) the importance of maximizing revenue to the Treasury; and

"(3) the equitable treatment of utility ratepayers.

"(b)(1) As requested by the Corporation, the President shall transfer without charge to the Corporation all of the Department's right, title, or interest in and to property owned by the Department, or by the United States but under control or custody of the Department, which is directly related to and materially useful in the performance of the Corporation's purposes regarding AVLIS, including—

"(A) facilities, equipment, and materials for research, development and demonstration activities;

"(B) all other facilities, equipment, materials, processes, patents, technical information of any kind, contracts, agreements, and leases.

"(2) Facilities, real estate, improvements, and equipment related to the gaseous diffusion, and gas centrifuge, uranium enrichment programs of the Department shall not transfer under paragraph (1)(B).

"(3) The President's authority to transfer property under this subsection shall expire upon privatization under section 1603.

"(c) If requested by the Corporation, the Secretary shall provide, on a reimbursable basis, research and development of AVLIS.

"(d) The Corporation may not construct a commercial scale AVLIS production facility or engage in directly related preconstruction activities until after privatization under section 1603.

"(e) This section shall not prejudice consideration of any site as a candidate site for future expansion or replacement of uranium enrichment capacity through AVLIS.

"(f) The transfer of property, functions, and responsibilities to the Corporation under this title shall not include the transfer of liability in connection with—

"(1) the Gas Centrifuge Enrichment Project;

"(2) operations of the Department before the date of enactment of this title, including excess capacity operations; or

"(3) associated imputed interest related to paragraph (1) or (2).

"SEC. 1405. ASSETS, INITIAL DEBT, AND DIVIDEND POLICY.

"(a) The Secretary of the Treasury shall promptly transfer to the Corporation, without further appropriation, $364,000,000 in the form of a loan from balances in the Uranium Enrichment Special Fund receipt account. This amount shall be hereinafter in this title referred to as the 'Initial Debt'.

"(b) The Corporation shall pay to the Treasury within a 20-year period the amount of the Initial Debt, with interest on the unpaid balance from the date of transfer under subsection (a) at a rate equal to the average yield on 20-year Government obligations as determined by the Secretary of the Treasury on the date of enactment of this title.

"(c) Proceeds from the leasing of the gaseous diffusion uranium enrichment facilities and related property under section 1403, royalty payments under section 1404(a), retirement of Initial Debt under subsection (b) of this section, collection of accounts receivable by the Department for its Uranium Enrichment Program as of the date of enactment of this title, dividends received under subsection (e) of this section, and any balance remaining in the Uranium Enrichment Special Fund after the transfer described in subsection (a), shall be paid into the general fund of the Treasury. These payments and the special assessment described under section 1702 shall contribute to recovery of costs under section 161 v. of title I.

"(d) Except as otherwise specifically provided in this title, the Corporation shall receive no appropriations, loans, or other financial assistance from the Federal Government.

"(e) Until privatization occurs under section 1603, the Corporation shall pay as dividends to the Treasury of the United States all net revenues remaining at the end of each fiscal year not required for operating expenses or for deposit into the Working Capital Account established pursuant to section 1316.

"SEC. 1406. PATENTS AND INVENTIONS.

"The Corporation may at any time apply to the Department for a patent license for the use of an invention or discovery useful in the production or utilization of special nuclear material or atomic energy covered by a patent when the patent has not been declared to be affected with the public interest under section 153 a. of title I and when use of the patent is within the Corporation's authority. An application shall constitute an application under section 153 c. of title I subject to section 153 c., d., e., f., g., and h. of title I.

"SEC. 1407. LIABILITIES.

"Any judgment entered against the Corporation imposing liability arising out of the operation of the uranium enrichment enterprise before the date of enactment of this title shall be considered a judgment against and shall be payable solely by the Department. With regard to any claim seeking to impose such liability, the United States shall be represented by the Department of Justice.

"SEC. 1408. URANIUM INVENTORIES.

"(a) The Secretary shall transfer to the Corporation without charge all raw and commercial grade enriched uranium inventories of the Department necessary for the fulfillment of contracts transfer under section 1401(b).

"(b) The Secretary, after making the transfer required under subsection (a), shall sell all remaining inventories of raw or commercial grade enriched uranium of the Department, that is not necessary to national security needs, to the Corporation or the private sector at a fair market price. Proceeds from sales under this subsection shall be deposited into the Uranium Enrichment Special Fund described in section 1405(c).

"(c) Within one year after the date of enactment of this title, the Secretary shall submit to Congress a report containing a plan for the conversion of inventories of highly enriched uranium to commercial grade enriched uranium for commercial use. Such plan shall include—

"(1) an estimation of the potential need of the United States for inventories of highly enriched uranium;

"(2) an analysis and summary of technological requirements and costs associated with converting highly enriched uranium to commercial grade enriched uranium, including the construction of facilities if necessary;

"(3) an estimation of potential net proceeds from the conversion and sale of highly enriched uranium; and

"(4) recommendations for implementing a plan to convert highly enriched uranium to commercial grade enriched uranium.

"CHAPTER 25—PRIVATIZATION OF THE CORPORATION

"SEC. 1501. STRATEGIC PLAN FOR PRIVATIZATION.

"(a) Within 120 days after the appointment of the Board under section 1304(b), the Corporation shall prepare a strategic plan for privatization through a competitive offering to the private sector of capital stock representing full ownership in the Corporation. The plan may include—

"(1) an evaluation of market conditions together with a marketing strategy;

"(2) an analysis of enrichment technologies and the potential need for a leasing agreement;

"(3) an identification of predeployment and capital requirements for the commercialization of alternative technologies for uranium enrichment;

"(4) an estimate of potential earnings from the offering of capital stock; and

"(5) a contingency plan for providing enriched uranium and related services in the event that AVLIS deployment is determined not to be economically viable.

"(b) The Corporation shall transmit copies of the strategic plan for privatization to the President and Congress upon completion.

"SEC. 1502. PREDEPLOYMENT ACTIVITIES.

"The Corporation may begin activities necessary to prepare AVLIS for commercialization including—

"(1) completion of preapplication activities with the Nuclear Regulatory Commission;

"(2) preparation of a transition plan to move AVLIS from the laboratory to the marketplace;

"(3) confirmation of technical performance;

"(4) validation of economic projections;

"(5) completion of feasibility and risk studies; and

"(6) initiation of preliminary plant design and engineering.

"SEC. 1503. PRIVATIZATION.

"(a) Pursuant to the strategic plan prepared under section 1501, the Corporation shall prepare and execute a competitive offering to the private sector of capital stock representing full ownership in the Corporation.

"(b) The offering described in subsection (a) shall be made through an open competitive bidding process established by regulation within one year after the date of enactment of this title, and shall, if successful, transfer to the private sector all rights, privileges, and assets of the Corporation.

"(c) The Director of the Office of Management and Budget shall review the strategic plan prepared under section 1501 and shall establish a secret minimum bid acceptable for the privatization of the Corporation under this section, based on the net present value of the Corporation. Privatization shall not occur unless a qualified bidder submits a bid equal to or higher than such minimum bid.

"(d) For purposes of subsection (c), the term 'qualified bidder' means a bidder that is not a foreign government and that meets the requirements of section 1604.

"(e) Privatization shall not occur under this section until after the expiration of 3 months after the submission to Congress by the Comptroller General of a report containing an audit certifying—

"(1) that the sale of the Corporation under a bid considered acceptable will not result in any ongoing obligation or undue cost to the Federal Government; and

"(2) that the purchase price of such bid represents at least the net present value of the Corporation.

The Comptroller General shall submit to Congress a report under this subsection within 3 months after a bid under this section has been accepted.

"(f) Proceeds from the sale of capital stock of the Corporation under this section shall be deposited in the Uranium Enrichment Special Fund described in section 1405(c).

"SEC. 1504. RESTRUCTURING OF CORPORATION AND BOARD.

"(a) Within 120 days after privatization under section 1503, the Corporation shall elect a new Board of Directors, select a new Chief Executive Officer, and propose revisions to its corporate charter.

"(b) At the end of 120 days following privatization under section 1503, chapter 23 of this title shall cease to apply to the Corporation.".

SEC. 902. CONFORMING AMENDMENTS AND REPEALERS.

(a) Section 9101(3) of title 31, United States Code is amended by adding at the end the following:

"(N) the Uranium Enrichment Corporation.".

(b) The Atomic Energy Act of 1954 (41 U.S.C. 2011–2296) is amended as follows:

(1) In section 41 a. (42 U.S.C. 2061(a)) by—

(A) striking "or",

(B) striking "pursuant to under this Act" and inserting "under this title" in its place, and

(C) striking the period at the end and inserting the following in its place: "; or (3) are owned by the Uranium Enrichment Corporation.";

(2) In section 53 c.(1) (42 U.S.C. 2073(c)(1)) by—

(A) striking "grant," and inserting "or grant" in its place

(B) striking "or through the provision of production or enrichment services" both places it appears;

(3) In section 161 v. (42 U.S.C. 2201(v)), by striking "(i) prices" and all that follows through "and (iii)" in the first proviso.

(4) In section 161 w. (42 U.S.C. 2201(w)) by striking the comma after "104 b." and inserting the following in its place: ", or for a facility licensed to enrich uranium under section 1602 of title II,".

(5) In section 274 c.(1) (42 U.S.C. 2021(c)(1)) by inserting "or any uranium enrichment facility" before the semicolon at the end.

(c) Section 306 of the Energy and Water Development Appropriation Act, 1988 (Public Law 100–202, 101 Stat. 1329–126) is repealed.

SEC. 903. RESTRICTIONS ON NUCLEAR EXPORTS.

(a) FURTHER RESTRICTIONS.—

(1) IN GENERAL.—Chapter 11 of the Atomic Energy Act of 1954 (42 U.S.C. 2151 et seq.) is amended by adding at the end the following new section:

"SEC. 134. FURTHER RESTRICTIONS ON EXPORTS.—

"a. The Commission may issue a license for the export of highly enriched uranium to be used as a fuel or target in a nuclear research or test reactor only if, in addition to any other requirement of this Act, the Commission determines that—

"(1) there is no alternative nuclear reactor fuel or target enriched in the isotope 235 to a lesser percent than the proposed export, that can be used in that reactor;

"(2) the proposed recipient of that uranium has provided assurances that, whenever an alternative nuclear reactor fuel or target can be used in that reactor, it will use that alternative in lieu of highly enriched uranium; and

"(3) the United States Government is actively developing an alternative nuclear reactor fuel or target that can be used in that reactor.

"b. As used in this section—

"(1) the term 'alternative nuclear reactor fuel or target' means a nuclear reactor fuel or target which is enriched to less than 20 percent in the isotope U–235;

"(2) the term 'highly enriched uranium' means uranium enriched to 20 percent or more in the isotope U–235; and

"(3) a fuel or target 'can be used' in a nuclear research or test reactor if—

"(A) the fuel or target has been qualified by the Reduced Enrichment Research and Test Reactor Program of the Department of Energy, and

"(B) use of the fuel or target will permit the large majority of ongoing and planned experiments and isotope production to be conducted in the reactor without a large percentage increase in the total cost of operating the reactor.".

(2) CLERICAL AMENDMENT.—The table of contents of the Atomic Energy Act of 1954 is amended by adding at the end of the items relating to chapter 11 the following new item:

"Sec. 134. Further restrictions on exports.".

(b) REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 90 days after the date of the enactment of this Act, the Chairman of the Nuclear Regulatory Commission, after consulting with other relevant agencies, shall submit to the Congress a report detailing the current disposition of previous United States exports of highly enriched uranium, including—

(A) their location;

(B) whether they are irradiated;

(C) whether they have been used for the purpose stated in their export license; and

(D) whether they have been used for an alternative purpose and, if so, whether such alternative purpose has been explicitly approved by the Commission.

(2) EXPORTS TO EURATOM.—To the maximum extent possible, the report required by paragraph (1) shall include—

(A) exports of highly enriched uranium to EURATOM; and

(B) subsequent retransfers of such material within EURATOM, without regard to the extent of United States control over such retransfers.

SEC. 904. SEVERABILITY.

If any provision of this title, or the amendments made by this title, or the application of any provision to any entity, person, or circumstance, is for any reason adjudged by a court of competent jurisdiction to be invalid, the remainder of this title, and the amendments made by this title, or its application shall not be affected.

SEC. 905. CITIZEN SUITS.

Any person affected by this title, or the amendments made by this title, shall have standing to sue to enforce its provisions. For purposes of this section, representatives of an established organization representing the interests of taxpayers shall be deemed to be a person affected.

TITLE X—REMEDIAL ACTION AT ACTIVE PROCESSING SITES

SEC. 1001. REMEDIAL ACTION PROGRAM.

(a) IN GENERAL.—Except as provided in subsection (b), the costs of decontamination, decommissioning, reclamation, and other remedial action at an active uranium or thorium processing site shall be borne by persons licensed under section 62 or 81 of the Atomic Energy Act of 1954 (42 U.S.C. 2091, 2111) for any activity at such site which results or has resulted in the production of byproduct material.

(b) REIMBURSEMENT.—

(1) IN GENERAL.—The Secretary shall, subject to paragraph (2), reimburse at least annually a licensee described in subsection (a) for such portion of the costs described in such subsection as are—

(A) determined by the Secretary to be attributable to byproduct material generated as an incident of sales to the United States; and

(B) incurred by such licensee not later than December 31, 2002.

(2) AMOUNT.—

(A) TO INDIVIDUAL ACTIVE SITE URANIUM LICENSEES.—The amount of reimbursement paid to any licensee under paragraph (1) shall be determined by the Secretary in accordance with regulations issued pursuant to section 1002 and, for uranium mill tailings only, shall not exceed an amount equal to $5.50 multiplied by the dry short tons of byproduct material located on the date of the enactment of this title at the site of the activities of such licensee described in subsection (a), and generated as an incident of sales to the United States.

(B) TO ALL ACTIVE SITE URANIUM LICENSEES.—Payments made under paragraph (1) to active site uranium licensees shall not in the aggregate exceed $270,000,000.

(C) TO THORIUM LICENSEES.—Payments made under paragraph (1) to the licensee of the active thorium site shall not exceed $40,000,000, and may only be made for off-site disposal subject to the approval of the Governor of the State in which such active thorium site is located.

(D) INFLATION ESCALATION INDEX.—The amounts in subparagraphs (A), (B), and (C) of this paragraph shall be increased annually based upon an inflation index. The Secretary shall determine the appropriate index to apply.

(E) ADDITIONAL REIMBURSEMENT.—

(i) DETERMINATION OF EXCESS.—The Secretary shall determine as of July 31, 2005, whether the amount authorized to be appropriated pursuant to section 1003, when considered with the $5.50 per dry short ton limit on reimbursement, exceeds the amount reimbursable to the licensees under subsection (b)(2).

(ii) IN THE EVENT OF EXCESS.—If the Secretary determines under clause (i) that there is an excess, the Secretary may allow reimbursement in excess of $5.50 per dry short ton on a prorated basis at such sites where the costs reimbursable under subsection (b)(1) exceed the $5.50 per dry short ton limitation described in paragraph (2) of such subsection.

(3) BYPRODUCT LOCATION.—Notwithstanding the requirement of paragraph (2)(A) that byproduct material be located at the site on the date of enactment of this title, byproduct material moved from the site of the Edgemont Mill to a disposal site as the result of the decontamination, decommissioning, reclamation, and other remedial action of such mill shall be eligible for reimbursement to the extent eligible under paragraph (1).

SEC. 1002. REGULATIONS.

Within 180 days of the date of the enactment of this title, the Secretary shall issue regulations governing reimbursement under section 1001. An active uranium or thorium processing site owner shall apply for reimbursement hereunder by submitting a request for the amount of reimbursement, together with reasonable documentation in support thereof, to the Secretary. Any such request for reimbursement, supported by reasonable documentation, shall be approved by the Secretary and reimbursement therefor shall be made in a timely manner subject only to the limitations of section 1001.

SEC. 1003. AUTHORIZATION.

(a) IN GENERAL.—There are authorized to be appropriated for purposes of this title not more than $310,000,000, to be increased annually as provided in section 1001, based upon an inflation index to be determined by the Secretary.

(b) SOURCE.—Funds described in subsection (a) shall be provided from the Fund established under section 1701 of the Atomic Energy Act of 1954.

SEC. 1004. DEFINITIONS.

As used in this title—

(1) the term "active uranium or thorium processing site" means—

(A) any uranium or thorium processing site, including the mill, containing byproduct material for which a license (issued by the Nuclear Regulatory Commission or its predecessor agency under the Atomic Energy Act of 1954, or by a State as permitted under section 274 of such Act (42 U.S.C. 2021)) for the production at such site of any uranium or thorium derived from ore—

(i) was in effect on January 1, 1978;

(ii) was issued or renewed after January 1, 1978; or

(iii) for which an application for renewal or issuance was pending on, or after January 1, 1978; and

(B) any other real property or improvement on such real property that is determined by the Nuclear Regulatory Commission or by a State as permitted under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021) to be—

(i) in the vicinity of such site; and

(ii) contaminated with residual byproduct material;

(2) the term "byproduct material" has the meaning given such term in section 11e.(2) of the Atomic Energy Act of 1954, (42 U.S.C. 2014(e)(2)); and

(3) the term "decontamination, decommissioning, reclamation, and other remedial action" means work performed prior to or subsequent to the date of the enactment of this title which is necessary to comply with all applicable requirements of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7901 et seq.), or where appropriate, with requirements established by a State that is a party to a discontinuance agreement under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021).

SEC. 1005. URANIUM PURCHASE REPORTS.

(a) REQUIREMENT.—By January 1 of each year, the owner or operator of any civilian nuclear power reactor shall report to the Secretary of Energy, acting through the Administrator of the Energy Information Administration, for activities of the previous fiscal year—

(1) the country of origin and the seller of any uranium or enriched uranium purchased or imported into the United States either directly or indirectly by such owner or operator; and

(2) the country of origin and the seller of any enrichment services purchased by such owner or operator.

(b) CONGRESSIONAL ACCESS.—The information provided to the Secretary pursuant to this section shall be made available to the Committee on Energy and Natural Resources of the United States Senate and appropriate committees of the United States House of Representatives by March 1 of each year.

(c) COUNTRY OF ORIGIN.—For the purposes of this section, the term "country of origin" means—

(1) with respect to uranium, that country where the uranium was mined,

(2) with respect to enriched uranium, that country where the uranium was mined and enriched; or

(3) with respect to enrichment services, that country where the enrichment services were performed.

TITLE XI—URANIUM ENRICHMENT HEALTH, SAFETY, AND ENVIRONMENT ISSUES

SEC. 1101. URANIUM ENRICHMENT HEALTH, SAFETY, AND ENVIRONMENT ISSUES.

The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), as amended by title IX, is further amended by adding at the end of title II the following:

"CHAPTER 26—LICENSING AND REGULATION OF URANIUM ENRICHMENT FACILITIES

"SEC. 1601. GASEOUS DIFFUSION FACILITIES.

"(a) The Nuclear Regulatory Commission, in consultation with the Department and the Environmental Protection Agency, shall, within one year after the date of enactment of this title, establish by regulation such standards as are necessary to govern the gaseous diffusion uranium enrichment facilities of the Department in order to protect the public health and safety, minimize danger to life and property, and prevent releases or substantial threats of releases to the environment. Such regulations shall take effect 6 months after issuance.

"(b)(1) The Nuclear Regulatory Commission, in consultation with the Department and the Environmental Protection Agency, shall report at least annually to Congress on the status of health, safety, and environmental conditions at the gaseous diffusion uranium enrichment facilities of the Department.

"(2) Such report shall include a determination regarding whether the gaseous diffusion uranium enrichment facilities of the Department are in compliance with the standards established under subsection (a) and all applicable laws.

"(c)(1) If the Corporation exercises the option to lease the gaseous diffusion uranium enrichment facilities of the Department under section 1403, the Nuclear Regulatory Commission shall establish a certification process to ensure that the Corporation complies with standards established under subsection (a).

"(2) The Corporation shall apply at least annually to the Nuclear Regulatory Commission for a certificate of compliance under paragraph (1). The Nuclear Regulatory Commission, in consultation with the Environmental Protection Agency, shall review any such application and any determination made under subsection (b)(2) shall be based on the results of any such review.

"(3) The requirement for a certificate of compliance under paragraph (1) shall be in lieu of any requirement for a license for any gaseous diffusion facility of the Department leased by the Corporation.

"(4)(A) The Nuclear Regulatory Commission, in consultation with the Environmental Protection Agency, shall review the operations of the Corporation with respect to any gaseous diffusion uranium enrichment facilities of the Department leased by the Corporation to ensure that public health and safety are adequately protected.

"(B) The Corporation and the Department shall cooperate fully with the Nuclear Regulatory Commission and the Environmental Protection Agency and shall provide the Nuclear Regulatory Commission and the Environmental Protection Agency with the ready access to the facilities, personnel, and information the Nuclear Regulatory Commission and the Environmental Protection Agency consider necessary to carry out their responsibilities under this subsection. A contractor operating a Corporation facility for the Corporation shall provide the Nuclear Regulatory Commission and the Environmental Protection Agency with ready access to the facilities, personnel, and information of the contractor as the Nuclear Regulatory Commission and the Environmental Protection Agency consider necessary to carry out their responsibilities under this subsection.

"(d) The gaseous diffusion uranium enrichment facilities of the Department may not be operated by the Corporation unless the Nuclear Regulatory Commission, in consultation with the Environmental Protection Agency, makes a determination of compliance under subsection (b) or approves a plan prepared by the Department for achieving compliance required under subsection (b).

"SEC. 1602. LICENSING OF AVLIS.

"Notwithstanding the amendments made by section 5 of the Solar, Wind, Waste, and Geothermal Power Production Incentives Act of 1990 (Public Law 101-575; 104 Stat. 2835), Corporation facilities for the enrichment of uranium using AVLIS shall be subject to licensing in the same manner as production and utilization facilities under section 103 and 104 b. of title I.

"SEC. 1603. LICENSING OF OTHER TECHNOLOGIES.

"(a) Corporation facilities using alternative technologies for uranium enrichment, other than AVLIS, shall be licensed under sections 53 and 63 of title I.

"(b) The Corporation shall provide for the costs of decontamination and decommissioning of any Corporation facilities described in subsection (a) in accordance with the requirements of the amendments made by section 5 of the Solar, Wind, Waste, and Geothermal Power Production Act of 1990.

"SEC. 1604. REGULATION OF RESTRICTED DATA.

"The Corporation shall be subject to this Act with respect to the use of, or access to, Restricted Data to the same extent as any private corporation.

"CHAPTER 27—DECONTAMINATION AND DECOMMISSIONING

"SEC. 1701. ESTABLISHMENT AND ADMINISTRATION OF FUND.

"(a) There is established in the Treasury of the United States an account to be known as the Uranium Enrichment Decontamination and Decommissioning Fund (referred to in this chapter as the 'Fund'). This account, and any amounts deposited in it, including any interest earned thereon, shall be available to the Secretary subject to appropriations for the exclusive purpose of carrying out this chapter.

"(b)(1) The Secretary of the Treasury shall hold the Fund and, after consultation with the Secretary, annually report to the Congress on the financial condition and operations of the Fund during the preceding fiscal year.

"(2) The Secretary of the Treasury shall invest amounts contained within the Fund in obligations of the United States—

"(A) having maturities determined by the Secretary of the Treasury to be appropriate for what the Department determines to be the needs of the Fund; and

"(B) bearing interest at rates determined to be appropriate by the Secretary of the Treasury, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to these obligations.

"SEC. 1702. DEPOSITS.

"(a) The Fund shall consist of deposits in the amount of $500,000,000 per fiscal year (to be annually adjusted for inflation using the Consumer Price Index for all-urban consumers published by the Department of Labor) as provided in this section.

"(b) Deposits described in subsection (a) shall be from the following sources:

"(1) Sums collected pursuant to subsection (c).

"(2) Appropriations made pursuant to subsection (d).

"(c) The Secretary shall collect a special assessment from domestic utilities. The amount collected from each utility pursuant to this subsection for a fiscal year shall be in the same ratio to the amount required under subsection (a) to be deposited for such fiscal year as the total amount of separative work units such utility has purchased for the purpose of commercial electricity generation, before the date of enactment of this title, bears to the total amount of separative work units purchased from the Department of Energy, for all purposes before the date of enactment of this title. For purposes of this subsection, a utility shall be considered to have purchased a separative work unit from the Department if such separative work unit was produced by the Department, but purchased by the utility from another source.

"(d) There are authorized to be appropriated to the Fund, for the period encompassing 15 years after the date of enactment of this title, such sums as are necessary to ensure that the amount required under subsection (a) is deposited for each fiscal year.

"(e) The collection of amounts under subsection (c) shall cease after the earlier of—

"(1) 15 years after the date of enactment of this title; or

"(2) the collection of $2,500,000,000 (to be annually adjusted for inflation using the Consumer Price Index for all-urban consumers published by the Department of Labor) under such subsection.

"(f) Except as provided in subsection (e), deposits shall continue to be made into the Fund under subsection (d) for the period specified in such subsection.

"SEC. 1703. DEPARTMENT FACILITIES.

"(a) The National Academy of Sciences shall conduct a study and provide recommendations for reducing costs associated with decontamination and decommissioning, and shall report its findings to the Congress within 3 years after the date of enactment of this title. Such report shall include a determination of the decontamination and decommissioning required for each facility, shall identify alternative methods, using different technologies, shall include site-specific surveys of the actual contamination, and shall provide estimated costs of those activities.

"(b) The costs of all decontamination and decommissioning activities of the Department shall be paid from the Fund until such time as the Secretary certifies and the Congress concurs, by law, that such activities are complete.

"SEC. 1704. EMPLOYEE PROVISIONS.

"All laborers and mechanics employed by contractors or subcontractors in the performance of decontamination or decommissioning of uranium enrichment facilities of the Department shall be paid wages at rates not less than those prevailing on projects of a similar character in the locality as determined by the Secretary of Labor in accordance with the the Act of March 3, 1931 (known as the Davis-Bacon Act) (40 U.S.C. 276a et seq.). The Secretary of Labor shall have, with respect to the labor standards specified in this section, the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 F.R. 3176, 64 Stat. 1267) and the Act of June 13, 1934 (40 U.S.C. 276c).

"SEC. 1705. REPORTS TO CONGRESS.

"Within 3 years after the date of enactment of this title, and once every 3 years thereafter, the Secretary shall report to the Congress on progress under this chapter. The 5th report submitted under this section shall contain recommendations of the Secretary for the reauthorization of the program and Fund under this title.".

SEC. 1102. TABLE OF CONTENTS.

The table of contents for title II of the Atomic Energy Act of 1954, as added by section 901(a) of this Act, is amended by adding at the end the following:

"CHAPTER 26—LICENSING AND REGULATION OF URANIUM ENRICHMENT FACILITIES

"Sec. 1601. Gaseous diffusion facilities.
"Sec. 1602. Licensing of AVLIS.
"Sec. 1603. Licensing of other technologies.
"Sec. 1604. Regulation of restricted data.

"CHAPTER 27—DECONTAMINATION AND DECOMMISSIONING

"Sec. 1701. Establishment and administration of Fund.
"Sec. 1702. Deposits.
"Sec. 1703. Cost containment.
"Sec. 1704. Employee provisions.
"Sec. 1705. Reports to Congress.

"TITLE I—ATOMIC ENERGY".

Strike page 943, line 13, through page 1005, line 21.

TITLE XII—RENEWABLE ENERGY

SEC. 1201. FINDINGS.

The Congress finds that the increased use of renewable energy—

(1) has the potential to meet 50 percent of the energy needs of the United States by the year 2030;

(2) would reduce impacts on human health, air quality, and ecosystems, and reduce the potential for global warming;

(3) would rely on secure domestic resources and improve the balance of trade by reducing energy imports; and

(4) would improve the international competitiveness of the domestic renewable energy industries and of the United States economy in general.

SEC. 1202. PURPOSES.

The purposes of this title are to promote—

(1) the near-term increase in electricity production from renewable energy resources;

(2) the greater use of renewable energy for nonelectricity uses, including liquid fuels;

(3) the further advances of renewable energy technologies; and

(4) exports of United States renewable technologies and services.

SEC. 1203. RENEWABLE ENERGY JOINT VENTURES.

(a) NATIONAL GOALS AND MULTIYEAR FUNDING FOR ALCOHOL FROM BIOMASS.—Section 4(a) of the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12003(a)) is amended—

(1) by redesignating paragraph (4) as paragraph (5); and

(2) by inserting after paragraph (3) the following new paragraph:

"(4) ALCOHOL FROM BIOMASS.—(A) In general, the goal of the Alcohol From Biomass Program shall be to advance research and development to a point where alcohol from biomass technology is cost-competitive with conventional hydrocarbon transportation fuels, and to promote the integration of this technology into the transportation fuel sector of the economy.

"(B)(i) Specific goals for producing ethanol from biomass shall be to—

"(I) reduce the cost of alcohol to 70 cents per gallon by 1997;

"(II) improve the overall biomass carbohydrate conversion efficiency to 91 percent by 1997;

"(III) reduce the capital cost component of the cost of alcohol to 23 cents per gallon by 1997; and

"(IV) reduce the operating and maintenance component of the cost of alcohol to 47 cents per gallon by 1997.

"(ii) Specific goals for producing methanol from biomass shall be to—

"(I) reduce the cost of alcohol to 47 cents per gallon by 2000; and

"(II) reduce the capital component of the cost of alcohol to 28 cents per gallon by 1995, and to 16 cents per gallon by 2000.".

(b) JOINT VENTURES.—(1) Section 6(c) of the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12005(c)) is amended by adding at the end the following new paragraphs:

"(6) DIRECT COMBUSTION OR GASIFICATION OF BIOMASS.—(A) The Secretary shall solicit proposals for and provide financial assistance to at least one joint venture for the commercialization of technologies for the direct combustion or gasification of biomass to generate electricity in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to design, test, and demonstrate critical enabling technologies for direct combustion or gasification of biomass, including waste wood, for electric power generation in commercial applications.

"(C) There are authorized to be appropriated to the Secretary $15,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(7) UTILITY-SCALE PHOTOVOLTAIC JOINT VENTURES.—(A) The Secretary shall solicit proposals for and provide financial assistance to at least one joint venture for a utility-scale photovoltaic project of at least 10 megawatts in the aggregate.

"(B) In general, the goals of joint ventures under this paragraph shall include—

"(i) the integration of photovoltaics in transmission and delivery systems;

"(ii) the development of cost-saving adjuncts to utility delivery such as sub-station upgrades, peak power, and large-scale voltage line augmentation; and

"(iii) the incorporation of new photovoltaic innovations into standard utility rate-making practices.

"(C) Joint ventures supported under this paragraph may include participants that are considered to be end-users of the technology such as rural electric cooperatives, public utilities, investor-owned utilities, and independent power producers.

"(D) In selecting joint ventures for support under this paragraph, the Secretary shall consider giving preference to proposals for projects that would be located in States where State law would allow inclusion of the project in the rate base or would otherwise allow for favorable financial regulatory treatment or return on investment.

"(E) There are authorized to be appropriated to the Secretary not to exceed $27,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(8) ALCOHOL FROM CELLULOSIC BIOMASS TECHNOLOGY.—(A) The Secretary shall solicit proposals for and provide financial assistance to several joint ventures in order to develop commercial scale alcohol from biomass technology using available biomass feedstocks such as waste paper, agricultural residues, materials contained in industrial waste streams, wood, wood waste, and herbaceous crops. In carrying out this paragraph, the Secretary shall attempt to select projects in different regions of the United States.

"(B) The purpose of joint ventures supported under this paragraph shall be to develop and demonstrate critical enabling technologies and to provide new technologies to industry to improve the efficiency of operations as well as create new industries that have substantial prospects for encouraging energy independence.

"(C) There are authorized to be appropriated to the Secretary $80,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(9) OIL DISPLACEMENT BY SOLAR WATER HEATING.—(A) The Secretary shall solicit proposals for and provide financial assistance for joint venture for the commercialization of solar water heating technology in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to design, test, and demonstrate critical enabling technologies for solar water heating for commercial application in water heating and process heat uses that have substantial prospects for displacing the consumption of oil.

"(C) There are authorized to be appropriated to the Secretary $9,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(10) OIL DISPLACEMENT BY PHOTOVOLTAIC AND WIND ENERGY SYSTEMS.—(A) The Secretary shall solicit proposals for and provide financial assistance to at least one joint venture each for the commercialization of photovoltaic and wind energy systems, respectively, in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to design, test, and demonstrate critical enabling technologies for photovoltaic and wind energy systems for commercial application in electric power generation uses that have substantial prospects for displacing the consumption of oil.

"(C) There are authorized to be appropriated to the Secretary $15,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(11) HIGH TEMPERATURE SUPERCONDUCTING ELECTRICITY TECHNOLOGY.—(A) The Secretary shall solicit proposals for and provide financial assistance to at least one joint venture to commercialize high temperature superconducting electricity technologies in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to commercialize one or more products, such as motors, generators, transmission lines, transformers, and magnetic energy storage systems, based on high temperature superconducting technologies. Such products shall be of sufficient operational capability to demonstrate the increased energy efficiency of high temperature superconducting technologies in commercial products.

"(C) Such products shall be based on the critical enabling technologies of high temperature superconducting materials and gas-phase cooling systems operating at temperatures above 20 Kelvin (-423F).

"(D) There are authorized to be appropriated to the Secretary not to exceed $15,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.

"(12) OIL DISPLACEMENT BY FUEL CELL TECHNOLOGY.—(A) The Secretary shall solicit proposals for and provide financial assistance to joint ventures for the commercialization of fuel cell technology for electric power generation and transportation applications in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to design, test, and demonstrate critical enabling technologies for the production of electric energy from fuel cells in order to accelerate commercial application of fuel cells that have substantial prospects for displacing the consumption of oil.

"(C) There are authorized to be appropriated to the Secretary—

"(i) $9,000,000 for the period encompassing fiscal years 1993 through 1995 for electric power generation application; and

"(ii) $9,000,000 for the period encompassing fiscal years 1993 through 1995 for transportation application,

to carry out this paragraph.

"(13) SOURCE REDUCTION TECHNOLOGY.—(A) The Secretary shall solicit proposals for and provide financial assistance to at least one joint venture for the commercialization of source reduction technology in accordance with the provisions of this paragraph.

"(B) The purpose of joint ventures supported under this paragraph shall be to design, test, and demonstrate critical enabling technologies for the development of source reduction technologies.

"(C) There are authorized to be appropriated to the Secretary $6,000,000 for the period encompassing fiscal years 1993 through 1995, to carry out this paragraph.".

(2) Section 6(d)(1) of the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12005(d)(1)) is amended by striking "or (5)" and inserting in lieu thereof "(5), (6), (7), (8), (9), (10), (11), (12), or (13)".

SEC. 1204. RENEWABLE ENERGY PRODUCTION INCENTIVE.

(a) INCENTIVE PAYMENTS.—For electric energy generated and sold by a qualified renewable energy facility during the incentive period, the Secretary of Energy (hereinafter in this title referred to as the "Secretary") shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e). Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) QUALIFIED RENEWABLE ENERGY FACILITY.—For purposes of this section, a qualified renewable energy facility is a facility which generates electric energy for sale in, or affecting, interstate commerce using solar, wind, biomass, or geothermal energy, except that—

(1) the burning of municipal solid waste shall not be treated as using biomass energy; and

(2) geothermal energy shall not include energy produced from a dry steam geothermal reservoir which has—

(A) no mobile liquid in its natural state;

(B) steam quality of 95 percent water; and

(C) an enthalpy for the total produced fluid greater than or equal to 1200 Btu/lb (British thermal units per pound).

(c) ELIGIBILITY WINDOW.—Payments may be made under this section only for electricity generated from a qualified renewable energy facility first used during the 10-fiscal year period beginning with the first full fiscal year occurring after the enactment of this section.

(d) PAYMENT PERIOD.—A qualified renewable energy facility may receive payments under this section for a 10-fiscal year period. Such period shall begin with the fiscal year in which electricity generated from the facility is first eligible for such payments.

(e) AMOUNT OF PAYMENT.—

(1) IN GENERAL.—Incentive payments made by the Secretary under this section to the owner or operator of any qualified renewable energy facility shall be based on the number of kilowatt hours of electricity generated by the facility through the use of solar, wind, biomass, or geothermal energy during the payment period referred to in subsection (d). For any facility, the amount of such payment shall be determined in accordance with the following table, adjusted as provided in paragraph (2):

AMOUNT OF INCENTIVE PAYMENT

Fiscal year in which facility is first used	Amount of payment (in dollars/kilowatt hour)
First through fifth years after enactment.	$0.025
Sixth year after enactment.	$0.022
Seventh year after enactment.	$0.019
Eighth year after enactment.	$0.016
Ninth year after enactment.	$0.013
Tenth year after enactment.	$0.01

(2) ADJUSTMENTS.—The amount of the payment made to any person under this subsection as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 1993 in the same manner as provided in the provisions of section 29(d)(2)(B) of the Internal Revenue Code of 1986, except that in applying such provisions the calendar year 1993 shall be substituted for calendar year 1979.

(f) SUNSET.—No payment may be made under this section to any facility after the expiration of the 20-fiscal year period beginning with the first full fiscal year occurring after the enactment of this section, and no payment may be made under this section to any facility after a payment has been made with respect to such facility for a 10-fiscal year period.

(g) FACILITIES RECEIVING OTHER ASSISTANCE.—No person shall be eligible to receive a payment under this section for energy generated at a facility for which an energy tax credit was received under the Internal Revenue Code of 1986.

(h) ALLOCATION OF FUNDS.—If funds made available for payments under this section are inadequate in any fiscal year to make the full payments authorized by this section for that year for energy generated by qualified renewable energy facilities, payments shall be made first for energy generated by those facilities which received payments under this section in prior fiscal years before any payments are made to facilities which were not eligible to receive payments in such prior fiscal years.

SEC. 1205. RENEWABLE ENERGY EXPORT TECHNOLOGY TRAINING.

(a) ESTABLISHMENT OF PROGRAM.—The Secretary, through the Agency for International Development, shall establish a program for the training of individuals from developing countries, at a location or locations in the United States, in the operation and maintenance of renewable energy and energy efficient equipment in accordance with this subsection. The Secretary and the Administrator of the Agency for International Development shall, within one year after the date of enactment of this Act, enter into a written agreement to carry out this program.

(b) PURPOSE.—The purpose of the program established under this section shall be to train individuals, including engineers and other professionals, in the system design, operation, and maintenance of renewable energy and energy efficient equipment manufactured in the United States, including equipment for water pumping, heating and purification, and the production of electric power in remote areas.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary $6,000,000 for each of the fiscal years 1994, 1995, and 1996, to carry out this section.

SEC. 1206. AUTHORITY FOR STATES TO UNDERTAKE FEASIBILITY STUDIES.

Section 362(d) of the Energy Policy and Conservation Act (42 U.S.C. 6322(d)) is amended by redesignating paragraphs (12) and (13) as paragraphs (13) and (14), respectively, and by inserting after paragraph (11) the following new paragraph:

"(12) support for prefeasibility and feasibility studies for projects that utilize renewable energy and energy efficiency resource technologies in order to facilitate access to capital and credit for such projects;".

SEC. 1207. RENEWABLE ENERGY ADVANCEMENT AWARDS.

(a) AUTHORITY.—The Secretary shall make Renewable Energy Advancement Awards in recognition of developments that advance the practical application of biomass, geothermal, hydroelectric, photovoltaic, solar thermal, ocean thermal, and wind technologies to consumer, utility, or industrial uses, in accordance with this section. Except as provided in subsection (g), Renewal Energy Advancement Awards shall include a cash award.

(b) ADVISORY PANEL.—

(1) APPOINTMENT.—Within 6 months after the date of enactment of this Act, the Secretary shall appoint an advisory panel.

(2) FUNCTIONS.—The advisory panel appointed under paragraph (1) shall—

(A) develop selection criteria under subsection (c); and

(B) make recommendations annually to the Secretary on who should receive an award under this section.

(3) MEMBERSHIP.—The advisory panel shall consist of the Secretary of Commerce and a balanced representation from the scientific, utilities, industrial, financial, environmental, and State energy official communities.

(4) TRAVEL EXPENSES.—Each member of the advisory panel shall receive travel expenses, including per diem in lieu of subsistence, in accordance with sections 5702 and 5703 of title 5, United States Code.

(5) ADMINISTRATIVE ASSISTANCE.—The Secretary shall provide the advisory panel with such staff, office space, and other administrative assistance as it may require.

(c) SELECTION CRITERIA.—The advisory panel appointed under subsection (b) shall develop criteria to be applied in the selection of award recipients under this section. Such criteria shall include the following:

(1) The degree to which the development increases the usefulness of a renewable energy technology.

(2) The degree to which the development will have a significant impact, by benefitting a large number of people, by reducing the costs of an important industrial process or commercial product or service, or otherwise.

(3) The uniqueness and ingenuity of the development.

(4) Whether the application has significant export potential.

(5) The environmental soundness of the development.

(d) SELECTION.—Beginning in fiscal year 1994, and annually thereafter for a period of 10 years, the Secretary shall select 3 to 6 developments described in subsection (a) that are worthy of receiving an award under this section, and shall make such awards. The Secretary shall adopt the recommendations of the advisory panel under subsection (b)(2)(B) unless a recommendation does not conform to the selection criteria developed under subsection (c).

(e) ELIGIBILITY.—Awards may be made under this section only to individuals who are United States nationals or permanent resident aliens, or to non-Federal organizations that are organized under the laws of the United States or the laws of a State of the United States.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary $50,000 for each of the fiscal years 1994 through 2003 for carrying out this section.

(g) AWARDS MADE IN ABSENCE OF APPROPRIATIONS.—The Secretary shall make honorary awards under this section if sufficient funds are not appropriated for financial awards in any fiscal year.

SEC. 1208. STUDY OF EXPORT PROMOTION PRACTICES.

Section 256(d) of the Energy Policy and Conservation Act (42 U.S.C. 6276(d)) is amended by adding at the end the following new paragraph:

"(3) The interagency working group, through a subworking group that is chaired by a representative of an agency or department with expertise in foreign trade barriers and that has a member who is a representative of the Department of Energy, shall conduct a study of subsidies, incentives, and policies that other countries use to promote exports of their own renewable energy technologies and products. Such study shall also identify other countries' trade barriers to the import of renewable energy technologies and products produced in the United States. The interagency working group shall report to the appropriate committees of the House of Representatives and the Senate the results of such study within 18 months after the date of enactment of the Comprehensive National Energy Policy Act.".

SEC. 1209. STUDY OF TAX AND RATE TREATMENT OF RENEWABLE ENERGY PROJECTS.

(a) The Secretary, in conjunction with State utility regulators, shall undertake a study to determine if conventional taxation and ratemaking procedures result in an economic bias for or against renewable energy power plants compared to conventional power plants.

(b) Within 1 year after the date of enactment of this Act, the Secretary shall submit a report to the Congress on the results of the study undertaken under subsection (a).

SEC. 1210. STUDY OF RICE MILLING ENERGY BYPRODUCT MARKETING.

The Department of Energy shall conduct a study to facilitate the marketing of energy by-products from rice milling.

SEC. 1211. INTERAGENCY WORKING GROUP.

(a) PURPOSES.—Section 256(d)(2) of the Energy Policy and Conservation Act (42 U.S.C. 6276(d)(2)) is amended to read as follows:

"(2) The purposes of the interagency working group are—

"(A) to promote the export of renewable energy and energy efficient products and technologies produced in the United States;

"(B) to inform other countries of the benefits of the policies that promote the use of renewable energy and energy efficient technology; and

"(C) to foster rural and urban economic development and energy self-sufficiency through the use of reliable and economical renewable energy and energy efficiency resource technologies.".

(b) DEFINITIONS.—Section 256(g) of such Act (42 U.S.C. 6276(g)) is amended to read as follows:

"(g) For purposes of this section—

"(1) the term 'renewable energy' also includes energy efficiency to the extent it is part of a renewable energy system or technology;

"(2) the term 'developing countries' includes, but is not limited to, Eastern Europe, the successor states of the former Soviet Union, and the Baltic states; and

"(3) the term 'energy efficiency resource' means a resource by which energy is saved through improvements in the efficiency of energy production, transportation, or utilization.".

SEC. 1212. RENEWABLE ENERGY COMMERCIALIZATION.

(a) IN GENERAL.—(1) The Secretary shall, with funds available for such purpose, enter into not less than 10 agreements with private lenders to pay the Federal share of the interest on loans made to qualified borrowers for the purpose of financing the manufacture, construction, or acquisition of equipment that principally utilizes a renewable energy technology.

(2) The Secretary shall enter into such agreements—

(A) indirectly through appropriate State energy offices; or

(B) directly in the case of loans made with respect to equipment for Federal facilities.

(b) FEDERAL SHARE.—The amount of the Federal share of interest on a loan referred to in subsection (a)(1) shall be determined by the Secretary on the basis of—

(1) the need of the borrower for the assistance;

(2) the degree to which financing of the project will assist in the regional diversification and commercialization of renewable energy resources in the United States; and

(3) the achievement of the purposes and goals of this Act.

(c) LOAN TERMS.—The Secretary may enter into an agreement under subsection (a)(1) to pay the Federal share of interest on a loan that—

(1)(A) has a principal amount of at least $250,000 and less than $1,000,000 and a maturity of not less than 15 years; or

(B) has a principal amount of at least $1,000,000, and a maturity of not less than 20 years;

(2) has an interest rate—

(A) of no greater than four percent above the prime rate of lending by certain financial institutions, as determined by the Secretary; or

(B) that the Secretary determines to be reasonable; and

(3) contains such other terms and conditions that the Secretary determines is appropriate.

(d) REPORT.—Not later than two years after the date of enactment of this Act and annually thereafter, the Secretary shall report to the Congress on the projects funded under this section and the progress being made toward accomplishing the purpose of this section.

(e) AUTHORIZATION.—There are authorized to be appropriated to the Secretary for fiscal years 1992, 1993, and 1994 such sums as may be necessary to carry out the purposes of this section.

(f) DEFINITIONS.—For purposes of this section—

(1) the term "qualified borrower" means—

(A) an organization involved in the production or sale, or both, of electricity, thermal energy, or other forms of energy using a renewable energy technology; or

(B) a manufacturer of renewable energy equipment planning to finance improvements in, or expansion of, facilities for the manufacture of renewable energy technologies;

(2) the term "renewable energy technology" means any technology that produces, or uses as its principal energy source, biomass, geothermal, photovoltaic, wind, or solar thermal (including solar water heating and solar industrial process preheat) energy; and

(3) the term "Federal share" means that portion of the interest on a loan financed by a private lender which is paid by the Federal Government under this section.

SEC. 1213. DATA SYSTEM AND ENERGY TECHNOLOGY EVALUATION.

(a) FUNCTIONS OF THE SECRETARY OF COMMERCE.—The Secretary of Commerce, in his or her role as a member of the interagency working group established under section 256 of the Energy Policy and Conservation Act (42 U.S.C. 6276) shall—

(1) develop a comprehensive data base and information dissemination system, using the National Trade Data Bank and the Commercial Information Management System of the Department of Commerce, that will provide information on the specific energy technology needs of developing countries, and the technical and economic competitiveness of various renewable energy and energy efficient technologies;

(2) make such information available to industry, Federal and multilateral lending agencies, nongovernmental organizations, host-country and donor-agency officials, and such others as the Secretary of Commerce considers necessary; and

(3) prepare and transmit to the Congress by not later than June 1, 1993, and biennially thereafter, a comprehensive report evaluating the full range of energy and environmental technologies necessary to meet the energy needs of developing countries while reducing the generation of carbon dioxide and other greenhouse gases, including—

(A) information on the specific energy needs of developing countries,

(B) an inventory of United States technologies and services to meet those needs,

(C) an update on the status of ongoing bilateral and multilateral programs which promote United States exports of renewable energy and energy efficient technology, and

(D) an evaluation of current programs (and recommendations for future programs) that develop and promote energy efficiency and sustainable use of indigenous renewable energy resources in developing countries to reduce the generation of greenhouse gases that may contribute to global climate change.

SEC. 1214. OUTREACH.

(a) UNITED STATES AND FOREIGN COMMERCIAL SERVICE ACTIVITIES.—The Secretary of Commerce may assign an officer or employee assigned to the United States and Foreign Commercial Service, who is experienced in renewable energy and energy efficient technology, to the offices of the United States and Foreign Commercial Service in the Pacific Rim and in the Caribbean Basin solely for the purpose of providing information concerning renewable energy and energy efficient technologies and industries of the United States to governments, industries, and others outside of the United States.

(b) TRADE MISSIONS.—The Secretary of Commerce may sponsor trade missions to help market renewable energy and energy efficient products in other countries.

(c) ACTIVITIES OF INTERAGENCY GROUP NOT AFFECTED.—Nothing in this section shall affect the activities of the interagency working group established under section 256(d) of the Energy Policy and Conservation Act (42 U.S.C. 6276(d)).

TITLE XIII—COAL

SEC. 1301. COAL RESEARCH AND DEVELOPMENT RELATING TO COMMERCIAL APPLICATION PROGRAM.

(a) ESTABLISHMENT.—(1) The Secretary of Energy (hereinafter in this title (except as provided in section 1314) referred to as the "Secretary"), in consultation with the National Coal Council and other representatives of the public as the Secretary considers appropriate, shall conduct a program of research and development relating to commercial application within the Department of Energy for advanced coal-based technologies with the goals and objectives of—

(A) achieving the control of sulfur oxides, oxides of nitrogen, air toxics, solid and liquid wastes, greenhouse gases, or other emissions resulting from coal use or conversion at levels of proficiency greater than or equal to the most effective applicable currently available commercial technology;

(B) achieving the cost competitive conversion of coal into energy forms usable in the transportation sector;

(C) demonstrating the conversion of coal to synthetic gaseous, liquid, and solid fuels;

(D) demonstrating, in cooperation with other Federal and State agencies, the use of coal-derived fuels in mobile equipment, with opportunities for industrial cost-sharing participation; and

(E) ensuring the timely commercial application of cost-effective technologies or energy production processes or systems utilizing coal which achieve greater efficiency in the conversion of coal to useful energy when compared to currently available commercial technology for the use of coal and the control of emissions from the utilization of coal, and ensuring the availability for commercial use of such technologies by the year 2010.

(2) In selecting projects under this title, other than projects under section 1304, the Secretary shall seek to ensure that, relative to otherwise comparable generating units or products, a selected project will meet one or more of the following requirements:

(A) It will significantly reduce environmental emissions.

(B) It will significantly increase the overall efficiency of the utilization of coal, including energy conversion efficiency and, where applicable, production of products derived from coal.

(C) It will be a significantly more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those projects which, in the judgment of the Secretary, more effectively meet the requirements in subparagraphs (A), (B), and (C).

(3) In administering the program authorized by this title, the Secretary shall establish accounting and project management controls that will be adequate to—

(A) control the costs of the project;

(B) ensure a high probability of success; and

(C) ensure compliance with this title.

(4)(A) Not later than 180 days after the date of enactment of this Act, the Secretary shall establish procedures and criteria for the recoupment of the Federal share of cost-shared projects authorized pursuant to this title. Such recoupment shall occur within a reasonable period of time following the date of completion of such project, but not longer than 20 years following such date.

(B) For each such project, the Secretary shall negotiate a schedule for recoupment taking into account the effect of recoupment on—

(i) the commercial competitiveness of the entity carrying out the project;

(ii) the profitability of the project; and

(iii) the commercial viability of the clean coal technology utilized.

(b) REPORT.—Within 240 days after the date of enactment of this Act, the Secretary shall transmit to the Committee on Energy and Commerce of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate a report which shall include each of the following:

(1) A detailed description of ongoing research and development activities relating to commercial application regarding advanced coal-based technologies undertaken by the Department of Energy, other Federal or State government departments or agencies and, to the extent such information is publicly available, other public or private organizations in the United States and other countries.

(2) A listing and analysis of current Federal and State government regulatory and financial incentives that could further the goals of the programs established under this section.

(3) Recommendations regarding the manner in which any ongoing clean coal commercial application program might be modified and extended in order to ensure the timely demonstrations of those advanced coal-based technologies described in subsection (a) of this section so as to ensure that the goals established under this section are achieved and that such demonstrated technologies are available for commercial use by the year 2010.

(4) A detailed plan for conducting the program of research and development relating to commercial application program to achieve the goals and objectives of subsection (a), which plan shall include a description of—

(A) the program elements and management structure to be utilized;

(B) the technical milestones to be achieved with respect to each of the advanced coal-based technologies included in the plan; and

(C) the dates at which further deadlines for additional cost-sharing demonstrations shall be established.

(c) ANNUAL REPORT.—Within 1 year after transmittal of the report described in subsection (b), and annually thereafter for a period of 5 years, the Secretary shall transmit to the Congress a report that provides a detailed description of the status of development of the advanced coal-based technologies and the research and development activities relating to commercial application undertaken to carry out the programs conducted under this section.

(d) DEFINITION.—(1) As used in this title, the terms "advanced coal-based technologies" and "clean coal technologies" mean technologies that the Secretary expects to be commercially viable, within a reasonable period of time, under economic assumptions established by the Energy Information Administration, and—

(A) in the case of replacement, repowering, or new applications, the technologies are—

(i) capable of meeting applicable environmental performance standards for new power plants, or in the case of a repowering or replacement project, such environmental performance standards as would otherwise be applicable; and

(ii) except as provided in paragraph (2)(J), capable of achieving thermal conversion efficiencies equal to or greater than 40 percent, or such higher percentage as the Secretary may require;

(B) in the case of emission control technologies, the technologies are state-of-the-art technologies at achieving the objective stated in subsection (a)(1)(A); and

(C) in the case of coal refining technologies, the technologies are capable of producing energy, fuels, and products which, on a complete energy system basis, will result in environmental emissions no greater than those produced by existing comparable energy systems utilized for the same purpose.

(2) Technologies that the terms defined in this subsection refer to include the following:

(A) Coal refining technologies capable of efficiently producing or utilizing the energy contained in coal and also utilizing the byproducts thereof.

(B) Advanced pressurized fluidized bed combustion technology.

(C) Direct and indirect coal-fired turbines.

(D) Advanced integrated gasification combined cycle.

(E) Magnetohydrodynamics.

(F) Molten carbonate and solid oxide fuel cells.

(G) Emission control technologies.

(H) Cofiring coal with noncoal fuels, including natural gas.

(I) Coalbed methane production and use technologies.

(J) Other coal-based technologies or processes or systems that are capable of achieving thermal conversion efficiencies equal to or greater than 50 percent.

SEC. 1302. COAL EXPORTS.

(a) PLAN.—Within 180 days after the date of enactment of this Act, the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall submit to the House of Representatives and the Senate, and to the appropriate committees of each House, a plan for expanding exports of coal mined in the United States.

(b) PLAN CONTENTS.—The plan submitted under subsection (a) shall include—

(1) a description of the location, size, and projected growth in potential export markets for coal mined in the United States;

(2) the identification by country of the foreign trade barriers to the export of coal mined in the United States, including foreign coal production and utilization subsidies, tax treatment, labor practices, tariffs, quotas, and other nontariff barriers;

(3) recommendations and a plan for addressing any such trade barriers;

(4) an evaluation of existing infrastructure in the United States and any new infrastructure requirements in the United States to support an expansion of exports of coal mined in the United States, including ports, vessels, rail lines, and any other supporting infrastructure; and

(5) an assessment of environmental implications of coal exports and the identification of export opportunities for blending coal mined in the United States with coal indigenous to other countries to enhance energy efficiency and environmental performance.

SEC. 1303. CLEAN COAL TECHNOLOGY EXPORT PROMOTION AND INTERAGENCY COORDINATION.

(a) INTERAGENCY COORDINATION.—The Secretary of Commerce, in consultation with the Secretary and other appropriate Federal agencies, shall seek to facilitate and expand the export of clean coal technologies. As part of that consultation, the Secretaries shall place a high priority on the export of clean coal technologies to developing countries and countries making the transition from nonmarket to market economies.

(b) CONSULTATION.—In carrying out this section, the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall consult with representatives from the United States coal industry, representatives of railroads and other transportation industries, organizations representing workers, the electric utility industry, manufacturers of equipment utilizing clean coal technology, members of organizations formed to further the goals of environmental protection or to promote the development and use of clean coal technologies that are developed, manufactured, or controlled by United States firms, and other appropriate interested members of the public.

(c) DUTIES.—The Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall—

(1) facilitate the establishment of technical training for the consideration, planning, construction, and operation of clean coal technologies by local users and international development personnel;

(2) facilitate the establishment of and, where practicable, cause to be established, consistent with the goals and objectives stated in section 1301(a), within existing departments and agencies financial assistance programs, including grants, loan guarantees, and no interest and low interest loans, to support prefeasibility and feasibility studies for projects that will utilize clean coal technologies and loan guarantee programs, grants, and no interest and low interest loans, designed to facilitate access to capital and credit in order to finance such clean coal technology projects;

(3) develop and execute programs, including the establishment of financial incentives, to encourage and support private sector efforts in exports of clean coal technologies that are developed, manufactured, or controlled by United States firms;

(4) encourage the training and understanding of clean coal technologies by representatives of foreign companies or countries intending to use coal or clean coal technologies by providing technical or financial support for training programs, workshops, and other educational programs sponsored by United States firms;

(5) educate loan officers and other officers of international lending institutions, commercial and energy attaches of the United States, and such other personnel as the Secretary of Commerce, in cooperation with the Secretary and with other appropriate Federal agencies, deems appropriate, for the purposes of providing information about clean coal technologies to foreign governments or potential project sponsors of clean coal technologies;

(6) develop policies and practices to be conducted by commercial and energy attaches of the United States, and such other personnel as the Secretary of Commerce, in cooperation with the Secretary and with other appropriate Federal agencies, deems appropriate, in order to promote the exports of clean coal technologies in those countries interested in or intending to utilize coal resources;

(7) augment budgets for trade and development programs supported by Federal agencies for the purpose of financially supporting prefeasibility or feasibility studies for projects that will utilize clean coal technologies;

(8) review ongoing clean coal technology projects and review and advise Federal agencies on the approval of planned clean coal technology projects, including those project proposals submitted in accordance with the programs authorized by section 1301 of this title, which are sponsored abroad by any Federal Government agency to determine whether such projects are consistent with the overall goals and objectives of this section;

(9) coordinate the activities of the appropriate Federal agencies in order to ensure that Federal clean coal technology export promotion policies are implemented in a timely fashion;

(10) provide for the development of—

(A) an objective comparison of the environmental, energy, and economic performance of each clean coal technology relative to conventional technologies;

(B) a list of United States vendors of clean coal technologies; and

(C) answers to commonly asked questions about clean coal technologies,

and disseminate such information to potential customers abroad; and

(11) undertake such other actions or activities, consistent with existing law and regulations, as, in the judgment of the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, may be necessary to achieve the purposes of this section.

(d) DATA AND INFORMATION.—(1) The Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall be responsible for the development of a comprehensive data base and information dissemination system, using the National Trade Data Bank and the Commercial Information Management System of the Department of Commerce, relating to the availability of clean coal technologies and the potential need for such technologies, particularly in developing countries and countries making the transition from nonmarket to market economies.

(2) The Secretary of Commerce, through a subworking group of an interagency export promotion coordinating committee focusing on clean coal technology exports and chaired by a representative of the Department of Energy, shall provide an assessment of 10 priority foreign markets for the export of clean coal technologies that are developed, manufactured, or controlled by United States firms. Such assessment shall include—

(A) an analysis of the financing requirements for clean coal technology projects and whether such projects are dependent upon financial assistance from foreign countries or multilateral institutions,

(B) the availability of other fuel or energy resources that may be available to meet the energy requirements intended to be met by the clean coal technology projects,

(C) the priority of environmental considerations in the selection of such projects, and

(D) the technical competence of those entities likely to be involved in the planning and operation of such projects.

The Secretary of Commerce, in cooperation with the Secretary, shall make such information available to the House of Representatives and the Senate, and to the appropriate committees of each House of Congress, industry, Federal and international financing organizations, nongovernmental organizations, governments of countries where such clean coal technologies might be used, and such others as the Secretary of Commerce, in cooperation with the Secretary, considers appropriate.

(e) REPORT.—Within 180 days after the Secretary submits the report to the Congress as required by section 409 of Public Law 101-549, the Secretary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall provide to the House of Representatives and the Senate, and to the appropriate committees of each House of Congress, a plan which details actions to be taken in order to address those recommendations and findings made in the report submitted pursuant to section 409 of Public Law 101-549. As a part of the plan required by this subsection, the Secertary of Commerce, in cooperation with the Secretary and other appropriate Federal agencies, shall specifically address the adequacy of financial assistance available from Federal departments and agencies and international financing organizations to aid in the financing of prefeasibility and feasibility studies and projects that would use a clean coal technology in developing countries and countries making the transition from nonmarket to market economies.

SEC. 1304. INNOVATIVE CLEAN COAL AND RENEWABLE ENERGY TECHNOLOGY TRANSFER PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—The Secretary, through the Agency for International Development, shall establish a clean coal and renewable energy technology transfer program to carry out the purposes described in subsection (b). The Secretary and the Administrator of the Agency for International Development shall enter into a written agreement to carry out this program.

(b) PURPOSES OF THE PROGRAM.—The purposes of the technology transfer program under this section are to—

(1) encourage the export of United States technologies to those countries that have determined a need to construct developmentally sound facilities to provide energy derived from coal or renewable energy resources;

(2) develop markets for United States technologies and, where appropriate, United States coal resources to be utilized in meeting the energy and environmental requirements of other countries;

(3) better ensure that United States participation in energy-related projects in other countries includes participation by United States firms as well as utilization of United States technologies that have been developed or demonstrated in the United States through publicly or privately funded demonstration programs;

(4) provide for the accelerated utilization of United States technologies that will serve to introduce into other countries United States technologies intended to use coal or renewable energy resources in a cost-effective and environmentally acceptable manner; and

(5) establish a new financial mechanism to increase the involvement by the United States private sector in the financing of energy projects in developing countries and countries making the transition from nonmarket to market economies in cooperation with financing and assistance provided by the United States Government.

(c) PROGRAM REQUIREMENTS.—In order to carry out this section, the Administrator of the Agency for International Development, pursuant to the agreement required by subsection (a), and after consultation with the Trade and Development Program, and, where appropriate, in consultation with the Export-Import Bank of the United States, shall—

(1) support projects, in developing countries and in countries making the transition from nonmarket to market economies, which provide energy, in a cost-effective and environmentally-acceptable manner, using clean coal and renewable energy technology;

(2) select projects for purposes of this section only if such projects use United States technology and, where appropriate, coal resources of the United States;

(3) periodically review energy needs in countries assisted by the Agency for International Development, and explore export opportunities for the development of new energy-related projects in these countries, and keep the Congress informed of the results of these reviews;

(4) determine whether each project selected under this section is developmentally sound, as determined under the criteria developed by the Development Assistance Committee of the Organization for Economic Cooperation and Development;

(5) coordinate the activities of all offices within the Agency for International Development, and work with the Agency for International Development country missions, in developing projects for purposes of this section that provide opportunities for United States firms, consistent with the Agency for International Development's primary mission to help these countries with traditional development projects;

(6) select clean coal technology projects for purposes of this section only if such projects use technologies and equipment selected by the Secretary under subsection (d);

(7) select projects for purposes of this section only after consultations with appropriate government officials of a host country, and, as appropriate, with representatives of foreign electric utilities or other foreign entities, to determine the interest in and support for a potential energy project;

(8) receive proposals from United States firms describing clean coal and renewable energy projects which, in the view of such firms, would be projects suitable for support under this section;

(9) pursuant to the agreement required by subsection (a), and after consultation with the Secretary, publish in the Commerce Business Daily a description of each clean coal or renewable energy project identified for support under this section;

(10) within one year after the date of enactment of this Act, and at least annually thereafter, pursuant to the agreement required by subsection (a), and after consultation with the Secretary, issue a request for proposals or an invitation for bids from United States firms for the development, construction, testing, and operation of a project or projects identified in the Commerce Business Daily or establish a procedure under which the host country will issue a request for proposals or invitation for bids from United States firms for the development, construction, testing, and operation of a project or projects identified in the Commerce Business Daily;

(11) ensure that the request for proposals and invitation for bids described in paragraph (10) provides an opportunity for United States firms to propose that such firm, either directly or indirectly, will provide a portion of the cost of the project;

(12) within 120 days after receipt of proposals or bids in response to a solicitation under paragraph (10), select one or more proposals or bids;

(13) in addition to any other considerations the Administrator of the Agency for International Development, in consultation with the Secretary, deems appropriate, make the following considerations in selecting a proposal or bid—

(A) the ability of the United States firm, in cooperation with the host country, to undertake and complete the project;

(B) the degree to which the furnished equipment to be included in the project is manufactured in the United States;

(C) the degree to which the United States firm has proposed to provide a portion of the cost of the project;

(D) the long-term technical and competitive viability of the United States technology, and the ability of the United States firm to compete in the development of additional projects using such technology in the host country and in other countries; and

(E) the extent to which the proposed project meets the objectives stated in section 1301(a); and

(14) ensure that any specific application of a clean coal technology project conforms with the requirements of subsection (d)(2).

(d) SELECTION OF CLEAN COAL TECHNOLOGIES.—(1) Within six months of the date of enactment of this Act and annually thereafter, the Secretary, in consultation with the Administrator of the Agency for International Development , shall prepare a list of United States clean coal technologies eligible to be used in clean coal projects supported by this section.

(2) In developing the list under paragraph (1), the Secretary, in consultation with the Administrator of the Agency for International Development, shall select technologies which will meet one or more of the following requirements:

(A) It will significantly reduce environmental emissions.

(B) It will significantly increase the overall efficiency of the utilization of coal, including energy conversion efficiency and, where applicable, production of products derived from coal.

(C) It will be a significantly more cost-effective technological alternative, based on life cycle capital and operating costs per unit of energy produced and, where applicable, costs per unit of product produced.

Priority in selection shall be given to those technologies which, in the judgment of the Secretary, more effectively meet the requirements in subparagraphs (A), (B), and (C).

(e) AUTHORIZATION FOR PROGRAM.—There are authorized to be appropriated to the Secretary, acting through the Agency for International Development, to carry out the program required by this section, $100,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998. Grants or other assistance provided with such funds may be combined with financing offered by private financial entities or other entities.

(f) UNITED STATES-ASIA ENVIRONMENTAL PARTNERSHIP.—Activities carried out under this section shall be coordinated with the United States-Asia Environmental Partnership.

(g) BUY AMERICA.—In carrying out this section, the Secretary, through the Agency for International Development and consistent with the Agency for International Development procurement guidelines, shall ensure—

(1) the maximum percentage of the cost of any equipment furnished in connection with

a project authorized under this section shall be attributable to the manufactured United States components of such equipment, and

(2) the maximum participation of United States firms.

SEC. 1305. CONVENTIONAL COAL TECHNOLOGY TRANSFER.

If the Secretary, pursuant to the agreement under section 1304(a), determines that the utilization of a clean coal technology is not practicable for a proposed project and that a United States conventional coal technology would constitute a substantial improvement in efficiency, costs, and environmental performance relative to the technology being used in a developing country or country making the transition from nonmarket to market economies, with significant indigenous coal resources, such technology shall, for purposes of sections 1303 and 1304, be considered a clean coal technology. In the case of combustion technologies, only the retrofit, repowering, or replacement of a conventional technology shall constitute a substantial improvement for purposes of this section. In carrying out this section, the Secretary, pursuant to the agreement under section 1304(a), shall give highest priority to promoting the most environmentally sound and energy efficient technologies.

SEC. 1306. COAL FIRED DIESEL ENGINES.

(a) PROGRAM.—The Secretary shall conduct a program of research and development relating to commercial application for utilizing coal-derived liquid or gaseous fuels, including ultra-clean coal-water slurries, in diesel engines. The program shall address—

(1) required engine retrofit technology;

(2) coal-fuel production technology;

(3) emission control requirements;

(4) fuel delivery and storage systems requirements; and

(5) other infrastructure required to support commercial deployment.

(b) FUNDING.—The Secretary may provide financial assistance for a project under the program conducted under subsection (a), to the extent the Secretary finds that such project—

(1) offers promise for commercial application; and

(2) will receive at least 50 percent of project funds from non-Federal sources.

(c) JOINT VENTURES.—In carrying out the program conducted under subsection (a), the Secretary may enter into joint ventures to accelerate the development and commercialization of technologies described in subsection (a).

(d) CONSULTATION.—In carrying out research and development activities relating to commercial application under this section, the Secretary shall consult with the private sector.

SEC. 1307. CLEAN COAL, WASTE-TO-ENERGY.

(a) PROGRAM.—The Secretary shall establish a program of research and development relating to commercial application with respect to the use of solid waste combined with coal as a fuel source for clean coal combustion technologies. The program shall address—

(1) the feasibility of cofiring coal and used vehicle tires in fluidized bed combustion units;

(2) the combined gasification of coal and municipal sludge using integrated gasification combined cycle technology;

(3) the creation of fuel pellets combining coal and material reclaimed from solid waste;

(4) the feasibility of cofiring, in fluidized bed combustion units, waste methane from coal mines, including ventilation air, together with coal or coal wastes; and

(5) other sources of waste and coal mixtures in other applications that the Secretary considers appropriate.

(b) FUNDING.—The Secretary may provide financial assistance for a project under the program conducted under subsection (a), to the extent the Secretary finds that such project—

(1) offers promise for commercial application; and

(2) will receive at least 25 percent of project funds from non-Federal sources.

(c) JOINT VENTURES.—In carrying out the program conducted under subsection (a), the Secretary may enter into joint ventures to accelerate the development and commercialization of technologies described in subsection (a).

(d) CONSULTATION.—In carrying out research and development activities relating to commercial application under this section, the Secretary shall consult with the private sector.

SEC. 1308. NONFUEL USE OF COAL.

(a) PLAN.—Not later than 120 days after the date of enactment of this Act, the Secretary shall submit to the Congress a plan for research and development relating to commercial application with respect to technologies for the nonfuel use of coal, including—

(1) production of coke and other carbon products derived from coal;

(2) production of coal-derived, carbon-based chemical intermediates that are precursors of value-added chemicals and polymers;

(3) production of chemicals from coal-derived synthesis gas;

(4) coal treatment processes, including methodologies such as solvent-extraction techniques that produce low ash, low sulfur, coal-based chemical feedstocks; and

(5) waste utilization, including recovery, processing, and marketing of products derived from sulfur, carbon dioxide, nitrogen, and ash from coal.

(b) JOINT VENTURES.—As part of the plan under subsection (a), the Secretary may propose specific joint ventures to accelerate the development and commercialization of technologies for nonfuel uses of coal.

(c) PLAN CONTENTS.—The plan described in subsection (a) shall address and evaluate—

(1) the known and potential processes for using coal in the creation of products in the chemical, utility, fuel, and carbon-based materials industries;

(2) the costs, benefits, and economic feasibility of using coal products in the chemical and materials industries, including value-added chemicals, carbon-based products, coke, and waste derived from coal;

(3) the economics of coproduction of products from coal in conjunction with the production of electric power, thermal energy, and fuel;

(4) the economics of coal utilization in comparison with other feedstocks that might be used for the same purposes;

(5) the steps that can be taken by the public and private sectors to bring about commercialization of technologies developed under the program recommended; and

(6) the past development, current status, and future potential of coal products and processes associated with nonfuel uses of coal.

(d) CONDUCT OF PROGRAM.—The Secretary shall conduct a program of research and development relating to commercial application under the plan described in subsection (a).

(e) FUNDING.—The Secretary may provide financial assistance for a project under the plan to the extent the Secretary finds that such project—

(1) offers promise for commercial application; and

(2) will receive at least 50 percent of project funds from non-Federal sources.

(f) CONSULTATION.—In preparing the plan and carrying out research and development activities relating to commercial application under this section, including evaluating the technical progress, feasibility, and most effective means for utilizing the results of research, the Secretary shall consult with the private sector.

SEC. 1309. COAL REFINERY PROGRAM.

(a) ESTABLISHMENT.—The Secretary, in consultation with the National Coal Council and such other representatives of the public and private sectors as the Secretary considers necessary, shall conduct a program of research and development relating to commercial application within the Department of Energy for clean coal technologies that are coal refining technologies which minimize the overall environmental impacts of coal utilization and meet the objectives of section 1301(a)(1). The program shall include technologies for refining high sulfur coals, low sulfur coals, sub-bituminous coals, and lignites to produce clean-burning transportation fuels, compliance boiler fuels, fuel additives, lubricants, chemical feedstocks, and carbon-based manufactured products, in conjunction with the generation of electricity or process heat, or the manufacture of a variety of products from coal. The goals of such program shall be the achievement of—

(1) the timely commercial application of technologies, including mild gasification, hydrocracking and other hydropyrolysis processes, and other energy production processes or systems to produce coal-derived fuels and coproducts, which achieve greater efficiency and economy in the conversion of coal to electrical energy and coproducts than currently available technology;

(2) the capability to produce a range of coal-derived transportation fuels, including oxygenated hydrocarbons, boiler fuels, turbine fuels, and coproducts, which can reduce dependence on imported oil by displacing conventional petroleum in the transportation sector and other sectors of the economy;

(3) reduction in the cost of producing such coal-derived fuels and coproducts;

(4) the control of emissions from the combustion of coal-derived fuels; and

(5) the availability for commercial use of such technologies by the year 2000.

(b) REPORT AND PLAN.—Within 120 days after the date of enactment of this Act, the Secretary shall transmit to the Congress a report which shall include—

(1) a detailed description of ongoing research and development activities relating to commercial application regarding coal refining technologies undertaken by the Department of Energy, other Federal or State government departments or agencies, and, to the extent such information is publicly available, other public or private organizations in the United States and other countries;

(2) a listing and analysis of current Federal and State government regulatory and financial incentives that could further the goals stated in subsection (a); and

(3) a detailed plan for conducting the research and development program relating to commercial application to achieve the goals stated in subsection (a), which plan shall include a description of—

(A) the program elements and management structure to be utilized; and

(B) the technical milestones to be achieved with respect to each of the coal refining technologies included in the plan.

(c) JOINT VENTURES.—Within 1 year after the transmittal of the report described in subsection (b), the Secretary shall solicit proposals from appropriate parties and may thereafter enter into agreements to conduct joint ventures with such parties to undertake commercial scale demonstration projects of coal refining processes capable of producing boiler fuels, transportation fuels, including oxygenated hydrocarbons, or other useful coal-derived by-products, from high or low sulfur coals or lignites. In designing the solicitation under this subsection, and taking into consideration the goals stated in subsection (a), the Secretary—

(1) shall establish technology classes for the various coal refining processes;

(2) may enter into joint ventures for the construction of not more than one project per technology class, but in no event less than two projects in total;

(3) shall provide that any such joint venture obtain at least 50 percent of its direct costs from non-Federal sources; and

(4) shall require that any project have a reasonable prospect of commencing commercial operation by January 1, 2000.

(d) ANNUAL REPORT.—Within 1 year after the date of enactment of this Act, and annually thereafter for a period of 5 years, the Secretary shall submit to the Congress a report that provides a detailed description of the status of development of coal refining technologies and the research and development activities relating to commercial application undertaken to carry out the program under this section.

SEC. 1310. STUDY OF UTILIZATION OF COAL COMBUSTION BYPRODUCTS.

(a) DEFINITION.—As used in this section, the term "coal combustion byproducts" means the residues from the combustion of coal including ash, slag, and flue gas desulfurization materials.

(b) STUDY AND REPORT TO CONGRESS.—(1) The Secretary shall conduct a detailed and comprehensive study on the institutional, legal, and regulatory barriers to increased utilization of coal combustion byproducts by potential governmental and commercial users. Such study shall identify and investigate barriers found to exist at the Federal, State, or local level, that may have limited or may have the foreseeable effect of limiting the quantities of coal combustion byproducts that are utilized. In conducting this study, the Secretary shall consult with other departments and agencies of the Federal Government, appropriate State and local governments, and the private sector.

(2) Not later than 1 year after the date of enactment of this Act, the Secretary shall submit a report to the Congress containing the results of the study required by paragraph (1) and the Secretary's recommendations for action to be taken to increase the utilization of coal combustion byproducts. At a minimum, such report shall identify actions that would increase the utilization of coal combustion byproducts in—

(A) bridge and highway construction;

(B) stabilizing wastes;

(C) procurement by departments and agencies of the Federal Government and State and local governments; and

(D) federally funded or federally subsidized procurement by the private sector.

SEC. 1311. CALCULATION OF AVOIDED COST.

Nothing in section 210 of the Public Utility Regulatory Policies Act of 1978 (Public Law 95-617) requires a State regulatory authority or nonregulated electric utility to treat a cost reasonably identified to be incurred or to have been incurred in the construction or operation of a facility or a project which has been selected by the Department of Energy and provided Federal funding pursuant to the Clean Coal Program authorized by Public Law 98-473 as an incremental cost of alternative electric energy.

SEC. 1312. COALBED METHANE RECOVERY.

(a) STUDY OF BARRIERS.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall conduct a study of technical, economic, financial, legal, regulatory, institutional, or other barriers to coalbed methane recovery, and of policy options for eliminating such barriers. Within two years after the date of enactment of this Act, the Secretary shall submit a report to the Congress detailing the results of such study.

(b) STUDY OF ENVIRONMENTAL AND SAFETY ASPECTS.—The Secretary, in consultation with the Director of the Bureau of Mines and the Administrator of the Environmental Protection Agency, shall conduct a study of the environmental and safety aspects of flaring coalbed methane liberated from coal mines. Within two years after the date of enactment of this Act, the Secretary shall submit a report to the Congress detailing the results of such study.

(c) INFORMATION DISSEMINATION.—Beginning one year after the date of enactment of this Act, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall disseminate to the public information on state-of-the-art coalbed methane recovery techniques, including information on costs and benefits.

(d) COMMERCIALIZATION PROGRAM.—The Secretary shall establish a coalbed methane recovery commercial application program, which shall include a joint venture program, emphasizing gas enrichment technology, with at least 50 percent of the costs thereof being provided by the private sector. Such program shall address—

(1) gas enrichment technologies for enriching medium-quality methane recovered from coal mines to pipeline quality;

(2) technologies to use mine ventilation air in nearby power generation facilities, including gas turbines, internal combustion engines, or other coal fired powerplants;

(3) technologies for cofiring methane recovered from mines, including methane from ventilation systems and degasification systems, together with coal in conventional or clean coal technology boilers; and

(4) other technologies for producing and using methane from coal mines that the Secretary considers appropriate.

SEC. 1313. COALBED METHANE EMISSION CREDITS.

(a) FINDINGS.—The Congress finds that the recovery of coalbed methane gas in conjunction with coal mining operations will have a beneficial effect in promoting energy efficiency, promoting wise use of energy resources, and reducing greenhouse gas emissions and should, therefore, be encouraged by developing a coalbed methane emissions baseline, and assuring credit for such recovery in the future.

(b) COALBED METHANE REPORTING.—Following promulgation of regulations under subsection (c), any owner or operator of an underground coal mine producing more than 100,000 tons of coal in any calendar year after 1987 may, for such calendar year and any calendar year thereafter in which coal is produced from such mine, report to the Secretary the aggregate annual volume of coalbed methane gas recovered, flared, vented, or otherwise emitted into the environment during that year. Such annual report shall specify the volume of such gas which was flared, used as fuel on site, or sold into a natural gas pipeline.

(c) REGULATIONS.—Within 9 months after the date of enactment of this section, the Secretary, in consultation with the Director of the Bureau of Mines and the Administrator of the Environmental Protection Agency, shall establish by regulation the methods and procedures to be used by persons reporting under subsection (b) to measure the annual volume of coalbed methane gas recovered, flared, vented or otherwise emitted into the environment. To the maximum extent practicable, the Secretary should seek to rely on existing monitoring and estimation methods and procedures (including but not limited to techniques developed for compliance with the Coal Mine Health and Safety Act of 1969) and place priority on selecting techniques which maximize accuracy and minimize the cost to the operator.

(d) CREDITS.—For purposes of any greenhouse gas reduction program under any future law which provides credits for reductions in coalbed methane gas emissions, each person submitting annual reports to the Secretary under subsection (b) regarding the aggregate annual volume of coalbed methane gas recovered, flared, or vented, or otherwise emitted into the environment may receive credits for reductions in coalbed methane gas emissions achieved by such person after calendar year 1987 and reported under subsection (b). No credit for recovery of coalbed methane gas from any coalbed shall be valid until mining commences in such coalbed.

(e) DOE REPORTS.—Using data submitted under this section and data obtained from the Bureau of Mines, the Secretary shall publish annual reports containing the Secretary's estimate for each coal mine of the aggregate annual volume of coalbed methane gas recovered, flared, vented, or otherwise emitted into the environment.

SEC. 1314. OWNERSHIP OF COALBED METHANE.

(a) FEDERAL LANDS AND MINERAL RIGHTS.—In the case of any deposit of coalbed methane where the United States is the owner of the surface estate or where the United States has transferred the surface estate but reserved the subsurface mineral estate, the Secretary of the Interior (hereinafter referred to in this section as the "Secretary") shall act in lieu of the State Board under this section and shall have all powers and authorities necessary to take such action.

(b) AFFECTED STATES.—Not later than 180 days after the date of enactment of this Act, the Secretary, with the participation of the Secretary of Energy, shall publish in the Federal Register a list of States—

(1) in which the Secretary, with the participation of the Secretary of Energy, determines that disputes, uncertainty, or litigation exist, regarding the ownership of coalbed methane gas;

(2) in which the Secretary, with the participation of the Secretary of Energy, determines that development of significant deposits of coalbed methane gas is being impeded by such existing disputes, uncertainty, or litigation regarding ownership of such coalbed methane;

(3) which do not have in effect a statutory or regulatory procedure or existing case law permitting and encouraging the development of coalbed methane gas within that State; and

(4) which do not have extensive development of coalbed methane gas.

The Secretary, with the participation of the Secretary of Energy, shall revise such list of Affected States from time to time. Based on new case law or legislation enacted in the State after the enactment of this Act, any Affected State may petition the Secretary, with the participation of the Secretary of Energy, for a revision to remove the State from the list. Until the Secretary, with the participation of the Secretary of Energy, publishes a different list, the States of West Virginia, Pennsylvania, Kentucky, Ohio, Tennessee, Indiana, and Illinois shall be the Affected States, effective on the date of the enactment of this Act. States which have current development of coalbed methane gas and shall not be included on the Secretary's list of Affected States are Colorado, Montana, New Mexico, Wyoming, Utah, Virginia, Washington, Mississippi, and Alabama.

(c) State Agencies for Affected States.—(1) In order to provide for the expeditious and economical development of deposits of coalbed methane gas in Affected States, within 360 days after a State becomes an Affected State, each such Affected State shall establish or designate one or more State agencies or instrumentalities to administer the provisions of this section. Such agencies or instrumentalities shall hereinafter in this section be referred to as the "State Board" for the Affected State. The State shall authorize the State Board to have such powers and duties and to promulgate such regulations as may be necessary to carry out this section in that State. A person concerned with preserving the integrity of workable coal seams who is knowledgeable in underground coal mining methods and a person knowledgeable in oil and gas development activities shall be appointed to the State Board.

(2) If an Affected State has not established or designated a State Board as provided in this subsection within the 360-day period specified in paragraph (1), the Secretary, with the participation of the Secretary of Energy, shall be treated as the State Board for such State for purposes of this section. In any such case, the Secretary, with the participation of the Secretary of Energy, shall have such powers and duties and shall promulgate such regulations as may be necessary to carry out this section in that State.

(3) In implementing this section, the State Board or the Secretary, with the participation of the Secretary of Energy, as the case may be, shall—

(A) consider existing and future coal mining plans,

(B) preserve the mineability of coal seams, and

(C) provide for the prevention of waste and maximization of recovery of coal and coalbed methane gas in a manner which will protect the rights of all entities owning an interest in such coalbed methane resource.

(d) Spacing.—Except where State law in an Affected State contains existing spacing requirements regarding the minimum distance between coalbed methane wells and the minimum distance of a coalbed methane well from a property line, the State Board for each Affected State shall establish such requirements within 90 days after the date on which the State Board is established or designated.

(e) Spacing Units.—Applications to establish spacing units for the drilling and operation of coalbed methane gas wells may be filed by any entity claiming a coalbed methane ownership interest within a proposed spacing unit. Upon receipt and approval of an application, the State Board shall issue an order establishing the boundaries of the coalbed methane spacing unit. Spacing units shall generally be uniform in size.

(f) Development Under Pooling Arrangement.—Following issuance of an order establishing a spacing unit under subsection (e), and pursuant to an application for pooling filed by the entity claiming a coalbed methane ownership interest and proposing to drill a coalbed methane gas well, the State Board shall hold a hearing to consider the application for pooling and shall, if the criteria of this section are met, issue an order allowing the proposed pooling of acreage within the designated spacing unit for purposes of drilling and production of coalbed methane from the spacing unit. The pooling order shall not be issued before notice or a reasonable and diligent effort to provide notice has been made to each entity which may claim an ownership interest in the coalbed methane gas within such spacing unit and each such entity has been offered an opportunity to appear before the State Board at the hearing. Upon issuance of a pooling order, each owner or claimant of an ownership interest shall be allowed to make one of the following elections:

(1) An election to sell or lease its coalbed methane ownership interest to the unit operator at a rate determined by the State Board as set forth in the pooling order.

(2) An election to become a participating working interest owner by bearing a share of the risks and costs of drilling, completing, equipping, gathering, operating (including all disposal costs), plugging and abandoning the well, and receiving a share of production from the well.

(3) An election to share in the operation of the well as a nonparticipating working interest owner by relinquishing its working interest to participating working interest owners until the proceeds allocable to its share equal 300 percent of the share of such costs allocable to its interest. Thereafter, the nonparticipating working interest owner shall become a participating working interest owner.

The pooling order shall designate a unit operator who shall be authorized to drill and operate the spacing unit. The pooling order shall provide that any entity claiming an ownership interest in the coalbed methane within such spacing unit which does not make an election under the pooling order shall be deemed to have leased its coalbed methane interest to the unit operator under such terms and conditions as the pooling order may provide. No pooling order may be issued under this paragraph for any spacing unit if all entities claiming an ownership interest in the coalbed methane in the spacing unit have entered into a voluntary agreement providing for the drilling and operation of the coalbed methane gas well for the spacing unit.

(g) Escrow Account.—(1) Each pooling order issued under subsection (f) shall provide for the establishment of an escrow account into which the payment of costs and proceeds attributable to the conflicting interests shall be deposited and held for the interest of the claimants as follows:

(A) Each participating working interest owner, except for the unit operator, shall deposit in the escrow account its proportionate share of the costs allocable to the ownership interest claimed by each such participating working interest owner as set forth in the pooling order issued by the State Board.

(B) The unit operator shall deposit in the escrow account all proceeds attributable to the conflicting interests of lessees, plus all proceeds in excess of ongoing operational expenses (including reasonable overhead costs) attributable to conflicting working interests.

(2) The State Board shall order payment of principal and accrued interest from the escrow account to all legally entitled entities within 30 days of receipt by the State Board of notification of the final legal determination of entitlement or upon agreement of all entities claiming an ownership interest in the coalbed methane gas. Upon such final determination—

(A) each legally entitled participating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest;

(B) each legally entitled nonparticipating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest, less the cost of being carried as a nonparticipating working interest owner (as determined by the election of the entity under the applicable pooling order);

(C) each entity leasing (or deemed to have leased) its coalbed methane ownership interest to the unit operator shall receive a share of the royalty proceeds (as set out in the applicable pooling order) attributable to the conflicting interests of lessees; and

(D) the unit operator shall receive the costs contributed to the escrow account by each legally entitled participating working interest owner.

The State Board shall enact rules and regulations for the administration and protection of funds delivered to the escrow accounts.

(h) Approval of State Board.—No entity may drill any well for the production of coalbed methane gas from a coalbed in an Affected State unless the drilling of such well has been approved by the State Board for that State.

(i) Consent of Affected Coal Operator.—No operator of a coalbed methane well may stimulate a coal seam or known coal bearing geologic strata without the written consent of each entity which is operating, or who at the time of application for a drilling permit, has by virtue of ownership or a coal lease, the right to operate, a coal mine in a coal seam situated—

(1) within a minimum horizontal distance—

(A) of 1,500 feet from the well; or

(B) as determined by the State Board, based on evaluation of the maximum length of fracture producible in the local strata; or

(2) within a minimum vertical distance—

(A) of 200 feet of the known coal bearing geologic strata to be stimulated; or

(B) as determined by the State Board, based on evaluation of the maximum height and depth of fracture producible in the local strata.

The consent required under this subsection shall in no way be deemed to impair, abridge, or affect any contractual rights or objections arising out of a coalbed methane gas contract or coalbed methane gas lease in existence as of the effective date of this section between the coalbed methane operator and the coal operator, and the existence of such lease or contractual agreement and any extensions or renewals of such lease shall be deemed to fully meet the requirements of this section.

(j) Notice and Objection.—(1) The State Board shall not approve the drilling of any coalbed methane well unless the unit operator has notified each entity which is operating, or has the right to operate, a coal mine in any portion of the coalbed that would be affected by such well within the distances referred to in subsection (i). Any notified entity may object to the drilling of such well within 30 days after receipt of a notice. Upon receipt of a timely objection to the drilling of any coalbed methane gas well submitted by a notified entity, the State Board may refuse to approve the drilling of the well based on any of the following:

(A) The proposed activity, due to its proximity to any coal mine opening, shaft, underground workings, or to any proposed extension of the coal mine, would adversely affect any operating, inactive or abandoned coal mine, including any coal mine already surveyed and platted but not yet being operated.

(B) The proposed activity would not conform with a coal operator's development plan for an existing or proposed operation.

(C) There would be an unreasonable interference from theproposed activity with present or future coal mining operations, including the ability to comply with other applicable laws and regulations.

(D) The presence of evidence indicating that the proposed drilling activities would be unsafe, taking into consideration the dangers from creeps, squeezes or other disturbances due to the extraction of coal.

(E) The proposed activity would unreasonably interfere with the safe recovery of coal, oil and gas.

(2) In the event the State Board does not approve the drilling of a coalbed methane well pursuant to paragraph (1), the State Board shall consider whether such drilling could be approved if the unit operator modifies the proposed activities to take into account any of the following:

(A) The proposed activity could instead be reasonably done through an existing or planned pillar of coal, or in close proximity to an existing well or such pillar of coal, taking into consideration surface topography.

(B) The proposed activity could instead be moved to a mined-out area, below the coal outcrop or to some other feasible area.

(C) The unit operator agrees to a drilling moratorium of not more than two years in order to permit completion of coal mining operations.

(D) The practicality of locating the proposed spacing unit or well on a uniform pattern with other spacing units or wells.

(k) PLUGGING.—All coalbed methane wells drilled after enactment of this Act that penetrate coal seams with remaining reserves shall provide for subsequent safe mining through the well in accordance with standards prescribed by the State Board for the State in which the well is located, in consultation with any Federal and State agencies having authority over coal mine safety.

(l) NOTICE AND OBJECTION BY OTHER PARTIES.—The State Board shall not approve the drilling of any coalbed methane well unless such well complies with the spacing and other requirements established by the State Board and each of the following:

(1) The unit operator of such well has notified, or has made a reasonable and diligent effort to notify, all entities claiming ownership of coalbed methane to be drained by such well and provided an opportunity to object in accordance with requirements established by the State Board.

(2) Where conflicting interests exist, an order under subsection (f) establishing pooling requirements has been issued.

The notification requirements of this subsection shall be additional to the notification referred to in subsection (j). The State Board shall establish the conditions under which entities claiming ownership of coalbed methane may object to the drilling of a coalbed methane well.

(m) VENTING FOR SAFETY.—Nothing in this section shall be construed to prevent or inhibit the entity which has the right to develop and mine coal in any mine from venting coalbed methane gas to ensure safe mine operations.

(n) DEFINITIONS.—As used in this section—

(1) The term "Affected State" means a State listed by the Secretary, with the participation of the Secretary of Energy, under subsection (b).

(2) The term "coalbed methane gas" means occluded natural gas produced (or which may be produced) from coalbeds and rock strata associated therewith.

(3) The term "unit operator" means the entity designated in a pooling order to develop a spacing unit by the drilling of one or more wells on the unit.

(4) The term "nonparticipating working interest owner" means a gas or oil owner of a tract included in a spacing unit which elects to share in the operation of the well on a carried basis by agreeing to have its proportionate share of the costs allocable to its interest charged against its share of production of the well in accordance with subsection (f)(3).

(5) The term "participating working interest owner" means a gas or oil owner which elects to bear a share of the risks and costs of drilling, completing, equipping, gathering, operating (including any and all disposal costs) plugging, and abandoning a well on a spacing unit and to receive a share of production from the well equal to the proportion which the acreage in the spacing unit it owns or holds under lease bears to the total acreage of the spacing unit.

SEC. 1315. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary such sums as may be necessary for each of the fiscal years 1992 through 1998, to conduct no less than 2 additional solicitations similar in scope and amount of Federal costsharing as that provided by Public Law 101-121 for clean coal technology demonstrations to be conducted pursuant to this title.

SEC. 1316. ESTABLISHMENT OF DATA BASE AND STUDY OF TRANSPORTATION RATES.

(a) DATA BASE.—The Secretary shall review the information currently collected by the Federal Government and shall determine whether information on transportation rates for rail and pipeline transport of domestic coal, oil, and gas during the period of January 1, 1988, through December 31, 1997, is reasonably available. If he determines that such information is not reasonably available, the Secretary shall establish a data base containing, to the maximum extent practicable, information on all such rates. The confidentiality of contract rates shall be preserved. To obtain data pertaining to rail contract rates, the Secretary shall acquire such data in aggregate form from the Interstate Commerce Commission, under terms and conditions that maintain the confidentiality of such rates.

(b) STUDY.—The Secretary shall determine the extent to which any agency of the Federal Government is studying the rates and distribution patterns of domestic coal, oil, and gas to determine the impact of the Clean Air Act as amended by the Act entitled "An Act to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes.", enacted November 15, 1990 (Public Law 101-549), and other Federal policies on such rates and distribution patterns. If the Secretary finds that no such study is underway, or that reports of the results of such study will not be available to the Congress providing the information specified in this subsection and subsection (a) by the dates established in subsection (c), the Secretary shall initiate such a study.

(c) REPORTS TO CONGRESS.—Within one year after the date of enactment of this Act, the Secretary shall report to the Congress on the determination he is required to make under subsection (b). Within three years after the date of enactment of this Act, the Secretary shall submit reports on any data base or study developed under this section. Any such reports shall be updated and resubmitted to the Congress within eight years after such date of enactment. If the Secretary has determined pursuant to subsection (b) that another study or studies will provide all or part of the information called for in this section, the Secretary shall transmit the results of that study by the dates established in this subsection, together with his comments.

(d) CONSULTATION WITH OTHER AGENCIES.—The Secretary shall consult with the Administrator of the Energy Information Administration and the Chairmen of the Federal Energy Regulatory Commission and the Interstate Commerce Commission in implementing this section.

SEC. 1317. EARLY BANKING OF EMISSIONS CREDITS FOR EFFICIENCY IMPROVEMENTS FROM THE APPLICATION OF CLEAN COAL TECHNOLOGIES.

(a) The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall promulgate regulations within 18 months after the date of enactment of this section to establish baseline emissions of carbon dioxide from existing utility sources that apply clean coal technologies. For purposes of the preceding sentence, baseline emissions for sources subject to title IV of the Act entitled "An Act to amend the Clean Air Act to provide for attainment and maintenance of health protective national ambient air quality standards, and for other purposes.", enacted November 15, 1990 (Public Law 101-549), shall be based on data collected pursuant to section 821 of such Act.

(b) The Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall promulgate regulations within 18 months after the date of enactment of this section to establish methodologies to measure efficiency improvements from the application of clean coal technologies to existing utility sources for the purpose of establishing credit for such improvements. Such regulations shall establish criteria to determine the heat rate of the unit, expressed in mmBtus per kilowatt hour, in the baseline year to be determined by the Administrator. Credits for any given year shall be determined as follows:

(1) If the kilowatt hours generated by the unit applying clean coal technology are greater than or equal to the kilowatt hours generated by the unit before such technologies are applied, credits shall be determined by calculating the tons of carbon dioxide emitted in the baseline year and subtracting from that amount the number determined by multiplying the tons of carbon dioxide emitted in the baseline year and the ratio of the heat rate of the unit after application of clean coal technologies to the heat rate of the unit prior to application of such technologies in the baseline year.

(2) If the kilowatt hours generated by the unit applying clean coal technologies in that

year are less than the kilowatt hours generated in the baseline year, credits shall be determined by multiplying the tons of carbon dioxide emitted by the unit after application of such technologies and the ratio of the heat rate of the unit prior to application of such technologies to the heat rate of the unit after application of such technologies and subtracting from that product the tons of carbon dioxide emitted by the unit in that year.

(c) Following the promulgation of regulations under subsections (a) and (b) any utility source may report to the Secretary baseline emissions and credits, including technology transfer incentive credits, for purposes of establishing credit for such efficiency improvements in any greenhouse gas reduction program enacted after the date of enactment of this Act.

SEC. 1318. METALLURGICAL COAL DEVELOPMENT.

(a) The Secretary shall establish a metallurgical coal utilization program (hereinafter in this section referred to as the "program") as provided under this section for the purpose of developing techniques that will lead to the greater and more efficient utilization of the Nation's metallurgical coal resources.

(b) The program referred to in subsection (a) shall include techniques and demonstration projects to facilitate the use of metallurgical coal—

(1) as a boiler fuel for the purpose of generating steam to produce electricity, including blending metallurgical coal with other coals in order to enhance its efficient application as a boiler fuel;

(2) as an ingredient in the manufacturing of steel; and

(3) as a source of pipeline quality coalbed methane.

(c) The Secretary shall take such actions as necessary to facilitate the transfer of technologies developed under this title to the private sector for commercial application.

(d) There are authorized to be appropriated such sums as are necessary to carry out the purposes of this section.

SEC. 1319. UTILIZATION OF COAL WASTES.

(a) COAL WASTE UTILIZATION PROGRAM.—The Secretary shall establish a coal waste utilization experimental program (hereinafter in this section referred to as the "program") as provided under this section for the purpose of developing techniques that will lead to the greater and more efficient utilization of coal from mining and processing wastes. Nothing in this section relates to coal ash.

(b) USE AS BOILER FUEL.—The program referred to in subsection (a) shall include techniques and demonstration projects to facilitate the use of coal from mining and processing wastes as a boiler fuel for the purpose of generating steam to produce electricity.

(c) GRANTS.—As part of the program authorized by this section the Secretary may award grants, or enter into contracts or cooperative agreements with public and private entities.

(d) TECHNOLOGY TRANSFER.—The Secretary shall take such actions as necessary to facilitate the transfer of technologies developed under this title to the private sector for commercial application.

(e) AUTHORIZATION.—There are authorized to be appropriated such sums as are necessary to carry out the purposes of this section.

TITLE XIV—STRATEGIC PETROLEUM RESERVE

SEC. 1401. FILL OF THE STRATEGIC PETROLEUM RESERVE.

(a) IN GENERAL.—Part B of title I of the Energy Policy and Conservation Act (42 U.S.C. 6231 et seq.) is amended by adding at the end the following new sections:

"FILL OF THE RESERVE BEGINNING MARCH 31, 1993

"SEC. 168. (a)(1) Subject to paragraphs (2) and (3) and subsection (g), the Secretary of Energy shall establish and implement, beginning March 31, 1993, a program for the filling of the Reserve at an average rate of 150,000 barrels of petroleum product per day during the portion of fiscal year 1993 in which this section is in effect and during each fiscal year thereafter in the manner provided in this section until the quantity of crude oil and refined petroleum product (as provided in section 160(g)) in storage within the Reserve is the greater of—

"(A) 1,000,000,000 barrels; or

"(B) the number of barrels equal to the net number of barrels of crude oil and refined petroleum product estimated by the Secretary to be imported into the United States during an average 90-day period during the fiscal year concerned.

"(2) The Secretary shall carry out the provisions of this section, section 169, and section 170 only if, and only in the total amounts, required in appropriation Acts for the purpose of carrying out such sections.

"(3) The amount of the fill rate under paragraph (1) shall be reduced by an amount equal to the amount of petroleum product stored pursuant to contracts under section 171 or obtained other than under this section.

"(b)(1) In establishing and implementing such program, the Secretary shall provide, through regulations and orders (including regulations and orders to minimize administrative and operating costs of the Reserve) issued under this section—

"(A) that each importer (as defined in section 152(2)) shall provide for the storage in the Reserve of an amount of petroleum product equal to a percentage, described in paragraph (2), of the amount of petroleum product—

"(i) which is entered into the United States for consumption, use, or warehousing during any fiscal year, or portion thereof, in which this section is in effect; and

"(ii) which is owned first by such importer at the first place of storage in the United States; and

"(B) that each person who operates a refinery in the United States shall provide for the storage in the Reserve of an amount of petroleum product equal to a percentage, described in paragraph (2), of the amount of the petroleum product received at such refinery during any fiscal year, or portion thereof, in which this section is in effect.

"(2) The percentage referred to in paragraph (1) is a percentage which the Secretary determines periodically to be sufficient, if applied uniformly to all importers described in paragraph (1)(A) and all refinery operators described in paragraph (1)(B), to produce the fill rate for the Reserve required under subsection (a).

"(c) Through regulations and orders issued under this section, the Secretary—

"(1) shall provide a credit toward an importer's requirement under subsection (b) by reducing the amount of petroleum product otherwise described in clauses (i) and (ii) of subsection (b)(1)(A) by the portion thereof which is received at a refinery in the United States, and

"(2) shall provide a credit toward a refinery operator's requirement under subsection (b) by reducing the amount of the petroleum product received at such refinery which would otherwise be taken into account under subsection (b)(1)(B) by the portion thereof which is exported from the United States or which is transferred to another refinery in the United States.

"(d)(1) The Secretary shall, subject to section 160(g) and through regulations and orders issued under this section, provide that the petroleum product required to be stored in the Reserve under this section be limited to crude oil determined to be appropriate by the Secretary.

"(2) The Secretary may, through regulations and orders, make and require arrangements necessary to assure that each importer and refinery operator to whom this section applies provide for the storage in the Reserve of an amount of such crude oil that is equivalent to the amount of petroleum product required to be stored in the Reserve by such importer or operator under this section; except that the Secretary shall require that 12 percent by volume of the petroleum product required to be so stored by each such importer or operator be refined petroleum product.

"(3) Each importer or refinery operator may elect to provide, in lieu of petroleum product, an amount equal to the cash equivalent of the amount of petroleum product required to be stored in the Reserve by such importer or operator under this section. Such amounts shall be deposited in the SPR Fill and Construction Fund established under section 170 and may be obligated and expended by the Secretary only as provided in section 170(b)(1). Title to any petroleum product acquired by the Secretary with a cash payment under this paragraph shall, until transferred, be held by the importer or operator making such payment and may be freely transferred.

"(e)(1) Each importer or refinery operator providing petroleum product as a result of the requirements of this section shall retain title to such petroleum product stored in the Reserve and may freely transfer such title.

"(2) The Secretary may authorize the use of such petroleum product by such importer or refinery operator as collateral in any financial transaction involving such importer or operator.

"(3) Such petroleum product shall not be withdrawn or distributed except as provided in section 161.

"(f)(1) When the petroleum product stored in the Reserve under this section is distributed as a result of a drawdown under section 161, the Secretary shall provide for the payment to each importer or refinery operator described in subsection (b)(1), or such importer's or operator's assignee, of the amount received for the sale of the petroleum product stored in the Reserve as a result of actions taken by such importer or operator.

"(2) In carrying out paragraph (1), the Secretary shall—

"(A) in determining which petroleum product in the Reserve has been stored there under this section, consider the first amount of petroleum product withdrawn from the Reserve (to the extent of the amount of the petroleum product stored in the Reserve under this section) to be the petroleum product stored in the Reserve under this section; and

"(B) provide for the payments to importers and refinery operators to be made on the basis of the order in which such importers and operators provided for the storage of petroleum product in the Reserve.

"(g)(1) For purposes of determining the average rate of barrels per day required to fill the Reserve under subsection (a) for any fiscal year, or portion thereof, the number of days of any drawdown and distribution of the Reserve under section 161 occurring during such fiscal year, or portion thereof in which this section is in effect, shall not be included.

"(2) For purposes of determining the amount of petroleum product that is to be provided for storage in the Reserve by any importer or refinery operator under subsection (b)(1) for any fiscal year, or portion thereof, the amount of petroleum product otherwise taken into account in determining such importer's or operator's requirement under subsection (b) during the period of any drawdown and distribution of the Reserve under section 161 occurring during such fiscal year, or portion thereof in which this section is in effect, shall not be included.

"(3) For purposes of carrying out this subsection, the Secretary shall publish in the Federal Register the beginning and ending dates of any drawdown and distribution of the Reserve under section 161.

"(h) If, at any time during the implementation of the program carried out under this section, there is insufficient storage capacity in the Reserve, the Secretary shall, using amounts appropriated from the Fund established by section 170, lease facilities necessary to provide sufficient storage capacity.

"(i) For the purposes of this section, the term 'refinery' means any facility for processing crude oil or natural gas liquids. If any crude oil or natural gas liquid is used at any place (other than on the premises where produced) before being received at a refinery, such place shall be treated as a refinery for purposes of this section.

"ASSESSMENT AND COLLECTION OF CHARGES

"SEC. 169. (a) The Secretary shall, subject to section 168(a)(2) and through regulations and orders issued under this section, assess and collect charges, beginning in the fiscal year referred to in section 168(a), from each person who has petroleum product stored in the Reserve pursuant to the program established under section 168.

"(b) The amount of the charges assessed for any person with respect to any fiscal year shall be an amount equal to the estimated net present value of the cost (during the 10-year period beginning with the first day of the fiscal year with respect to which the assessment is made) of constructing, leasing (if necessary under section 168(h)), maintaining, and administering facilities necessary for the storage of an amount of petroleum product equal to the amount of petroleum product to be stored in the Reserve during such fiscal year by such person pursuant to the program established under section 168. In making any such estimation, the Secretary shall not take into consideration any storage capacity made available for the Reserve other than under this section.

"(c) The amount of charges received under this section shall be deposited in the Fund established under section 170 and may be obligated and expended by the Secretary only as provided in that section.

"(d) The Secretary shall provide that the charges assessed under this section shall be paid by the end of the fiscal year for which they were assessed.

"SPR FILL AND CONSTRUCTION FUND

"SEC. 170. (a) There is hereby established the SPR Fill and Construction Fund in the Treasury of the United States.

"(b) Subject to section 168(d)(3), amounts received under section 168(d) and section 169 shall be deposited into the Fund established under subsection (a) as offsetting collections (as provided in subsection (c)) and may be obligated and expended, to the extent provided in appropriation Acts, only for—

"(1) the purchase of petroleum product for the purpose of filling the Reserve under section 168 or, to the extent refined petroleum product is added to the Reserve under section 160(g) as a result of section 168, under section 160(g); and

"(2) the construction, lease (if necessary under section 160(g) or section 168(h)), maintenance, and administration of storage facilities of the Reserve.

"(c) Any amount deposited into the Fund shall, to the extent provided in appropriation Acts, be used to offset any amount appropriated for—

"(1) filling the Reserve under section 168 or, to the extent refined petroleum product is added to the Reserve under section 160(g) as a result of section 168, under section 160(g); and

"(2) constructing, leasing (if necessary, under section 160(g) or 168(h)), maintaining, and administering storage facilities for the Reserve.".

(b) CONFORMING AMENDMENTS.—(1) Section 159(f) of the Energy Policy and Conservation Act (42 U.S.C. 6239(f)) is amended—

(A) by striking out "and" at the end of paragraph (4);

(B) by striking out the comma at the end of paragraph (5) and inserting in lieu thereof "; and";

(C) by inserting after paragraph (5) the following:

"(6) sections 168 and 169,";

(D) by striking out "and" at the end of subparagraph (K);

(E) by striking out the period at the end of subparagraph (L) and inserting in lieu thereof "; and"; and

(F) by inserting after subparagraph (L) the following:

"(M) require any person to comply with regulations or orders issued under section 168 or 169.".

(2) Section 160(a) of such Act (42 U.S.C. 6240(a)) is amended by inserting before the period at the end of paragraph (3) the following: ", including petroleum product provided under the program established under section 168".

(3) Section 160(c)(3) of such Act (42 U.S.C. 6240(c)(3)) is amended to read as follows:

"(3) Notwithstanding paragraph (2), beginning in the fiscal year referred to in section 168(a) and continuing until the quantity of crude oil in storage within the Reserve meets the requirements of section 168, the President shall, through the Secretary of Energy's implementation of such section, provide for the fill of the Reserve at the rate required under such section.".

(4) The table of contents of such Act is amended by adding at the end of the items for part B of title I of such Act the following:

"Sec. 168. Fill of the Reserve beginning March 31, 1993.
"Sec. 169. Assessment and collection of charges.
"Sec. 170. SPR Fill and Construction Fund.".

SEC. 1402. FILL OF THE REFINED PETROLEUM PRODUCT RESERVE.

Section 160(g) of the Energy Policy and Conservation Act (42 U.S.C. 6240(g)) is amended to read as follows:

"(g)(1) Beginning with fiscal year 1993 and continuing until the quantity of refined petroleum product in storage under this subsection is 50,000,000 barrels, the Secretary shall provide that 12 percent by volume of the petroleum product added to the Reserve during any fiscal year shall be refined petroleum product stored in a refined petroleum product reserve or reserves located in Petroleum Administration for Defense District 1A or 1B.

"(2) Through regulations and orders issued under this section, the Secretary shall provide that the refined petroleum product required to be stored in the Reserve under this subsection be limited to refined petroleum product determined to be appropriate by the Secretary.

"(3)(A) In carrying out the program established under this subsection, the Secretary may, using amounts in the Fund established under section 170, provide for the acquisition by lease or purchase of storage facilities.

"(B) In carrying out the program established under this subsection, the Secretary may not construct facilities for the storage of refined petroleum products.

"(4) Refined petroleum products stored under this subsection may be withdrawn from the Reserve—

"(A) as may be necessary to turn such products over because of changes in the physical characteristics of the product; or

"(B) on the basis of a finding made under section 161.".

SEC. 1403. ADDITIONAL AUTHORITY FOR DRAWDOWN.

(a) IN GENERAL.—Section 161(d) of the Energy Policy and Conservation Act (42 U.S.C. 6241(d)) is amended by inserting before the period the following: "or unless the President has found that such implementation would assist in relieving severe economic problems directly related to a significant increase in the price of petroleum product".

(b) CONFORMING AMENDMENTS.—(1) Section 159(e) of the Energy Policy and Conservation Act (42 U.S.C. 6239(e)) is amended by inserting before the period the following: "or to assist in relieving severe economic problems directly related to a significant increase in the price of petroleum product".

(2) Section 173(b)(1) of such Act (42 U.S.C. 6249b(b)(1)) is amended by inserting before the period the following: "or to assist in relieving severe economic problems directly related to a significant increase in the price of petroleum product".

SEC. 1404. INSULAR AREAS STUDY.

The Secretary shall undertake a study of the implications of the unique vulnerabilities of the insular areas associated with the United States to an oil supply disruption. The study shall outline how these insular areas shall gain access to vital oil supplies during times of national emergency. Such study shall be completed within 9 months from the date of enactment of this Act and shall be sent to the Congress.

TITLE XV—OCTANE DISPLAY AND DISCLOSURE

SEC. 1501. CERTIFICATION AND POSTING OF AUTOMOTIVE FUEL RATINGS.

(a) COVERAGE OF ALL LIQUID AUTOMOTIVE FUELS.—Section 201(6) of the Petroleum Marketing Practices Act (15 U.S.C. 2821(6)) is amended to read as follows:

"(6) The term 'automotive fuel' means liquid fuel of a type distributed for use as a fuel in any motor vehicle.".

(b) AUTOMOTIVE FUEL RATING.—Section 201 of such Act (15 U.S.C. 2821) is amended by adding at the end the following new paragraphs:

"(17) The term 'automotive fuel rating' means—

"(A) the octane rating of an automotive spark-ignition engine fuel; and

"(B) if provided for by the Federal Trade Commission by rule, the cetane rating of diesel fuel oils; or

"(C) another form of rating determined by the Federal Trade Commission, after consultation with the American Society for Testing and Materials (ASTM), to be more appropriate to carry out the purposes of this title with respect to the automotive fuel concerned.

"(18)(A) The term 'cetane rating' means a measure, as indicated by a cetane index or cetane number, of the ignition quality of diesel fuel oil and of the influence of the diesel fuel oil on combustion roughness.

"(B) The term 'cetane index' and the term 'cetane number' have the meanings determined in accordance with the test methods set forth in the American Society for Testing and Materials standard test methods—

"(i) designated D976 or D4737 in the case of cetane index; and

"(ii) designated D613 in the case of cetane number,

(as in effect on the date of the enactment of this Act) and shall apply to any grade or type of diesel fuel oils defined in the specification of the American Society for Testing and Materials entitled 'Standard Specification for Diesel Fuel Oils' designated D975 (as in effect on such date).".

(c) CONFORMING AMENDMENTS.—(1) Section 201 of such Act (15 U.S.C. 2821) is amended—

(A) in paragraph (1), by striking out "gasoline" and inserting in lieu thereof "fuel";

(B) in paragraph (2)—

(i) by striking out "Standard Specifications for Automotive Gasoline" and inserting in lieu thereof "Standard Specification for Automotive Spark-Ignition Engine Fuel"; and

(ii) by striking out "D 439" and inserting in lieu thereof "D4814";

(C) in paragraph (4)—

(i) by striking out "gasoline" the first place it appears and inserting in lieu thereof "automotive fuel"; and

(ii) by striking out "gasoline" the second place it appears and inserting in lieu thereof "fuel";

(D) by striking out paragraph (5) and inserting in lieu thereof the following:

"(5) The term 'refiner' means any person engaged in the production or importation of automotive fuel.";

(E) in paragraph (11)—

(i) by striking out "octane" each place it appears and inserting in lieu thereof "automotive fuel"; and

(ii) by striking out "gasoline" each place it appears and inserting in lieu thereof "fuel"; and

(F) in paragraph (16), by striking out "gasoline" each place it appears and inserting in lieu thereof "automotive fuel".

(2) Section 202 of such Act (15 U.S.C. 2822) is amended—

(A) by striking out "octane rating" and "octane ratings" each place such terms appear and inserting in lieu thereof "automotive fuel rating" and "automotive fuel ratings", respectively;

(B) in subsections (a) and (b), by striking out "gasoline" each place it appears and inserting in lieu thereof "fuel";

(C) in subsection (c)—

(i) by striking out "gasoline" each place it appears (other than the second place it appears) and inserting in lieu thereof "automotive fuel"; and

(ii) by striking out "gasoline" the second place it appears and inserting in lieu thereof "fuel";

(D) in subsection (d), by striking out "octane" and inserting in lieu thereof "automotive fuel";

(E) in subsection (e)—

(i) by striking out "gasoline" each place it appears and inserting in lieu thereof "fuel"; and

(ii) by striking out "gasoline's" and inserting in lieu thereof "fuel's";

(F) in subsections (f), (g), and (h), by striking out "gasoline" each place it appears and inserting in lieu thereof "fuel";

(G) in subsection (h), by striking out "octane requirement" each place it appears and inserting in lieu thereof "automotive fuel requirement"; and

(H) in the section heading, by striking out "OCTANE" and inserting in lieu thereof "AUTOMOTIVE FUEL RATING".

(3) Section 203 of such Act (15 U.S.C. 2823) is amended—

(A) by striking out "octane rating" and "octane ratings" each place such terms appear and inserting in lieu thereof "automotive fuel rating" and "automotive fuel ratings", respectively;

(B) in subsections (b) and (c), by striking out "gasoline" each place it appears and inserting in lieu thereof "fuel"; and

(C) in subsection (c)(3), by striking out "201(1)" and inserting in lieu thereof "201".

(e) EFFECTIVE DATE.—(1) The amendments made by this section shall become effective at the end of the one-year period beginning on the date of the enactment of this Act.

(2) The Federal Trade Commission shall, within 270 days after the date of the enactment of this Act, prescribe rules for the purpose of implementing the amendments made in this section.

SEC. 1502. INCREASED AUTHORITY FOR ENFORCEMENT.

(a) STATE LAW.—Section 204 of the Petroleum Marketing Practices Act (15 U.S.C. 2824) is amended to read as follows:

"RELATIONSHIP OF THIS TITLE TO STATE LAW

"SEC. 204. (a) To the extent that any provision of this title applies to any act or omission, no State or any political subdivision thereof may adopt or continue in effect, except as provided in subsection (b), any provision of law or regulation with respect to such act or omission, unless such provision of such law or regulation is the same as the applicable provision of this title.

"(b) A State or political subdivision thereof may provide for any investigative or enforcement action, remedy, or penalty (including procedural actions necessary to carry out such investigative or enforcement actions, remedies, or penalties) with respect to any provision of law or regulation permitted by subsection (a).".

(b) FTC ENFORCEMENT.—Section 203(e) of such Act is amended by striking out "; except that" in the second sentence and all that follows through the period and inserting in lieu thereof a period.

(c) EPA ENFORCEMENT.—Section 203(b)(1) of such Act is amended—

(1) in the matter preceding subparagraph (A), by striking out "shall";

(2) in subparagraph (A), by striking out "conduct" and inserting in lieu thereof "may conduct";

(3) in subparagraph (B), by striking out "certify" and inserting in lieu thereof "shall certify";

(4) in subparagraph (C), by striking out "notify" and inserting in lieu thereof "shall notify"; and

(5) in subparagraph (C), by striking out "discovered" and all that follows through "testing".

SEC. 1503. STUDIES.

(a) IN GENERAL.—For the purpose of making the findings, conclusions, and recommendations referred to in subsection (c)—

(1) the Administrator of the Environmental Protection Agency, in consultation with the Secretary of Energy, shall carry out a study to determine whether, and if so, how, the anti-knock characteristics of nonliquid fuels usable as a fuel for a motor vehicle (as defined in section 201(7) of the Petroleum Marketing Practices Act) can be determined; and

(2) the Federal Trade Commission, in consultation with the Administrator of the Environmental Protection Agency, shall carry out a study—

(A) to determine the need for, and the desirability of, having a uniform national label on devices used to dispense automotive fuel to consumers that would consolidate information required by Federal law to be posted on such devices; and

(B) to determine the nature of such label if it is determined under subparagraph (A) that such a need exists.

(b) IMPLEMENTATION.—(1) In carrying out studies under this section, each agency shall—

(A) publish general notice of each of the studies in the Federal Register; and

(B) give interested parties an opportunity to participate in such studies through submission of written data, views, or arguments.

(2) In carrying out the study to determine the nature of a uniform national label under subsection (a)(2)(B), the Federal Trade Commission shall—

(A) weigh the consumer, environmental, and energy saving benefits of any element of such label against the necessity for a concise, practical, and cost-efficient label; and

(B) consider as a possible element of such label a statement suggesting consumers check the vehicle's owner's manual regarding octane requirements.

(c) REPORTS.—The Administrator of the Environmental Protection Agency, the Secretary of Energy, and the Chairman of the Federal Trade Commission shall transmit to the Congress, within one year after the date of the enactment of this Act, the findings, conclusions, and recommendations made as a result of the studies carried out by such officers under this section, together with a description of the administrative and legislative actions needed to implement such recommendations.

TITLE XVI—GREENHOUSE WARMING—ENERGY IMPLICATIONS

SEC. 1601. INTERAGENCY COORDINATING COUNCIL.

Within 90 days after the date of enactment of this Act, the President shall establish an Interagency Coordinating Council, whose function shall be to coordinate the implementation of this title. Such Council shall be composed of the Secretary of Energy, the Administrator of the Environmental Protection Agency, the Secretary of Commerce, the Secretary of State, the Secretary of the Interior, and representatives of other appropriate Federal agencies.

SEC. 1602. REPORT ON NATIONAL ACADEMY OF SCIENCES RECOMMENDATIONS.

Within 1 year after the date of enactment of this Act, the President shall transmit a report to Congress that includes—

(1) an analysis of the 19 recommendations made in chapter 9 of the 1991 National Academy of Sciences report entitled "Policy Implications of Greenhouse Warming", including an analysis of the social costs and benefits of each such recommendation; and

(2) an assessment of the extent to which the United States is responding, compared with other nations, to such recommendations.

SEC. 1603. ENERGY INVENTORY AND FORECASTS.

(a) INVENTORY.—Within 1 year after the date of enactment of this Act, the Secretary of Energy (hereafter in this title referred to as the "Secretary") shall take inventory of opportunities to expand energy production and to improve the efficiency of energy production, distribution, and use for all fossil, renewable, nuclear, and efficiency options that the Secretary projects will be reliable and commercially available over the next 3 decades. Such inventory shall include—

(1) estimates of both annual and lifecycle costs, including reasonably foreseeable costs of environmental compliance;

(2) energy contributions at various cost thresholds; and

(3) supply and demand side options.

The Secretary shall update such inventory periodically as necessary.

(b) FORECAST ASSUMPTIONS.—In developing forecast assumptions for purposes of this section, the Secretary shall apply consistent standards with respect to—

(1) the specified maturity of the technology;

(2) consideration of market barriers; and

(3) expectations regarding costs over time.

(c) LIFECYCLE COSTS FOR EXISTING FACILITIES.—Estimates of lifecycle costs for existing facilities for purposes of this section shall not include investments already made, shall be based on remaining useful lifetimes, and shall provide for opportunities for plant upgrades and modernizations. All data shall be regularly updated and reviewed.

(d) BASECASE FORECASTS.—Within 1 year after the date of enactment of this Act, the Secretary shall develop basecase forecasts of national energy needs under low and high case assumptions of economic growth that bound the range of plausible outcomes. Such forecasts shall be made for both the short run (5 to 10 years) and the long run (20 to 30 years). Externalities shall not be included in the basecase analysis. Once the basecase forecasts have been constructed and tested, a reasonable representation of demand side efficiency improvements shall be incorporated to reflect growth and the replacement of aging facilities with more modern technologies.

(e) BASECASE COMPARISONS.—Within 1 year after the date of enactment of this Act, the Secretary shall compare alternative scenarios to the basecase developed under subsection (d), including the following:

(1) COST-MINIMIZING SCENARIO, LOW CASE.—Meets United States energy needs under the low forecast at the lowest lifecycle dollar cost.

(2) COST-MINIMIZING SCENARIO, HIGH CASE.—Meets United States energy needs under the high forecast at the lowest lifecycle dollar cost.

(3) COST-MINIMIZING LOW GREENHOUSE GAS EMISSIONS SCENARIO, LOW CASE.—Meets United States energy needs under the low forecast and also meets reduction goals for greenhouse gas emissions at the lowest lifecycle dollar cost.

(4) COST-MINIMIZING LOW GREENHOUSE GAS EMISSIONS SCENARIO, HIGH CASE.—Meets United States energy needs under the high forecast and also meets reduction goals for greenhouse gas emissions at the lowest lifecycle dollar cost.

The Secretary shall update comparisons under this subsection periodically as necessary.

(f) INVENTORY OF UNDEVELOPED OPPORTUNITIES.—Within 1 year after the date of enactment of this Act, the Secretary shall take inventory of United States undeveloped opportunities to expand energy production and to improve the efficiency of energy distribution and use. The Secretary shall update such inventory periodically as necessary.

(g) PUBLIC REVIEW AND COMMENT.—Not later than 90 days before the issuance of an initial inventory forecast, or comparison under this section, the Secretary shall publish a proposed inventory, forecast, or comparison and provide for public review and comment for a period of at least 30 days. The Secretary shall also provide for public review and comment before the issuance of any update to an inventory, forecast, or comparison under this section.

SEC. 1604. ASSESSMENT OF ALTERNATIVE POLICY MECHANISMS FOR ADDRESSING GREENHOUSE GAS EMISSIONS.

Within 1 year after the date of enactment of this Act, the President shall transmit a report to the Congress containing a comparative assessment of alternative policy mechanisms for reducing greenhouse gas emissions. Such assessment shall, at a minimum, include an analysis, for both the short run (5 to 10 years) and the long run (20 to 30 years) of the social, economic, energy, environmental, and agricultural costs and benefits, and the practicality, of each of the following approaches:

(1) Various systems of emission caps, including caps for all greenhouse gases and all sources of greenhouse gases as well as caps for only carbon dioxide emissions from new major sources.

(2) Federal efficiency or greenhouse gas emission standards, including power plant efficiency standards, industrial process efficiency standards, automobile fuel economy standards, appliance efficiency standards, national building standards, and methane emission standards.

(3) Emissions trading, including—

(A) trading for all greenhouse gases and all greenhouse gas sources;

(B) trading only for specified source categories; and

(C) trading only for carbon dioxide emissions.

SEC. 1605. VOLUNTARY REDUCTIONS OF GREENHOUSE GASES.

(a) ESTABLISHMENT OF SYSTEM.—Within 18 months after the date of enactment of this Act, the Secretary, in consultation with the Interagency Coordinating Council established under section 1601, shall establish by rule a national accounting system for voluntary reductions of greenhouse gases. Such rule shall include—

(1) baseline greenhouse gas emission estimates, calculated, except as provided in subsection (d), as an annual average over the period of 1986 through 1990;

(2) opportunities for entities to receive official certification of net greenhouse gas emission reductions relative to the baseline for purposes of receiving credit against any future Federal requirements that may apply to greenhouse gas emissions;

(3) the establishment of equivalency measures for reductions applicable to different greenhouse gases, taking into account differential radiative activity and atmospheric lifetimes, or applicable to different time periods;

(4) accounting of any net reductions in greenhouse gas emissions achieved in other countries by United States entities;

(5) provisions to ensure that no emissions reduction be credited more than once;

(6) provisions to ensure that an entity's baseline includes all greenhouse gas emissions from all sources under the control of such entity;

(7) annual certification, only after the greenhouse gas reduction or the greenhouse gas fixation has occurred;

(8) provisions that ensure that reductions of greenhouse gas emissions which are specifically required under this title, or any other Federal law in effect as of the date of enactment of this Act, shall not be certified;

(9) provisions which permit a person to file with the Secretary for verification such documentation as the Secretary considers appropriate for the certification of greenhouse gas emission reductions generated by such person;

(10) a requirement for a report to be published by the Secretary annually describing the amount of greenhouse gas emission reductions certified in each calendar year; and

(11) authorization and guidelines for a State agency to certify greenhouse gas emission reductions if the person providing such reductions establishes to the satisfaction of such State agency that such reductions comply with the requirements of this section, with the Secretary having, for a 90-day period following the receipt of such certification, the authority to review such State certification prior to registration in the National Greenhouse Gas Reduction Registry established under subsection (f).

(b) VOLUNTARY REDUCTIONS TO RECEIVE CREDIT.—At a minimum, the rule issued under subsection (a) shall provide for the certification of voluntary greenhouse gas emission reductions, relative to the baseline, through—

(1) fuel-switching to fuels which produce less greenhouse gas emissions from major sources;

(2) carbon fixation through planting new forests, improving forest management practices, preserving old growth forests, or planting other vegetation, but not for cutting and replanting old growth forests;

(3) the manufacture of vehicles with reduced greenhouse gas emissions, based on the statistically expected lifetime and use of the vehicles sold;

(4) the manufacture of appliances with improved efficiency, based on the statistically expected lifetime and use of the applicances sold;

(5) energy conservation measures, other than those which are exclusively information or educational in nature, and other than applicance efficiency improvements certified under paragraph (4);

(6) methane recovery from municipal landfills, wastewater treatment facilities, and sewage sludge facilities;

(7) greenhouse gas emission reductions attributable solely to the construction or operation of cogeneration facilities that replace existing industrial boilers or other thermal power produced by cogeneration;

(8) the manufacture of dedicated alternative fueled vehicles which only use fuels which, on a life cycle basis, produce fewer greenhouse gas emissions than gasoline;

(9) greenhouse gas emission reductions attributable solely to powerplant heat rate improvements through the repowering or replacement of an existing powerplant;

(10) greenhouse gas emission reductions attributable solely to replacement of specific, identifiable, existing utility sources with renewable energy sources, under the meaning of title VII of this Act;

(11) the capture and destruction of chlorofluorocarbons in the United States and other nations; and

(12) such other actions and methods as the Secretary determines would result in net greenhouse gas emission reductions.

(c) FUEL-SWITCHING RULES.—For purposes of applying subsection (b)(1), the rule issued under subsection (a) shall establish procedures for calculating fuel use, in mmBtus, and the number of pounds of greenhouse gases emitted per mmBtu for the fuel or, in the case of a mix of fuels, the weighted average amount of greenhouse gases emitted per mmBtu. For purposes of determining the amount of greenhouse gases emitted per mmBtu for each fuel or mix of fuels, such rule shall take into account the application of technological controls which reduce the amount of greenhouse gases emitted from the combustion of such fuels. Greenhouse gas emission reductions may be certified under this section only for reductions measured by—

(1) calculating the difference between the number of pounds of greenhouse gases per mmBtu of the fuel or, in the case of a mix of fuels, the weighted average of the greenhouse gases amount of per mmBtu, in the baseline period and in the year in which the switch occurs; and

(2) multiplying the amount calculated under paragraph (1) by the total number of mmBtus consumed by the source in the year in which the switch occurs.

(d) BASE PERIOD.—For purposes of certifications under subsection (b)(2), the base period for calculations shall be the 30-year period immediately preceding the date of enactment of this Act.

(e) SEPARATE CERTIFICATION RULES.—The rule issued under subsection (a) shall separately provide for certification rules with respect to each of the 4 types of carbon fixation referred to in subsection (b)(2).

(f) NATIONAL GREENHOUSE GAS REDUCTION REGISTRY.—The rule issued under subsection (a) shall create a National Greenhouse Reduction Registry for the purpose of tracking greenhouse gas emission reductions. At a minimum, such rule shall require the identification of persons who have obtained certification of greenhouse gas emission reductions under this section, their addresses, amounts reduced and the source of the greenhouse gas emission reductions.

SEC. 1606. INTERNATIONAL ENERGY TECHNOLOGY TRANSFER.

(a) IN GENERAL.—The Secretary of Commerce, in cooperation with the Secretary and with other appropriate Federal agencies, shall facilitate and expand exports of domestic energy technologies which could substantially reduce greenhouse gases and other environmental pollutants, and increase energy efficiency in other countries.

(b) DUTIES.—The Secretary of Commerce, in cooperation with the Secretary and with other appropriate Federal agencies, shall—

(1) coordinate the establishment, within existing Federal departments and agencies, of technical and financial assistance programs, including grants, loan guarantees, no interest and low interest loans, and cooperative agreements, to support the reduction of greenhouse gases through exports of domestic energy technology;

(2) coordinate, using the National Trade Data Bank and Commercial Information Management System, the development of a comprehensive interagency data base and information dissemination system with respect to the availability, efficacy, and cost effectiveness of energy technologies to substantially reduce greenhouse gases; and

(3) report to the House of Representatives and the Senate and to appropriate committees of each House annually on actions taken to implement this section.

(d) FEDERAL PROGRAM.—(1) The Secretary, through the Agency for International Development, shall establish a program to support the reduction of greenhouse gases through the export of domestic energy technology. The Secretary and the Administrator of the Agency for International Development shall enter into a formal agreement to carry out this program.

(2) In order to carry out this section, the Administrator of the Agency for International Development, pursuant to the agreement under paragraph (1), and after consultation with the Trade and Development Program, and, where appropriate, in consultation with the Export-Import Bank of the United States, shall—

(A) support projects, in developing countries and in countries making the transition from nonmarket to market economies, which provide energy, in a cost-effective and environmentally acceptable manner, using technology which reduces greenhouse gases;

(B) select projects for purposes of this section only if such projects use United States technology and, where appropriate, coal resources of the United States;

(C) determine whether each project selected under this section is developmentally sound, as determined under the criteria developed by the Development Assistance Committee of the Organization for Economic Cooperation and Development;

(D) coordinate the activities of all offices within the Agency for International Development, and work with the Agency's country missions, in developing projects for purposes of this section that provide opportunities for United States firms consistent with the Agency's primary mission to help these countries with traditional development projects;

(E) select a project only if the energy technology to which the project applies is the most cost effective technological alternative, or equal to the most cost effective alternative, on the basis of life cycle cost per unit of energy produced, for substantially reducing greenhouse gases and other environmental pollutants, and increasing energy efficiency, in the country to which the energy technology is proposed to be transferred;

(F) select a project only if appropriate accounting and project management controls will be adequate to—

(i) control the costs of the project;

(ii) ensure a high probability of success; and

(iii) ensure compliance with this section;

(G) select a project only if the project would result in a significant reduction in greenhouse gases compared to the greenhouse gases that would otherwise have been produced;

(H) in selecting projects, consider the degree to which the United States firm has proposed to provide a portion of the cost of the project.

(2) Within six months of the date of enactment of this Act and annually thereafter, the Secretary of Energy, in consultation with the Administrator of Agency for International Development, will prepare a list of eligible technologies under this subsection. In preparing such list, the Secretary shall consider fuel cell powerplants, aeroderivative gas turbines and catalytic combustion technologies for aeroderivative gas turbines; ocean thermal energy conversion technology, or anaerobic digester and storage tanks, and other technologies.

(3) The Secretary, through the Agency for International Development, and consistent with the Agency for International Development procurement guidelines, shall ensure—

(A) that the maximum percentage of the cost of any equipment furnished in connection with a project authorized under this section shall be attributable to the United States manufactured components of such equipment; and

(B) the maximum participation of United States firms.

(4) There are authorized to be appropriated to the Secretary, through the Agency for International Development, for carrying out this subsection $50,000,000 for each of the fiscal years 1993, 1994, 1995, 1996, 1997, and 1998.

SEC. 1607. GLOBAL CLIMATE CHANGE RESPONSE FUND.

(a) ESTABLISHMENT OF THE FUND.—The Secretary of the Treasury shall establish a fund in the United States Treasury known as a "Global Climate Change Response Fund" which shall act as a mechanism for United States contributions to assist global efforts in adapting and responding to climate change.

(b) DEPOSITS TO THE FUND.—(1) Subject to paragraph (2), the Secretary of the Interior shall deposit 10 percent of all royalties received under the Outer Continental Shelf Lands Act into the Global Climate Change Response Fund. Nothing in this paragraph shall reduce any amounts required to be credited to the Land and Water Conservation Fund, pursuant to the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 460l-4 through 460l-11), to the Historic Preservation Fund, pursuant to the Historic Preservation Act (16 U.S.C. 470h), or distributed to coastal States under section 8(g)(2) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)(2)).

(2) No deposits to the Global Climate Change Response Fund shall be made until—

(A) the United States has signed the Framework Convention on Climate Change; and

(B) the United States has ratified that Convention.

(c) USE OF THE FUND.—Moneys deposited into the Fund shall be used, to the extent provided in appropriations Acts, by the President only to make contributions to any agreed-upon financial mechanism pursuant to the United Nations Framework Convention on Climate Change, including any protocol or agreement related thereto.

(d) TERMINATION.—This section shall cease to apply on September 30, 2003.

TITLE XVII—ADDITIONAL FEDERAL POWER ACT AMENDMENTS

SEC. 1701. ADDITIONAL FEDERAL POWER ACT AMENDMENTS.

(a) ANNUAL CHARGES FOR COSTS.—(1) Section 10(e)(1) of the Federal Power Act is amended by striking the semicolon after "Part" and inserting the following: ", including any reasonable costs incurred by fish and wildlife agencies and other natural and cultural resource agencies in connection with studies or other reviews carried out by such agencies for purposes of administering their responsibilities under this part;".

(2) Section 10(e)(1) is further amended by inserting after "as conditions may require:" the following proviso: "*Provided*, That, subject to annual appropriations Acts, the portion of such annual charges imposed by the Commission under this subsection to cover the reasonable costs of such agencies shall be available to such agencies (in addition to other funds appropriated for such purposes) solely for carrying out such studies and reviews and shall remain available until expended:".

(b) Clarification of Authority Regarding Fishways.—Section 18 of the Federal Power Act is amended by adding the following after the first sentence thereof: "The term 'fishway' as defined by regulation by the Commission under this section shall not be construed to limit in any way the authority of the Secretary of Commerce or the Secretary of the Interior under this section to continue to prescribe fish passage downstream and upstream and the scope thereof for any migratory or nonmigratory fish. Within 1 year after the enactment of this sentence, the Commission shall, in administering this section, review the regulatory definition of fishway and, in consultation with such Secretaries, revise such definiton to assure that no such limitation exists."

(c) Extension of Deadline.—Notwithstanding the time limitations of section 13 of the Federal Power Act, the Federal Energy Regulatory Commission, upon the request of the licensee for FERC Project No. 4031 (and after reasonable notice), is authorized, in accordance with the good faith, due diligence, and public interest requirements of such section 13 and the Commission's procedures under such section, to extend the time required for commencement of construction of such project for up to a maximum of 3 consecutive 2-year periods. This section shall take effect for such project upon the expiration of the extension (issued by the Commission under such section 13) of the period required for commencement of construction of such project.

(d) Extension of Deadline.—Notwithstanding the time limitations of section 13 of the Federal Power Act, the Federal Energy Regulatory Commission, upon the request of the licensee for FERC Project No. 6221 (and after reasonable notice), is authorized, in accordance with the good faith, due diligence, and public interest requirements of such section 13 and the Commission's procedures under such section, to extend the time required for commencement of construction of such project until July 29, 1995.

TITLE XVIII—OIL PIPELINE REGULATORY REFORM

SEC. 1801. OIL PIPELINE RATEMAKING METHODOLOGY.

(a) Establishment.—Not later than 1 year after the date of the enactment of this Act, the Federal Energy Regulatory Commission shall issue a final rule which establishes a simplified and generally applicable ratemaking methodology for oil pipelines in accordance with section 1(5) of part I of the Interstate Commerce Act.

(b) Effective Date.—The final rule to be issued under subsection (a) may not take effect before the 365th day following the date of the issuance of the rule.

SEC. 1802. STREAMLINING OF COMMISSION PROCEDURES.

(a) Rulemaking.—Not later than 18 months after the date of the enactment of this Act, the Commission shall issue a final rule to streamline procedures of the Commission relating to oil pipeline rates in order to avoid unnecessary regulatory costs and delays.

(b) Scope of Rulemaking.—Issues to be considered in the rulemaking preceding to be conducted under subsection (a) shall include the following:

(1) Identification of information to be filed with an oil pipeline tariff and the availability to the public of any analysis of such tariff filing performed by the Commission or its staff.

(2) Qualification for standing (including definitions of economic interest) of parties who protest oil pipeline tariff filings or file complaints thereto.

(3) The level of specificity required for a protest or complaint and guidelines for Commission action on the portion of the tariff or rate filing subject to protest or complaint.

(4) An opportunity for the oil pipeline to file a response for the record to an initial protest or complaint.

(5) Identification of specific circumstances under which Commission staff may initiate a protest.

(c) Additional Procedural Changes.—In conducting the rulemaking proceeding to carry out subsection (a), the Commission shall identify and transmit to Congress any other procedural changes relating to oil pipeline rates which the Commission determines are necessary to avoid unnecessary regulatory costs and delays and for which additional legislative authority may be necessary.

(d) Withdrawal of Tariffs and Complaints.—

(1) Withdrawal of tariffs.—If an oil pipeline tariff which is filed under part I of the Interstate Commerce Act and which is subject to investigation is withdrawn—

(A) any proceeding with respect to such tariff shall be terminated;

(B) the previous tariff rate shall be reinstated; and

(C) any amounts collected under the withdrawn tariff rate which are in excess of the previous tariff rate shall be refunded.

(2) Withdrawal of complaints.—If a complaint which is filed under section 13 of the Interstate Commerce Act with respect to an oil pipeline tariff is withdrawn, any proceeding with respect to such tariff shall be terminated.

(e) Alternative Dispute Resolution.—To the maximum extent practicable, the Commission shall establish appropriate alternative dispute resolution procedures, including required negotiations and voluntary arbitration, early in an oil pipeline rate proceeding as a preferred method to adjudication in resolving disputes relating to the rate. Any proposed rates derived from implementation of such procedures shall be considered by the Commission on an expedited basis for approval.

SEC. 1803. PROTECTION OF CERTAIN EXISTING RATES.

(a) Rates Deemed Just and Reasonable.—Except as provided in subsection (b)—

(1) any rate in effect for the 365-day period ending on the date of the enactment of this Act shall be deemed to be just and reasonable (within the meaning of section 1(5) of the Interstate Commerce Act); and

(2) any rate in effect on the 365th day preceding the date of such enactment shall be deemed to be just and reasonable (within the meaning of such section 1(5)) regardless of whether or not, with respect to such rate, a new rate has been filed with the Commission during such 365-day period;

if the rate so in effect has not been subject to protest, investigation, or complaint during such 365-day period.

(b) Changed Circumstances.—No person may file a complaint under section 13 of the Interstate Commerce Act against a rate deemed to be just and reasonable under subsection (a) unless evidence is presented to the Commission which establishes that a substantial change has occurred after the date of the enactment of this Act—

(1) in the economic circumstances of the oil pipeline which were a basis for the rate; or

(2) in the nature of the services provided which were a basis for the rate.

If the Commission determines pursuant to a proceeding instituted as a result of such complaint that the rate is not just and reasonable, the rate shall not be deemed to be just and reasonable. Any tariff reduction or refunds that may result as an outcome of such a complaint shall be prospective from the date of the filing of the complaint.

(c) Limitation Regarding Unduly Discriminatory or Preferential Tariffs.—Nothing in this section shall prohibit any aggrieved person from filing a complaint under section 13 or section 15(1) of the Interstate Commerce Act challenging any tariff provision as unduly discriminatory or unduly preferential.

SEC. 1804. DEFINITIONS.

For the purposes of this title, the following definitions apply:

(1) Commission.—The term "Commission" means the Federal Energy Regulatory Commission and, unless the context requires otherwise, includes the Oil Pipeline Board and any other office or component of the Commission to which the functions and authority vested in the Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)) are delegated.

(2) Oil pipeline.—

(A) In general.—Except as provided in subparagraph (B), the term "oil pipeline" means any common carrier (within the meaning of the Interstate Commerce Act) which transports oil by pipeline subject to the functions and authority vested in the Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)).

(B) Exception.—The term "oil pipeline" does not include the Trans-Alaska Pipeline authorized by the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651 et seq.) or any pipeline delivering oil directly or indirectly to the Trans-Alaska Pipeline.

(3) Oil.—The term "oil" has the same meaning as is given such term for purposes of the transfer of functions from the Interstate Commerce Commission to the Federal Energy Regulatory Commission under section 402(b) of the Department of Energy Organization Act (42 U.S.C. 7172(b)).

(4) Rate.—The term "rate" means all charges that an oil pipeline requires shippers to pay for transportation services.

TITLE XIX—REVENUE PROVISIONS

SEC. 1901. AMENDMENT OF 1986 CODE.

Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Energy Conservation and Production Incentives

SEC. 1911. TREATMENT OF EMPLOYER-PROVIDED TRANSPORTATION BENEFITS.

(a) Exclusion.—Subsection (a) of section 132 (relating to exclusion of certain fringe benefits) is amended by striking "or" at the end of paragraph (3), by striking the period at the end of paragraph (4) and inserting ", or", and by adding at the end thereof the following new paragraph:

"(5) qualified transportation fringe."

(b) Qualified Transportation Fringe.—Section 132 is amended by redesignating subsections (f), (g), (h), (i), (j), and (k) as subsections (g), (h), (i), (j), (k), and (l), respectively, and by inserting after subsection (e) the following new subsection:

"(f) Qualified Transportation Fringe.—

"(1) In general.—For purposes of this section, the term 'qualified transportation fringe' means any of the following provided by an employer to an employee:

"(A) Transportation in a commuter highway vehicle if such transportation is in connection with travel between the employee's residence and place of employment.

"(B) Any transit pass.

"(C) Qualified parking.

"(2) LIMITATION ON EXCLUSION.—The amount of the fringe benefits which are provided by an employer to any employee and which may be excluded from gross income under subsection (a)(5) shall not exceed—

"(A) $60 per month in the case of the aggregate of the benefits described in subparagraphs (A) and (B) of paragraph (1), and

"(B) $160 per month in the case of qualified parking.

"(3) BENEFIT NOT IN LIEU OF COMPENSATION.—Subsection (a)(5) shall not apply to any qualified transportation fringe unless such benefit is provided in addition to (and not in lieu of) any compensation otherwise payable to the employee.

"(4) DEFINITIONS.—For purposes of this subsection—

"(A) TRANSIT PASS.—The term 'transit pass' means any pass, token, farecard, voucher, or similar item entitling a person to transportation (or transportation at a reduced price) if such transportation is—

"(i) on mass transit facilities (whether or not publicly owned), or

"(ii) provided by any person in the business of transporting persons for compensation or hire if such transportation is provided in a vehicle meeting the requirements of subparagraph (B)(i).

"(B) COMMUTER HIGHWAY VEHICLE.—The term 'commuter highway vehicle' means any highway vehicle—

"(i) the seating capacity of which is at least 6 adults (not including the driver), and

"(ii) at least 80 percent of the mileage use of which can reasonably be expected to be—

"(I) for purposes of transporting employees in connection with travel between their residences and their place of employment, and

"(II) on trips during which the number of employees transported for such purposes is at least ½ of the adult seating capacity of such vehicle (not including the driver).

"(C) QUALIFIED PARKING.—The term 'qualified parking' means parking provided to an employee on or near the business premises of the employer or on or near a location from which the employee commutes to work by transportation described in subparagraph (A), in a commuter highway vehicle, or by carpool. Such term shall not include any parking on or near property used by the employee for residential purposes.

"(D) TRANSPORTATION PROVIDED BY EMPLOYER.—Transportation referred to in paragraph (1)(A) shall be considered to be provided by an employer if such transportation is furnished in a commuter highway vehicle operated by or for the employer.

"(E) EMPLOYEE.—For purposes of this subsection, the term 'employee' does not include an individual who is an employee within the meaning of section 401(c)(1).

"(5) INFLATION ADJUSTMENT.—In the case of any taxable year beginning in a calendar year after 1993, the dollar amounts contained in paragraph (2)(A) and (B) shall be increased by an amount equal to—

"(A) such dollar amount, multiplied by

"(B) the cost-of-living adjustment determined under section 1(f)(3) for the calendar year in which the taxable year begins, determined by substituting 'calendar year 1992' for 'calendar year 1989' in subparagraph (B) thereof.

If any increase determined under the preceding sentence is not a multiple of $1, such increase shall be rounded to the next lowest multiple of $1.

"(6) COORDINATION WITH OTHER PROVISIONS.—For purposes of this section, the terms 'working condition fringe' and 'de minimis fringe' shall not include any qualified transportation fringe (determined without regard to paragraph (2))."

(c) CONFORMING AMENDMENT.—Subsection (i) of section 132 (as redesignated by subsection (b)) is amended by striking paragraph (4) and redesignating the following paragraphs accordingly.

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to benefits provided after December 31, 1992.

SEC. 1912. EXCLUSION OF ENERGY CONSERVATION SUBSIDIES PROVIDED BY REGULATED PUBLIC UTILITIES.

(a) GENERAL RULE.—Part III of subchapter B of chapter 1 (relating to amounts specifically excluded from gross income) is amended by redesignating section 136 as section 137 and by inserting after section 135 the following new section:

"SEC. 136. ENERGY CONSERVATION SUBSIDIES PROVIDED BY REGULATED PUBLIC UTILITIES.

"(a) EXCLUSION.—

"(1) IN GENERAL.—Gross income shall not include the value of any subsidy provided by a regulated public utility to a customer for the purchase or installation of any energy conservation measure.

"(2) LIMITATION ON EXCLUSION FOR NONRESIDENTIAL PROPERTY.—In the case of any subsidy provided with respect to any energy conservation measure referred to in subsection (c)(1)(C), only 65 percent of such subsidy shall be excluded from gross income under paragraph (1).

"(b) DENIAL OF DOUBLE BENEFIT.—Notwithstanding any other provision of this subtitle, no deduction or credit shall be allowed for, or by reason of, any expenditure to the extent of the amount excluded under subsection (a) for any subsidy which was provided with respect to such expenditure. The adjusted basis of any property shall be reduced by the amount excluded under subsection (a) which was provided with respect to such property.

"(c) ENERGY CONSERVATION MEASURE.—

"(1) IN GENERAL.—For purposes of this section, the term 'energy conservation measure' means—

"(A) any residential energy conservation measure with respect to a dwelling unit,

"(B) any commercial energy conservation measure with respect to dwelling units in a building containing 5 or more dwelling units, and

"(C) in the case of subsidies provided on or after January 1, 1994—

"(i) any commercial energy conservation measure with respect to property other than dwelling units, and

"(ii) any specially defined energy property.

"(2) OTHER DEFINITIONS.—For purposes of this subsection—

"(A) RESIDENTIAL ENERGY CONSERVATION MEASURE.—The term 'residential energy conservation measure' has the meaning given to such term by section 210(11) of the National Energy Conservation Policy Act (as in effect on the date of the enactment of this section).

"(B) COMMERCIAL ENERGY CONSERVATION MEASURE.—The term 'commercial energy conservation measure' means any installation or modification primarily designed to reduce the consumption of petroleum, natural gas, or electricity. Such term includes the items referred to in any subparagraph of section 710(b)(5) of the National Energy Conservation Policy Act (as in effect on the day before the date of the enactment of the Conservation Service Reform Act of 1986).

"(C) SPECIALLY DEFINED ENERGY PROPERTY.—The term 'specially defined energy property' has the meaning given to such term by section 48(l)(5) of this title (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

"(D) DWELLING UNIT.—The term 'dwelling unit' has the meaning given such term by section 280A(f)(1).

"(d) EXCEPTION.—This section shall not apply to any payment to or from a qualified cogeneration facility or qualifying small power production facility pursuant to section 210 of the Public Utility Regulatory Policy Act of 1978."

(b) CLERICAL AMENDMENT.—The table of sections for part III of subchapter B of chapter 1 is amended by striking the item relating to section 136 and inserting:

"Sec. 136. Energy conservation subsidies provided by regulated public utilities.
"Sec. 137. Cross reference to other Acts."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts received after December 31, 1992.

SEC. 1913. DEDUCTIONS RELATING TO CLEAN-FUEL VEHICLES.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by adding after section 179 the following new section:

"SEC. 179A. DEDUCTION FOR CLEAN-FUEL VEHICLES AND CERTAIN REFUELING PROPERTY.

"(a) GENERAL RULE.—There shall be allowed as a deduction an amount equal to the cost of—

"(1) any qualified clean-fuel vehicle property, and

"(2) any qualified clean-fuel vehicle refueling property.

The deduction under the preceding sentence with respect to any property shall be allowed for the taxable year in which such property is placed in service.

"(b) LIMITATIONS.—

"(1) QUALIFIED CLEAN-FUEL VEHICLE PROPERTY.—

"(A) IN GENERAL.—The cost which may be taken into account under subsection (a) with respect to any motor vehicle shall not exceed—

"(i) in the case of a motor vehicle not described in clause (ii) or (iii), $2,000,

"(ii) in the case of any truck or van with a gross vehicle weight rating greater than 10,000 pounds but not greater than 26,000 pounds, $5,000, or

"(iii) $50,000 in the case of—

"(I) a truck or van with a gross vehicle weight rating greater than 26,000 pounds, or

"(II) any bus which has a seating capacity of at least 20 adults (not including the driver).

"(B) PHASEOUT.—In the case of any qualified clean-fuel vehicle property placed in service after December 31, 2001, the limit otherwise applicable under subparagraph (A) shall be reduced by—

"(i) 25 percent in the case of property placed in service in calendar year 2002,

"(ii) 50 percent in the case of property placed in service in calendar year 2003, and

"(iii) 75 percent in the case of property placed in service in calendar year 2004.

"(2) QUALIFIED CLEAN-FUEL VEHICLE REFUELING PROPERTY.—

"(A) IN GENERAL.—The aggregate cost which may be taken into account under subsection (a) with respect to qualified clean-fuel vehicle refueling property placed in service during the taxable year at a location shall not exceed the excess (if any) of—

"(i) $100,000, over

"(ii) the aggregate amount taken into account under subsection (a) by the taxpayer (or any related person or predecessor) with respect to property placed in service at such location for all preceding taxable years.

"(B) RELATED PERSON.—For purposes of this paragraph, a person shall be treated as related to another person if such person bears a relationship to such other person described in section 267(b) or 707(b)(1).

"(C) ELECTION.—If the limitation under subparagraph (A) applies for any taxable year, the taxpayer shall, on the return of tax for such taxable year, specify the items of property (and the portion of costs of such property) which are to be taken into account under subsection (a).

"(c) QUALIFIED CLEAN-FUEL VEHICLE PROPERTY DEFINED.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified clean-fuel vehicle property' means property which is acquired for use by the taxpayer and not for resale, the original use of which commences with the taxpayer, with respect to which the environmental standards of paragraph (2) are met, and which is described in either of the following subparagraphs:

"(A) RETROFIT PARTS AND COMPONENTS.—Any property installed on a motor vehicle which is propelled by a fuel which is not a clean-burning fuel for purposes of permitting such vehicle to be propelled by a clean-burning fuel, but only to the extent such property is—

"(i) an engine (or modification thereof) which may use a clean-burning fuel, or

"(ii) used in the storage or delivery to the engine of such fuel, or the exhaust of gases from combustion of such fuel.

"(B) ORIGINAL EQUIPMENT MANUFACTURER'S VEHICLES.—A motor vehicle produced by an original equipment manufacturer and designed so that the vehicle may be propelled by a clean-burning fuel, but only to the extent of the portion of the basis of such vehicle which is attributable to an engine which may use such fuel, to the storage or delivery to the engine of such fuel, or to the exhaust of gases from combustion of such fuel.

"(2) ENVIRONMENTAL STANDARDS.—Property shall not be treated as qualified clean-fuel vehicle property unless—

"(A) the motor vehicle of which it is a part meets any applicable Federal or State emissions standards with respect to each fuel by which such vehicle is designed to be propelled, or

"(B) in the case of property described in paragraph (1)(A), such property meets all applicable Federal and State emissions-related certification, testing, and warranty requirements.

"(3) ONLY INCREMENTAL COST TAKEN INTO ACCOUNT.—If a vehicle may be propelled by both a clean-burning fuel and any other fuel, only the incremental cost of permitting the use of the clean-burning fuel shall be taken into account.

"(d) QUALIFIED CLEAN-FUEL VEHICLE REFUELING PROPERTY DEFINED.—For purposes of this section, the term 'qualified clean-fuel vehicle refueling property' means any property (not including a building and its structural components) if—

"(1) such property is of a character subject to the allowance for depreciation,

"(2) the original use of such property begins with the taxpayer, and

"(3) such property is for the storage or dispensing of a clean-burning fuel (not including electricity) into the fuel tank of a motor vehicle propelled by such fuel, but only if the storage or dispensing of the fuel is at the point where such fuel is delivered into the fuel tank of the motor vehicle.

"(e) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) CLEAN-BURNING FUEL.—The term 'clean-burning fuel' means—

"(A) natural gas,

"(B) liquefied natural gas,

"(C) liquefied petroleum gas,

"(D) hydrogen,

"(E) electricity, and

"(F) any other fuel at least 85 percent of which is 1 or more of the following: methanol, ethanol, any other alcohol, or ether.

"(2) MOTOR VEHICLE.—The term 'motor vehicle' means any vehicle which is manufactured primarily for use on public streets, roads, and highways (not including a vehicle operated exclusively on a rail or rails) and which has at least 4 wheels.

"(3) COST OF RETROFIT PARTS INCLUDES COST OF INSTALLATION.—The cost of any qualified clean-fuel vehicle property referred to in subsection (c)(1)(A) shall include the cost of the original installation of such property.

"(4) RECAPTURE.—The Secretary shall, by regulations, provide for recapturing the benefit of any deduction allowable under subsection (a) with respect to any property which ceases to be property eligible for such deduction.

"(5) PROPERTY USED OUTSIDE UNITED STATES, ETC., NOT QUALIFIED.—No deduction shall be allowed under subsection (a) with respect to any property referred to in section 50(b) or with respect to the portion of the cost of any property taken into account under section 179.

"(6) BASIS REDUCTION.—

"(A) IN GENERAL.—For purposes of this title, the basis of any property shall be reduced by the portion of the cost of such property taken into account under subsection (a).

"(B) ORDINARY INCOME RECAPTURE.—For purposes of section 1245, the amount of the deduction allowable under subsection (a) with respect to any property which is of a character subject to the allowance for depreciation shall be treated as a deduction allowed for depreciation under section 167.

"(f) TERMINATION.—This section shall not apply to any property placed in service after December 31, 2004."

(b) DEDUCTION FROM GROSS INCOME.—Section 62(a) is amended by inserting after paragraph (13) the following new paragraph:

"(14) DEDUCTION FOR CLEAN-FUEL VEHICLES AND CERTAIN REFUELING PROPERTY.—The deduction allowed by section 179A."

(c) CONFORMING AMENDMENTS.—

(1) Section 1016(a) is amended by striking "and" at the end of paragraph (23), by striking the period at the end of paragraph (24) and inserting ", and", and by adding at the end thereof the following new paragraph:

"(25) to the extent provided in section 179A(e)(6)(A)."

(2) The table of sections for part VI of subchapter B of chapter 1 is amended by inserting after the item relating to section 179 the following new item:

"Sec. 179A. Deduction for clean-fuel vehicles and certain refueling property."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after June 30, 1993.

SEC. 1914. CREDIT FOR ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE SOURCES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end thereof the following new section:

"SEC. 45. ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE RESOURCES.

"(a) GENERAL RULE.—For purposes of section 38, the renewable electricity production credit for any taxable year is an amount equal to the product of—

"(1) 1.5 cents, multiplied by

"(2) the kilowatt hours of electricity—

"(A) produced by the taxpayer—

"(i) from qualified energy resources, and

"(ii) at a qualified facility during the 10-year period beginning on the date the facility was placed in service, and

"(B) sold by the taxpayer to an unrelated person during the taxable year.

"(b) LIMITATIONS AND ADJUSTMENTS.—

"(1) PHASEOUT OF CREDIT.—The amount of the credit determined under subsection (a) shall be reduced by an amount which bears the same ratio to the amount of the credit (determined without regard to this paragraph) as—

"(A) the amount by which the reference price for the calendar year in which the sale occurs exceeds 8 cents, bears to

"(B) 3 cents.

"(2) CREDIT AND PHASEOUT ADJUSTMENT BASED ON INFLATION.—The 1.5 cent amount in subsection (a) and the 8 cent amount in paragraph (1) shall each be adjusted by multiplying such amount by the inflation adjustment factor for the calendar year in which the sale occurs. If any amount as increased under the preceding sentence is not a multiple of 0.1 cent, such amount shall be rounded to the nearest multiple of 0.1 cent.

"(3) CREDIT REDUCED FOR GRANTS, TAX-EXEMPT BONDS, AND SUBSIDIZED ENERGY FINANCING.—The amount of the credit determined under subsection (a) with respect to any project for any taxable year (determined after the application of paragraphs (1) and (2)) shall be reduced by the amount which is the product of the amount so determined for such year and a fraction—

"(A) the numerator of which is the sum, for the taxable year and all prior taxable years, of—

"(i) grants provided by the United States, a State, or a political subdivision of a State for use in connection with the project,

"(ii) proceeds of an issue of State or local government obligations used to provide financing for the project the interest on which is exempt from tax under section 103, and

"(iii) the aggregate amount of subsidized energy financing under a Federal, State, or local program provided in connection with the project, and

"(B) the denominator of which is the aggregate amount of additions to the capital account for the project for the taxable year and all prior taxable years.

The amounts under the preceding sentence for any taxable year shall be determined as of the close of the taxable year.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED ENERGY RESOURCES.—The term 'qualified energy resources' means—

"(A) wind, and

"(B) closed-loop biomass.

"(2) CLOSED-LOOP BIOMASS.—The term 'closed-loop biomass' means any organic material from a plant which is planted exclusively for purposes of being used at a qualified facility to produce electricity.

"(3) QUALIFIED FACILITY.—The term 'qualified facility' means any facility originally placed in service by the taxpayer after December 31, 1993 (December 31, 1992, in the case of a facility using closed-loop biomass to produce electricity), and before July 1, 1999.

"(d) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) ONLY PRODUCTION IN THE UNITED STATES TAKEN INTO ACCOUNT.—Sales shall be taken into account under this section only with respect to electricity the production of which is within—

"(A) the United States (within the meaning of section 638(1)), or

"(B) a possession of the United States (within the meaning of section 638(2)).

"(2) COMPUTATION OF INFLATION ADJUSTMENT FACTOR AND REFERENCE PRICE.—

"(A) IN GENERAL.—The Secretary shall, not later than April 1 of each calendar year, determine and publish in the Federal Register the inflation adjustment factor and the reference price for the preceding calendar year in accordance with this paragraph.

"(B) INFLATION ADJUSTMENT FACTOR.—The term 'inflation adjustment factor' means, with respect to a calendar year, a fraction the numerator of which is the GNP implicit price deflator for the calendar year and the denominator of which is the GNP implicit price deflator for the calendar year 1992. The term 'GNP implicit price deflator' means the first revision of the implicit price deflator for the gross national product as computed and published by the Department of Commerce.

"(C) REFERENCE PRICE.—The term 'reference price' means, with respect to a calendar year, the Secretary's determination of the annual average contract price per kilowatt hour of electricity generated from the same qualified energy resource and sold in the previous year in the United States.

"(3) PRODUCTION ATTRIBUTABLE TO THE TAXPAYER.—In the case of a facility in which more than 1 person has an interest, except to the extent provided in regulations prescribed by the Secretary, production from the facility shall be allocated among such persons in proportion to their respective interests in the gross sales from such facility.

"(4) RELATED PERSONS.—Persons shall be treated as related to each other if such persons would be treated as a single employer under the regulations prescribed under section 52(b). In the case of a corporation which is a member of an affiliated group of corporations filing a consolidated return, such corporation shall be treated as selling electricity to an unrelated person if such electricity is sold to such a person by another member of such group.

"(5) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply."

(b) CREDIT TO BE PART OF GENERAL BUSINESS CREDIT.—Subsection (b) of section 38 is amended by striking "plus" at the end of paragraph (6), by striking the period at the end of paragraph (7) and inserting ", plus", and by adding at the end thereof the following new paragraph:

"(8) the renewable electricity production credit under section 45(a)."

(c) LIMITATION ON CARRYBACK.—Subsection (d) of section 39 is amended by redesignating the paragraph added by section 11511(b)(2) of the Revenue Reconciliation Act of 1990 as paragraph (1), by redesignating the paragraph added by section 11611(b)(2) of such Act as paragraph (2), and by adding at the end thereof the following new paragraph:

"(3) NO CARRYBACK OF RENEWABLE ELECTRICITY PRODUCTION CREDIT BEFORE EFFECTIVE DATE.—No portion of the unused business credit for any taxable year which is attributable to the credit determined under section 45 (relating to electricity produced from certain renewable resources) may be carried back to any taxable year ending before January 1, 1993."

(d) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 45. Electricity produced from certain renewable resources."

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after December 31, 1992.

SEC. 1915. REPEAL OF MINIMUM TAX PREFERENCES FOR DEPLETION AND INTANGIBLE DRILLING COSTS OF INDEPENDENT OIL AND GAS PRODUCERS AND ROYALTY OWNERS.

(a) DEPLETION.—

(1) Paragraph (1) of section 57(a) (relating to depletion) is amended by adding at the end thereof the following new sentence: "Effective with respect to taxable years beginning after December 31, 1992, and before January 1, 1998, this paragraph shall not apply to any deduction for depletion computed in accordance with section 613A(c).".

(2) Subparagraph (F) of section 56(g)(4) is amended to read as follows:

"(F) DEPLETION.—

"(i) IN GENERAL.—The allowance for depletion with respect to any property placed in service in a taxable year beginning after December 31, 1989, shall be cost depletion determined under section 611.

"(ii) EXCEPTION FOR INDEPENDENT OIL AND GAS PRODUCERS AND ROYALTY OWNERS.—In the case of any taxable year beginning after December 31, 1992, and before January 1, 1998, clause (i) (and subparagraph (C)(i)) shall not apply to any deduction for depletion computed in accordance with section 613A(c)."

(b) INTANGIBLE DRILLING COSTS.—

(1) Section 57(a)(2) is amended by adding at the end the following new subparagraph:

"(E) EXCEPTION FOR INDEPENDENT PRODUCERS.—

"(i) IN GENERAL.—In the case of any taxable year beginning after December 31, 1992, and before January 1, 1998, this paragraph shall not apply to any taxpayer which is not an integrated oil company (as defined in section 291(b)(4)).

"(ii) LIMITATION ON AGGREGATE BENEFIT.—The aggregate reduction in alternative minimum taxable income by reason of clause (i) for any taxable year shall not exceed 40 percent (30 percent in case of taxable years beginning in 1993) of the alternative minimum taxable income for such year determined without regard to clause (i) and the alternative tax net operating loss deduction under subsection (a)(4)."

(2) Clause (i) of section 56(g)(4)(D) is amended by adding at the end thereof the following new sentence: "In the case of a taxpayer other than an integrated oil company (as defined in section 291(b)(4)), this clause shall not apply in the case of amounts paid or incurred in taxable years beginning after December 31, 1992, and before January 1, 1998.".

(c) CONFORMING AMENDMENTS.—

(1) Subsection (h) of section 56 is amended by adding at the end thereof the following new paragraph:

"(9) SUSPENSION.—No deduction shall be allowed under this subsection for any taxable year beginning after December 31, 1992, and before January 1, 1998."

(2) Clause (ii) of section 59(a)(2)(A) is amended by striking "and the" and inserting ", section 57(a)(2)(E), and the".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1992.

SEC. 1916. INCREASED BASE TAX RATE ON OZONE-DEPLETING CHEMICALS.

(a) IN GENERAL.—Subparagraph (B) of section 4681(b)(1) (relating to amount of tax) is amended to read as follows:

"(B) BASE TAX AMOUNT.—The base tax amount for purposes of subparagraph (A) with respect to any sale or use during a calendar year before 1996 with respect to any ozone-depleting chemical is the amount determined under the following table for such calendar year:

"Calendar year:	Base tax amount:
1992	$1.85
1993	2.75
1994	3.65
1995	4.55."

(b) CONFORMING AMENDMENTS.—

(1) RATES RETAINED FOR CHEMICAL USED IN RIGID FOAM INSULATION.—The table in subparagraph (B) of section 4682(g)(2) (relating to chemicals used in rigid foam insulation) is amended—

(A) by striking "15" and inserting "13.5", and

(B) by striking "10" and inserting "9.6".

(2) FLOOR STOCK TAXES.—

(A) Subparagraph (C) of section 4682(h)(2) (relating to other tax-increase dates) is amended by striking "1993, and 1994" and inserting "1993, 1994, and 1995, and July 1, 1992".

(B) Paragraph (3) of section 4682(h) (relating to due date) is amended—

(i) by inserting "or July 1" after "January 1", and

(ii) by inserting "or December 31, respectively," after "June 30".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable chemicals sold or used on or after July 1, 1992.

SEC. 1917. TREATMENT OF CERTAIN OZONE DEPLETING CHEMICALS.

(a) TREATMENT OF CERTAIN HALONS.—The table contained in subparagraph (A) of section 4682(g)(2) is amended to read as follows:

"In the case of	The applicable percentage is	
	For sales or use during 1992	For sales or use during 1993
Halon-1211	4.5	3.0
Halon-1301	1.4	0.9
Halon-2404	2.3	1.5".

(b) CHEMICALS USED FOR STERILIZING MEDICAL INSTRUMENTS.—

(1) IN GENERAL.—Subsection (g) of section 4682 is amended by adding at the end thereof the following new paragraph:

"(4) CHEMICALS USED FOR STERILIZING MEDICAL INSTRUMENTS.—

"(A) RATE OF TAX.—

"(i) IN GENERAL.—In the case of—

"(I) any use after June 30, 1992, and before January 1, 1994, of any substance to sterilize medical instruments, or

"(II) any qualified sale during such period by the manufacturer, producer, or importer of any substance, the tax imposed by section 4681 shall be the applicable percentage (determined in accordance with the following table) of the amount of such tax which would (but for this subparagraph be imposed).

In the case of sales or use during:	The applicable percentage is:
1992	90.3
1993	60.7.

"(ii) QUALIFIED SALE.—For purposes of clause (i), the term 'qualified sale' means any sale by the manufacturer, producer, or importer of any substance—

"(I) for use by the purchaser to sterilize medical instruments, or

"(II) for resale by the purchaser to a 2d purchaser for such use by the 2d purchaser.

The preceding sentence shall apply only if the manufacturer, producer, and importer, and the 1st and 2d purchasers (if any) meet such registration requirements as may be prescribed by the Secretary.

"(B) OVERPAYMENTS.—If any substance on which tax was paid under this subchapter is used after June 30, 1992, and before January 1, 1994, by any person to sterilize medical instruments, credit or refund without interest shall be allowed to such person in an amount equal to the excess of—

"(i) the tax paid under this subchapter on such substance, or

"(ii) the tax (if any) which would be imposed by section 4681 if such substance were used for such use by the manufacture, producer, or importer thereof on the date of its use by such person.

Amounts payable under the preceding sentence with respect to uses during the taxable year shall be treated as described in section 34(a) for such year unless claim thereof has been timely filed under this subparagraph."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales and uses on or after July 1, 1992.

SEC. 1918. PERMANENT EXTENSION OF ENERGY INVESTMENT CREDIT FOR SOLAR AND GEOTHERMAL PROPERTY.

(a) GENERAL RULE.—Paragraph (2) of section 48(a) (defining energy percentage) is amended—

(1) by striking "Except as provided in subparagraph (B), the" and inserting "The",

(2) by striking subparagraph (B), and

(3) by redesignating subparagraph (C) as subparagraph (B)

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on June 30, 1992.

SEC. 1919. NUCLEAR DECOMMISSIONING FUNDS.

(a) REPEAL OF INVESTMENT RESTRICTIONS.—Subparagraph (C) of section 468A(e)(4) (relating to special rules for nuclear decommissioning funds) is amended by striking "described in section 501(c)(21)(B)(ii)".

(b) REDUCTION IN RATE OF TAX.—Paragraph (2) of section 468A(e) is amended—

(1) by striking "at the rate equal to the highest rate of tax specified in section 11(b)" in subparagraph (A) and inserting "at the rate set forth in subparagraph (B)", and

(2) by redesignating subparagraphs (B) and (C) as subparagraphs (C) and (D), respectively, and by inserting after subparagraph (A) the following new subparagraph:

"(B) RATE OF TAX.—For purposes of subparagraph (A), the rate set forth in this subparagraph is—

"(i) 22 percent in the case of taxable years beginning in calendar year 1994 or 1995, and

"(ii) 20 percent in the case of taxable years beginning after December 31, 1995."

(c) EFFECTIVE DATES.—

(1) SUBSECTION (a).—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1992.

(2) SUBSECTION (b).—The amendments made by subsection (b) shall apply to taxable years beginning after December 31, 1993. Section 15 of the Internal Revenue Code of 1986 shall not apply to any change in rate resulting from the amendment made by subsection (b).

SEC. 1920. FACILITIES FOR PRODUCTION OF CERTAIN FUELS.

Subsection (f) of section 29 is amended by adding at the end thereof the following new sentence:

"For purposes of paragraph (1)(B), a facility for production of qualified fuels referred to in subparagraph (B)(ii) or (C) of subsection (c)(1) shall be treated as placed in service before January 1, 1993, if such facility is placed in service before January 1, 1996, pursuant to a written binding contract in effect on December 31, 1992, and at all times thereafter before such facility is placed in service."

SEC. 1921. TREATMENT UNDER LOCAL FURNISHING RULES OF CERTAIN ELECTRICITY TRANSMITTED OUTSIDE LOCAL AREA.

(a) IN GENERAL.—Subsection (f) of section 142 (relating to local furnishing of electric energy or gas) is amended to read as follows:

"(f) LOCAL FURNISHING OF ELECTRIC ENERGY OR GAS.—For purposes of subsection (a)(8)—

"(1) IN GENERAL.—The local furnishing of electric energy or gas from a facility shall only include furnishing solely within the area consisting of—

"(A) a city and 1 contiguous county, or

"(B) 2 contiguous counties.

"(2) TREATMENT OF CERTAIN ELECTRIC ENERGY TRANSMITTED OUTSIDE LOCAL AREA.—

"(A) IN GENERAL.—A facility shall not be treated as failing to meet the local furnishing requirement of subsection (a)(8) by reason of electricity transmitted pursuant to an order of the Federal Energy Regulatory Commission under section 211 or 213 of the Federal Power Act (as in effect on the date of the enactment of this paragraph) if the portion of the facility financed with tax-exempt bonds is not greater than the portion of the use of the facility which is in the local furnishing of electric energy (determined without regard to this paragraph).

"(B) SPECIAL RULE FOR EXISTING FACILITIES.—In the case of a facility financed with bonds issued before the date of an order referred to in subparagraph (A) which would (but for this subparagraph) cease to be tax-exempt by reason of subparagraph (A), such bonds shall not cease to be tax-exempt bonds (and section 150(b)(4) shall not apply) if, to the extent necessary to comply with subparagraph (A)—

"(i) bonds are defeased not later than the 90th day after the date such order was issued, and

"(ii) bonds are redeemed not later than the earliest date on which such bonds may be redeemed."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to obligations issued before, on, or after the date of the enactment of this Act.

Subtitle B—Other Revenue Provisions

SEC. 1931. REPEAL OF EXEMPTION FROM COMMUNICATIONS TAX FOR NEWS SERVICES.

(a) GENERAL RULE.—Subsection (b) of section 4253 (relating to exemption for news services) is hereby repealed.

(b) EFFECTIVE DATE.—The repeal made by subsection (a) shall take effect on January 1, 1993.

SEC. 1932. EXCEPTION FROM PRO RATA ALLOCATION OF INTEREST EXPENSE OF FINANCIAL INSTITUTIONS TO TAX-EXEMPT INTEREST FOR SMALL ISSUERS INCREASED TO $20,000,000.

(a) IN GENERAL.—Subparagraphs (C) and (D) of section 265(b)(3) are each amended by striking "$10,000,000" each place it appears and inserting "$20,000,000".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to obligations issued after December 31, 1992.

SEC. 1933. CERTAIN MINERALS NOT ELIGIBLE FOR PERCENTAGE DEPLETION.

(a) GENERAL RULE.—

(1) Paragraph (1) of section 613(b) is amended—

(A) by striking "and uranium" in suparagraph (A), and

(B) in subparagraph (B)—

(i) by striking "asbestos,",

(ii) by striking "lead,", and

(iii) by striking "mercury,".

(2) Subparagraph (A) of section 613(b)(3) is amended by inserting "other than lead, mercury, or uranium" after "metal mines".

(3) Paragraph (4) of section 613(b) is amended by striking "asbestos (if paragraph (1)(B) does not apply),".

(4) Paragraph (7) of section 613(b) is amended by striking "or" at the end of subparagraph (B), by striking the period at the end of subparagraph (C) and inserting ", or", and by inserting after subparagraph (C) the following new subparagraph:

"(D) mercury, uranium, lead, and asbestos."

(b) CONFORMING AMENDMENTS.—Subparagraph (D) of section 613(c)(4) is amended—

(1) by striking "lead,", and

(2) by striking "uranium,".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1992.

SEC. 1934. DISCLOSURES OF INFORMATION FOR VETERANS BENEFITS.

(a) IN GENERAL.—Section 6103(l)(7)(D) (relating to program to which rule applies) is amended by striking "September 30, 1992" in the last sentence and inserting "September 30, 1997".

(b) CONFORMING AMENDMENT.—Section 5317(g) of title 38, United States Code, is amended by striking "September 30, 1992" and inserting "September 30, 1997".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on September 30, 1992.

SEC. 1935. DISALLOWANCE OF INTEREST ON CERTAIN OVERPAYMENTS OF TAX.

(a) GENERAL RULE.—Subsection (e) of section 6611 is amended to read as follows:

"(e) DISALLOWANCE OF INTEREST ON CERTAIN OVERPAYMENTS.—

"(1) REFUNDS WITHIN 45 DAYS AFTER RETURN IS FILED.—If any overpayment of tax imposed by this title is refunded within 45 days after the last day prescribed for filing the return of such tax (determined without regard to any extension of time for filing the return) or, in the case of a return filed after such last date, is refunded within 45 days after the date the return is filed, no interest shall be allowed under subsection (a) on such overpayment.

"(2) REFUNDS AFTER CLAIM FOR CREDIT OR REFUND.—If—

"(A) the taxpayer files a claim for a credit or refund for any overpayment of tax imposed by this title, and

"(B) such overpayment is refunded within 45 days after such claim is filed,

no interest shall be allowed on such overpayment from the date the claim is filed until the day the refund is made.

"(3) IRS INITIATED ADJUSTMENTS.—Notwithstanding any other provision, if an adjustment, initiated by or on behalf of the Secretary, results in a refund or credit of an overpayment, interest on such overpayment shall be computed by subtracting 45 days from the number of days interest would otherwise be allowed with respect to such overpayment."

(b) EFFECTIVE DATES.—

(1) Paragraph (1) of section 6611(e) of the Internal Revenue Code of 1986 (as amended by subsection (a)) shall apply in the case of returns the due date for which (determined without regard to extensions) is on or after July 1, 1992.

(2) Paragraph (2) of section 6611(e) of such Code (as so amended) shall apply in the case of claims for credit or refund of any overpayment filed on or after July 1, 1992 regardless of the taxable period to which such refund relates.

(3) Paragraph (3) of section 6611(e) of such Code (as so amended) shall apply in the case of any refund paid on or after July 1, 1992 regardless of the taxable period to which such refund relates.

SEC. 1936. INFORMATION REPORTING WITH RESPECT TO CERTAIN SELLER-PROVIDED FINANCING.

(a) GENERAL RULE.—Section 6109 (relating to identifying numbers) is amended by adding at the end thereof the following new subsection:

"(h) IDENTIFYING INFORMATION REQUIRED WITH RESPECT TO CERTAIN SELLER-PROVIDED FINANCING.—

"(1) PAYOR.—If any taxpayer claims a deduction under section 163 for qualified residence interest on any seller-provided financing, such taxpayer shall include on the return claiming such deduction the name, address, and TIN of the person to whom such interest is paid or accrued.

"(2) RECIPIENT.—If any person receives or accrues interest referred to in paragraph (1), such person shall include on the return for the taxable year in which such interest is so received or accrued the name, address, and TIN of the person liable for such interest.

"(3) FURNISHING OF INFORMATION BETWEEN PAYOR AND RECIPIENT.—If any person is required to include the TIN of another person on a return under paragraph (1) or (2), such other person shall furnish his TIN to such person.

"(4) SELLER-PROVIDED FINANCING.—For purposes of this subsection, the term 'seller-provided financing' means any indebtedness incurred in acquiring any residence if the person to whom such indebtedness is owed is the person from whom such residence was acquired.".

(b) PENALTY.—Paragraph (3) of section 6724(d) (relating to specified information reporting requirement) is amended by striking "and" at the end of subparagraph (C), by striking the period at the end of subparagraph (D) and inserting ", and", and by adding at the end thereof the following new subparagraph:

"(E) any requirement under section 6109(f) that—

"(i) a person include on his return the name, address, and TIN of another person, or

"(ii) a person furnish his TIN to another person."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1991.

Subtitle C—Federal Tax Exemption for Uranium Enrichment Corporation; Limitation on Borrowing Authority

SEC. 1941. FEDERAL TAX EXEMPTION; LIMITATION ON BORROWING AUTHORITY.

(a) FEDERAL TAX EXEMPTION.—Subsection (l) of section 501 (relating to governmental corporations exempt from tax) is amended by adding at the end thereof the following:

"(4) The Uranium Enrichment Corporation established under section 1301 of the Atomic Energy Act of 1954.

Paragraph (4) shall cease to apply as of the first day on which any stock issued by the Uranium Enrichment Corporation is held by any person other than the Federal Government."

(b) LIMITATION ON BORROWING AUTHORITY.—

(1) Chapter 31 of title 31, United States Code, is amended by adding at the end thereof the following new subchapter:

"SUBCHAPTER III—RESTRICTION ON BORROWING AUTHORITY OF CERTAIN GOVERNMENT-RELATED CORPORATIONS

"§ 3141. Limitation on borrowing authority of Uranium Enrichment Corporation

"The Uranium Enrichment Corporation established pursuant to section 1301 of the Atomic Energy Act of 1954 may borrow (directly or indirectly) from the Treasury only to the extent, and in the manner, provided in section 1405 of such Act (as in effect on the date of the enactment of this section).".

(2) The chapter analysis for chapter 31 of title 31, United States Code, is amended by adding at the end thereof the following:

"SUBCHAPTER III—RESTRICTION ON BORROWING AUTHORITY OF CERTAIN GOVERNMENT-RELATED CORPORATIONS

"3141. Limitation on borrowing authority of Uranium Enrichment Corporation.".

TITLE XX—GENERAL PROVISIONS; REDUCTION OF OIL VULNERABILITY

SEC. 2001. DEFINITIONS.

For purposes of this title and titles XXI through XXV—

(1) the term "demonstration" means the building or assembling of facilities or equipment at appropriate scale to prove the technical feasibility of a process or technology;

(2) the term "developing country" includes the nations of Eastern Europe and the Soviet Union, or any successor entity or entities thereto;

(3) the term "long-term" means the period from 10 to 20 years in the future;

(4) the term "mid-term" means the period from 5 to 10 years in the future;

(5) the term "near-term" means the period from the present to 5 years in the future;

(6) the term "Secretary" means the Secretary of Energy; and

(7) the term "source reduction" means any practice which—

(A) reduces the amount of any hazardous substance, pollutant, or contaminant entering any waste stream or otherwise released into the environment, including fugitive emissions, prior to recycling, treatment, or disposal; and

(B) reduces the hazards to the public health and the environment associated with the release of such substances, pollutants, or contaminants,

including equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, and improvements in housekeeping, maintenance, training, and inventory control, but not including any practice which alters the physical, chemical, or biological characteristics or the volume of a hazardous substance, pollutant, or contaminant through a process or activity which itself is not integral to and necessary for the production of a product or the providing of a service.

SEC. 2002. GOALS.

It is the goal of the United States in carrying out energy supply and energy conservation research and development—

(1) to strengthen national energy security by reducing dependence on imported oil;

(2) to increase the efficiency of the economy by meeting future needs for energy services at the lowest total cost to the Nation, including environmental costs, giving comparable consideration to technologies which enhance energy supply and technologies which improve the efficiency of energy end uses;

(3) to reduce the adverse environmental consequences of energy production and use through the development of an environmentally sustainable energy system which makes possible a reduction from the 1990 level in greenhouse gas emissions from energy production and use in the United States;

(4) to maintain the technological competitiveness of the United States and stimulate economic growth through the development of critical advanced materials and technologies; and

(5) to foster international cooperation by developing international markets for domestically produced sustainable energy technologies, and by transferring environmentally sound, advanced energy systems and technologies to developing countries to promote sustainable development.

Subtitle A—Oil and Gas Supply Enhancement

SEC. 2011. ENHANCED OIL RECOVERY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on technologies to increase and accelerate the volume of oil recovered from domestic oil reservoirs in producing fields, including technologies to—

(1) improve reservoir characterization;

(2) improve analysis and field verification;

(3) field test and demonstrate advanced enhanced oil recovery processes in reservoirs the Secretary considers to be of high priority;

(4) improve enhanced oil recovery process technology for more economic and efficient oil production;

(5) study reservoir properties and how they affect oil recovery from porous media;

(6) improve techniques for meeting environmental requirements;

(7) improve data bases of reservoir and environmental conditions; and

(8) lower lifting costs on stripper wells by utilizing advanced renewable energy technologies such as small wind turbines and others.

(b) PROGRAM GOALS.—

(1) OVERALL GOAL.—The overall goal of the program established under subsection (a) is the development of technologies to increase recoverable oil resources cost effectively by approximately 76,000,000,000 barrels of oil by the year 2010, compared to 1991 levels of recoverable reserves.

(2) NEAR-TERM PRIORITIES.—The near-term priorities of the program include preserving access to high potential reservoirs, identifying available technologies that can extend well lifetimes, and developing environmental

field operations for waste disposal and injection practices.

(3) MID-TERM PRIORITIES.—The mid-term priorities of the program include developing and testing identified but unproven technologies, and transferring those technologies for widespread use.

(4) LONG-TERM PRIORITIES.—The long-term priorities of the program include developing advanced techniques to recover oil not recoverable by other techniques.

(c) ACCELERATED PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a plan for carrying out under this section the accelerated field testing of technologies to achieve the overall goal stated in subsection (b)(1) within 10 years after the date of enactment of this Act. The plan shall include a revised schedule of field tests, and cost estimates for the accelerated program. In preparing the plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies, and with the Advisory Board established under section 2303.

(d) PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require that the non-Federal share of the project being assisted be at least 50 percent.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $350,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2012. OIL SHALE.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research and development on oil shale extraction and conversion, using laboratory-scale activities. The program shall include technology development for both Eastern and Western shales.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) include—

(1) supporting the development of economically competitive and environmentally acceptable technologies to produce domestic supplies of liquid fuels from oil shale;

(2) increasing knowledge of environmentally acceptable oil shale waste disposal technologies and practices;

(3) increasing knowledge of the chemistry and kinetics of oil shale retorting;

(4) increasing understanding of engineering issues concerning the design and scale-up of oil shale extraction and conversion technologies; and

(5) improving techniques for oil shale mining systems.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $60,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2013. NATURAL GAS SUPPLY RESEARCH AND DEVELOPMENT.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration to improve technologies for—

(1) the extraction of natural gas from tight gas sands and devonian shales or other unconventional sources; and

(2) secondary natural gas recovery.

(b) PROGRAM GOALS.—

(1) OVERALL GOALS.—The overall goals of the program established under subsection (a) are to improve field data and modeling of natural gas production from unconventional sources and to continue data accumulation on unconventional gas sources, including speculative sources.

(2) NEAR-TERM PRIORITIES.—The near-term priorities of the program include—

(A) a focus on recovery from conventional gas reservoirs;

(B) the consolidation of Federal data bases;

(C) the preparation of a series of maps indicating the location of domestic natural gas resources;

(D) enhanced natural gas recovery studies;

(E) the development of horizontal drilling technology; and

(F) the development of techniques for upgrading low quality natural gas.

(3) MID-TERM PRIORITIES.—The mid-term priorities of the program include—

(A) a focus on recovery from unconventional sources such as tight gas sand formations; and

(B) the developing of techniques for locating naturally fractured zones and cost-effective methods for increasing the size and gas-flow capability of fracture systems.

(4) LONG-TERM PRIORITIES.—The long-term priorities of the program include—

(A) a focus on recovery from speculative sources, including deep sediments and gas hydrates; and

(B) the development of new techniques to locate and extract natural gas.

(c) PROPOSALS.—Within 180 days after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(d) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(e) COFIRING OF NATURAL GAS AND COAL.—

(1) PROGRAM.—The Secretary shall establish and carry out a program of research, development, and demonstration of cofiring natural gas with coal in utility and large industrial boilers in order to determine optimal natural gas injection levels for both environmental and operational benefits.

(2) COOPERATIVE AGREEMENTS.—The Secretary shall enter into cooperative agreements with, and provide financial assistance to, appropriate parties for application of cofiring technologies to boilers to demonstrate this technology.

(3) REPORT TO CONGRESS.—The Secretary shall, before December 31, 1995, submit to the Congress a report on the progress made in carrying out this subsection.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $300,000,000 for the period encompassing fiscal years 1993 through 1997.

(g) CONSULTATION.—In carrying out the provisions of this subtitle, the Secretary shall consult representatives of the oil and gas industry for innovative research and development proposals to improve oil and gas recovery and shall consider relevant technical data from industry and other research and information centers and institutes.

Subtitle B—Oil and Gas Demand Reduction and Substitution

SEC. 2021. GENERAL TRANSPORTATION RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on cost effective technologies to reduce the demand for oil in the transportation sector for all vehicles, including existing vehicles, through increased energy efficiency and the use of alternative fuels. Such program shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic viability to meet the goals stated in section 2002. Such program shall include the activities required under sections 2022 through 2027, and ongoing activities of a similar nature at the Department of Energy.

(b) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research, development, and demonstration activities under this subtitle. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(d) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated to the Secretary for carrying out the program described in subsection (a), other than activities under section 2025, $1,100,000,000 for the period encompassing fiscal years 1993 through 1997, including—

(A) $100,000,000 for carrying out section 2022;

(B) $50,000,000 for carrying out section 2023;

(C) $2,500,000 for carrying out section 2024;

(D) $25,000,000 for carrying out section 2026; and

(E) $50,000,000 for carrying out section 2027, including Department of Energy National Laboratory participation in proposals submitted under subsection (d) of such section.

(2) There are authorized to be appropriated to the Secretary for carrying out section 2025—

(A) $68,000,000 for fiscal year 1993;

(B) $80,000,000 for fiscal year 1994;

(C) $85,000,000 for fiscal year 1995;

(D) $90,000,000 for fiscal year 1996;

(E) $95,000,000 for fiscal year 1997; and

(F) $100,000,000 for fiscal year 1998.

SEC. 2022. ADVANCED AUTOMOTIVE FUEL ECONOMY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration, to supplement ongoing research activities of a similar nature at the Department of Energy, to accelerate the near-term and mid-term development of advanced technologies to improve the fuel economy of light-duty passenger vehicles powered by a piston engine, and hybrid vehicles powered by a combination of piston engine and electric motor.

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be to stimulate the development of emerging technologies with the potential to achieve significant improvements in fuel economy while reducing emissions of greenhouse gases and other air pollutants.

(c) PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section, making a special effort to involve small businesses in the program.

(d) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305, unless the Secretary finds that a lower non-Federal cost share is warranted given the technical risks involved.

SEC. 2023. ALTERNATIVE FUEL VEHICLE RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.

(a) PROGRAM DIRECTION.—The Secretary shall carry out a program of research, development, and demonstration on techniques related to improving natural gas and other alternative fuel vehicle technology, including—

(1) fuel injection;
(2) carburetion;
(3) manifolding;
(4) combustion;
(5) power optimization;
(6) efficiency;
(7) lubricants and detergents;
(8) engine durability;
(9) ignition, including fuel additives to assist ignition;
(10) multifuel engines;
(11) emissions control, including catalysts;
(12) novel gas compression concepts;
(13) advanced storage systems;
(14) advanced gaseous fueling technologies; and
(15) the incorporation of advanced materials in these areas.

(b) COOPERATIVE AGREEMENTS AND ASSISTANCE.—The Secretary may enter into cooperative agreements with, and provide financial assistance to, public or private entities willing to provide 50 percent of the costs of a program to perform research, development, and demonstration under subsection (a).

(c) DEFINITIONS.—For purposes of this section—

(1) the term "alternative fuels" includes natural gas, liquefied petroleum gas, any fuel the content of which is at least 85 percent by volume methanol, ethanol, or other alcohol, and hydrogen;

(2) the term "alternative fuel vehicle" means a motor vehicle that operates on alternative fuels; and

(3) the term "motor vehicle" includes any automobile, truck, bus, van, or other on-road or off-road motor vehicle, including a boat.

SEC. 2024. BIOFUELS RESEARCH AND DEVELOPMENT USER FACILITY.

(a) The Secretary shall establish a biofuels research and development user facility to expedite industry adoption of biofuels technologies. Such facility shall provide industry with onsite laboratory and office space to work on biofuels technologies, including production of alcohol fuels from biomass.

(b) The Secretary, through grants to such universities and colleges as the Secretary determines are qualified, shall establish a research and demonstration program with respect to the production and use of diesel fuels from vegetable oils. The program shall include—

(1) research on the economic feasibility of production of oilseed crops for biofuels purposes; and

(2) for demonstration purposes, the establishment of a mobile small-scale oilseed pressing and esterification unit and a stationary small-scale commercial oilseed pressing and esterification unit.

SEC. 2025. ELECTRIC VEHICLE AND BATTERY RESEARCH AND DEVELOPMENT PROGRAM.

(a) COOPERATIVE PROGRAM.—(1) The Secretary, consistent with the comprehensive plan described in paragraph (2), shall establish a cooperative program with the electric utility industry, the automobile industry, and such other persons or industries as the Secretary considers appropriate to conduct joint cooperative research and development projects with industry in areas of technology development such as—

(A) high efficiency electric power trains, including advanced motors, motor controllers, and hybrid power trains for vehicle range improvement;

(B) light-weight body structures for vehicle weight reduction;

(C) advanced battery technology with high energy and power for electric vehicle application;

(D) batteries and fuel cells for hybrid vehicle application;

(E) fuel cells and fuel cell systems for primary vehicle power sources; and

(F) photovoltaics for application with electric vehicle use.

The Secretary may also include any such projects that were entered into under the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5901-5920) or the Electric and Hybrid Vehicle Research, Development, and Demonstration Act of 1976 (15 U.S.C. 2501-2514) in the program under this subsection.

(2)(A) The Secretary shall prepare a comprehensive multi-year program plan for carrying out this section. In the preparation of such plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency, the Secretary of Transportation, the Administrator of the National Aeronautics and Space Administration, the heads of other appropriate Federal agencies, representatives of the electric utility industry, electric vehicle manufacturers and the United States automobile industry, and such other public and private organizations as the Secretary considers appropriate.

(B) The comprehensive plan shall include—

(i) a prioritization of research areas critical to the commercialization of electric vehicles, including advanced battery technology;

(ii) the program elements, management structure, and activities, including program responsibilities of Federal agencies and departments;

(iii) the program strategies, including technical milestones to be achieved toward specific goals during each fiscal year, for all major activities and projects;

(iv) the estimated costs of individual program elements, including estimated costs for each of the fiscal years of the plan for each of the participating Federal agencies or departments;

(v) a description of the methods of technology transfer;

(vi) the proposed participation by non-Federal entities in the implementation of the plan; and

(vii) such other information as the Secretary considers appropriate.

(C) Not later than 180 days after the date of enactment of this Act, the Secretary shall transmit the comprehensive plan to the Congress. Such plan shall be revised and such revision transmitted to the Congress when significant changes are proposed.

(3) Not later than 240 days after the date of enactment of this Act, the Secretary shall request proposals or seek to negotiate joint cooperative research and development projects under this subsection.

(4) The contribution of the United States to any project under this section shall not exceed 50 percent.

(5) The Secretary shall conduct evaluations, arrange for tests and demonstrations necessary to support efforts undertaken pursuant to this subsection.

(b) FUEL CELLS FOR TRANSPORTATION.—(1) The Secretary shall develop and implement a comprehensive program of research, development, and demonstration of fuel cells and related systems for transportation applications through the establishment of one or more cooperative programs among industry, government, and research institutions to develop and demonstrate the use of fuel cells as the primary power source for private and mass transit vehicles and other mobile applications.

(2) Research, development, and demonstration activities under this subsection shall be designed to incorporate one or more of the following priorities—

(A) the potential for near-term to mid-term commercialization;

(B) the ability of the systems to use a variety of renewable and nonfossil fuels;

(C) emission reduction and energy conservation potential;

(D) the potential to utilize fuel cells and fuel cell systems developed under Department of Defense and National Aeronautics and Space Administration programs; and

(E) the potential to take maximum practical advantage of advances made in electric vehicle research, stationary source fuel cell research, and other research activities authorized by this title.

(3)(A) Research, development, and demonstration projects selected by the Secretary under this subsection shall have application to—

(i) passenger vehicles;
(ii) vans and utility vehicles;
(iii) light rail systems and locomotives;
(iv) trucks, including long-haul trucks, dump trucks, and garbage trucks;
(v) passenger buses;
(vi) non-chlorofluorocarbon mobile refrigeration systems;
(vii) marine vessels, including recreational marine engines; or
(viii) mobile engines and power generation, including recreational generators, and industrial and construction equipment.

(B) The Secretary shall establish programs to undertake research, development, and demonstration activities for use in at least two of the applications listed in subparagraph (A) in each of fiscal years 1993, 1994, 1995, and 1996, based on the priorities established in paragraph (2), so that by the end of the period, research, development, and demonstration activities are under way for each application. The initiatives authorized and implemented pursuant to this subsection shall be in addition to any other fuel cell programs authorized in existing law.

(c) HOLD HARMLESS.—Nothing in this section shall be construed to alter, affect, modify, or change any activities or agreements initiated prior to the date of enactment of this Act with domestic motor vehicle manufacturers through joint venture or consortium agreements regarding batteries for electric vehicles.

(d) CONSULTATION.—The Secretary shall consult with the Administrator of the Environmental Protection Agency and the Secretary of Transportation in carrying out this section.

(e) DEFINITIONS.—For purposes of this section—

(1) the term "advanced battery technology" means electro-chemical storage de-

vices, including fuel cells, and associated technology necessary to charge, discharge, recharge, or regenerate such devices, for use as a source of power for an electric vehicle, and any other associated equipment;

(2) the term "associated equipment" means equipment necessary for the regeneration, refueling, or recharging of batteries or other forms of electrical energy used to power an electric vehicle; and

(3) the term "electric vehicle" means a vehicle primarily powered by an electric motor that draws current from rechargeable storage batteries, fuel cells, or other sources of electrical current, and that may include a nonelectrical source of supplemental power.

SEC. 2026. RENEWABLE HYDROGEN ENERGY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on renewable hydrogen energy systems, to supplement ongoing activities of a similar nature at the Department of Energy, including—

(1) at least one program to develop and demonstrate a system for generating hydrogen from renewable energy sources;

(2) at least one program to assess the feasibility of existing natural gas pipelines carrying hydrogen gas, including experimentation if needed, with a goal of determining those components of the natural gas distribution system that would have to be modified to carry—

(A) more than 20 percent hydrogen mixed with natural gas; and

(B) pure hydrogen gas;

(3) at least one program to develop and demonstrate at least one hydrogen storage system suitable for electric vehicles powered by fuel cells, with emphasis on—

(A) improved metal hydride hydrogen storage;

(B) activated carbon-based hydrogen storage;

(C) high pressure compressed hydrogen; or

(D) other novel hydrogen storage techniques;

(4) at least one program to develop and demonstrate a fuel cell suitable to power an electric vehicle; and

(5) such other research and development programs as the Secretary considers necessary to carry out this section.

(b) PROPOSALS.—Within 180 days after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

SEC. 2027. ADVANCED DIESEL EMISSIONS RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.

(a) PROGRAM DIRECTION.—The Secretary shall initiate a program of research, development, and demonstration on diesel engine combustion and engine systems, related advanced materials, and fuels and lubricants to reduce emissions oxides of nitrogen and particulates. Activities conducted under this program shall supplement activities of a similar nature at the Department of Energy. Such program shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic viability to meet the goal stated in subsection (b).

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be to accelerate the ability of United States diesel manufacturers to meet current and future oxides of nitrogen and particulate emissions requirements.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy National Laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide research, development, and demonstration activities under this section. The Secretary shall biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) SOLICITATION OF PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals from eligible parties, as such term is defined in section 2205(3), for conducting research, development, and demonstration activities consistent with the 5-year program plan. Such proposals may be submitted by one or more eligible parties, and may include any funding mechanisms otherwise authorized under Federal law.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

Subtitle C—Oil Substitution Through Coal Liquefaction

SEC. 2031. OIL SUBSTITUTION THROUGH COAL LIQUEFACTION.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research and development for the purpose of developing economically and environmentally acceptable advanced technologies for oil substitution through coal liquefaction.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) shall include—

(1) improved resource selection and product quality;

(2) the development of technologies to increase net yield of liquid fuel product per ton of coal;

(3) an increase in overall thermal efficiency; and

(4) a reduction in capital and operating costs through technology improvements.

(c) PROPOSALS.—Within 180 days after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research and development activities under this section.

(d) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require that the non-Federal share of the project being assisted be at least 50 percent.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $60,000,000 for the period encompassing fiscal years 1993 through 1997.

TITLE XXI—ENERGY AND ENVIRONMENT

Subtitle A—Improved Energy Efficiency

SEC. 2101. GENERAL IMPROVED ENERGY EFFICIENCY RESEARCH, DEVELOPMENT, AND DEMONSTRATION PROGRAM.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on cost effective technologies to improve energy efficiency and increase the use of renewable energy in the buildings, industrial, and utility sectors. Such program shall include a broad range of technological approaches, and shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic viability to meet the goals stated in section 2002. Such program shall include the activities required under sections 2102, 2103, 2104, 2105, 2106, and 2107 and ongoing activities of a similar nature at the Department of Energy.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) shall include—

(1) in the buildings sector—

(A) to accelerate the development of technologies that will increase energy efficiency;

(B) to increase the use of renewable energy; and

(C) to improve building construction practices and materials to reduce environmental pollution in the mid-term, through the development of low emission, low energy buildings;

(2) in the industrial sector—

(A) to accelerate the development of technologies that will increase energy efficiency and thereby improve productivity;

(B) to increase the use of renewable energy; and

(C) to reduce pollution production per unit of output; and

(3) in the utility sector, to accelerate the development of technologies that will increase energy efficiency.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research, development, and demonstration activities under this subtitle. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, utilities, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this subtitle $1,400,000,000 for the period encompassing fiscal years 1993 through 1997, including—

(1) $100,000,000 for carrying out section 2102;

(2) $50,000,000 for carrying out section 2103;

(3) $100,000,000 for carrying out section 2104;

(4) $15,000,000 for carrying out section 2105;

(5) $15,000,000 for carrying out section 2106; and

(6) $18,091,000 for fiscal year 1993 for carrying out section 2107.

SEC. 2102. NATURAL GAS AND ELECTRIC HEATING AND COOLING TECHNOLOGIES.

(a) PROGRAM DIRECTION.—(1) The Secretary shall conduct a program of research, development, and demonstration for energy efficient natural gas and electric heating and cooling technologies for residential and commercial buildings.

(2) The natural gas heating and cooling program shall include research, development, and demonstration on—

(A) thermally activated heat pumps, including absorption heat pumps and engine-driven heat pumps; and

(B) other advanced natural gas technologies, including fuel cells.

(3) The electric heating and cooling program shall focus on including research, development, and demonstration on—

(A) advanced heat pumps;

(B) thermal storage; and

(C) advanced electrically driven HVAC (heating, ventilating, and air conditioning) and refrigeration systems that utilize replacements for chlorofluorocarbons.

(b) PROPOSALS.—Within 180 days after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

SEC. 2103. PULP AND PAPER RESEARCH, DEVELOPMENT, AND DEMONSTRATION.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on advanced pulp and paper technologies. Activities under this section shall include research, development, and demonstration on energy generation technologies, boilers, combustion processes, pulping processes (excluding de-inking), chemical recovery, causticizing, source reduction processes, and other related technologies that can improve the energy efficiency of, and reduce the adverse environmental impacts of, pulp and papermaking operations. This section does not authorize research, development, and demonstration projects involving the combustion of waste paper, excluding gasification.

(b) PROPOSALS.—Within 180 days after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

SEC. 2104. ADVANCED BUILDING RESEARCH, DEVELOPMENT, AND DEMONSTRATION FOR LOW EMISSION, LOW ENERGY BUILDINGS BY 2005.

(a) PROGRAM DIRECTION.—The Secretary shall initiate a program of research, development, and demonstration on new technologies for integrated building design and products that will provide affordable and commercially viable low emission, low energy buildings by the year 2005, to supplement ongoing activities of a similar nature at the Department of Energy. Activities under this section shall include research, development, and demonstration on—

(1) integrated building designs, design tools, and construction techniques;

(2) advanced building components that can perform effectively in integrated building designs;

(3) advanced energy conversion systems (such as photovoltaics) for application to buildings;

(4) the use of recycled materials in building products and products that can be recycled; and

(5) demonstration of evaluation methods and tools to assess performance in operating environments.

(b) PROPOSALS.—

(1) SOLICITATION.—Within one year after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(2) CONTENTS OF PROPOSALS.—Proposals submitted under this subsection shall include—

(A) evidence of knowledge of current building practices in the United States and in other countries;

(B) an explanation of how the proposal will expedite the commercialization of advanced building materials, technologies, and products, advanced construction techniques, and innovative design practices beyond those already in the marketplace;

(C) evidence of consideration of whether the unique capabilities of Department of Energy National Laboratories warrants collaboration with such Laboratories, and the extent of such collaboration proposed;

(D) evidence of collaboration with relevant industry or other groups or organizations; and

(E) a demonstration of the ability of the proposers to undertake and complete the project proposed.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

SEC. 2105. ELECTRIC DRIVES.

(a) RESEARCH, DEVELOPMENT, AND DEMONSTRATION.—The Secretary shall conduct research, development, and demonstration to expedite adoption of energy efficient industrial electric drive technologies, including adjustable speed drives, high speed motors, and high efficiency motors. Activities under this section shall include the identification and development of technical information on targets of opportunity, assessment of infrastructure needs, and development of advanced technologies and processes.

(b) PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals for research, development, and demonstration projects under this section.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

SEC. 2106. MID-TERM TECHNOLOGY DEMONSTRATION PROGRAM.

(a) ESTABLISHMENT.—The Secretary, on consultation with the Secretary of Defense, the Administrator of the General Services Administration, and other appropriate Federal officials, shall establish a program for the demonstration, at federally owned or assisted buildings and facilities designated by such officials for long-term commitment to such demonstration, of emerging energy efficiency and renewable energy technologies described in subsection (b).

(b) TECHNOLOGIES.—Technologies to be demonstrated under this section shall be technologies substantially developed by the Department of Energy, or derived from research and development carried out by the Department of Energy, that are not commercially available, and shall include residential heat pumps, lighting fixtures, cogeneration, solar detoxification, and other technologies that the Secretary, after consultation with the Secretary of Defense, the Administrator of the General Services Administration, and other appropriate Federal officials, determines can improve energy efficiency and environmental conditions in Federal facilities and operations.

(c) PURPOSE OF DEMONSTRATION.—The purpose of demonstrations funded under this section shall be to determine—

(1) the technical feasibility and reliability;

(2) the economic life cycle costs;

(3) the production feasibility; and

(4) the Federal sector market potential,

of the technology to be demonstrated.

(d) COMPLETION OF DEMONSTRATION.—(1) When a demonstration project funded under this section has successfully demonstrated the cost-effective feasibility of a technology, the Federal agency involved, with assistance from the Secretary, shall effect technology transfer by publicizing the results of the demonstration.

(2) When a successfully demonstrated technology has reached a stage of production capability, the resulting product shall be listed on appropriate General Services Administration product schedules.

SEC. 2107. STEEL AND ALUMINUM RESEARCH.

(a) AMENDMENTS.—The Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988 is amended—

(1) in section 4(b)(5), by striking "Industrial Programs" and inserting in lieu thereof "Industrial Technologies";

(2) in section 8, by inserting at the end the following new sentence: "The report submitted at the close of fiscal year 1993 shall also contain a complete summary of activities under the management plan and the research plan from the first year of their operation, along with an analysis of the extent to which they have succeeded in accomplishing the purposes of this Act.";

(3) in section 9(a)(1), by striking "and $25,000,000 for fiscal year 1991" and inserting in lieu thereof "$25,000,000 for fiscal year 1991, $17, 968,000 for fiscal year 1992, and $18,091,000 for fiscal year 1993";

(4) in section 9(b), by striking "and 1991" and inserting in lieu thereof "1991, 1992, and 1993"; and

(5) in section 11(a), by striking "or fiscal year 1991" both places it appears and inserting in lieu thereof "fiscal year 1991, fiscal year 1992, or fiscal year 1993".

(b) REPEALS.—The Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 is amended—

(1) in section 4(c)(1)(C), by inserting "and" after "Program;";

(2) in section 4(c)(2)(C), by striking "Program; and" and inserting in lieu thereof "Program.";

(3) by striking section 4(c)(3);

(4) in section 5(1)(B), by inserting "and" after "program;";

(5) in section 5(2)(B), by striking "program; and" and inserting in lieu thereof "program."; and

(6) by striking section 5(3).

Subtitle B—Electricity Generation and Use

SEC. 2111. RENEWABLE ENERGY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a broad and comprehensive program of research, development, and demonstration to provide cost-effective options for the generation of electricity from renewable energy sources for grid and nongrid application, including field demonstrations of sufficient scale and number in operating environments to prove technical and economic feasibility for providing cost effective generation and for meeting the goal stated in section 2002(3).

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be the accelerated development of renewable energy technologies that can cost effectively meet at least 15 percent of United States electricity generation needs by the year 2010.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research, development, and demonstration activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $1,500,000,000 for the period encompassing fiscal years 1993 through 1997, of which $26,900,000 is for carrying out section 2120 for fiscal year 1993.

SEC. 2112. HIGH EFFICIENCY HEAT ENGINES.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on high efficiency heat engines, including field demonstrations of sufficient scale and number in operating environments to prove the technical and economic feasibility of such engines, emphasizing advanced gas turbine cycles, and the incorporation of energy efficient materials in advanced gas turbine cycles for high efficiency electric and industrial power generation covering a range of small-, mid-, and large-scale applications, including—

(1) mechanically recuperated gas turbines;

(2) intercooled gas turbines with steam injection or recuperation;

(3) gas turbines utilizing reformed fuels or hydrogen; and

(4) high efficiency, simple cycle gas turbines.

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be to develop high efficiency heat engines that can achieve over 50 percent efficiency.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research, development, and demonstration activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including the Administrator of the Environmental Protection Agency and national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) PROPOSALS.—Within one year after the date of enactment of this Act, the Secretary shall solicit proposals for conducting research, development, and demonstration activities under this section.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $125,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2113. NUCLEAR ENERGY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration to encourage the deployment of advanced nuclear reactor technologies that to the maximum extent practicable—

(1) are cost effective in comparison to alternative sources of commercial electric power of comparable availability and reliability, taking into consideration life cycle environmental costs;

(2) facilitate the design, licensing, construction, and operation of a nuclear powerplant using a standardized design;

(3) exhibit enhanced safety features; and

(4) incorporate features that advance the objectives of the Nuclear Non-Proliferation Act of 1978.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) shall include—

(1) for the near-term—

(A) facilitate the submission, by September 30, 1995, for certification by the Nuclear Regulatory Commission, of standardized advanced light water reactor technology designs that the Secretary determines have the characteristics described in subsection (a)(1) through (4);

(B) facilitate the completion of submissions, by September 30, 1996, for preliminary design approvals by the Nuclear Regulatory Commission of standardized designs for the modular high-temperature gas-cooled reactor technology and the liquid metal reactor technology; and

(C) the evaluation, by September 30, 1996, of the actinide burn technology to determine if it can reduce the volume of long-lived fission byproducts;

(2) for the mid-term—

(A) facilitate increased efficiency of enhanced safety, advanced light water reactors to produce electric power at the lowest cost to the customer;

(B) the development of advanced reactor concepts that are passively safe and environmentally acceptable; and

(C) the completion of necessary research and development on high-temperature gas-cooled reactor technology and liquid metal reactor technology to support the selection, by September 30, 1998, of one or both of those technologies as appropriate for prototype demonstration; and

(3) for the long-term, the completion of research and development and demonstration to support the design of advanced reactor technologies capable of providing electric power to a utility grid as soon as practicable but no later than the year 2010.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research, development, and demonstration activities under this section. The program plan shall include schedule milestones, Federal funding requirements, and non-Federal cost sharing requirements. In preparing the program plan, the Secretary shall take into consideration—

(1) the need for, and the potential for future adoption by electric utilities or other entities of, advanced nuclear reactor technologies that are available, under development, or have the potential for being developed, for the generation of energy from nuclear fission;

(2) how the Federal Government, acting through the Secretary, can be effective in ensuring the availability of such technologies when they are needed;

(3) how the Federal Government can most effectively cooperate with the private sector in the accomplishment of the goals set forth in subsection (b); and

(4) potential alternative funding sources for carrying out this section.

In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, annually update and, as part of the report required under subsection (f) of this section, resubmit the program plan to Congress. Each such update shall describe any activities that are behind schedule, any funding shortfalls, and any other circumstances that might affect the ability of the Secretary to meet the goals set forth in subsection (b).

(d) FIRST-OF-A-KIND ENGINEERING.—

(1) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program of Federal financial and technical assistance for the first-of-a-kind engineering design of standardized commercial nuclear powerplants which are included, as of the date of enactment of this Act, in the Department of Energy's program for certification of advanced light water reactor designs.

(2) SELECTION CRITERIA.—In order to be eligible for assistance under this subsection, an entity shall certify to the satisfaction of the Secretary that—

(A) the entity, or its members, are bona fide entities engaged in the design, engineering, manufacture, and construction of nuclear reactors;

(B) the entity, or its members, have the financial resources necessary for, and fully intend to pursue the design, engineering, manufacture, and construction in the United States of nuclear power plants through completion of construction and into operation;

(C) the design proposed is scheduled for certification by the Nuclear Regulatory Commission under the Department of Energy's program for certification of light water reactor designs; and

(D) at least 50 percent of the funding for the project shall be obtained from non-Federal sources, and a substantial portion of that non-Federal funding shall be obtained from utilities or entities whose primary purpose is the production of electrical power for public consumption.

(3) PROGRAM DOCUMENTS.—The Secretary shall prepare and submit to the Congress a program document for each design selected under this subsection, specifying goals and objectives, major milestones for achieving those goals and objectives, and the work products to be provided to the Secretary or made available for inspection.

(4) FUNDING LIMITATIONS.—(A) Before entering into an agreement with an entity under this subsection, the Secretary shall establish a cost ceiling for the contribution of the Federal Government for the project, and shall report such cost ceiling to the Congress.

(B) No entity shall receive assistance under this subsection for a period greater than 4 years.

(C) The aggregate funding provided by the Secretary for projects under this subsection shall not exceed $20,000,000 for any single fiscal year.

(5) STATUS REPORT.—The Secretary shall annually submit to the Congress, as a part of

the report required under subsection (h), a status report on each project receiving assistance under this subsection. Each such report shall describe the progress of the project, measured against the program document for such project submitted under paragraph (3), including a description of the entities involved in the project, the number and type of professional and other employees involved, the work products (in the form of drawings produced or specifications written, received, or inspected by the Secretary), and the extent of cost sharing.

(e) PROTOTYPE DEMONSTRATION.—

(1) SOLICITATION OF PROPOSALS.—Within 3 years after the date of enactment of this Act, the Secretary shall solicit proposals for carrying out the preliminary engineering design of not more than 2 prototype advanced nuclear reactor technologies developed by the Department of Energy, other than advanced light water reactor technologies, necessary to support a decision on whether to recommend construction of a prototype demonstration reactor with the characteristics described in subsection (a)(1) through (4). Proposals submitted under this paragraph shall be for modular design concepts of sufficient size to address requirements related to the certification of a standardized design.

(2) RECOMMENDATION TO CONGRESS.—Not later than September 30, 1998, the Secretary shall submit to Congress recommendations on whether to build no more than 2 prototype demonstration reactors under this subsection. Such recommendations shall—

(A) specify a preferred technology or technologies;

(B) include detailed information on milestones for construction and operation;

(C) include an estimate of the funding requirements; and

(D) specify the extent and type of non-Federal financial support anticipated.

In developing the recommendations under this paragraph, the Secretary shall provide for public notice and an opportunity for comment, and shall solicit the views of the Nuclear Regulatory Commission and other parties with technical expertise the Secretary considers useful in the development of such recommendations.

(3) COST SHARING.—The prototype demonstration program under this subsection shall be carried out to the maximum extent practicable with private sector funding. At least 50 percent of the funding for such program shall be non-Federal funding. The extent of non-Federal cost sharing proposed for any demonstration project shall be a criterion for the selection of the project. Any cost overruns beyond projections contained in a proposal submitted under this subsection shall be paid for with non-Federal funds.

(4) LIMITATION ON AUTHORIZATION.—No prototype demonstration project may be carried out pursuant to a recommendation under paragraph (2) unless funding has been appropriated pursuant to a report the Secretary has submitted with respect to such project pursuant to section 2402(b).

(f) ANNUAL NUCLEAR RESEARCH, DEVELOPMENT, AND DEMONSTRATION REPORT.—The Secretary, in consultation with the Advisory Board established under section 2303, shall annually submit to the Congress a report which—

(1) includes a comprehensive Federal nuclear research, development, and demonstration strategy;

(2) addresses energy supply and associated environmental problems in the immediate, short-term, mid-term, and long-term time intervals;

(3) evaluates the economic, environmental, and technological merits of each aspect of the Federal nuclear research, development, and demonstration program;

(4) includes a description of the progress made in implementing this section;

(5) includes an update of the program plan developed under subsection (c);

(6) includes an update of the program plan developed under section 2114(b); and

(7) includes the annual report required under section 2115(c).

Such report shall be submitted along with the President's annual budget request to Congress.

(g) NUCLEAR REGULATORY COMMISSION REPORT.—The Nuclear Regulatory Commission shall annually submit to the Congress, along with the President's annual budget request, a report on the certification process for standardized advanced light water reactor designs which—

(1) describes the progress of such certification process;

(2) describes the progress made in reviewing the Utility Requirements Document;

(3) includes a timetable for completion of the certification, including specific fiscal year milestones; and

(4) states resource requirements for meeting the timetable described in paragraph (3).

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $600,000,000 for research and development activities, and $550,000,000 for facilities operations and maintenance, for the period encompassing fiscal years 1993 through 1997.

SEC. 2114. CIVILIAN NUCLEAR WASTE.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research and development on new technologies for mitigating hazards associated with high level radioactive waste and spent fuel from nuclear reactors.

(b) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a 5-year program plan to guide the research and development activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of industry, institutions of higher education, Federal agencies, including national laboratories, and professional and technical societies. The Secretary shall, with the advice of the Advisory Board established under section 2303, annually update and, as part of the report required under section 2113(f), resubmit the program plan to Congress.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $50,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2115. FUSION ENERGY.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research and development on fusion energy technologies. The cooperative effort to develop the International Thermonuclear Experimental Reactor program (hereafter in this section referred to as "ITER") shall be the main focus of the program established under this subsection. The Secretary shall encourage the effective participation of United States industry in the ITER program, and shall seek to ensure that United States industrial technological capability will continue to be able to support ITER.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) shall include—

(1) for the near-term—

(A) fully supporting United States participation in the Engineering Design Activity of the ITER program and development of the basis for effective participation in follow-on activities of the cooperative program;

(B) planning for the construction and operation of a major new machine for fusion research and development to provide experience with long pulse fusion phenomena or other critical research and development needs;

(C) supporting the development of technological capabilities for selected technical areas critical to fusion power and providing for significant industrial participation in the development of those technologies; and

(D) continuing research and development for the Inertial Fusion Energy Program and initiating the development of the Heavy Ion Inertial Confinement Fusion Energy Experiment;

(2) for the mid-term—

(A) participation in the ITER program after completion of the Engineering Design Activity, including preconstruction and other activities for an ITER facility;

(B) continuing research and development activities in support of a broad based fusion energy program;

(C) supporting the development of technological capabilities for selected technical areas critical to fusion power and providing for significant industrial participation in the development of those technologies; and

(D) developing, constructing, and testing a Heavy Ion Inertial Confinement Fusion Energy Experiment for the Inertial Fusion Energy Program; and

(3) for the long-term—

(A) participation in the ITER program, including construction, operation, and maintenance of an appropriate United States industrial technological base; and

(B) building and testing an inertial fusion energy reactor for the purpose of power production.

(c) REPORTS.—The Secretary, in consultation with the Advisory Board established under section 2303, shall prepare a detailed plan describing the work to be performed, resources to be committed, and milestone schedules for the following subprograms:

(1) Basic fusion energy science and research to support both the Magnetic Fusion Energy program and the Heavy Ion Inertial Confinement Fusion Energy program.

(2) The ITER.

(3) The Long Pulse Fusion Reactor.

(4) An Engineering and Technology Development program with industrial participation.

(5) The development and construction of a Heavy Ion Inertial Confinement Fusion Energy Experiment.

Each year, in conjunction with the submission of the annual budget to Congress, the Secretary shall submit a detailed report describing the progress made, including science and technical advancements, the resources committed during the previous years, expenditures, contracts with industry, and performance related to scheduled milestones.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $2,200,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2116. COAL.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on advanced technologies that use coal to generate electricity in a more efficient and environmentally acceptable manner.

(b) PROGRAM GOALS.—The goals of the program established under subsection (a) shall include the development of technologies that—

(1) reduce United States oil imports and ensure a reliable electricity supply;

(2) comply with applicable environmental requirements; and

(3) would achieve the greatest practicable reduction of emissions of harmful pollutants, including greenhouse gases.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section for technologies nearing the full scale demonstration stage, the Secretary may require cost sharing as provided in section 2305.

(d) AUTHORIZATION OF APPROPRIATIONS.—(1) There are authorized to be appropriated to the Secretary for carrying out this section $1,000,000,000 for the period encompassing fiscal years 1993 through 1997.

(2) There are authorized to be appropriated to the Secretary for—

(A) Operating Expenses for Program Direction and Management Support, Cooperative Research and Development, and Fossil Energy Environmental Restoration; and

(B) Plant and Capital Equipment, $500,000,000 for the period encompassing fiscal years 1993 through 1997.

(e) REPORT TO CONGRESS.—The Secretary shall provide a report to the Congress within one year after the date of enactment of this Act, investigating the technical and economic feasibility of blending farm crop products with coal to maximize indigenous fossil fuel resources and reduce sulfur emissions. The report shall identify key technical or economic issues that may provide obstacles to widespread use of fuel blends.

SEC. 2117. FUEL CELLS.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a program of research, development, and demonstration on efficient and environmentally benign decentralized power generation using fuel cells. The program may include research, development, and demonstration activities on molten carbonate, solid oxide, including tubular, monolithic, and planar technologies, and advanced concepts.

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) is the development of cost-effective, efficient, and environmentally benign fuel cell systems which will operate on fossil fuels in multiple end use sectors.

(c) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $200,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2118. ENVIRONMENTAL RESTORATION AND WASTE MANAGEMENT PROGRAM.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for fiscal year 1993 $70,000,000 for the Fast Flux Test Facility to maintain the operational status of the reactor, such sums to be derived from amounts appropriated to the Secretary for the environmental restoration and waste management program.

(b) LONG-TERM MISSIONS.—The Secretary shall aggressively pursue the development and implementation of long-term missions for the Fast Flux Test Facility. Within 6 months after the date of enactment of this Act, the Secretary shall submit to the Congress a report on the progress made in carrying out this subsection.

SEC. 2119. EFFICIENT ELECTRIC ENERGY SYSTEMS.

The Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12001 et seq.) is amended by inserting after section 5 the following new section:

"SEC. 5A. EFFICIENT ELECTRIC ENERGY SYSTEMS.

"The goal for the High Temperature Superconductivity Energy Systems Program shall be to promote energy efficiency by carrying out a program of research and development of high temperature superconducting electric power equipment technologies. Research efforts shall emphasize—

"(1) activities that address near-term technical projects such as the development of superconducting materials that are in practical form and have increased electrical current capacity;

"(2) improving the efficiency of materials performance at higher temperatures and at all magnetic field orientations; and

"(3) assisting the private sector with designs for more efficient electric power generation and delivery systems for commercial marketplace which are cost competitive with conventional energy systems.".

SEC. 2120. ELECTRIC AND MAGNETIC FIELDS RESEARCH AND PUBLIC INFORMATION DISSEMINATION PROGRAMS.

(a) ELECTRIC AND MAGNETIC FIELDS INTERAGENCY COMMITTEE.—

(1) IN GENERAL.—The President shall, within 2 months after the date of the enactment of this Act, establish the Electric and Magnetic Fields Interagency Committee to coordinate the efforts of the Federal Government with respect to research on the possible human health effects of electric and magnetic fields, technologies to improve the measurement and characterization of electric and magnetic fields, and techniques to assess and manage exposure to electric and magnetic fields.

(2) DUTIES.—

(A) RESEARCH AGENDA.—Not later than 6 months after the date of the enactment of this Act, the Interagency Committee, in consultation with the Advisory Committee, shall develop and submit to the Congress a comprehensive agenda for conducting research on the possible human health effects of electric and magnetic fields, with particular emphasis on electric and magnetic fields produced by electricity of the 60 Hertz frequency. The Interagency Committee, in consultation with the Advisory Committee, shall update the agenda as often as necessary and submit the updated agenda to the Congress. The agenda shall include priorities for—

(i) research on biological mechanisms by which electric and magnetic fields interact with biological systems;

(ii) research and development of technologies to improve the measurement and characterization of electric and magnetic fields;

(iii) epidemiological research on the possible human health effects of electric and magnetic fields; and

(iv) research on techniques to assess and manage exposure to electric and magnetic fields.

(B) REVIEW OF FEDERAL PROGRAM.—The Interagency Committee shall review each electric and magnetic fields research project conducted under a Federal program or funded in whole or in part with Federal funds—

(i) to ensure that the research project advances the agenda and program established under this section; and

(ii) to ensure that the research project is not unnecessarily duplicative of any other such research project.

(C) RECOMMENDATIONS ON PUBLIC INFORMATION DISSEMINATION PROGRAM.—Not later than 5 months after the date of the enactment of this Act, the Interagency Committee shall submit to the Director recommendations concerning the scope and nature of the information to be disseminated under subsection (d). The Interagency Committee shall submit to the Director updated recommendations as often as necessary.

(3) MEMBERSHIP.—The Interagency Committee shall be composed of 8 members with 1 member appointed by each of the following:

(A) The Director of the National Institute of Environmental Health Sciences.

(B) The Secretary of Energy.

(C) The Administrator of the Environmental Protection Agency.

(D) The Secretary of Defense.

(E) The Administrator of the Occupational Safety and Health Administration.

(F) The Director of the National Institute of Standards and Technology.

(G) The Secretary of Transportation.

(H) The Administrator of the Rural Electrification Administration.

(4) CHAIRPERSON.—The member of the Interagency Committee who is appointed by the Director of the National Institute of Environmental Health Sciences under paragraph (3) shall be the chairperson of the Interagency Committee. The chairperson of the Interagency Committee shall be responsible for ensuring that the duties of the Interagency Committee are carried out.

(b) NATIONAL ELECTRIC AND MAGNETIC FIELDS ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 2 months after the date of the enactment of this Act, the President shall establish the National Electric and Magnetic Fields Advisory Committee.

(2) DUTIES.—The Advisory Committee shall—

(A) make recommendations to the Interagency Committee with respect to the formulation of the research agenda referred to in subsection (a)(2)(A); and

(B) make recommendations to the Director with respect to the research program established under subsection (c), including the preparation of solicitations for proposals to conduct research under the program.

(3) MEMBERSHIP.—The Advisory Committee shall be composed of 11 members appointed by the President from among individuals who are representative of experts in possible human health effects of electromagnetic fields, experts in the measurement and characterization of electromagnetic fields, experts in the assessment and risk management of exposure to electromagnetic fields, State regulatory agencies, State health agencies, electric utilities, electrical equipment manufacturers, labor unions, and public interest groups.

(4) TERMINATION.—The Advisory Committee shall terminate within 2 months after the Advisory Committee submits the final report required under subsection (c)(4)(C).

(c) NATIONAL ELECTRIC AND MAGNETIC FIELDS RESEARCH PROGRAM.—

(1) IN GENERAL.—Within 9 months after the date of the enactment of this Act, the Director, after considering recommendations of the Advisory Committee, shall establish a program to carry out the agenda referred to in subsection (a)(2)(A).

(2) FINANCIAL ASSISTANCE.—

(A) IN GENERAL.—The Director may provide grants and other funding and enter into contracts to conduct research projects under the program established under paragraph (1).

(B) NON-FEDERAL CONTRIBUTIONS.—

(i) IN GENERAL.—Projects selected for funding in any fiscal year under this subsection may not be conducted unless the Director receives and provides non-Federal contributions for such projects in an amount that equals at least 50 percent of the total funding for all projects to be conducted in the fiscal year.

(ii) SOLICITATION OF CONTRIBUTIONS.—The Director shall within 30 days after the date of the enactment of this Act, solicit pledges for non-Federal contributions referred to in clause (i) from non-Federal entities that are established solely to provide non-Federal contributions under clause (i) and that have no substantive involvement in the program established under this section, other than to provide the non-Federal contributions.

(3) SOLICITATION AND SELECTION OF PROPOSALS.—

(A) IN GENERAL.—Within 15 months after the date of the enactment of this Act, and as often thereafter as the Director considers to be appropriate, the Director, in coordination with the Interagency Committee, shall solicit and select proposals to conduct projects under this subsection.

(B) CONSULTATION WITH ADVISORY COMMITTEE.—In preparing solicitations for proposals to conduct projects, the Director shall consult with the Advisory Committee.

(C) PEER REVIEW PANELS.—Before a proposal to conduct a project under this subsection may be selected by the Director, such proposal must be submitted to, and evaluated by, at least one scientific and technical peer review panel constituted by the Director.

(4) REPORTS.—

(A) REPORT UPON COMPLETION OF PROJECT.—Any person who conducts a project under the program established under paragraph (1) shall, upon completion of the project, submit to the National Academy of Sciences, the Interagency Committee, and the Advisory Committee a report summarizing the research activities and findings of the project.

(B) REPORT TO INTERAGENCY COMMITTEE AND ADVISORY COMMITTEE.—The Chairman of the National Academy of Sciences shall biennially submit to the Interagency Committee and the Advisory Committee a report that evaluates the research activities that have been completed under this subsection. The report shall include recommendations to promote the effective transfer of information derived from such research projects, including the transfer to representatives of State regulatory agencies, State health agencies, electric utilities, electrical equipment manufacturers, labor unions, and public interest groups.

(C) REPORTS TO CONGRESS.—The Interagency Committee and the Advisory Committee shall each biennially submit to the Congress a report summarizing the progress of the research program established under this subsection.

(5) CONFLICTS OF INTEREST.—The Director shall include conflict of interest provisions in any grant or other funding provided, or contract entered into, under the research program established under this subsection including provisions—

(A) that require any person conducting a project under such program to disclose any other source of funding received by the person to conduct other related projects, including funding received from consulting on issues relating to electric and magnetic fields; and

(B) that prohibit a person who has been awarded a grant or contract under this program from testifying in a court of law as an expert on the specific research he is conducting under such grant or contract.

(d) ELECTRIC AND MAGNETIC FIELDS PUBLIC INFORMATION DISSEMINATION PROGRAM.—

(1) IN GENERAL.—Within 6 months after the date of the enactment of this Act, the Director shall establish a program to collect, compile, publish, and disseminate to the public information on electric and magnetic fields, with particular emphasis on electric and magnetic fields produced by electricity of the 60 Hertz frequency. The Director, in coordination with the Interagency Committee, shall ensure that the information disseminated through the program is updated as often as necessary. The program shall include information regarding—

(A) the possible human health effects of electric and magnetic fields;

(B) the types and extent of human exposure to electric and magnetic fields in various occupational and residential settings;

(C) technologies to measure and characterize electric and magnetic fields; and

(D) methods to assess and manage exposure to electric and magnetic fields.

(2) INFORMATION PAMPHLET.—The program referred to in paragraph (1) shall include the development and dissemination of a pamphlet that would be useful to the public in the assessment and risk management of exposure to electric and magnetic fields. The pamphlet shall be developed and disseminated within 2 years of the date of the enactment of this Act and shall be updated as often as necessary.

(e) DEFINITIONS.—For purposes of this section:

(1) The term "Advisory Committee" means the National Electric and Magnetic Fields Advisory Committee established under subsection (b).

(2) The term "Interagency Committee" means the Electric and Magnetic Fields Interagency Committee established under subsection (a).

(3) The term "Director" means the Director of the National Institute of Environmental Health Sciences.

(4) The term "State" means each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and any other commonwealth, territory, or possession of the United States.

(f) AUTHORIZATION OF APPROPRIATIONS.—

(1) GENERAL AUTHORIZATION.—There are authorized to be appropriated to the Director $60,000,000 for the period encompassing fiscal years 1993 through 1997 to carry out the provisions of this section except for the provisions of subsection (d). Any amounts appropriated pursuant to this paragraph shall remain available until expended.

(2) PUBLIC INFORMATION DISSEMINATION PROGRAM.—There are authorized to be appropriated to the Director $1,000,000 for each of fiscal years 1993 through 1997 to carry out the provisions of subsection (d). Any amounts appropriated pursuant to this paragraph shall remain available until expended.

(3) RESTRICTIONS ON USE OF FUNDS.—

(A) ADMINISTRATIVE EXPENSES OF CERTAIN FUNDING RECIPIENTS.—Of the total amount of funds provided to any institution under subsection (c), the amount of such funds that may be used for the administrative indirect costs of the institution may not exceed 26 percent of the modified direct costs of the project funded by the grant.

(B) ADMINISTRATIVE EXPENSES OF THE NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES.—Of the total amount of funds made available under this section for any fiscal year, not more than 5 percent of such funds may be used for authorized administrative expenses of the National Institute of Environmental Health Sciences in carrying out this section.

(C) CONSTRUCTION AND REHABILITATION OF FACILITIES AND EQUIPMENT.—Funds made available under this section may not be used for the construction or rehabilitation of facilities or fixed equipment.

Subtitle C—Pollution Prevention, Information, and Audits

SEC. 2121. ENERGY EFFICIENT POLLUTION PREVENTION PROGRAM.

(a) PROGRAM DIRECTION.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, is authorized to continue to carry out an Energy Efficient Pollution Prevention Program for the purpose of carrying out research, development, and demonstration on energy efficient pollution prevention technologies and processes, emphasizing source reduction and a systems approach to minimizing adverse environmental effects of industrial production in the most cost-effective and energy efficient manner.

(b) IDENTIFICATION OF TARGETS OF OPPORTUNITY.—Within 9 months after the date of enactment of this Act, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall identify targets of opportunity for the demonstration of energy efficient pollution prevention technologies and processes, taking into consideration the total materials and energy cycle, and with the goal of minimizing adverse environmental effects.

(c) PROPOSALS.—Within 1 year after the date of enactment of this Act, the Secretary, in consultation with the Administrator of the Environmental Protection Agency, shall solicit proposals for research, development, and demonstration projects under this section. Proposals submitted under this subsection shall demonstrate that the proposed project includes—

(1) technically viable and replicable cost-effective approaches; and

(2) procedures for technology transfer and information outreach during and after completion of the project.

(d) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $75,000,000 for the period encompassing fiscal years 1993 through 1997.

TITLE XXII—ENERGY AND ECONOMIC GROWTH

SEC. 2201. NATIONAL CRITICAL ADVANCED MATERIALS INITIATIVE.

(a) PROGRAM DIRECTION.—The Secretary shall establish a National Critical Advanced Materials Initiative in the Office of Assistant Secretary for Conservation and Renewable Energy for the purpose of carrying out a program of research, development, and demonstration on techniques not commercially available for processing, synthesizing, fabricating, and manufacturing of critical advanced materials and associated components that have energy efficiency and renewable energy applications, to supplement ongoing activities of a similar nature at the Department of Energy. Such program shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic feasibility.

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be to accelerate research, development, and demonstration of critical advanced materials not commercially available to expedite the deployment of high performance energy efficient and renewable energy technologies in the industrial, transportation, and buildings sectors that can foster economic growth and competitiveness.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy National Laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide research, development, and demonstration activities under this section. The Secretary, with the advice of the Advisory Board established under section 2303, shall biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) PROPOSALS.—

(1) SOLICITATION.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals from eligible parties for conducting research, development, and demonstration activities consistent with the 5-year program plan. Such proposals may be submitted by one or more eligible parties, and may include any funding mechanisms otherwise authorized under Federal law.

(2) CONTENTS OF PROPOSALS.—Proposals submitted under this subsection shall include—

(A) an explanation of how the proposal will expedite the commercialization of critical advanced materials in energy efficiency or renewable energy in the near-term to mid-term;

(B) evidence of consideration of whether the unique capabilities of Department of Energy National Laboratories warrants collaboration with such Laboratories, and the extent of such collaboration proposed;

(C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and

(D) a demonstration of the ability of the proposers to undertake and complete the project proposed.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(f) GENERAL SERVICES ADMINISTRATION INSERTION DEMONSTRATION PROGRAM.—The Secretary, in consultation with the Administrator of General Services, shall establish a program to expedite the use, in goods and services acquired by the General Services Administration, of critical advanced materials technologies. Such program shall include a demonstration of the use of critical advanced materials technologies in such operating environments as may be necessary to establish technical and operating reliability. The Secretary shall transfer funds to the General Services Administration for carrying out this subsection.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary—

(1) $150,000,000 for the period encompassing fiscal years 1993 through 1997 for carrying out subsections (a) through (d), including Department of Energy National Laboratory participation in proposals submitted under subsection (d), of which ⅔ shall be for energy efficiency applications and ⅓ shall be for renewable energy applications; and

(2) $15,000,000 for the period encompassing fiscal years 1993 through 1997 for carrying out subsection (f), including transferring funds to the General Services Administration.

SEC. 2202. NATIONAL CRITICAL ADVANCED MANUFACTURING TECHNOLOGIES INITIATIVE.

(a) PROGRAM DIRECTION.—The Secretary shall establish a National Critical Advanced Manufacturing Technologies Initiative in the Office of Assistant Secretary for Conservation and Renewable Energy for the purpose of carrying out a program of research, development, and demonstration on critical advanced manufacturing technologies not commercially available to improve energy efficiency and productivity in manufacturing, to supplement ongoing activities of a similar nature at the Department of Energy. Such program shall include field demonstrations of sufficient scale and number in operating environments to prove technical and economic feasibility.

(b) PROGRAM GOAL.—The goal of the program established under subsection (a) shall be to accelerate research, development, and demonstration of critical advanced manufacturing technologies to expedite improved productivity, quality, and control in manufacturing processes that can foster economic growth, energy efficiency, and competitiveness.

(c) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy National Laboratories, and professional and technical societies, shall prepare and submit to the Congress a 5-year program plan to guide research, development, and demonstration activities under this section. The Secretary, with the advice of the Advisory Board established under section 2303, shall biennially update and, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914), resubmit the program plan to Congress.

(d) PROPOSALS.—

(1) SOLICITATION.—Within 1 year after the date of enactment of this Act, the Secretary shall solicit proposals from eligible parties for conducting research, development, and demonstration activities consistent with the 5-year program plan. Such proposals may be submitted by one or more eligible parties, and may include any funding mechanisms otherwise authorized under Federal law.

(2) CONTENTS OF PROPOSALS.—Proposals submitted under this subsection shall include—

(A) an explanation of how the proposal will expedite the commercialization of critical advanced manufacturing technologies to improve energy efficiency in the building, industry, and transportation sectors;

(B) evidence of consideration of whether the unique capabilities of Department of Energy National Laboratories warrants collaboration with such Laboratories, and the extent of such collaboration proposed;

(C) a description of the extent to which the proposal includes collaboration with relevant industry or other groups or organizations; and

(D) a demonstration of the ability of the proposers to undertake and complete the project proposed.

(e) COST SHARING.—In awarding grants, contracts, cooperative agreements, or other financial assistance under this section, the Secretary shall require cost sharing as provided in section 2305.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary $50,000,000 for the period encompassing fiscal years 1993 through 1997 for carrying out this section, including Department of Energy National Laboratory participation in proposals submitted under subsection (d).

SEC. 2203. SUPPORTING RESEARCH AND TECHNICAL ANALYSIS.

(a) BASIC ENERGY SCIENCES.—

(1) PROGRAM DIRECTION.—The Secretary shall continue to support a vigorous program of basic energy sciences to provide basic research support for the development of energy technologies. Such program shall focus on the efficient production and use of energy, and the expansion of our knowledge of materials, chemistry, geology, and other related areas of advancing technology development.

(2) USER FACILITIES.—(A) As part of the program referred to in paragraph (1), priority shall be given to the planning, construction, and operation of user facilities to provide special scientific and research capabilities, including technical expertise and support as appropriate, to serve the research needs of our Nation's universities, industry, private laboratories, Federal Laboratories, and others. Research institutions or individuals from other nations shall be accommodated at such user facilities in cases where reciprocal accommodations are provided to United States research institutions and individuals or where the Secretary considers such accommodation to be in the national interest.

(B) The construction of the Advanced Photon Source at the Argonne National Laboratory is hereby authorized.

(C) The Secretary shall not change the user fee practice in effect as of October 1, 1991, with respect to user facilities unless expressly so authorized by law enacted after the date of enactment of this Act.

(D) The Secretary shall expedite the construction of the Advanced Neutron Source at the Oak Ridge National Laboratory, in order to provide critical research capabilities in support of our Nation's research initiatives for advanced materials, biotechnology, and advanced manufacturing, as well as a broad range of research. Within 90 days after the date of enactment of this Act, the Secretary shall submit to the Congress a plan for such construction, including a schedule for construction.

(3) COST SHARING.—Except as provided in a cooperative research and development agreement, the Secretary shall not require the use of non-Federal funds for research pursuant to this subsection.

(4) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this subsection $5,100,000,000 for the period encompassing fiscal years 1993 through 1997.

(b) UNIVERSITY AND SCIENCE EDUCATION.—

(1) The Secretary shall support programs for improvements and upgrading of university research reactors and associated instrumentation and equipment. Within 1 year after

the date of enactment of this Act, the Secretary shall submit to the Congress a report on the condition and status of university research reactors, which includes a 5-year plan for upgrading and improving such facilities, instrumentation capabilities, and related equipment.

(2) The Secretary shall develop a method to evaluate the effectiveness of science and mathematics education programs provided by the Department of Energy and its laboratories, including specific evaluation criteria.

(3)(A)(i) The Director of the Office of Energy Research shall operate an Experimental Program to Stimulate Competitive Research (hereafter in this paragraph referred to as the "Experimental Program") as part of the Department of Energy's University and Science Education Programs.

(ii) The objectives of the Experimental Program shall be—

(I) to enhance the competitiveness within the peer-review system of investigators from academic institutions in eligible States; and

(II) to increase the probability of long-term growth of competitive funding to investigators at institutions from eligible States.

(iii) In order to carry out the objectives stated in clause (ii), the Experimental Program shall provide for activities which may include (but not be limited to) competitive research awards and graduate traineeships.

(iv) The Experimental Program shall assist those States that—

(I) historically have received relatively little Federal research and development funding; and

(II) have demonstrated a commitment to develop their research bases and improve science and engineering research and education programs at their universities and colleges.

(B) For purposes of this paragraph, the term "eligible States" means States that received DOE-EPSCoR planning or traineeship grants in fiscal year 1991 or fiscal year 1992.

(C) No more than $5,000,000 of the funds appropriated to the Experimental Program in any fiscal year are authorized to be appropriated for graduate traineeships.

(c) TECHNOLOGY TRANSFER.—The Secretary shall support technology transfer activities conducted by the National Laboratories. Within 1 year after the date of enactment of this Act, the Secretary shall submit to the Congress a report on the adequacy of funding for such activities, along with a proposal for reducing the length of time required to consummate cooperative research and development agreements.

(d) FACILITIES SUPPORT FOR MULTIPROGRAM ENERGY LABORATORIES.—

(1) FACILITY POLICY.—The Secretary shall develop and implement a least cost strategy for correcting facility problems, closing unneeded facilities, making facility modifications, and building new facilities at multiprogram energy laboratories.

(2) FACILITY PLAN.—Within 1 year after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a comprehensive plan for conducting future facility maintenance, making repairs, modifications, and new additions, and constructing new facilities at multiprogram energy laboratories. Such plan shall provide for the organized conduct of facilities work in accordance with the following priorities, listed in descending order of priority:

(A) Providing for the safety and health of employees, visitors, and the general public with regard to correcting existing structural, mechanical, electrical, and environmental deficiencies.

(B) Providing for the repair and rehabilitation of existing facilities to keep them in use and prevent deterioration.

(C) Providing engineering design and construction services for those facilities which require modification or additions in order to meet the needs of new or expanded programs. Such plan shall include plans for new facilities and facility modifications which will be required to meet the Department of Energy's changing missions of the twenty-first century, including schedules and estimates for implementation, and including a section outlining long-term funding requirements consistent with anticipated budgets and annual authorization of appropriations. Such plan shall address the coordination of modernization and consolidation of facilities in order to meet changing mission requirements, and shall provide for annual reports to Congress on accomplishments, conformance to schedules, commitments, and expenditures.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for Supporting Research and Technical Analysis, other than for Basic Energy Sciences, $900,000,000 for the period encompassing fiscal years 1993 through 1997.

SEC. 2204. INTEGRATION OF RESEARCH AND DEVELOPMENT.

(a) PROGRAM PLAN.—Within 180 days after the date of enactment of this Act, the Secretary, in consultation with appropriate representatives of industry, institutions of higher education, Department of Energy National Laboratories, and professional and technical societies, shall prepare and submit to Congress a 5-year program plan for improving the integration of basic and applied renewable energy and energy efficiency research and development within the Department of Energy. Such program plan shall include—

(1) an evaluation of current procedures and mechanisms used to integrate basic and applied renewable energy and energy efficiency research and development within the Department of Energy;

(2) an assessment of the role that the Department of Energy National Laboratories play in the integration of basic and applied renewable energy and energy efficiency research and development within the Department of Energy;

(3) an identification and evaluation of models that could enhance integration, with particular attention to combustion research and development and materials research and development at the Department of Energy National Laboratories;

(4) an identification and evaluation of new programs, mechanisms, and related policy options that could improve the integrating process, including—

(A) set aside funding for matching or leveraging basic and applied renewable energy and energy efficiency research and development programs;

(B) more formal linkages; and

(C) program coordination;

(5) recommendations for expanded research and development and new technology areas; and

(6) budget estimates for activities under this section.

(b) APPLIED RESEARCH AND DEVELOPMENT.—For purposes of this section, applied research and development includes end use engineering and technology development, but does not include commercialization.

SEC. 2205. DEFINITIONS.

For purposes of this title—

(1) the term "critical advanced manufacturing technology" means processes, equipment, techniques, practices, and capabilities that are applied for the purpose of—

(A) improving the productivity, quality, and energy efficiency of the design, development, testing, and manufacture of a product; or

(B) expanding the technical capability to design, develop, test, and manufacture a product that is fundamentally different in character from existing products and that will result in improved energy efficiency;

(2) the term "critical advanced materials" means materials that are processed, synthesized, fabricated, and manufactured to develop high performance properties that exceed the corresponding properties of conventional materials for structural, electronic, magnetic, or photonic applications, or for joining, welding, bonding, or packaging components into complex assemblies, including—

(A) advanced monolithic materials such as metals, ceramics, and polymers;

(B) advanced composite materials such as metal matrix (including intermetallics), polymer matrix, ceramic matrix, continuous fiber ceramic composite, and carbon matrix composites; and

(C) advanced electronic, magnetic, and photonic materials, including semiconductor, electrooptic, magnetooptic, thin-film, and special purpose coating materials used in technologies for energy efficiency, renewable energy, or electric power applications;

(3) the term "eligible party" includes an entity only if—

(A) the Secretary finds that the entity's participation would be in the economic interest of the United States, as evidenced by—

(i) investments in the United States in research, development, and manufacturing (including, for example, the development and manufacture of major components or subassemblies in the United States);

(ii) significant contributions to employment in the United States;

(iii) agreement with respect to any technology arising from assistance provided under this title to promote the manufacture within the United States of products resulting from that technology (taking into account the goals of promoting the competitiveness of United States industry), and to procure parts and materials from competitive suppliers; and

(iv) provision of effective protection for the intellectual property rights of the United States; and

(B) either—

(i) the entity is United States-owned; or

(ii) the Secretary finds that the entity is organized under the laws of the United States or of one of the States of the United States and has a parent company which is incorporated in a country which affords to United States-owned companies opportunities, comparable to those afforded to any other company, to participate in any program similar to those authorized under this title; affords to United States-owned companies local investment opportunities comparable to those afforded to any other company; and affords adequate and effective protection for the intellectual property rights of United States-owned companies; and

(4) the term "United States" means the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, the Northern Mariana Islands, and any other territory or possession of the United States.

TITLE XXIII—POLICY AND ADMINISTRATIVE PROVISIONS

SEC. 2301. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS IN ENERGY TECHNOLOGY.

(a) REDUCED PROCESSING TIME.—The Secretary shall take such steps as are necessary to expedite procedures for reviewing cooperative research and development agreements entered into by the Department of Energy or its laboratories to make the administrative review process consistent with those at other Federal agencies and their laboratories.

(b) REPORT TO CONGRESS.—The Secretary shall, with the advice of the Advisory Board established under section 2303, by December 15 of each year, submit a report to Congress that—

(1) identifies cooperative research and development agreements and other agreements intended to expedite the transfer of technologies from Department of Energy laboratories that are then in effect or under negotiation;

(2) specifies the technology with respect to which each such agreement applies or will apply;

(3) identifies the resources committed by the partners to each such agreement, including Department of Energy laboratories; and

(4) provides, to the extent available, information on—

(A) the date each such agreement was proposed;

(B) the date of final approval; and

(C) the reasons for any significant time delay.

(c) COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENT FUNDING.—Program funds authorized for Conservation Research and Development and Fossil Energy Research and Development may be used for the support of customary activities related to the negotiation and execution of cooperative research and development agreements by Department of Energy laboratories.

SEC. 2302. POLICY ON CAPITAL PROJECTS AND CONSTRUCTION.

(a) REQUIREMENT OF PRIOR AUTHORIZATION.—(1) No funds are authorized to be appropriated under title XX, XXI, XXII, XXIII, or XXIV of this Act by the Secretary for any substantial construction project, substantial equipment acquisition, or major construction project unless a report on such project or acquisition has been provided to Congress in accordance with subsection (b).

(2) The Secretary may not obligate any funds for any substantial construction project, substantial equipment acquisition, or major construction project unless such project or acquisition has been specifically authorized by statute.

(3) This subsection may not be amended or modified except by specific reference to this subsection.

(b) REPORTS TO CONGRESS.—(1) Within 180 days after the date of enactment of this Act, the Secretary shall submit to the Congress a report that identifies all construction projects and acquisitions of the Department of Energy described in subsection (a) for which the preliminary design phase is completed but the construction or acquisition is not completed. Such report shall include—

(A) an estimate of the total cost of completion of the construction project or acquisition, itemized by individual activity and by fiscal year; and

(B) an identification of which construction projects or acquisitions have not been specifically authorized by statute, along with an assessment of the relation of each such construction project or acquisition to the goals stated in section 2002.

The Secretary shall annually update and resubmit the report required by this paragraph, as part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914).

(2) The Secretary shall, after completion of the preliminary design phase of a major construction project, submit to the Congress a report containing—

(A) an estimate of the total cost of construction of the facility;

(B) an estimate of the time required to complete construction;

(C) an estimate of the annual operating costs of the facility;

(D) the intended useful operating life of the facility; and

(E) an identification of any existing facilities to be closed as a result of the operation of the facility.

(c) DEFINITIONS.—For purposes of this section—

(1) the term "major construction project" means a project whose construction costs are estimated to exceed **$100,000,000** over the life of the project;

(2) the term "substantial construction project" means a project whose construction costs are estimated to exceed **$10,000,000**, but not to exceed **$100,000,000**, over the life of the project; and

(3) the term "substantial equipment acquisition" means the acquisition of equipment at a cost estimated to exceed **$10,000,000** for the entire acquisition.

SEC. 2303. ENERGY RESEARCH, DEVELOPMENT, AND DEMONSTRATION ADVISORY BOARD.

(a) ESTABLISHMENT.—The Secretary shall establish an Energy Research, Development, and Demonstration Advisory Board (hereafter in this section referred to as the "Advisory Board").

(b) RESPONSIBILITIES.—The Advisory Board shall provide impartial technical advice to the Secretary to assist in the development of energy research, development, and demonstration plans and reports under sections 6 and 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5905 and 5914), under section 801 of the Department of Energy Organization Act (42 U.S.C. 7321), and as otherwise provided in titles XX through XXIV of this Act. The Advisory Board shall also periodically review such plans and reports and their implementation in relation to the goals stated in section 2002 of this Act, and report the results of such review to the Secretary and the Congress.

(c) MEMBERSHIP.—The Advisory Board shall be composed of 11 voting members, appointed by the Secretary from among individuals who are qualified by education, training, and experience to evaluate scientific and technical information on matters referred to the Advisory Board. The membership shall represent a range of scientific and technological expertise that reflects the range of energy research, development, and demonstration programs conducted by the Department of Energy. At least 1 member shall have expertise in the environmental sciences related to the production and consumption of energy. Additionally, the Director of the Office of Energy Research shall serve as an ex officio, nonvoting member of the Advisory Board.

(d) TERMS.—(1) Except as provided in paragraph (2), voting members of the Advisory Board shall serve 3-year terms.

(2) Of the voting members of the Advisory Board initially appointed under subsection (c)—

(A) 4 shall be appointed to 2-year terms; and

(B) 3 shall be appointed to 1-year terms.

(e) CHAIRPERSON.—At the first meeting each year of the Advisory Board, the members shall elect a chairperson from among the membership, who shall serve in such position for 1 year.

(f) MEETINGS.—The Advisory Board shall meet at least once a year.

(g) PANELS.—The Advisory Board, after consultation with the Secretary, may establish such panels as the Advisory Board considers appropriate to develop information, reports, advice, and recommendations for the use of the Advisory Board in carrying out this section.

(h) COMPENSATION.—Each member of the Advisory Board who is not otherwise employed by the Federal Government shall be paid at a rate equal to the daily equivalent of the rate of basic pay payable for GS-18 of the General Schedule for each day (including travel time) during which such member is engaged in the actual performance of the responsibilities of the Advisory Board.

(i) CONFLICT OF INTEREST.—Each member of the Advisory Board shall be subject to the requirements of sections 603 and 604 of the Department of Energy Act (42 U.S.C. 7213 and 7214).

(j) REPORTS TO CONGRESS.—(1) The Advisory Board shall annually submit a report to the Congress on its activities and progress toward meeting its responsibilities under this section. Such report shall be made a part of the report required under section 15 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5914).

(2) The Advisory Board shall prepare and submit to the Congress before February 15 of each year a report on electric generating technology appropriate for demonstration. This report shall recommend—

(A) priorities for demonstration including the size and scale of the demonstration unit;

(B) cost sharing guidelines for projects that demonstrate such technologies;

(C) recommendations for levels of funding for such demonstrations; and

(D) an assessment of completed demonstration projects that identifies the problem areas and recommends improvements.

(k) TERMINATION.—The Advisory Board shall terminate 5 years after the establishment of such Board.

SEC. 2304. AMENDMENTS TO EXISTING LAW.

(a) FEDERAL NONNUCLEAR ENERGY RESEARCH AND DEVELOPMENT ACT OF 1974 AMENDMENTS.—Section 6 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5905) is amended—

(1) in subsection (a)—

(A) by striking "the Administrator" and inserting in lieu thereof "the Department of Energy Act (42 U.S.C. 7101 et seq.), and titles XX through XXV of the Comprehensive National Energy Policy Act, the Secretary, in consultation with the Advisory Board established under section 2303 of the Comprehensive National Energy Policy Act,";

(B) by striking "(to the early 1980's)" in paragraph (1) and inserting in lieu thereof "(the period up to 5 years after submission of the plan or its annual revision)";

(C) by striking "(the early 1980's to 2000)" in paragraph (2) and inserting in lieu thereof "(the period from 5 years to 10 years after submission of the plan or its annual revision)"; and

(D) by striking "(beyond 2000)" in paragraph (3) and inserting in lieu thereof "(the period beyond 10 years after submission of the plan or its annual revision)";

(2) in subsection (b)—

(A) by striking "Administrator" in paragraphs (1) and (2) and inserting in lieu thereof "Secretary, in consultation with the Advisory Board established under section 2303 of the Comprehensive National Energy Policy Act,";

(B) by inserting "Such program shall be updated and transmitted to the Congress annually as part of the report required under section 15." at the end of paragraph (1);

(C) by striking "(to the early 1980's), middle-term (the early 1980's to 2000), and long-term (beyond 2000) time intervals" in paragraph (2) and inserting in lieu thereof ", middle-term, and long-term time intervals described in subsection (a)(1) through (3)";

(D) by striking "Administrator" each place it appears in paragraph (3) and inserting in lieu thereof "Secretary";

(E) by striking "and" at the end of paragraph (3)(P);

(F) by striking the period at the end of paragraph (3)(Q) and inserting in lieu thereof a semicolon; and

(G) by adding at the end of paragraph (3) the following new subparagraphs:

"(R) to implement the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12001 et seq.); and

"(S) to implement titles XX through XXIV of the Comprehensive National Energy Policy Act."; and

(3) in subsection (c)—

(A) by striking "Administrator" and inserting in lieu thereof "Secretary, in consultation with the Advisory Board established under section 2303 of the Comprehensive National Energy Policy Act,"; and

(B) by inserting "Such program shall be updated and transmitted to the Congress annually as part of the report required under section 15." after "and demonstration plans.".

(b) RENEWABLE ENERGY AND ENERGY EFFICIENCY TECHNOLOGY COMPETITIVENESS ACT OF 1989 AMENDMENT.—Section 9(b)(4) of the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12006(b)(4)) is amended by inserting "and the plan developed under section 6 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5905)" after "(42 U.S.C. 7321)".

SEC. 2305. COST SHARING.

Proposals submitted under provisions of titles XX through XXIV this Act requiring cost sharing shall, except as otherwise specifically provided in those provisions, include a commitment from non-Federal sources for providing, in cash or in kind, between 20 and 50 percent of the cost of the project proposed. Each such proposal shall include a justification of the non-Federal percentage proposed. The Secretary may reduce or eliminate the non-Federal percentage requirement under this section if the Secretary determines that research under the proposal is of a more basic or fundamental nature.

SEC. 2306. COMPREHENSIVE ENERGY RESEARCH, DEVELOPMENT, AND DEMONSTRATION PLAN AND PROGRAM.

(a) ENERGY TECHNOLOGY INVENTORY AND STATUS REPORT.—As part of the National Energy Policy Plan required under section 801 of the Department of Energy Organization Act (42 U.S.C. 7321), the Secretary, with the advice of the Advisory Board established under section 2303 of this Act, shall develop an inventory and status report of technologies to enhance energy supply and to improve the efficiency of energy end uses. The inventory and status report shall include fossil, renewable, nuclear, and energy conservation technologies which have not yet achieved the status of fully reliable and cost-competitive commercial availability, but which the Secretary projects may become available with additional research, development, and demonstration. The inventory and status report shall provide, for each technology—

(1) an assessment of its—

(A) degree of technological maturity; and

(B) principal research, development, and demonstration issues, including—

(i) the barriers posed by capital, operating, and maintenance costs;

(ii) technical performance; and

(iii) potential environmental impacts;

(2) the projected time frame for commercial availability, specifying at a minimum whether the technology will be commercially available in the near-term, mid-term, or long-term, whether there are too many uncertainties to project availability, or whether it is unlikely that the technology will ever be commercial; and

(3) a projection of the future cost-competitiveness of the technology in comparison with alternative technologies to provide the same energy service.

The Secretary shall publish the proposed report for a written public comment period of at least 90 days. The Secretary shall consider such comments and include a summary thereof in the report.

(b) RESEARCH AND DEVELOPMENT PRIORITIES.—As part of the National Energy Policy Plan required under section 801 of the Department of Energy Organization Act (42 U.S.C. 7321), the Secretary shall establish comprehensive energy research, development, and demonstration program priorities to give highest priority to the development of technologies assessed in the energy technology inventory and status report that will enable the United States to meet the goals stated in section 2002 of this Act.

SEC. 2307. COSTS RELATED TO DECOMMISSIONING AND THE STORAGE AND DISPOSAL OF NUCLEAR WASTE.

(a) AWARD OF CONTRACTS.—

(1) PRIME CONTRACTORS.—In awarding contracts to perform nuclear hot cell services, the Secretary, in evaluating bids for such contracts, shall exclude from consideration costs related to the decommissioning of nuclear facilities or the storage and disposal of nuclear waste, if—

(A) one or more of the parties bidding to perform such services is a United States company that is subject to such costs; and

(B) one or more of the parties bidding to perform such services is a foreign company that is not subject to comparable costs.

(2) SUBCONTRACTORS.—Any person awarded a contract subject to the restrictions described in paragraph (1) who subcontracts with a person to perform the services described in such paragraph shall be subject to the same restrictions in evaluating bids among potential subcontractors, as the Secretary was subject to in evaluating bids among prime contractors.

(b) ISSUANCE OF REGULATIONS.—The Secretary shall issue regulations not later than 90 days after the date of the enactment of this Act to carry out the requirements of subsection (a).

(c) DEFINITIONS.—As used in this section—

(1) the term "costs related to decommissioning of nuclear facilities" means any cost associated with the compliance with regulatory requirements governing the decommissioning of nuclear facilities licensed by the Nuclear Regulatory Commission;

(2) the term "costs related to storage and disposal of nuclear waste" means any costs, whether required by regulation or incurred as a matter of prudent business practice, associated with the storage or disposal of nuclear waste;

(3) the term "nuclear hot cell services" means services related to the examination of, or performance of various operations on, nuclear fuel rods, control assemblies, or other components that are emitting large quantities of ionizing radiation; and

(4) the term "nuclear waste" means any radioactive waste material subject to regulation by the Nuclear Regulatory Commission or the Department of Energy.

SEC. 2308. USE OF DOMESTIC PRODUCTS.

(a) PROHIBITION AGAINST FRAUDULENT USE OF "MADE IN AMERICA" LABELS.—(1) A person shall not intentionally affix a label bearing the inscription of "Made in America", or any inscription with that meaning, to any product sold in or shipped to the United States, if that product is not a domestic product.

(2) A person who violates paragraph (1) shall not be eligible for any contract for a procurement carried out with amounts authorized under title XX, XXI, XXII, XXIII, or XXIV of this Act, including any subcontract under such a contract pursuant to the debarment, suspension, and ineligibility procedures in subpart 9.4 of chapter 1 of title 48, Code of Federal Regulations, or any successor procedures thereto.

(b) COMPLIANCE WITH BUY AMERICAN ACT.—(1) Except as provided in paragraph (2), the head of each agency which conducts procurements shall ensure that such procurements are conducted in compliance with sections 2 through 4 of the Act of March 3, 1933 (41 U.S.C. 10a through 10c, popularly known as the "Buy American Act").

(2) This subsection shall apply only to procurements made for which—

(A) amounts are authorized by title XX, XXI, XXII, XXIII, or XXIV of this Act to be made available; and

(B) solicitations for bids are issued after the date of enactment of this Act.

(3) The Secretary, before January 1, 1994, shall report to the Congress on procurements covered under this subsection of products that are not domestic products.

(c) DEFINITIONS.—For the purposes of this section, the term "domestic product" means a product—

(1) that is manufactured or produced in the United States; and

(2) at least 50 percent of the cost of the articles, materials, or supplies of which are mined, produced, or manufactured in the United States.

SEC. 2309. LIMITATION ON APPROPRIATIONS.

Appropriations for activities with respect to which specific amounts are authorized under title XX, XXI, XXII, XXIII, or XXIV of this Act may not be made to the extent such appropriations provide for allocations of amounts not explicitly provided for in such titles.

SEC. 2310. RENEWABLE ENERGY AND OCEAN RESOURCES CENTER.

(a) FEASIBILITY STUDY.—The Secretary of Energy shall conduct a feasibility study of establishing a national laboratory able to carry out research, development, and technology transfer activities on—

(1) solar and renewable energy;

(2) energy storage, including the production of hydrogen from renewable energy;

(3) materials applications related to energy and marine environments;

(4) other environmental and ocean resource concepts, including global climate change; and

(5) other matters as the Secretary of Energy may direct.

(b) REPORT TO CONGRESS.—Not later than 180 days after the date of enactment of this Act, the Secretary shall transmit a report on the study conducted in subsection (a) to Congress.

SEC. 2311. UNCOSTED OBLIGATIONS.

(a) REPORT.—Along with the submission of each of the President's annual budget requests to Congress, the Secretary shall submit to Congress a report which—

(1) identifies the amount of Department of Energy funds that were, as of the end of the previous fiscal year—

(A) committed uncosted obligations; and

(B) uncommitted uncosted obligations;

(2) specifically describes the purposes for which all such funds are intended; and

(3) explains the effect that information contained in the report has had on the annual budget request for the Department of Energy being simultaneously submitted.

(b) DEFINITIONS.—Within 90 days after the date of enactment of this Act, the Secretary shall submit a report to the Congress containing definitions of the terms "uncosted obligation", "committed uncosted obligation", and "uncommitted uncosted obligation" for purposes of reports to be submitted under subsection (a).

TITLE XXIV—MARINE AND COASTAL ENVIRONMENT PROTECTION

SEC. 2401. SHORT TITLE.

This title may be cited as the "Marine and Coastal Environment Protection Act of 1992".

Subtitle A—Ocean and Coastal Resources Block Grants

SEC. 2411. SHORT TITLE.

This subtitle may be cited as the "Ocean and Coastal Resources Block Grant Act".

SEC. 2412. DEFINITIONS.

For purposes of this subtitle—

(1) "block grant" means a National Ocean and Coastal Resources Block Grant;

(2) "coastal State" means the Commonwealth of Puerto Rico and any State of the United States in, or bordering on, the Atlantic Ocean, the Pacific Ocean, the Arctic Ocean, the Gulf of Mexico, Long Island Sound, or one or more of the Great Lakes;

(3) "coastal territory" means the Virgin Islands, the Northern Mariana Islands, American Samoa, or Guam;

(4) "Fund" means the Ocean and Coastal Resources Fund;

(5) "local government" means that term as defined in section 304(11) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(11)) and, with respect to the State of Alaska, the term includes unincorporated communities, including Alaska Native villages and with respect to Indian tribes, the term includes any Indian tribe, band, nation, or other organized group or community which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

(6) "Secretary" means the Secretary of Commerce; and

(7) "State" means any coastal State or coastal territory—

(A) for which the Secretary has approved a coastal zone management program under section 306 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455); or

(B) which the Secretary has determined is making satisfactory progress toward the development of such program which will be approvable under such section 306.

The determination made by the Secretary under subparagraph (B) shall not be made for any State for more than one fiscal year and may be renewed with respect to such State for no more than two additional fiscal years.

SEC. 2413. OCEAN AND COASTAL RESOURCES FUND.

(a) There is established in the Treasury of the United States a fund to be known as the Ocean and Coastal Resources Fund.

(b)(1) Beginning in fiscal year 1993 and in each fiscal year thereafter, the Secretary of the Treasury shall deposit into the Fund, not later than 60 days after the end of the previous fiscal year, an amount equal to 4 percent of the average amount of all sums deposited in the Treasury of the United States pursuant to section 9 of the Outer Continental Shelf Lands Act (43 U.S.C. 1338) during the three previous fiscal years.

(2) Beginning in fiscal year 1994, and in each fiscal year thereafter, the amount deposited in the Fund shall not exceed 105 percent of the amount deposited in the Fund in the prior fiscal year.

(c) As provided in advance by appropriation Acts, the Secretary shall use the total amount of any amounts deposited in the Fund during each fiscal year to carry out the purposes of, and in accordance with, the provisions of section 2414 of this Act.

SEC. 2414. NATIONAL OCEAN AND COASTAL RESOURCES BLOCK GRANTS.

(a) Subject to the provisions of section 2413(c) and this section, for fiscal year 1993 and for each subsequent fiscal year, the Secretary shall provide to each State a national ocean and coastal resources block grant from amounts paid into the Fund during such fiscal year under section 2413(b).

(b)(1) No State may receive a block grant for a fiscal year unless such State has submitted to the Secretary, and the Secretary has approved after notice and comment, a report for such fiscal year that—

(A) specifies the proposed allocation by such State of the block grant among the activities specified in section 2415(a);

(B) describes each proposed activity receiving funds provided by the block grant and the amounts proposed to be expended for each activity; and

(C) demonstrates that each proposed project is consistent with the allowable uses specified in section 2415, will benefit the coastal environment of the State, and is justified in terms of its need, design, and cost of implementation.

(2) In order to be eligible to receive a block grant pursuant to this subtitle and before submitting the report required under paragraph (1), each State shall provide opportunities for the public to review and comment on the report and shall hold at least one public hearing on such report at a site in the State convenient for encouraging maximum public participation.

(c) All amounts appropriated from the Fund in any fiscal year shall be apportioned by the Secretary as block grants to eligible States as follows—

(1) 0.25 percent for each coastal territory;

(2) 5.0 percent for each of Alabama and Mississippi;

(3) 10.0 percent for each of Alaska, California, Louisiana, and Texas;

(4) 1.75 percent for each of the remaining States; and

(5) the balance of appropriated amounts among the States in the same ratio that the volume of oil and natural gas produced from the outer Continental Shelf which is first landed in such State in the immediately preceding fiscal year bears to the total volume of oil and natural gas produced from the entire outer Continental Shelf which is first landed in all of the States in such year.

(d) The authority of the Secretary to award block grants under this subtitle shall expire on September 30, 2004. Not later than September 30, 2003, the Secretary, in consultation with the Secretary of the Interior, shall review the apportionment provided in subsection (c) and the existing and projected volume of oil and natural gas from the outer Continental Shelf landed in coastal States. Based on such review, the Secretary shall submit a report to Congress not later than December 31, 2003. The report shall include recommendations for maintaining or revising such apportionment. If a revision of such apportionment is recommended, the report shall include further recommendations for an equitable and orderly transition from the apportionment provided in subsection (c) to any new apportionment provision.

SEC. 2415. REQUIREMENTS ON THE USE OF BLOCK GRANTS.

(a) Funds received pursuant to this subtitle shall be used by the coastal States for—

(1) projects to protect, conserve, or enhance air quality, water quality, fish and wildlife habitats, or wetlands in, or in close proximity, to the State's coastal zone as identified in the State's management program under section 306(d)(2)(A) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455);

(2) projects that ameliorate adverse environmental impacts that result from the siting, construction, expansion, or operation of energy facilities in the coastal zone, above and beyond any mitigation required of permittees under current law;

(3) administrative, resource assessment, and environmental study costs the State incurs in reviewing and approving or disapproving Outer Continental Shelf lease sale, exploration, and development and production activities under any applicable law; and

(4) administrative costs of complying with this subtitle.

(b) The Secretary shall reduce any block grant, provided under this subtitle to a State, by no more than 30 percent of the amount of such State's block grant, if the Secretary makes the determination provided in section 312(c) of the Coastal Zone Management Act of 1972.

SEC. 2416. RELATIONSHIP TO OTHER LAW.

Nothing in this subtitle shall reduce any amounts required to be credited to the Land and Water Conservation Fund, pursuant to the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-4 to 4601-11), or to the Historic Preservation Fund, pursuant to the Historic Preservation Act (16 U.S.C. 470h), from revenues due and payable to the United States for deposit in the Treasury as miscellaneous receipts under the Outer Continental Shelf Lands Act. To the extent that the crediting of such amounts into the Land and Water Conservation Fund or the Historic Preservation Fund makes monies otherwise payable under this subtitle unavailable, payments to the States pursuant to this subtitle shall be reduced on a pro rata basis.

SEC. 2417. LOCAL GOVERNMENTS.

(a) Each State receiving a block grant in any fiscal year under section 2414(a) shall—

(1) establish an effective mechanism for consultation and coordination with its local governments with respect to the allocation of such block grant within the State; and

(2) provide to its local governments allocations from such block grant, taking into consideration the responsibilities of the local governments in carrying out activities under section 2415(a).

(b) In carrying out its responsibilities under this section, each State shall provide no less than 33⅓ percent of each block grant received under section 2414(a) to its local governments.

SEC. 2418. AUDIT.

(a) Under regulations promulgated by the Secretary, any State receiving a block grant under section 2414(a) shall, for each fiscal year that it receives such grant, submit to the Secretary a financial audit of the grant. The income derived from such grant for each fiscal year shall be included in the audit required by this section.

(b) Each audit submitted by a State under subsection (a) shall—

(1) contain a statement of all funds provided by the block grant received by such State for the fiscal year;

(2) include a statement of all financial assistance provided to such State's local governments pursuant to section 2417;

(3) be conducted by an entity which is independent of any agency or official administering or using funds provided by such block grant; and

(4) be conducted in accordance with the financial and compliance element of the standards for audit of governmental organizations, activities, and functions established by the Comptroller General of the United States.

(c) After receiving a State's financial audit under this section, the Secretary shall—

(1) make a preliminary evaluation of each audit submitted pursuant to this section. If the Secretary determines, in the preliminary evaluation of a State's audit, that all or any part of the block grant has not been used as required by this subtitle, the Secretary shall publish notice of this finding in the Federal Register. In addition, the Secretary may suspend, and place in escrow, an amount from any future block grant which is equivalent to the amount misused, pending final determination pursuant to paragraph (3);

(2) provide the State with an opportunity for a hearing; and

(3) make a final determination.

(d) If the Secretary makes a final determination under subsection (c)(3) that all or any part of such funds were not used as required by this subtitle, the Secretary shall—

(1) provide in writing to the State the reasons for the determination and the amount of funds misused; and

(2) take appropriate action to recover an amount equal to that determined to have been misused under subsection (c), including the withholding of such amount from a State's future block grant or the amount which may have been suspended under subsection (c)(1).

(e) If no appeal of the final determination is filed within 60 days following notification to the State of the final determination, any funds withheld or recovered by the Secretary under subsection (d)(2) shall be returned to the Fund.

(f) If an appeal of the final determination is filed within the 60-day period specified in subsection (e), any funds withheld by the Secretary shall be held in escrow until such time as a final determination is made of the appeal.

SEC. 2419. RULES AND REGULATIONS.

Within 180 days of enactment of this Act, the Secretary shall promulgate, pursuant to section 553 of title 5, United States Code, after notice and opportunity for participation by relevant Federal agencies, State agencies, local governments, regional organizations, and other interested parties, both public and private, such rules and regulations as may be necessary to carry out the provisions of this subtitle.

Subtitle B—Revisions to the Outer Continental Shelf Program

SEC. 2431. RELATIONSHIP TO OUTER CONTINENTAL SHELF LEASING PROGRAM AND EXISTING LAW.

(a) RELATIONSHIP TO OUTER CONTINENTAL SHELF LEASING PROGRAM.—Notwithstanding the Outer Continental Shelf Leasing Program maintained by the Secretary pursuant to section 18 of the Outer Continental Shelf Lands Act (43 U.S.C. 1344) or any lease sale schedule contained in a specific leasing program thereunder, the Secretary shall carry out such program consistent with the provisions of this subtitle.

(b) RELATIONSHIP TO EXISTING LAW.—Except as otherwise specifically provided in this Act, nothing in this Act shall be construed to affect the application of other Federal law to activities conducted on the outer Continental Shelf.

SEC. 2432. SPECIFIC REGIONAL OUTER CONTINENTAL SHELF PLANNING AREAS.

The specific regional outer Continental Shelf planning areas referred to in this subtitle shall be those so designated in the Department of the Interior Outer Continental Shelf Natural Gas and Oil Resource Management Comprehensive Program 1992–1997 Proposal, dated July 1991.

SEC. 2433. OUTER CONTINENTAL SHELF LEASING ENVIRONMENTAL SCIENCES REVIEW.

(a) ENVIRONMENTAL SCIENCES REVIEW PANELS.—

(1) ESTABLISHMENT.—An environmental sciences review panel shall be established for each of the Planning Areas described in section 2434, except that one such review panel shall be established for the South Atlantic Planning Area and the Straits of Florida Planning Area, collectively.

(2) PURPOSES.—The purposes of each review panel established under paragraph (1) shall be—

(A) to assess the adequacy of available physical oceanographic, ecological, and socioeconomic information in enabling the Secretary to carry out his responsibilities under the Outer Continental Shelf Lands Act with respect to authorizing—

(i) leasing and exploration; and

(ii) development and production,

in the area covered by such review panel;

(B) if such available information is not adequate for such purposes, to identify the additional studies required to obtain such information;

(C) to identify the potential physical oceanographic, ecological, and socioeconomic impacts of exploration and development in the area covered by such review panel;

(D) to provide for and supervise the peer review, by qualified scientists not employed by the Federal Government, of the proposed studies identified under subparagraph (B) before their submission to the Secretary and separate reviews of each research proposal designed to implement those studies; and

(E) to report to the Secretary on its findings and recommendations under this paragraph.

(3) MEMBERSHIP.—Each review panel established under paragraph (1) shall consist of—

(A) one representative each from the Environmental Protection Agency, the Minerals Management Service, the National Oceanic and Atmospheric Administration, and the United States Fish and Wildlife Service;

(B) at least one representative from each State approved by the Governor of such State in the area covered by such review panel; and

(C) three members appointed by the Secretary of Commerce from a list of individuals nominated by the National Academy of Sciences who are professional scientists in the fields of physical oceanography, marine ecology, and social science.

There shall be 4 members as described in subparagraph (B) on each review panel, except that the total representation under such subparagraph (B) on a review panel covering more than 4 States shall equal the number of States covered.

(4) COMPENSATION.—(A) Members of each review panel appointed under paragraph (3)(C), while performing official duties under this subtitle shall receive compensation for travel and transportation expenses under section 5703 of title 5, United States Code.

(B) Members of each review panel appointed under paragraph (3)(C) may be compensated at a rate to be fixed by the Secretary of Commerce, but not in excess of the maximum rate of pay for grade GS–18 provided in the General Schedule under section 5332 of title 5, United States Code, for each day such member spends performing the duties of the panel.

(b) REPORTS TO CONGRESS.—The Secretary shall, after consideration of the findings and recommendations of each review panel established under subsection (a), submit a report to the Congress—

(1) certifying that the physical oceanographic, ecological, and socioeconomic information available is sufficient to enable the Secretary to carry out his responsibilities under the Outer Continental Shelf Lands Act with respect to authorizing leasing and development in the area covered by such review panel; and

(2) including a detailed explanation of any differences between such certification and the findings and recommendations of the review panel, along with a detailed justification for each such difference.

(c) LEASING CONSIDERATIONS.—The Secretary shall, in determining whether to lease any area described in section 2434—

(1) consider the findings and recommendations of the appropriate review panel established under subsection (a) of this section; and

(2) to the extent that the Secretary disagrees with such findings and recommendations, provide substantial evidence for such disagreement.

SEC. 2434. RESTRICTIONS AND REQUIREMENTS APPLICABLE TO SPECIFIC PLANNING AREAS.

(a) NORTH ATLANTIC PLANNING AREA.—In the North Atlantic Planning Area, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(b) MID-ATLANTIC PLANNING AREA.—In the Mid-Atlantic Planning Area, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous ses-

sion of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(3)(A) The restrictions and requirements of subparagraphs (B), (C), and (D) of this paragraph shall apply only with respect to the area offshore North Carolina included within blocks numbered 246, 247, 290, 291, 334, 335, 378, 379, 422, 423, 466, 467, 510, 511, 553, 554, 555, 597, 598, 640, and 641 on protraction diagram NI 18-2 of the Universal Transverse Mercator Grid System.

(B) Notwithstanding the requirements of section 5(a)(2)(A) and (B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(A) and (B)), the Secretary, within 90 days after the date of enactment of this Act, shall cancel any active leases in the area.

(C) Before the cancellation required under subparagraph (B), no exploration or development plans or permits to drill shall be approved for any such lease in existence on the date of enactment of this Act.

(D) Compensation to lessees owning leases that are canceled under subparagraph (B) shall be determined under section 5(a)(2)(C) and (D) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(C) and (D)).

(c) SOUTH ATLANTIC PLANNING AREA.—In the South Atlantic Planning Area, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(d) STRAITS OF FLORIDA PLANNING AREA.—In the Straits of Florida Planning Area, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(e) EASTERN GULF OF MEXICO PLANNING AREA.—(1) In the Eastern Gulf of Mexico Planning Area north of 26 degrees north latitude and east of the lateral seaward boundary between the States of Florida and Alabama, the following additional restrictions and requirements shall apply:

(A) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(B) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(2) In the Eastern Gulf of Mexico Planning Area, the additional restrictions and requirements in this paragraph shall apply only with respect to the area offshore Florida, south of 26 degrees north latitude and east of 86 degrees west longitude:

(A) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(B) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(C) Studies to acquire the information found inadequate by the National Research Council's report shall be completed prior to any lease sale held after January 1, 2002.

(D)(i) Notwithstanding the requirements of section 5(a)(2)(A) and (B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(A) and (B)), the Secretary, within 90 days after the date of enactment of this Act, shall cancel any active leases in the area.

(ii) Before the cancellation required under clause (i), no exploration or development plans or permits to drill shall be approved for any such lease in existence on the date of enactment of this Act.

(iii) Compensation to lessees owning leases that are cancelled under clause (i) shall be determined under section 5(a)(2)(C) and (D) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(C) and (D)).

(f) SOUTHERN CALIFORNIA, CENTRAL CALIFORNIA, AND NORTHERN CALIFORNIA PLANNING AREAS.—In the Southern California, Central California, and Northern California Planning Areas, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(3) Studies to acquire the information found inadequate by the National Research Council's report shall be completed, and additional research on the incremental risks of an oil spill in the area shall be conducted, prior to any lease sale held after January 1, 2002.

(g) WASHINGTON-OREGON PLANNING AREA.—In the Washington-Oregon Planning Area, the following additional restrictions and requirements shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(3) Studies recommended by the Pacific Northwest Outer Continental Shelf Task Force, shall be completed prior to any lease sale held after January 1, 2002.

(4) No leasing or preleasing activity shall be conducted within the area designated as the Olympic Coast National Marine Sanctuary in accordance with Public Law 100-627.

(h) NORTH ALEUTIAN BASIN PLANNING AREA.—In the North Aleutian Basin Planning Area, the additional restrictions and requirements in this paragraph shall apply:

(1) No preleasing activity shall be conducted before the issuance of the first final 5-year leasing plan under section 18 of the Outer Continental Shelf Lands Act after January 1, 2002.

(2) No lease sale shall be held until after the expiration of 45 days of continuous session of Congress after the Secretary submits a report with respect to the area under section 2433(b).

(3)(A) Notwithstanding the requirements of section 5(a)(2)(A) and (B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(A) and (B)), the Secretary, within 90 days after the date of enactment of this Act, shall cancel any active leases in the area.

(B) Before the cancellation required under subparagraph (A), no exploration or development plans or permits to drill shall be approved for any such lease in existence on the date of enactment of this Act.

(C) Compensation to lessees owning leases that are cancelled under subparagraph (A) shall be determined under section 5(a)(2)(C) and (D) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(C) and (D)).

(i) CONTINUOUS SESSION OF CONGRESS.—In computing any 45-day period of continuous session of Congress under this section—

(1) continuity of session is broken only by an adjournment of the Congress sine die; and

(2) the days on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain are excluded.

SEC. 2435. ALASKA OCS SUBSISTENCE REVIEW.

The Outer Continental Shelf Lands Act (43 U.S.C. 1301 et seq.), as amended by section 2434(h) of this Act, is further amended by adding at the end thereof the following:

"SEC. 32. ALASKA OCS SUBSISTENCE REVIEW.—Prior to issuing any five-year program under section 18 of this Act, conducting any lease sale, or approving any plan or permit for exploration, development, or production activities in the Alaska region authorized by this Act, the Secretary shall comply with section 810 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3120). At the lease sale stage the Secretary shall fully consider the effects of exploration, development, and production upon subsistence uses.".

SEC. 2436. DEFINITIONS.

For the purposes of this subtitle—

(1) terms defined in the Outer Continental Shelf Lands Act have the meaning given such terms in that Act;

(2) the term "adequate" means sufficiently complete to enable necessary decisions to be made under the Outer Continental Shelf Lands Act, and of sufficient scientific quality to be repeatable, reliable, and valid in measurements and analysis with appropriate methods and subject;

(3) the term "National Research Council's report" means the report entitled "The Adequacy of Environmental Information for Outer Continental Shelf Oil and Gas Decisions: Florida and California" issued in 1989 by the Council's Committee to Review the Outer Continental Shelf Environmental Studies Program and supported by the President's Outer Continental Shelf Leasing and Development Task Force through Department of the Interior Contract No. 1435000130495; and

(4) the term "preleasing activities" means activities conducted before a lease sale is held, and includes the scheduling of a lease, requests for industry interest, calls for information and nominations, area identifications, publication of draft or final environmental impact statements, notices of sale, and any form of rotary drilling; but such term does not include environmental, geologic, geophysical, economic, engineering, or other scientific analyses, studies, and evaluations.

Subtitle C—Environmental Studies Program

SEC. 2441. ENVIRONMENTAL STUDIES.

Section 20(a)(1) of the Outer Continental Shelf Lands Act (43 U.S.C. 1346(a)(1)) is amended by adding at the end the following new sentence: "Such study shall include an assessment of the adequacy of available physical oceanographic, ecological, and socioeconomic information.".

SEC. 2442. AUTHORIZATION OF APPROPRIATIONS.

Section 20 of the Outer Continental Shelf Lands Act (43 U.S.C. 1346) is amended by adding at the end the following new subsections:

"(g) ADEQUACY OF INFORMATION.—For the purposes of this section, the term 'adequacy' means sufficiently complete to enable necessary decisions to be made under this Act, and of sufficient quality to be repeatable, reliable, and valid in measurements and analysis with appropriate methods and subject.

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section—

"(1) $21,000,000 for fiscal year 1993;

"(2) $25,000,000 for fiscal year 1994;

"(3) $30,000,000 for fiscal year 1995;

"(4) $35,000,000 for fiscal year 1996; and

"(5) $40,000,000 for fiscal year 1997.".

Subtitle D—Miscellaneous

SEC. 2451. CANCELLATION OF LEASES.

Section 5(a)(2)(B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)(B)) is amended—

(1) by inserting "or pursuant to an Act of Congress" after "by the Secretary"; and

(2) by striking "five" and inserting in lieu thereof "two".

SEC. 2452. COMPENSATION FOR LEASE BUYBACKS.

Section 5(a)(2) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(2)) is amended—

(1) by inserting "and" at the end of subparagraph (C); and

(2) by adding at the end the following new subparagraph:

"(D) that compensation a lessee is entitled to receive under subparagraph (C) may be made in the form of currency, forgiveness of the lessee's obligation to pay rents or royalties which would otherwise be paid to the Federal Government on another lease issued pursuant to this Act, or a combination of currency with such forgiveness.".

SEC. 2453. EVALUATION OF DEVELOPMENT POTENTIAL.

The Act of August 30, 1935 (Public Law No. 409 of the 74th Congress), is amended by inserting "The Secretary shall undertake a demonstration project to evaluate the potential for hydropower development, utilizing tidal currents;" after "Document Numbered 15, Seventy-fourth Congress;".

Subtitle E—Alaska Resources

PART I—TRANS-ALASKA PIPELINE

SEC. 2461. RESPONSIBILITY OF RIGHT-OF-WAY HOLDER.

Title II of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651 et seq.) is amended by adding at the end thereof the following:

"RESPONSIBILITY OF RIGHT-OF-WAY HOLDER

"SEC. 208. In addition to the existing duties to respond to, contain, and clean up oil spills within the State of Alaska, including Prince William Sound, under section 204(b) of this Act and other laws and requirements, the holder of the right-of-way shall submit an oil spill response plan for Prince William Sound to the Secretary of Transportation for approval under section 4202 of the Oil Pollution Act of 1990.".

SEC. 2462. EXXON VALDEZ SETTLEMENT FUND LAND ACQUISITION.

Title II of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1651 et seq.), as amended by section 2401 of this Act, is amended by adding at the end thereof the following:

"EXXON VALDEZ SETTLEMENT FUND HABITAT ACQUISITION

"SEC. 209. (a) Notwithstanding any other provision of law, all amounts received by the United States in settlement of United States v. Exxon Corporation and Exxon Shipping Company (Case No. A90-015-1CR and 2CR) (Criminal Plea Agreement) shall be exclusively utilized to acquire from willing sellers land or interests in land, including timber rights, within the Chugach National Forest in the Prince William Sound region and in other Gulf of Alaska areas affected by the discharge of oil from the T/V EXXON VALDEZ, including Kenai Fjords National Park, Afognak Island, the Alaska Maritime National Wildlife Refuge, and Kodiak National Wildlife Refuge.

"(b) Notwithstanding any other provision of law, the Federal Trustees identified in the Memorandum of Agreement and Consent Decree entered into by the United States and the State of Alaska, as approved by the District Court for the District of Alaska on October 8, 1991, shall not approve any restoration plan which does not include acquisition, in addition to that required by subsection (a), as the primary component of such restoration plan.".

SEC. 2463. SUBSISTENCE CLAIMS AGAINST TRANS-ALASKA PIPELINE LIABILITY FUND.

Section 204(c)(13) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653(c)(13)) is amended—

(1) by striking out "and" at the end of subparagraph (A);

(2) by striking out the period at the end of subparagraph (B) and inserting in lieu thereof "; and"; and

(3) by adding after subparagraph (B) the following:

"(C) all injuries suffered by individuals or entities due to the impact of a discharge on people engaging in subsistence.

"In order to expedite compensation, the Fund shall certify a class action claim with respect to subparagraph (C).".

SEC. 2464. TAPS REMEDY NOT EXCLUSIVE.

Section 204(c)(3) of the Trans-Alaska Pipeline Authorization Act (43 U.S.C. 1653(c)(3)) is amended by adding at the end thereof the following: "Notwithstanding any other provision of law, claim determinations or payments by the Fund shall not limit the right of any person to pursue other remedies provided by State or Federal law against parties other than the Fund for the full amount of all uncompensated damages caused by a discharge of oil.".

SEC. 2465. UTILITY CORRIDOR.

The Secretary of the Interior shall not implement the Bureau of Land Management's Record of Decision related to the Utility Corridor Management Plan, dated January 11, 1991. Notwithstanding any other provision of law, lands withdrawn by Public Land Order No. 5150 of December 31, 1971, that are owned by the United States shall not be conveyed or otherwise transferred to any other entity, but shall be retained and managed by the Secretary pursuant to applicable law.

PART II—ARCTIC RESEARCH

SEC. 2471. FUNDING FOR ARCTIC RESEARCH PROGRAMS.

(a) IN GENERAL.—There is hereby authorized to be appropriated for a period of five fiscal years, commencing in fiscal year 1994, monies not to exceed $20,000,000 annually to be used to fund high priority research projects and programs related to, among other things, understanding the long- and short-term effects of energy development and productive activities on the Arctic environment. To be eligible for funding under this section, the project or program must be identified in accordance with subsection (b).

(b) ARCTIC RESEARCH PROJECTS LIST.—(1) Not later than six months after the date of enactment of this section, the Chairman of the Interagency Arctic Research Policy Committee shall prepare, with the concurrence of the Arctic Research Commission, a list of arctic research projects and programs as described in subsection (a) which will be eligible for funding under this section.

(2) The list referred to in paragraph (1) shall be transmitted to the Congress as part of the first budget submitted by the President following enactment of this section. Thereafter, revisions of the list shall be prepared in accordance with paragraph (1) and transmitted to the Congress as part of the President's budget submission.

Subtitle F—Transshipment of Plutonium Through United States Ports

SEC. 2481. TRANSSHIPMENT OF PLUTONIUM THROUGH UNITED STATES PORTS.

(a) DENIAL OF PORT PRIVILEGES.—

(1) A vessel in transit from a foreign nation to a foreign nation that is transporting plutonium shall not be permitted entry, even under emergency circumstances, to any place in the United States and to the navigable waters of the United States, unless the container for the plutonium is certified as safe by the United States Nuclear Regulatory Commission in accordance with subsection (b).

(2) INTERNATIONAL LAW.—Paragraph (1) of this subsection applies except when denial of entry violates international law or practice.

(b) RESPONSIBILITIES OF THE NUCLEAR REGULATORY COMMISSION.—

(1) DETERMINATION OF SAFETY.—The Nuclear Regulatory Commission shall determine whether the container referred to in subsection (a) is safe for use in the transporting of plutonium by vessels and transmit to Congress a certification for the purpose of such subsection in the case of each type of container determined to be safe.

(2) TESTING.—In order to make a determination with respect to a container under paragraph (1), the Nuclear Regulatory Commission shall test such container, to the fullest extent possible, under conditions approximating a maximum credible accident involving collision, fire, and sinking, based upon actual worst case maritime accident experience.

(3) LIMITATION.—The Nuclear Regulatory Commission may not certify under this section that a container is safe for use in the transportation of plutonium by vessel if the container ruptured or released any of its contents during tests conducted in accordance with paragraph (2).

(4) EVALUATION.—The Nuclear Regulatory Commission shall evaluate the container certification required by subsection (a) in accordance with the National Environmental Policy Act of 1969 (83 Stat. 852; 42 U.S.C. 4321 et seq.) and all other applicable law.

(c) CONTENT OF CERTIFICATION.—A certification referred to in subsection (a) with respect to a container shall include—

(1) the determination of the Nuclear Regulatory Commission as to the safety of such container;

(2) a statement that the requirements of subsection (b)(2) were satisified in the testing of such container; and

(3) a statement that the container did not rupture or release any of its contents into the environment during testing.

(d) DESIGN OF TESTING PROCEDURES.—In designing the tests required by subsection (b), the Nuclear Regulatory Commission shall—

(1) convene an independent scientific panel of marine safety experts, a majority of whom shall be representatives of the Coast Guard and National Transportation Safety Board, to assist in (A) the definition of a maximum credible accident involving plutonium transport based upon a survey of maritime accidents and an assessment of the most severe conditions under which such accidents have occured and (B) the design of appropriate test procedures to replicate such conditions;

(2) provide for public notice of the proposed definition and test procedures;

(3) provide a reasonable opportunity for public comment on such definition and procedures; and

(4) consider such comments, if any, before making its final determination with respect to such definition and procedures.

(e) TESTING RESULTS: REPORTS AND PUBLIC DISCLOSURE.—The Nuclear Regulatory Commission shall transmit to Congress a report on the results of each test conducted under this section and shall make such results available to the public.

(f) INAPPLICABILITY TO MEDICAL DEVICES.—Subsections (a) through (c) shall not apply with respect to plutonium in any form contained in a medical device designed for individual human application.

(g) INAPPLICABILITY TO MILITARY USES.—Subsections (a) through (c) shall not apply to plutonium in the form of nuclear weapons or to other shipments of plutonium determined by the Department of Energy to be directly connected with the United States national security or defense programs.

(h) PAYMENT OF COSTS.—All costs incurred by the Nuclear Regulatory Commission associated with the testing program required by this section, and administrative costs related thereto, shall be reimbursed to the Nuclear Regulatory Commission by any foreign country receiving plutonium shipped through the United States in containers specified by the Commission.

(i) DEFINITION.—The term "United States" means the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Virgin Islands, and any other territory or possession of the United States.

TITLE XXV—COAL, OIL, AND GAS

SEC. 2501. AMENDMENT TO SURFACE MINING ACT.

Section 402(b) of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1232(b)) is amended by striking "1995" and inserting in lieu thereof "2010, after which time the fee shall be established at a rate to continue to provide for the deposit referred to in subsection (h)".

SEC. 2502. HOT DRY ROCK GEOTHERMAL ENERGY.

(a) USGS PROGRAM.—The Secretary of the Interior, acting through the United States Geological Survey, and in consultation with the Secretary of Energy, shall establish a cooperative Government-private sector program with respect to hot dry rock geothermal energy sources on public lands (as such term is defined in section 103(e) of the Federal Land Policy and Management Act of 1976) and lands managed by the Department of Agriculture, other than any such public or other lands that are withdrawn from geothermal leasing. Such program shall include, but shall not be limited to, activities to identify, select, and classify those areas throughout the United States that have a high potential for hot dry rock geothermal energy production and activities to develop and disseminate information regarding the utilization of such areas for hot dry rock energy production. Such information may include information regarding field test processes and techniques for assuring that hot dry rock geothermal energy development projects are developed in an economically feasible manner without adverse environmental consequences. Utilizing the information developed by the Secretary, together with information developed in connection with other related programs carried out by other Federal agencies, the Secretary, acting through the United States Geological Survey, may also enter into contracts and cooperative agreements with any public or private entity to provide assistance to any such entity to enable such entity to carry out additional projects with respect to the utilization of hot dry rock geothermal energy resources which will further the purposes of this section.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necesary to carry out this section.

SEC. 2503. HOT DRY ROCK GEOTHERMAL ENERGY IN EASTERN UNITED STATES.

The United States Geological Survey, in collaboration with the Secretary of Energy, shall convene a workshop of interested governmental and private parties to discuss the regional potential for hot, dry, rock geothermal energy in the Eastern United States. The purpose of the workshop shall be to review the status of recoverability of hot-dry-rock energy in the Eastern United States and to determine what geologic, technological, and economic obstacles need to be overcome to make the utilization of hot dry rock energy feasible. The workshop shall be convened within 6 months after enactment of this Act and the United States Geological Survey shall submit a report to Congress within 6 months after the workshop containing a summary of the findings and conclusions of the workshop.

TITLE XXVI—INDIAN ENERGY RESOURCES

SEC. 2601. SHORT TITLE.

This title may be cited as the "Indian Energy Amendments of 1992".

SEC. 2602. DEFINITIONS.

For purposes of this title—

(1) except as provided in section 1104(c) and section 1105(d), the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

(2) the term "Indian reservation" includes Indian reservations; public domain Indian allotments; former Indian reservations in Oklahoma; land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.); and dependent Indian communities within the borders of the United States whether within the original or subsequently acquired territory thereof, and whether within or without the limits of a state; and

(3) the term "Secretary" means the Secretary of the Department of Energy.

SEC. 2603. TREATMENT OF INDIAN TRIBES AS STATES.

(a) INVOLVEMENT OF TRIBES.—In implementing the provisions of this Act, the Secretary shall involve Indian tribes to the maximum extent possible and where appropriate and shall do so in a manner that is consistent with the Federal trust and the Government-to-Government relationship between Indian tribes and the Federal Government.

(b) TREATMENT AS STATE.—The Secretary may, whenever appropriate, treat an Indian tribe as a State for any purpose of sections 122 and 123 pursuant to such reasonable conditions as the Secretary may establish.

SEC. 2604. PROMOTING ENERGY RESOURCE DEVELOPMENT AND ENERGY VERTICAL INTEGRATION ON INDIAN RESERVATIONS.

(a) DEMONSTRATION PROGRAMS.—The Secretary of Energy, in consultation with the Secretary of the Interior, shall establish and implement a demonstration program to assist Indian tribes in pursuing energy self-sufficiency and to promote the development of a vertically integrated energy industry on Indian reservations, in order to increase development of the substantial energy resources located on such Indian reservations. Such program shall include, but not be limited to, the following components:

(1) The Secretary shall provide development grants to Indian tribes or to joint ventures which are 51 percent or more controlled by an Indian tribe to assist Indian tribes in obtaining the managerial and technical capability needed to develop the energy resources on Indian reservations. Such grants shall include provisions for management training for tribal or village members, improving the technical capacity of the Indian tribe, and the reduction of tribal unemployment. Each grant shall be for a period of 3 years.

(2) The Secretary shall provide grants, not to exceed 50 percent of the project costs, for vertical integration projects. For purposes of this paragraph, the term "vertical integration project" means a project that promotes the vertical integration of the energy resources on an Indian reservation, so that the energy resources are used or processed on such Indian reservation. Such term includes, but is not limited to, projects involving solar and wind energy, oil refineries, the generation and transmission of electricity, hydroelectricity, cogeneration, natural gas distribution, and clean, innovative uses of coal.

(3) The Secretary shall provide technical assistance (and such other assistance as is appropriate) to Indian tribes for energy resource development and to promote the vertical integration of energy resources on Indian reservations.

(b) LOW INTEREST LOANS.—

(1) IN GENERAL.—The Secretary shall establish a program for making low interest loans to Indian tribes. Such loans shall be used to promote Indian energy resource exploitation, development, and vertical integration.

(2) TERMS.—The Secretary shall establish reasonable terms for loans made under this subsection.

(c) DEFINITION.—For the purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated—

(1) $10,000,000 for each of the fiscal years 1994, 1995, 1996, 1997, 1998, and 1999 to carry out the purposes of subsection (a)(1);

(2) $10,000,000 for each of the fiscal years 1994, 1995, 1996, 1997, 1998, and 1999 to carry out the purposes of subsection (a)(2); and

(3) such sums as are necessary to carry out the purposes of subsection (b).

SEC. 2605. INDIAN ENERGY RESOURCE REGULATION.

(a) GRANTS.—The Secretary is authorized to make annual grants to Indian tribes for the purpose of assisting Indian tribes in the development, administration, implementation, and enforcement of tribal laws and regulations governing the development of energy resources on Indian reservations.

(b) PURPOSE.—The purposes for which funds provided under a grant awarded under subsection (a) may be used include, but are not limited to—

(1) the training and education of employees responsible for enforcing or monitoring compliance with Federal and tribal laws and regulations;

(2) the development of tribal inventories of energy resources;

(3) the development of tribal laws and regulations;

(4) the development of tribal legal and governmental infrastructure to regulate environmental quality pursuant to Federal and tribal laws; and

(5) the enforcement and monitoring of Federal and tribal laws and regulations.

(c) OTHER ASSISTANCE.—The Secretary shall cooperate with and provide assistance to Indian tribes for the purpose of assisting Indian tribes in the development, administration, and enforcement of tribal programs. Such cooperation and assistance shall include the following:

(1) Technical assistance and training, including the provision of necessary circulars and training materials.

(2) Assistance in the preparation and maintenance of a continuing inventory of information on tribal energy resources and tribal operations. In providing assistance under this paragraph, Federal departments and agencies shall make available to Indian tribes all relevant data concerning tribal energy resource development consistent with applicable laws regarding disclosure of proprietary and confidential information.

(d) DEFINITION.—For the purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including an Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $10,000,000 for each of the fiscal years 1994, 1995, 1996, 1997, 1998, and 1999 to carry out the purposes of this section.

SEC. 2606. INDIAN ENERGY ROYALTY MANAGEMENT COMMISSION.

(a) ESTABLISHMENT.—There is hereby established the Indian Energy Taxation and Royalty Management Commission (hereafter in this Act referred to as the "Commission").

(b) MEMBERSHIP.—The Commission shall consist of—

(1) 8 members appointed by the Secretary of the Interior from recommendations submitted by Indian tribes, at least 4 of whom shall be elected tribal leaders;

(2) 3 members appointed by the Secretary of the Interior from recommendations submitted by the Governors of States that have Indian reservations with energy resources;

(3) 1 member appointed by the Secretary of the Interior from among individuals in the private sector with expertise in tribal and State taxation of energy resources;

(4) 1 member appointed by the Secretary of the Interior from individuals with expertise in oil and gas royalty management administration, including auditing and accounting;

(5) 1 member appointed by the Secretary of the Interior from recommendations submitted by national environmental organizations; and

(6) the Secretary of the Interior, or his designee.

(c) APPOINTMENTS.—Members of the Commission shall be appointed not later than 60 days following the date of the enactment of this title.

(d) VACANCIES.—A vacancy in the Commission shall be filled in the same manner as the original appointment was made. A vacancy in the Commission shall not affect the powers of the Commission.

(e) CHAIRPERSON.—The members of the Commission shall elect a Chairperson from among the members of the Commission.

(f) QUORUM.—7 members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

(g) ORGANIZATIONAL MEETING.—The Commission shall hold an organizational meeting to establish the rules and procedures of the Commission not later than 30 days after the members are first appointed to the Commission.

(h) COMPENSATION.—Each member of the Commission who is not an officer or employee of the United States shall be compensated at a rate established by the Commission, not to exceed the rate of basic pay payable for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the actual performance of duties as a member of the Commission. Each member of the Commission who is an officer or employee of the United States shall receive no additional compensation.

(i) TRAVEL.—While away from their homes or regular places of business in the performance of duties for the Commission, all members of the Commission shall be allowed travel expenses, including per diem in lieu of subsistence, at a rate established by the Commission not to exceed the rates authorized for employees under sections 5702 and 5703 of title 5, United States Code.

(j) COMMISSION STAFF.—

(1) EXECUTIVE DIRECTOR.—The Commission shall appoint an Executive Director who shall be compensated at a rate established by the Commission not to exceed the rate of basic pay payable for level V of the Executive Schedule under section 5316 of title 5, United States Code.

(2) ADDITIONAL PERSONNEL.—With the approval of the Commission, the Executive Director may appoint and fix the compensation of such additional personnel as the Executive Director considers necessary to carry out the duties of the Commission. Such appointments shall be made in accordance with the provisions of title 5, United States Code, governing appointments in the competitive service, but at rates not to exceed the rate of basic pay payable for level 15 of the General Schedule.

(3) EXPERTS AND CONSULTANTS.—Subject to such rules as may be issued by the Commission, the Chairperson may procure temporary and intermittent services of experts and consultants to the same extent as is authorized by section 3109 of title 5, United States Code, but at rates not to exceed $200 a day for individuals.

(4) PERSONNEL DETAIL AUTHORIZED.—Upon the request of the Chairperson, the head of any Federal agency is authorized to detail, on a reimbursable basis, any of the personnel of such agency to the Commission to assist the Commission in carrying out its duties under this title. Such detail shall be without interruption or loss of civil service status or privilege.

(k) DUTIES OF THE COMMISSION.—The Commission shall—

(1) develop proposals to address the dual taxation by Indian tribes and States of the extraction of mineral resources on Indian reservations;

(2) make recommendations to improve the management, administration, accounting, and auditing of royalties associated with the production of oil and gas on Indian reservations;

(3) develop alternatives for the collection and distribution of royalties associated with the production of oil and gas on Indian reservations; and

(4) develop proposals on incentives to foster the development of energy resources on Indian reservations.

(l) POWERS OF THE COMMISSION.—The powers of the Commission shall include the following:

(1) For the purpose of carrying out its duties under this section, the Commission may hold hearings, take testimony, and receive evidence at such times and places as the Commission considers appropriate. The Commission may administer oaths or affirmations to witnesses appearing before the Commission.

(2) Any member or employee of the Commission may, if authorized by the Commission, take any action which the Commission is authorized to take by this section.

(3) The Commission may secure directly from any Federal agency such information as may be necessary to enable the Commission to carry out its duties under this section.

(m) COMMISSION REPORT.—The Commission shall, within 12 months after funds are made available to carry out this section, prepare and transmit to the President, the Committee on Interior and Insular Affairs of the House of Representatives, the Select Committee on Indian Affairs of the Senate, and the Committee on Energy and Natural Resources of the Senate, a report containing the recommendations and proposals specified in subsection (k).

(n) AUTHORIZATION.—There are authorized to be appropriated to the Commission $1,000,000 to carry out this section. Such sum shall remain available, without fiscal year limitation, until expended.

(o) TERMINATION.—The Commission shall terminate 30 days after submitting the final report required under subsection (m).

TITLE XXVII—INSULAR AREAS ENERGY SECURITY

SEC. 2701. SHORT TITLE.

This title shall be cited as the "Insular Areas Energy Security Act".

SEC. 2702. THE INSULAR AREAS ENERGY SECURITY AMENDMENT OF 1992.

Section 604 of the Act entitled "An Act to authorize appropriations for certain insular areas of the United States, and for other purposes", Public Law 96-597, as amended by Public Law 98-213 (48 U.S.C. 1492), is amended by adding the following subsection—

"(g)(1) There are hereby authorized to be appropriated $2,000,000 for each fiscal year through 1998 for grants to insular area governments to carry out projects to evaluate the feasibility of, develop options for, and encourage the adoption of energy efficiency and renewable energy measures which reduce the dependence of the insular area on imported fuels and improve the quality of life in the insular area, such sums to remain available until expended.

"(2) Factors which shall be considered in determining the amount of financial assistance to be provided for a proposed energy-efficiency or renewable energy grant under this subsection shall include, but not be limited to, the following:

"(A) Whether the measure will reduce the relative dependence of the insular area on imported fuels.

"(B) The ease and costs of operation and maintenance of any facility contemplated as part of the project.

"(C) Whether the project will rely on the use of conservation measures or indigenous, renewable energy resources that were identified in the report by the Secretary of Energy pursuant to this section or identified by the Secretary as consistent with the purposes of this section.

"(D) Whether the measure will contribute significantly to the quality of the environment in the insular area.".

SEC. 2703. DEFINITION.

Section 401 of Public Law 97-425, the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10241) is amended by inserting "and" after "States," the first place it appears, inserting a period after "District of Columbia", and striking the remainder of the sentence.

SEC. 2704. ELECTRICITY REQUIREMENTS IN TRUST TERRITORY OF THE PACIFIC ISLANDS.

Not later than 6 months after the date of enactment of this Act, the Secretary of the Interior shall, in consultation with the Government of Palau, submit a plan to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives to extend electric service to those areas of the Trust Territory of the Pacific Islands that are not yet served or fully served and eliminate any debt incurred in the Trust Territory of the Pacific Islands relating to its electrical generating plant and related facilities. The plan shall include—

(1) an assessment of the power needs of the Trust Territory of the Pacific Islands both currently, and for the year 2000, including how electricity in the Trust Territory of the Pacific Islands will be distributed to those areas that on the date of enactment of this Act do not have electricity;

(2) an assessment of, and recommendations regarding, how these needs can be met;

(3) an assessment of, and recommendations regarding, any additional legal authority or funding which may be necessary to meet these needs; and

(4) an assessment of, and recommendations regarding, the respective roles of the Federal Government and the Government of the Trust Territory of the Pacific Islands in meeting these needs.

SEC. 2705. PCB CLEANUP IN MARSHALL ISLANDS AND FEDERATED STATES OF MICRONESIA.

Section 105(h)(1) of Public Law 99-239 is amended by adding at the end the following new paragraph:

"The programs and services of the Environmental Protection Agency regarding PCBs shall, to the extent applicable, as appropriate, and in accordance with applicable law, be construed to be made available to such islands.".

TITLE XXVIII—NUCLEAR PLANT LICENSING

Subtitle A—Hearing and One-Step Licensing

SEC. 2801. REQUIREMENT OF HEARING ON THE RECORD; JUDICIAL REVIEW.

(a) HEARING.—Section 189 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2239(a)) is amended—

(1) in paragraph (1), by striking "In any" and inserting "Except as provided in paragraph (3), in any" and by striking "Commission" the first place it appears and inserting "Nuclear Regulatory Commission (in this section referred to as the 'Commission')";

(2) in paragraph (2)(A), by striking "The Commission" and inserting "Except as provided in paragraph (3), the Commission"; and

(3) by adding at the end the following new paragraph:

"(3) In any proceeding described in paragraph (1) to grant, suspend, revoke, renew, or amend any license, construction permit, or combined construction permit and operating license for a production or utilization facility licensed under section 103 or 104 b., the Commission shall grant a hearing on the record, upon the request of any person whose interest may be affected by the proceeding, and shall admit any such person as a party to such proceeding.".

(b) JUDICIAL REVIEW.—Section 189 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2239(b)) is amended by striking "subsection a. above" and inserting "subsection a. or c.".

SEC. 2802. PREOPERATIONAL HEARING.

Section 189 of the Atomic Energy Act of 1954 (42 U.S.C. 2239), as amended by section 2101 of this Act, is further amended by adding at the end the following new subsection:

"c. PREOPERATIONAL NOTICE AND HEARING.—

"(1) NOTICE.—The Commission shall publish in the Federal Register notice of the expected date of fuel loading and criticality of a production or utilization facility issued a combined construction permit and operating license under section 103 or 104 b., not later than 150 days before such date.

"(2) HEARING.—During the 60-day period beginning on the date of publication under paragraph (1), the Commission shall grant a hearing on the record, upon request, to any person whose interest may be affected by the operation of the production or utilization facility that is the subject of such notice.

"(3) SCOPE.—In a hearing granted under paragraph (2), the Commission shall be limited to consideration of—

"(A) whether such facility will operate in conformity with this Act and the rules and regulations of the Commission; and

"(B) whether such facility has been constructed and will operate in conformity with any permit or license that has been issued for such facility by the Commission.

"(4) LIMITATION.—The Commission may grant a hearing under paragraph (2) to consider the issues described in subparagraph (A) of paragraph (3) only if the person requesting such hearing presents significant new information previously unconsidered by the Commission.".

SEC. 2803. COMBINED CONSTRUCTION PERMITS AND OPERATING LICENSES.

Section 185 of the Atomic Energy Act of 1954 (42 U.S.C. 2235) is amended—

(1) by striking "SEC. 185. CONSTRUCTION PERMITS.—All" and inserting the following:

"SEC. 185. CONSTRUCTION PERMITS, LICENSES, AND COMBINED LICENSES.—

"a. CONSTRUCTION PERMITS AND LICENSES.—All";

(2) by striking "Commission" the first place it appears and inserting "Nuclear Regulatory Commission (in this section referred to as the 'Commission')"; and

(3) by adding at the end the following new subsection:

"b. COMBINED LICENSES.—

"(1) IN GENERAL.—Nothing in subsection a. shall preclude the issuance by the Commission of a combined construction permit and operating license pursuant to section 161 h., provided that prior to the commencement of operation of a production or utilization facility under such a license, the Commission makes the findings described in subsection a. with respect to the facility that has applied for the combined license.

"(2) EFFECT OF EARLIER PROCEEDINGS.—The findings of any early site permit or design certification referenced in an application for a combined construction permit and operating license under paragraph (1)—

"(A) shall not be deemed conclusive, for more than 10 years from the date of issuance of such findings, with respect to the issues in a combined license proceeding; but

"(B) shall constitute rebuttable presumptions with respect to such issues.".

Subtitle B—License Renewal

SEC. 2811. STANDARDS FOR RENEWAL AND SCOPE OF PROCEEDINGS.

Section 103 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2133(c)) is amended—

(1) in the first sentence, by inserting "(1)" after "c." and by inserting "in accordance with paragraphs (2) and (3)," after "renewed"; and

(2) by adding at the end the following new paragraphs:

"(2) Licenses for production or utilization facilities issued under subsection a. or section 104 b. may be renewed for a period not exceeding 20 years.

"(3) The terms of any license for a production or utilization facility issued under this section or section 104 b., and the compliance of any such facility with the terms of its license, applicable laws, and regulations, shall be considered within the scope of any license renewal proceeding under this subsection.".

SEC. 2812. LEAST-COST PLANNING REQUIREMENT.

Section 103 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2133(c)), as amended by section 2111 of this Act, is further amended by adding at the end the following new paragraph:

"(4)(A) Before approving the renewal of any license for a production or utilization facility under this subsection, the Commission shall require the licensee to certify that—

"(i) the licensee has carried out least-cost planning within the preceding 3-year period; and

"(ii) the renewal of the license (including the terms of the license and the period of renewal) is in conformance with such planning.

"(B) For purposes of subparagraph (A), the term 'least-cost planning' means planning that—

"(i) includes a systematic comparison of energy efficiency, transmission, distribution, generation and supply investment opportunities to minimize life-cycle costs of adequate and reliable utility services to customers;

"(ii) takes into account necessary features for system operation such as diversity, reliability, dispatchability, and other factors of risk;

"(iii) treats demand and supply resources on a consistent and integrated basis;

"(iv) provides the opportunity for public participation and comment; and

"(v) provides for methods of validating predicted performance.".

Subtitle C—Judicial Review of Enforcement Petitions

SEC. 2821. ENFORCEMENT PETITIONS AND JUDICIAL REVIEW.

Section 189 of the Atomic Energy Act of 1954 (42 U.S.C. 2239), as amended by sections 2101 and 2102 of this Act, is further amended by adding at the end the following new subsection:

"d. ENFORCEMENT PETITIONS.—

"(1) IN GENERAL.—Any person may petition the Commission to institute a proceeding to modify, suspend, or revoke a license, or for such other action as may be proper.

"(2) STANDARDS FOR GRANTING.—The Commission shall grant any request under paragraph (1) if there is material evidence to suggest that the holder of the license with respect to which a request has been made under paragraph (1) is in significant noncompliance with the terms of its license, this chapter, or the Commission's regulations, or that conditions at the licensed facility may present undue risk to the public health and safety, or common defense and security.

"(3) JUDICIAL REVIEW.—Any Commission order denying a request under paragraph (1) shall be subject to judicial review in accordance with chapter 158 of title 28, United States Code, and chapter 7 of title 5, United States Code.".

TITLE XXIX—RADIATION PROTECTION

Subtitle A—Below Regulatory Concern

SEC. 2901. STATE AUTHORITY TO REGULATE RADIATION BELOW LEVEL OF NRC REGULATORY CONCERN.

(a) IN GENERAL.—The Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) is amended by inserting after section 275 the following new section:

"SEC. 276. STATE AUTHORITY TO REGULATE RADIATION BELOW LEVEL OF REGULATORY CONCERN OF NUCLEAR REGULATORY COMMISSION.

"(a) IN GENERAL.—No provision of this Act, or of any other Federal law, may be construed to prohibit or otherwise restrict the authority of any State to regulate, on the basis of radiological hazard, the management, storage, incineration, or disposal of low-level radioactive waste, or other practices, materials, or emissions involving radioactivity, if the Nuclear Regulatory Commission, after January 1, 1990—

"(1) exempts such waste, practices, materials, or emissions from regulation; or

"(2) issues a regulation governing such waste, practices, materials, or emissions that reduces protection of the public health and safety (as determined by any State seeking to regulate under this subsection).

"(b) AUTHORITY TO EXCLUDE WASTE.—

"(1) COMPACTED STATES.—Any State that is a member of a compact for the disposal of low-level radioactive waste may prohibit or otherwise restrict the importation into such State, for purposes of storage or disposal in such State, of low-level radioactive waste, or other radioactive materials, generated outside the borders of the compact region of such State, if the Commission, after January 1, 1990—

"(A) exempts such waste or materials from regulation; or

"(B) issues a regulation governing such waste or materials that reduces protection of the public health and safety (as determined by such State).

"(2) NON-COMPACTED STATES.—Any State that is not a member of a compact for the disposal of low-level radioactive waste may prohibit or otherwise restrict the importation into such State, for purposes of storage or disposal in such State, of low-level radioactive waste, or other radioactive materials, generated outside the borders of such State, if the Commission, after January 1, 1990—

"(A) exempts such waste or materials from regulation; or

"(B) issues a regulation governing such waste or materials that reduces protection of the public health and safety (as determined by such State).

"(c) DEFINITIONS.—Each term used in this section that is also used in the Low-Level Radioactive Waste Policy Act shall have the meaning given such term in section 2 of such Act.".

(b) CONFORMING AMENDMENT.—The table of contents of the Atomic Energy Act of 1954 (42 U.S.C. 2011 prec.) is amended by inserting after the item relating to section 275 the following new item:

"Sec. 276. State authority to regulate radiation below level of regulatory concern of Nuclear Regulatory Commission.".

SEC. 2902. REVOCATION OF RELATED NRC POLICY STATEMENTS.

The policy statements of the Nuclear Regulatory Commission published in the Federal Register on July 3, 1990 (55 Fed. Reg. 27522) and August 29, 1986 (51 Fed. Reg. 30839), relating to radioactive waste below regulatory concern, shall have no effect after the date of the enactment of this Act.

Subtitle B—Standards for Cleanup of Contaminated Sites

SEC. 2911. GENERALLY APPLICABLE STANDARDS FOR CLEANUP OF RADIOLOGICALLY CONTAMINATED SITES.

(a) EPA REVIEW OF CONTAMINATED SITES.—

(1) IN GENERAL.—The Administrator of the Environmental Protection Agency shall—

(A) conduct a review of information available on radiologically contaminated sites to assess the number of such sites and the general levels and nature of such contamination; and

(B) not later than 9 months after the date of the enactment of this Act, submit to the Congress a report setting forth the findings of the Administrator as a result of such review.

(2) ASSESSMENTS BY OTHER FEDERAL AGENCIES.—To assist the review required under paragraph (1), the Secretary of Energy and the Nuclear Regulatory Commission shall—

(A) assess the extent of radiological contamination of sites under their respective jurisdictions; and

(B) not later than 6 months after the date of the enactment of this Act, submit to the Administrator reports setting forth their findings as a result of such assessment.

(b) ISSUANCE OF STANDARDS.—

(1) IN GENERAL.—The Administrator shall issue regulations establishing generally applicable standards for the decontamination of radiologically contaminated sites.

(2) MATTERS TO BE CONSIDERED.—In establishing the standards under paragraph (1), the Administrator shall consider—

(A) the risk to human health remaining after implementation of the standards;

(B) the cost of applying the standards, to the extent that the standards are more stringent than would be required to provide adequate protection of public health and safety;

(C) the reasonably anticipated future uses of the sites; and

(D) the cleanup criteria used by the Administrator in implementing other programs.

(3) SCHEDULE FOR ISSUANCE.—The Administrator shall publish—

(A) proposed regulations under this subsection not later than 9 months after the date of the enactment of this Act; and

(B) final regulations under this subsection not later than 18 months after the date of the enactment of this Act.

(c) INTERAGENCY ADVISORY COMMITTEE.—The Administrator shall establish and chair an interagency committee to provide information and advice in carrying out the responsibilities of the Administrator under this section.

(d) DEFINITIONS.—For purposes of this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) RADIOLOGICALLY CONTAMINATED SITE.—The term "radiologically contaminated site" means a site in the United States that—

(A) is owned or operated by the Federal Government, or is licensed by the Nuclear Regulatory Commission or by an agreement State under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021); and

(B) is contaminated with radioactivity as a result of human activity.

Subtitle C—Disposal Standards at Mill Tailings Sites

SEC. 2921. DISPOSAL STANDARDS AT MILL TAILINGS SITES.

Section 84 of the Atomic Energy Act of 1954 (42 U.S.C. 2114) is amended by adding at the end the following new subsection:

"(d) No radioactive material may be disposed of at a site subject to Federal regulation pursuant to title II of the Uranium Mill Tailings Radiation Control Act of 1978 unless—

"(1) the Governor of the State has agreed to such disposal; or

"(2) the radioactive material to be disposed of is byproduct material as defined in section 11 e.(2) and—

"(A) the site to be used for disposal is in compliance with all applicable Federal and State regulations; and

"(B) the proposed disposal will not cause the site to fail to comply with such regulations or significantly increase the risk associated with the site to the public health, safety, and environment.".

TITLE XXX—MISCELLANEOUS

SEC. 3001. POWERPLANT AND INDUSTRIAL FUEL USE ACT OF 1978 REPEAL.

Section 403(a) of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8373(a)) is repealed.

SEC. 3002. ALASKA NATURAL GAS TRANSPORTATION ACT OF 1976 REPEAL.

(a) REPEAL.—Section 7(a)(5) of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719e(a)(5)) is repealed.

(b) ABOLITION OF OFFICE OF FEDERAL INSPECTOR OF CONSTRUCTION.—The Office of Federal Inspector of Construction for the Alaska Natural Gas Transportation System, created pursuant to the paragraph repealed by subsection (a) of this section, is abolished. All functions and authority vested in the Inspector are hereby transferred to the Chairman of the Federal Energy Regulatory Commission.

(c) REVOCATION OF CERTAIN OFI REGULATIONS.—Regulations applicable to the Office of Federal Inspector of the Alaska Natural Gas Transportation System, as set forth in chapter 15 of title 10, Code of Federal Regulations, are hereby revoked.

SEC. 3003. GEOTHERMAL HEAT PUMPS.

The Secretary shall—

(1) encourage States, municipalities, counties, and townships to allow the installation of geothermal heat pumps, and, where applicable, to permit public and private water recipients to utilize the flow of water from,

and back into, public and private water mains for the purpose of providing sufficient water supply for the operation of residential and commercial geothermal heat pumps; and

(2) not discourage any local authority which allows the use of geothermal heat pumps from—

(A) inspecting, at any reasonable time, geothermal heat pump connections to the water system to ensure the exclusive use of the public or private water supply to the geothermal heat pump system; and

(B) requiring that geothermal heat pump systems be designed and installed in a manner that minimizes the risk of contamination of the public water supply.

SEC. 3004. EMPLOYEE PROTECTION FOR NUCLEAR WHISTLEBLOWERS.

(a) INTERNAL WHISTLEBLOWERS; EMPLOYERS.—Section 210(a) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(a)) is amended—

(1) by inserting "(1)" after "SEC. 210. (a)";

(2) by striking ", including" and all that follows through "licensee or applicant,";

(3) by inserting after the dash the following new subparagraphs:

"(A) notified his employer (or an agent of such employer) of an alleged violation of this Act or the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.);

"(B) opposed any practice made unlawful by this Act or the Atomic Energy Act of 1954;

"(C) testified before Congress or at any Federal or State proceeding regarding any provision (or proposed provision) of this Act or the Atomic Energy Act of 1954;";

(4) by redesignating paragraphs (1) through (3) as subparagraphs (D) through (F), respectively; and

(5) by adding at the end the following new paragraph:

"(2) For purposes of this section, the term 'employer' includes—

"(A) a licensee of the Commission or of an agreement State under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021);

"(B) an applicant for a license from the Commission or such an agreement State;

"(C) a contractor or subcontractor of such a licensee or applicant;

"(D) a contractor or subcontractor at a nuclear or radioactive waste facility of the Department of Energy; and

"(E) any other employer engaged in any activity licensed under the Atomic Energy Act of 1954.".

(b) TIME PERIOD FOR FILING COMPLAINT.—Section 210(b)(1) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(b)(1)) is amended by striking "thirty days" and inserting "1 year".

(c) DE NOVO REVIEW.—Section 210(b)(2)(A) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(b)(2)(A)) is amended—

(1) by inserting "(i)" after "(2)(A)"; and

(2) by adding at the end the following new clause:

"(ii)(I) Notwithstanding subsection (c)(2), in the event that the Secretary does not issue an order under clause (i) within the 120-day period prescribed by such clause, the complainant shall be entitled to de novo review of the complaint in any district court of the United States.

"(II) Nothing in this subparagraph shall be construed to preclude the applicability of the provisions of section 554 of title 5, United States Code, to the issuance of an order under clause (i).".

(d) AVOIDANCE OF FRIVOLOUS COMPLAINTS.—Section 210(b) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(b)) is amended by adding at the end the following new paragraph:

"(3)(A) The Secretary may determine that a violation of subsection (a) has occurred only if the complainant has demonstrated that any behavior described in subparagraphs (A) through (F) of subsection (a)(1) was a contributing factor in the unfavorable personnel action alleged in the complaint.

"(B) Relief may not be ordered under paragraph (2) if the employer demonstrates by clear and convincing evidence that it would have taken the same unfavorable personnel action in the absence of such behavior.".

(e) NONPREEMPTION.—Section 210 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851) is amended by adding at the end the following new subsection:

"(h) Notwithstanding subsection (c)(2), the provisions of this section shall not be construed to preclude a complainant under this section from pursuing any right or remedy otherwise available to such complainant under any law—

"(1) contemporaneously with pursuit of relief under this section;

"(2) subsequent to the issuance of a final order by the Secretary under this section; or

"(3) subsequent to judicial review under subsection (c)(1).".

(f) POSTING REQUIREMENT.—Section 210 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851) is further amended by adding at the end the following new subsection:

"(i) The provisions of this section shall be prominently posted in any place of employment to which this section applies.".

(g) EXEMPLARY DAMAGES.—Section 210 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851) is further amended by adding at the end the following new subsection:

"(j) In any action brought under this section, the Secretary or, on appeal under subsection (b)(2)(A)(ii), the United States district court, shall have jurisdiction to grant all appropriate relief, including injunctive relief, compensatory, and exemplary damages.".

(h) DUTY OF NRC TO INVESTIGATE SUBSTANTIVE ALLEGATIONS.—Section 210 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851) is further amended by adding at the end the following new subsection:

"(k)(1) The Commission or the Department of Energy shall not delay any investigation or proceeding by it with respect to an alleged violation of this Act or the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) on the basis of—

"(A) the filing of a complaint under subsection (b)(1); or

"(B) any investigation by the Secretary, or other action, under this section in response to such complaint.

"(2) A determination by the Secretary under this section that a violation of subsection (a) has not occurred shall not be considered by the Commission or the Department of Energy in its determination of whether any violation of this Act or the Atomic Energy Act of 1954 has occurred.".

(i) PROHIBITION ON PASSTHROUGH OF DAMAGES AND LEGAL COSTS.—Section 210 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851) is further amended by adding at the end the following new subsection:

"(l) In the event that a complainant prevails in any action against a contractor or subcontractor of the Department of Energy under this section, no amount awarded against such contractor or subcontractor in such action, nor any amount paid by such contractor or subcontractor in legal costs related to such action, may be paid or reimbursed, directly or indirectly, by contract or otherwise, by the Department of Energy or any other Federal entity. No such amount may be considered an allowable cost under any contract with the Department of Energy.".

(j) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) The title heading of title II of the Energy Reorganization Act of 1974 (42 U.S.C. 5841 et seq.) is amended to read as follows:

"TITLE II—NUCLEAR REGULATORY COMMISSION; NUCLEAR WHISTLEBLOWER PROTECTION".

(2) Section 210(b)(1) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(b)(1)) is amended—

(A) by striking "(hereinafter in this subsection referred to as the 'Secretary')" and inserting "(in this section referred to as the 'Secretary')"; and

(B) by striking "and the Commission" and inserting ", the Commission, and the Department of Energy".

(3) The second of the two sections of the Energy Reorganization Act of 1974 that is numbered 210 (42 U.S.C. 5851) is redesignated as section 211.

(k) APPLICABILITY.—The amendments made by this section shall apply to claims filed under section 211(b)(1) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(b)(1)) on or after the date of the enactment of this Act.

SEC. 3005. RENEWABLE ENERGY PARK DEMONSTRATION PROGRAM.

The Secretary shall designate a location for a Federal demonstration of integrating renewable, coal, oil, and other energy production with agriculture and manufacturing. Such location shall—

(1) be in a county with greater than 18 percent unemployment in December 1991;

(2) be in a county which lost greater than 6 percent of its population between 1980 and 1990; and

(3) have had an energy park development plan approved by a governmental body before March 10, 1992.

There are authorized to be appropriated to the Secretary $1,000,000, for providing grants, with or without a recoupment requirement, to attract new energy-related industries to the location designated under this section. The Federal share of the cost of any project funded under this section shall not exceed 20 percent of the total capital costs of the project.

SEC. 3006. USE OF ENERGY FUTURES FOR FUEL PURCHASES.

(a) FUEL STUDY.—The Secretary of Energy shall conduct a study—

(1) to ascertain if the use of energy futures and options contracts could provide cost-effective protection for Government entities (including Government purchases for military purposes and for the Strategic Petroleum Reserve) and consumer cooperatives (or any organization whose purpose is to purchase fuel in bulk) from unanticipated surges in the price of fuel; and

(2) to ascertain how such Government entities or consumer cooperatives may be educated in the prudent use of energy futures and options contracts to maximize their purchasing effectiveness, protect themselves against unanticipated surges in the price of fuel, and minimize fuel costs.

(b) REPORT.—The Secretary of Energy, no later than 12 months after the date of enactment of this Act, shall transmit the study required in this section to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(c) PILOT PROGRAM.—The Secretary of Energy shall conduct a pilot program, commencing not later than 30 days after the transmission of the study required in subsection (b), to educate such governmental entities, consumer cooperatives, or other organizations on the prudent and cost-effective use of energy futures and options contracts to increase their protection against unanticipated surges in the price of fuel and thereby increase the efficiency of their fuel purchase or assistance programs.

(d) AUTHORIZATION.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 3007. ENERGY SUBSIDY STUDY.

(a) IN GENERAL.—The Secretary shall contract with the National Academy of Sciences to conduct a study of energy subsidies that—

(1) are in effect on the date of the enactment of this Act; or

(2) have been in effect prior to the date of the enactment of this Act.

(b) REPORT TO CONGRESS.—Not later than 18 months after the date of the enactment of this Act, the Secretary shall transmit to the Congress, the results of such study to be accompanied by recommendations for legislation, if any.

(c) CONTENTS.—

(1) IN GENERAL.—The study shall identify and quantify the direct and indirect subsidies and other legal and institutional factors that influence decisions in the marketplace concerning fuels and energy technologies.

(2) TOPICS FOR EXAMINATION.—The study shall examine—

(A) fuel and technology choices that are—

(i) available on the date of the enactment of this Act; or

(ii) reasonably foreseeable on the date of the enactment of this Act;

(B) production subsidies for the extraction of raw materials;

(C) subsidies encouraging investment in large capital projects;

(D) indemnification;

(E) fuel cycle subsidies, including waste disposal;

(F) government research and development support; and

(G) other relevant incentives and disincentives.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $500,000 for each of the fiscal years 1993 and 1994.

SEC. 3008. TAR SANDS.

(a) POLICY.—It is the policy of the United States to encourage the development and production, by all means consistent with sound engineering, economic, and environmental practices, of deposits of tar sands.

(b) STUDY.—The Secretary of Energy shall, within one year after the date of enactment of this Act, submit to the Congress the results of a study which—

(1) identifies and evaluates the development potential of sources of tar sands in the United States, including tar sands waste tailings;

(2) identifies and evaluates processes for extracting oil from those identified tar sands sources; and

(3) evaluates the environmental benefits of, and the potential for coproduction of minerals and metals from, such processes.

SEC. 3009. EXEMPTION OF CERTAIN RESEARCH AND EDUCATIONAL LICENSEES FROM ANNUAL CHARGES.

(a) IN GENERAL.—Section 6101(c) of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214(c)) is amended—

(1) in paragraph (1), by striking "Any licensee" and inserting "Except as provided in paragraph (4), any licensee"; and

(2) by adding at the end the following new paragraph:

"(4) EXEMPTION.—

"(A) IN GENERAL.—Paragraph (1) shall not apply to the holder of any license for a federally owned research reactor used primarily for educational training and academic research purposes.

"(B) RESEARCH REACTOR.—For purposes of subparagraph (A), the term 'research reactor' means a nuclear reactor that—

"(i) is licensed by the Nuclear Regulatory Commission under section 104 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2134(c)) for operation at a thermal power level of 10 megawatts or less; and

"(ii) if so licensed for operation at a thermal power level of more than 1 megawatt, does not contain—

"(I) a circulating loop through the core in which the licensee conducts fuel experiments;

"(II) a liquid fuel loading; or

"(III) an experimental facility in the core in excess of 16 square inches in cross-section.".

(b) APPLICABILITY.—The amendments made by this section shall apply to annual charges assessed under section 6101(c) of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214(c)) for fiscal year 1992 or any succeeding fiscal year.

SEC. 3010. AMENDMENTS TO TITLE 11 OF THE UNITED STATES CODE.

(a) DEFINITIONS.—

(1) FARMOUT AGREEMENT.—Section 101 of title 11, United States Code, is amended—

(A) by redesignating paragraph (22) and all that follows through the last paragraph (57) as paragraphs (23) through (62), respectively, and

(B) by inserting after paragraph (21) the following:

"(22) 'farmout agreement' means written agreement in which—

"(A) the owner of a right to drill, produce, or operate liquid or gaseous hydrocarbons on property agrees or has agreed to transfer or assign all or a part of such right to another entity; and

"(B) such other entity (either directly or through its agents or its assigns), as consideration, agrees to perform drilling, reworking, recompleting, testing, or similar or related operations, to develop or produce liquid or gaseous hydrocarbons on the property;".

(2) CONFORMING AMENDMENTS.—(A) Section 362(b)(6) of title 11, United States Code, is amended—

(i) by striking "section 101(34)" and inserting "section 101", and

(ii) by striking "section 101(35)" and inserting "section 101".

(B) Section 546(e) of title 11, United States Code, is amended—

(i) by striking "section 101(34)" and inserting "section 101", and

(ii) by striking "section 101(35)" and inserting "section 101".

(C) Section 548(d)(2)(B) of title 11, United States Code, is amended—

(i) by striking "section 101(34)" and inserting "section 101", and

(ii) by striking "section 101(35)" and inserting "section 101".

(D) Section 207(c)(8)(D) of the Federal Credit Union Act (12 U.S.C. 1787(c)(8)(D)) is amended—

(i) in clause (iii) by striking "section 101(24)" and inserting "section 101",

(ii) in clause (iv)(I) by striking "section 101(41)" and inserting "section 101", and

(iii) in clause (v) by striking "section 101(50)" and inserting "section 101".

(E) Section 11(e)(8)(D) of the Federal Deposit Insurance Act (12 U.S.C. 1821(e)(8)(D)) is amended—

(i) in clause (iv) by striking "section 101(24)" and inserting "section 101",

(ii) in clause (v)(I) by striking "section 101(41)" and inserting "section 101", and

(iii) in clause (viii) by striking "section 101(50)" and inserting "section 101".

(b) PROPERTY OF THE ESTATE.—Section 541(b) of title 11, United States Code, is amended—

(1) in paragraph (2) by striking "or" at the end,

(2) in paragraph (3) by striking the period at the end and inserting "; or", and

(3) by adding at the end the following:

"(4) any interest of the debtor in liquid or gaseous hydrocarbons to the extent that—

"(A) the debtor has transferred or has agreed to transfer such interest pursuant to a farmout agreement or any written agreement directly related to a farmout agreement; and

"(B) but for the operation of this paragraph, the estate could include such interest only by virtue of section 365 or 544(a)(3) of this title.

Paragraph (4) shall not be construed to exclude from the estate any consideration the debtor retains, receives, or is entitled to receive for transferring an interest in liquid or gaseous hydrocarbons pursuant to a farmout agreement.".

(c) EFFECTIVE DATE; APPLICATION OF AMENDMENTS.—(1) Except as provided in paragraph (2), the amendments made by this section shall take effect on the date of the enactment of this Act.

(2) The amendments made by this section shall not apply with respect to any case commenced under title 11 of the United States Code before the date of the enactment of this Act.

The CHAIRMAN. No amendment to the amendment in the nature of a substitute is in order except those amendments printed in House Report 102–528 or by a subsequent order of the House. Said amendments shall be considered in the order and manner specified in the report—and in the unanimous consent order of the House of today—shall be considered as read, and shall not be subject to amendment except as specified in House Report 102–528. Debate time for each amendment shall be equally divided and controlled by the proponent and an opponent of the amendment.

It is now in order to consider amendment No. 2 printed in House Report 102–528.

AMENDMENT OFFERED BY MR. HOAGLAND

Mr. HOAGLAND. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. HOAGLAND: Page 80, line 21, insert before the period the following: ", except that in the case of any State without a Statewide ratemaking authority, such term shall mean the State energy office".

The CHAIRMAN. Under the rule, the gentleman from Nebraska [Mr. HOAGLAND] will be recognized for 5 minutes, and a Member opposed will be recognized for 5 minutes.

The Chair recognizes the gentleman from Nebraska [Mr. HOAGLAND].

Mr. HOAGLAND. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman and colleagues, title I of the bill provides energy conservation grants to the States of up to $100,000 a year to be funneled through the State regulatory agency. In Nebraska we have no State regulatory agency, because we have public power in Nebraska, and we have had public power in Nebraska since the days of Congressman and Senator George Norris, one of the great political leaders of Nebraska and of America. Senator Norris, through an initiative petition, brought to Nebraska public power.

Each of the public power districts in Nebraska sets its own rates. We have no State regulatory agency. We are offering this amendment. I will offer it along with my colleague, the gentleman from Nebraska [Mr. BEREUTER].

Mr. BEREUTER. Mr. Chairman, will the gentleman yield?

Mr. HOAGLAND. I yield to the gentleman from Nebraska.

Mr. BEREUTER. Mr. Chairman, this Member would like to commend the chairman of the Rules Committee, the distinguished gentleman from Massachusetts [Mr. MOAKLEY] and the ranking minority member of the Rules Committee, the distinguished gentlemen from New York [Mr. SOLOMON] for crafting a rule for H.R. 776 that allows for the consideration of this amendment on the House floor.

This Member's colleagues from Nebraska, Mr. PETER HOAGLAND and Mr. BILL BARRETT, and this Member have drafted an amendment to resolve a problem that exists in the current version of H.R. 776 concerning the conservation grant program for State regulatory authorities.

A provision in H.R. 776 establishes a conservation grant program for State regulatory authorities to encourage demand side management activities. Under this proposed legislation, the term "State regulatory authority" is defined to mean any State agency which has ratemaking authority with respect to the sale of electric energy by any electric utility—other than such State agency. However, this definition essentially prohibits the State of Nebraska from applying for these grants.

Nebraska is the only State in which all such utilities are publicly owned, and as such they are not subject to a State agency with ratemaking authority. Consequently, the State of Nebraska is excluded from even qualifying to apply for these grants. Furthermore, it is my understanding that the exclusion of Nebraska from this grant program was simply an oversight by the Energy and Commerce Committee as no other State in the Nation has all publicly owned utilities. Our amendment resolves this problem by authorizing a State's energy office to administer the State conservation grants, but such an authorization extends only to a State that does not have statewide ratemaking authority. Under this amendment, since Nebraska is the only State without a statewide ratemaking authority, the State of Nebraska's energy office would administer the State conservation grants program in Nebraska.

Mr. Chairman, this Member urges his colleagues to vote in favor of the Hoagland-Bereuter-Barrett amendment.

□ 1750

Mr. HOAGLAND. Mr. Chairman, I yield such time as he may consume to the gentleman from Nebraska [Mr. BARRETT].

Mr. BARRETT. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, I rise in strong support of the amendment offered by my colleague, the gentleman from Nebraska, and ask all of my colleagues to support it as well.

This amendment would make a simple correction to the bill, yet in the spirit of fairness, it is as important as any we will consider today. Its adoption will make sure that all States are entitled to apply for conservation grants provided for in section 151. Because the definition of a State regulatory authority is that of the Public Utility Regulatory Policy Act of 1978, it appears that the State of Nebraska would be ineligible to apply for these grants.

Nebraska has been served solely by public power since the 1930's. It is one of the many legacies of George Norris, who served Nebraska in this House and in the Senate. As Senator Norris envisioned, public power has been providing reliable and affordable electricity to the people of Nebraska, and has been able to accomplish this without a statewide ratesetting authority.

Mr. Chairman, I do not believe it was the intention of the bill's authors that certain States be left out. This amendment is supported by the entire Nebraska delegation and by the Governor. Its adoption is needed not only to make this legislation work as intended, it is also a matter of fairness. I ask for the support of the House.

Mr. HOAGLAND. Mr. Chairman, I yield such time as he may consume to the gentleman from Indiana [Mr. SHARP], chairman of the subcommittee.

Mr. SHARP. Mr. Chairman, I thank the gentleman for yielding me the time. First of all, I want to compliment the gentleman on his serious work on a number of energy issues that appear in this bill. But he and other colleagues from Nebraska are perfectly correct. Our intent was for all States to be able to participate.

Their State is unique because it does not have the same kind of regulatory apparatus that most of our States have, so we certainly cannot want them to be excluded, and would be very pleased to support the gentleman's amendment.

Mr. HOAGLAND. Mr. Chairman, I yield such time as he may consume to the gentleman from California [Mr. MOORHEAD].

Mr. MOORHEAD. Mr. Chairman, I thank the gentleman for yielding me the time.

This amendment recognizes the fact that Nebraska is the only State in the Union that does not have a State utility regulatory commission. The effect of that is that Nebraska cannot apply for grants to promote utility least cost planning. This amendment would permit them to do so.

It is a good amendment, noncontroversial, and the minority has no objection to it and we support it.

The CHAIRMAN. Does any Member rise in opposition to the amendment?

If not, the question is on the amendment offered by the gentleman from Nebraska [Mr. HOAGLAND].

The amendment was agreed to.

The CHAIRMAN. It is now in order to consider amendment No. 3 printed in House Report 102–528.

AMENDMENT OFFERED BY MR. KASICH

Mr. KASICH. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. KASICH: Page 30, line 4, insert after the period the following: For each installed measure for which the projected energy and water savings reported in the previous year were not realized, such report shall also set forth the percentage of such projected savings that was not realized, the reasons such savings were not realized, and proposals for, and projected costs of, achieving such projected savings in the future.

The CHAIRMAN. Pursuant to the rule, the gentleman from Ohio [Mr. KASICH] will be recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The Chair recognizes the gentleman from Ohio [Mr. KASICH].

Mr. KASICH. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I appreciate very much the time and the opportunity to offer this amendment. I do not intend to take the whole time. I want to begin by first of all thanking the gentleman from New York [Mr. SOLOMON] and the gentleman from California [Mr. DREIER] for their efforts before the Rules Committee, along with the gentleman from Ohio [Mr. MCEWEN]. I would also like to thank the chairman of the Rules Committee, Mr. MOAKLEY, and a number of my friends on there, the gentleman from California [Mr. BEILENSON] and the gentleman from South Carolina [Mr. DERRICK], for giving me the opportunity to bring this amendment to the floor today.

Basically what it does is to put a proposal that I have been developing on a number of authorization bills into law, and it is a concept called performance based budgeting. It is something that I believe we ought to do for the entire Federal budget.

If we are going to give money to somebody for a program for purposes of achieving a goal, we ought not to just give them the money based on what their goal is, but we ought to force them to come back and give us a report as to whether the goal has been achieved or not, called performance based budgeting.

We have now attempted to do this on several bills, and in fact have been successful in the DOD bill, where we have performance-base budgeted a $70 billion program to make sure that what the Pentagon says is going to happen with a particular program actually happens. And we have also done it with the higher education bill by setting up a mechanism whereby we can monitor money that gets put into a student loan collection program to find out whether it is working.

What we do in this bill is to performance base budget an energy section that gives grants to all of the agencies in the Federal Government to try to figure out ways in which we can conserve water and energy, and those investments, and those grants that are made to the agencies must have a payback period of less than 10 years. What the bill provides essentially is that the agencies submit a goal and a plan, but it does not close the loop. It does not say that the agencies must come back and show whether the grants actually worked in reducing energy use. So what we provide for in this amendment, and what we provide for in this bill is that the Secretary of Energy is required to come back to Congress to give us a report as to whether in fact energy savings occurred as a result of this program.

Then we have a more efficient use of ideas, a more efficient use of dollars. What this means is if one energy technique for conservation works, we ought to apply it more often, and those energy techniques that do not work ought to be junked, and we ought not to waste money on them.

I am bringing this amendment in a narrow area in the energy bill, and I deeply appreciate the ability to do this. But this is a concept that ought to be used for all programs of the Federal Government as we go through a period of time now involving the riots in Los Angeles and people are saying that the social welfare programs are not working, or they need more money or whatever. I say we have to performance-base budget them. We have to find out which programs are achieving goals and which ones are not so that we can emphasize those that work and deemphasize those that do not. We ought to do it in the Department of Defense. We are doing it in the Department of Energy. We ought to do it in the Department of Education; we ought to do it across the board. It gives us a rational way to establish priorities, a rational way in which we can spend taxpayers' money wisely, and we can design Federal budgets that are based on what works, not on theory, not on principle, not on lofty goals, but which programs actually work.

I appreciate the opportunity to offer the amendment.

Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. The Committee will rise informally to receive a message.

MESSAGES FROM THE PRESIDENT

The SPEAKER pro tempore (Mr. OBERSTAR) assumed the chair.

The SPEAKER pro tempore. The Chair will receive a message from the President of the United States.

SUNDRY MESSAGES FROM THE PRESIDENT

Sundry messages in writing from the President of the United States were communicated to the House by Mr. McCathran, one of his secretaries.

The SPEAKER pro tempore. The Committee will resume its sitting.

COMPREHENSIVE NATIONAL ENERGY POLICY ACT

The Committee resumed its sitting.

The CHAIRMAN. Does any Member rise in opposition to the amendment offered by the gentleman from Ohio [Mr. KASICH]?

Mr. KASICH. Mr. Chairman, I yield myself 20 additional seconds to say this is a concept that I have not just been involved with, but we have had a team involved in this, including the gentleman from Pennsylvania [Mr. SANTORUM], the gentleman from Washington [Mr. MILLER], and the gentleman from Texas [Mr. DELAY], all interested in pursuing this concept of performance-based budgeting.

Some Members are going to get tired of hearing me with amendments on this, but I think it is a critical way to move. If Members read the current issue of Time magazine, it talks about concepts like this for improving the efficiency of government.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Ohio [Mr. KASICH].

The amendment was agreed to.

AMENDMENT, AS MODIFIED, OFFERED BY MR. ATKINS

Mr. ATKINS. Mr. Chairman, pursuant to the rule, I offer an amendment, as modified by the unanimous consent request in the House.

The CHAIRMAN. The Clerk will designate the amendment, as modified.

The text of the amendment, as modified, is as follows:

Amendment, as modified, offered by Mr. ATKINS: The amendment is modified as follows:

Page 113, strike line 14 and all that follows through page 135, line 2, and insert the following (and conform the table of contents accordingly):

SEC. 164. ENERGY CONSERVATION REQUIREMENTS FOR CERTAIN LAMPS AND PLUMBING PRODUCTS.

(a) STATEMENT OF PURPOSE.—Section 2 of the Energy Policy and Conservation Act (42 U.S.C. 6201) is amended—

(1) in paragraph (6), by striking out "and" at the end;

(2) in paragraph (7), by striking out the period at the end and inserting in lieu thereof "; and"; and

(3) by adding at the end the following new paragraph:

"(8) to conserve water by improving the water efficiency of certain plumbing products and appliances.".

(b) DEFINITIONS.—Section 321(a) of the Energy Policy and Conservation Act (42 U.S.C. 6291(a)) is amended—

(1) by striking out the subsection designation;

(2) in paragraph (1)—

(A) in subparagraph (A), by inserting before the semicolon the following: "or, with respect to showerheads, faucets, water closets, and urinals, water"; and

(B) in subparagraph (B), by striking out "ballasts" and inserting in lieu thereof the following: "ballasts, general service fluorescent lamps, incandescent reflector lamps, showerheads, faucets, water closets, and urinals";

(3) in paragraph (6)—

(A) in subparagraph (A), by inserting ", or, in the case of showerheads, faucets, water closets, and urinals, water use," after "energy use"; and

(B) in subparagraph (B)—

(i) by striking out "and (14)" and inserting in lieu thereof "(15), (16), (17), and (19)"; and

(ii) by striking out "325(o)" and inserting in lieu thereof "325(r)";

(4) in paragraph (7), by inserting after "to be consumed annually" the following: ", and in the case of showerheads, faucets, water closets, and urinals, the aggregate retail cost of water and wastewater treatment services likely to be incurred annually,"; and

(5) by adding at the end the following new paragraphs:

"(30)(A) Except as provided in subparagraph (E), the term 'fluorescent lamp' means a low pressure mercury electric-discharge source in which a fluorescing coating transforms some of the ultraviolet energy generated by the mercury discharge into light, including only the following:

"(i) Any straight-shaped lamp (commonly referred to as 4-foot medium bi-pin lamps) with medium bi-pin bases of nominal overall length of 48 inches and rated wattage of 28 or more.

"(ii) Any U-shaped lamp (commonly referred to as 2-foot U-shaped lamps) with medium bi-pin bases of nominal overall length between 22 and 25 inches and rated wattage of 28 or more.

"(iii) Any rapid start lamp (commonly referred to as 8-foot high output lamps) with recessed double contact bases of nominal overall length of 96 inches and 0.800 nominal amperes, as defined in ANSI C78.1–1978 and related supplements.

"(iv) Any instant start lamp (commonly referred to as 8-foot slimline lamps) with single pin bases of nominal overall length of 96 inches and rated wattage of 52 or more, as defined in ANSI C78.3–1978 (R1984) and related supplement ANSI C78.3a–1985.

"(B) The term ‘general service fluorescent lamp’ means fluorescent lamps which can be used to satisfy the majority of fluorescent applications, but does not include any lamp designed and marketed for the following nongeneral lighting applications:

"(i) Fluorescent lamps designed to promote plant growth.

"(ii) Fluorescent lamps specifically designed for cold temperature installations.

"(iii) Colored fluorescent lamps.

"(iv) Impact-resistant fluorescent lamps.

"(v) Reflectorized or aperture lamps.

"(vi) Fluorescent lamps designed for use in reprographic equipment.

"(vii) Lamps primarily designed to produce radiation in the ultra-violet region of the spectrum.

"(viii) Lamps with a color rendering index of 82 or greater.

"(C) Except as provided in subparagraph (E), the term ‘incandescent lamp’ means a lamp in which light is produced by a filament heated to incandescence by an electric current, including only the following:

"(i) Any lamp (commonly referred to as lower wattage nonreflector general service lamps, including any tungsten-halogen lamp) that has a rated wattage between 30 and 199 watts, has an E26 medium screw base, has a rated voltage or voltage range that lies at least partially within 115 and 130 volts, and is not a reflector lamp.

"(ii) Any lamp (commonly referred to as a reflector lamp) which is not colored or designed for rough or vibration service applications, that contains an inner reflective coating on the outer bulb to direct the light, an R, PAR, or similar bulb shapes (excluding ER or BR) with E26 medium screw bases, a rated voltage or voltage range that lies at least partially within 115 and 130 volts, a diameter which exceed 2.75 inches, and is either—

"(I) a low(er) wattage reflector lamp which has a rated wattage between 40 and 205 watts; or

"(II) a high(er) wattage reflector lamp which has a rated wattage above 205 watts.

"(iii) Any general service incandescent lamp (commonly referred to as a high- or higher wattage lamp) that has a rated wattage above 199 watts (above 205 watts for a high wattage reflector lamp).

"(D) The term ‘general service incandescent lamp’ means incandescent lamps (other than miniature or photographic lamps) which can be used to satisfy the majority of lighting applications, but does not include any lamp specifically designed for—

"(i) traffic signal, or street lighting service;

"(ii) airway, airport, aircraft, or other aviation service;

"(iii) marine or marine signal service;

"(iv) photo, projection, sound reproduction, or film viewer service;

"(v) stage, studio, or television service;

"(vi) mill, saw mill, or other industrial process service;

"(vii) mine service;

"(viii) headlight, locomotive, street railway, or other transportation service;

"(ix) heating service;

"(x) code beacon, marine signal, lighthouse, reprographic, or other communication service;

"(xi) medical or dental service;

"(xii) microscope, map, microfilm, or other specialized equipment service;

"(xiii) swimming pool or other underwater service;

"(xiv) decorative or showcase service;

"(xv) producing colored light;

"(xvi) shatter resistance which has an external protective coating; or

"(xvii) appliance service.

"(E) The terms ‘fluorescent lamp’ and ‘incandescent lamp’ do not include any lamp excluded by the Secretary, by rule, as a result of a determination that standards for such lamp would not result in significant energy savings because such lamp is designed for special applications or has special characteristics not available in reasonably substitutable lamp types.

"(F) The term ‘incandescent reflector lamp’ means a lamp described in subparagraph (C)(ii).

"(G) The term ‘average lamp efficacy’ means the lamp efficacy readings taken over a statistically significant period of manufacture with the readings averaged over that period.

"(H) The term ‘base’ means the portion of the lamp which connects with the socket as described in ANSI C81.61–1990.

"(I) The term ‘bulb shape’ means the shape of lamp, especially the glass bulb with designations for bulb shapes found in ANSI C79.1–1980 (R1984).

"(J) The term ‘color rendering index’ or ‘CRI’ means the measure of the degree of color shift objects undergo when illuminated by a light source as compared with the color of those same objects when illuminated by a reference source of comparable color temperature.

"(K) The term ‘correlated color temperature’ means the absolute temperature of a blackbody whose chromaticity most nearly resembles that of the light source.

"(L) The term ‘IES’ means the Illuminating Engineering Society of North America.

"(M) The term ‘lamp efficacy’ means the lumen output of a lamp divided by its wattage, expressed in lumens per watt (LPW).

"(N) The term ‘lamp type’ means all lamps designated as having the same electrical and lighting characteristics and made by one manufacturer.

"(O) The term ‘lamp wattage’ means the total electrical power consumed by a lamp in watts, after the initial seasoning period referenced in the appropriate IES standard test procedure and including, for fluorescent, arc watts plus cathode watts.

"(P) The terms ‘life’ and ‘lifetime’ mean length of operating time of a statistically large group of lamps between first use and failure of 50 percent of the group in accordance with test procedures described in the IES Lighting Handbook-Reference Volume.

"(Q) The term ‘lumen output’ means total luminous flux (power) of a lamp in lumens, as measured in accordance with applicable IES standards as determined by the Secretary.

"(R) The term ‘tungsten-halogen lamp’ means a gas-filled tungsten filament incandescent lamp containing a certain proportion of halogens in an inert gas.

"(S) The term ‘medium base compact fluorescent lamp’ means an integrally ballasted fluorescent lamp with a medium screw base and a rated input voltage of 115 to 130 volts and which is designed as a direct replacement for a general service incandescent lamp.

"(31)(A) The term ‘water use’ means the quantity of water flowing through a showerhead, faucet, water closet, or urinal at point of use, determined in accordance with test procedures under section 323.

"(B) The term ‘ASME’ means the American Society of Mechanical Engineers.

"(C) The term ‘ANSI’ means the American National Standards Institute.

"(D) The term ‘showerhead’ means any showerhead (including a handheld showerhead), except a safety shower showerhead.

"(E) The term ‘faucet’ means a lavatory faucet, kitchen faucet, metering faucet, or replacement aerator for a lavatory or kitchen faucet.

"(F) The term ‘water closet’ has the meaning given such term in ASME A112.19.2M–1990, except such term does not include fixtures designed for installation in prisons.

"(G) The term ‘urinal’ has the meaning given such term in ASME A112.19.2M–1990, except such term does not include fixtures designed for installation in prisons.

"(H) The terms ‘blowout’, ‘flushometer tank’, ‘low consumption’, and ‘flushometer valve’ have the meaning given such terms in ASME A112.19.2M–1990.".

(c) COVERAGE.—Section 322(a) of such Act (42 U.S.C. 6292(a)) is amended—

(1) by redesignating paragraph (14) as paragraph (19); and

(2) by inserting after paragraph (13) the following new paragraphs:

"(14) General service fluorescent lamps and incandescent reflector lamps.

"(15) Showerheads, except safety shower showerheads.

"(16) Faucets.

"(17) Water closets.

"(18) Urinals.".

(d) TEST PROCEDURES.—Section 323 of such Act (42 U.S.C. 6293) is amended—

(1) in subsection (b)—

(A) in paragraph (3), by inserting after "energy use," the following "water use (in the case of showerheads, faucets, water closets and urinals),";

(B) in paragraph (4)—

(i) by inserting "or, in the case of showerheads, faucets, water closets, or urinals, water use" after "energy use";

(ii) by inserting after "such cycle" the following: ", or in the case of showerheads, faucets, water closets, or urinals, representative average unit costs of water and wastewater treatment service resulting from the operation of such products during such cycle"; and

(iii) by inserting ", water, and wastewater treatment" before the period at the end of the second sentence; and

(C) by adding at the end the following new paragraphs:

"(6) With respect to fluorescent lamps and incandescent reflector lamps to which standards are applicable under subsection (i) of section 325, the Secretary shall prescribe test procedures, to be carried out by accredited test laboratories, that take into consideration the applicable IES or ANSI standard.

"(7)(A) With respect to showerheads and faucets to which standards are applicable under subsection (j) of section 325, the Secretary shall, not later than six months after the date of the enactment of this paragraph, prescribe test procedures that are consistent with ASME A112.18.1M–1989.

"(B) If the test procedure requirements of ASME A112.18.1M–1989 are revised at any time and approved by ANSI, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such revised ASME/ANSI requirements unless the Secretary determines, by rule, that to do so would not meet the requirements of paragraph (3).

"(8)(A) With respect to water closets and urinals to which standards are applicable under subsection (k) of section 325, the Secretary shall, not later than six months after the date of the enactment of this paragraph, prescribe test procedures that are consistent with ASME A112.19.6–1990.

"(B) If the test procedure requirements of ASME A112.19.6–1990 are revised at any time and approved by ANSI, the Secretary shall amend the test procedures established by subparagraph (A) to conform to such revised ASME/ANSI requirements unless the Secretary determines, by rule, that to do so would not meet the requirements of paragraph (3).";

(2) in paragraphs (1) and (2) of subsection (c), by inserting "or water use" after "efficiency"; and

(3) in subsection (e)—

(A) in paragraph (1), by striking out "or measured energy use" and inserting in lieu thereof ", measured energy use, or measured water use";

(B) in paragraph (2), by striking out "energy efficiency or energy use" each place it appears and inserting in lieu thereof "energy efficiency, energy use, or water use"; and

(C) in paragraph (3), by striking out "energy efficiency or energy use" and inserting in lieu thereof "energy efficiency, energy use, or water use".

(e) LABELING.—Section 324 of such Act (42 U.S.C. 6294) is amended—

(1) in subsection (a)(2), by adding at the end the following new subparagraphs:

"(C) Not later than one year after the date of the enactment of the Comprehensive National Energy Policy Act, the Commission shall prescribe labeling rules under this section applicable to general service fluorescent lamps, medium base compact fluorescent lamps, and general service incandescent lamps. Such rules shall provide that the labeling of any general service fluorescent lamp, medium base compact fluorescent lamp, and general service incandescent lamp manufactured after the 12-month period beginning on the date of the publication of such rule shall indicate conspicuously on the packaging of the lamp, in a manner prescribed by the Commission under subsection (b), such information as the Commission deems necessary to enable consumers to select the most energy efficient lamps which meet their requirements. Labeling information for incandescent lamps shall be based on performance when operated at 120 volts input, regardless of the rated lamp voltage.

"(D)(i) Not later than one year after the date of the enactment of the Comprehensive National Energy Policy Act, the Commission shall prescribe labeling rules under this section for showerheads and faucets to which standards are applicable under subsection (j) of section 325. Such rules shall provide that the labeling of any showerhead or faucet manufactured after the 12-month period beginning on the date of the publication of such rule shall be consistent with the marking and labeling requirements of ASME A112.18.1M–1989, except that each fitting shall bear a permanent legible marking indicating the flow rate, expressed in gallons per minute (gpm) or gallons per cycle (gpc), and the flow rate value shall be the actual flow rate or the maximum flow rate specified by the standards established in subsection (j) of section 325.

"(ii) If the marking and labeling requirements of ASME A112.18.1M–1989 are revised at any time and approved by ANSI, the Commission shall amend the labeling rules established pursuant to clause (i) to be consistent with such revised ASME/ANSI requirements unless such requirements are inconsistent with the purposes of this part or the requirement specified in clause (i) requiring each fitting to bear a permanent legible marking indicating the flow rate of such fitting.

"(E)(i) Not later than one year after the date of the enactment of the Comprehensive National Energy Policy Act, the Commission shall prescribe labeling rules under this section for water closets and urinals to which standards are applicable under subsection (k) of section 325. Such rules shall provide that the labeling of any water closet or urinal manufactured after the 12-month period beginning on the date of the publication of such rule shall be consistent with the marking and labeling requirements of ASME A112.19.2M–1990, except that each fixture (and flushometer valve associated with such fixture) shall bear a permanent legible marking indicating the water use, expressed in gallons per flush (gpf), and the water use value shall be the actual water use or the maximum water use specified by the standards established in subsection (k) of section 325.

"(ii) If the marking and labeling requirements of ASME A112.19.2M–1990 are revised at any time and approved by ANSI, the Commission shall amend the labeling rules established pursuant to clause (i) to be consistent with such revised ASME/ANSI requirements unless such requirements are inconsistent with the purposes of this part or the requirement specified in clause (i) requiring each fixture and flushometer valve to bear a permanent legible marking indicating the water use of such fixture or flushometer valve.";

(2) in subsection (a)(3), by striking out "(14)" and inserting in lieu thereof "(19)";

(3) in subsection (b)(1)(B), by striking out "(14)" and inserting in lieu thereof "(13), and paragraphs (15) through (19)";

(4) in paragraphs (3) and (5) of subsection (b), by striking out "(14)" and inserting in lieu thereof "(19)"; and

(5) in subsection (c)—

(i) in paragraph (7), by striking out "paragraph (13) of section 322" and inserting in lieu thereof "paragraphs (13), (14), (16), and (18) of section 322(a)"; and

(ii) by adding at the end the following:

"(8) If a manufacturer of a covered product specified in paragraph (15) or (17) of section 322(a) elects to provide a label for such covered product conveying the estimated annual operating cost of such product or the range of estimated annual operating costs for the type or class of such product—

"(A) such estimated cost or range of costs shall be determined in accordance with test procedures prescribed under section 323;

"(B) the format of such label shall in accordance with a format prescribed by the Commission; and

"(C) such label shall be displayed in a manner, prescribed by the Commission, to be likely to assist consumers in making purchasing decisions and appropriate to carry out the purposes of this part.".

(f) STANDARDS.—Section 325 of such Act (42 U.S.C. 6295) is amended—

(1) by redesignating subsections (i) through (q) as subsections (l) through (t); and

(2) by inserting after subsection (h) the following:

"(i) GENERAL SERVICE FLUORESCENT LAMPS AND INCANDESCENT REFLECTOR LAMPS.—(1)(A) Each of the following general service fluorescent lamps and incandescent reflector lamps manufactured after the effective date specified in the tables listed in this paragraph shall meet or exceed the following lamp efficacy and CRI standards:

"FLUORESCENT LAMPS

"Lamp Type	Nominal Lamp Wattage	Minimum CRI	Minimum Average Lamp Efficacy (LPW)	Effective Date (Months)
4-foot medium bi-pin.	>35W	69	75.0	36
	≤35W	45	75.0	36
2-foot U-shaped	>35W	69	68.0	36
	≤35W	45	64.0	36
8-foot slimline	65W	69	80.0	18
	≤65W	45	80.0	18
8-foot high output	>100W	69	80.0	18
	≤100W	45	80.0	18

"INCANDESCENT REFLECTOR LAMPS

"Nominal Lamp Wattage	Minimum Average Lamp Efficacy (LPW)	Effective Date (Months)
40–50	10.5	36
51–66	11.0	36
67–85	12.5	36
86–115	14.0	36
116–155	14.5	36
156–205	15.0	36

"(B) For the purposes of the tables set forth in subparagraph (A), the term 'effective date' means the last day of the month set forth in the table which follows the date of the enactment of the Comprehensive National Energy Policy Act.

"(2) Notwithstanding section 332(a)(5) and section 332(b), it shall not be unlawful for a manufacturer to sell a lamp which is in compliance with the law at the time such lamp was manufactured.

"(3) Not less than 36 months after the date of the enactment of this subsection, the Secretary shall initiate a rulemaking procedure and shall publish a final rule not later than the end of the 54-month period beginning on the date of the enactment of this subsection to determine if the standards established under paragraph (1) should be amended. Such rule shall contain such amendment, if any, and provide that the amendment shall apply to products manufactured on or after the 36-month period beginning on the date such final rule is published.

"(4) Not less than eight years after the date of the enactment of this subsection, the Secretary shall initiate a rulemaking procedure and shall publish a final rule not later than nine years and six months after the date of the enactment of this subsection to determine if the standards in effect for fluorescent lamps and incandescent lamps should be amended. Such rule shall contain such amendment, if any, and provide that the amendment shall apply to products manufactured on or after the 36-month period beginning on the date such final rule is published.

"(5) Not later than the end of the 24-month period beginning on the date labeling requirements under section 324(a)(2)(C) become effective, the Secretary shall initiate a rulemaking procedure to determine if the standards in effect for fluorescent lamps and incandescent lamps should be amended so that they would be applicable to additional general service fluorescent and general service incandescent lamps and shall publish, not later than 18 months after initiating such rulemaking, a final rule including such amended standards, if any. Such rule shall provide that the amendment shall apply to products manufactured after a date which is 36 months after the date such rule is published.

"(6)(A) With respect to any lamp to which standards are applicable under this subsection or any lamp specified in section 346, the Secretary shall inform any Federal entity proposing actions which would adversely impact the energy consumption or energy efficiency of such lamp of the energy conservation consequences of such action. It shall be the responsibility of such Federal entity to carefully consider the Secretary's comments.

"(B) Notwithstanding section 325(n)(1), the Secretary shall not be prohibited from amending any standard, by rule, to permit increased energy use or to decrease the minimum required energy efficiency of any lamp to which standards are applicable under this subsection if such action is warranted as a result of other Federal action (including restrictions on materials or processes) which would have the effect of either increasing the energy use or decreasing the energy efficiency of such product.

"(7) Not later than the date on which standards established pursuant to this subsection become effective, or, with respect to high-intensity discharge lamps covered under section 346, the effective date of standards established pursuant to such section, each manufacturer of a product to which such standards are applicable shall file with the Secretary a laboratory report certifying compliance with the applicable standard for each lamp type. Such report shall include the lumen output and wattage consumption for each lamp type as an average of measurements taken over the preceding 12-month period. With respect to lamp types which are not manufactured during the 12-month period preceding the date such standards become effective, such report shall be filed with the Secretary not later than the date which is 12 months after the date manufacturing is commenced and shall include the lumen output and wattage consumption for each such lamp type as an average of measurements taken during such 12-month period.

"(j) STANDARDS FOR SHOWERHEADS AND FAUCETS.—(1)(A) The maximum water use allowed for any showerhead manufactured after July 1, 1993, is 2.5 gallons per minute when measured at a flowing water pressure of 80 pounds per square inch.

"(B) When used as a component part of a showerhead, any flow restricting insert shall be mechanically retained at the point of manufacture. The requirement of the previous sentence shall not apply to showerheads which cause water to leak significantly from areas other than the spray face when the flow restricting insert is removed. For purposes of this subparagraph, the term 'mechanically retained' means that a pushing or pulling force of 8 pounds or more is required to remove the flow restricting insert.

"(2) The maximum water use allowed for any of the following faucets manufactured after January 1, 1994, when measured at a flowing water pressure of 80 pounds per square inch, is as follows:

"Lavatory faucets	2.5 gallons per minute
"Lavatory replacement aerators.	2.5 gallons per minute
"Kitchen faucets	2.5 gallons per minute
"Kitchen replacement aerators.	2.5 gallons per minute
"Metering faucets	0.25 gallons per cycle

"(3)(A) If the maximum flow rate requirements or the design requirements of ASME Standard A112.18.1M–1989, as in effect on the date of the enactment of the Comprehensive National Energy Policy Act, are amended to improve the efficiency of water use of any type or class of showerhead or faucet and are approved by ANSI, the Secretary shall, not later than 12 months after the date of such amendment, publish a final rule establishing an amended uniform national standard for that product at the level specified in the amended ASME/ANSI Standard A112.18.1M and providing that such standard shall apply to products manufactured after a date which is 12 months after the publication of such rule, unless the Secretary determines, by rule published in the Federal Register, that adoption of a uniform national standard at the level specified in such amended ASME/ANSI Standard A112.18.1M—

"(i) is not technologically feasible and economically justified under subsection (o);

"(ii) is not consistent with the maintenance of public health and safety; or

"(iii) is not consistent with the purposes of this part.

"(B) As part of the rulemaking conducted under subparagraph (A), the Secretary shall also determine if adoption of a standard for any type or class of showerhead or faucet more stringent than such amended ASME/ANSI Standard A112.18.1M would result in additional conservation of energy or water. If the Secretary so determines, such rule shall waive the provisions of section 327(c) with respect to any State regulation concerning the water use or water efficiency of such type or class of showerhead or faucet if such State regulation—

"(i) is more stringent than the standard in effect for such type or class of showerhead or faucet; and

"(ii) is applicable to any sale or installation of all products in such type or class of showerhead or faucet.

"(C) If, after any period of five consecutive years, the maximum flow rate requirements of the ASME/ANSI standard for showerheads are not amended to improve the efficiency of water use of such products, or after such period such requirements for faucets are not amended to improve the efficiency of water use of such products, the Secretary shall, not later than six months after the end of such five-year period, publish a final rule waiving the provisions of section 327(c) with respect to any State regulation concerning the water use or water efficiency of such type or class of showerhead or faucet if such State regulation—

"(i) is more stringent than the standards in effect for such product; and

"(ii) is applicable to any sale or installation of all products in such type or class or showerhead or faucet.

"(k) STANDARDS FOR WATER CLOSETS AND URINALS.—(1)(A) Except as provided in subparagraph (B), the maximum water use allowed in gallons per flush for any of the following water closets manufactured after January 1, 1994, is the following:

"Gravity tank-type toilets	1.6 gpf.
"Flushometer tank toilets	1.6 gpf.
"Electromechanical hydraulic toilets	1.6 gpf.
"Blowout toilets	3.5 gpf.

"(B) The maximum water use allowed for any gravity tank-type toilet which bears a permanent mark conspicuous upon installation consisting of the words 'Commercial Use Only' manufactured after January 1, 1994, and before January 1, 1997, is 3.5 gallons per flush.

"(C) The maximum water use allowed for flushometer valve toilets, other than blowout toilets, manufactured after January 7, 1997, is 1.6 gallons per flush.

"(2) The maximum water use allowed for any urinal manufactured after January 1, 1994, is 1.0 gallons per flush.

"(3)(A) If the maximum flush volume requirements of ASME Standard A112.19.6–1990, as in effect on the date of the enactment of the Comprehensive National Energy Policy Act, are amended to improve the efficiency of water use of any low consumption water closet or low consumption urinal and are approved by ANSI, the Secretary shall, not later than 12 months after the date of such amendment, publish a final rule establishing an amended uniform national standard for that product at the level specified in amended ASME/ANSI Standard A112.19.6 and providing that such standard shall apply to products manufactured after a date which is one year after the publication of such rule, unless the Secretary determines, by rule published in the Federal Register, that adoption of a uniform national standard at the level specified in such amended ASME/ANSI Standard A112.19.6—

"(i) is not technologically feasible and economically justified under subsection (o);

"(ii) is not consistent with the maintenance of public health and safety; or

"(iii) is not consistent with the purposes of this part.

"(B) As part of the rulemaking conducted under subparagraph (A), the Secretary shall also determine if adoption of a uniform national standard for any type or class of low consumption water closet or low consumption urinal more stringent than such amended ASME/ANSI Standard A112.19.6 for such product would result in additional conservation of energy or water. If the Secretary so determines, such rule shall waive the provisions of section 327(c) with respect to any State regulation concerning the water use or water efficiency of such type or class of low consumption water closet or low consumption urinal if such State regulation—

"(i) is more stringent than the standard in effect for such type or class of low consumption water closet or low consumption urinal; and

"(ii) is applicable to any sale or installation of all products in such type or class of low consumption water closet or low consumption urinal.

"(C) If, after any period of five consecutive years, the maximum flush volume requirements of the ASME/ANSI standard for low consumption water closets are not amended to improve the efficiency of water use of such products, or after such period such requirements for low consumption urinals are not amended to improve the efficiency of water use of such products, the Secretary shall, not later than six months after the end of such five-year period, publish a final rule waiving the provisions of section 327(c) with respect to any State regulation concerning the water use or water efficiency of such type or class of water closet or urinal if such State regulation—

"(i) is more stringent than the standards in effect for such type or class of water closet or urinal; and

"(ii) is applicable to any sale or installation of all products in such type or class of water closet or urinal.

(3) in subsection (l) (as redesignated by paragraph (1) of this subsection)—

(A) in paragraphs (1) and (2), by striking out "(14)" and inserting in lieu thereof "(19)"; and

(B) in paragraphs (1) and (3), by striking out "(l) and (m)" and inserting in lieu thereof "(o) and (p)";

(4) in subsection (m) (as redesignated by paragraph (1) of this subsection), by striking out "(h)" and inserting in lieu thereof "(i)";

(5) in subsection (n) (as redesignated by paragraph (1) of this subsection)—

(A) in paragraph (1)—

(i) by striking out "and in paragraph (13)" and inserting in lieu thereof ", and in paragraphs (13) and (14)"; and

(ii) by striking out "(h)" and inserting in lieu thereof "(i)";

(B) in paragraph (2)(C), by striking out "(l)(2)(B)(i)(II)" and inserting in lieu thereof "(o)(2)(B)(i)(II)"; and

(C) in paragraph (3)(B), by inserting "general service fluorescent lamps, incandescent reflector lamps," after "fluorescent lamp ballasts,"; and

(6) in subsection (o) (as redesignated by paragraph (1) of this subsection)—

(A) in paragraph (1), by inserting "or, in the case of showerheads, faucets, water closets, or urinals, water use," after "energy use,";

(B) in paragraph (2)(A), by inserting ", or, in the case of showerheads, faucets, water closets, or urinals, water efficiency," after "energy efficiency";

(C) in paragraph (2)(B)(i)(III), by inserting ", or as applicable, water," after "energy";

(D) in paragraph (2)(B)(i)(VI), by inserting "and water" after "energy";

(E) in paragraph (2)(B)(iii), by striking out "energy savings" and inserting "energy, and as applicable water, savings"; and

(F) in paragraph (3)(B), by inserting ", in the case of showerheads, faucets, water closets, or urinals, water, or" after "energy or";

(7) in subsection (p)(3)(A) (as redesignated by paragraph (1) of this subsection)—

(A) by striking out "(l)(2)" and inserting in lieu thereof "(o)(2)"; and

(B) by striking out "(l)(4)" and inserting in lieu thereof "(o)(4)".

(g) REQUIREMENTS OF MANUFACTURERS.—Section 326 of such Act (42 U.S.C. 6296) is amended—

(1) in subsection (b)(4), by inserting "or water use" after "consumption"; and

(2) in subsection (d)(1), by striking out "or energy use" and inserting in lieu thereof ", energy use, or, in the case of showerheads, faucets, water closets, and urinals, water use".

(h) EFFECT ON OTHER LAW.—Section 327 of such Act (42 U.S.C. 6297) is amended—

(1) in subsection (a)—

(A) in paragraph (1), in the material preceding subparagraph (A), by inserting "or water use" after "energy consumption";

(B) in paragraph (1)(A), by inserting ", water use," after "energy consumption";

(C) in paragraph (1)(B), by striking out "or energy efficiency" and inserting in lieu thereof ", energy efficiency, or water use"; and

(D) by amending paragraph (2) to read as follows:

"(2) For purposes of this section, the following definitions apply:

"(A) The term 'State regulation' means a law, regulation, or other requirement of a State or its political subdivisions. With respect to showerheads, faucets, water closets, and urinals, such term shall also mean a law, regulation, or other requirement of a river basin commission that has jurisdiction within a State.

"(B) The term 'river basin commission' means—

"(i) a commission established by interstate compact to apportion, store, regulate, or otherwise manage or coordinate the management of the waters of a river basin; and

"(ii) a commission established under section 201(a) of the Water Resources Planning Act (42 U.S.C. 1962b(a)).";

(2) in subsection (b)—

(A) in the material preceding paragraph (1), by striking out "or energy use of the covered product" and inserting in lieu thereof ", energy use, or water use of the covered product";

(B) by inserting before the semicolon at the end of paragraph (1) the following: ", or in the case of any portion of any regulation which establishes requirements for fluorescent or incandescent lamps, flow rate requirements for showerheads or faucets, or water use requirements for water closets or urinals, was prescribed or enacted before the date of the enactment of the Comprehensive National Energy Policy Act";

(C) in paragraph (4), by inserting before the semicolon at the end the following: ", or is a regulation (or portion thereof) regulating fluorescent or incandescent lamps other than those to which section 325(i) is applicable, or is a regulation (or portion thereof) regulating showerheads or faucets other than those to which section 325(j) is applicable or regulating lavatory faucets (other than metering faucets) for installation in public places, or is a regulation (or portion thereof) regulating water closets or urinals other than those to which section 325(k) is applicable";

(D) in paragraph (5), by striking out "or";

(E) in paragraph (6), by striking out the period at the end and inserting "; or"; and

(F) by adding at the end the following new paragraph:

"(7) is a regulation (or portion thereof) concerning the water efficiency or water use of low consumption flushometer valve water closets.";

(3) in subsection (c)—

(A) in the material preceding paragraph (1)—

(i) by inserting ", subparagraphs (B) and (C) of section 325(j)(3), and subparagraphs (B) and (C) of section 325(k)(3)" after "section 325(b)(3)(A)(ii)"; and

(ii) by striking out "or energy use" and inserting in lieu thereof the following: ", energy use, or water use";

(B) in paragraph (1), by inserting before the semicolon at the end the following: ", except that a State regulation (or portion thereof) regulating fluorescent or incandescent lamps other than those for which section 325(i) is applicable shall be effective only until the effective date of a standard that is prescribed by the Secretary and is applicable to such lamps";

(C) in paragraph (2), by striking out "or";

(D) in paragraph (3), by striking out the period at the end and inserting a semicolon; and

(E) by adding at the end the following new paragraphs:

"(4) is a regulation concerning the water use of lavatory faucets adopted by the State of New York or the State of Georgia before the date of the enactment of the Comprehensive National Energy Policy Act;

"(5) is a regulation concerning the water use of kitchen faucets adopted by the State of Rhode Island prior to the date of the enactment of the Comprehensive National Energy Policy Act; or

"(6) is a regulation (or portion thereof) concerning the water efficiency or water use of gravity tank-type low consumption water closets for installation in public places, except that such a regulation shall be effective only until July 1, 1997.";

(4) in subsection (d)(1)—

(A) in subparagraph (A)—

(i) by inserting "or river basin commission" after "Any State"; and

(ii) by striking out "or energy efficiency" and inserting in lieu thereof ", energy efficiency, or water use";

(B) in subparagraph (B)—

(i) by striking out "State has" and inserting "State or river basin commission has"; and

(ii) by inserting "or water" after "energy";

(C) in subparagraph (C)—

(i) in the material preceding clause (i) and in clause (ii), by inserting "or water" after "energy" each place it appears; and

(ii) by inserting before the period at the end the following: ", and, with respect to a State regulation for which a petition has been submitted to the Secretary which provides for any energy conservation standard or requirement with respect to water use of a covered product, within the context of the water supply and groundwater management plan, water quality program, and comprehensive plan (if any) of the State or river basin commission for improving, developing, or conserving a waterway affected by water supply development";

(5) in subsection (d)(5)(B)(i)—

(A) in the material preceding subclause (I), by inserting "or water" after "energy";

(B) in subclause (I), by striking "or electric energy" and inserting ", electric energy, water, or wastewater treatment"; and

(C) in subclause (II), by inserting "or water" after "energy".

(i) INCENTIVE PROGRAMS.—Section 337 of such Act (42 U.S.C. 6307) is amended—

(1) by striking out "337." and inserting "337. (a) IN GENERAL.—"; and

(2) by adding at the end the following:

"(b) STATE AND LOCAL INCENTIVE PROGRAMS.—(1) The Secretary shall, not later than one year after the date of the enactment of this subsection, issue recommendations to the States for establishing State and local incentive programs designed to encourage the acceleration of voluntary replacement, by consumers, of existing showerheads, faucets, water closets, and urinals with those products that meet the standards established for such products pursuant to subsections (j) and (k) of section 325.

"(2) In developing such recommendations, the Secretary shall consult with the heads of other Federal agencies, including the Administrator of the Environmental Protection Agency; State officials; manufacturers, suppliers, and installers of plumbing products; and other interested parties.".

The CHAIRMAN. Pursuant to the rule, and the unanimous consent request adopted earlier in the House, the gentleman from Massachusetts [Mr. ATKINS] will be recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The Chair recognizes the gentleman from Massachusetts [Mr. ATKINS].

Mr. ATKINS. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this is an amendment that has been agreed to by the environmental groups, industry and labor. It is an amendment which builds on the successful Department of Energy program which sets energy efficiency standards for electric appliances. It now extends the concept for water appliances, including faucets, showerheads, and toilets.

This amendment, if adopted, within 10 years will save $15 billion for consumers in water and energy costs. It will conserve 3 percent of annual U.S. electric consumption, of total energy use, and will conserve 20 percent of our indoor water use and have virtually no effect on people lifestyles. So it is a simple, common sense amendment, and it is one that I think will go a substantial way to meeting the goals of this legislation for energy efficiency and have a benefit in substantially decreased water usage.

□ 1800

Mr. Chairman, I yield 1 minute to the gentleman from Minnesota [Mr. SIKORSKI].

Mr. SIKORSKI. Mr. Chairman, I want to commend the gentleman from Massachusetts for his legislation establishing national plumbing products efficiency and for his amendment here today.

This legislation, as he said, is consistent with energy efficient standards on electrical lighting, motors, heating and cooling equipment, shower heads. It saves billions of dollars. It saves billions of gallons of water. It saves billions of gallons of oil. It is good for consumers and taxpayers and ratepayers and businesses and the environment.

I commend the gentleman.

Mr. ATKINS. Mr. Chairman, I yield 1 minute to the gentleman from Utah [Mr. OWENS].

Mr. OWENS of Utah. Mr. Chairman, I am a cosponsor along with Mr. BILIRAKIS of Mr. ATKINS' amendment establishing water conservation standards for plumbing products. The Atkins-Owens-Bilirakis amendment promotes water conservation and saving water also saves energy. It's that simple.

In the West, vast amounts of energy are used to transport water over long distances. Nationwide, municipal wastewater plants are major users of electric power. New requirements of the Safe Drinking Water Act will necessitate more energy-intensive forms of treatment for drinking water in many communities. When all of the energy used to pump, treat and heat water is added up, the total quantities are staggering.

To give just a few illustrations:

About 25 percent of the output of the Hoover Dam, one of the largest hydroelectric dams in the country, is dedicated to pumping Colorado River water to southern California.

The California State water project uses about 4 billion kilowatt hours of electricity each year to pump water through its aqueducts.

A huge amount of energy is used to treat wastewater. It can take over 1,600 kilowatt-hours of electric power to provide treatment for 1 acre foot of municipal wastewater.

Inefficient showers, faucets and toilets waste water needlessly, draining away energy resources in the process. The water conservation standards established by the Atkins-Owens-Bilirakis amendment will result in substantial water savings that directly translates into energy savings. An added bonus of this amendment is that energy savings can save consumers money.

The Atkins-Owens-Bilirakis amendment is a significant addition to our national energy policy and an important step toward the goal of conservation of water resources. But it should not be the end of our efforts to save water.

The importance of conserving water in the West cannot be stressed enough. It is dearer than any other resource. Conservation of water provides many environmental benefits in addition to its other virtues.

We should look for other ways to promote water conservation and to enact comprehensive legislation that furthers this important goal. I had offered an additional water conservation amendment to H.R. 776 designed to promote additional water and energy conservation. Unfortunately, my amendment was not ruled in order as an amendment to this legislation. There will be other opportunities to enact water conservation legislation and I will continue to sponsor and to support amendments that further the goals of the Atkins-Owens-Bilirakis amendment. I would encourage my colleagues to join in this effort.

Mr. Chairman, I urge the adoption of this amendment.

Mr. ATKINS. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. DOOLEY].

Mr. DOOLEY. Mr. Chairman, I rise in support of the Atkins-Bilirakis-Owens amendment. This amendment would establish uniform national standards for plumbing products in the interest of saving both energy and water. The amendment will save consumer dollars, conserve energy resources, and—of special importance to California—help to better manage scarce water supplies.

As reported by the Energy Committee, the bill would solely establish a national water-saving standard for showerheads, to be administered as part of the Department of Energy's existing Appliance Energy Efficiency Program. The amendment that we are now considering will broaden the provisions of the bill by extending and establishing national standards to include other water-using plumbing products, including water closets, urinals, lavatory faucets and kitchen faucets.

The implementation of these measures are expected to produce staggering results. Indoor water use in new homes will be reduced by about 20 percent, while the water savings resulting from the gradual replacement of plumbing fixtures in existing buildings will be even greater. Without question we will see similar results in energy savings.

The State of California, particularly the California Energy Commission, has played a leadership role in developing conservation standards. Last November, most urban water agencies in California signed a historic memorandum of understanding with many State and national environmental organizations committing to implement a wide range of water conserving practices. More efficient plumbing products form a critical part of these conservation commitments by California's cities.

But even the best of the State and local conservation programs will get a significant boost from the uniform national product standards we are considering here today. The Atkins amendment establishes uniform product standards and labeling requirements that must be met by manufacturers, greatly simplifying the enforcement of the new standards. The standards apply to all newly manufactured products, whether sold at wholesale or retail, domestic or imported. I am pleased to note that all major U.S. manufacturers of plumbing products are now capable of supplying products that meet the standards contained in the bill.

Finally, I would note an additional benefit of the adoption of the amendment—a benefit that is not confined to the water-scarce Western States. Adoption of the Atkins amendment can make a significant dent in the high costs of municipal wastewater treatment that continue to face this Nation.

California alone will require an additional $12.3 billion over the next 20 years to upgrade and expand publicly owned wastewater treatment facilities. Many of these costs are directly related to the volume of wastewater flow that must be managed. Quite simply, efficient water use means more efficient wastewater treatment, and consumers—our constituents—will reap the savings.

I commend the gentleman from Massachusetts [Mr. ATKINS], for his interest in this issue, and I urge my colleague to adopt the amendment now considered.

Mr. ATKINS. Mr. Chairman, I yield 1 minute to the gentleman from Indiana [Mr. SHARP].

Mr. SHARP. Mr. Chairman, we certainly want to accept this amendment. The gentleman from Massachusetts has worked very hard on this issue and has been able to bring together the conflicting parties and work out an agreement that I think will work well as a practical matter and as a design that will save energy and save water.

Mr. ATKINS. Mr. Chairman, I yield the balance of my time to the gentleman from California [Mr. MOORHEAD].

Mr. YOUNG of Alaska. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I am happy to yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Chairman, I would like to make some inquiries. Is it my understanding that you are passing Federal regulations on all States whether there is a need to conserve water or not? Is there anybody willing to answer that?

Mr. ATKINS. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I am happy to yield to the gentleman from Massachusetts.

Mr. ATKINS. Mr. Chairman, yes, this legislation would pass national standards for water usage and would have a dramatic effect on reducing consumption of both water and energy in the country and has been endorsed by industry, by the plumbing manufacturers, by environmental groups.

Mr. YOUNG of Alaska. I do not worry about the environmental groups. I am going to ask a question: You are imposing standards on all States whether there is a need, or does it affect existing houses that have plumbing in them now? Do you have to change the plumbing, or is it new housing? I have not seen the amendment.

I am looking for answers.

Mr. ATKINS. If the gentleman will yield further, I would be happy to respond. This provides standards only on new manufactured products. It would not require any kind of retrofitting in existing housing but only for new manufactured products.

The reason that the legislation is important in all parts of the country is because absent national standards we will create a situation where each locality will establish its own standards for energy consumption and water consumption on these products, and it will make it impossible to have a national marketplace, will dramatically drive up the costs for the consumers.

Mr. YOUNG of Alaska. Mr. Chairman, again, if the gentleman will yield further, it is ironic to me that we are setting a standard when there is no need in certain areas; I understand California. The gentleman from California [Mr. DOOLEY] makes sense. I understand probably the Northeast where you have let your sewer systems and your water systems decay and you have not spent your money on it. Now you are going to have a national standard, a Federal standard, that does not make sense and that can possibly cause an increase in the cost of housing, possibly, I do not know, housing to the individuals, where by now we are talking about already increases in the cost of housing because of the spotted owl.

I do not know if anybody has really studied this. Is there additional cost or not?

Mr. ATKINS. If the gentleman will yield further, the standards are on the manufacturers of the product.

Mr. YOUNG of Alaska. They are the ones that sell them to the house builders? Is that right? Does anybody know how much more this is going to cost, or is it going to cost less?

Mr. ATKINS. If the gentleman will yield further, this will yield substantial savings to manufacturers by having a national marketplace for these products.

Mr. YOUNG of Alaska. We had that through the Volkswagen; that was the Volkswagen in the 1930's, too, standard across the board. The Federal Government setting standards in States is wrong. Now, if the State has the water and a person wants to buy that showerhead, they should have the right to buy that showerhead. What the gentleman is saying is that Big Brother knows best on this bill, and you apply it to every State, every State that does not have these standards? Is that correct?

Mr. ATKINS. If the gentleman will yield further, I will be happy to respond.

The legislation does not provide standards for any States. It provides standards for the manufacturers. The manufacturers have agreed to this, because it will lower these costs. The States have enthusiastically endorsed it, because for the States it will dramatically reduce the cost of wastewater treatment.

For the State of Alaska, even though they have plentiful water supplies, this will yield substantial savings in wastewater treatment.

Mr. MOORHEAD. Mr. Chairman, this amendment cuts Federal maximum consumption standards for showerheads, faucets, toilets, and urinals similar in format to appliance energy efficiency standards.

One of the reasons for these standards is if every State has a different set of standards, it becomes very expensive to build these products, and the cost to the consumer is much, much larger than it would be if there is one standard being set for the manufacturers for the Nation.

I was opposed to the bill in its original form, but because these standards have been worked out between industry and the environment, there is no reason to believe that they will not work. One of the reasons that the entire appliance efficiency program has worked so well in the past is that all standards have been worked out between industry and the environmentalists using accepted industry standards whenever possible.

For that reason, I support the legislation.

Mr. MARLENEE. Mr. Chairman, will the gentleman yield?

Mr. MOORHEAD. I am happy to yield to the gentleman from Montana.

Mr. MARLENEE. Mr. Chairman, I thank the gentleman for yielding to me.

I may be from a kind of backward State, and maybe I am not. Maybe we are somewhat enlightened, and maybe we have plenty of water in certain areas.

But here we are in the midst of debate talking about an energy bill, an energy policy for a Nation, extremely important, and we have an amendment that establishes the toilet police. I cannot believe that in all seriousness we are on the floor of this House establishing toilet police for the United States of America.

The CHAIRMAN. The time under the rule has expired.

No Member has risen in opposition to the amendment.

PARLIAMENTARY INQUIRY

Mr. MARLENEE. Mr. Chairman, I have a parliamentary inquiry.

The CHAIRMAN. The gentleman will state his parliamentary inquiry.

Mr. MARLENEE. Has all time for argument expired?

The CHAIRMAN. The time controlled by the proponent of the amendment has expired. No member has risen in opposition.

Mr. MARLENEE. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from Montana [Mr. MARLENEE] will be recognized for 10 minutes.

Mr. MARLENEE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, here we are in the United States of America, and we are threatened with an emergency crisis. We stand here debating whether we will set standards on how much water we can use per flush in a toilet, how much water will be used in a urinal, how much pressure we will have in a showerhead, and establishing the regulations to go with it. The regulations will tell us we can use 1.6 gallons per toilet flush and 1.1 gallons in a urinal.

We are in a crisis in the United States of America. We have a regulatory gridlock, and the U.S. Congress and the liberals in this Congress still do not understand the suffering and the regulatory gridlock that is taking place in ordinary America, with ordinary citizens' lives.

□ 1810

What we have here is an amendment that will raise the cost to the consumer and will treat everybody the same, regardless of whether they have a surplus of water, whether they are on a rural system, whether they have their own wells, whether they are taking their water from a cistern. It is another example of overregulation.

Mr. ATKINS. Mr. Chairman, will the gentleman yield?

Mr. MARLENEE. I am happy to yield to the gentleman from Massachusetts.

Mr. ATKINS. Mr. Chairman, the gentleman, I am afraid, is misinformed on this.

The cost will be $15 billion in savings to consumers. This legislation will establish uniform national standards.

The importance of this has been proven already in electric appliances. We presently have similar national standards for electric appliances. It will dramatically reduce energy consumption in this country by 3 percent.

The manufacturers have welcomed, and indeed have endorsed this particular regulation because it will enable them to compete. It will enable them to have a rational marketplace.

This is in fact a regulation which will promote savings for the consumers, competitiveness for our manufacturers, and considerable savings for the Government.

Mr. MARLENEE. Regaining my time, Mr. Chairman, I do not know about the people in Massachusetts, but our folks out there are saying, "Get out of my hair and off my back and let us take care of it."

If California or Massachusetts wants to establish water conservation standards, let them go to it.

Along that line, maybe if you are going in this direction we ought to eliminate swimming pools. Would that not save a lot of water? Would that not also address the caste system that we have in the United States?

We ought not to be squandering water in swimming pools.

If I want the kind of pressure in my showerhead and I have an ample amount of water, I should be able to purchase that kind of a system and install it in my home.

Get out of my hair, get off my back.

Mr. Chairman, I oppose the amendment.

Mr. ATKINS. Mr. Chairman, will the gentleman yield?

Mr. MARLENEE. I am happy to yield to the gentleman from Massachusetts.

Mr. ATKINS. I would suggest to the gentleman, Mr. Chairman, that indeed the National Rural Water Association, of which the gentleman's State of Montana is a part, supports this amendment. The reason they support the amendment is because it will have a profound impact for rural water systems, because it will reduce the pressure and increase the life of septic systems.

The gentleman is able to use any showerhead, any toilet, any urinal he wants.

Mr. MARLENEE. Except that you cannot buy it.

Mr. ATKINS. No. The only regulation is on the manufacturer of these products.

Mr. MARLENEE. That is right.

Mr. ATKINS. And the reason for that is because if the gentleman wants to have a 7-gallon toilet, when he flushes that toilet it is our tax dollars that are going to pay for treating that waste water.

Mr. MARLENEE. No. It is the municipalities' tax water. It is the rural water users' tax dollars.

I might remind the gentleman that I have just met with a number of rural water users in the State of Montana who are deeply distressed about the cost that this Congress has put on them with the Clean Water Act and the 1986 Safe Drinking Water Amendments. They are being bankrupt. They are being put out of business by having to comply with overregulation. We are driving the local communities into bankruptcy, and here is some more of it.

If you want more regulation, by all means vote for this kind of an amendment.

Mr. BILIRAKIS. Mr. Chairman, will the gentleman yield?

Mr. MARLENEE. I yield to the gentleman from Florida.

Mr. BILIRAKIS. Mr. Chairman, I thank the gentleman for yielding to me.

Mr. Chairman, as one of the authors of this amendment, I rise in support of it.

Mr. Chairman, I join my colleagues, Mr. ATKINS of Massachusetts and Mr. OWENS of Utah, in offering this water and energy conservation amendment to H.R. 776.

This amendment is supported by a number of industry trade associations, including the United Association of Plumbers and Pipefitters, the American Water Works Association, the National Association of Water Companies and the National Association of Regulatory Utility Commissioners. Also endorsing the amendment are the American Council for an Energy-Efficient Economy, the National Wildlife Federation, the Energy Conservation Coalition, National Audubon Society, and others.

As noted by my friend from Massachusetts, this amendment establishes uniform national flow-rate standards for faucets, water closets and urinals, just as they were set for showerheads in the Energy and Commerce Committee, and which already appear in the bill.

The point to all this, of course, is that substantial energy savings are possible through nothing more than making the most efficient use possible of the energy resources available to us right now. By simply being conscious of and employing technology largely already on the shelf, we will be well down the road to achieving our goal of a truly remarkable energy savings.

As was pointed out in the Energy and Commerce Committee, encouraging more widespread observance of energy efficiency, not only in regard to water, but electricity as well, can result in marked savings.

In fact, a recent study of potential electricity savings in my home State of Florida—achievable though implementation of energy efficiency standards and related conservation efforts—was conducted by the American Council for an Energy-Efficient Economy, one of the conservation advocacy groups that supports this amendment today. It was found that as much as 40 percent of the projected increase in electricity demand could be eliminated between now and the year 2010.

Thus, as many as 6½—500 megawatt—powerplants could be avoided in Florida by the turn of the century and a further 6½ in the next decade.

These statewide savings carried to the National level are even more impressive. Peak electricity demand could be cut by as much as 30,000 megawatts, the output of 40 of the Nation's largest powerplants. By 2010, implementation of these standards alone could result in annual energy savings equivalent to half the oil we import from Saudi Arabia, the United States largest supplier.

The plumbing standards in the amendment before this body now would help to capture significant energy savings on their own, and have the added benefit of encouraging the conservation of one of our most precious and fundamental resources—water.

Consumers would realize $4 billion in energy savings between 1993 and 2010 above and beyond those already in the energy bill, for a total of $15 billion.

Likewise, water will be conserved. Indoor water use will be reduced by 20 percent by implementing these standards. That is the national equivalent of water used by a 100,000-person community.

All in all, Mr. Chairman, this is a win-win proposition:

Save energy, save water, through the uniform employment of technology already available. Certainly, this must be one of the most painless ways to guide America into a more energy-efficient and energy-secure future.

I wholeheartedly urge all of my colleagues to vote for this important and effective amendment.

Mr. MACHTLEY. Mr. Chairman, will the gentleman yield?

Mr. MARLENEE. I yield to the gentleman from Rhode Island.

Mr. MACHTLEY. Mr. Chairman, I rise in support of this amendment.

I respect the gentleman's opinion that there may not be an obvious connection between water use and energy; however, the national standards which have looked at this issue have indicated that we can save $15 billion in energy costs by interrelating them.

While Montana may have a lot of water and may not be concerned about the rest of the country, in our State where we actually were the first State to introduce standards for water plumbing equipment, we have seen enormous savings.

It is in fact a good amendment and I commend the gentlemen for their work on this bill.

I think for a nation, it is critical that we have a water policy, as much as an electric policy.

Mr. MARLENEE. Regaining my time, Mr. Chairman, I would ask the gentleman, what does it cost for Kohler and American Standard and the other companies to retrofit their plants, and will that cost be passed on to the consumer?

Mr. MACHTLEY. Well, obviously it will. There have to be changes. I assume that the person who developed the buggy whip was reluctant to let go of the horse and carriage and move into automobiles, but we have to move into the generation which is going to save energy and save water; so I would suggest there is a cost associated with the equipment, but it is in the national best interest that we save and conserve water.

Mr. ATKINS. Mr. Chairman, will the gentleman yield?

Mr. MARLENEE. I am happy to yield to the gentleman from Massachusetts.

Mr. ATKINS. Mr. Chairman, I would be happy to respond to the gentleman's questions.

I would suggest to the gentleman, he asked what will this cost to manufacturers in terms of refitting other plants, and I would suggest to the gentleman that the manufacturers have endorsed this amendment. The manufacturers of plumbing products have endorsed it for two reasons, one of which there is sufficient time for them to phase and to refit their plants for their new production.

The second is that the world market is changing to energy efficient appliances.

Without these U.S. standards, U.S. companies will have a serious problem competing in the international marketplace. Their costs will be substantially higher. We will be one of the only industrialized countries in the world that does not have uniform standards for water appliances.

Mr. MARLENEE. It seems to me, Mr. Chairman, if these products are demanded by the general consumer that we ought to let the marketplace decide that. We ought to let the State of California, the State of Montana and the State of Massachusetts set their own standards.

If you want to vote for more regulation, redtape and the toilet police, then by all means vote for this amendment. If you want to vote against regulation, then vote no on this amendment.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment, as modified, offered by the gentleman from Massachusetts [Mr. ATKINS].

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. MARLENEE. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 328, noes 79, answered "present" 1, not voting 26, as follows:

☐ 1839

Messrs. HEFLEY, GEREN of Texas, BARRETT, STENHOLM, and NICHOLS changed their vote from "aye" to "no."

Messrs. ROSE, SUNDQUIST, STAGGERS, and GEKAS changed their vote from "no" to "aye."

So the amendment, as modified, was agreed to.

The result of the vote was announced as above recorded.

☐ 1840

Mr. SHARP. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mr. SKELTON] having assumed the chair, Mr. SKAGGS, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 776) to provide for improved energy efficiency, had come to no resolution thereon.

CONFERENCE REPORT ON HOUSE CONCURRENT RESOLUTION 287, CONCURRENT RESOLUTION ON THE BUDGET—FISCAL YEAR 1993

Mr. PANETTA submitted the following conference report and statement on the concurrent resolution (H. Con. Res. 287) setting forth the congressional

budget for the U.S. Government for the fiscal years 1993, 1994, 1995, 1996, and 1997:

CONFERENCE REPORT (H. REPT. 102-529)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the concurrent resolution (H. Con. Res. 287) setting forth the congressional budget for the United States Government for the fiscal years 1993, 1994, 1995, 1996, and 1997, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 1993.

(a) Declaration.—The Congress determines and declares that this resolution is the concurrent resolution on the budget for fiscal year 1993, including the appropriate budgetary levels for fiscal years 1994, 1995, 1996, and 1997, as required by section 301 of the Congressional Budget Act of 1974 (as amended by the Budget Enforcement Act of 1990).

(b) Table of Contents.—The table of contents for this concurrent resolution is as follows:

Sec. 1. Concurrent resolution on the budget for fiscal year 1993.
Sec. 2. Recommended levels and amounts.
Sec. 3. Debt increase as a measure of deficit.
Sec. 4. Display of Federal Retirement Trust Fund balances.
Sec. 5. Social security.
Sec. 6. Major functional categories.
Sec. 7. Health care costs.
Sec. 8. Sale of Government assets.
Sec. 9. Deficit-neutral reserve fund in the Senate for family and economic security initiatives in accordance with provisions of the summit agreement.
Sec. 10. Maximum deficit amount and aggregate points of order in the Senate.
Sec. 11. Clarification of the application of section 311(b) of the Congressional Budget Act in the House.
Sec. 12. Social security fire wall point of order in the Senate.
Sec. 13. Study of United States Government assistance to recipients by income category.
Sec. 14. Sense of the Senate regarding balanced budget amendment.
Sec. 15. Program budget evaluation.
Sec. 16. Sense of the Senate regarding increasing productivity.
Sec. 17. Sense of the Congress on WIC.
Sec. 18. Defense industry conversion.
Sec. 19. Budget authority-outlay ratio.

SEC. 2. RECOMMENDED LEVELS AND AMOUNTS.

The following budgetary levels are appropriate for the fiscal years 1993, 1994, 1995, 1996, and 1997:

(1)(A) Federal revenues (for purposes of comparison with the maximum deficit amount under sections 601(a)(1) and 606 of the Congressional Budget Act of 1974 and for purposes of the enforcement of this resolution).—(i) The recommended levels of Federal revenues are as follows:

Fiscal year 1993: $845,300,000,000.
Fiscal year 1994: $911,300,000,000.
Fiscal year 1995: $968,100,000,000.
Fiscal year 1996: $1,017,800,000,000.
Fiscal year 1997: $1,070,400,000,000.

(ii) The amounts by which the aggregate levels of Federal revenues should be increased are as follows:

Fiscal year 1993: $0.
Fiscal year 1994: $0.
Fiscal year 1995: $0.
Fiscal year 1996: $0.
Fiscal year 1997: $0.

(iii) The amounts for Federal Insurance Contributions Act revenues for hospital insurance within the recommended levels of Federal revenues are as follows:

Fiscal year 1993: $85,300,000,000.
Fiscal year 1994: $91,200,000,000.
Fiscal year 1995: $96,800,000,000.
Fiscal year 1996: $102,900,000,000.
Fiscal year 1997: $109,200,000,000.

(B) Federal revenues.—For purposes of section 710 of the Social Security Act (excluding the receipts and disbursements of the Hospital Insurance Trust Fund): (i) The recommended levels of Federal revenues are as follows:

Fiscal year 1993: $760,000,000,000.
Fiscal year 1994: $820,100,000,000.
Fiscal year 1995: $871,300,000,000.
Fiscal year 1996: $914,900,000,000.
Fiscal year 1997: $961,200,000,000.

(ii) The amounts by which the aggregate levels of Federal revenues should be increased are as follows:

Fiscal year 1993: $0.
Fiscal year 1994: $0.
Fiscal year 1995: $0.
Fiscal year 1996: $0.
Fiscal year 1997: $0.

(2)(A) New budget authority.—For purposes of comparison with the maximum deficit amount under sections 601(a)(1) and 606 of the Congressional Budget Act of 1974 and for purposes of the enforcement of this resolution, the appropriate levels of total new budget authority are as follows:

Fiscal year 1993: $1,264,400,000,000.
Fiscal year 1994: $1,269,400,000,000.
Fiscal year 1995: $1,309,600,000,000.
Fiscal year 1996: $1,375,100,000,000.
Fiscal year 1997: $1,468,700,000,000.

(B) New budget authority.—For purposes of section 710 of the Social Security Act (excluding the receipts and disbursements of the Hospital Insurance Trust Fund), the appropriate levels of total new budget authority are as follows:

Fiscal year 1993: $1,175,700,000,000.
Fiscal year 1994: $1,191,100,000,000.
Fiscal year 1995: $1,222,400,000,000.
Fiscal year 1996: $1,277,600,000,000.
Fiscal year 1997: $1,361,500,000,000.

(3)(A) Budget outlays.—For purposes of comparison with the maximum deficit amount under sections 601(a)(1) and 606 of the Congressional Budget Act of 1974 and for purposes of the enforcement of this resolution, the appropriate levels of total budget outlays are as follows:

Fiscal year 1993: $1,238,700,000,000.
Fiscal year 1994: $1,255,100,000,000.
Fiscal year 1995: $1,257,900,000,000.
Fiscal year 1996: $1,304,900,000,000.
Fiscal year 1997: $1,416,100,000,000.

(B) Budget outlays.—For purposes of section 710 of the Social Security Act (excluding the receipts and disbursements of the Hospital Insurance Trust Fund), the appropriate levels of total budget outlays are as follows:

Fiscal year 1993: $1,169,100,000,000.
Fiscal year 1994: $1,177,700,000,000.
Fiscal year 1995: $1,171,800,000,000.
Fiscal year 1996: $1,209,000,000,000.
Fiscal year 1997: $1,310,100,000,000.

(4)(A) Deficits.—For purposes of comparison with the maximum deficit amount under sections 601(a)(1) and 606 of the Congressional Budget Act of 1974 and for purposes of the enforcement of this resolution, the amounts of the deficits are as follows:

Fiscal year 1993: $393,400,000,000.
Fiscal year 1994: $343,800,000,000.
Fiscal year 1995: $289,800,000,000.
Fiscal year 1996: $287,100,000,000.
Fiscal year 1997: $345,700,000,000.

(B) Deficits.—For purposes of section 710 of the Social Security Act (excluding the receipts and disbursements of the Hospital Insurance Trust Fund), the amounts of the deficits are as follows:

Fiscal year 1993: $409,100,000,000.
Fiscal year 1994: $357,600,000,000.
Fiscal year 1995: $300,500,000,000.
Fiscal year 1996: $294,100,000,000.
Fiscal year 1997: $348,900,000,000.

(5) Public debt.—The appropriate levels of the public debt are as follows:

Fiscal year 1993: $4,461,200,000,000.
Fiscal year 1994: $4,860,500,000,000.
Fiscal year 1995: $5,209,400,000,000.
Fiscal year 1996: $5,553,600,000,000.
Fiscal year 1997: $5,952,900,000,000.

(6) Direct loan obligations.—The appropriate levels of total new direct loan obligations are as follows:

Fiscal year 1993: $19,400,000,000.
Fiscal year 1994: $19,500,000,000.
Fiscal year 1995: $19,300,000,000.
Fiscal year 1996: $19,400,000,000.
Fiscal year 1997: $19,700,000,000.

(7) Primary loan guarantee commitments.—The appropriate levels of new primary loan guarantee commitments are as follows:

Fiscal year 1993: $115,600,000,000.
Fiscal year 1994: $116,300,000,000.
Fiscal year 1995: $118,900,000,000.
Fiscal year 1996: $121,600,000,000.
Fiscal year 1997: $124,200,000,000.

(8) Secondary loan guarantee commitments.—The appropriate levels of new secondary loan guarantee commitments are as follows:

Fiscal year 1993: $77,200,000,000.
Fiscal year 1994: $79,700,000,000.
Fiscal year 1995: $82,400,000,000.
Fiscal year 1996: $85,200,000,000.
Fiscal year 1997: $88,100,000,000.

SEC. 3. DEBT INCREASE AS A MEASURE OF DEFICIT.

The amounts of the increase in the public debt subject to limitation are as follows:

Fiscal year 1993: $444,000,000,000.
Fiscal year 1994: $399,300,000,000.
Fiscal year 1995: $348,900,000,000.
Fiscal year 1996: $344,200,000,000.
Fiscal year 1997: $399,300,000,000.

SEC. 4. DISPLAY OF FEDERAL RETIREMENT TRUST FUND BALANCES.

The balances of the Federal retirement trust funds are as follows:

Fiscal year 1993: $966,300,000,000.
Fiscal year 1994: $1,091,100,000,000.
Fiscal year 1995: $1,226,100,000,000.
Fiscal year 1996: $1,370,000,000,000.
Fiscal year 1997: $1,523,300,000,000.

SEC. 5. SOCIAL SECURITY.

(a) Social Security Revenues.—For purposes of Senate enforcement under sections 302 and 311 of the Congressional Budget Act of 1974, the amounts of revenues of the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund are as follows:

Fiscal year 1993: $328,100,000,000.
Fiscal year 1994: $350,300,000,000.
Fiscal year 1995: $371,800,000,000.
Fiscal year 1996: $395,300,000,000.
Fiscal year 1997: $419,500,000,000.

(b) Social Security Outlays.—For purposes of Senate enforcement under sections 302 and 311 of the Congressional Budget Act of 1974, the amounts of outlays of the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund are as follows:

Fiscal year 1993: $260,000,000,000.
Fiscal year 1994: $271,600,000,000.

Fiscal year 1995: $282,900,000,000.

Fiscal year 1996: $294,500,000,000.

Fiscal year 1997: $306,000,000,000.

SEC. 6. MAJOR FUNCTIONAL CATEGORIES.

The Congress determines and declares that the appropriate levels of new budget authority, budget outlays, new direct loan obligations, new primary loan guarantee commitments, and new secondary loan guarantee commitments for fiscal years 1993 through 1997 for each major functional category are:

(1) National Defense (050):

Fiscal year 1993:

(A) New budget authority, $277,400,000,000.

(B) Outlays, $289,100,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, $280,400,000,000.

(B) Outlays, $283,000,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $280,400,000,000.

(B) Outlays, $280,600,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $280,400,000,000.

(B) Outlays, $282,100,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $280,400,000,000.

(B) Outlays, $281,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(2) International Affairs (150):

Fiscal year 1993:

(A) New budget authority, $19,600,000,000.

(A) New budget authority, $36,900,000,000.

(B) Outlays, $38,200,000,000.

(C) New direct loan obligations, $1,000,000,000.

(D) New primary loan guarantee commitments, $20,000,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $38,100,000,000.

(B) Outlays, $38,000,000,000.

(C) New direct loan obligations, $1,000,000,000.

(D) New primary loan guarantee commitments, $20,100,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $39,300,000,000.

(B) Outlays, $37,700,000,000.

(C) New direct loan obligations, $1,000,000,000.

(D) New primary loan guarantee commitments, $20,200,000,000.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $40,600,000,000.

(B) Outlays, $40,500,000,000.

(C) New direct loan obligations, $1,000,000,000.

(D) New primary loan guarantee commitments, $20,300,000,000.

(E) New secondary loan guarantee commitments, $0.

(16) Administration of Justice (750):

Fiscal year 1993:

(A) New budget authority, $15,200,000,000.

(B) Outlays, $15,300,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, $15,500,000,000.

(B) Outlays, $15,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $16,200,000,000.

(B) Outlays, $16,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $17,600,000,000.

(B) Outlays, $17,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $18,400,000,000.

(B) Outlays, $18,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(17) General Government (800):

Fiscal year 1993:

(A) New budget authority, $12,300,000,000.

(B) Outlays, $12,900,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, $12,200,000,000.

(B) Outlays, $13,100,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $12,800,000,000.

(B) Outlays, $13,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $13,400,000,000.

(B) Outlays, $13,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $14,100,000,000.

(B) Outlays, $13,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(18-1.) Net Interest (900):

Fiscal year 1993:

(A) New budget authority, $242,000,000,000.

(B) Outlays, $241,900,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, $263,700,000,000.

(B) Outlays, $263,800,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $283,200,000,000.

(B) Outlays, $283,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $304,600,000,000.

(B) Outlays, $304,600,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $329,500,000,000.

(B) Outlays, $329,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(18–2.) For purposes of section 710 of the Social Security Act, Net Interest (900):

Fiscal year 1993:

(A) New budget authority, $252,600,000,000.

(B) Outlays, $252,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, $275,100,000,000.

(B) Outlays, $275,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, $295,300,000,000.

(B) Outlays, $295,300,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, $317,300,000,000.

(B) Outlays, $317,300,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, $342,500,000,000.

(B) Outlays, $342,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(19) The corresponding levels of gross interest on the public debt are as follows:

Fiscal year 1993: $315,300,000,000.

Fiscal year 1994: $340,000,000,000.

Fiscal year 1995: $360,800,000,000.

Fiscal year 1996: $381,600,000,000.

Fiscal year 1997: $405,500,000,000.

(20) Allowances (920):

Fiscal year 1993:

(A) New budget authority, −$4,100,000,000.

(B) Outlays, −$4,800,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, −$11,600,000,000.

(B) Outlays, −$12,400,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, −$14,000,000,000.

(B) Outlays, −$18,100,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, −$11,800,000,000.

(B) Outlays, −$11,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, −$7,900,000,000.

(B) Outlays, −$1,900,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(21-1.) Undistributed Offsetting Receipts (950):

Fiscal year 1993:

(A) New budget authority, −$33,400,000,000.

(B) Outlays, −$33,400,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, −$32,600,000,000.

(B) Outlays, −$32,600,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, −$33,200,000,000.

(B) Outlays, −$33,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, −$33,400,000,000.

(B) Outlays, −$33,400,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, −$34,500,000,000.

(B) Outlays, −$34,500,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

(21-2.) For purposes of section 710 of the Social Security Act, Undistributed Offsetting Receipts (950):

Fiscal year 1993:

(A) New budget authority, −$31,000,000,000.

(B) Outlays, −$31,000,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1994:

(A) New budget authority, −$30,200,000,000.

(B) Outlays, −$30,200,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1995:

(A) New budget authority, −$30,700,000,000.

(B) Outlays, −$30,700,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1996:

(A) New budget authority, −$30,800,000,000.

(B) Outlays, −$30,800,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

Fiscal year 1997:

(A) New budget authority, −$31,800,000,000.

(B) Outlays, −$31,800,000,000.

(C) New direct loan obligations, $0.

(D) New primary loan guarantee commitments, $0.

(E) New secondary loan guarantee commitments, $0.

SEC. 7. HEALTH CARE COSTS.

It is the sense of the Congress that measures to control the growth of health care costs should be included by the committees of jurisdiction in any comprehensive health care package that they report.

SEC. 8. SALE OF GOVERNMENT ASSETS.

(a) Sense of the Congress.—It is the sense of the Congress that—

(1) from time to time the United States Government should sell assets; and

(2) the amounts realized from such asset sales will not recur on an annual basis and do not reduce the demand for credit.

(b) Budgetary Treatment.—For purposes of points of order under sections 302, 310, 311, 601(b), 602, 604, and 605 of the Congressional Budget and Impoundment Control Act of 1974, the amounts realized from sales of assets (other than loan assets) shall not be scored with respect to the level of budget authority, outlays, or revenues under those sections.

(c) Definitions.—For purposes of this section—

(1) the term "sale of an asset" shall have the same meaning as under section 250(c)(21) of the Balanced Budget and Emergency Deficit Control Act of 1985 (as amended by the Budget Enforcement Act of 1990); and

(2) the term shall not include asset sales mandated by law before September 18, 1987, and routine, ongoing asset sales at levels consistent with agency operations in fiscal year 1986.

SEC. 9. DEFICIT-NEUTRAL RESERVE FUND IN THE SENATE FOR FAMILY AND ECONOMIC SECURITY INITIATIVES IN ACCORDANCE WITH PROVISIONS OF THE SUMMIT AGREEMENT.

(a) Initiatives To Improve the Health and Nutrition of Children and To Provide for Services To Protect Children and Strengthen Families.—

(1) IN GENERAL.—Budget authority and outlays may be allocated to a committee or committees for legislation that increases funding to improve the health and nutrition of children and to provide for services to protect children and strengthen families within such a committee's jurisdiction if such a committee or the committee of conference on such legislation reports such legislation, if, to the extent that the costs of such legislation are not included in this concurrent resolution on the budget, the enactment of such legislation will not increase the deficit (by virtue of either contemporaneous or previously passed deficit reduction) in this resolution for fiscal year 1993, and will not increase the total deficit for the period of fiscal years 1993 through 1997.

(2) REVISED ALLOCATIONS.—Upon the reporting of legislation pursuant to paragraph (1), and again upon the submission of a conference report on such legislation (if a conference report is submitted), the Chairman of the Committee on the Budget of the Senate may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act of 1974 and revised functional levels and aggregates to carry out this subsection. Such revised allocations, functional levels, and aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations, functional levels, and aggregates contained in this concurrent resolution on the budget.

(3) REPORTING REVISED ALLOCATIONS.—The appropriate committee may report appropriately revised allocations pursuant to sections 302(b) and 602(b) of the Congressional Budget Act of 1974 to carry out this subsection.

(b) ECONOMIC GROWTH INITIATIVES.—

(1) IN GENERAL.—Budget authority and outlays may be allocated to a committee or committees for legislation that increases funding for economic recovery or growth initiatives, including unemployment compensation or other, related programs within such a committee's jurisdiction if such a committee or the committee of conference on such legislation reports such legislation, if, to the extent that the costs of such legislation are not included in this concurrent resolution on the budget, the enactment of such legislation will not increase the deficit (by virtue of either contemporaneous or previously passed deficit reduction) in this resolution for fiscal year 1993, and will not increase the total deficit for the period of fiscal years 1993 through 1997.

(2) REVISED ALLOCATIONS.—Upon the reporting of legislation pursuant to paragraph (1), and again upon the submission of a conference report on such legislation (if a conference report is submitted), the Chairman of the Committee on the Budget of the Senate may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act of 1974 and revised functional levels and aggregates to carry out this subsection. Such revised allocations, functional levels, and aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations, functional levels, and aggregates contained in this concurrent resolution on the budget.

(3) REPORTING REVISED ALLOCATIONS.—The appropriate committee may report appropriately revised allocations pursuant to section 302(b) and 602(b) of the Congressional Budget Act of 1974 to carry out this subsection.

(c) CONTINUING IMPROVEMENTS IN ONGOING HEALTH CARE PROGRAMS AND PHASING-IN OF HEALTH INSURANCE COVERAGE FOR ALL AMERICANS.—

(1) IN GENERAL.—Budget authority and outlays may be allocated to a committee or committees for legislation that increases funding to make continuing improvements in ongoing health care programs or to begin phasing-in health insurance coverage for all Americans within such a committee's jurisdiction if such a committee or the committee of conference on such legislation reports such legislation, if, to the extent that the costs of such legislation are not included in this concurrent resolution on the budget, the enactment of such legislation will not increase the deficit (by virtue of either contemporaneous or previously passed deficit reduction) in this resolution for fiscal year 1993, and will not increase the total deficit for the period of fiscal years 1993 through 1997.

(2) REVISED ALLOCATIONS.—Upon the reporting of legislation pursuant to paragraph (1), and again upon the submission of a conference report on such legislation (if a conference report is submitted), the Chairman of the Committee on the Budget of the Senate may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act of 1974 and revised functional levels and aggregates to carry out this subsection. Such revised allocations, functional levels, and aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations, functional levels, and aggregates contained in this concurrent resolution on the budget.

(3) REPORTING REVISED ALLOCATIONS.—The appropriate committee may report appropriately revised allocations pursuant to sections 302(b) and 602(b) of the Congressional Budget Act of 1974 to carry out this subsection.

(d) INITIATIVES TO IMPROVE EDUCATIONAL OPPORTUNITIES FOR INDIVIDUALS AT THE EARLY CHILDHOOD, ELEMENTARY, SECONDARY, OR HIGHER EDUCATION LEVELS, OR TO INVEST IN AMERICA'S CHILDREN.—

(1) IN GENERAL.—Budget authority and outlays may be allocated to a committee or committees for direct spending legislation that increases funding to improve educational opportunities for individuals at the early childhood, elementary, secondary, or higher education levels, or to invest in America's children within such a committee's jurisdiction if such a committee or the committee of conference on such legislation reports such legislation, if, to the extent that the costs of such legislation are not included in this concurrent resolution on the budget, the enactment of such legislation will not increase the deficit (by virtue of either contemporaneous or previously passed deficit reduction) in this resolution for fiscal year 1993, and will not increase the total deficit for the period of fiscal years 1993 through 1997.

(2) REVISED ALLOCATIONS.—Upon the reporting of legislation pursuant to paragraph (1), and again upon the submission of a conference report on such legislation (if a conference report is submitted), the Chairman of the Committee on the Budget of the Senate may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act of 1974 and revised functional levels and aggregates to carry out this subsection. Such revised allocations, functional levels, and aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations, functional levels, and aggregates contained in this concurrent resolution on the budget.

(3) REPORTING REVISED ALLOCATIONS.—The appropriate committee may report appropriately revised allocations pursuant to sections 302(b) and 602(b) of the Congressional Budget Act of 1974 to carry out this subsection.

(e) INITIATIVES TO MITIGATE AIRPORT NOISE, TO IMPROVE AIRPORT SAFETY, OR TO EXPAND AIRPORT CAPACITY.—

(1) IN GENERAL.—Budget authority and outlays may be allocated to a committee or committees for direct spending legislation that increases funding to mitigate airport noise, to improve airport safety, or to expand airport capacity within such a committee's jurisdiction if such a committee or the committee of conference on such legislation reports such legislation, if, to the extent that the costs of such legislation are not included in this concurrent resolution on the budget, the enactment of such legislation will not increase the deficit (by virtue of either contemporaneous or previously passed deficit reduction) in this resolution for fiscal year 1993, and will not increase the total deficit for the period of fiscal years 1993 through 1997.

(2) REVISED ALLOCATIONS.—Upon the reporting of legislation pursuant to paragraph (1), and again upon the submission of a conference report on such legislation (if a conference report is submitted), the Chairman of the Committee on the Budget of the Senate may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act of 1974 and revised functional levels and aggregates to carry out this subsection. Such revised allocations, functional levels, and aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations, functional levels, and aggregates contained in this concurrent resolution on the budget.

(3) REPORTING REVISED ALLOCATIONS.—The appropriate committee may report appropriately revised allocations pursuant to sections 302(b) and 602(b) of the Congressional Budget Act of 1974 to carry out this subsection.

SEC. 10. MAXIMUM DEFICIT AMOUNT AND AGGREGATE POINTS OF ORDER IN THE SENATE.

Notwithstanding any other rule of the Senate, for those years in which this concurrent resolution is in effect and not superseded by adoption of a subsequent concurrent resolution on the budget, in the Senate, sections 311(a) and 605 of the Congressional Budget Act of 1974 shall not apply to any bill, resolution, amendment, motion, or conference report that—

(1) would, if introduced as a bill or resolution, be referred to the Committee on Appropriations;

(2) would not cause the appropriate allocation of new budget authority or outlays made pursuant to section 602(a) to be exceeded;

(3) would not cause the appropriate suballocation (or suballocations), if any, of new budget authority or outlays made pursuant to section 602(b) to be exceeded;

(4) would not cause the appropriate level of social security outlays to be exceeded;

(5) would not cause revenues to be less than the appropriate level of total revenues; and

(6) would not cause social security revenues to be less than the appropriate level of social security revenues.

SEC. 11. CLARIFICATION OF THE APPLICATION OF SECTION 311(b) OF THE CONGRESSIONAL BUDGET ACT IN THE HOUSE.

For fiscal years 1992 through 1995, the reference in section 311(b) of the Congressional Budget Act of 1974 to the appropriate allocation under section 302(a) shall be considered to be a reference to the appropriate allocation for the fiscal year concerned under section 602(a) of the Congressional Budget Act of 1974.

SEC. 12. SOCIAL SECURITY FIRE WALL POINT OF ORDER IN THE SENATE.

(a) ACCOUNTING TREATMENT.—Notwithstanding any other provision of this resolution, for the purpose of allocations and points of order under sections 302 and 311 of the Congressional Budget Act of 1974, the levels of Social Security outlays and revenues for this resolution shall be the current services levels.

(b) APPLICATION OF SECTION 301(i).—Notwithstanding any other rule of the Senate, in the Senate, the point of order established under section 301(i) of the Congressional Budget Act of

1974 shall apply to any concurrent resolution on the budget for any fiscal year (as reported and as amended), amendments thereto, or any conference report thereon.

SEC. 13. STUDY OF UNITED STATES GOVERNMENT ASSISTANCE TO RECIPIENTS BY INCOME CATEGORY.

(a) IN GENERAL.—It is the sense of the Congress that the Director of the Office of Management and Budget and the Director of the Congressional Budget Office (with the assistance of the Joint Committee on Taxation) should, to the extent feasible, each prepare a study, by major program or expenditure, of the dollar value of United States Government assistance under current law and regulations to recipients by income category for the most recent year for which data are available.

(b) DEFINITION.—The term "United States Government assistance" means any payment, including payments-in-kind, loans, and tax expenditures (as defined in section 3(3) of the Congressional Budget Act of 1974), made by the United States Government directly, indirectly, or through payment to another on the individual's or person's behalf.

SEC. 14. SENSE OF THE SENATE REGARDING BALANCED BUDGET AMENDMENT.

It is the sense of the Senate that the Senate should, on or before July 2, 1992, vote on a joint resolution proposing an amendment to the Constitution relating to a Federal balanced budget, and requiring the President of the United States to annually submit a balanced budget, provided that the amendment proposed in such joint resolution shall be drafted or amended so as not to exacerbate any economic recession.

SEC. 15. PROGRAM BUDGET EVALUATION.

It is the Sense of the Senate that prior to the commencement of the One Hundred Fourth Congress, each authorizing committee of the Senate should conduct a comprehensive reexamination and evaluation of existing programs under its jurisdiction which result in the expenditure of Federal dollars, and report its findings to the Senate. Such committee reports should consider the following matters—

(1) an identification of the objectives intended for the program and the problem it was intended to address;

(2) an identification of any trends, developments, and emerging conditions which are likely to affect the future nature and extent of the problems or needs which the program is intended to address;

(3) an identification of any other program having potentially conflicting or duplicative objectives;

(4) a statement of the number and types of beneficiaries or persons served by the program;

(5) an assessment of the effectiveness of the program and the degrees to which the original objectives of the program or group of programs have been achieved;

(6) an assessment of the cost effectiveness of the program;

(7) an assessment of the relative merits of alternative methods which could be considered to achieve the purposes of the program.

SEC. 16. SENSE OF THE SENATE REGARDING INCREASING PRODUCTIVITY.

(a) FINDING.—The Senate finds that—

(1) failure to meet the challenge of international economic competitiveness would seriously jeopardize our national security, standard of living, and quality of life in the coming decades; and

(2) increased productivity is the key to meeting the challenge and regaining the competitive edge the United States economy enjoyed in the past.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that funds should be allocated to allow this Nation to commit to an increase in productivity and international competitiveness through a program of long-term strategic investment in—

(1) the development of its human resources;

(2) the physical infrastructure that supports economic activity;

(3) the development and commercialization of technology; and

(4) productive plants and equipment.

SEC. 17. SENSE OF THE CONGRESS ON WIC.

(a) FINDINGS.—The Congress finds that—

(1) the Special Supplemental Food Program for Women, Infants and Children (WIC) has been invaluable to millions of needy pregnant and nursing women, infants and children at nutritional risk for nearly 20 years;

(2) President Bush has commendably recommended an increase in the WIC program for fiscal year 1993, continuing the strong bipartisan support for expanding the program to serve more of those eligible;

(3) the chairmen of five major American corporations testified last year on WIC, declaring that an increased investment in WIC is essential to the Nation's future economic growth and that "WIC can make an important contribution to ensuring that . . . we have the productive workforce we need";

(4) the CEO's called WIC "the health-care equivalent of a triple-A rated investment . . . one of the most reliable ways that Government can invest in its resources," and recommended that to achieve the national education goal established by the President and Governors that by the year 2000 all children should start school ready to learn, ". . . we need to set a related goal: Every woman, infant, and child who is eligible for WIC in 1995 and later years will be served by the program";

(5) less than 60 percent of the eligible women, infants, and children are served by the program due to funding limitations;

(6) a funding level of $3,000,000,000 in fiscal year 1993 is needed to remain on the 5-year path embarked upon by the Congress last year to reach full funding consistent with the CEO's recommendation; and

(7) a recent United States Department of Agriculture study has demonstrated that the prenatal component of WIC reduces Medicaid costs by between $1.92 and $4.21 for each dollar invested in it, and studies issued by the National Bureau of Economic Research have found WIC to be one of the most cost-effective means of reducing infant mortality and indicate WIC also may produce long-term savings in special-education costs.

(b) SENSE OF THE CONGRESS.—It is the sense of the Congress that the WIC program should be funded at $3,000,000,000 for fiscal year 1993.

SEC. 18. DEFENSE INDUSTRY CONVERSION.

(a) FINDINGS.—Congress finds that—

(1) the Office of Technology Assessment estimates that, during the period beginning in 1991 and ending in 1995, between 530,000 and 620,000 employees of private, defense-related industries in the United States will become unemployed as a result of reductions in such spending;

(2) the retraining and re-employment of such members, civilian employees, and employees of private industry is critical to the capability of the private aerospace and defense industries of the United States to develop, commercialize, and market non-defense products and technologies; and

(3) the capability of such industries to develop, commercialize, and market non-defense products and technologies will play a critical role in ensuring the long-term economic prosperity of such industries and the United States.

(b) SENSE OF CONGRESS.—It is the sense of the Congress that—

(1) no less than $1,000,000,000 in budget authority provided in this resolution for the defense function 050 for fiscal year 1993 should be made available for defense industry conversion-related activities such as those within the following programs:

(A) DEFENSE INDUSTRY WORKERS.—Job Training Partnership Act, Economic Dislocation and Worker Adjustment Assistance;

(B) COMMUNITIES.—

(i) Economic Development Administration;

(ii) Community Development Block Grants;

(iii) Small Business Administration; and

(iv) Impact aid grants to school districts; and

(C) TECHNOLOGY.—

(i) National Science Foundation education grants to engineers;

(ii) Department of Energy technology transfer;

(iii) National Institute of Standards and Technology; and

(iv) Intelligent vehicle highway system; and

(2) a meaningful percentage of the savings in Federal defense spending in fiscal years 1993 through 1997 should be made available for the establishment of programs to re-train and re-employ active duty members of the Armed Forces, civilian employees of the Department of Defense, and employees of private, defense-related industries who are involuntarily separated from such duty or become unemployed as a result of reductions in Federal spending for national defense.

SEC. 19. BUDGET AUTHORITY-OUTLAY RATIO.

It is the sense of the Congress that if in decisions among priorities, the Committees on Appropriations find that an excess of budget authority would remain after dividing all of the outlays that this resolution allocates to those committees for fiscal year 1993, then to the extent that those committees wish to utilize that excess of budget authority, those committees should favor programs that cause outlays to occur more slowly, rather than employing delays of obligations or payment shifts that would increase outlays in fiscal year 1994.

And the Senate agree to the same.

LEON E. PANETTA,

PETE V. DOMENICI,
KIT BOND,
Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the concurrent resolution (H. Con. Res. 287) setting forth the congressional budget for the United States Government for the fiscal years 1993, 1994, 1995, 1996, and 1997, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

The Senate amendment struck out all of the House resolution after the resolving clause and inserted a substitute text.

The House recedes from its disagreement to the amendment of the Senate with an amendment which is a substitute for the

House resolution and the Senate amendment.

EXPLANATION OF CONFERENCE AGREEMENT

The following tables show the functional allocations and budget aggregates included in the conference agreement over 5 years. In addition, a table follows that breaks out credit amounts by function.

CONFERENCE AGREEMENT—TOTAL BUDGET

[May 20, 1992]

	1993	1994	1995	1996	1997
Budget Authority	1,515.9	1,548.1	1,598.1	1,677.6	1,784.2

ALLOCATIONS AMONG COMMITTEES

Sections 302(a) and 602(a) of the Congressional Budget Act of 1974 (2 U.S.C. §§633(a) & 665a (Supp. II 1990)) require the joint explanatory statement accompanying a conference report on a concurrent resolution on the budget to include an allocation, based upon that concurrent resolution as recommended in the conference report, of the appropriate levels of total outlays, total new budget authority, entitlement authority (for the House only), and Social Security outlays (for the Senate only) among each committee of the Senate and the House of Representatives that has jurisdiction over legislation providing those amounts. Section 602 further requires this allocation to include all years covered by the resolution, as well as the total for all those years. These allocations provide the basis for congressional enforcement of the resolution through points of order under the Congressional Budget Act. These allocations follow:

FUNCTION 920

The conferees recommend that several of the policies described in the House resolution and Senate amendment be considered to achieve the spending reductions set forth in this function in the conference agreement. Special consideration should be given to reductions in travel and consulting expenditures on a Government-wide basis; elimination of commissions, councils, and panels, and independent agencies that duplicate the work of larger agencies; and a modest reduction in the Federal work force through work force attrition. The conference agreement does not assume the 25 percent reduction in legislative and executive branch expenditures assumed in the Senate amendment.

REPORT LANGUAGE

The conferees intend that, to the extent that this conference report does not modify it, language in the report of the House Committee on the Budget on the concurrent resolution on the budget (H.R. Rep. No. 450, 102d Cong., 2d Sess. (1992)) and language in the description of the Senate committee-reported resolution entered into the CONGRESSIONAL RECORD in lieu of a report (138 Cong. Rec. S4903-06 (daily ed. Apr. 7, 1992)) remain as sources of legislative history on the drafters' intent on the concurrent resolution.

ECONOMIC ASSUMPTIONS

Section 301(g)(2) of the Congressional Budget Act (2 U.S.C. §632(g)(2) (1988)) calls for the joint explanatory statement accompanying the conference report on the budget resolution to set forth the common economic assumptions upon which the conference report is based. The conference agreement is based on the following economic assumptions:

CONGRESSIONAL BUDGET OFFICE ECONOMIC ASSUMPTIONS

[Calendar year, percent]

	1992	1993	1994	1995	1996	1997
Real gross domestic product	1.6	3.6	2.7	2.5	2.6	2.6
Consumer price index	3.3	3.6	3.6	3.6	3.6	3.6
3-mo. Treasury bill rate	4.4	5.1	5.2	5.4	5.5	5.6
10-yr. Treasury note rate	7.1	7.1	7.1	7.1	7.1	7.1
Unemployment rate	6.9	6.4	6.2	6.0	5.9	5.7

NUMERICAL DISPLAYS

DEFENSE-DOMESTIC-INTERNATIONAL WALLS

The House resolution sets forth recommended levels and amounts in section 2, stating that these levels are appropriate for the relevant fiscal years. The House resolution then sets forth, in sense of the House language in section 3, levels that would be appropriate if H.R. 3732 or similar legislation is not enacted into law before the Speaker appoints conferees on this resolution. H.R. 3732, the Budget Process Reform Act of 1991, would have amended section 601(a)(2)(C) of the Congressional Budget Act (2 U.S.C. §665(b)(2)(C) (Supp. II 1990)) to eliminate the separation of fiscal year 1993 discretionary appropriations into three categories (defense, domestic, and international). If enacted, the bill would have made possible the adoption of a budget resolution that used defense savings to increase spending on domestic needs without the possibility of a point of order in the Senate under section 601(b)(1) of the Congressional Budget Act (2 U.S.C. §665(b)(1) (Supp. II 1990)). On March 31, 1992, before the Speaker appointed conferees on this resolution, the House voted 187 to 238 not to pass H.R. 3732. 138 Cong. Rec. H2069 (daily ed. Mar. 31, 1992).

The Senate amendment does not set forth such a parallel presentation of levels and amounts. Before adoption of the Senate amendment, on March 26, the Senate failed to invoke cloture on the motion to proceed to a measure similar to H.R. 3732—S. 2399, the Appropriations Category Reform Act—by a vote of 50 to 48. 138 Cong. Rec. S4331 (daily ed. Mar. 26, 1992).

As Congress has not enacted H.R. 3732, S. 2399, or any similar legislation, the conference agreement sets forth only one set of recommended levels and amounts, and those levels and amounts fall within the discretionary spending limits in all categories in all applicable years.

MAXIMUM DEFICIT AMOUNTS AND THE DISPLAY OF HOSPITAL INSURANCE

The conference agreement complies with the requirement of section 606(b) and (c) of the Congressional Budget Act (2 U.S.C. §665e(b) & (c) (Supp. II 1990)) that the budget resolution not exceed the maximum deficit amount as determined under section 601(a)(1) of the Congressional Budget Act (2 U.S.C. §665(a)(1) (Supp. II 1990)).

Section 601(a)(1) defines the term "maximum deficit amount" to mean the amounts set forth in that section "as adjusted in strict conformance with sections 251, 252, and 253 of the Balanced Budget and Emergency Deficit Control Act of 1985 [Gramm-Rudman-Hollings]." Section 257(b)(3) of Gramm-Rudman-Hollings (2 U.S.C. §907(b)(3) (Supp. II 1990)) requires that, notwithstanding any other provision of law, when calculating the baseline deficit under section 253 of Gramm-Rudman-Hollings (2 U.S.C. 903 (Supp. II 1990)) for purposes of determining the adjustment to the maximum deficit amounts set forth in section 601(a)(1) of the Congressional Budget Act, "the receipts and disbursements of the Hospital Insurance Trust Fund shall be included in all calculations required by this Act [Gramm-Rudman-Hollings]." (Section 13101(e) of the Budget Enforcement Act of 1990 (Pub. L. No. 101-508, §13101(e), 104 Stat. 1388, 1388-591 to -593) amended section 257(b)(3) of Gramm-Rudman-Hollings to read as it now does.)

The requirement in section 606(b) and (c) of the Congressional Budget Act (2 U.S.C. §665e(b) & (c) (Supp. II 1990)) that the budget resolution not exceed the adjusted maximum deficit amount thus requires that the budget resolution include Hospital Insurance Trust Fund receipts and disbursements in the calculation of the deficit for purposes of comparison with the maximum deficit amount and thus, necessarily, requires calculating aggregate amounts for budget authority, outlays and revenues that include Hospital Insurance. The conferees note that this treatment of hospital insurance is consistent with amendments to the definition of budget authority in section 3(2)(B) of the Congressional Budget Act (2 U.S.C. §622(2)(B) (Supp. II 1990)) that by implication include hospital insurance obligations as budget authority for purposes of that Act, and is also similar to the treatment (in terms of displays and allocations) that budget resolutions gave the Federal Old-Age and Survivors Insurance and the Federal Disability Insurance Trust Funds in budget resolutions covering fiscal years 1987 through 1991.

The requirement that the budget resolution not exceed the adjusted maximum deficit amount also has force following adoption of the budget resolution. Compliance with the maximum deficit amount is enforced in the budget process through points of order against any legislation that would cause the maximum deficit amount to be exceeded. This is accomplished in the Senate by section 605(B) of the Congressional Budget Act (2 U.S.C. §665(d) (Supp. II 1990)) and in both Houses by points of order under Congressional Budget Act sections 302 (2 U.S.C. §633 (1988 & Sup. II 1990)) (enforcing committee spending allocations) and 311 (2 U.S.C. §642 (1988)) (enforcing budget authority, outlay and revenue totals in the resolution).

For purposes of the enforcement of this resolution through the budget process, therefore, the statement of managers also allocates total levels of spending to House and Senate Committees that include hospital insurance. The conferees intend that the House and Senate Budget Committees will advise their respective Houses as to the levels of budget authority, outlays and revenues, under section 302(g) and 311(c) of the Congressional Budget Act (2 U.S.C. §§633(g) & 642(c) (1988)), based on the totals in the resolution that include hospital insurance. The conferees also expect that any legislation affecting hospital insurance receipts and disbursements will be subject to enforcement under the Congressional Budget Act.

At the same time, the conferees note that section 710(a) of the Social Security Act (42 U.S.C. §911(a) (1988)) provides that, effective for fiscal years beginning on or after October 1, 1992, receipts and disbursements of the Hospital Insurance Trust Fund are not to be included in the totals of the President's budget or the congressional budget. In addition and effective at the same time, it provides that the disbursements of the Federal Supplementary Medical Insurance Trust Fund are to be treated as a separate major functional category of the President's budget and in the congressional budget, and that the receipts of the trust fund are to be set forth separately in those budgets. (Section 346(b) of the Social Security Amendments of 1983, Pub. L. 98-21, Title, III, §346(b), 97 Stat. 138 (Apr. 20, 1983), and section 261(b) of Gramm-Rudman-Hollings (99 Stat. at 1094) require the text of section 710(a) of the Social Security Act to have these effects for fiscal years beginning with fiscal year 1993).

In compliance with these provisions, the conferees have also included in the conference report alternative displays of budget totals excluding Hospital Insurance receipts and disbursements, and they have set forth the net disbursements of the Federal Supplementary Medical Insurance Trust Fund as a separate functional category. The conferees have also included a separate functional display of the total for Medicare and have displayed functions 900 and 950 both with and without hospital insurance. In sum, the conference agreement treats the Medicare Hospital Insurance Trust Fund much as budget resolutions treated Social Security prior to 1990.

OTHER NUMERICAL DISPLAYS

Section 3 of the Senate amendment sets forth the increase in the debt, as permitted under Congressional Budget Act section 301(b)(5) (2 U.S.C. §632(b)(5) (Supp. II 1990)).

Section 4 of the Senate amendment shows retirement trust fund balances, as permitted under section 301(b)(6) of the Congressional Budget Act (2 U.S.C. §632(b)(6) (Supp. II 1990)).

Section 5 of the Senate amendment displays, for enforcement purposes in the Senate, the levels of Social Security revenues and outlays, as required by section 301(a)(6) and (7) of the Congressional Budget Act (2 U.S.C. §632(a) (6) & (7) (Supp. II 1990)).

Section 6(19) of the Senate amendment shows the levels of gross interest consistent with the levels of net interest shown in major functional category 900, which appear in section 6(18) of the Senate amendment.

As in past years, the Senate amendment displays aggregate and functional levels for secondary loan guarantee commitments.

The House resolution sets forth none of these numerical displays

The conference agreement sets forth these miscellaneous number displays as in the Senate amendment (although the actual levels themselves change to reflect the levels recommended in the conference agreement).

Miscellaneous Language Provisions

Section 4 of the House resolution provides language with regard to health care costs, as discussed below. The Senate amendment contained no such provision.

The Senate amendment also contains a number of other miscellaneous language provisions at the conclusion of the budget resolution. Beyond the provision on health care costs, the House resolution contains no such provisions.

HEALTH CARE COSTS

In section 4 of the House resolution, the House Budget Committee strongly urges that the committees of jurisdiction include measures to control the growth of health care costs in any comprehensive health care package that they report.

The Senate amendment contains no such provision.

The conference agreement includes language on health care costs similar to that in the House resolution, stated as the sense of the Congress rather than as the recommendation of the House Budget Committee.

ASSET SALES AND LOAN PREPAYMENTS

Section 7 of the Senate amendment is a provision on asset sales similar to those in every budget resolution since that for fiscal year 1988.

This section would prevent the use for spending of the proceeds from asset sales and loan prepayments. It does this by prohibiting the counting of asset sales for purposes of the allocations to committees under sections 302, 601, and 602 of the Congressional Budget Act (2 U.S.C. §§663, 665 & 665a (1988 & Supp. II 1990)). This provision is consistent with section 257(e) of Gramm-Rudman-Hollings (2 U.S.C. §907(e) (Supp. II 1990)), which prohibits the counting of asset sales and loan prepayments for the purposes of determining whether that Act calls for across-the-board cuts. This section does not preclude asset sales or loan prepayments, nor does it determine whether an action constitutes an asset sale, a loan prepayment, or neither. It adopts the definition of those terms that exists in current law. (See Gramm-Rudman-Hollings §§250(c)(21) & 257(e); 2 U.S.C. §§900(c)(21) & 907(e) (Supp. II 1990).)

The House resolution contains no such provision.

The conference agreement also includes a provision on asset sales similar to that in the Senate amendment. The language in the conference agreement extends the prohibition of counting asset sales to sections 310, 311, 604, and 605 of the Congressional Budget Act (2 U.S.C. §§641, 642, 665c & 665d (1988 & Supp. II 1990)) and clarifies that the reference to section 601 applies to the point of order in section 601(b). The conferees thus intend the rule on asset sales to be uniform for the consideration of all bills and joint resolutions.

The conference agreement makes clear that this budget resolution provision does not supersede the Federal Credit Reform Act of 1990 (Congressional Budget Act title V; 2 U.S.C. §§661–661f (Supp. II 1990)). Participants in the budget process will continue to account for loan asset sales as provided in that Act, as non-contractual modifications. See Congressional Budget Act §502(5)(d); 2 U.S.C. §661a(5)(D) (Supp. II 1990). Under the Federal Credit Reform Act, the cost will differ from zero to the extent that the price paid to the Government differs from the net present value of the outstanding cash flow. In this regard, the more specific provisions of the Federal Credit Reform Act (id.) supersede the more general provisions on asset sales in section 257(e) of the Gramm-Rudman-Hollings (2 U.S.C. §907(e) (Supp. II 1990)).

RESERVE FUND FOR FAMILY AND ECONOMIC SECURITY INITIATIVES

Section 8 of the Senate amendment sets forth a reserve fund to provide for deficit-neutral direct-spending initiatives in four areas: (a) initiatives to improve the health and nutrition of children and to provide for services to protect children and strengthen families, (b) economic growth initiatives (including for unemployment compensation or other, related programs), (c) continuing improvements in ongoing health care programs and phasing-in of health insurance coverage for all Americans, and (d) initiatives to improve educational opportunities for individuals at the early childhood, elementary, secondary, or higher education levels, or to invest in America's children.

Specifically, section 8 provides that, in the Senate, budget authority and outlays may be allocated to a committee or committees when the committee or committees, or a committee of conference, reports legislation achieving one or more of the objectives cited in the section, and that will not increase the deficit. Upon the reporting of the legislation, and again upon the submission of a conference report, the Chairman of the Budget Committee may file with the Senate appropriately revised allocations under sections 302(a) and 602(a) of the Congressional Budget Act (2 U.S.C. §§633(a) & 665a(a) (Supp. II 1990)) and revised functional levels and aggregates to carry out this section. The conference agreement makes clear that deficit neutrality must be maintained for fiscal year 1993 and the total of the 5-year period covered by the resolution.

Section 13204 of the Budget Enforcement Act (104 Stat. at 1388–616) amended section 301(b)(7) of the Congressional Budget Act (2 U.S.C. §632(b)(7) (Supp. II 1990)) to endorse explicitly reserve funds as procedures in the Senate to implement the pay-as-you-go system of the Budget Enforcement Act. The pay-as-you-go system allows the enactment of legislation affecting direct spending and receipt, but is designed to ensure that the sum of such legislation does not increase the deficit. (See Gramm-Rudman-Hollings §252(a); 2 U.S.C. §902(a) (Supp. II 1990).)

The House resolution has no such provision.

The conference agreement contains the reserve fund language in the Senate amendment. The conference agreement also contains similar language for initiatives to mitigate airport noise, to improve airport safety, and to expand airport capacity.

MAXIMUM DEFICIT AMOUNT POINT OF ORDER

Section 9 of the Senate amendment sets forth a requirement for the affirmative vote of 60 Senators to waive or suspend section 605(b) of the Congressional Budget Act (2 U.S.C. §665d(b) (Supp. II 1990)) or to sustain an appeal of the ruling of the Chair on a point of order raised under that section. Section 605(b) prohibits the Senate from considering legislation that would cause the deficit to exceed the maximum deficit amount. The maximum deficit amount is the deficit target set forth in section 601(a)(1) of the Congressional Budget Act (2 U.S.C. §665(a)(1) (Supp. II 1990)) and adjusted pursuant to section 253(g) of Gramm-Rudman-Hollings (2 U.S.C. 903(g) (Supp. II 1990)). The most-recent adjustments appear in part 4 of the February supplement to the President's budget. (See Budget of the United States Government; Fiscal Year 1993; Supplement February 1992 pt. 4, at 9 (1992).) As adjusted there, the maximum deficit amounts are as follows:

Maximum deficit amounts

Fiscal year	*Billions*
1993	419.4
1994	304.9
1995	300.5

Section 201(B) of Gramm-Rudman-Hollings (99 Stat at 1039) added the maximum deficit amount point of order to what was then section 311(a) of the Congressional Budget Act (2 U.S.C. §642(a) (1988) (repealed 1990)). The Budget Enforcement Act moved the maximum deficit amount point of order from what used to be section 311(a) to section 605(b). (Section 13112(a)(10) of the Budget Enforcement Act (104 Stat. at 1388-607) struck the maximum deficit amount point of order from what used to be section 311(a), and section 13111 of the Budget Enforcement Act (104 Stat. at 1388-602 to -607) added what is now section 605.) The Budget Enforcement Act neglected, however, to add section 605(b) to the list of sections requiring 60 votes to waive that appears in section 904(c) of the Congressional Budget Act (2 U.S.C. §621 note (Supp. II 1990)). Consequently, while exceeding the maximum deficit amount in this context required a supermajority between 1985 and 1990, under current law, it no longer does.

Note, however, that even under current law, section 606(c) of the Congressional Budget Act (2 U.S.C. §665e(c) (Supp. II 1990)) prohibits consideration of a budget resolution that would cause the deficit to exceed the maximum deficit amount. Section 311(a) of the Congressional Budget Act (2 U.S.C. §642(a) (Supp. II 1990)) prohibits consideration of legislation that would breach the revenue and outlay aggregates in a budget resolution. Both sections 606(c) and 311(a) require 60 Senators to waive. (See Congressional Budget Act §904(c); 2 U.S.C. §621 note (Supp. II 1990).) Thus, under current law as applied, a 60-vote point of order will generally lie under section 311(a) whenever it would lie under section 605(b), unless legislation has increased revenues above the revenue floor in the budget resolution and used that revenue for increased outlays or legislation has decreased outlays below the outlay ceiling in the budget resolution and used that outlay reduction for decreased revenues.

The House resolution has no such provision.

The conference agreement does not contain the language of section 9, but sets forth an exception for appropriations bills in the Senate similar to that provided for the House under section 311(b) of the Congressional Budget Act (2 U.S.C. §642(b) (1988)). The conferees intend that this language will be effective only for the period of time that this budget resolution is effective.

CLARIFICATION OF THE APPLICATION OF SECTION 311(b) OF THE CONGRESSIONAL BUDGET ACT IN THE HOUSE OF REPRESENTATIVES

The conference agreement includes a clarification of the application of section 311(b) of the Congressional Budget Act (2 U.S.C. §642(b) (1988)), which applies only in the

House of Representatives, for fiscal years 1992 through 1995. During those years, allocations of new discretionary budget authority and new entitlement authority are made pursuant to section 602(a) of the Congressional Budget Act (2 U.S.C. §665a (Supp. II 1990)), rather than pursuant to section 302(a) of that Act (2 U.S.C. §633(a) (Supp. II 1990)). However, the Budget Enforcement Act of 1990 inadvertently failed to include language providing for such a cross-reference in the application of section 311(b) for those fiscal years. The language in this conference agreement clarifies that, for those fiscal years, section 311(b) will operate in the same manner as it did prior to the enactment of the Budget Enforcement Act.

ECONOMIC AND TECHNICAL ASSUMPTIONS

Section 10 of the Senate amendment states the sense of the Congress that the Budget Committees should be required to use the more pessimistic of either the Congressional Budget Office's or the Office of Management and Budget's set of economic forecasts. Section 10(a) finds that since the adoption of the 1990 budget agreement, deficit projections have increased by $645 billion for the sum of fiscal years 1991 through 1995 solely because of economic and technical changes. Section 10(a) also sets forth forecasts from both the Congressional Budget Office and the Office of Management and Budget of the rates of real gross domestic product growth, nominal gross domestic product growth, the gross domestic product deflator, change in the Consumer Price Index, unemployment, and 3-month Treasury bills.

The House resolution has no such provision.

The conference agreement does not contain the provision.

SOCIAL SECURITY

Section 11 of the Senate amendment sets forth two provisions designed to ensure that 60-vote hurdles impede legislation that would worsen the Social Security Trust Fund balances. Section 11(a) of the Senate amendment was designed to ensure that, during the pendency of the resolution on the Senate floor this year, no amendment could eliminate the 60-vote hurdle simply by changing the levels for Social Security in the resolution. Section 11(b) of the Senate amendment is designed to ensure that such amendments offered to future resolutions will confront a 60-vote hurdle.

Section 301(a)(6) and (7) of the Congressional Budget Act (2 U.S.C. §632(a)(6) & (7) (Supp. II 1990)) requires the budget resolution to provide two numbers for each year for Social Security enforcement in the Senate: a ceiling on outlays and a floor for revenues. Under existing law, if the budget resolution lowers the revenue floor, then legislation that cut Social Security revenues would be in order in the Senate later in the year. In addition (under sections 302(f)(2) and 311(a)(2) of the Congressional Budget Act, 2 U.S.C. §§633(f)(2) & 642(a)(2) Supp. II 1990)), if the budget resolution increases the outlay ceiling by some amount, then legislation that cuts Social Security revenues by an equal amount would also be in order in the Senate later in the year, and vice versa.

Section 11(a) provides that, notwithstanding any other provision of the resolution, the levels of Social Security outlays and revenues for this resolution shall be the current services levels, for the purpose of allocations and points of order under sections 302 and 311 of the Congressional Budget Act (2 U.S.C. §§633 & 642 (1988 & Supp. II 1990)). As the Senate did not amend these levels, the levels set forth in section 5 of the Senate amendment also reflect the current services levels.

Section 11(b) of the Senate amendment extends the "fire wall" protecting the Social Security trust fund from legislation that would worsen that fund's balances. It does so by eliminating an exception in section 301(i) of the Congressional Budget Act (2 U.S.C. §632(i) (Supp. II 1990)) to the requirement for 60 votes in the Senate to change the social Security trust fund balances.

Prior to its removal from the budget, the budget process protected the Social Security Trust Fund through points of order against increasing the deficit (*e.g.*, section 311(a) of the Congressional budget Act) and the threat of across-the-board cuts under Gramm-Rudman-Hollings as a result of increasing the deficit. To protect the Social Security Trust Fund from depletion after its removal from the calculation of the deficit, sections 13302 and 13303 of the Budget Enforcement Act (104 Stat. at 1399–623 to -627(created new points of order—called "fire walls"—generally prohibiting worsening of the balances of the Social Security Trust Fund. Budget enforcement Act section 13302 (2 U.S.C. §632 note (Supp. II 1990)) creates the point of order in the House of Representatives. Budget Enforcement Act section 13303 amended sections 301(a)(6), 301(a)(7), 301(i), 302(a)(2), 302(f)(2), and 311(a) of the Congressional Budget Act (2 U.S.C. §§632(a)(6), 632(a)(7), 632(i), 633(a)(2), 633(f)(2) & 642(a) (Supp. II 1990)) to enforce the fire wall point of order in the Senate through the mechanisms of existing points of order.

In the Senate, under current law, wavier of the fire wall points of order generally requires the affirmative vote of 60 Senators. Specifically, sections 904(c) of the Congressional Budget Act (2 U.S.C. §901 note (1988) provide that the Senate may waive or suspend sections 301(i), 302(f), and 311(a) only by the affirmative vote of three-fifths of the Members, duly chosen and sworn—that is 60 Senators. As amended by section 13208(b) of the Budget Enforcement Act (104 Stat. at 1388–619). Section 275(b) of Gramm-Rudman-Hollings provides that this supermajority requirement expires on September 30, 1995.

As amended by section 13303(b) of the budget Enforcement Act, the first sentence of section 301(i) of the Congressional Budget Act of 1974 reads:

> (i) It shall not be in order in the Senate to consider any concurrent resolution on the budget as reported to the Senate that would decrease the excess of social security revenues over social security outlays in any of the fiscal years covered by the concurrent resolution. 2 U.S.C. §632(i) (Supp. II 1990).

Section 301(a)(7) of the Congressional Budget Act (2 U.S.C. §632(a)(7) (Supp. II 1990)) implicitly defines the term "social security revenues" as "revenues of the old-age, survivors, and disability insurance program established under title II of the Social Security Act (and the related provisions of the Internal Revenue Code of 1986)." Section 301(a)(6) (2 U.S.C. §632(a)(7) (Supp. II 1990)) implicitly defines the term "social security outlays" as "outlays of the old-age survivors, and disability insurance program established under title II of the Social Security Act."

Under current law, section 301(i) does not ensure that a 60-vote hurdle stands in the way of any changes in law that worsen the Social Security Trust Fund balances, as section 301(i) does not by its terms apply to amendments from the floor to budget resolutions or to conference reports on those resolutions. Under current law, by virtue of the words "as reported" in section 301, a point of order will not lie under the section against a resolution that has been amended by an amendment that worsens the Social Security trust fund balances. This is so because of precedents in the application of similar language in section 311(a) of the Congressional Budget Act. *See* 131 CONG. REC. S8806 (June 26, 1985) (by virtue of the words "as reported," a point of order will not lie under section 311(a) against a deficit-neutral bill that has been amended by an amendment that reduces revenues below the revenue floor); Senate Precedent PRL19850626–001 (June 26, 1985) (LEGIS, Rules database); William G. Dauster, Budget Process Law Annotated 148–52 n. 488 (1991) (S. Print 102–22).

Section 11(b) of the Senate amendment applies the point of order under section 301(i) of the Congressional Budget Act to any concurrent resolution on the budget for any fiscal year (as reported and as amended), amendments thereto, or any conference report thereon. Thus, section 301(i) will apply throughout the consideration of the budget resolution.

The Senate added section 11 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

Section 11(b) of the Senate amendment is intended to make a permanent change in the rules of the Senate. Congress may by concurrent resolution supersede the Congressional Budget Act for the purposes of its application to the Congress. Article I, section 5, clause 2 of the Constitution provides: "Each House may determine the Rules of its Proceedings . . . ." Similarly, section 904(a) of the Congressional Budget Act provides:

> The provisions of this title (except section 905) and of titles I, III, IV, V, and VI (except section 601(a)) and the provisions of sections 701, 703, and 1017 are enacted by the Congress—
>
> (1) as an exercise of the rulemaking power of the House of Representatives and the Senate, respectively, and as such they shall be considered as part of the rules of each House, respectively, or of that House to which they specifically apply, and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and
>
> (2) with full recognition of the constitutional right of either House to change such rules (so far as relating to such House) at any time, in the same manner, and to the same extent as in the case of any other rule of such House. 2 U.S.C. §621 note (1988 & Supp. II 1990). See also Congressional Budget Act §301(b)(4); 2 U.S.C. §632(b)(4) (Supp. II. 1990).

The House resolution contains no provision similar to section 11 of the Senate amendment.

The conference agreement contains the language of section 11 of the Senate amendment (with a change in the section title to make clear its purpose).

FOREIGN GOVERNMENT SUBSIDIES

Section 12 states the sense of the Senate that (consistent with the trade negotiating objectives set forth in the Omnibus Trade and Competitiveness Act of 1988) the Government should not condone trade-distorting subsidies by foreign governments that materially injure United States industries. Section 12(a) finds that trade-distorting subsidies by foreign governments pressure the United States Government to provide similar subsidies and that ratification of foreign subsidies would so increase the pressure for United States subsidies as to undermine efforts to limit the growth of government spending and reduce the Federal budget deficit. The Senate added section 12 of the Senate amendment as an amendment during consideration of the resolution of the Senate floor.

The House resolution contains no provision similar to section 12 of the Senate amendment.

The conference agreement does not contain the provision.

SUBSIDIES TO THOSE NOT IN NEED

Section 13 of the Senate amendment states the sense of the Senate that the Government should not pay subsidies to those who are not in need, and calls for a study to identify such subsidies. Section 13(c) sets forth detailed requirements for the study. The Directors of the Office of Management and Budget and the Congressional Budget Office would conduct the study concurrently in consultation with the Bureau of the Census, the Internal Revenue Service, and other Government agencies. The study would estimate by agency and account, the dollar value of assistance payments from mandatory spending programs under current law and regulations to recipients by income category for the current and 5 succeeding fiscal years. Section 13(c) further directs that in determining income categories, the study use the sum of adjusted gross income plus any Government assistance not already included. The section further defines assistance payments from mandatory spending programs to exclude Social Security benefits. Finally, the section calls on the President to update the study annually as part of the President's budget submission. The Senate added section 13 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 13 of the Senate amendment.

The conference agreement contains a provision similar to that in the Senate amendment.

BALANCED BUDGET AMENDMENT

Section 14 of the Senate amendment states the sense of the Senate that the Senate should, by June 5, 1992, adopt a joint resolution proposing an amendment to the Constitution requiring a balanced budget and requiring the President annually to submit a balanced budget. The Senate added section 14 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 14 of the Senate amendment.

The conference agreement contains a provision similar to that in the Senate amendment.

If the Congress proposes by two-thirds votes of both Chambers a constitutional amendment requiring the President to submit and Congress to approve a balanced budget, the conferees believe that the President and the Congress would need vigorously to pursue reductions prior to the implementation of the balanced budget amendment to minimize the potential economic dislocation in the future years and should reduce the deficit in fiscal year 1993 by an amount consistent with the Congressional Budget Office's estimate of what is necessary to achieve a path to a balanced budget.

PROGRAM BUDGET EVALUATION

Section 15 of the Senate amendment states the Sense of the Senate that before the 104th Congress, each Senate authorizing committee should conduct a comprehensive evaluation of programs under its jurisdiction that result in the Federal expenditures and report its findings to the Senate. Section 15 calls on these reports to consider the objectives intended for the program, any trends and developments likely to affect those objectives, other programs with potentially conflicting or duplicative objectives, the number and types of beneficiaries of the program, an assessment of the effectiveness of the program, and an assessment of the merits of alternative methods. The Senate added section 15 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 15 of the Senate amendment.

The conference agreement contains a provision similar to that in the Senate amendment.

INCREASING PRODUCTIVITY

Section 16 of the Senate amendment states the sense of the Senate that funds should be allocated to increase productivity and international competitiveness through long-term investment in human resources, physical infrastructure, the development and commercialization of technology, and productive plants and equipment. The Senate added section 16 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 16 of the Senate amendment.

The conference agreement contains the language in the Senate amendment.

COMMISSION ON FEDERAL GOVERNMENT REFORM

Section 17 of the Senate amendment states the sense of the Congress that a Commission on Government Reform should be established to examine the organization and operations of the Government and recommend improvements in governmental performance while minimizing costs. The Commission should consider ways to define program missions in terms of measurable outcomes, reform personnel systems, increase program responsiveness, consolidate departments where possible, control Government payroll costs, promote new information technologies, and promote greater cooperation between the legislative and executive branches. Section 17 calls for Congress to be mandated to consider the recommendations of the commission. Section 17(a) of the Senate amendment sets forth a number of findings related to confidence in the Government and the organizational structures of Government and business. Section 17 states that there is now a crucial need to examine how the Government might apply organizational reforms to its own institutions. The Senate added section 17 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 17 of the Senate amendment.

The conference agreement does not contain the provision.

THE WIC PROGRAM

Section 18 of the Senate amendment states the sense of the Senate that the Special Supplemental Food Program for Women, Infants and Children (WIC) should be funded at $3 billion for fiscal year 1993. The following table indicates how such a level compares with other funding benchmarks:

WIC Program levels

Level	*Billions*
1992 appropriations	$2.600
1993 baseline	2.683
1993 President's request	2.840
Full funding	3.012

In support of that level, section 18 makes numerous findings: For 20 years, the WIC program has been invaluable to millions of needy pregnant and nursing women, infants and children at nutritional risk. President Bush has recommended an increase in the WIC program for fiscal year 1993 continuing the strong bipartisan support for expanding the program to serve more of those eligible. The chairmen of five major American corporations testified last year on WIC, declaring that an increased investment in WIC is essential to the Nation's future economic growth. Less than 60 percent of the eligible women, infants, and children are served by the program. A funding level of $3 billion in fiscal year 1993 is needed to remain on the 5-year path embarked upon by the Congress last year to reach full funding. A recent Department of Agriculture study has demonstrated that the prenatal component of WIC reduces Medicaid costs by between $1.92 and $4.21 for each dollar invested in it. Studies issued by the National Bureau of Economic Research have found WIC to be one of the most cost-effective means of reducing infant mortality and indicate WIC also may produce long-term savings in special-education costs. The Senate added section 18 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to section 18 of the Senate amendment.

The conference agreement contains the language in the Senate amendment, restated as the sense of the Congress (rather than the Senate), with conforming changes in the findings.

DEFENSE CONVERSION

The Senate amendment contains two sections addressing defense conversion. Section 19 of the Senate amendment states the sense of the Congress that no less than $1 billion in budget authority in this resolution for the defense function for fiscal year 1993 should be made available for defense industry conversion-related activities such as those within Job Training Partnership Act, Economic Dislocation and Worker Adjustment Assistance, Economic Development Administration, Community Development Block Grants, Small Business Administration, impact aid grants to school districts, National Science Foundation education grants to engineers, Department of Energy technology transfer, National Institutes of Standards and Technology, and intelligent vehicle highway system. The Senate added section 19 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

Section 20 of the Senate amendment states the sense of Congress that a meaningful percentage of the 1993 through 1997 savings in defense spending be made available for the establishment of programs to retrain and reemploy active duty members of the Armed Forces, civilian employees of the Department of Defense, and employees of private, defense-related industries who are involuntarily separated or become unemployed as a result of reductions in spending for defense. Section 20(a) makes a number of findings in relation to levels of defense spending and job losses in the defense industry. The Senate added section 20 of the Senate amendment as an amendment during consideration of the resolution on the Senate floor.

The House resolution contains no provision similar to either section 19 or section 20 of the Senate amendment.

The conference agreement contains one provision combining language from sections 19 and 20 of the Senate amendment.

PUBLIC DEBT LIMIT IN THE HOUSE

Rule XLIX of the Rules of the House of Representatives sets forth a procedure for changing the statutory limit on the level of the public debt.

This concurrent resolution sets forth the appropriate level of the public debt for the coming fiscal year, 1993. Under the rule, upon final passage by both bodies of a concurrent resolution on the budget for fiscal year 1993, the public debt level for fiscal year 1993 set forth in the resolution would be incorporated into the text of a joint resolution.

Pursuant to the rule, the text of the joint resolution would be as follows:

That subsection (b) of section 3101 of title 31, United States Code, is amended by striking out the dollar limitation contained in such subsection and inserting in lieu thereof $4,461,200,000,000.

The effect of the enactment of the joint resolution would be to replace the current statutory limit on the public debt, $4,145,000,000,000, with the limit set forth above.

Under the rule, the joint resolution is then deemed passed by the House and sent to the Senate for its consideration. If the Senate approves the joint resolution without amendment, the joint resolution is sent to the President for his signature. (If the Senate were to amend the joint resolution, the measure would be returned to the House for further action.)

Legislative jurisdiction over the public debt remains in the Committee on Ways and Means. The rule does not preclude that committee from originating public debt bills whenever necessary.

AUTHORIZING MEMBER TO OFFER AMENDMENT NO. 4 TO H.R. 776 IN MODIFIED FORM AT ANY TIME TODAY

Mr. SHARP. Mr. Speaker, in order to facilitate consideration of the energy bill this evening, I ask unanimous consent that amendment No. 4 printed in House Report 102–528 may be offered in modified form at any time during consideration of the bill in the Committee of the Whole today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Indiana?

There was no objection.

PERSONAL EXPLANATION

Mr. HOYER. Mr. Speaker, I was in the Senate during rollcall 130 and did not receive notice of the vote. Had I been present, I would have voted "aye."

REQUEST BY MEMBER TO MODIFY AMENDMENT NO. 5 TO H.R. 776, COMPREHENSIVE NATIONAL ENERGY POLICY ACT

Mr. JONTZ. Mr. Speaker, I ask unanimous consent that my amendment be modified according to the language that I have at the desk.

Mr. DINGELL. Mr. Speaker, reserving the right to object, I have great affection and great respect for the gentleman from Indiana [Mr. JONTZ]. We have been analyzing the earlier amendment of the gentleman in some detail, and it significantly amends the Clean Air Act. We have looked at the handwritten change that my good friend, the gentleman from Indiana, is suggesting should be the change he desires to make.

Mr. Speaker, I have to say that I am not satisfied, nor is the staff of the committee satisfied, that the change in the amendment will address all the problems or concerns that we find in it. Therefore, with all respect and affection for the gentleman from Indiana [Mr. JONTZ], I must object.

The SPEAKER pro tempore. Objection is heard.

COMPREHENSIVE NATIONAL ENERGY POLICY ACT

The SPEAKER pro tempore. Pursuant to House Resolution 459 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 776.

□ 1844

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 776) to provide for improved energy efficiency, with Mr. SKAGGS in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier, the amendment offered by the gentleman from Massachusetts [Mr. ATKINS] had been disposed of.

It is now in order to consider amendment No. 4 printed in House Report 102–528.

Mr. SHARP. Mr. Chairman, amendment No. 4 was the amendment offered by the gentleman from Massachusetts [Mr. MARKEY], which has been postponed and is not up at this time.

The CHAIRMAN. The Chair was under the impression that it was desired to move to that amendment next.

It is now in order to consider amendment No. 5 printed in House Report 102–528.

AMENDMENT OFFERED BY MR. JONTZ

Mr. JONTZ. Mr. Chairman, I offer an amendment.

The CHAIRMAN, The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. JONTZ. Page 218, after line 7, insert the following new section (and conform the table of contents accordingly):

SEC. 306. OCTANE REPLACEMENT.

(a) OCTANE REPLACEMENT PROGRAM.—

(1) IN GENERAL.—The Secretary of Energy, in consultation with the Administrator, of the Environmental Protection Agency, the Secretary of Transportation, the Secretary of Agriculture, and the heads of other appropriate agencies, shall issue regulations establishing a program to require that—

(A) at least ½ octane number of the octane rating of all gasoline sold in the United States after March 15, 1994, is derived from domestically produced, renewable, nonpetroleum sources;

(B) at least 1 octane nunber of the octane rating of all gasoline sold in the United States after March 15, 1998, is derived from domestically produced, renewable, nonpetroleum sources;

(C) at least 1½ octane numbers of the octane rating of all gasoline sold in the United States after March 15, 2002, is derived from domestically produced, renewable, nonpetroleum sources; and

(D) at least 2 octane numbers of the octane rating of all gasoline sold in the United States after March 15, 2006, is derived from domestically produced, renewable, nonpetroleum sources.

(2) LIMITATION.—The Secretary of Energy may waive, in whole or in part, the application of paragraph (1) for any ozone nonattainment area during the high ozone season upon a determination by the Administrator of the Environmental Protection Agency that compliance with such requirement would prevent or interfere with the attainment by the area of a national primary ambient air quality standard.

(b) MARKETABLE OCTANE CREDITS.—The Secretary of Energy shall issue regulations establishing a system for the use of marketable octane credits for gasoline sold in the United States after March 15, 1994, under which credits due to gasoline with a higher octane number derived from domestically produced, renewable, nonpetroleum sources than is required under subsection (a)(1) may be used to offset the sale of gasoline with a lower octane number than is so required. Credits under such system may be transferred between companies or within one company.

(c) RELATION TO OTHER LAW. —Nothing in this section shall be construed to amend or affect the application of the Clean Air Act.

(d) DEFINITIONS. For purposes of this section—

(1) the term "gasoline" means any fuel which is commonly or commonly known as gasoline, and which is sold for use in motor vehicles and motor engines; and

(2) the term "octane rating" means the number determined by adding the Research Octane Number plus the Motor Octane Number of gasoline, and dividing the sum by 2.

The CHAIRMAN. Under the rule, the gentleman from Indiana [Mr. JONTZ] is recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The Chair recognizes the gentleman from Indiana [Mr. JONTZ].

Mr. JONTZ. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, this amendment is an effort to accomplish the purpose of the bill which is before us by providing for the use of a domestically produced renewable source for meeting a part of the octane needs of this country, rather than to depend further on petrochemicals that are produced from imported petroleum that make our Nation more energy dependent.

What this amendment does specifically is to require beginning in 1994 that at least one-half octane number of the octane rating of all gasolines sold in our Nation come from renewable sources, which should be ethanol, with that requirement to be increased over a period of 12 years, to the point that two octane numbers of the octane rating of all gasoline would come from renewable sources.

Mr. Chairman, this would result in the immediate replacement of some 80 million barrels a year of petroleum, increasing to 300 million barrels.

Mr. Chairman, we have oil companies now that are marketing gasoline with alcohol to meet the octane needs, and they are doing this successfully. It is warranted by the automobile manufacturers. It is less toxic than the various petrochemicals that are used to meet octanes. But, regrettably, we are far from reaching even a reasonable portion of the octane needs of this country through ethanol. We ought to be using a domestic source that creates jobs here at home. We ought to be using a domestic source that increases farm income. As a consequence of that, we can expect the taxpayer to realize benefits from reduced farm program costs.

Mr. Chairman, this is a program which will benefit the environment, it will benefit our domestic economy, it will benefit our rural communities, and we ought to proceed to put this very reasonable requirement in effect.

Mr. Chairman, we very carefully wrote this amendment to avoid conflict with the Clean Air Act. There is very specific language in the amendment that says nothing shall be construed to amend or affect the application of the Clean Air Act. I am quite willing to agree to the recommendations of the gentleman from California [Mr. WAXMAN] to make further clarifying changes that he feels are necessary to ensure that there is no adverse impact on the Clean Air Act. I am quite happy to make those changes because there is enormous opportunity to meet needs for octane in areas that are not even under the Clean Air Act, which is what we seek to do.

Mr. Chairman, I would hope that the body would approve this amendment and allow it to go forward, with the understanding that the changes which need to be made will be made to assure the intent of the amendment, that there be no conflict with the Clean Air Act.

Mr. Chairman, I yield 2 minutes to the gentleman from Illinois [Mr. EWING], the Republican cosponsor of this amendment and a distinguished member of the Committee on Agriculture.

□ 1850

Mr. EWING. Mr. Chairman, I want to congratulate the gentleman from Indiana [Mr. JONTZ] for the work that he has done on this amendment, and I am pleased to have the opportunity to join in sponsoring this amendment.

I will not take a lot of the time of this House tonight to discuss the amendment. I think many Members are aware of the importance of this amendment. I believe that it does several very important things.

It helps make us more energy secure. It helps reduce our reliance on foreign oil and foreign energy.

Number two, it is good for the environment. Some of the octane enhancers that we currently have in our gasoline are some of the most damaging to our environment, and we could replace it with an enhancer that is environmentally friendly. This certainly would work into our effort to clean up the air in this country.

It would be very beneficial to public health in those areas of this country, the most crowded areas of this country, where the gasoline that we burn in our automobiles and our vehicles is the most damaging to our health. This amendment would require a cleaner, better, more efficient octane be added to gasoline and, therefore, assist in that.

Finally, to those of us from rural America, this is a way that we can enhance our economies. What better way than by renewable fuel sources? Corn, particularly, can be used to make the ethanol, the octane enhancer that is needed to go in the fuel under the requirements of this bill. This is important economically, not just to rural people but to people who are interested in jobs in the manufacturing and processing of corn into ethanol.

My colleagues, I am pleased to support this amendment and join with the gentleman from Indiana [Mr. JONTZ] as a cosponsor.

Mr. Chairman, H.R. 776 has two primary goals: To promote energy security and to make environmental progress. This amendment will further both goals.

By requiring that an increasing number of octane points of fuel sold in this country be derived from domestically produced, renewable sources, we will be reducing America's oil habit by 80 million barrels in the first year of implementation. By the final year of implementation, U.S. oil imports will have decreased by 300 million barrels of oil a year, or 60 percent of the current strategic petroleum reserve. We should not forget that U.S. soldiers gave their lives in a war we fought at least partly because of our dependency on foreign oil.

But to sell this bill as merely promoting energy security would be selling it short. By requiring domestically produced, renewable energy sources such as ethanol to be used as octane enhancers, we will be limiting the environmental damage caused by aromatic hydrocarbons such as benzene and toluene. Just as we phased lead out of gasoline because of health concerns, so we should start to phase out aromatic hydrocarbons.

This bill will be good for American agriculture and American jobs. Use of corn and other agricultural commodities as renewable resources will increase farm income and reduce farm program payments. The real increase in demand for American farm products will create jobs both inside and outside the farm economy.

But the primary reasons to support this bill are reasons that most people support. By reducing the demand for oil imports, by increasing the quality of the air we breathe, we can help to guarantee that the goals of the energy bill are met.

Mr. MOORHEAD. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman from California [Mr. MOORHEAD] is recognized for 10 minutes.

Mr. MOORHEAD. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in opposition to the joint amendment to establish an octane replacement program. I believe this amendment will give ethanol an unfair advantage over other types of alternative fuels and will unnecessarily raise the price of gasoline for all consumers.

In developing the alternative fuels programs in H.R. 776 we have consistently sought to provide a level playing field on which all types of alternative fuels could compete equally. This amendment would tilt that playing field toward ethanol. It would mandate unnecessarily rigid octane content requirements, increasing the price of gasoline to all consumers, and giving ethanol an unearned advantage over other alternative fuels.

In addition, these requirements will be difficult to meet. When we enacted the Clean Air Act amendments, we increased octane requirements and discovered that at current production levels, there was not enough ethanol to meet those requirements. This amendment mandates even greater ethanol use. As a result, if there is not enough ethanol to fulfill this mandate, gasoline would not be able to comply with these standards, and there would be severe shortages in the amount of gasoline which could be sold in the United States.

Finally, mandating the use of ethanol in meeting octane requirements will also have a negative effect on our environment. Although the use of ethanol reduces carbon monoxide emissions, it increases emissions which have greater ozone forming potential. Although this requirement is waived in some instances, this amendment will still have adverse health effects and a negative impact on the environmental gains we are making under H.R. 776.

Thus, I urge my colleagues to oppose this amendment.

Mr. Chairman, I yield 2 minutes to the gentleman from Michigan [Mr. DINGELL], chairman of the full Committee on Energy and Commerce.

Mr. DINGELL. Mr. Chairman, I rise in opposition to this amendment. I think we ought to know what this amendment does. First of all, the amendment has never been considered in any committee. There have been no hearings. It has not been reviewed by the Environmental Protection Agency. No one, including the author of the amendment, knows precisely what it does. I understand that.

The author says that it would increase the amount of ethanol in gasoline by about 80 million barrels. If that is true, it would cause the Federal Government to subsidize that amount of production by the amount of $1.28 billion a year. If we want to have more money spent by the Federal Government, then by all means we should support this amendment.

Second of all, it confuses the Clean Air Act. The Clean Air Act requires that in areas of high carbon monoxide pollution, that oxygenated fuels be used. It requires up to 2 percent of the fuel being oxygenated. This requires 8 percent of the fuels to be oxygenated.

As the gentleman from California has pointed out to the committee, if we do this, it has a mixed result. The practical result can be a slight reduction in the amount of carbon monoxide, but it can be a very significant increase in the amount of hydrocarbons and ozones, a significant health hazard and a very major problem in terms of the environmental consequences.

It has, as I will discuss later, the Department of Energy issuing orders in consultation with EPA under a rather confused and obscure provision which does not make it plain who does what and how the rules are issued or what thoughts are taken into consideration.

Last of all, it has an enormous consequence in terms of State and local government because of subsidies which are imposed to assist and encourage in the production and the use of ethanol.

It does something else: It results in a significant cost increase to the consumer, who must now buy a significant amount of ethanol, which is not only not required but is counterproductive from the standpoint of the Clean Air Act.

I particularly rise in opposition to this amendment by my friend from Indiana, Mr. JONTZ, because of its inconsistency with the relevant provisions of the Clean Air Act. I note that the amendment includes a disclaimer that it shall not be construed to amend or affect the application of the Clean Air Act, but that disclaimer is not adequate.

In fact, the Clean Air Act Amendments of 1990, which were widely supported in this House, regulate gasoline in the several worst ozone nonattainment areas and possibly other areas. It requires that gasoline must be reformulated and it must contain at least 2 percent oxygen and meet a performance standard. It also must meet volatility requirements. It requires that the Environmental Protection Agency issue regulations, and it provides a role for the States and for waivers.

This amendment seeks to regulate the same gasoline. The regulation would be by the Secretary of Energy, not EPA. It includes an authorization for a waiver provision based on an EPA determination that compliance with DOE's regulations "would prevent or interfere" with attainment. However, there is no criteria or procedure for the EPA determination or for the waiver. There is no timeframe for the waiver or for the determination. The EPA would make this determination under this bill, not the Clean Air Act. EPA is not bound to act in accordance with the Clean Air Act. Just as importantly, DOE does not have to grant a waiver, despite any determination by EPA.

This amendment is, unfortunately, a massive intrusion on the Clean Air Act and on the proposed gasoline regulations of the EPA. Those regulations are the result of a regulatory negotiation involving the ethanol industry. As I understand the matter, those proposed regulations were supported last August by that industry. More recently, that industry has apparently changed its mind. EPA has proposed a rule change to consider that possibility without amending the Clean Air Act directly or indirectly.

That is a proper approach. This amendment is the wrong approach. It has vast ramifications. It creates an unfair advantage for one fuel. It is potentially disruptive and is likely to be quite costly.

I again stress my view, expressed many times in this Congress, that we should not reopen the Clean Air Act, directly or indirectly, either in this House or the other body. I believe the majority leader of the Senate, Congressman WAXMAN, and Congressman LENT support this view.

I urge defeat of this amendment. It needs great work. It is not good for the consumer or public health.

Mr. MOORHEAD. Mr. Chairman, I yield 2 minutes to the gentleman from New York [Mr. LENT], ranking member of the Committee on Energy and Commerce.

Mr. LENT. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I reluctantly rise in opposition to this amendment. I believe these additional octane content requirements are unnecessary and will increase the cost of gasoline to all consumers, increase Federal ethanol subsidies by as much as $5 billion annually, and require an expensive new enforcement bureaucracy to administer.

Our goal in the alternative fuel titles of H.R. 776 has been to create an environment in which all forms of alternative fuels can compete equally. What we see here in this amendment is a back-door approach to giving ethanol an unfair advantage over other alternative fuels.

I think as the gentleman from Michigan [Mr. DINGELL] mentioned a minute ago this provision could wreak havoc on the distribution of the gasoline supply. As we discovered when discussing the Clean Air Act amendments, right now there is simply not enough ethanol to meet certain octane requirements.

This amendment would add to that burden by requiring up to 10 times the current levels of ethanol production. It makes no provision for sales of gasoline when ethanol supplies are not available.

Thus, when these octane content requirements cannot be met, this amendment would prohibit the sale of gasoline, possibly creating very severe shortages.

The last point is that this bill is not environmentally friendly, as someone characterized it a few minutes ago. The environment actually will be harmed if ethanol is used to meet these octane content requirements. While ethanol slightly reduces carbon monoxide emissions, it increases a number of other emissions which have ozone and hydrocarbon-forming characteristics.

So even if these requirements are waived in certain cases, they will still have a negative effect.

I would urge my colleagues to vote "no" on this amendment.

Mr. MOORHEAD. Mr. Chairman, I yield 1 minute to the gentleman from Illinois [Mr. HASTERT].

Mr. HASTERT. Mr. Chairman, we have an opportunity today to establish a comprehensive national energy strategy that will reduce our Nation's dangerous dependence on foreign sources of fuel.

□ 1900

By increasing the use of domestically produced renewable fuels, we can break that dangerous reliance. This amendment would promote ethanol as an octane enhancer and reduce U.S. oil imports by an estimated 300 million barrels annually when fully implemented.

Using domestically produced renewable fuel sources promotes energy security. It does not conflict with the Clean Air Act, and certainly the estimates here and the statements whether it protects the environment by using cleaner burning fuel is certainly still a matter of debate, as we hear here today.

Mr. Chairman, most of all, this amendment keeps jobs here in America.

Mr. JONTZ. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I want to respond very briefly to the misrepresentation of this amendment by the gentleman from Michigan [Mr. DINGELL], the powerful chairman of the Committee on Energy and Commerce. This is not an amendment which will require 80 million barrels of ethanol. The amendment would replace the need for 80 million barrels of imported petroleum, because we can meet the octane requirements from renewable domestic sources.

No. 2, this does not wreak havoc with the Clean Air Act. Right here in plain black and white on page 3 of the amendment, "Nothing in this section shall be construed to amend or affect the application of the Clean Air Act."

When the gentleman from California [Mr. WAXMAN] asked for some additional language to clarify that, I have readily agreed to it.

Finally, this in no way would increase the cost to the consumer. The cost of benzene right now is $1.25 a gallon. The cost of ethanol is $1.20 a gallon. It is a red herring to compare the cost of ethanol to the cost of the gallon of gas, because that is not what we are doing. We are replacing dangerous toxic imported benzene with good old American-grown ethanol, and it is cheaper and it is better for the environment. We should not agree or listen to or put weight onto these sorts of arguments which mischaracterize the whole nature of the proposition and what it does.

Mr. Chairman, I yield 1 minute to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I rise in strong support of the gentleman's amendment. It is interesting that the Jontz-Ewing amendment has awakened the sleeping giant of the big oil industry. Now they want to get in on this debate. Why? Because they do not own the corn fields. They do not own the ethanol facilities. They do not have any players in this game.

They are not interested in the promotion of ethanol, but we should be, because more ethanol used in the United States means fewer imported barrels of oil. It means cleaner air, it means more jobs for rural America, and it means higher farm income for our farmers.

In the past several months we have seen a turmoil in our cities because of our economy. Buildings have been burned, people are protesting. Let me tell the Members, buildings are not burning in rural America, but the problems are real and the need for help is there. The Jontz amendment will help us. Use ethanol, help rural America and the farm economy. I urge my colleagues to support the gentleman from Indiana [Mr. JONTZ].

Mr. VOLKMER. Mr. Chairman, will the gentleman yield?

Mr. DURBIN. I yield to the gentleman from Missouri.

Mr. VOLKMER. Mr. Chairman, I completely agree with the statement of the gentleman from Illinois, and rise in support of the amendment.

Mr. MOORHEAD. Mr. Chairman, I yield such time as he may consume to the gentleman from New York [Mr. WALSH].

Mr. WALSH. Mr. Chairman, I rise in support of the amendment.

Mr. MOORHEAD. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. THOMAS].

Mr. THOMAS of California. Mr. Chairman, I rise to compliment the gentleman from Indiana [Mr. JONTZ] and all of his friends from the corn-growing States, and the members of the Committee on Agriculture, but I rise to oppose the gentleman's amendment. They already have one department or agency of the U.S. Government subsidizing their folks. This is clearly an attempt to get another agency to subsidize their folks.

If we are talking about alternate fuels, I think somebody ought to remember the consumer. We only need to read the not-so-technical journals about some of the difficulty that certain parts of automobiles have with ethanol fuel now. To the degree that we add more, there are going to be more complications. It seems to me that the marketplace ought to be where the alternative fuels are determined, not in the legislation, locking in someone for a subsidy.

Although it is a clever approach, I hope we look at the true meaning of an attempt to increase the octane. It is to find another source of Government revenue for an already subsidized product.

Mr. JONTZ. Mr. Chairman, may I inquire of the Chair how much time we have remaining?

The CHAIRMAN. The gentleman from Indiana [Mr. JONTZ] has 1½ minutes remaining, the gentleman from California [Mr. MOORHEAD] has 2 minutes remaining, and in the opinion of the Chair the gentleman from California [Mr. MOORHEAD] is entitled to close the debate representing the committee opinion.

Mr. JONTZ. Mr. Chairman, I yield 30 seconds to the gentleman from Montana [Mr. WILLIAMS].

Mr. WILLIAMS. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, in the 30 seconds allotted to me, I will just obviously truncate my remarks by asking this: Will every Member in the House who believes that big oil has not been subsidized in America throughout this century please rise and remain standing?

Mr. JONTZ. Mr. Chairman, I yield 30 seconds to the gentleman from Iowa [Mr. NUSSLE].

Mr. NUSSLE. Mr. Chairman, I thank the gentleman for yielding time to me.

Mr. Chairman, I would like to recall, and I would like everyone else to think back to that time almost a year and a half ago now, in January, where for some of us we had to make the very first vote of our career here in the House on whether or not to go to war. Over what issue? Over oil, over our dependence on foreign oil.

Yes, there are some red herrings about how this is supposed to help the farmers and be a subsidy; yes, there are some questions out there because the scientists have not completed their discovery yet on whether or not this is harmful or not for the environment.

But the question is, do we want to cast that vote again? We should not have to. This breaks our dependence on foreign oil. Let us vote for this amendment.

Mr. MOORHEAD. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. WAXMAN].

Mr. WAXMAN. Mr. Chairman, I rise in reluctant opposition to this amendment. When the gentleman from Indiana [Mr. JONTZ] asked unanimous consent to perfect his amendment, unfortunately that amendment has not been perfected. I have two fears about this amendment: First, it leaves the discretion with the Department of Energy to waive the ethanol mandate where there is a conflict with the Clean Air Act, and I think that could lead to a great deal of trouble; second, the amendment would allow increase in fuel volatility, undermining needed emission reductions.

Mr. Chairman, I wish the amendment could have been perfected, but under its current state, I urge opposition to it.

Mr. JONTZ. Mr. Chairman, I yield such time as he may consume to the gentleman from North Carolina [Mr. LANCASTER].

Mr. LANCASTER. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I join my distinguished colleagues, Representative JIM JONTZ and Representative TOM EWING, in promoting greater use of ethanol as an octane enhancer in our Nation's gasoline supply by voicing my strong support for their octane replacement amendment.

In recent weeks, there has been a considerable amount of debate concerning this fuel alternative and the EPA's implementation of the Clean Air Act. Much of the debate has been technical in nature and involves the question of whether ethanol blends increase ozone formation and, therefore, would be excluded under the requirements of the Clean Air Act. It is clear that it was Congress's intent that all oxygenates, including fuel ethanol, be allowed to compete fairly and effectively in the reformulated gasoline markets created by the act.

In addition to implementing the Clean Air Act Amendments in a manner which promotes greater ethanol use, alternative measures need to be implemented if the promise of expanded ethanol use for our Nation's energy security, and for the economic well-being of rural America, is to be fulfilled.

The Jontz-Ewing octane replacement amendment will provide energy security benefits by extending petroleum supplies and reducing dependence on imports. It will enhance public health and clean air by reducing aromatics. And it will provide economic development benefits by providing new market opportunities for domestically produced, renewable octane enhancers.

The Jontz-Ewing octane replacement amendment moves our Nation toward a more integrated and comprehensive energy strategy, and deserves the enthusiastic support of Congress.

Mr. JONTZ. Mr. Chairman, I yield such time as he may consume to the gentleman from Minnesota [Mr. PENNY].

Mr. PENNY. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I want to echo my support for the Jontz-Ewing amendment. I was an original cosponsor of H.R. 5178, the Octane Replacement Act, which directs the Department of Energy to establish an octane replacement program using domestically produced, renewable, nonpetroleum sources.

The Jontz-Ewing amendment is consistent with the intent and requirements of the Clean Air Act but further benefits the environment. While the amendment is quite technical in nature, it has enormous implications for the environment. The amendment would set up an octane replacement program that would require a minimum level of the octane rating for gasoline sold in the United States be derived from domestically produced, renewable nonpetroelum sources. The octane number would increase incrementally every 4 years, until at least two octane numbers are derived from ethanol by March 2006. The octane replacement program provides an incentive for oil companies to shift from a use of aromatic hydrocarbons, which cause toxic emissions, to the cleaner burning ethanol which reduces these emissions in exhaust fumes.

Most importantly, this amendment emphasizes the development of domestically produced, renewable, nonpetroleum sources—exactly the type of long-term energy policy that Congress should be advocating. The United States needs to move away from our dependence on foreign energy and begin to promote domestic alternatives. Renewable fuels such as ethanol are good for our economy and good for the environment. Vote for the Jontz-Ewing amendment.

Mr. JONTZ. Mr. Chairman, I yield such time as he may consume to the gentleman from South Dakota [Mr. JOHNSON].

Mr. JOHNSON of South Dakota. Mr. Chairman, I rise in support of the amendment.

Mr. JONTZ. Mr. Chairman, I yield 30 seconds to the gentleman from Kansas [Mr. SLATTERY].

Mr. SLATTERY. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, it is not often that I have to rise in opposition to my chairman, and the gentleman from California, Chairman WAXMAN, but on this occasion I must. The reason I must has already been stated, but I think it is important for us to realize that more ethanol means lower oil imports. It means cleaner air in this country. It means more energy independence for the United States of America.

Granted, this amendment is not perfect but it sure is an improvement on the overall bill. We will clearly have enough time in conference committee to make some modifications.

I would conclude also by saying we are talking about economic growth in rural America, we are talking about dollars for farmers, and we are talking about jobs in rural America.

I urge my colleagues to support the Jontz amendment.

Mr. MOORHEAD. Mr. Chairman, I yield our final minute to the gentleman from Ohio [Mr. OXLEY].

Mr. OXLEY. Mr. Chairman, I rise in opposition to this amendment. This is an energy bill, it is not a farm bill. This is an energy bill, and we are trying to deal with what works best in the marketplace.

I have been a long supporter of the ethanol program, but now is not the time to tilt the scales towards one particular alternative fuel. There are a lot of alternative fuels out there in the marketplace. Let us allow that marketplace to work without skewing it in a legislative way.

Mr. Chairman, this amendment is unnecessary, it is expensive, and the chairman has already indicated over $1 billion in taxpayers' subsidies on top of that. It is rare that I find myself in agreement with the gentleman from California [Mr. WAXMAN] on an issue like this, but clearly he is correct in that this amendment is in the wrong spirit at the wrong time. The marketplace has demonstrated its ability to sort these things out, and I think that through the Clean Air Act, when we try to make things revenue-neutral, I mean alternative fuel-neutral, that this really would skew that the other way.

Therefore, I ask that the Members, even those of us who have supported the ethanol program in the past, this time this amendment is wrong and I ask that the Members vote against it.

Mr. POSHARD. Mr. Chairman, I rise in support of the Jontz-Ewing amendment to H.R. 776, the National Energy Policy Act.

Illinois is one of the great Farm Belt States which feeds this country and the world, and our farmers are among the most productive you can find.

Illinois is also one of the prime locations for taking the corn growth in our fields and turning it into ethanol, a clean-burning additive to ordinary gasoline.

Those are two compelling reasons for me to support this amendment, and I applaud my colleagues for bringing forward for our consideration.

But this measure makes sense for our Nation as a whole.

Requiring greater use of ethanol as an octane enhancer in our gasoline supply helps us fight the clean air battle. Greater use of renewable energy sources helps us kick the habit of depending on imported energy. And expanded markets for corn help secure the future of families and communities throughout rural America.

Within the broad policy goals of this legislation, we can surely make room for ethanol. I am pleased to lend my support to this vital effort and urge my colleagues to do the same.

Mr. MICHEL. Mr. Chairman, this amendment is an excellent example of utilizing the resources we have in this country to enhance our energy independence while at the same time contributing toward a reduction in pollution.

Ethanol, derived from corn, is an American solution for America's problems. Let's use it. This amendment would in essence require that ethanol be used as an octane enhancer in gasoline, replacing crude oil products.

The result will ultimately be a 6 percent reduction in oil imports. Isn't that what we are trying to accomplish in this bill?

Furthermore, the amendment has the potential for doubling the use of ethanol by 1994, and providing for the five-fold increase by 2006. This will lead to a substantial expansion of our domestic ethanol industry with accompanying increases in jobs. In Illinois, we have seen expansion plans placed on hold because of adverse clean air regulations proposed by EPA. Enactment of this amendment will establish a basis for moving ahead with these plans.

Finally, expanded use of ethanol means additional markets for corn. This will benefit our farming community and help to keep down the cost of our Federal support payments.

This amendment benefits us all the way around, and I strongly urge its adoption.

□ 1910

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Indiana [Mr. JONTZ].

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. MOORHEAD. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 198, noes 211, not voting 25, as follows:

☐ 1932

Mrs. COLLINS of Illinois, Messrs. MACHTLEY, ENGLISH, SOLARZ, HANCOCK, KAPTUR, and MRAZEK, Mrs. LOWEY of New York, and Mr. DOWNEY changed their vote from "aye" to "no."

Messrs. BILBRAY, RICHARDSON, SKEEN, ZIMMER, SAVAGE, KENNEDY, GORDON, and ABERCROMBIE changed their vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

PERSONAL EXPLANATION

Mr. TORRES. Mr. Chairman, during rollcall vote No. 133, the Jontz amendment, H.R. 776 I was unavoidably detained. Had I been present I would have voted "yea."

PERSONAL EXPLANATION

Mr. PASTOR. Mr. Chairman, during rollcall vote No. 133, the Jontz amendment, H.R. 776 I was unavoidably detained. Had I been present I would have voted "yea."

The CHAIRMAN. It is now in order to consider amendment No. 6 printed in House Report 102-528.

For what purpose does the gentleman from Texas [Mr. HALL] rise?

AMENDMENT OFFERED BY MR. HALL OF TEXAS

Mr. HALL of Texas. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. HALL of Texas: Page 309, line 21, strike the closing quotation marks and period.

Page 309, after line 21, insert the following:

"(k) TRANSMISSION WITHIN ERCOT SYSTEM.—(1) Except as otherwise provided in this subsection, no order under section 211 shall require any transmitting utility which is a member of the Electric Reliability Council of Texas ('ERCOT') to transmit electric energy to any other entity where the transmission service originates within, is provided wholly within, and terminates within the service territory located in Texas of one or more electric utilities which is a member of ERCOT and which is subject to the transmission authorities of the Public Utility Commission of Texas.

"(2) During 30-day period commencing 5 years after the enactment of this subsection (and during each 30-day period which commences at successive 5-year intervals thereafter) any interested person may submit a petition to the Commission to make a determination regarding whether the regulations of the Public Utility Commission of Texas provide a degree of open and nondiscriminatory access to transmission service within the service territories referred to in paragraph (1) which is generally equivalent to the degree of transmission access which would be provided if the provisions of section 211 were applicable in such service territories. The Commission shall make a determination pursuant to any such petition within 6 months after the date on which the petition is filed. If, after notice and opportunity for a hearing on the record, such person establishes to the satisfaction of the Commission that the degree of such access to transmission service is not generally equivalent, paragraph (1) shall cease to apply.".

The CHAIRMAN. Under the rule, the gentleman from Texas [Mr. HALL] will be recognized for 5 minutes, and a Member opposed to the amendment will be recognized for 5 minutes.

The Chair recognizes the gentleman from Texas [Mr. HALL].

Mr. HALL of Texas. Mr. Chairman, I will ask unanimous consent to withdraw my amendment in a moment, but before I do I think it is important that I clear up some misconceptions about the amendment.

The amendment does not exempt Texas from having an open and nondiscriminatory power transmission system. In fact, the State of Texas already has just such a policy in place as the result of very forward-thinking actions by the Texas Public Utility Commission.

My amendment simply precludes double regulation for one State, a State that was way ahead of everyone else in self-regulation.

Mr. Chairman, the situation in Texas is truly a unique situation. As some of you know, the power pool for Texas called the Electric Reliability Council of Texas, or ERCOT for short, is the only power pool in the Nation which is wholly contained within one State. So intrastate is the name of the game, much as it is in Alaska where they cannot have interconnections and be in Interstate Commerce, much like Hawaii where the water's edge stops it. Actually, since interconnections between ERCOT utilities and those situated outside the State are virtually nonexistent, Interstate Commerce subject to Federal regulation simply does not take place, and therefore ERCOT utilities are not subject to the Federal Energy Regulatory Commission authority that would normally occur pursuant to the Federal Power Act.

My concern with the transmission portion of H.R. 776 is simply this: The bill would give FERC new authority or transmission which occurs wholly in the State of Texas, and in doing so it would make the actions of the Texas PUC over the last 10 years completely irrelevant and damaging to contracts that are in existence. By taking away the authority of the Texas PUC to govern power transactions which occur wholly within ERCOT, we would be punishing the most progressive State regulatory authority in the country with respect to electricity generation and transmission.

Now, as a safeguard, the amendment also would insure that FERC could review the Texas PUC rules every 5 years to guarantee that the Texas system is at least as open and nondiscriminatory as the rest of the country. If the FERC determined that Texas rules were not as effective as those at the Federal level, then the FERC with their gargantuan appetite for power over States could extend its jurisdiction over ERCOT.

I felt that my amendment was exceedingly fair, but unfortunately we have been unable to reach a total compromise on this issue very important to us. We cannot take a chance on it getting knocked out at this stage.

With this in mind, I will be withdrawing my amendment today in the hope that this situation can be resolved during the conference committee meeting in the coming months.

Mr. Chairman, I want to extend my thanks to the very capable chairman of the Committee on Energy and Commerce, the gentleman from Michigan [Mr. DINGELL] and all the others who have worked with me over the last 2 months on this issue.

Mr. Chairman, I yield to the gentleman from Michigan [Mr. DINGELL].

Mr. DINGELL. Mr. Chairman, I thank the gentleman for yielding to me.

I appreciate my good friend and colleague, the gentleman from Texas, for withdrawing his amendment. I understand his concerns.

The Texas Public Utility Commission currently regulates certain aspects of the intra-ERCOT transmission system. The ability of the Texas PUC to continue to regulate Texas utilities is of great importance. It is also important that the standards of transmission embodied in H.R. 776 be maintained. I believe that we can meld the concerns that the PUC in Texas has in this regard to continuing to regulate the Texas utilities and to issue regulations of concern to it with the concern that Texas regulations be at least as protective of transmission rights as is H.R. 776. I intend to see to it that the concerns of the gentleman here are met.

I give the gentleman from Texas my word on this. I will work with him on these issues as we consider H.R. 776 in conference and try to see to it that we work out something that satisfies my dear friend, the gentleman from Texas, who has been of great assistance in processing this legislation.

Mr. HALL of Texas. Mr. Chairman, I thank the gentleman.

Mr. Chairman, I would like to ask the views of the gentleman from Indiana [Mr. SHARP], and I yield to the gentleman from Indiana.

Mr. SHARP. Mr. Chairman, I certainly recognize the concerns of the gentleman and will continue to work with him to fashion an appropriate balance between the State and the Federal rule.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. HALL of Texas. I yield to the gentleman from New York.

Mr. LENT. Mr. Chairman, I thank the gentleman for yielding to me.

Mr. Chairman, I, too, recognize the concerns of the gentleman from Texas with the regulation of transmission inside ERCOT and will be happy and pleased to work with the gentleman to fashion an appropriate solution.

The CHAIRMAN. Does any Member wish to speak in opposition to the amendment?

The Chair hears none.

Mr. HALL of Texas. Mr. Chairman, I thank all these gentlemen, and with these assurances, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas?

There was no objection.

The CHAIRMAN. The amendment offered by the gentleman from Texas [Mr. HALL] is withdrawn.

It is now in order to consider amendment No. 7 printed in House Report 102–528.

□ 1940

AMENDMENT OFFERED BY MR. CLEMENT

Mr. CLEMENT. Mr. Chairman, I offer an amendment made in order.

The CHAIRMAN. The clerk will designate the amendment.

The test of the amendment is as follows:

Amendment offered by Mr. CLEMENT. On page 719, strike line 20 and all that follows through Page 727, line 3, and insert the following (and redesignate the subsequent provisions, and conform the table of contents, accordingly):

Subtitle A—Combined Construction Permit and Operating License

SEC. 2801. COMBINED LICENSES.

Section 185 of the Atomic Energy Act of 1954 (42 U.S.C. 2235) is amended—

(1) in the heading for such section by adding "and Operating Licenses" after "Permits";

(2) by adding a subsection designator "a." before "All applicants for licenses"; and

(3) by adding at the end the following new subsection:

"b. After holding a public hearing under section 189 a. (1)(A), the Commission shall issue to the applicant a combined construction and operating license if the application contains sufficient information to support the issuance of a combined license and the Commission determines that there is reasonable assurance that the facility will be constructed and will operate in conformity with the license, the provisions of this Act, and the Commission's rules and regulations. The Commission shall identify within the combined license the inspections, tests, and analyses, including those applicable to emergency planning, that the licensee shall perform, and the acceptance criteria that, if met, are necessary and sufficient to provide reasonable assurance that the facility has been constructed and will be operated in conformity with the license, the provisions of this Act, and the Commission's rules and regulations. Following issuance of the combined license, the Commission shall ensure that the prescribed inspections, tests, and analyses are performed and, prior to operation of the facility, shall find that the prescribed acceptance criteria are met. Any finding made under this subsection shall not require a hearing except as provided in section 189 a. (1)(B).".

SEC. 2802. POST-CONSTRUCTION HEARINGS ON COMBINED LICENSES.

Section 189 a. (1) of the Atomic Energy Act of 1954 (42 U.S.C. 2239(a)(1)) is amended—

(1) by adding a subparagraph designator "(A)" before "In any proceeding under this Act,"; and

(2) by adding after subparagraph (A) the following new subparagraph:

"(B)(i) Not less than 180 days before the date scheduled for initial loading of fuel into a plant by a licensee that has been issued a combined construction permit and operating license under section 185 b., the Commission shall publish in the Federal Register notice of intended operation. That notice shall provide that any person whose interest may be affected by operation of the plant, may within 60 days request the Commission to hold a hearing on whether the facility as constructed complies, or on completion will comply, with the acceptance criteria of the license.

"(ii) A request for hearing under clause (i) shall show, prima facie, that one or more of the acceptance criteria in the combined license have not been, or will not be met, and the specific operational consequences of nonconformance that would be contrary to providing reasonable assurance of adequate protection of the public health and safety.

"(iii) After receiving a request for a hearing under clause (i), the Commission expeditiously shall either deny or grant the request. If the request is granted, the Commission shall determine, after considering petitioners' prima facie showing and any answers thereto, whether during a period of interim operation, there will be reasonable assurance of adequate protection of the public health and safety. If the Commission determines that there is such reasonable assurance, it shall allow operation during an interim period under the combined license.

"(iv) The Commission, in its discretion, shall determine appropriate hearing procedures, whether informal or formal adjudicatory, for any hearing under clause (i), and shall state its reasons therefor.

"(v) The Commission shall, to the maximum possible extent, render a decision on issues raised by the hearing request within 180 days of the publication of the notice provided by clause (i) or the anticipated date for initial loading of fuel into the reactor, whichever is later. Commencement of operation under a combined license is not subject to subparagraph (A).".

SEC. 2803. RULEMAKING.

The Nuclear Regulatory Commission shall propose regulations implementing sections 185 b. and 189 a. (1)(B) of the Atomic Energy Act of 1954, as added by sections 2801 and 2802 of this Act, not later than 1 year after the date of enactment of this Act.

SEC. 2804. AMENDMENT OF A COMBINED LICENSE PENDING A HEARING.

Section 189 a. (2) of the Atomic Energy Act of 1954 (42 U.S.C. 2239(a)(2)) is amended by inserting "or any amendment to a combined construction and operating license" after "any amendment to an operating license" each time it occurs.

SEC. 2805. JUDICIAL REVIEW.

Section 189 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2239(b)) is amended by inserting "or any final order allowing or prohibiting a facility to begin operating under a combined construction and operating license" before "shall be subject to judicial review".

SEC. 2806. EFFECT ON PENDING PROCEEDINGS.

Sections 185 b. and 189 a. (1)(B) of the Atomic Energy Act of 1954, as added by sections 2801 and 2802 of this Act, shall apply to all proceedings involving a combined license for which an application was filed after May 8, 1991, under such sections.

SEC. 2807. CONFORMING AMENDMENT.

The table of contents of the Atomic Energy Act of 1954 is amended by amending the item relating to section 185 to read as follows:

"Sec. 185. Construction Permits and Operating Licenses.".

The CHAIRMAN. Under the rule, the gentleman from Tennessee [Mr. CLEMENT] will be recognized for 20 minutes, and a Member opposed will be recognized for 20 minutes.

The Chair recognizes the gentleman from Tennessee [Mr. CLEMENT].

Mr. Chairman, I yield 10 minutes of my time on the Clement-Barton amendment to my distinguished colleague, the gentleman from Texas [Mr. BARTON], and I ask unanimous consent that he may control the time.

The CHAIRMAN. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. CLEMENT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in support of the bipartisan amendment offered by myself and Congressman JOE BARTON from Texas and cosponsored by over 150 of our colleagues. I support this amendment for a number of different reasons, but the main reason is actually very simple: it makes no sense whatsoever to continue to deny ourselves a proven, safe, and environmentally beneficial source of electricity—nuclear energy.

While I fully support measures like conservation, solar power, coal, oil, wind power, water power, and alternative energy fuels—all these measures put together will not negate the need to construct significant new base load capacity. By itself, nuclear energy cannot solve America's energy problems either. But I do not believe it is sound public policy to rule it out as a component to our Nation's energy strategy.

We also face the responsibility of protecting our environment from the dangers of greenhouse gas emissions and acid rain. It is the only major source of electricity generation that does not emit greenhouse gases.

We must remove the regulatory barriers which have resulted in such colossal boondoggles as Shoreham and Watts Bar nuclear plant which is located in my State, Tennessee, which have resulted in literally billions and billions of ratepayer dollars being spent and wasted.

Our No. 1 goal in the Clement-Barton amendment is to protect the public's right to fully participate in the construction and licensing of a nuclear energy plant. We have four separate public hearing phases under our proposal as opposed to two hearing phases under the pre-1989 licensing procedure.

The chart that I have before me points out about the various hearings, about the judicial review and about the various inspections through the new process.

The NRC estimates that it will take 6 years, even under the new process, before you even begin plant construction under the reform process.

These licensing reform measures would reduce the absurd 14-year timeframe for building and licensing nuclear energy plants in the United States to 6 years, and save the ratepayers billions and billions in unnecessary regulatory costs.

I know what the problems are because I served on the Tennessee Valley Authority board of directors for several years and I had first line experience when it comes to waste and mismanagement and regulatory lag that cost the ratepayers billions of dollars that it should not have cost. And when you talk about utility costs, you are talking about the necessities of life, about bills that people have to pay.

Mr. Chairman, the new process is predictable and allows for full public participation. I urge my colleagues to support the Clement-Barton amendment to assure the public's right to participate in the nuclear licensing process.

Mr. BLILEY. Mr. Chairman, will the gentleman yield?

Mr. CLEMENT. I yield to the gentleman from Virginia [Mr. BLILEY].

Mr. BLILEY. Mr. Chairman, I rise in strong support of the Barton-Clement amendment.

Mr. Chairman, I rise in support of the Barton amendment on nuclear licensing reform.

We all want to ensure public participation in the nuclear licensing process. The Barton amendment guarantees public participation at three different stages in plant construction and the right to judicial review of NRC decisions. We all want to ensure that nuclear plants will be subject to the strictest scrutiny to guarantee their safety. The Barton amendment accomplishes this through three separate hearings before construction on all siting and design safety issues. The Barton amendment preserves all rights in the licensing process except one: the right to delay plant operation for no good reason. Under the Barton amendment, the public has a right to a preoperational hearing only if there is a good faith showing that the plant was not constructed in accord with its federally certified design.

The Barton amendment would delete provisions attached to H.R. 776 by the Interior Committee, called the Miller amendment, that guarantees lengthy delays in nuclear plant operation after the completion of construction. In their place, the Barton amendment would substitute the nuclear reform provisions approved by the Senate in their energy legislation, S. 2166. For those of us who remember the Seabrook and Shoreham fiascos, the Miller amendment guarantees that any nuclear plant built in the future will be another white elephant like Seabrook or a Shoreham.

Actually, there will be no more Seabrooks or Shorehams under the Miller amendment. That is because there will be no more nuclear plants under the Miller amendment. No utility in its right mind will order a nuclear plant, borrow $3 billion, and manage the construction and licensing over a period of 8 to 10 years, if there is a prospect that the plant will have to sit idle for 4 years while financing costs go through the roof.

If you want to kill nuclear energy, you should oppose the Barton amendment. If you believe nuclear energy should be an option in this country's energy future, you must support the Barton amendment.

Mr. DELAY. Mr. Chairman, I rise in opposition to the amendment offered by Mr. MARKEY.

The State of Texas has successfully protected the property rights of natural resource owners for over 60 years. The system of prorationing in Texas has been used to meet market demand while not interfering in the market price of natural gas.

Prorationing is used to encourage development of Texas' crude oil and natural gas resources in an economically efficient and environmentally responsible manner. The courts have consistently ruled that prorationing systems are constitutional. Prorationing is used in Texas to protect the correlative rights of property owners.

Texas produces more gas than any other State in the Union. Texas is also the largest consumer of natural gas. Most of the gas produced in the State of Texas is also consumed within the State—over 63 percent. It simply would not make any sense for the Texas Railroad Commission to try to artificially raise the price of natural gas when over 63 percent of the increase would have to be covered by Texans themselves. We would only be hurting ourselves.

This amendment would strip away from Texas the right to manage and conserve its own natural resources. We should not take the rights of Texas away.

I urge my colleagues to protect the rights of property owners and oppose the Markey amendment.

Mr. CLEMENT. Mr. Chairman, I reserve the balance of my time.

The CHAIRMAN. Is the gentleman from California [Mr. MILLER] opposed to the amendment?

Mr. MILLER of California. Yes, Mr. Chairman, I am.

The CHAIRMAN. The gentleman from California [Mr. MILLER] will be recognized for 20 minutes.

Mr. MILLER of California. Mr. Chairman, I yield myself 4 minutes.

Mr. Chairman, this amendment is not about whether you are for or against nuclear power. This issue is not whether nuclear power is going to go forward in this country. This amendment is about whether or not we are going to do it in a manner which will have the confidence of the American people as they are presented with the options in the future about the siting of nuclear facilities in their State, in their counties, in their communities, and whether or not we will have a process that brings about the confidence that this industry has not enjoyed over the past 30 years.

Mr. Chairman, this is an industry that has essentially been brought to its knees by the American people; brought to its knees by the American people because it lacked confidence, because so many problems were found through the planning and operation of these facilities, not just with the questions of safety but cost overruns and all that goes with it.

The big distinction between Mr. BARTON's amendment and our amendment is that after you have the one-stop licensing which we both allow for, after you have the safety reactor designs which we both allow for, after you have the early site permits which we both allow for, after you have the standard design certifications which we both allow for, after you have the combined construction and operating licenses which we both allow for, and after you have the preoperation hearing on compliances which we both allow for, will we give the public confidence?

Mr. Chairman and Members of the House, both of these processes are for a new streamlined procedure for consideration of nuclear power; both of them allow for the one-step licensing and the combined licensing and the certifications and new design. The question will be that from the time when you were first licensed and you went through and finally got to construction, and the time it took to construct these facilities, when we know of new evidence, when we know of new, significant material, not dilatory material, but significant to the operation and/or the safety of this facility's compliance with how we told the public it would be built, would we be entitled to a hearing? Would the American people be entitled to that hearing?

The answer, in the Barton-Clement amendment, is "no." "You can petition, but you are not entitled," as Mr. SHARP has referred to, to "one last look to see whether or not this has been done in a fashion in which people expected it to be done." That is the distinction, that is the distinction in these amendments.

Is the preservation of the right of the American public to be involved in this decision? This is an industry, as its paranoia has grown over the years, it has tried more and more and more to close out the public, and it is an industry that has fallen in greater and greater disfavor with the public.

Mr. Chairman, this is an effort to combine the best of what we have learned over the last 30 years in terms of streamlining, in terms of combined permitting and operations of these facilities. But it also addresses a fundamental problem with respect to this industry, and that is the confidence, the confidence of the American people about this industry as we now think about it embarking on a new generation of, hopefully, safer, smaller, more productive plants than what we have in this country now. And that will not go forward if the people are not able to address significant new issues that may have arisen during that time of construction.

□ 1950

Mr. Chairman, that is all we do. That is all we do. And yet we are told somehow that that would bring down this industry if they had to subject themselves to the hearing.

The other thing we do is we ask what was the operating experience for a plant that is going for relicensing. What did we learn during the 30 years that that plant was in operation? Somehow if we ask that question on the record, it will bring down this industry.

Mr. Chairman, I reserve the balance of my time.

Mr. SHARP. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore (Mr. ROEMER) having assumed the chair, Mr. SKAGGS, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee having had under consideration the bill (H.R. 776) to provide for improved energy efficiency had come to no resolution thereon.

CONFERENCE REPORT ON H.R. 4990, RESCINDING CERTAIN BUDGET AUTHORITY

Mr. MURTHA submitted the following conference report and statement on the bill (H.R. 4990) rescinding certain budget authority, and for other purposes:

CONFERENCE REPORT (H. REPT. 102-530)

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R.-4990) rescinding certain budget authority, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the bill, and agree to the same with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment insert:

TITLE I

DEPARTMENT OF AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

COOPERATIVE STATE RESEARCH SERVICE

(RESCISSION)

Of the funds made available under this heading in Public Law 102–142, $849,000 are rescinded for special research grants, as follows:

General Defense Intelligence Program, $14,970,000;

Consolidated Cryptologic Program, $20,000,000;

Coordinator for Drug Enforcement Policy and Support, $1,000,000;

START Treaty Implementation, $16,300,000; and

Supplies and Materials Purchases, $400,000,000.

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Miscellaneous unobligated balances, $11,000,000.

Of the funds made available under this heading in Public Law 102–511, the following funds are hereby rescinded from the following programs in the specified amounts:

MPLH deployment kits, $13,100,000.

MISSILE PROCUREMENT, ARMY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Miscellaneous unobligated balances, $13,800,000.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Bradley Fighting Vehicle advance procurement, $50,000,000; and

M1 Tanks, $46,300,000.

Of the funds made available under this heading in Public Law 101–511, the following funds are hereby rescinded from the following program in the specified amount:

M1 Tanks, $150,000,000.

Of the funds made available under this heading in Public Law 101–165, the following funds are hereby rescinded from the following program in the specified amount:

Host Nation Support, $10,700,000.

OTHER PROCUREMENT, ARMY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–165, the following funds are hereby rescinded from the following programs in the specified amounts:

PSYOP Equipment (SOF), $1,300,000.

AIRCRAFT PROCUREMENT, NAVY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

E–2C advance procurement, $39,000,000;

EP–3 series modifications, $15,000,000; and

SH–2 series modifications, $103,000,000.

WEAPONS PROCUREMENT, NAVY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Trident II, $100,000,000;

Personal defense weapon, $11,638,000; and

Rockeye PIP, $4,000,000.

Of the funds made available under this heading in Public Law 101–511, the following funds are hereby rescinded from the following program in the specified amount:

Phoenix missile modification, $60,000,000.

SHIPBUILDING AND CONVERSION, NAVY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

SSN–21, $1,150,000,000;

AOE fast combat support ship, $300,000,000: Provided, That the $200,000,000 remaining shall be available for obligation for advance procurement of long-lead material, equipment, and engineering services for the AOE–10.

OTHER PROCUREMENT, NAVY

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Ship Systems Trainer, $12,000,000;

Submarine Combat System Trainers (SSN–21), $149,400,000;

SSN–21 Trainers, $17,900,000;

Nuclear Components (SSN–21), $22,100,000;

SURTASS, $4,000,000;

AN/SLQ–32(V), $1,300,000;

Firefighting Equipment, $15,000,000;

Intelligence Support Equipment, $2,453,000; and

General Reduction, Installation of Equipment, $100,000,000.

Of the funds made available under this heading in Public Law 101–511, the following funds are hereby rescinded from the following program in the specified amount:

General Reduction, Installation of Equipment, $130,000,000.

Of the funds made available under this heading in Public Law 101–165, the following funds are hereby rescinded from the following programs in the specified amounts:

Point Defense Support Equipment, $20,500,000;

Productivity Investment Fund, $15,000,000; and

General Reduction, Installation of Equipment, $100,000,000.

PROCUREMENT, MARINE CORPS

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescined from the following programs in the specified amounts:

Tactical Intelligence Enhancements, $12,500,000; and

Night Vision Equipment, $15,000,000.

Of the funds made available under this heading in Public Law 101–511, the following funds are hereby rescinded from the following programs in the specified amounts:

AAV7A1 product improvement, $6,500,000;

Telecommunications equipment, $5,000,000; and

Amphibious fuel system, $2,500,000.

AIRCRAFT PROCUREMENT, AIR FORCE

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

B–2, $500,000,000; and

VC–137 replacement aircraft, $7,012,000.

Of the funds made available under this heading in Public Law 101–165, the following funds are hereby rescinded from the following programs in the specified amounts:

AC–130U Gunship (SOF), $9,000,000; and

Common Support Equipment (SOF), $1,100,000.

MISSILE PROCUREMENT, AIR FORCE

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Peacekeeper (M–X), $73,000,000;

Advanced Cruise Missile, $344,000,000; and

Special programs, $35,000,000.

Of the funds made available under this heading in Public Law 101–511, the following funds are hereby rescinded from the following program in the specified amount:

Peacekeeper (M–X), $112,200,000.

Of the funds made available under this heading in Public Law 101–165, the following funds are hereby rescinded from the following program in the specified amount:

SRAM II, $6,415,000.

OTHER PROCUREMENT, AIR FORCE

(RESCISSION)

Of the funds made available under this heading in Public Law 102–172, the following funds are hereby rescinded from the following programs in the specified amounts:

Selected Activities, $106,900,000; and

Intelligence Production Activity, $2,124,000.

Of the funds made available under this heading in Public Law 101-511, the following funds are hereby rescinded from the following program in the specified amount:

Base Support—Mobility Equipment, $10,000,000.

PROCUREMENT, DEFENSE AGENCIES

(RESCISSION)

Of the funds made available under this heading in Public Law 102-172, the following funds are hereby rescinded from the following program in the specified amount:

Classified Equipment, $10,700,000.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

(RESCISSION)

Of the funds made available under this heading in Public Law 102-172, the following funds are hereby rescinded from the following programs in the specified amounts:

Aircraft Propulsion (LH), $11,800,000;

Advanced Tank Cannon (ATAC), $3,500,000;

Tractor Jewel, $22,000,000;

Tractor Pull, $8,200,000;

Tractor Helm, $70,000,000;

Anti-Satellite Weapon, $16,000,000;

General Reduction, Contractor Travel, $6,000,000; and

Forward Area Air Defense (FADD), $51,000,000.

Of the funds made available under this heading in Public Law 101-511, the following funds are hereby rescinded from the following programs in the specified amounts:

Combat Vehicle Improvement Program, $2,500,000; and

Armament Enhancement Initiative, $9,900,000.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

(RECESSION)

Of the funds made available under this heading in Public Law 102-172, the following funds are hereby rescinded from the following programs in the specified amounts:

Joint Direct Attack Munition, $5,000,000;

Trident II (Non-Drell Commission), $15,500,000;

EMPRESS II Testing, $1,000,000;

MK-30 Target, $10,000,000;

Target Systems Development, $4,900,000;

Aegis Combat System Engineering, $5,000,000;

General Reduction, Contractor Travel, $9,000,000;

Submarine Support Equipment, $10,000,000;

Anti-Air Warfare/Anti-Surface Warfare Technology, $1,400,000;

Ship Towed Array, $6,100,000;

Industrial Preparedness (Acquisition Workforce Training), $5,000,000;

Joint Advanced Systems, $46,000,000; and

Technical Reconnaissance and Surveillance, $3,656,000.

Of the funds made available under this heading in Public Law 101-511, the following funds are hereby rescinded from the following programs in the specified amounts:

Support Equipment, $3,000,000; and

A-12, $11,350,000.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

(RESCISSION)

Of the funds made available under this heading in Public law 102-172, the following funds are hereby rescinded from the following programs in the specified amounts:

Small ICBM, $300,000,000;

F-16 Squadrons, $10,700,000;

F-15E Squadrons, $19,000,000;

Special Projects, $46,000,000;

Night/Precision Attack, $17,200,000;

Forest Green, $2,400,000;

National Launch System, $5,000,000;

Special Activities, $228,000,000;

General Reduction, Contractor Travel, $11,000,000; and

Advanced Technology Development, Undistributed Reduction, $50,000,000.

Of the funds made available under this heading in Public Law 101-511, the following funds are hereby rescinded from the following programs in the specified amounts:

SRAM II-Engineering Development, $7,700,000;

SRAM-T, $2,000,000; and

Special Activities, $30,000,000.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

(RESCISSION)

Of the funds made available under this heading in Public Law 102-172, the following funds are hereby rescinded from the following programs in the specified amounts:

Manufacturing Technology (DARPA), $4,000,000;

Defense Nuclear Agency, $15,000,000;

Strategic Environmental R&D, $40,000,000;

General Reduction, Contractor Travel, $11,000,000;

AIM-9 Consolidated Program, $21,400,000;

Defense Reconnaissance Support Program, $25,000,000;

Manufacturing Technology, $80,000,000;

OSD Support, $20,000,000;

NATO R&D, $10,000,000;

Cryptologic Activities, $5,700,000;

Joint Simulation, $20,000,000;

Manufacturing Managers in the Classroom, $5,000,000; and

Strategic Defense Initiative, $200,000,000.

Of the funds made available under this heading in Public Law 101-511, the following funds are hereby rescinded from the following programs in the specified amounts;

Strategic Environmental R&D, $50,000,000;

Of the funds made available under this heading in Public Law 102-172, the following funds are hereby rescinded from the following program in the specified amount:

Intelligence Community Staff, $500,000.

GENERAL PROVISIONS

SEC. 301. Funds available to the Department of Defense which were proposed for rescission by the President for programs, projects, or activities listed in the justification accompanying the rescission messages dated March 10, March 20, and April 9, 1992, and which are not specifically rescinded by this Act in response to the President's request shall be made available for obligation for the same programs, projects, and activities as described in the messages of March 10, March 20, and April 9, 1992.

SEC. 302. Section 401 of the Department of Defense Appropriations Act, 1992 (Public Law 102-172) is hereby amended by inserting ", foundation" after the word "college" and inserting after "Provided," the following, "That the Secretary of Defense shall review grants totalling $115,900,000 and specified previously in this title and shall award such amounts as he deems appropriate based on the potential contribution each proposed project may make to the national scientific and technical posture: Provided further,".

TITLE IV

ENERGY AND WATER DEVELOPMENT

DEPARTMENT OF DEFENSE—CIVIL

DEPARTMENT OF THE ARMY

CORPS OF ENGINEERS—CIVIL

GENERAL EXPENSES

(RESCISSION)

Of the funds made available under this heading in Public Law 102-104, $500,000 are rescinded.

DEPARTMENT OF ENERGY

GENERAL SCIENCE AND RESEARCH ACTIVITIES

(RESCISSION)

Of the funds made available under this heading in Public Law 102-104, $3,350,000 are rescinded: Provided, That the amount for project 92-G-302, Fermilab main injector, is reduced to $11,650,000.

DEPARTMENTAL ADMINISTRATION

(RESCISSION)

Of the funds made available under this heading in Public Law 102-104, $500,000 are rescinded.

TITLE V

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS

MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

(RESCISSION)

Of the funds made available under this heading in Public Law 101-513, $32,500,000 are rescinded.

CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

INTER-AMERICAN INVESTMENT CORPORATION

(RESCISSION)

Of the funds made available in Public Law 102-145, as amended, for the Inter-American Investment Corporation, $4,000,000 are rescinded.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

(RESCISSION)

Of the funds made available under this heading in Public Law 101-513, $100,000 are rescinded.

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

DEOBLIGATION/REOBLIGATION AUTHORITY

(RESCISSION)

Of the funds made available in Public Law 102-145, as amended, and in prior Acts providing funding for foreign operations, export financing, and related programs for fiscal years prior to fiscal year 1992, under the following headings: "Agriculture, rural development, and nutrition, Development Assistance", "Private sector, environment, and energy, Development Assistance", "Sub-Saharan Africa, Development Assistance" and "Economic Support Fund",

$6,320,000 are rescinded: Provided, That this rescission shall be made from funds deobligated but continued available by sections 515 or 517 of such Act (or by any other provision of such Act providing "deobligation/reobligation authority" or "availability of funds"): Provided further, That the same proportion of the unobligated balance of the funds continued available for each such heading pursuant to this paragraph shall be rescinded.

DEVELOPMENT ASSISTANCE; ECONOMIC SUPPORT FUND

(RESCISSION)

Of the unexpended balances of funds (including earmarked funds) made available in Public Law 98–473, Public Law 99–88 and prior Acts making appropriations for foreign assistance and related programs to carry out the provisions of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, as amended, $30,000,000 are rescinded: Provided, That this rescission shall be made from funds deobligated but continued available by section 515 of Public Law 101–513, and the corresponding authority provided in Public Law 102–145, as amended.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

(RESCISSION)

Of the funds made available in Public Law 102–145, as amended, for Operating Expenses of the Agency for International Development, $64,054 are rescinded.

ECONOMIC SUPPORT FUND

(RESCISSION)

Of the funds made available in Public Law 102–145, as amended, for the Economic Support Fund which are not earmarked, $1,100,000 are rescinded.

MULTILATERAL ASSISTANCE INITIATIVE FOR THE PHILIPPINES

(RESCISSION)

Of the funds made available in Public Law 102–145, as amended, for the Multilateral Assistance Initiative for the Philippines, $20,000,000 are rescinded.

MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL MILITARY EDUCATION AND TRAINING

(RESCISSION)

Of the funds made available in Public Law 102–145, as amended, for International Military Education and Training, $1,925,000 are rescinded: Provided, That the amount of funds made available under this heading that may be obligated for entertainment allowances is decreased by $25,000.

FOREIGN MILITARY FINANCING PROGRAM

(RESCISSION)

Of the grant funds made available in Public Law 102–145, as amended, for the "Foreign Military Financing Program", $47,100,000 are rescinded: Provided, That none of the funds made available in Public Law 102–145, as amended, for the "Foreign Military Financing Program" shall be obligated or expended for Peru: Provided further, That the amount of funds made available under this heading that may be obligated for the general costs of administering military assistance and sales is decreased by $15,000.

DEOBLIGATION/REOBLIGATION AUTHORITY

(RESCISSION)

Notwithstanding section 515(b) of Public Law 101–513, and the corresponding authority provided in Public Law 102–145, as amended, no Foreign Military Financing Program funds may be reobligated pursuant to such authority from the date of enactment of this Act through September 30, 1992.

SPECIAL DEFENSE ACQUISITION FUND

(LIMITATION ON OBLIGATIONS)

Notwithstanding any provision of Public Law 102–145, as amended, Public Law 101–513 or Public Law 101–167, not to exceed $235,000,000 may be obligated pursuant to section 51(c)(2) of the Arms Export Control Act during fiscal year 1992.

MILITARY ASSISTANCE PROGRAM

(RESCISSION)

Of the unexpended balances of funds made available to carry out the provisions of chapter 2 of part II of the Foreign Assistance Act of 1961, $6,750,000 are rescinded.

Of the funds made available to carry out section 503(a)(3) of the Foreign Assistance Act of 1961 that have been disbursed into the Foreign Military Sales Trust Fund, $5,760,000 may not be disbursed for any purpose and shall be deposited into the miscellaneous receipts of the Treasury.

TITLE VI

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

NATIONAL RECREATION AND PRESERVATION

(RESCISSION)

Of the funds made available under this heading in Public Law 102–154, $987,000 for the Calumet Historic District, MI are rescinded.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF DENTAL RESEARCH

(RESCISSION)

From amounts previously appropriated, $183,000 are hereby rescinded.

HEALTH CARE FINANCING ADMINISTRATION

PROGRAM MANAGEMENT

(RESCISSION)

Of the funds available under this heading in Public Law 102–170, $4,000,000 are rescinded: Provided, That no more than $253,000,000 of such appropriation may be expended to meet unanticipated costs of agencies or organizations with which agreements have been made to participate in the administration of title XVIII of the Social Security Act.

DEPARTMENT OF EDUCATION

VOCATIONAL AND ADULT EDUCATION

(RESCISSION)

Of the funds available under this heading in Public Law 102–170, for Title IV of the Carl D. Perkins Vocational and Applied Technology Education Act, $1,000,000 for choice demonstrations are rescinded.

TITLE VIII

LEGISLATIVE BRANCH CONGRESSIONAL OPERATIONS

SENATE

CONTINGENT EXPENSES OF THE SENATE

OFFICIAL MAIL COSTS

(RESCISSION)

Of the total funds appropriated under the heading "OFFICIAL MAIL COSTS" under the heading "CONTINGENT EXPENSES OF THE SENATE" under the heading "SENATE" in any appropriations Act or joint resolution making appropriations available to the Senate for fiscal years 1991 and 1992 and which (but for the provisions of this paragraph) would remain available until expended, of the balances remaining unobligated, $20,000,000 are rescinded.

HOUSE OF REPRESENTATIVES

SALARIES AND EXPENSES

(RESCISSION)

Of the funds made available under this heading, $20,000,000 are rescinded, as follows:

OFFICIAL MAIL COSTS

The funds available under this heading shall be reduced by $20,000,000.

TITLE IX

DEPARTMENT OF DEFENSE—MILITARY CONSTRUCTION

(RESCISSION)

Of the funds provided in Military Construction Appropriations Act, the following funds are *hereby rescinded from the following accounts in the specified amounts:*

Military Construction, Navy, 1988/1992, $5,100,000;

Military Construction, Army National Guard, 1988/1992, $1,709,000;

Military Construction, Defense Agencies, 1989/1993, $500,000;

Military Construction, Air Force, 1990/1994, $10,170,000;

Military Construction, Defense Agencies, 1990/1994, $10,000,000;

Military Construction, Army National Guard, 1990/1994, $2,552,000;

Military Construction, Army Reserve, 1990/1994, $649,000;

Military Construction, Army, 1991/1995, $9,000,000;

Military Construction, Air Force, 1991/1995, $6,300,000;

Military Construction, Defense Agencies, 1991/1995, $22,100,000;

Military Construction, Army Reserve, 1991/1995, $2,100,000;

Military Construction, Army, 1992/1996, $8,850,000;

Military Construction, Air Force, 1992/1996, $5,500,000;

Military Construction, Defense Agencies, 1992/1996, $24,000,000;

Military Construction, Army National Guard, 1992/1996, $600,000;

Military Construction, Air National Guard, 1992/1996, $306,000;

Military Construction, Naval Reserve, 1992/1996, $10,900,000; and

North Atlantic Treaty Organization Infrastructure, 1992, $15,734,000.

TITLE X

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES

DEPARTMENT OF TRANSPORTATION

FEDERAL HIGHWAY ADMINISTRATION

BRIDGES ON DAMS

(RESCISSION)

Of the funds made available under this heading in Public Law 95–599, $5,000,000 are rescinded.

URBAN MASS TRANSPORTATION ADMINISTRATION

RESEARCH, TRAINING, AND HUMAN RESOURCES

(RESCISSION)

Of the funds made available under this heading in Public Law 102–143, $5,000,000 are rescinded.

TITLE XI

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAMS

ANNUAL CONTRIBUTIONS FOR ASSISTED HOUSING

(RESCISSION)

Of the funds made available under this head in Public Law 102–139 and prior years, $597,000,000 are rescinded: Provided, That of the foregoing amount, $350,000,000 shall be deducted from amounts earmarked under this head for amendments to section 8 contracts other than contracts for projects developed under section 202 of the Housing Act of 1959, $100,000,000 shall be deducted from amounts provided for nonincremental certificates and vouchers, and $147,000,000 shall be deducted from amounts provided for preservation activities.

INDEPENDENT AGENCIES

ENVIRONMENTAL PROTECTION AGENCY

ABATEMENT, CONTROL, AND COMPLIANCE

(RESCISSION)

Of the funds made available under this heading in Public Law 102–139, for contracts, $5,800,000 are rescinded.

RESEARCH AND DEVELOPMENT

(RESCISSION)

Of the funds made available under this heading in Public Law 102–139, for contracts, $2,100,000 are rescinded.

HAZARDOUS SUBSTANCE SUPERFUND

(RESCISSION)

Of the funds made available under this heading in Public Law 102–139, for the alternative remedial contracting system, $16,100,000 are rescinded.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

(RESCISSIONS)

Of the funds made available under this heading in Public Law 102–139, $1,500,000 for space exploration studies are rescinded.

Of the funds made available under this heading in Public Law 12–139, $600,000 for the National Aerospace Plans are rescinded.

Of the funds made available under this heading in Public Law 102–139, $700,000 for Climsat earth probe are rescinded.

Of the funds made available under this heading in Public Law 102–139, $1,250,000 for the Search for Extra-Terrestrial Intelligence are rescinded.

NATIONAL SCIENCE FOUNDATION

RESEARCH AND RELATED ACTIVITIES

(RESCISSION)

Of the funds made available under this heading in Public Law 102–139, $2,000,000 are rescinded.

And the Senate agree to the same.

That the House recede from its disagreement to the amendment of the Senate to the title of the joint resolution and agree to the same with an amendment as follows:

In lieu of the House title or the Senate title, insert:

An Act Rescinding Certain Budget Authority

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 4990), rescinding certain budget authority, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effects of the action agreed upon by the managers and recommended in the accompanying conference report.

Report language included by the House in House Report 102–505 which is not changed by the report of the Senate in Senate Report 102–274, and Senate report language which is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

TITLE I

DEPARTMENT OF AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

(RESCISSION)

The conference agreement recommends the following rescissions for the Department of Agriculture:

	Request	House bill	Senate bill	Conference
ANIMAL AND PLANT HEALTH INSPECTION SERVICE				
1. R92-35—Blackbird control, ND	$100,000	$100,000		
COOPERATIVE STATE RESEARCH SERVICE				
Buildings and Facilities				
2. R92-36—Animal care facility, ND	250,000	250,000		
3. R92-37—Building consolidation, RI	500,000	500,000		
4. R92-38—Facility road, ND	500,000		500,000	500,000
5. R92-40—Food processing plant, ND	375,000	375,000		
6. Other items	5,985,000			

	Request	House bill	Senate bill	Conference
Special Research Grants				
7. R92-44—Appalachian hardwoods, WV	750,000		750,000	750,000
8. R92-49—Integrated orchard management, VT	49,000	49,000	49,000	49,000
9. R92-50—Leafy spurge biocontrol, MT	125,000	125,000		
10. R92-51—Lowbush blueberry, ME	185,000	185,000

TITLE II

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES

DEPARTMENT OF COMMERCE

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT REVOLVING FUND

(RESCISSION)

The conference agreement rescinds $3,000,000 from the Economic Development Administration's Economic Development Revolving Fund. The Senate had proposed a rescission of $9,200,000 from the fund. The House bill contained no provision on this matter.

The amount rescinded by the conference agreement is excess to amounts needed to handle liabilities on outstanding economic development loan guarantees.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND CONSTRUCTION

(RESCISSION)

The conference agreement rescinds $3,000,000 from the fiscal year 1992 planning and construction grants appropriation for public television, radio and non-broadcast facilities. The House had proposed a rescission of $7,677,000 from this appropriation. The Senate bill contained no provision on this matter.

The amount rescinded by the conference agreement does not include any of the funds for the Pan-Pacific Educational and Cultural Experiments by Satellite Program (PEACESAT), the American Indian Higher Education Consortium or program administration provided under this heading in Public Law 102-140.

DEPARTMENT OF JUSTICE

IMMIGRATION EMERGENCY FUND

(RESCISSION)

The conference agreement rescinds $4,400,000 from the Immigration Emergency Fund. The House and Senate bills contained no provision on this matter.

This Fund was authorized in the Immigration Reform and Control Act of 1986 to provide for assistance as requested by the Attorney General in meeting an immigration emergency. A total of $35,000,000 was appropriated for this purpose in fiscal year 1990; however, to date no funds have been obligated. Over the past three years there have been a number of instances such as the recent one involving Haitian refugees, which were candidates for these emergency funds, and yet no funds were released. The conferees can find no compelling reason for maintaining this Fund at a level of $35,000,000 if the Administration is unwilling to use it.

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

ACQUISITION AND MAINTENANCE OF BUILDINGS ABROAD

(RESCISSION)

The conference agreement rescinds $6,025,000 from the $12,248,000 remaining for acquisition of a site for construction of a United States Embassy chancery in Kuwait. The Senate had proposed a rescission of the entire $12,248,000, remaining for this project. The House bill contained no provision on this matter.

This project has been cancelled, and the Secretary of State has informed the Appropriations Committees that "none of the funds previously appropriated for the project will be required". The State Department has submitted a proposal to the Appropriations Committees to reprogram the funds remaining for this project after this rescission is enacted.

RELATED AGENCIES

BOARD FOR INTERNATIONAL BROADCASTING

ISRAEL RELAY STATION

(RESCISSION)

The conference agreement rescinds $5,000,000 of the funds appropriated in Public Law 101-162 for the Israel Relay Station project. The House had proposed a rescission of $13,748,000 from the funds appropriated in that law for the project. The Senate bill contained no provision on this matter.

The amount rescinded by the conference agreement does not include any of the funds that have been obligated against any contract for this project.

TITLE II

DEPARTMENT OF DEFENSE—MILITARY

RESCISSIONS RECOMMENDATIONS

The conferees considered rescissions submitted by the Executive Branch totalling $7,005,700,000 for the Department of Defense activities funded in the Department of Defense Appropriations Act. The conferees agreed on rescissions totalling $7,097,395,000 instead of $4,810,789,000 as proposed by the House and $7,068,892,000 as proposed by the Senate.

OPERATION AND MAINTENANCE

The conferees agree to rescissions totalling $1,275,447,000 in operation and maintenance funding for fiscal year 1992. A summary of the adjustments, by appropriation account, is shown in the following table:

Summary of Operation and Maintenance Rescissions

O&M Army	$263,922,000
O&M Navy	268,091,000
O&M Marine Corps	7,166,000
O&M Air Force	283,998,000
O&M Defense Agencies	452,270,000
Total O&M	1,275,447,000

Rescissions affecting more than one service or defense agency are described immediately below. Details on the rescissions for each service and the defense agencies are shown under the appropriate heading in the Act.

Management headquarters—In the Fiscal Year 1992 Defense Appropriations Act, Congress reduced funding for certain management headquarters to ensure that personnel reductions in these activities kept pace with those in other programs. The conferees note that the Army and Navy have not fully implemented the reductions as Congress intended. Accordingly, the conferees agree to rescissions for the Army Chief of Staff, Secretary of the Army, and Secretary of the Navy headquarters activities in amounts sufficient to meet funding levels intended in the fiscal year 1992 Act.

Travel costs—In the fiscal Year 1992 Defense Appropriations Act, Congress also made reductions in temporary duty travel funding which have not been appropriately implemented by the military services. The conferees are adamant that unnecessary and non-mission travel by Pentagon officials and staff to seminars, conferences, and other non-essential activities be curtailed. As such, the conferees agree to rescind funding for non-mission travel programs in the Army, Navy, and Air Force.

Excess inventory—In light of the continued purchase and storage of excess and unrequired supplies by the Department, the conferees agree to rescind a total of $1 billion from the Operation and Maintenance accounts. This action is not intended to reduce the readiness of the military forces. To avoid potential adverse effects to readiness, the Department is directed to transfer from the Defense Business Operations Fund to the relevant O&M appropriations amounts sufficient to mitigate any adverse consequences to readiness-related programs that might otherwise occur from these rescissions.

The Committees on Appropriations of the House and Senate intend to fully examine the Department's excess inventory reduction plans and supply management programs as they deliberate on the FY 1993 Defense budget request.

Senior Executive Service (SES) employees—The conferees have agreed not to rescind funds for SES personnel reductions originally proposed by the Senate. The conferees, however, urge the military services and the Office of the Secretary of Defense to re-examine levels of SES employees planned for now and in the future. The conferees note that, in order to avoid becoming management "top heavy", the Department must reduce SES employee levels at rates consistent with reductions occurring in other categories of civilian employees. The conferees believe, however, that reductions in SES employee levels should not inhibit the Department's efforts to convert general officer billets to civilian positions.

COORDINATED CARE IMPLEMENTATION

The conferees have agreed not to rescind $50,000,000, as proposed by the House, for the implementation of the Coordinated Care Program (CCP) for the Department of Defense health care system. The conferees have further agreed that the Department may proceed with implementation of CCP, only after changes as noted below are implemented.

The conferees direct the Department to continue to use positive incentives, rather than negative incentives, for enrollment in managed care plans. The conferees believe that the use of increased deductibles, "lock-out" from military treatment facilities for beneficiaries who decline enrollment, and the elimination of Preferred Provider Organizations, (PPOs) are not in the best interests of either the beneficiaries or the Department of Defense.

The conferees further agree that, in order to assure a full demonstration of the health care model now in use in the CHAMPUS Reform Initiative (CRI) in the States of California and Hawaii, it is premature to change that model. The conferees direct the Department to modify the current Request for Proposals for follow-on services to CRI in the two States to preserve the CRI model, benefits, and management design now in operation.

The Department is encouraged to include regionally oriented managed care programs, such as CRI, in the new Coordinated Care Program.

PROCUREMENT

WEAPONS AND TRACKED COMBAT VEHICLES

M1 TANK

In its rescission messages forwarded on April 9, 1992, the Administration proposed rescinding a total of $421,300,000 associated with the M1 tank program. Of this amount, $196,300,000 was intended for production of 60 tanks, and the remaining $225,000,000 to initiate a tank upgrade program to modernize and replace the armor, cannon, and electronics of early model M1's. The House did not address this issue. The Senate agreed to rescind the funding associated with new tank production, while rejecting the proposed rescission of tank upgrade funds.

The conference agreement rescinds $196,300,000 as proposed by the Senate. The conferees note that these funds, for new production tanks, were provided last year based on the belief that a limited buy of tanks was needed in order to prevent production breaks while a transition to the tank upgrade program was underway. Current information suggests these "gap filler" tanks are no longer needed. Absent this need, the conferees agree with the position of the Secretary of Defense that there is no need to add to the size of the current M1 inventory.

This decision should be in no way construed as a diminution of Congressional support for an M1 upgrade program. For the past two years the Congressional defense committees have been unanimous in their support for a tank upgrade program. The Defense Authorization and Appropriations Acts for both fiscal years 1991 and 1992 contained both funding and direction to the Department of Defense in this regard.

The Department of Defense and the Army have ignored this direction and refused to initiate a tank upgrade program. Prior to this year the Department's objections were couched largely in terms of affordability in light of the Army's plan to develop a new generation tank, called the Block III, as part of its Armored Systems Modernization program.

The Block III program has now been all but abandoned, in concert with the Department's "new acquisition strategy" emphasizing research and development, prototyping and selective upgrades of existing equipment in lieu of full scale production of new hardware. As a consequence, U.S. production of M1A1 tanks will cease next year, with no follow-on system under development. Since no replacement tank program is contemplated for at least 15 years, the United States will lose the existing tank manufacturing industrial base unless action is taken to maintain it.

The conferees believe the M1 upgrade program as proposed by Congress is consistent with the aims of the Department's new acquisition strategy. Over 40 percent of the existing M1 inventory is comprised of early models which lack the 120mm cannon, heavy armor package, chemical warfare protection, and other improvements found in the newer versions. As is well known, the Army chose to replace first generation tanks with more modern 120mm-equipped M1A1 tanks before the ground war began in Operation Desert Storm.

Moving forward with an upgrade program would increase the overall operational effectiveness of our tank inventory at a reasonable cost while preserving the critical skills which are unique to main battle tank production. Given the demise of the Block III tank program, the conferees believe the need for an M1 tank upgrade program has clearly increased.

Therefore, the conferees reject the proposal to rescind the $225,000,000 slated for the tank upgrade program. The Department is directed to initiate this effort with first priority given to structuring a plan to upgrade the cannon, armor, and electronics on the oldest M1 variants, consistent with previous Congressional direction. The conferees are aware of options being discussed by the Department which involve upgrades to the M1A1 and register their opposition to any such option being the focus of the upgrade program.

The conferees expect the Department to begin the upgrade program as soon as is practicable and will not tolerate continued resistance by the Department. The conferees expect full compliance with this direction, the requirements levied in the conference report accompanying the fiscal year 1992 Defense Appropriations Act, and the requirements of the Budget and Impoundment Control Act of 1974, as amended.

SHIPBUILDING AND CONVERSION, NAVY

SSN-21 SEAWOLF

The conferees agree to rescind $1,150,000,000 from the SSN-21 Seawolf program. This amount restores the $1,075,700,000 proposed for rescission from fiscal year 1991 funds. In addition, the agreement provides $540,200,000 in funds proposed for rescission from fiscal year 1992 from the Seawolf program. The conferees make these funds available to be used by the navy to help preserve the industrial base for submarine construction. The conferees direct the Secretary of the Navy to use these funds either to provide advance procurement for the third Seawolf submarine (SSN-23) or to restart the SSN-688 program, or any other approach he deems to be most beneficial in preserving the current submarine industrial base.

OTHER PROCUREMENT, NAVY

INSTALLATION OF EQUIPMENT

The conferees agree to rescind a total of $330,000,000 of previously appropriated funds for the installation of equipment. These funds had been appropriated for the installation costs related to a wide variety of equipment which is procured in the Other Procurement, Navy account. As stated in the bill, funds are rescinded from the following years:

FY 1990	$100,000,000
FY 1991	130,000,000
FY 1992	100,000,000

This is a one time action by the Congress and the conferees agree that the installation costs should be provided in the outyears in the same year that funds are provided for the equipment which is to be installed.

FIREFIGHTING EQUIPMENT

The conferees agree to rescind, without prejudice, $15,000,000 of the funds appropriated within the fiscal year 1992 Defense Appropriations Bill for Navy firefighting equipment. This action is taken as a result of poor obligation performance by the Navy in fiscal years 1990 and 1991 within this program. However, it is not the intent of the conferees to delay the Navy's program to procure voice projection units for its oxygen breathing apparatus.

AIRCRAFT PROCUREMENT, AIR FORCE

B-2

The conferees have agreed to rescind $500,000,000 from the B-2 program instead of $1,000,000,000 as proposed by the Senate and no rescission as proposed by the House. The rescinded funds are from the $1,000,000,000 appropriated in fiscal year 1992 for the sixteenth B-2 aircraft. That funding is unavailable for obligation until certain program objectives have been met. The Air Force estimates that those objectives will not be met until June 1993 at the earliest.

It is the conferees' understanding that the $500,000,000 remaining available for the sixteenth aircraft will be sufficient to procure the vehicle but not all support equipment and related expenses. The Air Force is directed to take action as necessary to reduce costs in the B-2 program, especially for support and related expenses.

The conferees' action does not represent a change of position on the B-2 program. The Committees on Appropriations will review support and related costs necessary for the sixteenth aircraft and pledge to provide adequate funding for that purpose at a later time.

MISSILE PROCUREMENT, AIR FORCE

ADVANCED CRUISE MISSILE (ACM)

The Senate proposed rescinding $344,000,000 of fiscal year 1992 appropriated funding for the Advanced Cruise Missile (ACM) procurement program as a result of the recent decision by the President to terminate the program after the procurement of 520 missiles. The House recommended the rescission of $130,000,000 in ACM procurement, $12,000,000 for ACM modifications, and $22,642,000 for ACM spares and repair parts. The conferees have agreed to a rescission of $344,000,000 within the fiscal year 1992 annual ACM procurement program.

The Air Force is specifically directed by the conferees to use the remaining fiscal year 1992 funding (1) to complete the procurement of the fiscal year 1987 and 1988 missiles, (2) to pay for all negotiated termination liabilities and contractor closeout costs, and (3) as funds are available, to provide for all necessary spare parts and support costs for the 520 operational missiles. These support costs should include the 72 ACM engines currently on contract, completing the 520 operational missiles plus spares. If additional funds are needed beyond fiscal year 1992 to continue the long term support of the ACM inventory, those funds should be budgeted for in the year they will be expended.

The Air Force shall submit to the Committees on Appropriations not later than September 1, 1992 a new cost benefit analysis concerning in-house vs. contractor depot support for the ACM missile program. It is the belief of the conferees that at 520 missiles, it may be economical for the Air Force to invest in an organic depot capability which could be competitively procured with potential savings.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conferees agree to rescind $1,583,906,000 from the Research, Development, Test and Evaluation appropriations in fiscal years 1991 and 1992. Unless specifically addressed in the House and Senate reports, the rescissions are made for the following reasons: poor budget execution, cancelled or restructured programs, contract delays, lack of Office of Secretary of Defense approval or low priority. Reductions to certain special access programs are explained in a classified annex accompanying this report.

TERMINATION COSTS

The conferees recognize that the Defense Department requires additional time to fully identify termination costs for certain programs from which funds have been partially rescinded in this Act. Once such costs have been identified, audited, and negotiated the Committees on Appropriations will entertain regular reprogramming requests on an expedited basis should subsequent funding adjustments become necessary.

ADHERENCE TO PREVIOUS COMMITTEE DIRECTION

None of the funds identified for rescission may be rescinded from Congressional interest items as indicted in House, Senate, or conference reports by the Appropriations or Armed Services Committees of Congress, unless specifically addressed in this report. No rescission may be applied to projects for which funds have been specifically earmarked in law or in report language, unless this Act or report specifically modifies such earmark. No rescission is intended to remove or relax the requirements stated on DD Form 1414, Base for Reprogramming Actions. No action recommended in this report shall be construed as modifying report language direction or guidance contained in any of the fiscal years 1991 and 1992 reports by the Appropriations Committees, unless the language is specifically modified in this report.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

TRIDENT II

The conferees agree to rescind $15,500,000 which the Navy no longer plans to use for the purpose for which it was appropriated. The action terminates the old Submarine-Launched Ballistic Missile Effectiveness Enhancement Program, which was undertaken to counter the former Soviet threat. The conferees understand that the Navy has proposed alternative uses for these funds. DOD regulations require a new start prior approval reprogramming request to Congress, should the Navy elect to pursue them. The bill language for this rescission specifically prevents its application to the $15,000,000 which Congress appropriated only to implement improvements identified by the Drell Commission.

RESEARCH DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

ICBM MODERNIZATION

The conferees agree to rescind $300,000,000 from the Small ICBM program and deny at this time the proposed use of $15,000,000 in unobligated funds to initiate the Minuteman III missile guidance upgrade program in fiscal year 1992. DOD regulations require a new start prior approval reprogramming request for initiation of such a program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE AGENCIES

DEFENSE NUCLEAR AGENCY

The conferees agree to rescind $15,000,000 due to fiscal constraints. This reduction may not be applied to the following programs: Superconducting Magnetic Energy Storage (SMES), the DECADE simulator, underground nuclear testing activities, or activities relating to Johnston Island.

CONSOLIDATED AIM-9 PROGRAM

The conferees agree to rescind $21,400,000, of which $19,400,000 is from the AIM-9R project and $2,000,000 is from the AIM-9X project. The conferees agree that the $3,000,000 remaining in fiscal year 1992 funds appropriated for the AIM-9X project may be obligated only for the following purposes: cost and operational effectiveness analyses, systems engineering studies, and operational analyses to define opimum systems characteristics.

MANUFACTURING TECHNOLOGY/INDUSTRIAL PREPAREDNESS

The conferees agree to rescind $80,000,000, leaving $20,000,000 in the Office of the Secretary of Defense (OSD) Manufacturing Technology program. An additional $11,000,000 is available in the OSD Industrial Preparedness program. None of these funds were requested in the Department of Defense's fiscal year 1992 budget request. The conferees direct from this total of $31,000,000 that $7,100,000 be reallocated only to the Army Industrial Preparedness program; $3,400,000 be reallocated only to the Navy Industrial Preparedness program; and $20,500,000 be reallocated only to the Air Force Industrial Preparedness program for service-unique projects identified in the DOD manufacturing technology master plan. Concerning the Air Force, the conferees agree that logistics projects should be emphasized.

RESEARCH GRANTS

The conferees agree not to rescind a total of $115,900,000 for grants to 19 colleges, foundations, and universities as specified in Title IV of Public Law 102-172, However, the conferees recommend statutory language in section 302 amending the public law to provide the Secretary of Defense limited discretion in the award of these grants.

STRATEGIC ENVIRONMENTAL RESEARCH AND DEVELOPMENT PROGRAM (SERDP)

The conferees commend the Department of Defense's (DOD) productive efforts to coordinate individual service environmental projects and develop a SERDP program which will assist DOD in meeting its environmental obligations. The conferees, however, recommend rescission of $40,000,000 of the funds appropriated under Public Law 102-172 for the SERDP and $50,000,000 appropriated under Public Law 101-511 for SERDP due to program execution delays. The conferees direct that none of the available remaining SERDP funds be allocated to remote sensing projects.

REVOLVING AND MANAGEMENT FUNDS

The conferees agree to 91 rescissions totaling $310,100,000 in revolving and management funds, for fiscal year 1992. Of this amount, $230,000,000 is rescinded from funds available to the National Defense Stockpile Transaction Fund. The President proposed no rescissions for these accounts.

Pentagon Reservation Maintenance Revolving Fund—The conferees agree to rescind $80,100,000 of funds available to the Pentagon Reservation Maintenance Revolving Fund. These funds were to be used for refurbishing the Pentagon's heating and cooling system and purchasing a classified waste incinerator, as part of the overall scheme to renovate the building.

The conferees believe that further review of the Pentagon renovation plan is in order in light of the current military draw down. That plan calls for expanding the current housing capacity of the Pentagon by a net of approximately 800,000 square feet, an increase of net usable space of 21 percent. This is out of step with the Department's plans to reduce military forces by 25 percent and close and realign many military bases, and comes at at time when the Department has substantially curtailed military construction for programs other than those related to health, safety, and environment.

As deliberations on the fiscal year 1993 Defense budget request continue, the Committees on Appropriations of the House and Senate intend to work with the Department of Defense to develop a reasonable and supportable renovation plan for the Pentagon.

TITLE IV

ENERGY AND WATER DEVELOPMENT

RESCISSION

The conference agreement provides for the rescission of $4,350,000 as follows: $500,000 from General Expenses of the Corps of Engineers; $3,350,000 from General Science and Research Activities (Fermilab main injector) of the Department of Energy; and $500,000 from Departmental Administration of the Department of Energy as proposed by the House.

The conference agreement also deletes the rescission of $4,350,000 from two Corps of Engineers projects as proposed by the Senate and recommended by the Administration.

TITLE V

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS

MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL FINANCIAL INSTITUTIONS

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

(RESCISSION)

The conferees agreed to rescind $32,500,000 of fiscal year 1991 funds made available for the International Development Association but not obligated due to funding of certain loans to China as proposed by the House and Senate.

CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

INTER-AMERICAN INVESTMENT CORPORATION

(RESCISSION)

The conferees agree to rescind $4,000,000 of fiscal year 1992 funds for the Inter-American Investment Corporation as proposed by the Senate. The House had proposed a rescission of $2,000,000.

The conferees have been notified by the Administration that these funds were obligated and expended on April 28, 1992. The House and Senate made clear their intent to rescind prior to April 28, 1992. In similar circumstances, acting in good faith, both the Department of State and the Agency for International Development decided to withhold obligation actions concerning items under consideration for rescission by the Congress, pending final passage and signature on the rescissions bill. The conferees consider the actions of the Department of the Treasury to be in bad faith with the stated intents of the Congress.

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

(RESCISSION)

The conferees agree to rescind $100,000 of fiscal year 1991 funds as proposed by the House and Senate.

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

DEOBLIGATION/REOBLIGATION AUTHORITY

(RESCISSION)

The conferees agree to the proportionate rescission of $6,320,000 of certain bilateral economic assistance funds currently reobligated and available for reobligation as proposed by the House. The Senate had no similar provision.

DEVELOPMENT ASSISTANCE; ECONOMIC SUPPORT FUND

(RESCISSION)

The conferees agree to rescind $30,000,000 in prior year obligated, but unexpended funds, made available to the Agency for International Development prior to fiscal year 1986 as proposed by the Senate. The House had no similar provisions.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

(RESCISSION)

The conferees agree to rescind $64,054 of funds available to the Agency for International Development for operating expenses as proposed by the Senate. The House had proposed to rescind $40,975. The conferees direct that the reduction mandated by this rescission include a reduction of $25,300 in entertainment and representation expenses. The conferees also agree that the Administrator and Deputy Administrator of the Agency should utilize motor pool vehicles, rather than cars and chauffeurs dedicated to their sole use.

ECONOMIC SUPPORT FUND

(RESCISSION)

The conferees agree to rescind $1,100,000 in Economic Support Funds as proposed by the House. The Senate had no similar provision. The conferees believe that the proposed Tunisian agricultural export promotion project was not sufficiently justified. The conferees take no position in regard to overall Tunisian assistance levels in taking this action.

INTERNATIONAL FUND FOR IRELAND

The conferees agree not to rescind funds for the International Fund for Ireland as proposed by the Senate. The House had no similar provision. The conferees are concerned that it has taken almost two years to establish procedures for providing appropriated funds from the United States to the International Fund. Although actual expenditures to the Fund should be made on an as needed basis, the Agency for International Development has a responsibility to assure that obligation authority is provided to the Fund on a timely basis. Likewise, the Fund has a responsibility not to enter into legally binding financial commitments on the use of United States funds until a letter of obligation has been issued.

MULTILATERAL ASSISTANCE INITIATIVE FOR THE PHILIPPINES

(RESCISSION)

The conferees agree to rescind $20,000,000 from fiscal year 1992 funds for the Multilateral Assistance Initiative for the Philippines as proposed by the Senate. The House had no similar provision.

MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL MILITARY EDUCATION AND TRAINING

(RESCISSION)

The conferees agree to rescind $1,925,000 for the International Military Education and Training program as proposed by the Senate. The House had proposed rescinding $1,905,000. The conferees agree that reductions should be made to the maximum extent possible from funds programmed for Peru. The conferees agree that additional sums, as needed, should be taken from amounts programmed for Bahrain, Spain, Portugal, Korea, Thailand, Kenya, Guatemala, and Indonesia. The conferees have included bill language requiring the decrease of entertainment and representation expenses by $25,000.

FOREIGN MILITARY FINANCING PROGRAM

(RESCISSION)

The conferees agree to rescind $47,100,000 in the Foreign Military Financing program instead of $56,100,000 as proposed by the House and $39,015,000 as proposed by the Senate. The conferees have included bill language preventing the expenditure of fiscal year 1992 military assistance funds for Peru. The conferees agree that the Administration may distribute the additional reductions in country allocations. The Administration shall report that distribution to the Committees on Appropriations of the House and Senate. The conferees have dropped language concerning Turkey proposed by the House because the executive aircraft procurement proposed by the Administration has been withdrawn. The conferees also have included language decreasing administrative funds by $15,000. It is the intent of the conferees that this reduction be taken from funds permitted to be used for entertainment and representation expenses.

DEOBLIGATION/REOBLIGATION AUTHORITY

(RESCISSION)

The conferees agree to suspend the authority permitting reobligation of foreign military assistance funds for new purposes for the remainder of fiscal year 1992 as proposed by the House and Senate.

SPECIAL DEFENSE ACQUISITION FUND

(LIMITATION ON OBLIGATIONS)

The conferees agree to reduce the fiscal year 1992 limitation on obligations for the Special Defense Acquisition Fund by $40,000,000 to the level of $235,000,000 as proposed by the House and Senate.

MILITARY ASSISTANCE PROGRAM

(RESCISSION)

The conferees agree to rescind $6,750,000 of prior year funds remaining in the "Military Assistance Program" account as proposed by the Senate. The House has no similar provision.

The conferees agree to prohibit the disbursement and require the deposit of $5,760,000 into the miscellaneous receipts of the Treasury as proposed by the Senate. The House had no similar provision.

TITLE VI

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

NATIONAL RECREATION AND PRESERVATION

(RESCISSION)

The managers have agreed to rescind $987,000 appropriated in fiscal year 1992 for the Calumet Historic District in Michigan as proposed by the House.

CONSTRUCTION

(RESCISSION)

The managers have agreed to rescind $1,145,000 for National Park Service construction instead of $11,365,000 as proposed by the House and nothing as proposed by the Senate. Of this amount $375,000 is related to the Calumet Historic District in Michigan as proposed by the House and $770,000 is from the amount provided in fiscal year 1992 for the Lewis and Clark Trail Center in Nebraska. The House has proposed rescission of $1,154,000 for the trail center. With this action the managers agree that non-Federal sources must provide at least 50 percent of the costs to plan, design and construct trail centers. The National Park Service shall not release funds for each phase of trail center development until there is documentation showing the ability of non-Federal sources to meet the matching requirement for that phase.

The managers did not agree to rescission of $1,750,000 for the Council Bluffs National Trail Center, IA. Existing law specifically provides for a one-third non-Federal match for this trail center.

The managers did not recommend rescission of $7,700,000 for historic restoration projects in Perth Amboy, Trenton, and Paterson, New Jersey and $7,705,000 for the engineering and construction of the Burr Trail National Rural Scenic Road in Utah.

With respect to the Burr Trail, the original appropriation was made subject to authorization and no authorization has been enacted. The managers agree however that the Burr Trail money will be allocated for other purposes in Utah in conjunction with the 1993 appropriation.

URBAN PARK AND RECREATION FUND

(RESCISSION)

The managers have agreed that no Urban Parks and Recreation money will be rescinded. The Senate has proposed rescission of $4,937,000.

BUREAU OF MINES

MINES AND MINERALS

(RESCISSION)

The managers have agreed to rescind $987,000 from the Bureau of Mines as proposed by the Senate. These funds were appropriated for mine fire technology testing and equipment recovery at the Mathies mine in Pennsylvania, contingent on a dollar-for-dollar industry cost share. That cost has not been realized and the company involved has notified the Bureau that matching funds will not be forthcoming.

BUREAU OF INDIAN AFFAIRS

CONSTRUCTION

(RESCISSION)

The managers have agreed to rescind $5,987,000 in road sealing funds, as proposed by the Senate. The House had agreed to the amount proposed by the President, $8,593,000. However, the Department of the Interior later informed the Committees that the remaining actual obligated balance in this program was $5,897,000, and that is the amount that has been rescinded.

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

STATE AND PRIVATE FORESTRY

(RESCISSION)

The managers have agreed to a rescission of $19,000,000 in stewardship incentives/tree-planting funds appropriated in prior years. A total of $39,645,000 has been appropriated for this program over the last two years, most of which remains unobligated. Other cost-sharing funds, such as the conservation reserve program and the forestry incentives program, can contribute to the objective of planting more trees and enhancing stewardship of our nation's lands. Over $20,000,000 in SIP/tree-planting funding remains available for obligation.

DEPARTMENT OF ENERGY

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

(RESCISSION)

The managers have agreed to a rescission of $144,000 appropriated for the Office of the Federal Inspector for the Alaska Natural Gas Transportation System as proposed by the House instead of $144,590 as proposed by the Senate.

TITLE VII

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, EDUCATION, AND RELATED AGENCIES

GENERAL PROVISION

(RESCISSION)

The conference agreement rescinds one-half of one percent of fiscal year 1992 funds that would otherwise become available for obligation on September 30, 1992, with the exception of funds becoming available for Low Income Home Energy Assistance, Refugee and Entrant Assistance, the Community Services Block Grant, and Payments to States for Child Care Assistance. The House bill proposed to rescind one percent of the funds becoming available on September 30, 1992, except for Payments to States for Child Care Assistance. The Senate bill contained no similar provision.

The amounts rescinded are as follows:

Department of Labor:	
State Unemployment Insurance and Employment Service Operations (trust funds)	$62,000
Department of Health and Human Services:	
Health Resources and Services Administration	625,000
Centers for Disease Control	670,000
National Institutes of Health	2,875,000
Alcohol, Drug Abuse and Mental Health Administration	821,000
Human Development Services	125,000
Department of Education:	
Compensatory Education for the Disadvantaged	760,000
Impact Aid	10,000
Vocational and Adult Education	300,000
Student Financial Assistance	310,000
Higher Education	120,000
Education Research, Statistics and Improvement	5,000
Total rescission	6,683,000

PUBLIC HEALTH SERVICE

(RESCISSION)

The conference agreement rescinds $7,000,000 for personnel compensation and personnel benefits of the Public Health Service as proposed by the House. The Senate bill contained no similar provision. The conferees are agreed that reductions shall not be applied to staff increases specifically added by the Congress during consideration of the 1992 appropriations bill.

The conference agreement also rescinds $7,500,000 of Public Health Service evaluation funding made available pursuant to section 2711 of the Public Health Service Act. The Senate bill proposed to rescind $15,000,000 of evaluation funding; the House bill contained no similar provision.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF DENTAL RESEARCH

(RESCISSION)

The conference agreement rescinds $183,000 of funding for dental research rather than $365,000 as proposed by the Senate. The House bill contained no similar provision.

HEALTH CARE FINANCING ADMINISTRATION

PROGRAM MANAGEMENT

(RESCISSION)

The conference agreement rescinds $4,000,000 of trust funds provided as contingency funding for Medicare contractor operations. The Senate bill proposed to rescind $8,000,000 of contingency funding; the House bill contained no similar provision.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

(REPROGRAMMINGS)

The conferees are in agreement with language contained in Senate Report 102-174 which identifies a number of inappropriate reallocations of fiscal year 1992 funds within Department of Health and Human Services appropriation accounts. These changes fall within the Department's own reprogramming guidelines and should only be carried out if approved through the normal reprogramming procedures.

DEPARTMENT OF EDUCATION

VOCATIONAL AND ADULT EDUCATION

(RESCISSION)

The conference agreement rescinds $1,000,000 rather than $2,000,000 as proposed by the Senate. The House bill contained no similar provision. The conferees are agreed that none of the funds currently available for vocational and adult education in fiscal year 1992 shall be used for "CHOICE" demonstration grants. These projects were not requested in the President's 1992 budget and no funds were added for this purpose by the Congress.

TITLE VIII

LEGISLATIVE BRANCH

CONGRESSIONAL OPERATIONS

(RESCISSION)

The conferees agreed to rescind $40,000,000, of which $20,000,000 is from funds available for official mail costs of the Senate, as contained in the Senate bill, and $20,000,000 is from funds available for official mail costs of the House, as contained in the House bill.

TITLE IX

DEPARTMENT OF DEFENSE

MILITARY CONSTRUCTION

(RESCISSION)

The conference agreement rescinds a total of $136,070,000 as proposed by the House instead of $136,148,000 as proposed by the Senate. The conferees agree that rescissions totaling $136,070,000 from fiscal years 1988 through 1992 shall be derived from the following projects:

Military Construction, Navy 1988–1992:	
Florida—Naval Coastal Systems Center Panama City: Underwater countermeasures fabrication facility	$1,000,000
Florida—Naval Air Station Pensacola: Dredging	1,200,000
Hawaii—Marine Corps Air Station Kaneohe Bay: Electrical distribution system improvements	1,400,000
Mississippi—Naval Construction Battalion Center Gulfport: Prepositioned war readiness material warehouse	1,500,000
Subtotal	5,100,000
Military Construction, Army National Guard 1988–1992:	
Mississippi—Camp Shelby:	
Automated record fire range	460,000

Tank trail	1,249,000
Subtotal	1,709,000
Military Construction, Defense Agencies 1989–1993:	
Germany—	
Kaiserslautern: Administrative facility	500,000
Subtotal	500,000
Military Construction, Air Force 1990–1994:	
California—Beale AFB:	
Dormitory	5,600,000
Upgrade alert complex	1,250,000
Alert crew facility	3,100,000
Germany—Hahn AB: Lantirn maintenance facility	220,000
Subtotal	10,170,000
Military Construction, Defense Agencies 1990–1994:	
Worldwide—Unspecified Locations: Contingency construction	10,000,000
Subtotal	10,000,000
Military Construction, Army National Guard 1990–1994:	
Michigan—Menominee County: Armory	1,041,000
Michigan—Berrien County: Armory	1,182,000
Oklahoma—Sand Springs: Organizational maintenance shop 6	329,000
Subtotal	2,552,000
Military Construction, Army Reserve 1990–1994:	
Indiana—Kingsbury: Army Reserve Center with maintenance facility	64,000
Minnesota—Arden Hills: Army Reserve Center with maintenance facility	485,000
Wisconsin—Fort McCoy: Army Reserve regional training site	100,000
Subtotal	649,000
Military Construction, Army 1991–1995:	
Germany—	
Kaiserslautern: Missile maintenance shop	5,000,000
Germany—Various locations: Wartime host nation support	2,500,000
Korea—K-16 Army Airfield, Yongsan: Flight simulator bldg	1,500,000
Subtotal	9,000,000
Military Construction, Air Force 1991–1995:	
California—Beale AFB: Dormitory	6,300,000
Subtotal	6,300,000
Military Construction, Defense Agencies 1991–1995:	
Pennsylvania—Defense Depot Mechanicsburg: Two general purpose warehouses	15,100,000
Worldwide—Unspecified Locations: Contingency construction	4,000,000
Unspecified minor construction	3,000,000
Subtotal	22,100,000
Military Construction, Army Reserve 1991–1995:	
Alabama—Mobile: Army Reserve Center with maintenance facility	200,000
Idaho—Boise: Army Reserve Center with maintenance facility	800,000
Mississippi—Vicksburg: Army Reserve Center with maintenance facility	1,100,000
Subtotal	2,100,000
Military Construction, Army 1992–1996:	
Virginia—Fort Lee: Finance/accounting office	4,650,000
CONUS Various—Yakima, Washington: Access road	4,200,000
Subtotal	8,850,000
Military Construction, Air Force 1992–1996:	
Overseas—Classified Location: MILSTAR Ground communications terminal	5,500,000
Subtotal	5,500,000
Military Construction, Defense Agencies 1992–1996:	
Worldwide—Unspecified Locations:	
Contingency construction	14,000,000
Unspecified minor construction	10,000,000
Subtotal	24,000,000
Military Construction, Army National Guard 1992–1996:	
California—Various Locations: Armory maintenance program	600,000
Subtotal	600,000
Military Construction, Air National Guard 1992–1996:	
Worldwide Unspecified Locations: Reprogramming allowance	306,000
Subtotal	306,000
Military Construction, Naval Reserve 1992–1996:	
Tennessee—Naval Air Station Memphis: Maintenance hangar	10,900,000
Subtotal	10,900,000
North Atlantic Treaty Organization Infrastructure 1992:	
NATO Infrastructure	15,734,000
Subtotal	15,734,000
Grand total, Military Construction	136,070,000

TITLE X

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES

DEPARTMENT OF TRANSPORTATION

(RESCISSION)

Rescinds $5,000,000 from Federal Highway Administration, bridges on dams and $5,000,000 from Urban Mass Transportation Administration, research, training, and human resources instead of $5,000,000 from Federal Highway Administration, bridges on dams and $5,000,000 from Federal Railroad Administration, local rail freight assistance as proposed by the House and $9,880,000 from Urban Mass Transportation Administration, research, training, and human resources as proposed by the Senate.

In implementing the rescission regarding funding for Urban Mass Transportation Administration, research, training, and human resources activities, the conferees suggest that the agency withhold any future obligations, grants or contract awards for fiscal year 1992 involving non-operational studies of privatization and/or contract awards, or obligations for the support of the PPTN, or similar grants issued under sections 6 and 8.

Further, the conferees direct that no funds be expended for the purpose of preparing privatization and/or competitive research studies and technical assistance privatization and/or competitive research studies and technical assistance to directly influence state legislatures and/or local transit agencies, commissions or governments with respect to their decisions as to the choice of public/private transit providers.

TITLE XI

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT, AND INDEPENDENT AGENCIES

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

HOUSING PROGRAM

HOMEOWNERSHIP AND OPPORTUNITY FOR PEOPLE EVERYWHERE GRANTS

(HOPE GRANTS)

(RESCISSION)

Deletes language proposed by the House and stricken by the Senate rescinding $14,400,000 from homeownership and opportunity for people everywhere grants.

HOME INVESTMENT PARTNERSHIPS PROGRAM

(RESCISSION)

Deletes language proposed by the House and stricken by the Senate rescinding $61,500,000 from the home investment partnerships program.

ANNUAL CONTRIBUTIONS FOR ASSISTED HOUSING

(RESCISSION)

Rescinds $597,000,000 from annual contributions for assisted housing, instead of $509,400,000 as proposed by the House and a total of $743,000,000 as proposed by the Senate. The House proposed a proportional reduction in all programs to achieve a rescission of $509,400,000,000 and the Senate recommended that its rescission of $743,000,000 would all come from section 8 contract amendments. Of the amount to be rescinded, $350,000,000 is to be taken from section 8 contract amendments, $100,000,000 is to be taken from nonincremental certificate (opt-outs and public housing demolition) and voucher (opt-outs, prepayments, and relocation) funds, and $147,000,000 is to be taken from preservation activities. From information available to the conferees, it does not appear that these funds will be needed for these purposes in fiscal year 1992. The conferees wish to make clear that the Secretary has discretion in determining how much of the $100,000,000 rescission is to be taken from nonincremental certificate activities and how much is to be taken from nonincremental voucher activities. None of the rescission is to be taken from funds available for 15-year public housing replacement certificates.

FLEXIBLE SUBSIDY FUND

(RESCISSION)

Deletes language proposed by the House and stricken by the Senate rescinding $11,700,000 from the flexible subsidy fund.

INDEPENDENT AGENCIES

ENVIRONMENTAL PROTECTION AGENCY

The conferees are recommending a rescission of $24,000,000 from the Environmental Protection Agency for fiscal year 1992. These funds are to be rescinded from the amounts available for contracts. The recommended rescission is approximately $725,000 above that proposed by the President. The amounts rescinded from each account described below are proportionate to the size of the contract level within that account.

The conferees agree that EPA is fraught with numerous contracting problems. After a number of inspector general reports, reports from the General Accounting Office (GAO), and congressional hearings regarding this matter, the agency is now instituting reforms. While the conferees applaud the efforts of the agency, much remains to be changed.

In rescinding funds from EPA, the conferees believe it is appropriate to make the reductions in the area of contracts. However, this bill does not address the many contracting issues currently under review. While further contract oversight will be necessary for any changes to be fully implemented, that issue and others will be fully addressed in the fiscal year 1993 appropriations bill.

ABATEMENT, CONTROL, AND COMPLIANCE

(RESCISSION)

Rescinds a total of $5,800,000 from the abatement, control, and compliance account instead of none as proposed by the House and $20,000,000 as proposed by the Senate.

RESEARCH AND DEVELOPMENT

(RESCISSION)

Rescinds a total of $2,100,000 from the research and development account.

HAZARDOUS SUBSTANCE SUPERFUND

(RESCISSION)

Rescinds $16,100,000 from the hazardous substance superfund account instead of none as proposed by the House and $20,000,000 as proposed by the Senate. This rescission is to be taken from Superfund's alternative remedial contracting system (ARCS). Based on reports by the inspector general and GAO, there are questions regarding the utilization, excessive overhead, and overcapacity of the ARCS contracts. Because the EPA inspector general has found many deficiencies in the ARCS contracts program, the conferees believe the reduction in Superfund should be taken in this program.

CONSTRUCTION GRANTS

(RESCISSION)

Deletes language proposed by the House and stricken by the Senate rescinding $24,000,000 from the construction grants account.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

RESEARCH AND DEVELOPMENT

(RESCISSIONS)

Rescinds $4,050,000 from research and development, instead of $4,000,000 as proposed by the House and $14,000,000 as proposed by the Senate. The conferees agree to rescind $1,500,000, the approximate balance available from space exploration studies; $600,000 from the National Aerospace Plane; $700,000 from the Climsat earth probe; and $1,250,000 from the Search of Extra-Terrestrial Intelligence program.

The conferees further agree that in connection with the funds rescinded from the National Aerospace Plane program, the agency may continue to provide technical assistance with NASA personnel to the Air Force as a part of the future management of the Program. NASA may also permit the Air Force to continue to use NASA facilities as required provided that the Air Force reimburses NASA for the cost of its use of these facilities.

NATIONAL SCIENCE FOUNDATION

RESEARCH AND RELATED ACTIVITIES

(RESCISSION)

The conferees agree to a general rescission in research and related activities of $2,000,000, subject to the normal reprogramming guidelines. This amount is in lieu of the Senate proposal to rescind $346,000 from the unobligated balances in 31 individual grant projects as proposed by the Senate. The House proposed no rescission in this area.

The conferees have agree to this rescission of $2,000,000 because it represents the approximate total amount originally awarded by the Foundation for the 31 research projects contained in the original Senate amendment. The conferees do not believe that these 31 awards represent a prudent use of taxpayer funds, particularly when the Foundation expects to turn down nearly 38,000 grant proposals in fiscal year 1992 due to insufficient appropriations. As a result, in connection with this general rescission, the conferees strongly urge the National Science Foundation to review the option of eliminating funds which remain unobligated for the 31 research projects contained in the original Senate amendment.

These awards are: "Middle Class Lawyers: The transformation of small firm practice"; "Monogamy and aggression"; "Holism in Psychobiology in the Twentieth Century"; "Affective Bases of Person Perception"; "The representation of Attitudes"; "Economic opportunity in urban America 1850-1870"; "A historic study of Japan's famous slogan 'Rich Nation, Strong Army' and its impact on Japanese Technology"; "Status attainment in Chinese urban areas"; "Firm age and wages"; "American perceptions of justice: An East-West collaborative study"; "Herd behavior: Micro-foundations and evidence from decision-making by firms and about the global environment"; "Analysis of mental computation performance and estimation strategy-use among Japanese students and curricular of these topics in Japanese schools"; "The timing of control and stock externalities in the presence of learning with application to global warming"; "Conflict paradigms and the instance theory of automization"; "Exemplar-based processing in social judgment"; "A history of applied science in France, 1801-1941"; "Emerging coalitions in the Soviet All-Union and Republican Legislature"; "Compensation system design, employment and firm performance: An analysis of French microdata and a comparison to the U.S.A."; "The structures and processes of building provisions: A case study of master-planned communities"; "The transformation of the large law firm in England: A comparative analysis"; "The evolution of optimizing behavior and of attitudes towards risk"; "Applying space technology to global change: Values, institutions and decisions"; "Traditional and non-traditional forms of popular religion in Sicily"; "Auctions with entry/exit decisions"; "Maintenance of a polymorphism in mating behavior in swordfish"; "The systematic study of Senate elections"; "The late prehistoric political economy of the Upper Mantaro Valley in Peru"; "Sexual mimicry of swallowtail butterflies"; "Song production in freely behaving birds"; "American legal realism, empirical social science and the Law professor's professional identity"; "Norms, self-interest and taxpayers' decisions: Adaption to 1986 tax reform".

In addition, the conferees are troubled by the selection process that was used to select these particular awards. Recent reports by the General Accounting Office and the Office of Technology Assessment have reflected general criticisms of the grant selection process and the conferees believe the NSF should take the necessary steps to address these complaints.

The conferees believe the Foundation should emphasize research that is focused on the fundamental laws and systems of science, that supports the nation's technological base, that supports the nation's economic competitiveness, and that improves the nation's mathematics and science education endeavors. As a result, the conferees direct the NSF to review its grant selection process and report to the Congress on how it intends to ensure that projects which do not meet these criteria go unsupported with taxpayer dollars in the future. The conferees expect this report within 90 days of the release of the National Academy of Sciences current study of the Foundation's selection process.

TITLE CHANGE

The conference agreement further amends the title of the bill. The Senate amended the House title by deleting the phrase "for other purposes." and included mention that the rescissions were in response to the special rescission messages of the President pursuant to the Budget and Impoundment Control Act. The conference agreement limits the title to only "An Act Rescinding certain budget authority.".

CONFERENCE TOTALS

The total rescissions of budget (obligational) authority recommended by the Committee of Conference, with comparisons to the proposed rescissions, and the House and Senate bills follows:

Proposed rescissions[1]	−$7,862,772,690
House bill	−5,804,621,975
Senate bill	−8,275,034,644
Conference agreement	−8,158,305,054
Conference agreement compared with:	
Proposed rescissions	−295,532,364
House bill	−2,353,683,079
Senate bill	+116,729,590

[1] Proposed rescissions considered in the House bill totaled −$5,662,972,690.

COMPREHENSIVE NATIONAL ENERGY POLICY ACT

The SPEAKER pro tempore (Mr. ROEMER). Pursuant to House Resolution 459 and rule 23, the Chair declares the House in the Commitee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 776.

□1952

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 776) to provide for improved energy efficiency with Mr. SKAGGS in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose earlier today, the amendment offered by the gentleman from Tennessee [Mr. CLEMENT] was under consideration and had 32 minutes remaining.

Mr. MILLER of California. Mr. Chairman, I reserve the balance of my time.

Mr. BARTON of Texas. Mr. Chairman, I yield such time as he may consume to the gentleman from Utah [Mr. HANSEN].

Mr. HANSEN. Mr. Chairman, I rise in support of the Barton amendment on nuclear licensing reform. I believe passage of the Barton amendment is necessary to remove a threat to enactment of comprehensive energy legislation this year.

I want to commend the House leadership for moving so swiftly and decisively on scheduling this legislation. I also want to applaud the rapid action by the Energy Committee and the other committees that reviewed this bill over the past few weeks.

Mr. Chairman, we are all familiar with the drumbeat of public criticism of Congress these days. One of the main charges against Congress is that we are doing nothing to solve the serious problems facing the country. Sadly, I believe that much of this criticism is right on the mark. All too often, Congress talks about tackling national problems; and talks, and talks, and talks.

This is a good bill. It represents a broad consensus by environmentalists, industry, labor, and Federal and State regulators on a sweeping agenda. Steps are taken in H.R. 776 to increase energy production, improve energy security, and protect the environment. This bill was carefully developed over 3 years, and reflects a very deliberate and measured approach to energy legislation. This bill is a good sign to the American people that Congress is capable of taking action to solve some of our national problems.

President Bush promised to veto H.R. 776 if it includes the Interior amendment to prevent nuclear energy development in the United States. He has reiterated this threat a number of times over the past month, and I take the President at his word on this.

If you want to play games with the politics of this energy bill, go ahead and oppose the Barton amendment. You will invite a veto from the President, and we can all run around and point fingers at each other and try to a fix blame. However, if you want to begin to tackle the serious problems facing this country, you must support the Barton amendment.

This is a rare opportunity to act on a deliberate fashion on energy policy. In the past, Congress has only acted on energy policy in the wake of a serious energy crisis. Today, we can act to prevent a future crisis. The last time the Congress acted on energy legislation was 1978. The time for action is ripe.

I support the Barton amendment because it eliminates a poison pill in H.R. 776 and allows us to show the public that Congress can deal with important problems.

Mr. BARTON of Texas. Mr. Chairman, I yield such time as he may consume to the distinguished gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, I rise in strong support of the Clement-Barton amendment.

Mr. BARTON of Texas. Mr. Chairman, I yield 4 minutes to the distinguished ranking Republican member of the Committee on Energy and Commerce, the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Chairman, I rise in support of the amendment offered by Mr. CLEMENT and Mr. BARTON on nuclear power plant licensing reform.

There are a number of problems with the Miller provision on licensing. First, the Miller amendment in all practical respects requires a hearing after a brand new nuclear power plant is constructed. While the Miller provision does not per se require a postconstruction hearing, the threshold it establishes for triggering a postconstruction hearing is very low. Essentially, any allegation will pass muster and then a second hearing is started.

The provision of the gentleman from California [Mr. MILLER] on licensing also requires on the record adjudication for all proceedings regarding nuclear power plants. In other words, under this amendment the NRC has absolutely no flexibility to use informal procedures for issues that are best resolved informally, and although it is well known that formal adjudication is frequently not the best way to address safety concerns, this understanding is ignored by Mr. MILLER's licensing provision.

Third, the Miller provision on licensing makes any decision by the NRC not to take enforcement action reviewable by the courts. This reverses a well-known and longstanding principle of administrative law which holds that enforcement action is inherently discretionary, leaving it to the expert agency to decide when and whether to take enforcement action. This principle, I might add, is not just applicable to the NRC, but to all other agencies as well, and it is one that has been many times upheld by the courts.

Perhaps the most egregious problem with this provision is that it could compel, for example, the revocation of a medical facility or a power reactor's license for a minor regulatory infraction.

That is not the way in which to construct a sound national energy strategy.

I strongly support the Clement-Barton amendment on licensing reform because it does not burden the nuclear power plant licensing process, and, in addition, and this is, perhaps, a very important point, the Interior Committee's provision is definitely veto bait; the President has already stated in his letter of April 20, that he will veto an energy bill containing such a nuclear licensing provision. The Clement-Barton approach, on the other hand, is absolutely identical to the language adopted earlier this year in the other body, and that language is acceptable to the President.

So, Mr. Chairman, I would urge my colleagues to support true licensing reform as contained in the Clement-Barton amendment.

Mr. CLEMENT. Mr. Chairman, I yield such time as he may consume to the gentleman from Texas [Mr. GEREN].

Mr. GEREN of Texas. Mr. Chairman, I rise in support of the Clement-Barton amendment.

Mr. CLEMENT. Mr. Chairman, I yield 1 minute to the gentleman from Pennsylvania [Mr. MURTHA].

Mr. MURTHA. Mr. Chairman, I want to rise in support of the Barton-Clement substitute amendment because I come from coal country, and if it were not for this type of an amendment, it would stop nuclear power, and I know a lot of people think that we could go forward with it. But without this amendment all licensing would stop as far as nuclear power plants go, which means we do not have any clean air, which in the long run hurts the coal-producing areas. The only place we have been able to reduce imported oil, the only place, is by increasing the amount of coal and nuclear power that is used, and I would hope that we can make these adjustments so that we can go forward with nuclear power that would allow us then to burn more coal and reduce the amount of imported oil thereby preventing another war in the Middle East.

So, Mr. Chairman, I rise in strong support of the Barton-Clement amendment.

Mr. MILLER of California. Mr. Chairman, I yield 4 minutes to the gentleman from Pennsylvania [Mr. KOSTMAYER], the chairman of the Subcommittee on Energy and the Environment.

Mr. KOSTMAYER. Mr. Chairman, let me just say at the outset that I listened to my very good friend, the gentleman from Tennessee [Mr. CLEMENT], who talked about the nuclear plant in his State, Watts Barr, and so I went back and found out that the reason that Watts Bar is still not operating is that more than a hundred of their employees filed health and safety complaints with the Nuclear Regulatory Commission. No one intervened. There was no intervention. The reason that Watts Bar is not proceeding is because of a hundred workers who have complained about health and safety violations, some of whom undoubtedly live in the gentleman's——

Mr. SHARP. Mr. Chairman, will the gentleman yield?

Mr. KOSTMAYER. I yield to the gentleman from Indiana.

Mr. SHARP. Mr. Chairman, the point being under the amendment of the gentleman from Tennessee [Mr. CLEMENT] that would still happen today. There is nothing that the NRC has done or the House or Senate would do. Those are whistleblower issues. Those are not public hearing issues. Those are not intervener issues.

Mr. KOSTMAYER. There was, in fact, in the case of Watts Bar, no second hearing.

Mr. CLEMENT. Mr. Chairman, will the gentleman yield?

Mr. KOSTMAYER. I yield to the gentleman from Tennessee.

Mr. CLEMENT. Mr. Chairman, we are talking about 20 years now. I doubt very seriously whether a few employees would take up a period of 20 years when other nuclear plants in other countries can be built in 6 years, and the national average is 14 years in the United States, and now it is 20 years, and it will probably be 2 more years before we will satisfy those complaints.

□ 2000

Mr. KOSTMAYER. Mr. Chairman, reclaiming my time, I also wanted to respond to something my friend, the gentleman from New York [Mr. LENT], said, when he implied the second hearing would be automatic.

Mr. Chairman, the second hearing is not automatic. There are three pages of standards they have to meet, and it is entirely and solely within the discretion of the Nuclear Regulatory Commission as to whether or not there should be a second hearing.

Mr. Chairman, let me just say a couple of things and explain a little bit of background here as I have earlier in the debate. In 1989, the Nuclear Regulatory Commission promulgated a rule having to do with the licensing of nuclear plants. They really did essentially three things.

First, they decided there should be a one-step license, both for construction and operation of a plant, as opposed to two separate licenses, one for construction and one for operation. They did the right thing. They speeded up the process.

Second, they decided that all nuclear plants in the country ought to have a standard design. They are right. They did the right thing. That is a good decision.

Third, they wrote a provision, an early site provision, which allows a utility to request a site permit for a nuclear plant which is good for 40 years. That means if somebody in your community comes to you and complains about a nuclear plant that is about to be constructed, they are going to be told, "We are awfully sorry; they got permission to do that 40 years ago."

Now, the Clement-Barton language and the Interior language are almost identical on every issue except one, and it is that one issue which is in dispute this evening. Here is what that one issue is.

After a plant has been constructed, after all construction has been completed, if new and significant information is brought forth and the NRC decides it is new and significant, if it is brought forth, the NRC then gets to make the decision, and it is not mandated, then they get to make the decision as to whether or not there should be a hearing.

It is not mandated. It is up to the NRC. Only if the NRC decides that the information is new and significant, that is all we are saying, new and significant information as defined by the Nuclear Regulatory Commission would allow, if the NRC wanted it, a hearing between the time the plant is completed but before it is turned on.

The amendment offered by the gentleman from Tennessee [Mr. CLEMENT] and the gentleman from Texas [Mr. BARTON] would not allow that hearing.

So the important thing to remember is there is not fundamental disagreement between what the gentleman from Texas [Mr. BARTON] and the gentleman from Tennessee [Mr. CLEMENT] and the Committee on Interior and Insular Affairs language want to do. It is just this issue of, can the NRC, if they want to and if they think the information is both new and significant, can they call for a hearing.

I think the answer ought to be yes. But Barton-Clement would disallow that. The language which is in this bill would allow that under these very, very narrow and very limited circumstances.

Mr. Chairman, I urge the committee to stick by the Committee on Interior and Insular Affairs and adopt the language now in the bill.

Mr. GLICKMAN. Mr. Chairman, will the gentleman yield?

Mr. KOSTMAYER. I yield to my friend, the gentleman from Kansas.

Mr. GLICKMAN. Mr. Chairman, I agree with what my colleagues says. I think this is a reasonable public policy position to protect the public health and safety of people who live near and around new nuclear power plants, and does not interfere with the licensing process. So I support the committee position and oppose this amendment.

Mr. BARTON of Texas. Mr. Chairman, I yield such time as he may consume to the gentleman from Texas [Mr. FIELDS].

Mr. FIELDS. Mr. Chairman, I rise in support of the Clement-Barton amendment to H.R. 776. This legislation is essential to ensure that we have the required electricity—the most rapidly growing form of energy—to fuel economic growth in the coming decades.

While total energy use has increased a modest 9 percent since the 1973 oil embargo, U.S. consumption of electricity has increased by 54 percent. Nuclear energy played a key role in supplying this growth; 36 percent of all new electricity supplied since 1973 has come from clean, safe nuclear energy. Last year, nuclear energy produced more than one-fifth of all the electricity used by U.S. consumers.

Although nuclear energy is the most cost-effective and environmentally advantageous form of electric generation, it has been undermined by an outdated licensing process that has created uncertainties and significant delays in plant construction and operation. As average construction schedules lengthened, costs rose from about $400 million in the 1970's to as much as $6 billion in the 1980's. For many of the plants brought on line in the 1980's, interest and associated carrying costs represented approximately 50 percent of total plant cost.

Mr. Chairman, it is impossible to accurately predict how much new electric capacity will be required to meet future demand. However, it does seem obvious to most that new generation capacity is needed. Current plans for new plants—mostly fossil fuels—are not likely to meet projected needs. Even with our most optimistic projections for efficiency and conservation measures, this country is going to have to start planning for additional generation—and plan now. Nuclear energy must be a vital part of that plan.

Utilities know the economic advantages of nuclear energy. Industry studies predict that an advanced-design nuclear energy plant could supply electricity at an average cost of 4.3 cents per kilowatthour compared to 4.8 cents per kilowatthour for a coal-fired plant, 6.1 cents per kilowatthour for a gas-fired plant, and 8.1 cents per kilowatthour for an oil-fired plant.

The Nation will not be able to enjoy the economic and environmental benefits of nuclear energy until the licensing process for building new plants is overhauled. Congress needs to provide a stable regulatory process that provides public participation upfront, and minimizes the financial risks and scheduling uncertainties associated with past construction.

The licensing reform proposal by my colleagues, Mr. CLEMENT and Mr. BARTON, will provide the regulatory climate necessary to satisfy investors by putting the lengthy hearing process to determine design, site, and safety requirements before the start of construction. The proposal mandates that the NRC find that public health and safety are protected before the plants are allowed to operate.

Nuclear energy has a proven track record of providing safe, clean, economically competitive electricity. I strongly urge you to support the Clement-Barton amendment to allow this Nation to continue to benefit from a new generation of nuclear energy plants that will fuel the economy of the 21st century.

Mr. BARTON of Texas. Mr. Chairman, I yield 2 minutes to the honorable gentleman from California [Mr. MOORHEAD], the ranking Republican on the Subcommittee on Energy and Power of the Committee on Energy and Commerce.

Mr. MOORHEAD. Mr. Chairman, I rise to join with over 150 cosponsors on both sides of the aisle in support of the Clement-Barton nuclear licensing amendment now before us.

Adoption of this amendment is critical if we are to realize a national energy policy that meets the needs and the expectations of the American people. Our constituents want and deserve an energy policy that accomplishes several vital goals. A sound national energy policy should do the following:

Prepare us to meet the increasing energy demands of the future;

Increase our energy independence;

Make us more competitive internationally;

Create jobs;

Fuel economic growth; and

Ensure the safe and environmentally sensitive generation of power for all Americans.

I strongly believe that passage of the Clement-Barton amendment will help to accomplish all of these goals.

This amendment seeks to modernize our Nation's cumbersome and hopelessly outdated system for licensing nuclear power plants. There can be little question that such reform is necessary. The current system was devised nearly 40 years ago, when the nuclear industry was in its infancy and before most of today's nuclear power plants were even on the drawing boards. It just doesn't make sense today. And it has put the brakes on a vital industry that now provides us with one-fifth of all electricity generated in the United States.

Essentially, the current regulatory regime has been based on the archaic notion that nuclear power plants should be built on a case-by-base, design-as-you-go, trial-and-error basis. Under such regulation, construction permits have been issued on the basis of preliminary plant designs that were less than 30-percent complete. After construction, industry then had to obtain a second license to approve the completed design before operating the plant. This process has often resulted in years of non-productive and adversarial action between the licensee and the public, dramatically increasing the cost of plants by hundreds of millions of dollars.

Of course, we know who ultimately pays for the increased costs of this cumbersome process: the American electricity consumer.

That kind of approach may have made sense when the technology was still in its unproven, experimental stage, Mr. Chairman, but it doesn't make sense today. Clearly, it's time to move America's energy industry forward toward a system that relies on standardized, safe designs of nuclear power plants.

Under the Clement-Barton amendment, reactor manaufacturers will be able to apply for pre-approval certification of standardized reactor designs. Unlike current law, those designs must be sufficiently complete to allow final resolution of all design safety issues in advance. This way, the public and the Nuclear Regulatory Commission can review and resolve all safety questions early on.

Any citizen can petition the NRC to reverse its approval should information become available that was not considered during the review. Further, the public can contest the outcome in court.

Potential licensees must then identify and receive a permit for a site for the later construction of a plant if they can determine that the basic characteristics of that site are amenable to such future construction. Public hearings are mandatory and again, any citizen can appeal the process.

License applicants must then obtain a combined license to construct and operate a certified safe design at a preapproved site before plant construction begins. Construction conformance with license requirements would be assured by specific inspections, tests, analyses and acceptance criteria outlined in the combined license. As before, public hearings would be held and any citizen can contest the eventual decision.

Finally, once a plant is completed, the Nuclear Regulatory Commission is then required to find that all license requirements have been met.

Clearly, the Clement-Barton amendment provides the public with abundant opportunity to become involved—and challenge, if they so desire—industry's plans to construct a power plant at every step of the way. Viewed together, the public has the opportunity for at least two formal and two informal hearings in this process. For good cause determined by the NRC, the process could result in four formal hearings. In addition, at least three opportunities exist for the public to raise new safety issues that arise after formal NRC action. In each case, the decision of the commission is subject to judicial review.

Essentially, while the current process allows for potentially lengthy, adjudicatory hearings after construction is complete but prior to operation, the Clement-Barton process provides the public with the opportunity to weigh in on all aspects of a new plant, including design, siting, size, cost, safety components, et cetera, before any concrete is poured. That makes sense both from an economic as well as a public safety standpoint.

Adoption of this amendment will likely lead to increased investment in the nuclear energy industry, sparking the creation of more jobs and economic growth across the country. That is one of the reasons why this amendment is strongly supported by the International Brotherhood of Electrical Workers.

Increased investment in nuclear energy generation is also essential if we are to meet future energy demands. It is estimated, for example, that—even with increased demand-side management of electricity usage—there will be a need to construct up to 150,000 megawatts of baseload generating capacity by the end of the next decade to meet increased electricity demand. We must have a viable nuclear energy industry if we are to meet those needs.

Mr. Chairman, I believe that it is time we move forward to a nuclear licensing process that encourages standardized plant design. Without such legislation, the nuclear energy option we desperately need for a balanced, comprehensive, and environmentally sound energy strategy will remain closed. I strongly urge my colleagues to vote "yes" on the Clement/Barton amendment.

Mr. CLEMENT. Mr. Chairman, I yield 30 seconds to the gentlewoman from Tennessee [Mrs. LLOYD].

Mrs. LLOYD. Mr. Chairman, I rise in support of the Clement-Barton amendment. My colleague the gentleman from Tennessee, has been diligent and persistent in his efforts to standardize plant design and provide for a reasonable regulation process, and I commend him for this.

The Clement-Barton amendment will bring some sanity to the licensing process and provide guidance so that the utilities can make reasonable plans. The measure also provides protection for the public health and safety. I applaud the innovative approach requiring up-front notice by the NRC of the inspections, tests, analyses, and acceptance criteria.

Mr. Chairman, I urge my colleagues to support the Clement-Barton amendment.

Mr. CLEMENT. Mr. Chairman, I yield 1 minute to the gentleman from Alabama [Mr. HARRIS].

Mr. HARRIS. Mr. Chairman, I rise today in strong support of the amendment offered by my colleague, Congressman CLEMENT, that will reform the nuclear licensing procedure.

This amendment would require that the lengthy hearing process to determine design, site, and safety requirements should be completed before the construction of a new nuclear power facility. After the construction of a plant, the NRC would be required to find that public health and safety are protected before the plant can begin operation.

This amendment will streamline the licensing procedure and encourage more nuclear plants to open in the future.

Nuclear power currently supplies a significant amount of the electricity used in the United States. For instance, in my home State of Alabama, we have a nuclear power plant in Dothan that is rated as one of the most reliable nuclear generators in the Nation.

I urge my colleagues to support this amendment to ensure that nuclear power continues to be a viable option in the future.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from New Jersey [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Chairman, I am astounded by what I see before us. I guess some of my colleagues have not been back in their districts. Did you ever try to site recently any kind of facility, a garbage burning facility, a landfill, a storage facility, a transfer facility? The people do not trust the system.

Now you are going to ask them if we accept this amendment to accept a license that goes on beyond their children's lifetime, 20 years, renewable to 40 years.

Cities that do not exist will have cropped up in the intervening time. Technology, our understanding of radiation, our understanding of waste storage, of transporting waste, will have evolved.

Think how much we have changed in the last 40 years. If we knock out the provisions in the bill, we are allowing the NRC to give a license that, with a wind and a nod, will last 40 years.

Do we not owe our constituents an honest opportunity to have a dialog? Is the industry so frightened by the prospect of having the public intervene that they cannot sustain an open dialog?

It seems to me that when we narrow the public's participation, when we restrict the public access to the debate, what we end up with is a public that is even more suspicious of the regulatory process and where we are going.

The way to help nuclear power is not to convince the public that the hearings cannot stand the light of day, that the public cannot have an opportunity to review. We ought to make sure the public feels comfortable and that they are not being taken 10 or 20 years in advance of the review; that the public, if it has real information, that the public has an opportunity to reenter the process.

□ 2010

Mr. BARTON of Texas. Mr. Chairman, I yield 1 minute to the gentleman from Arizona [Mr. RHODES], a distinguished member of the Committee on Interior and Insular Affairs, where the Miller language that is in the bill was originally put in place.

Mr. RHODES. My colleagues, make no mistake about it. The Barton-Clement amendment does not proscribe public participation in the licensing and relicensing process. The public's participation is guaranteed in the Barton-Clement amendment.

The issue here is one of NRC discretion.

The gentleman from California [Mr. MILLER] pointed out the very basic similarities between the Miller proposal and the Barton-Clement proposal. They are the same, and they preserve the NRC's discretion as to how they will handle the participation of the public right up until the very end, right up until the plant has been built and it is time to turn the switch on.

Then if an intervenor comes in and raises significant issues which are at a very low threshold, the NRC is required by the Miller-Kostmayer provisions to hold a full adjudicatory hearing, which will last 2 to 4 years, 2 to 4 years after the plant is built.

All Barton-Clement does is say that the NRC has the discretion at that time to determine what kind of a hearing will be held. It has the full discretion to hold a full hearing. It has the full discretion to determine how operational licensing will proceed.

Mr. CLEMENT. Mr. Chairman, I yield 1 minute to the gentleman from Alabama [Mr. CALLAHAN].

Mr. CALLAHAN. Mr. Chairman, I rise in support of the amendment. I believe passage of the Clement-Barton licensing amendment is necessary to maintain U.S. nuclear energy development.

Nearly 40 years ago, the Congress established our nuclear licensing process through enactment of the Atomic Energy Act of 1954. That law has remained largely untouched since its enactment, and John Kennedy was President the last time the act was changed.

The licensing process established at that time was designed for a prototype technology. It made sense in 1954 to require that decisionmaking take place after plant construction because it was impossible at that time to determine before construction whether a plant design guaranteed public health and safety.

The current situation is radically different than it was in 1954. There are over 100 nuclear plants operating in the United States and well over 400 worldwide. In this country alone, we have over 1,700 reactor years of experience with nuclear energy. Given this experience, Federal regulators are able to evaluate the safety of plant designs based on detailed design information only. The safety of designs can and should be determined before plant construction. This approach assures that designs that do not provide an adequate level of safety are never constructed and plants that meets this standard are not delayed unnecessarily.

Nuclear energy is no longer a prototype technology, and the licensing process must be updated and brought in line with changes in technology. The technology of nuclear energy is now mature and the regulatory regime should reflect changes since 1954.

Mr. Chairman, I urge support for the Clement-Barton amendment.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Chairman, I would like to associate myself with and underline the remarks of the gentleman from Pennsylvania [Mr. KOSTMAYER].

I think that it is important that Members know what administration officials told us about the real-life implications of this amendment when we held subcommittee hearings on this issue last year.

Responding to a hypothetical situation that I posed, the witnesses gave us an idea of the limits on public participation that would result if this amendment is adopted.

Let's assume that a utility in your district obtains from the NRC a combined license—construction and operation—to build a nuclear power plant. Six years later, the plant is finished.

But in the meantime, scientific studies show the existence of a seismic fault near the plant, and chances of an earthquake are greater than was known when the license was granted.

Or, somewhat less dramatic than that, let's say that the population in your district grows dramatically—it did in mine—during the 6 years that the plant was being built. You have many more schools, nursing homes, day care centers, and there is serious question as to whether the emergency plan that was approved when the license was granted will do the job.

Let us say that the NRC decides that this new information is not significant and they want to allow the plant to begin operation. Under this amendment, your constituents would be denied the right to a formal hearing on these issues.

They would only be entitled to raise their issues through a petition process.

We learned at the hearing that over 320 of these petitions have been submitted to the NRC. And do you know how many were granted a hearing by the NRC?

Two, just 2 out of 320. Those are very long odds.

The provisions of this bill do nothing more than codify the findings of a Federal court that the NRC's rules limiting public participation were too restrictive.

The nuclear power industry has a public relations problem, not a licensing problem. And it is not going to improve its image by working to further restrict public involvement.

This is an unnecessary amendment, it is a dangerous amendment, and I urge its defeat.

The CHAIRMAN. The Chair would advise that the gentleman from Tennessee [Mr. CLEMENT] has 2½ minutes remaining, the gentleman from Texas [Mr. BARTON] has 4 minutes remaining, and the gentleman from California [Mr. MILLER] has 7 minutes remaining.

Mr. BARTON of Texas. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Michigan [Mr. HENRY].

Mr. HENRY. Mr. Chairman, I rise in strong support of the amendment.

I would simply point out to its critics something they have failed to mention. The problem with the committee language is very clear and evident. For all the reforms in the one-step construction and operating process, it breaks down because they failed to deal with the problem of the intervener, which forces the NRC to 2- and 4-year judicial proceedings even when old and insignificant information is raised.

Members object and say, well, the NRC will not take up an intervention if new and significant information is raised. Where does the NRC come from? These Commissioners are nominated by the President, confirmed by the Senate. Do my colleagues think that does not change over 40 years? Do my colleagues not trust any President? Do they not trust any Senate? Is that why they are opposing the language the Senate itself approved?

I do not think we ought to be so conspiratorial in this body. I do not think we ought to force any regulatory commission on principle, force its hand into an adjudicatory process even when demonstrably all they have is old and insignificant information before them.

Mr. CLEMENT. Mr. Chairman, I yield 1 minute to the gentleman from Oklahoma [Mr. BREWSTER].

Mr. BREWSTER. Mr. Chairman, I rise in support of the Clement amendment on nuclear licensing reform. I believe this amendment will establish a rational system for licensing nuclear plants that protects the rights of public participation and judicial review.

I have heard some inaccurate criticism of the Clement amendment offered here on the floor and from activist groups. One change is that the Clement amendment would establish a one-stop or one-step nuclear licensing process.

That is simply wrong. The Clement amendment requires there be a minimum of three major licensing steps. First, the Clement amendment guarantees a public hearing on the early site permit. Second, the Clement amendment guarantees a public hearing on design certification. Third, the Clement amendment guarantees a public hearing on combined construction permit and operating licenses. That is three steps, not one.

Further, the Clement amendment provides, as a matter of right, a preoperational hearing upon a good faith showing that a nuclear plant was not constructed in conformance with its combined license. That would be four steps and four hearings, not one.

Some have charged that this opportunity for a preoperational hearing is too limited and that a preoperational hearing should be granted on demand. I disagree. There is no unfairness in asking people to provide some basis for a preoperational hearing. A right to a preoperational hearing based on a good faith showing that there is a potential safety problem with a completed nuclear plant will enhance the safety of nuclear plants. In contrast, a right to a hearing on demand does nothing to improve the safety of nuclear plants and only causes pointless delay.

The plain fact of the matter is that the licensing process has failed in the United States. The average cost of U.S. nuclear plants built in the 1980's was $3 billion; twice the cost of nuclear plants in France. The reason is simple: it took 8 years to build a U.S. nuclear plant, and only 5 years to build a French plant.

According to some estimates, the Clement amendment makes it possible that nuclear plants can be built and operating within 8 years. While this is still a lengthier process than other successful and safe permitting procedures, it is a significant improvement over the current system.

I urge my colleagues to support the Clement amendment.

Mr. MILLER of California. Mr. Chairman, I yield 1 minute to the gentleman from Kansas [Mr. GLICKMAN].

Mr. GLICKMAN. Mr. Chairman, let me tell my colleagues why the public safety could be threatened if we adopt the Clement-Barton amendment. Let us say we are late in the process of building a plant. A joint operating-construction license had been granted. The plant is either built and ready to go on line full speed or close thereto and a problem is found and it could be a serious problem.

The pressure will be there to open that facility, to move it, to get the electricity going. The NRC will be under great pressure to go ahead and approve without any formal hearing whatsoever. Billions of dollars may have been invested by that nuclear power plant and may be involved. Financial pressures are to go, move, get on line.

But the public safety is also threatened as well. I learned in law school under the theory of negligence that the risk to be perceived defines the duty to be obeyed. The risk in this case is quite high. Therefore, the duty is to permit that public hearing, even at a late stage of the proceedings, in order to make sure that some catastrophic event will not happen.

For that reason, I think we ought to stick with the bill of the Committee on Interior and Insular Affairs and vote against the Clement-Barton amendment.

Mr. BARTON of Texas. Mr. Chairman, I yield such time as he may consume to the distinguished gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Mr. Chairman, I rise in strong support of the Clement-Barton amendment.

Mr. BARTON of Texas. Mr. Chairman, I yield myself such time as I may consume.

□ 2020

Mr. BARTON of Texas. Mr. Chairman, the last nuclear power plant to be ordered in this country, constructed and go into operation, was ordered in 1973. Since that time around the world 248 nuclear power plants have been ordered constructed or are now producing clean, safe, reliable electric power. Eighty-five additional nuclear power plants have been ordered and are under construction around the world.

The Barton-Clement amendment reestablishes the option to consider the construction of nuclear power plants in this country; it does not guarantee, it just reestablishes the option. Under Barton-Clement, we have the pre-site approval, which is NCR rulemaking No. 52. We have the standardized design, which is currently underway, and we hope to have at least two standardized designs by 1994.

To my left is one of those designs that is currently being built in Japan right now and will be operational in less than 5 years.

We have the identical language that is in the Senate bill that was passed 94 to 4 several months ago. We have the option for an additional hearing at any time, at any time, in addition to the three adjudicatory hearings that are already guaranteed under Barton-Clement. This optional hearing can be a formal adjudicatory hearing, it can be an informal hearing. But if such a hearing is granted under the one-step licensing process under Barton-Clement, the granting of that hearing does not automatically stop the operation or the construction of the plant.

The NRC has gone on record opposing the language that is in the committee print. I have a letter from the NRC Commissioner which I will submit for the RECORD. The Secretary of Energy has gone on record opposing the Miller language. The President of the United States has said he will veto the bill if the Miller language is in a bill that is presented for his signature.

Do not be under any misunderstandings. This is a clear up and down vote on whether we want to maintain the option of nuclear power in this country. Vote "yes" for Barton-Clement and that option is alive. Vote "no", that option is dead. It is that simple.

I cannot believe this Congress would go on record and say, "We do not want to at least maintain the option to build safe, reliable nuclear power plants in this country."

Mr. Chairman, I include for the RECORD the following survey results and letters:

The only way to get a full picture of any issue is to ask a wide range of questions. Special interest groups often highlight one question to make their point. However, no one question can describe public opinion on nuclear energy.

Public support for renewable energy technologies is very strong. And the public believes we must use energy as efficiently as possible before we build more electric plants of any kind. Support for these policy options does not imply public opposition to nuclear energy. The public expects nuclear energy to help meet our electricity needs into the future. For example:

81% expect that nuclear power will play an important role in meeting our future electricity needs (Cambridge Reports, Nov. 91).

73% believe nuclear power should play an important role in meeting U.S. energy needs (Bruskin/Goldring, Feb. 92).

Note: Anti-nuclear groups showed similar results—6% in response to same question (The Analysis Group, Sept. 88 for the "Safe Energy Communications Council").

60% favor the use of nuclear energy (Bruskin/Goldring, Feb. 92).

70% want to preserve the option to build more nuclear power plants in the future (Bruskin/Goldring, May 91). Only 22% want to build more plants now (only 20% think new electric plants will be needed in their area in the next 10 years).

Note: Anti-nuclear polls show similar results—only 28% think the U.S. will need more power plants and only 27% favor building more nuclear energy plants (Frederick/Schneiders, Inc., March 92 for the "Safe Energy Communications Council").

66% favor efforts to construct new advanced design nuclear energy plants (Cambridge Reports, May 91).

Full questions and results

1. How important do you think nuclear energy plants will be in meeting this nation's electricity needs in the years ahead? (Cambridge Reports/Research Intl., Nov. 1991)

	Percent
Very important	50
Somewhat important	31
Not too important	9
Not important at all	7
Don't know	3

2. Practically speaking, how important a role do you think nuclear energy should play in meeting America's future energy needs? (Bruskin/Goldring, Feb. 1992)

	Percent
Very important	35
Somewhat important	38
Not too important	10
Not important at all	12
Don't know	5

3. Overall, do you strongly favor, somewhat favor, somewhat oppose, or strongly oppose the use of nuclear energy as one of the ways to provide electricity for the United States? (Bruskin/Goldring, Feb. 1992)

	Percent
Strongly favor	25
Somewhat favor	35
Somewhat oppose	18
Strongly oppose	15
Don't know	7

4. Many people have different opinions about building new nuclear energy plants for providing for the future electricity needs of our country. Please tell me which statement comes closest to your opinion on the subject: (Bruskin/Goldring, May 1991)

	Percent
We should build new nuclear plants now	22
We should not build new nuclear energy plants now but should keep the option open	48
We should not build new nuclear energy plants and should not keep the option open	24

5. U.S. manufacturers like General Electric and Westinghouse have developed new improved designs for nuclear energy plants as a joint project with the electric utilities through the Electric Power Research Institute. These new nuclear energy plants will have more automatic safety systems and will be more reliable and economical. Would you strongly favor, somewhat favor, somewhat oppose, or strongly oppose efforts to construct these new plants? (Cambridge Reports/Research Intl., May 1991)

	Percent
Strongly favor	30
Somewhat favor	36
Somewhat oppose	13
Strongly oppose	15
Don't know	6

NUCLEAR REGULATORY COMMISSION,
Washington, DC, May 20, 1992.

Hon. JOHN D. DINGELL,
Chairman, Committee on Energy and Commerce, House of Representatives, Washington, DC.

DEAR MR. CHAIRMAN: The Nuclear Regulatory Commission has carefully reviewed the various Committee Reports on H.R. 776, the "Comprehensive National Energy Policy Act". We are writing as House floor debate begins to express our strong opposition to several provisions recommended by the House Committee on Interior and Insular Affairs (Interior Committee). These pertain to nuclear power plant licensing reform, license renewal, treatment of enforcement petitions and state regulation of nuclear materials at very low levels of radioactivity and regulation of Class C waste. The fact that we are providing comments in opposition to these specific proposals should not be taken as signifying our support for other versions or parts of H.R. 776; our views on other provisions may be provided at a later date.

In brief, the proposed licensing reform and license renewal provisions would upset the carefully crafted balance which the Commission has developed consistent with the Atomic Energy Act to provide for both meaningful public participation and reasonable finality to licensing decisions. The effect of the Miller provisions would be to create new instability in the licensing process for future standardized plants and to expand the license renewal process unnecessarily for existing plants in order to address issues that are already being satisfactorily monitored and regulated by ongoing inspection and enforcement programs. The provisions relating to the regulation of below regulatory concern waste would alter the framework for nuclear power regulation and could deter standardization of nuclear power plants. Finally, disposal of Class C waste should not be made a Federal responsibility. Such an approach could lead to unnecessary delay in the States' developing new low-level radioactive waste disposal facilities and the high-level waste respository.

LICENSING REFORM

The Commission has taken the position that it would support licensing reform legislation that would streamline the licensing process by granting the NRC additional flexibility and by reconfirming our existing authority regarding the timing and format of post-construction hearings. Such legislation could provide greater stability for the licensing process by codifying the major provisions found in 10 CFR Part 52 of the Commission's regulations. Conversely, we have also stated that we cannot support licensing reform legislation that reduces the Commission's flexibility and that fails to strike an appropriate balance between the need for meaningful public participation and the need for a stable licensing process.

Consistent with these views, the Commission cannot support the licensing reform provisions offered by the Interior Committee. These provisions would require formal adjudicatory hearings in all power reactor licensing proceedings, thus restricting the Commission's flexibility to tailor hearing procedures to the complexity of the issues. These provisions would also expand the scope of post-construction hearings in a manner that could substantially undercut the NRC's efforts to develop a licensing scheme which finally resolves all issues before construction and major financial investment occurs.

LICENSE RENEWAL

Two provisions in section 2111 of the Interior Committee bill relating to license renewal are of particular concern to the Commission. Under the Atomic Energy Act, the initial term of operation under an operating license is limited to forty years, but the Act permits renewal of the license. In the coming decade, utilities will be filing applications with the Commission seeking renewal of their power reactor operating licenses. The Commission recently promulgated comprehensive regulations regarding the renewal of plant licenses, which in the Commission's view provide both an appropriate scope for public proceedings and a reasonable length for the renewed operating license. Under the commission's regulations, the hearing on a license renewal application would be limited to age degradation related issues or other issues unique to license renewal. The Commission could authorize renewal for a period of twenty years plus any time remaining on the facility's initial license. Under the Interior Committee approach, the hearing on the renewal application would be greatly expanded to include any issues relating to the terms of the license, applicable laws and regulations. In addition, the license extension could be granted for only twenty years, presumably excluding any time remaining on the initial license. The Interior Committee provision would not enhance protection of the public health and safety and would unnecessarily complicate the license renewal process.

ENFORCEMENT PETITIONS

The proposed legislation would also unduly restrict the Commission's enforcement authority. The provisions would require the Commission to grant a request for enforcement action (including revocation of a license) filed by a member of the public if there is significant noncompliance with the terms of the license, the Atomic Energy Act, or NRC's regulations, or if conditions of the facility pose undue risks to the public health and safety or the common defense and security. The Commission opposes such a provision. It eliminates the Commission's authority to assess the significance of conditions or violations and determine the appropriate corrective actions. Such legislation would have the effect of compelling revocation of a hospital or power plant's license for minor regulatory violations.

BELOW REGULATORY CONCERN AND FEDERAL PREEMPTION

The Commission continues to oppose legislation relating to the regulation of radioactive waste with very low levels of radioactivity. The Commission indefinitely halted implementation of its 1990 Policy Statement on that issue. We perceive no need for legislation in this area. We are particularly concerned about legislation that would upset established law and a long history with respect to regulation of radiological hazards, especially if it applied to nuclear power plants. We thus urge rejection of the proposed amendment.

The proposed new section 276 of the Atomic Energy Act would permit States to set their own individual radiological standards. Under its terms, if, after January 1, 1990, the NRC were to exempt low-level radioactive wastes or other practices, materials, or emissions from regulation or were to diminish protection of the public health and safety, as determined by the State, a State could set its own standards. Even a minor change in agency requirements in the area of regulation of low-level waste could open the door to State-by-State regulation. The NRC would likely become embroiled in a succession of individual State proceedings to determine whether NRC has reduced its regulatory requirements and to assess the validity of NRC regulations which had already gone through appropriate rulemaking procedures. Such a process would disrupt an existing comprehensive system of Federal nuclear regulation, and could also drain significant agency resources from protection of the public health and safety.

Moreover, the language in section 276 covers all "practices, materials, or emissions involving radioactivity". Although the Interior Committee Report implies the legislation is limited to BRC waste, the broad language, read literally, could permit States to set more stringent standards than those set by the NRC for the full scope of activities regulated by the NRC, including power reactors and high-level waste facilities. Although such a broad interpretation may not have been intended, a literal interpretation of the statutory language would fundamentally and unacceptably alter the current Federal framework for the regulation of nuclear power under the Atomic Energy Act of 1954, as amended, and would frustrate current efforts to foster standardization of nuclear power plants.

CLASS C AND LOW-LEVEL RADIOACTIVE WASTE

The proposed amendment would define Class C radioactive waste as high-level radioactive waste. This amendment would likely result in requiring Class C waste to be disposed of in a high-level waste repository. There is no health and safety justification for making Class C wastes a Federal responsibility and it would be potentially disruptive to both the national high-level and low-level waste programs.

The Commercial sector and the States have been responsibly disposing of Class C waste for many years. The three operating low-level wastes sites have disposed of Class C wastes safely since the inception of the classification scheme. Any change in the statutory framework for low-level waste disposal can be potentially disruptive to the site selection and development process for new low-level waste sites. For example, if Class C wastes will not be disposed of, States may initiate rulemaking to reflect the change and change the designs of the disposal facilities. Planning for disposal of Class C wastes in a high-level waste repository would introduce new uncertainties (e.g., waste forms and volumes) and further complicate the development and licensing of the repository. Consequently, the NRC opposes the reclassification of Class C waste.

The proposed provision would also require the NRC to promulgate amended siting criteria for low-level radioactive waste disposal facilities. The Commission cannot support this provision because it is confident that its existing site suitability requirements are adequate to protect the public health and safety. Establishment of new criteria at this late date could only delay and hinder the site-selection process.

If you have any questions on these matters, please do not hesitate to contact me.

Sincerely,

IVAN SELIN.

THE SECRETARY OF ENERGY,
Washington, DC, May 20, 1992.

Hon. THOMAS S. FOLEY,
Speaker of the House of Representatives, Washington, DC.

DEAR MR. SPEAKER: I am writing to express my strong support for passage of the Barton-Clement nuclear licensing amendment as a substitute to the Interior reported language to H.R. 776.

Predictability is urgently needed in the licensing process for nuclear plants to preserve nuclear energy as a viable option for this Nation. The Barton-Clement amendment would codify major licensing provisions of existing Nuclear Regulatory Commission (NRC) regulations, providing the permanence of law, and would allow safe, completed nuclear plants to operate without undue delay.

This amendment would ensure fair and direct access by the public in raising concerns about plant safety while providing a predictable process that is necessary for investment in new nuclear plants. Nuclear energy enhances environmental quality while sustaining economic growth because it produces electricity without emissions of sulfur dioxide, nitrogen oxide, or greenhouse gases. Enactment of the Interior reported nuclear plant, licensing language would result in no new nuclear plants being built and operated.

It is imperative that this country's ability to choose nuclear energy is preserved by passage of the Barton-Clement amendment to H.R. 776.

Sincerely,

JAMES D. WATKINS,
Admiral, U.S. Navy (Retired).

Mr. Chairman, I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Chairman, I would like to share with you a special perspective on the essential nuclear energy plant licensing reform provisions that we debate today—the view from Wall Street, if you will.

These licensing reforms strike a reasonable compromise between the very real need of the investment community for regulatory stability and the public's desire to be assured that new nuclear energy plants will attain the highest safety levels.

It is clear that the implementation of a licensing process that takes into account the industry's technological progress in the development of advanced, standardized nuclear power plants is a key element of any framework leading to the revitalization of this clean and safe electricity source.

Unsurprisingly, the economics of nuclear power plants has been seriously undermined by both the uncertainties and delays in plant construction and operation. Since electric utilities must sell securities to willing investors or borrow the funds to finance the funds to finance plant construction, costs increase sharply as construction and licensing schedules lengthen and interest costs pile up.

During the 1970's, these costs escalated from $300 million to $500 million—and then into the billions during the 1980's. Without the development of a licensing process fair to all parties involved, we will not see another nuclear power plant constructed in this Nation. Indeed, not one has been constructed in the past decade.

This amendment would provide the nuclear energy industry with the regulatory stability and fairness necessary to attract investor capital back to the industry—but it will also provide the public with an assurance that the proposed plant design is safe and economical.

Such provisions are crucial if nuclear energy is to retain its rightful place in meeting the Nation's evergrowing electricity demands.

I am deeply gratified that the Public Service Commission in my home State of Florida supports the Clement-Barton reforms and opposes the provisions reported by the House Interior and Insular Affairs Committee.

I hope that my colleagues will take advantage of this historic opportunity to open up our Nation's energy future, and support this amendment. Its provisions will allow U.S. citizens to enjoy the environmental and energy security benefits of nuclear energy—which answers more than 20 percent of our electricity needs.

Mr. CLEMENT. Mr. Chairman, I yield 30 seconds to the gentleman from California [Mr. CUNNINGHAM].

Mr. CUNNINGHAM. Mr. Chairman, I thank my friend, the gentleman from Tennessee, for yielding me this time.

I rise in support of the Barton amendment. The gentleman from California [Mr. MILLER] stated that there is no confidence in this technology. I floated around on a nuclear class carrier with 5,000 men and sometimes women on board, and we felt fully confident. We have nuclear subs. This technology is 40 years old. It is safe, it is proven.

If one lives on a fixed income and wants rates to go down, then this is the way to go. It is safe for the environment. Would I put it in my State? Yes. Would I have my family close to it? The answer is yes. Support the Barton-Clement amendment.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from Pennsylvania [Mr. KOSTMAYER].

Mr. KOSTMAYER. Mr. Chairman, this is a very simple proposition. It says that if a plant has been constructed, and after construction has been completed new and significant safety information comes to light, that there ought to be a public hearing. Why is that unreasonable?

Here is what the American people think of the proposal. Congress is now debating a proposal to eliminate the second safety hearing. That is what we are debating. That is Barton-Clement, to eliminate the second safety hearing. And what do our constituents say? They say they are opposed to the Barton-Clement amendment by 79 percent.

Why would anybody in the name of God oppose this amendment? Only if new and significant information comes to light does the NRC have the option to hold a second hearing. The gentleman from New York [Mr. LENT] was wrong. They are not mandated. They are not required. They have got to go through three pages of recommendations and standards in order to hold that hearing.

That is what we are talking about. Safety is not what has slowed down the nuclear industry in this country. If the Members support Clement-Barton, they are saying that if new and significant information is brought to light there can be no public hearing.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. KOSTMAYER. I am happy to yield to my friend, the gentleman from New York.

Mr. LENT. Mr. Chairman, I am looking at what I said. I said this, and listen carefully: "While the Miller provision does not per se require a post-construction hearing, the threshold it establishes for triggering a post-construction hearing is very low."

That is very different from the language the gentleman has attributed to me.

Mr. KOSTMAYER. Mr. Chairman, this is the threshold, three full pages. This is not a low threshold.

Let me say to my friend, the gentleman from New York, who determines the threshold? The Nuclear Regulatory Commission determines the threshold. The gentleman's friends on the Nuclear Regulatory Commission are the ones that get to say, No. 1, is it new and significant information; and, No. 2, should there be a hearing?

It is up to them. How can anybody object to that?

Mr. MILLER of California. Mr. Chairman, I yield 4 minutes to the gentleman from Indiana [Mr. SHARP].

Mr. SHARP. Mr. Chairman, I rise in opposition to the Clement-Barton amendment. It ought to be clear by now that what we are being asked to do in this amendment is to establish the final law here tonight on what will be the conditions of a public hearing on major safety or new safety questions. I do not think most Members of the House want to make that final decision here tonight.

This is the Senate language which came out of a quick, late-in-the-session compromise in the Senate. They anticipated, as we anticipate, that there will be a final analysis of this, a final negotiation, at the conference committee. This is not the be-all and end-all of whether we will build nuclear power plants in this country. It is indeed not the main argument about licensing reform.

We have already seen fundamental licensing reform. One hundred and thirteen power plants, which it was just argued are very safe, were built under the old regime allowing intervention, allowing double hearings, allowing all kinds of things. They operate. Nobody is asking to build another one now. Many people would like for somebody to come forward and do that.

The NRC has fundamentally changed the rules. What we are arguing about is one issue in all of that reform. It is when and under what conditions will we insist on a public hearing and a thorough review of a brand new safety issue that was not previously considered. That is what we are trying to determine, and believe me, we can get a dozen lawyers to argue over what kind of hearing, exactly when the threshold is, whether a lawsuit will be filed.

What is what we are being asked to quickly resolve in 40 minutes here, is those conditions that we ought to be allowed to negotiate on in the conference committee and not decide once and for all for the next 30 years how that is going to be.

The system has been reformed. The amendment we are being asked to support tonight will in fact tie the hands of the NRC, making it very difficult. They must prove imminent danger to the public, imminent danger, or else they have got to let the powerplant go into operation.

Going into operation is not like starting up any other factory in this country. Going into operation means contamination of the planet. We now have a brand new economic cost we may have to deal with if anything else goes wrong. We have a risk of safety. Once we get into this, we are into a new order of magnitude of potential costs.

Does it not make sense to leave a last opportunity, not in all cases, only if it can be proven that there is a serious, very serious new safety issue, that that be considered and the public be allowed in?

□ 2030

We do have a relatively good safety record in this country, certainly dramatically better than Eastern Europe and the Soviet Union and some places elsewhere in Europe.

The reason we do is because we have vigorous NRC regulation, because we have congressional oversight and because we have allowed participation by the public and criticism of the process. Unlike the Soviet Union, we do not exclude the public. I know the gentleman will argue that he does not exclude the public, but indeed it is dramatically reduced, when, where, and under what conditions they may be able to participate.

Let us negotiate this. I am not altogether happy with the provisions in the Interior and Insular Affairs bill that is the underlying bill of this, but we are going to negotiate with the Senate that is very determined that we make a decision on this issue. Give us that opportunity. Vote "no" on Clement-Barton.

The CHAIRMAN. The gentleman from Indiana [Mr. SHARP] yields back one-half minute. The gentleman from Tennessee [Mr. CLEMENT] has 1 minute remaining.

Mr. CLEMENT. Mr. Chairman, I yield myself the remaining time.

I cannot believe what I hear from those speaking for the Miller language. They know very well that the Miller language is a killer amendment. They know very well if that language remains in the bill that we will not see any more nuclear plants. That has already been commented about we have not had a new order for a new nuclear plant since 1978.

We want to be diversified I believe in this country in all sources of energy, and our percentage of nuclear energy is less than practically any of the developed, industrialized countries in the world.

We have an opportunity to have clean energy. We have an opportunity to have an environmentally safe source of energy, and yet I hear those that profess to be for the Miller language speaking in terms that we are not going to give anyone the opportunity of a hearing. That is nonsense.

Any information, any information that comes to the attention of the Nuclear Regulatory Commission under the Clement-Barton amendment will be included, can be considered and can be a part of the record and determine whether the plant is safe or not.

The CHAIRMAN. The gentleman from California [Mr. MILLER] has one-half minute remaining.

Mr. MILLER of California. Mr. Chairman, I yield myself the remaining one-half minute.

Mr. Chairman, let me just say to my colleagues here in the House that I hope they will vote against Barton-Clement, and I hope they understand, and I appreciate the cult of personality, that this is not the Miller amendment to the Miller language. This was language reported out on a bipartisan basis out of the Committee on Interior and Insular Affairs after some 12 or 13 hours' debate. This represents the work product of that committee, and what it does is exactly what the speakers on this side have said. It assures the public the right to go in where there is a significant new problem during the construction of one of these facilities, before we contaminate the facility and are unable to correct it.

Let us remember the history of this. In California, remember when they reversed the blueprints, and they had all of the structures in the wrong place? Would Members like to be able to go in and have a hearing and tell them to correct it before they fire that baby up? Under the Barton-Clement amendment we would not be able to do that. Under ours we would have a right to do it.

The CHAIRMAN. All time has expired.

The question is on the amendment offered by the gentleman from Tennessee [Mr. CLEMENT].

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. MILLER of California. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 254, noes 160, not voting 20, as follows:

□ 2051

The Clerk announced the following pairs:

On this vote:

Mr. Anthony for, with Mr. Levine of California against.

Mr. Quillen for, with Mrs. Boxer against.

Mr. APPLEGATE and Ms. KAPTUR changed their vote from "aye" to "no."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. It is now in order to consider amendment No. 4, printed in House Report 102–528.

For what purpose does the gentleman from Massachusetts [Mr. MARKEY] rise?

AMENDMENT OFFERED BY MR. MARKEY

Mr. MARKEY. Mr. Chairman, I offer an amendment.

The CHAIRMAN. The Chair will inquire of the gentleman, is this the original amendment, or is this the amendment, as modified, pursuant to the unanimous consent request previously entered into by the House?

Mr. MARKEY. The amendment has not been modified, Mr. Chairman.

The CHAIRMAN. This is the amendment as originally offered?

Mr. MARKEY. That is correct, Mr. Chairman.

The CHAIRMAN. The Clerk will designate the amendment.

The text of the amendment is as follows:

Amendment offered by Mr. MARKEY: Page 200, after line 11, insert the following new section (and conform the table of contents accordingly):

SEC. 214. STATE REGULATION OF THE PRODUCTION OF NATURAL GAS.

Section 602 of the Natural Gas Policy Act of 1978 is amended by adding a new subsection (c), as follows:

"(c) STATE REGULATION OF THE PRODUCTION OF NATURAL GAS.—

"(1) CERTAIN STATE RESOURCE AND PROPERTY REGULATION AUTHORIZED.—State regulation of natural gas production, which has the substantial purpose or effect of furthering legitimate State interests in resource conservation, the prevention of physical waste and the protection of correlative rights of producers in a common reservoir, including—

"(A) oil and natural gas well spacing;

"(B) prevention of flaring and physical waste;

"(C) prevention of undue drainage and protection of correlative rights of producers within, or probably within, a common reservoir;

"(D) flow restrictions against past overproducers within, or probably within, a common reservoir;

"(E) unitization of a reservoir;

"(F) restrictions on production of natural gas caps in oil/gas reservoirs;

"(G) gas/oil ratios; and

"(H) maximization of ultimate hydrocarbon production according to sound engineering practices,

is authorized, notwithstanding any incidental effect from such regulation of restricting production and increasing prices.

"(2) CERTAIN STATE PRICING REGULATION PROHIBITED.—A State may not engage in regulation of the production of natural gas which has the substantial purpose or effect of generally restricting natural gas production and raising the general price level of natural gas, including—

"(A) market demand prorationing;

"(B) statewide prorationing;

"(C) prorationing between reservoirs not reasonably shown to be in geologic communication; and

"(D) other prorationing which unreasonably prevents buyers from purchasing lower-priced natural gas in preference to higher-priced natural gas.

"(3) COURT ENFORCEMENT.—Any natural gas pipeline, private or municipal local distribution company, natural gas marketer, consumer of natural gas, or State public utility regulatory commission may bring a civil action in the Federal district court for the District of Columbia to enjoin any State regulation, including any State or State agency rule, order, or law, on grounds it is prohibited under paragraph (2). Such court shall, after considering the purpose and effect of such regulation and all relevant information, set aside and enjoin such regulation to the extent it is prohibited under paragraph (2).

"(4) STATE-OWNED PRODUCTION.—This subsection shall not apply to the regulation of a natural gas well wholly owned by a State or the portion of a natural gas well's production owned by a State.".

The CHAIRMAN. Under the rule, the gentleman from Massachusetts [Mr. MARKEY] will be recognized for 10 minutes, and a Member opposed will be recognized for 10 minutes.

The chair recognizes the gentleman from Massachusetts [Mr. MARKEY].

Mr. MARKEY. Mr. Chairman, this bill is very, very good for natural gas, the totality of the national energy bill we are passing is good for natural gas; however, since the Committee on Energy and Commerce finished deliberations on March 30 on this bill, there has been a dramatic increase in natural gas prices across this country. Actions have been taken in Oklahoma and in Texas and are being contemplated in other States which have led to a speculative boom in natural gas prices, which have spiked the price of natural gas up 27 percent over the last couple of months.

This legislation deals with the concept of prorationing. Historically that has been used by the States in the southwest and other parts of the country to allocate geologically between different oil and gas-producing areas and their rights to particular reservoirs.

The bill, Mr. Chairman, insures that in the conference committee between the House and the Senate there will in fact be a vehicle that will make it possible for us to determine the extent to which the changes which are taking place right now in the natural gas-producing States in this country—by the way, 10-million barrels of oil equivalent in natural gas is consumed in America each day, only 8 million barrels of oil consumed domestically produced—a huge issue for consumers in this country.

A vote yes on this bill, Mr. Chairman, will help to keep those natural gas prices down; otherwise, there will be a $6 billion increase in natural gas prices for consuming States in this country over the next year if the present trend of the last 6 weeks continues across this country.

Mr. Chairman, I reserve the balance of my time.

Mr. SYNAR. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN. The gentleman form Oklahoma [Mr. SYNAR] is recognized for 10 minutes.

Mr. SYNAR. Mr. Chairman, for purposes of debate only, I yield 1 minute to the gentleman from Louisiana [Mr. TAUZIN].

Mr. TAUZIN. Mr. Chairman, if the gentleman from Massachusetts [Mr. MARKEY] has a consumer price problem in Massachusetts, I suggest that the gentleman from Massachusetts [Mr. MARKEY] look at Massachusetts.

The wellhead price of natural gas has continued to fall for the last several years. On May 18, the wellhead price of natural gas out of the State of Louisiana was $1.47 less than it was last year.

□ 2100

The natural gas wellhead price in Louisiana and other producer States has continued to plummet. In 1984 it was $2.66 per Mcf; in 1991, $1.55. On May 18 it was $1.47. It has continued to go down.

Yet this is the price that is paid by consumers in Massachusetts and New York; in Massachusetts, $7.83 in 1984, in 1991, $8.05.

Yes, he has a consumer price problem, but it is not the wellhead price problem; it has something to do with prices charged by the local distribution company.

What does his amendment do? His amendment prohibits the conservation orders issued in our States to preserve, protect and efficiently produce natural gas for America.

This amendment will, in effect, prohibit our States from doing anything that has any effect on market prices, even though what we do is done for the purpose of conservation, even though it is done for the purpose of protecting our environment, even though it is done for all the right reasons.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. MOORHEAD].

Mr. MOORHEAD. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the amendment by Mr. MARKEY and Mr. SCHEUER to prohibit States from limiting natural gas production based on market rather than scientific or geologic considerations.

H.R. 776 promotes the increased use of natural gas because it is an inexpensive, clean burning, domestically abundant resource, However, recent actions by certain States to limit natural gas production based on economic considerations will make natural gas less available, artificially raise prices and harm both producers and consumers. This would be contrary to what we are trying to achieve in H.R. 776.

I sympathize with producer concerns about low natural gas prices but believe that these concerns are better answered by expanding gas markets. H.R. 776 does this by encouraging independent gas-fired electricity and natural gas vehicles and by making it easier for natural gas to reach markets by streamlining pipeline construction.

If allowed, prorationing will reduce natural gas supply below market demands and artificially boost natural gas prices. This will reduce consumer confidence in natural gas, discourage investment in natural gas exploration, gas-fired electric power generation, and natural gas vehicles. The result will be smaller rather than larger natural gas markets. All citizens will be prevented from receiving the full environmental benefits of this clean-burning fossil fuel.

Thus, I urge my colleagues to support his amendment.

Mr. SYNAR. Mr. Chairman, for purposes of debate, I yield 1 minute to the gentleman from Kansas [Mr. SLATTERY].

Mr. SLATTERY. I thank the gentleman for yielding.

Mr. Chairman, I would just like to urge my colleagues to listen carefully to this debate because what we are about to do is make a decision involving billions of dollars in this country.

I for one deeply resent the fact that we are out here on the floor without hearings, with about a 10-minute debate on both sides, making a decision of this magnitude. It is ill-advised, and it is targeted at gas producers in this country, and it is coming from a man who represents the State of Massachusetts, who has a problem with natural gas prices, which this gentleman can appreciate. But I would just urge the body to take into consideration this fact: The price of gas has increased in the State of Massachusetts, but $1.21, all of the price increase, is due to the local distribution company. The utilities in Massachusetts are obviously not being effectively regulated, and the actual price that producers have collected in the State of Massachusetts on natural gas has actually declined in the last 3 years.

Please keep that in mind as we vote on this amendment that has not had adequate hearings. My friends, this is when we are at our worst, when we are legislating like this.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the cosponsor of the amendment, the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, the reason why we have not had hearings is because this entire matter only bubbled to the surface a matter of weeks ago when, after the Committee on Energy and Commerce reported this bill, Texas, Louisiana, and Oklahoma opted for the power to ratchet down production so that perhaps they could ratchet up prices.

Now, there are several perfectly legitimate reasons for going into a prorationing program, to protect the resource, to prevent waste, all kinds of legitimate reasons. And all of those are protected under our amendment.

We are not trying to stop the gas-producing States from doing anything that is justifiable, that has a geologic reason. But if it does not have a geologic reason and the effect will be to ratchet down production and its effect will be to raise prices, then we say, no, then we say the vast number of consuming States need protection.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the dean of the Texas delegation, the gentleman from Texas [Mr. BROOKS].

Mr. BROOKS. Mr. Chairman, I rise before the House in opposition of the Markey amendment. This amendment would unnecessarily interfere with the long-standing rights of States to regulate natural gas production and protect gas producers. The amendment prohibits market demand proration, while allowing protection of correlative rights. In Texas, market demand proration is what has protected correlative rights for the last 60 years. During these 60 years, the Railroad Commission of Texas has maintained the regulatory authority to determine the supply of natural gas needed to meet demand. The language in the amendment would strip from the States the right to manage and conserve their natural resources, to protect their citizens from unemployment, and to keep their economies from bankruptcy. Prorationing is designed to promote efficient and environmentally responsible development of crude oil and natural gas. The U.S. Supreme Court recently upheld a strict allowable system in Kansas by saying that it was "precisely the sort of scheme that Congress intended to leave within a State's authority." I further feel that it is premature to have this measure voted on by the full House since the committee was never given the opportunity to vote on it.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the gentleman from New York [Mr. LENT].

Mr. LENT. I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the amendment offered by Mr. MARKEY and Mr. SCHEUER to prohibit States from placing limits on natural gas production based on solely economic reasons.

Currently, natural gas producers are facing historically low prices. In an effort to raise prices certain States have placed limits on natural gas production which are designed to artificially boost prices by forcing supply below free market levels. If pursued, these efforts will only invite a consumer backlash that will hurt, not help, gas producers.

The answer to producer concerns is to expand natural gas markets. H.R. 766 does this.

However, prorationing by artificially boosting natural gas prices will decrease rather than expand markets for this clean-burning, domestically abundant resource. Such artificial price increases will also discourage potential investment in gas-fired electric power generation and natural gas vehicles. Allowing States to form a mini-OPEC to limit natural gas production will hurt both natural gas producers and consumers and will be contrary to the goals of H.R. 776.

Mr. Chairman, I urge support for this amendment.

Mr. SYNAR. Mr. chairman, I yield 1 minute to the gentleman from New Mexico [Mr. RICHARDSON].

Mr. RICHARDSON. Mr. Chairman, I rise in strong opposition to this amendment. First, it would precipitate a regional war on energy, and so far this bill has avoided this.

Second, it unfairly overrides the authority of the States to regulate the production of natural gas and other resources.

Third, producing States are being targeted unfairly because Massachusetts has a problem.

Fourth, it needlessly establishes a Federal standard where none is needed.

There are already legal recourses to deal with this problem.

Mr. Chairman, this is a killer amendment, it will drive producing State Members and Governors to oppose this bill.

This is a good bipartisan bill, but let us defeat this amendment.

This amendment would limit States rights to balance natural gas production with demand. State have long had prorationing authority. If the amendment were adopted it would prevent States from the right to manage and conserve their natural resources, protect against unemployment, and prevent economic bankruptcy.

The underlying issue here is the price of natural gas. While proponents of this amendment claim it is needed to protect residential consumers from unfair gas prices, the fact is that gas prices at the wellhead are at an all time low but this has not changed the price of gas to residential consumers. The price to residential consumers has remained steady or even increased despite low gas prices at the wellhead. There is not correlation between wellhead prices and residential prices.

Finally, this amendment is not clearly drafted and deals with an extremely complicated issue. Yet no hearings in either the House or the Senate have been held. I would urge my colleague Mr. MARKEY to withdraw this amendment from floor consideration so that Members have ample opportunity to hear all the facts on this issue. Otherwise, I urge my colleagues to vote no on this amendment.

OPPOSE MARKEY/SCHEUER AMENDMENT

The amendment prohibits market demand proration, while allowing protection of correlative rights. In Texas, market demand proration is what has protected correlative rites for the last 60 years. If market demand proration is outlawed, present correlative rights' protection is outlawed.

The language evidenced in the amendment is confusing as well as contradictory. If adopted, it would strip from the States the right to manage and conserve their natural resources, to protect their citizens from unemployment, and to keep their economies from bankruptcy.

The amendment represents a Federal intrusion into a regulatory area historically reserved for the States. For 60 years, the Railroad Commission of Texas has maintained the regulatory authority to determine the supply of natural gas needed to meet demand. Over 30 States have some oil and gas production.

Prorationing is designed to promote efficient and environmentally responsible development of crude oil and natural gas. The U.S. Supreme Court has ruled consistently that allowable systems—prorationing—are constitutional; most recently the Supreme Court upheld a strict allowable system in Kansas by saying that it was "* * * precisely the sort of scheme that Congress intended to leave within a State's authority." This same line of cases prevents cartels among the States and provides other protections including various avenues of relief for States and individuals who believe they have been victimized by the actions of other States.

Texas is the largest natural gas producer. It is also the largest consumer of gas. Over 63 percent of the gas produced in Texas is consumed there. Texas trying to raise natural gas prices would be a "get poor quick" scheme.

Markey-Scheuer would limit legitimate State's rights and wrongly focuses the natural gas debate on the producing States. The underlying issue is the price of natural gas. And the facts are simply, the price of natural gas has been declining at the well head and increasing on residential consumers. This is a complicated issue requiring Chairman DINGELL's and Subcommittee Chairman SHARP's review.

Markey-Scheuer should be opposed.

The amendment attempts to limit State's rights to balance natural gas production with demand.

The amendment has not been subject to a hearing in the House or Senate.

The amendment wrongly strikes at natural gas producing States.

Natural gas prices have been at historic all time lows, while prices to residential consumers have stayed the same or increased.

The amendment would permit the continuation of sweetheart low-priced natural gas sales to commercial natural gas consumers to the detriment of residential consumers.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the gentleman from Wisconsin [Mr. PETRI].

Mr. PETRI. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise in support of the Markey-Scheuer prorationing amendment to H.R. 776.

There is widespread agreement among environmentalists and economists that natural gas provides this country with a plentiful, clean, efficient, safe, and affordable domestic energy source. We need to increase our use of natural gas and develop new uses for it in the transportation, appliance, and electricity generation fields. This will help us reduce our dependence on foreign oil in a clean dependable way.

Unfortunately, however, several of the States in the South and West which account for over half of the domestic gas production, seem to be interested in creating a sort of domestic natural gas cartel designed to raise the price of natural gas for the benefit of the producing States, and at the expense of the rest of us.

Some States have adopted, and others are considering adopting, policies designed to limit natural gas production, making it more expensive for consumers.

Not only is this bad news for the State of Wisconsin, it is bad news for the rest of the country. In the last month since passage of prorationing rules by several States, natural gas prices have gone up 32 cents per thousand cubic feet costing consumers $6 billion. In Wisconsin, the additional cost to consumers is over $102 million. This is outrageous and must be stopped.

This amendment specifically allows certain types of regulations that are designed to protect the environment and prolong the life of the reservoir. But, it also prohibits prorationing whose purpose it is to limit the supply in order to increase the price.

The decision as to whether a particular prorationing scheme is allowable is left to the courts. I urge my colleagues to support this amendment.

□ 2110

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Oklahoma [Mr. MCCURDY].

Mr. MCCURDY. Mr. Chairman, I rise in strong opposition to this thoughtless amendment.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. FIELDS].

Mr. FIELDS. Mr. Chairman, let us get right to the heart of this debate, and let me use Texas as an example. There is no provision, and I want to stress "no provision" in the Texas prorationing rules that sets gas production at less than market demand. The rationing has nothing whatsoever to do with price, and let us look at what prorationing does.

First, Mr. Chairman, it protects adjoining landowners from being drained of their natural resources by someone else. Second, it brings some order to a very complex marketplace, and we would have found this out if we would have had committee hearings, if we would have had committee consideration of this precipitous and dangerous amendment. But we did not have those hearings. We did not have that consideration in committee.

In addition, Mr. Chairman, I want to point out what the Secretary of Energy says. He says that this amendment raises difficult legal issues that require careful analysis. These issues could include complex questions of constitutional law concerning the balance of the right of States to regulate production within the States and the power of the Federal Government to regulate interstate commerce.

Mr. Chairman, I rise in opposition to the amendment proposed by the gentleman from Massachusetts and the gentleman from New York. This amendment will cause serious mischief to States ability to protect their citizens private property rights and their natural resources.

Recently the Texas Railroad Commission approved some changes to the State regulations governing natural gas proration. The Texas prorationing system has been in place for about 60 years. Due to changes in the Federal regulatory structure and other changes, the old regulations were not meeting the needs of the current situation. Some changes were necessary in order to prevent violations of State law and infringement on the correlative rights of natural gas producers.

As Members of Congress we all know that it is necessary to revisit certain laws and regulations every few years to make sure that they are accomplishing the mandates set forward by us. Why should we deny the States the same rights to make changes that we enjoy?

Mr. Chairman, there have been no hearings, or committee consideration of this subject or this amendment. This amendment strips States of the right to manage their own natural resources. The Markey-Scheuer amendment would overrule a long history created by numerous Supreme Court decisions upholding States rights on this issue. The amendment is unnecessary because there are avenues of relief already available for those who have complaints about the way States manage their resources. Why do this—unless this is being done for political or regional purposes?

It is not the intent of Texas, nor any other producing State to limit production of natural gas in order to drive up prices. Since Texas is the largest natural gas consumer as well as producer, it would not be in the State's best interest to raise natural gas prices.

Mr. Chairman, this is too important of an issue to consider in such a precipitous manner. Even the Department of Energy has stated that the amendment "raises difficult legal issues that require careful analysis. These issues could include complex questions of constitutional law concerning the balance of the Right of States to regulate production within the State and the Power of the Federal Government to regulate interstate commerce. These issues require additional time for proper legal analysis." I would urge my colleagues to defeat this mischievous amendment.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the gentleman from Rhode Island [Mr. MACHTLEY].

Mr. MACHTLEY. Mr. Chairman, this has everything to do with the price of natural gas because what is going to happen is there will be an artificial limit on the amount of gas which is going to drive prices up. As our economies are trying to get going, it is going to cost those States who have green on that chart in the front 60, per family, additional dollars in order to help three States which produce half the natural gas.

Now I have no problem with helping those States. But why should we put it in an unnatural way, in an artificial formula, to those consuming States of Texas, Louisiana, and Oklahoma?

Mr. Chairman, I urge my constituencies who are concerned about this unnatural limitation of gas to vote for this amendment.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Wyoming [Mr. THOMAS].

Mr. THOMAS of Wyoming. Mr. Chairman, I rise in opposition to the amendment of the gentleman from Massachusetts [Mr. MARKEY].

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Texas [Mr. ANDREWS].

Mr. ANDREWS of Texas. Mr. Chairman, this is really very simple. It is a matter of trying to create constancy and fairness in the marketplace. Texas Railroad Commissioner Bob Krueger outlined it pretty well. It is like two people trying to suck out of a soda with two straws. If we do not have some kind of recordkeeping, if we do not have some kind of umpire to determine the equities, one owner is going to suck more gas out of that reservoir, and that is exactly what the States are asking to be able to do, to make the determination of price, to find some balance between those landowners and equity owners that are drawing out of that same reservoir.

That is all this is, the correlative rights of the small independents.

Now the result of the amendment of the gentleman from Massachusetts [Mr. MARKEY] is likely not to affect the great big producers. It is likely to affect the little guy, the small landowner, the small guy that is trying to produce natural gas out there, the very person in this industry that is the most fragile and the most hurt by the current economic conditions.

This is a bad amendment, and it should be defeated.

Mr. Chairman, this amendment has not been considered by any of the various committees to which the energy bill was referred. This complicated issue has not been the subject of even one hearing. It is patently inappropriate that we reduce such a complex issue to a short, simple floor debate between different regions of the country.

This amendment addresses the prorationing of natural resources by States—something 33 States have been doing for many years, some for almost 60 years. Prorationing is something that the Supreme Court has deemed "* * * precisely the sort of scheme that Congress intended to leave within a State's authority."

The recent deregulation of the natural gas industry has fundamentally changed natural gas markets and has necessarily created a need for States to reevaluate their prorationing rules. States must ensure that the correlative rights of the smaller producers are protected.

Our former colleague Bob Krueger has explained the concept of correlative rights like this, "It's like having two straws in the same soda. If I'm drinking from mine and you aren't drinking any, I'll eventually drink your share of the soda." This is all the States are trying to do—simply ensure that if someone owns an asset they can decide whether or not to sell that asset without the fear of it being stolen if they decide not to sell.

Our entire economy is based on a free market with willing buyers and willing sellers. It then makes absolute sense that if one owns rights to a reservoir of natural gas, that person not be forced to sell his portion of the gas reservoir or have it stolen by his next door neighbor who has decided, for whatever reason, to produce and sell his portion. It is critical that the States retain the right to protect correlative rights.

Many suggest that new prorationing rules represent efforts to raise the price of natural gas? At a time when states with natural gas are looking for new markets for their gas, why would these States even consider artificially increasing the price of gas? Why would those who have for so long advocated the deregulation of natural gas now support inappropriate government interference in the marketplace? It is simply not the case. The new prorationing rules are not intended to raise the price of gas.

The Texas Railroad Commission, my State's oil and gas regulatory agency, unanimously supports these new rules and strongly opposes this amendment. I urge my colleagues to reject this amendment—leaving this authority to the States where it has been for almost 60 years.

The article referred to follows:

GAS RULES MAY BE DULL, BUT THEY'RE TEXAS' FUTURE

(By Bob Krueger)

The rules governing natural gas prorationing and correlative rights (that is, determining the market demand for natural gas from each gas field, and determining which wells will be allowed an opportunity to meet how much of that demand each month must sound like one of the dullest topics alive.

Yet, since the oil and gas industry accounts for one-seventh of the gross state product in Texas, a larger share than any other industry in the state, these rules affect the economic well-being of every community in Texas. By producing 27 percent of our nation's gas, Texas is America's largest producer of natural gas.

The federal Clean Air Act of 1989, recognizing gas as our cleanest, most environmentally desirable and abundant domestic energy source, encourages use of natural gas rather than coal or nuclear power to produce electricity. Therefore, new markets can bring new profits to our state in years ahead. Similarly, fears that state regulators in gas-producing states might constrict production in order to raise prices frighten electric utility regulators in consuming states. Such fears may prompt them to approve coal-fired or nuclear facilities rather than gas-fired facilities for future electric generation.

State laws require the Texas Railroad Commission to protect the correlative rights of property owners in each gas field. This task seems initially simple. But natural gas exists in underground reservoirs and is subject neither to direct physical inspection nor precise measurement.

If you and I are neighboring landowners, and gas from a continuous reservoir lies beneath our land, we cannot know exactly how much gas underlies your property or mine. If I sell gas from a well on my land and you sell none, either because you have no purchaser to sell it to or you believe the price offered is too low, I am in effect selling your inventory.

It's like having two straws in the same soda. If I'm drinking from mine and you aren't drinking any, I'll eventually drink your share of the soda.

You may want to save your soda for another day and resent my drinking yours. But if a regulatory agency says I can drink nothing until you are thirsty, I may die of thirst before you're ready to drink your share. Therefore, determining exactly who gets the right to draw out one's minerals, in what portion, over what time, and with what effect on one's neighbor, is subject to constant difference of opinion.

Nevertheless, the Railroad Commission must determine such issues for the 2,700 separate gas reservoirs existing in our state. The rules governing these questions are now being reviewed at the Railroad Commission and the review comes when gas prices are at a historic low, causing new drilling to have fallen to its lowest level in 50 years.

In this circumstance, some producers have asked their state regulatory bodies to shut in some allowable supplies in hopes that prices might rise. That request, while understandable, is probably also illegal. And it is certain to invite federal intervention.

U.S. Rep. John Dingell, D-Mich., chairman of the House Energy and Commerce Committee, and U.S. Sen. Bill Bradley, D-N.J., of the Senate Energy Committee, are but two of the influential members of Congress who have already indicated their intent to prevent statewide prorationing that would restrict supply to raise prices.

Moreover, such efforts would frighten consuming states. Almost the entire market for increased gas sales in years ahead lies in selling gas to electric utilities. Electric utilities in Texas alone account for 13 percent of the nation's use of natural gas. If public utility commissions in other states believe that the Texas Railroad Commission will shut in gas supplies in order to raise prices, they legitimately will encourage coal-fired or nuclear plants rather than gas. We could send no worse message.

And once such capital-intensive, expensive plants are built, they will remain in use for

30 or more years. Our prime gas markets will have been lost.

As is customary, in a time in which the economy is suffering and the industry is in a perilous state, charges and countercharges fly readily. Nevertheless, it seems to me that the Railroad Commission must do the following:

Protect correlative rights. Mineral owners should be allowed a reasonable opportunity to sell the minerals underlying their land into a competitive marketplace.

Simplify our gas rules, which currently are designed for an industry that no longer exists.

Remain within state and federal laws. We can address correlative rights on a reservoir-by-reservoir basis once we have estimated the demand for gas from each reservoir. But we cannot reallocate these reservoir demand amounts as a means of protecting correlative rights, we can prevent physical waste. But reducing supply in order to raise prices does not protect correlative rights.

Finally, we must do our part to develop larger national markets for natural gas. This means reassuring other sections of the country that we will not reduce supplies in order to raise prices.

If we can strike the right balance that protects the property rights of Texas mineral owners either to market or to husband their own resources in a fair fashion, and can at the same time develop confidence in other parts of the country that we will be responsible in supplying this precious energy for years to come, we will have served not only our own citizens but the nation as well.

Mr. MARKEY. Mr. Chairman, I yield 1 additional minute to the gentleman from New York [Mr. SCHEUER].

Mr. SCHEUER. Mr. Chairman, let me mention what is in the back of our minds. We do not know really for sure what the intention of the gas producing State is. They state, and I have to credit them, that they have no evil intention, they are not going to exploit gas consumers around the country, this is just for the purpose of protecting their own resources.

Well, Mr. Chairman, it is perfectly clear that in the amendment they can do any legitimate program to protect the integrity of their own resources, but I suggest to my colleagues that during the Depression the Governor of Texas in an effort to jack up oil prices sent the Texas Rangers down to the southern part of the State, forced the drillers to close down production, and the price of oil in Texas went up 700 percent. That is what we are trying to avoid in the future in terms of natural gas, and there is no protection in current law to prevent such abuse.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from West Virginia [Mr. WISE].

Mr. WISE. Mr. Chairman, at a time when there are thousands of people out of work in the gas industry, the idea that there would be any withholding boggles the imagination. I rise in strong opposition to this amendment.

Mr. SYNAR. Mr. Chairman, I yield 30 seconds to the gentleman from Oklahoma [Mr. ENGLISH].

Mr. ENGLISH. Mr. Chairman, I rise today in strong opposition to the Markey-Scheuer amendment. The Congress should not attempt to abrogate the rights of States to protect and preserve their natural resources. This amendment will do just that.

Nearly every State that produces natural gas in commercial quantities has prorationing laws governing the rate at which individual wells can produce. Never before has this been a problem associated with natural gas prices—as the authors of this amendment will argue. Why now is it a problem?

There are many factors involved that have affected natural gas futures prices during the past few weeks: A colder spring in the Northeast; industrywide uncertainty about FERC promulgation of order No. 636; and much more.

This is not a rational approach to addressing a perceived problem. No hearings have been held, thus, no factual evidence can be offered pointing to prorationing as being solely responsible for increased gas prices. This is a complicated issue of natural gas law as well as constitutional law. It deserves to be considered in a rational and factual manner rather than to simply play pure politics. We cannot achieve that objective in a mere 20-minute time block allowed by the Rules Committee today.

I urge my colleagues to oppose this amendment.

Mr. SYNAR. Mr. Chairman, I yield 30 seconds to the gentleman from Louisiana [Mr. HUCKABY].

Mr. HUCKABY. Mr. Chairman, I rise in opposition to the amendment of the gentleman from Massachusetts [Mr. MARKEY], and, as the gentleman from New Mexico [Mr. RICHARDSON] stated earlier, this is a killer amendment. It will certainly distort the natural gas market.

I would like to point out to my colleagues for each year in the last 5 years the number of active rigs searching for oil and gas has declined in the United States. If this amendment passes, there will be a further significant deterioration in exploration. In the long run we will see increases in the price of natural gas.

Mr. Chairman, I urge a "no" vote.

Mr. MARKEY. Mr. Chairman, I understand that I have 2 minutes remaining. Am I correct?

The CHAIRMAN. The gentleman from Massachusetts is correct.

Mr. MARKEY. Mr. Chairman, I yield 1 minute to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Chairman, I rise in strong support of the amendment of the gentleman from Massachusetts [Mr. MARKEY], and let me simply point out that it specifically authorizes what some of the producing colleagues have feared that it prohibits. It authorizes the State regulation of production, which has the effect of furthering legitimate State interests in resource conservation including the protection of correlative rights. That is specifically authorized. What is prohibited is regulation of production which has the effect of statewide prorationing, on market demand prorationing. It does not do it all. In fact, to the contrary, it specifically authorizes those things which our producing colleagues have expressed concern about. It is a responsible amendment, and I urge its support.

Mr. Chairman, when it comes to energy resources in this country, geography is destiny—or, more accurately, geology is destiny. And for the new England States—with no energy resources of our own—our economic destiny depends, in large part, on how much we have to pay for that energy.

The Northeast depends on oil, and a lot of that is imported oil. That puts us at the mercy of OPEC. If they want to raise prices, all they have to do is limit production—and there's not a whole lot that we can do about it.

It's bad enough that our region's economy is literally at the mercy of foreign powers, but with prorationing, we have a situation where a handful of States—in our own country—are in a position to determine when, or even if, our economy—and that of the midwest and the west coast—recover enough to finally pull out of the recession.

That is because these prorationing regulations are going to cost us a lot of money—$85 million for Massachusetts consumers and $136 million for all of New England. California alone stands to lose half a billion dollars.

And that is not inconsequential. It means higher heating bills for consumers. It means higher costs for industrial users—not only those who use natural gas, but for customers of the electric utilities as well.

Right now, New England States have among the highest electric rates in the country. And our utilities with lower rates are those that are using a lot of natural gas to produce electricity. If they have to start paying a lot more for gas, ratepayers in New England are going to see their electric bill skyrocket.

And that means that New England businesses are going to have a lot harder time competing with companies elsewhere.

We recognize that times are tough for producers right now. But the best way for their situation to improve is to increase demand. And H.R. 776 contains several provisions that will help—simplifying and streamlining the construction and regulation of new pipelines, simplifying some environmental procedures.

Price fixing is not fair when OPEC nations do it. And it is no more fair when it is done by producing States.

Prorationing to raise is a bad idea, it should be prohibited, and I urge adoption of this amendment.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Texas [Mr. CHAPMAN].

Mr. CHAPMAN. Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from Massachusetts [Mr. MARKEY] and urge a "no" vote.

Mr. SYNAR. Mr. Chairman, I yield 1 minute to the gentleman from Michigan [Mr. DINGELL].

□ 2120

Mr. DINGELL. Mr. Chairman, I thank the distinguished gentleman from Oklahoma for yielding.

Mr. Chairman, I rise in reluctant opposition to the amendment. I have great respect and affection for the author, my dear friend the gentleman from Massachusetts [Mr. MARKEY], who is an able subcommittee chairman on our committee.

Mr. Chairman, I have to oppose this amendment, but the gentleman from Indiana [Mr. SHARP] and I have spent a great deal of time on this issue. We have scrutinized the behavior of the States, the Railroad Commission in Texas, the regulatory bodies, and the Governor of the State of Oklahoma.

The old days are gone. It is my hope that there will be no coercive, improper, or collusive behavior under this. I cannot offer my colleague that assurance. I can tell Members that it is my view that the probabilities are that the behavior of the States will simply be to protect correlative rights.

The gentleman from Indiana [Mr. SHARP] and I will be watching this matter with a great deal of care to assure that there is no price-fixing, to be sure that are no actions which will be adverse or detrimental to the interests of the consuming public of the United States.

Mr. Chairman, I would urge my colleagues to reject this amendment.

Mr. SYNAR. Mr. Chairman, I would like to thank the gentleman from Michigan [Mr. DINGELL] for his support.

Mr. Chairman, I yield 1 minute to the gentleman from Indiana [Mr. SHARP].

Mr. SHARP. Mr. Chairman, I rise in reluctant opposition to the amendment tonight. We do not need a regional war here tonight on something that has not been fully considered as it should be.

The gentleman from Michigan [Mr. DINGELL] and I and others, as well as the gentleman from New York [Mr. LENT], the gentleman from California [Mr. MOORHEAD], and the gentleman from Massachusetts [Mr. MARKEY], have been raising this issue for months with the States of Oklahoma, Texas, and Louisiana.

Louisiana has not acted. The State of Texas is about to make decisions that may or may not restrict the market. They argue they will not. As for the State of Oklahoma, we are concerned about their new legislation.

We have been in discussion on a regular basis orally, verbally, and by letter with these folks. We are seriously concerned if they overstep the bounds of protecting property rights and move into true restrictions of the marketplace. But they have not yet done that in the State of Texas, and I think it would be smarter for us not to wait and see.

We are sending a strong message. We will continue to do that. We will promptly bring legislation back to the floor if we see those actions occur. They have not yet.

Mr. Chairman, let us not take a precipitous action that takes us into a regional battle we do not need at this point.

Mr. MARKEY. Mr. Chairman, as the author of the amendment, I would like to close the debate.

The CHAIRMAN. The Chair would announce that the gentleman from Oklahoma [Mr. SYNAR] would be supporting the committee position and is entitled to close.

Mr. MARKEY. Mr. Chairman, I yield myself the final minute of debate for the amendment.

Mr. Chairman, this chart is your handy-dandy guide to how to vote on this issue. Six billion dollars over the next year, if the last 6 weeks is any indication of the natural gas spike. The green States will pay the $6 billion; the yellow States will receive the $6 billion.

We only do a comprehensive energy bill once every 10 years in this Chamber; $6 billion times 10 years is $60 billion.

Mr. Chairman, we cannot afford to subsidize the southwestern and other parts of this Nation with unjustified natural gas increases. Our consumers, our industries, deserve lower natural gas prices so that we can come out of the recession, so that we can enjoy the recovery which we have been unable to in fact.

Mr. Chairman, it is time to enjoy those low energy prices. Vote "yes" if you believe in low energy prices in this country.

The CHAIRMAN. The gentleman from Oklahoma [Mr. SYNAR] has 1 minute remaining.

Mr. SYNAR. Mr. Chairman, I yield such time as he may consume to the gentleman from Texas [Mr. DELAY].

Mr. DELAY Mr. Chairman, I rise in opposition to this amendment.

Mr. SYNAR. Mr. Chairman, I yield myself the final 1 minute.

Mr. Chairman, with all due respect to my colleague from Massachusetts [Mr. MARKEY], I wish the facts and figures that the gentleman just spouted could be correct. We will never know, because we have never had any hearings on this issue.

Mr. Chairman, this is a sad moment because we are legislating on something that is pretty important for this country in this late hour without the necessary information that we as Members need.

Two simple points: First of all, my colleagues, we do not need this regional war here tonight. If we are truly going to do a national energy strategy, let us bring everyone, every State to the table.

Secondly, and most importantly, this amendment is unnecessary. If the States of Oklahoma, Texas, Louisiana, or any of the others violate the law the way the gentleman from Massachusetts [Mr. MARKEY] suggests, we could be brought immediately into court against the actions that we have taken. That remedy is already available.

Mr. Chairman, I ask my colleagues to review the facts, to sincerely consider what we are trying to do with the national energy strategy, and to try to bring all States together for the betterment of the country.

Mrs. KENNELLY. Mr. Chairman, I rise in strong support of the amendment introduced by my colleagues from Massachusetts and New York. Today we are debating a comprehensive national energy strategy. A primary goal of this legislation is to increase the use of natural gas. The bill simplifies pipeline regulations and stimulates demand for gas in electricity generation and transportation. This cannot be achieved without a reliable supply of natural gas.

This amendment would prohibit State commissions from restricting natural gas production which has resulted in increased prices. While prorationing policies are often enacted to carry out legitimate State functions, they can be used to artifically restrict output and raise prices.

This amendment addresses only the latter and would not affect a State's traditional role in regulating its natural gas industry. Just recently, several natural gas producing States have adopted or are considering natural gas prorationing policies which place controls on output.

This action has already raised the price of natural gas 32 cents. Without action, this type of policy could cost $136 million per year for New England plus an additional $646 million for Mid-Atlantic States—only extending our present recession and high unemployment. On an annual basis, this could cost American gas consumers over $6 billion.

I commend my colleagues for their amendment, and I urge my colleagues to support the Markey-Scheuer amendment.

Mr. GREEN of New York. Mr. Chairman, I rise in strong support of the Markey-Scheuer amendment to H.R. 776, the National Energy Policy Act. As an original cosponsor of the legislation that is embodied in this amendment, and as a longtime advocate of competition and free enterprise, I stand firmly against the prorationing of natural gas.

In past months, several natural gas-producing States have adopted, or are planning to adopt, natural gas prorationing policies which place controls on natural gas output. This leads to lower natural gas supplies and a higher price for the consumer. This amendment would prohibit States from implementing regulations that have the substantial purpose or effect of generally restricting natural gas production and raising the price of natural gas.

It is important to note that this amendment does not affect the States' traditional role in regulating their natural gas industries to the extent that such regulation is necessary for resource conservation, preventing physical waste, and protecting the correlative rights of producers in a common reservoir.

One of the primary goals of the National Energy Strategy is to increase the use of natural gas. While most experts would agree that natural gas provides a sustainable, clean, efficient, safe, affordable, domestic energy source, the potential for natural gas use in our nation is unrealized. It is clear that prorationing policies will actually work to the detriment of natural gas usage.

If we have learned anything from our involvement in the Persian Gulf war, it should have been that we must have a national energy policy which reduces our dependence on foreign oil. Increasing the use of natural gas as an alternative fuel is clearly one way to achieve that goal. Implementing prorationing policies will undermine that effort.

I strongly urge my colleagues to support this amendment.

Ms. HORN. Mr. Speaker, today I join many of my colleagues in strong support of H.R. 776, the Comprehensive National Energy Policy Act.

This legislation seeks to insure that our country meets its energy needs for the remainder of this decade and into the 21st century. It does this by promoting energy conservation and efficiency, supporting the development of alternative energy sources, and increasing the use of renewable energy sources. It also provides an insurance policy against interrupted overseas supplies of oil by increasing the strategic petroleum reserve [SPR]. Additionally, through enhanced support for further research and development in important energy technologies, it promotes energy independence in these new technologies along with its promise of new jobs and enhanced competitiveness for the American economy. There is a consensus that, to be effective, an energy policy must include all these steps.

In my view, H.R. 776 correctly puts the emphasis on these areas, rather than continuing to increase support for fossil fuels and nuclear power. In the future, more of our Nation's energy needs must be met by renewables and improved conservation and efficiency. As there are not sufficient oil reserves within our nation's borders to meet our current daily need for oil, increased domestic oil production cannot, by itself, solve our energy problems.

Also, nuclear power does not hold much promise to supply additional energy in the short-term. With the many concerns about nuclear plant safety and the disposal of nuclear waste, along with the lack of new plants coming on line, it would be unrealistic to plan on increased electrical demand being met by nuclear power. Perhaps in the mid-21st century, after the many questions about nuclear power have been satisfactorily answered, nuclear power could be a viable alternative. However, this is not likely to be the case in the next decade or two.

In contrast to the administration's initiative, H.R. 776 represents a balanced approach to setting our Nation's energy policy. It addresses the need for more domestic energy production by increasing Federal R&D for enhanced oil recovery from currently producing oil wells. Currently less than 50 percent of the oil in the ground can be extracted by conventional means; therefore, most of the oil in our Nation's oil wells remains untapped. By enhancing recovery, we can make use of wells already discovered, and capital already spent, to obtain additional petroleum.

Along with getting the most out of our Nation's oil wells, there is a need to develop alternative energy sources including renewable resources such as solar energy, as well as increased use of natural gas. Natural gas is one energy resource which is abundant in North America and, therefore, more secure than Middle Eastern oil. By promoting more efficiency in new gas pipeline hookups, the use of natural gas-powered cars, and increased use of gas-fired powerplants, H.R. 776 will help us to better utilize natural gas supplies. In addition, these energy sources, while independent of foreign supplies, have the added advantage of causing less pollution than comparable amounts of oil. There will be less air pollution, less damage to the environment, and fewer greenhouse gases than if oil were used instead.

Furthermore, this legislation will increase energy conservation and efficiency. One of the largest users, and wasters, of energy is the Federal Government. This bill will require the Department of Energy [DOE] to focus its efforts on increasing the energy efficiency of our Federal buildings and facilities. In the long run, this will save taxpayer money since all energy saved through conservation and increased efficiency is energy that will not have to be bought. H.R. 776 also promotes greater energy efficiency in all new buildings and higher efficiency standards for new electrical appliances and equipment. In addition, this legislation directs utilities to develop least-cost planning and other demand side management programs, reducing the need for expensive hard to site new power plants.

Along with the many steps outlined above is the promise of enhanced international competitiveness and the creation of new jobs in energy efficiency and renewables utilizing high technology. New energy technologies will improve the energy efficiency and thereby the price competitiveness of all our industries. Cheaper energy means less expensive products and services and stronger businesses. In addition, other nations will want to improve their energy efficiencies as well, thereby creating international markets for energy efficiency and energy resource technologies. Either the United States will sell these to the rest of the world, or we will buy them from the rest of the world. H.R. 776 will help ensure that we develop and utilize American technologies here.

This legislation also increases the strategic petroleum reserves [SPR]. The SPR is what stands between this Nation having the oil it needs in time of crisis, and our country not having sufficient oil to meet our daily needs. It is important that we have a national reserve sufficient to insure our ability to carry on in times of war or interrupted foreign supplies without undue hardship. The necessity of this reserve was demonstrated recently during the Persian Gulf war. Although oil supplies were not significantly affected by the crisis, oil prices rose dramatically, requiring the President to make available a small portion of the SPR to help stabilize the oil market, and hence the price. By increasing the SPR to 1 billion barrels from its current 568 million barrels, we will give our Nation added insurance against the interruption of supplies. H.R. 776 would require all U.S. refiners and importers of oil to set aside 1 percent of the oil they import or refine for the SPR until the billion barrel goal is reached. They could send either the oil itself or the equivalent money to fulfill this requirement.

In conclusion, there is a critical need for our Nation to face up to its long-term energy requirements and plan ahead to meet the energy needs of a growing economy in the next century. This requires leadership and purpose. I am pleased to give my support to this effort to enhance our Nation's overall energy security.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Massachusetts [Mr. MARKEY].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. MARKEY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 238, noes 169, not voting 27, as follows:

The Clerk announced the following pair:

On this vote:

Mrs. Boxer for, with Mr. Anthony against.

Messrs. MATSUI, HUTTO, and DUNCAN changed their vote from "aye" to "no."

Messrs. SPRATT, WHEAT, and DOOLITTLE, and Ms. HORN changed their vote from "no" to "aye."

Mr. MCEWEN changed his vote from "present" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN. The Chair would note that the Chair has been advised that the gentleman from Michigan [Mr. DINGELL] will not be offering his amendment No. 8 that had been made in order under the rule.

Mr. DINGELL. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. JEFFERSON) having assumed the chair, Mr. SKAGGS, Chairman of the Committee of the Whole House on the State of the Union, reported that the Committee, having had under consideration the bill (H.R. 776) to provide for improved energy efficiency, had come to no resolution thereon.

REPORT OF STATUS OF NATIONAL EMERGENCY REGARDING PROLIFERATION OF CHEMICAL AND BIOLOGICAL WEAPONS—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, without objection, referred to the Committee on Foreign Affairs and ordered to be printed:

To the Congress of the United States:

On November 16, 1990, in light of the dangers of the proliferation of chemical and biological weapons, I issued Executive Order No. 12735 and declared a national emergency under the International Emergency Economic Powers Act (50 U.S.C. 1701, *et seq.*).

The proliferation of chemical and biological weapons continues to pose an unusual and extraordinary threat to the national security and foreign policy of the United States.

Section 204 of the International Emergency Economic Powers Act and section 401(c) of the National Emergencies Act contain periodic reporting requirements regarding activities taken and money spent pursuant to an emergency declaration. The following report is made pursuant to these provisions.

The three export control regulations issued under the Enhanced Proliferation Control Initiative are fully in force and have been used to control the export of items with potential use in chemical or biological weapons or their delivery systems.

Over the last 6 months, the United States has continued to address actively the problem of the proliferation and use of chemical and biological weapons in its international diplomatic efforts.

The membership of the Australia Group of countries cooperating against chemical and biological weapons proliferation grew from 20 to 22 members when Finland and Sweden were welcomed into the Group in December 1991.

At the same December 1991 Australia Group meeting, all member countries confirmed that they had implemented or were implementing export controls on all 50 identified chemical weapons precursors. Almost all Australia Group members agreed at the meeting to impose controls on a common list of dual-use chemical equipment. In the first major Australia Group involvement in biological weapons nonproliferation, the December meeting also produced a draft list of biological organisms, toxins, and equipment to consider for export controls. This list was further refined by an Australia Group experts' meeting in March 1992, the intersessional meeting held by the Australia Group, and will be considered for adoption by the June 1992 Australia Group plenary.

Encouraging progress can also be reported in the steps taken by countries outside the Australia Group, including several Eastern European countries and Argentina, to establish effective chemical and biological export controls comparable to those observed by Australia Group members.

Finally, the March 31, 1992, report regarding expenditures under the declaration of the national emergency to deal with the lapse of the Export Administration Act in Executive Order No. 12730 also includes measures related to the Enhanced Proliferation Control Initiative. Pursuant to section 401(c) of the National Emergencies Act, there were no additional expenses directly attributable to the exercise of authorities conferred by the declaration of the national emergency.

GEORGE BUSH.

THE WHITE HOUSE, *May 20, 1992.*

NOTICE OF WAIVER OF APPLICATION OF PORTIONS OF TRADE ACT OF 1974 WITH RESPECT TO ALBANIA—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES

The SPEAKER pro tempore. Laid before the House the following message from the President of the United States, which was read and, together with the accompanying papers, without objection, referred to the Committee on Ways and Means and ordered to be printed:

To the Congress of the United States:

Pursuant to section 402(c)(2)(A) of the Trade Act of 1974, as amended (the "Act") (19 U.S.C. 2432(c)(2)(A)), I have determined that a waiver of the application of subsections (a) and (b) of section 402 with respect to Albania will substantially promote the objectives of section 402. A copy of that determination is enclosed. I have also received assurances with respect to the emigration practices of Albania required by section 402(c)(2)(B) of the Act. This message constitutes the report to the Congress required by section 402(c)(2).

Pursuant to section 402(c)(2), I shall waive by Executive order the application of subsections (a) and (b) of section 402 of the Act with respect to Albania.

GEORGE BUSH.

THE WHITE HOUSE, *May 20, 1992.*

□ 2150

GENERAL LEAVE

Mr. GONZALEZ. Mr. Speaker, I ask unanimous consent that all Members be permitted 5 legislative days in which to extend their remarks, and to include therein extraneous material, on H.R. 776.

The SPEAKER pro tempore (Mr. JEFFERSON). Is there objection to the request of the gentleman from Texas?

There was no objection.

---

100 YEARS OF THE RYMAN-COUNTRY MUSIC'S MOTHER CHURCH

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee [Mr. CLEMENT] is recognized for 5 minutes.

Mr. CLEMENT. Mr. Speaker, this week marks the 100th anniversary of country music's mother church, the Ryman Auditorium in downtown Nashville.

Now the Ryman is not your ordinary auditorium. It is a magical place, full of great history and entertainment. And its fame and community importance predate its use as the home of the "Grand Ole Opry."

In its earliest life, it was a tabernacle, a community place for people of all denominations. It was a meeting place for people to hear lectures from the likes of Commodore Matthew Peary, William Jennings Bryan, and Booker T. Washington. And it was a concert hall for John Phillip Sousa and his band, as well as for the Nashville Symphony and Opera Guild.

Enrico Caruso and John McCormick sang and Rachmaninoff and Paderewski performed from its stage. Even Elvis Presley made one appearance. Will Rogers, Helen Keller, W.C. Fields, Rudolph Valentino, Charles Chaplan, Mary Pickford, Douglas Fairbanks, and Sarah Bernhardt entertained Nashvillians sitting in its pews. And, yes, there were the religious revivals led by such individuals as Aimee Semple McPherson, Norman Vincent Peale, and Billy Sunday.

The Ryman, of course, is best known as the home, of the "Grand Ole Opry," which broadcast from its stage from June 1943 to March 15, 1974. For 31 years, the greats and near greats for country music performed both to those in the Ryman and those listening on their radios.

Even today, 18 years after the Opry moved to the modern facilities at Opryland, the Ryman is still used occasionally as a movie and recording setting. Emmylou Harris recently recorded there as has Burt Reynolds.

Today, more than 200,000 visitors a year come to the Ryman and walk across the same stage used by Patsy Cline and Hank Williams. Thousands sit in the pews and envision the great stars and performances. They imagine listening to the great music, the great lectures, the fire and brimstone sermons. They help recreate the glorious days of the Ryman Auditorium.

I have included some articles about the history of the Ryman which appeared in Sunday's Tennessean.

[From the Tennessean, May 17, 1992]

100 YEARS OF THE RYMAN

(By Joe Rogers)

The Ryman Auditorium came to life 100 years ago to bring God's salvation to Nashville. Roy Acuff, Hank Williams, Cousin Minnie Pearl and the rest of the Grand Ole Opry just expanded that mission to include a little of God's country music and down-home fun for a few decades. So it you think of the Ryman—Mother Church, Old Opry House, whatever you call it—only as the former home of twang, you're missing a good chunk of the story. And the man who caused its construction wouldn't be getting his due. Which wouldn't do. His legacy has lasted a century. It rates a full accounting. Capt. Thomas Green Ryman was, depending on which of the legends surrounding him you choose to believe, a soft-hearted friend of the needy or a notorious rowdy. Or perhaps both. In any event it's true he operated a steamship line on the lower Ohio and Cumberland rivers, and owned a saloon on Broad. On May 10, 1885, he attended a revival hosted by the Rev. Samuel Porter Jones, hellfire and brimstone dispenser extraordinare. Some claim Ryman's intention was to raise a little hell himself at the meeting, if so, the joke was on him. He became intoxicated with the non-liquid Holy Spirit.

And consumed by a desire to construct a "Tabernacle for all denominations that would be amply large to accommodate the largest crowd." As an interim measure he put up a gospel and temperance hall at 57 Broad Street, which seated 250 people and was open every night.

Plans for a more grand building took a big step Feb. 25, 1889, with the Charter of Incorporation for the Union Gospel Tabernacle. Among its purposes were "promoting religion, morality and the elevation of humanity to a higher plane and more usefulness."

By summer the foundation was set, the following spring saw walls six feet high. May 1890 brought the first revival, beneath a tent raised over the incomplete structure.

Ryman claimed credit for the first sketch of tabernacle plans; Hugh C. Thompson served as architect, charging reduced rates for the honor of having his name associated.

Good thing. Ryman was still paying interest on construction costs when he died years later. Raising money to pay off the principal was a continuing effort.

As was the saving of souls. The Rev. T. DeWitt Talmadge held a one-night service in 1893 with hundreds turned way; the Rev. B. Fay Mills followed shortly with another service. In 1896, Dwight L. Moody set forth nightly for two weeks.

The next year a convention of the Confederate Veterans Association brought almost 100,000 people to Nashville—and occasioned the construction of what since became known as the Confederal Gallery in the building. By 1899 the result could seat 3,755 people—and had cost about $100,000.

Capt. Ryman desired that frivolous activities not infect his hall, but not every activity there had a religious bent. In 1892, it housed a lecture on Ponce De Leon. Speakers such as Comm. Matthew Peary, William Jennings Bryan and Booker T. Washington orated during the early years. John Phillip Sousa and band provided a marching ring, the Nashville Symphony and Opera Guild called it home, and various groups held fund-raising gatherings there.

In 1894 it hosted the state gubernatorial election conventions, and commencement exercises also filled the seats. And, in 1904, it held the funeral of Capt. Tom Ryman, officiated at by the Rev. Jones. Jones suggested renaming the auditorium in Ryman's honor, a hugely popular proposal despite the fact that Ryman had opposed it during his lifetime.

From that point it became the Ryman Auditorium in people's minds—though it did no become official until 40 years late, in an amendment to the Charter of Incorporation.

1901 had brought two changes: a new charter, entrusting operation of the building to a civic group; and, at the cost of $750, construction of a stage. Among the first beneficiaries of the latter was the Metropolitan Opera, which brought "Carmen," The Barber of Seville," and "Faust" to the city. It marked the Met's only visit to Nashville, but also opened the door to a string of other opera and theater performances here.

Enrico Caruso, John McCormack and Amelita Galli-Curci came and sang; Rachmaninoff and Paderewski came and played. Assorted symphonies from New York to Russia played the house; Isadora Duncan and Nijinsky danced there; President Theodore Roosevelt got bully in the pulpit.

And over the years the variety of visitors continued. Will Rogers, Helen Keller, W.C. Fields, Rudolph Valentino, Charlie Chaplan, Mary Pickford, Douglas Fairbanks—even Sarah Bernhardt essayed her famous role as Camille at the somewhat advanced age (for Camille) of 61 in 1906.

Not that Bible-thumping, temperance or morals fell completely out of favor within the walls, mind you. Aimee Semple McPherson, Norman Vincent Peale and a fellow named Billy Sunday still found crowds eager to hear their messages.

The association most clearly in the public mind began in June 1943 (according to the records, through some memories—like Minnie Pearl's—insist it was earlier) when the Grand Ole Opry moved into the Ryman.

It was a marriage that continued for 31 years. Other shows continued to play the Ryman—road companies of "Oklahoma" and "Back to Methusalah," along with stars like Bob Hope and Victor Borge and a "performance of the American Ballet Theater. But people remembered the Opry.

And in 1963 National Life bought the Ryman and renamed it the Grand Ole Opry House. It continued to be known that way until March 15, 1974, when the Opry moved to its new location at Opryland. Transplanted was a section of the stage from the Ryman, upon which hundreds of Opry stars had stood during their performances.

Despite a scare that the place might be demolished, the Ryman didn't die after that. Following a recent $1 million exterior renovation, it continues life as one of the city's most popular tourist attractions. Several movies and television shows have originated at least partly from there, including Emmylou Harris's recent special and live album.

Whether it continues to inspire religious conversions is anyone's guess. That might depend on whether the visitor hears the ghost of the Rev. Jones—or Hank Williams.

(Source: Nashville's Mother Church: The History of the Ryman Auditorium, by William U. Eiland.)

THE RYMAN WAS HER CHILD

(By Joe Rogers)

For more than 40 years the Ryman Auditorium translated into one person: Lula Clay Naff.

Married at 17, widowed seven years later, she came to Nashville from Johnson City in 1903 as secretary for the DeLong Rice Lyceum bureau, which handled bookings. In 1914 her boss took another job, she took over the bureau, and leased the Ryman.

She never really let go.

The most famous story claims she took a mortgage on her house to pay a $3,000 guarantee for famed singer John McCormack. McCormack sold out the Ryman, allowed Naff to keep her home, and became her favorite singer in the process.

So what if her friend and attorney later said there was no mortgage. It's the story that counts.

And Naff was nothing if not colorful. She sold tickets from a shirt box and bristled when the memoirs of an actress labeled it a shoe box. She bristled more that the actress misspelled the Ryman as Rymer—and when humorist Alexander Woollcott mistakenly located it in—ouch!—Memphis, she didn't think it funny at all.

"When you talk about the Ryman, you're talking about my child," she once said.

She became manager of the Ryman in 1920, appointed by the Ryman Auditorium Improvement Association that ran it. Until her retirement in 1955 she brought theater, operas, music—whatever would sell—to the Ryman. Eight years before her death in 1960 at age 80, she told a friend that, at her age, the prospect of dying didn't much bother her. "What I hate to think about is that I'll have to give up the Ryman," she said.

THROUGH THE YEARS

1896—two-week revival with the Rev. Dwight L. Moody.

1897—Reunion of confederate veterans held there, having necessitated construction of the Confederate Gallery.

1902—Booker T. Washington addresses convention of Colored Methodist Episcopal Church.

1904—death and funeral of Capt. Ryman.

1906—death of Sam Jones, Sarah Bernhardt plays Ryman.

1913—Helen Keller and Anne Sullivan Macy lecture.

1919—Enrico Caruso and Amelita Galli-Curci play the Ryman.

1920—Lula C. Naff becomes auditorium manager.

1923—Rudolph Valentino dances on stage.

1925—Will Rogers performs his humor.

1934—Basil Rathbone and Orson Welles perform.

1938—Helen Hayes appears in "Victoria Regina."

1941—"The Philadelphia Story" features Katharine Hepburn, Van Heflin, and Joseph Cotton.

1943—The Grand Ole Opry moves from the War Memorial building to the Ryman. Previously housed in the old National Life building, the Hillsboro Theater and the Dixie Tabernacle as well as the War Memorial, the Opry stays at the Ryman until 1974, its longest home.

1944—Name officially changed to Ryman Auditorium.

1947—The Francis Craig Orchestra records the pop ballad "Near You" at the Ryman. It becomes Nashville's first million-selling record and spurs the construction of the city's first record-pressing plant.

1949—Bob Hope brings Doris Day and breaks all attendance and receipt records; Hank Williams gets an unprecedented six encores at his Opry debut, singing "Lovesick Blues."

1952—Ted Mack Amateur Hour holds program in Ryman.

1954—Elvis Presley makes his one and only appearance.

1955—Lula C. Naff retires as manager.

1960—The Nashville Symphony makes its recording debut during an eight-hour session for Dot Records at the Ryman.

1963—building sold to National Life.

1963—The Opry considers concelling because of the deaths of members Patsy Cline, Hawkshaw Hawkins and Cowboy Copas in a plane crash, Instead, The Jordanaires and Roy Acuff lead an evening of tribute. Minnie Pearl makes the crowd laugh, but walks into the Ryman wings with tears streaming down her face.

1969–71—The Johnny Cash Show is taped weekly on the Ryman stage by ABC–TV. Guests include Bob Dylan, Louis Armstrong, Pete Haggard, Arlo Guthrie, Jose Feliciano, Glen Campbell, Rod McKuen and Linda Ronstadt.

1974—Last Opry song sung on the Ryman stage, a tearful "Will the Circle Be Unbroken.".

1979—Sissy Spacek films part of her 1980 Oscar-winning "Coal Miner's Daughter" performance at the Ryman.

1984—Jessica Lange conjures up Patsy Cline on the Ryman stage for her Oscar-nominated role in 1985's "Sweet Dreams."

1991—Emmylou Harris records her '92 "At the Ryman" TNN special and Warner Bros. CD in the auditorium.

1992—Burt Reynolds films a pair of his "Conversations With Burt" specials on the Ryman state. 100th anniversary celebrated.

"A SENSE OF AWE"

(By Robert K. Oermann)

Emmylou Harris didn't have any anniversary on her mind when she recorded "At the Ryman," she just liked the sound of the venerable Nashville hall.

"You can definitely feel something there," she says, echoing the sentiments of many who have stepped inside the century-old structure.

"I don't know whether it's just the fact that wood absorbs the vibrations—music and people, sweat, cigarette smoke, bad notes, good notes, tenor parts, all that stuff—I'm sure there's some scientist that can explain it all in some physiological way.

"But whatever it is, it certainly gives you a sense of awe or that you are in the presence of something other than what is known. 'There are more things in heaven and earth,' and all that stuff," she adds, tossing some Shakespeare into the thought.

The Ryman Auditorium, Harris hastens to say, also has superb acoustics. And that was a big part of her decision to record the live project there with her Nash Ramblers band. "At the Ryman" has become a critically-applauded CD, a Nashville Network cable TV special and a home video release.

"No, I didn't know it was the 100th anniversary at all. In fact, it's interesting how we discovered it. I was at one of the Super X drugstores here in town. I was buying something and I saw these night lights on the back shelf shaped like the Ryman and I went, 'Far out,' so I bought 'em for my producers and my engineer as a little after-the-album gift.

"Allen Reynolds, one of the producers, just happened to look on the bottom and there it said, 'Ryman Auditorium, 1892.'

"So you do a little quick calculation there and you go, 'Wow! It's the 100th anniversary!' "

When Harris first came to Music City in 1969–70, she was a down-on-her-luck folk singer making do with waitress jobs, food stamps and Medicaid assistance. At the time, the Ryman Auditorium was still the home of the Grand Ole Opry, but she never went.

"And I regret it, too."

Her enormously successful solo career began in 1975 and she moved back to Nashville in 1984.

"At the Ryman" is her first album with her new hotshot Nash Ramblers group—Sam Bush, Al Perkins, Larry Atamanuik, Roy Huskey Jr. and Randy Stewart.

The CD features a cover illustration by Hatch Show Print, the historic show-poster company in downtown Nashville that once printed similar-looking placards for the Ryman's touring Opry stars.

And inside the CD are several songs you could have heard during country music's heyday at the Ryman, 1943–74—"Half as Much," "Cattle Call," "Get Up John," "Smoke Along the Track," "Scotland," "Like Strangers" and "Guess Things Happen That Way."

RYMAN TUGS AT BILL

(By Bill Anderson, "Whispering Bill," Opry star)

The first time I ever saw the Ryman Auditorium I was disappointed. Extremely disappointed. Oh, the outside of the building looked just like it did in all the photographs I had seen, and the rounded, wooden church pews wound their way in semi-circular fashion across the balcony just like the picture showed in my Hank Williams songbook, but it still wasn't what I had imagined. I simply could not believe that this hallowed "Mother Church of Country Music" sat on a narrow sidewalk less than a dozen feet from a crowded city street in the middle of downtown Nashville.

Mom bought a new dress for the occasion. My sister and I swore off fighting for an entire week. I told my high school football coach that I might not be back for the beginning of fall practice because Dad was taking me to the Grand Ole Opry. He said if I didn't get back on time, I'd have to sit out the season. My priorities were in order even then. I never played football again.

Our seats were just under the Confederate Gallery, as the balcony was called, on about the tenth or twelfth row downstairs, just off to the right of the stage. We hadn't been seated 10 minutes when someone spilled a soft drink onto the floor above. We were packed so tightly into the pews that we could only sit and watch helplessly as the cold, dark liquid dripped through the cracks and into Mom's lap. It spoiled her pretty new dress.

I was surprised—and disappointed again—that the big red curtain across the front of the Ryman stage had a huge hole in it. But the minute that curtain flew back and the Solemn Ole Judge blew his famed steamboat whistle and cried, "Let'er go boys!" I didn't care if the building even had walls. I was in the Ryman Auditorium, the home of country music. I knew for certain I had died and gone to heaven.

I can't pass the Ryman even now without all sorts of memories leaping out from between the bricks, causing me to smile, to reflect, to remember. Things like the night the bug flew down my throat right in the middle of my song. The afternoon I was rehearsing a Hank Williams song on stage and all the electrical power in the building eerily went out.

I walk inside the Ryman today and I can almost hear Grant Turner's voice praising Martha White flour. "Goodness gracious," he would boast as only he could, "it's good!" I can still see the glow of Ernest Tubb's smile, feel Patsy Cline's determination, marvel anew at Roy Acuff's showmanship, and be warmed all over again by the genuine goodness of Stringbean, Tex Ritter, and Minnie Pearl.

The Ryman Auditorium has always been, to me, a powerful magnet pointed directly at my heart.

Ryman Auditorium

(By Joe Rogers)

It is a typical morning as a busload of tourists stands on the most famous stage in country music.

A tour leader, after dispensing a condensed version of the building's history, leads them in a chorus of "You Are My Sunshine." A couple of the more courageous toss in their own yee-his for verisimilitude.

"Now you can go home and tell everyone an Opryland official asked you to sing on the Grand Ole Opry stage," the tour guide says, to much laughter.

It's about the only regularly scheduled music that goes on at the Ryman Auditorium now. Eighteen years after the departure of the Grand Ole Opry—and 100 years after its birth as a non-denominational tabernacle—the Ryman spends its days as a museum, purveyor of souvenirs and tourist attraction.

"I used to come here when I was a little boy," says Frankie Blackmon of St. Pauls, N.C. "You could climb in the windows and sit in them, it was so crowded."

His last previous visit was 32 years ago or so. "I was about 13," he says. "There used to be a little restaurant right over here—and we sat right across from Loretta Lynn.

"She was a little girl then, too."

Martha Farrington of High Point, N.C., came to Nashville to attend a convention and see her husband inducted into the trucker hall of fame. She stayed in a downtown hotel but didn't believe it when her husband pointed out the former Opry home.

"I said, "No it's not, it's an arts building," she says. "I guess it is an arts building."

"As soon as I saw it last night I recognized it from Coal Miner's Daughter," says daughter Teresa Brown, referring to the 1980 movie of Loretta Lynn's life that won an Oscar for Sissy Spacek. She also saw the new Opry digs, she says, and "I was thrilled."

"But this is the best. This is worth it. This is where it all began."

It isn't, exactly. The Opry started in 1925 as the "WSM Barn Dance" at the radio station and had several homes before settling at the Ryman in 1943. But nobody is giving a test and checking answers, and a little distortion of the precise sequence of events is inevitable.

"It's really smaller than I thought it would be," says Anthony Cutaia of Port Arthur, Texas. "I thought it would be deeper.

"I noticed that when they were singing, the acoustics were good," he says.

"I can see something spiritual in it, too," says his wife Glinda, who, when she mentions the Opry, pronounces it "opera."

"I tell you what I like the best is the old pictures they've got around," says Charles Posey of Austin, Texas. "The crowd pictures—you can relate to that. And all the people are like this—(he leans forward and stares)—like it was one of the biggest events in their life to come to this.

"Whereas today, kids go to a concert and the next day they pretty much forget about it."

The Ryman's appeal seems more of permanent nature. "You can see some people are just mesmerized," says Mary Lou Gallegher, one of the tour guides.

Some also feel the need to associate themselves with the Ryman in a visual way—they scrawl their names and messages on the walls.

Mostly, though, the people pass through leaving only their money. Immediately after the first tour bus departs the stage, two more arrive. A second tour guide dispense a second history—similar, but not agreeing on all points—and leads the group in a rendition of "You Are My Sunshine."

"Now you can go home and tell everyone. . ."

The Memories Linger

The Ryman has an unusual stage. To make the stage deeper the backdrop was moved back until only about three feet separated it from a blank wall, making passage from stage left to stage right tedious.

In the early 1950s we were enjoying a fine performance of the American Ballet Theater. Three beautiful ballerinas were dancing center stage when, of all things, the old janitor appeared making his way across the stage. He was almost half way before it dawned upon him that he was in front of, not behind, the backdrop. Unfazed, he completed his journey. Like us, everyone choked on their laughter, the three ballerinas continued their number doing the same and finished to a great ovation of laughter and applause.

This incident is surely part of ballet lore.—P.J. Broome, Nashville.

I remember going to the Ryman to hear Gypsy Smith in a revival and a song that I remember "In My Heart There Rings a Melody." Every time I hear this song I remember the first time I heard it at the Ryman.—Christine Speight, Madison.

My mother and I used to go to various musical programs at the Ryman. We went to a gospel all-night singing and took a sack lunch. This was during the early 1950s.

One night we went to hear the Robert Shaw Chorale. We could hear sleet on the roof, but had no idea of the severity. When we came out of the Ryman there was about six inches of sleet on the street. When we finally got on a bus, it took us until about 4 a.m. to get home—Shirley L. Nicholson, Nashville.

I'm not sure of the year, 1948 or 1949. My mother said I could go see Roy Rogers if I would quit biting my nails. It worked. Imagine my delight to see a big 18-wheeler, blue, as I recall, parked on 5th Avenue that said "Roy Rogers, Trigger, and Bullet the Wonder Dog." It was quite a show with Roy, Dale, Gabby Hayes, Pat Brady and others. I also saw Gene Autry sometime in that era.

Roy was my favorite and my hero. I still have a great admiration and respect for him.—Tom Mosier, Goodlettsville.

In 1965 I was an aspiring concert trumpet player and on scholarship with the University of Tennessee bands. During those days as a music student, I was about as far away from country music as you could get.

In that year Dr. Jay Julian, director of bands, was in the process of building the "Pride of the Southland" band into what it is today. As a recruiting vehicle during concert season, we did a concert tour of the major Tennessee cities in order to generate interest among talented high school musicians. I remember hearing that we would use the Ryman Auditorium when we played Nashville. I said, "You've got to be kidding; isn't that the place they do that Saturday night, WSM honky tonk show from?" The reply was, "Yes, but wait until you hear the acoustics in that place—better than anywhere in the country."

And they were right. I couldn't believe my ears. We even made a recording (which I still have) of the performance that night at the Ryman. Needless to say, I felt differently about the Ryman after that.—Al Hennigan, Nashville.

Stage plays were booked into the Ryman when I became "The Tennessean" theater critic, and for all its uncomfortable church pews its big stage easily accommodated musicals.

A touring company of "Guys and Dolls" was there, in the early 1960s as I recall, and the idiosyncrasies of that historic stage upstaged one wonderful scene.

It's when the girls of the Hot Box line up on the apron of the stage to sing, in their Bronx-squeaky voices, "Take Back Your Mink". At the end of the number, the girls in the chorus line whip off their fur jackets and fling them on the floor in front of them.

It's a very funny musical moment under any circumstances. But in the Ryman, when the ratty furs hit the floor on the same beat, a cloud of dust flew up as if rehearsed to become a curtain in front of the singers.—Clara Hieronymus, Nashville.

The most memorable experience of mine at the Ryman was back in 1944 I saw "The Passion Play." I had just become a Christian and it seemed so real. The resurrection scene and at the closing the Fisk Jubilee Singers sang the Hallelujah Chorus (from Handel's Messiah). It made your hair stand up. It is one of the favorite memories of my life.—Vera Newsome, Nashville.

When I was in high school in Franklin, Ky., we came to the Ryman to see Katharine Hepburn in "Philadelphia Story" and Helen Hayes in "Victoria Regina." The night we saw "Victoria the curtain literally fell, with a huge boom and cloud of dust right in front of Helen Hayes. When the dust finally settled, Miss Hayes hadn't moved an inch. The audience gave her another big hand!—Carolyn Malone, Nashville

Back in the late '40s, when I was a teen ager and still at West End High School, Bob Hope was in town for an appearance I shall never forget his first words when he walked out on stage: "Don't ever take the Band-Aid off of this place."

I've told it many times to my family—Dorothy W. McMahon, Nashville.

As a stagehand working backstage at the Ryman Auditorium I have experienced many, many non-Opry incidents that could be rated funny or informative.

In the early '60s we did a television taping of "The Jimmy Dean Show." Part of the crew were from New York City and we spent the long week lighting, moving sets, and all the things that make television palatable.

The conversation quickly turned to the history of the Ryman, etc. After being told that the ghost of Capt. Tom Ryman walks the rafters above the audience every night at midnight the New York-based crew ever skeptical, wanted to stay and hear for themselves. Naturally I had to leave early, or so they thought, and quickly slipped in the back door and up the extension ladder to the area above the audience.

Exactly at midnight, I started walking and kicking dust through the cracks. The crew didn't stay long—out the front door without looking back. They were so impressed with this that, when they got back to New York they had it printed in one of the local papers.—George Lunn, Mount Juliet.

WHAT'S NEXT AT RYMAN?

(By Joe Rogers)

Recognizing the 100 years of the Ryman Auditorium's past begs the question: What about its future?

"We can talk about some things that we would like to do and would hope to do, but so much depends on factors other than what we want to do," says Hal Durham, Grand Ole Opry general manager.

"Basically, we don't know what will happen."

Opryland USA Inc., owner of the Ryman and parent company of the Grand Ole Opry, does know what's happening now. The Ryman—open 8:30 to 4:30 seven days a week, draws about 200,000 visitors a year as a museum and tourist attraction.

"The building is pretty much self-supporting," Durham says. And to assist its physical support, Opryland spent about $1 million a couple of years ago to shore up the building's exterior.

"It stands to reason we'd want to continue the project and eventually have the building restored on the inside as well so we could enhance its value to us, as an attraction.

"And certainly we've talked about the possibility of creating a performance venue down there."

Those other factors Durham mentioned include development of other properties in the lower Broad area, he says. What happens to the area surrounding the Ryman will affect the timetable of what happens with the Ryman.

Meanwhile, lots of requests for the use of the building come in, Durham says, most of which can't be accommodated.

Occasionally, someone in the music business will say, "You know, it'd be a good place to do a country music show," Durham says. "And we say, yeah, we did one there for a number of years."

SECTION 936 AND THE CARIBBEAN BASIN INITIATIVE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas [Mr. PICKLE] is recognized for 5 minutes.

Mr. PICKLE. Mr. Speaker, last week the General Accounting Office [GAO] issued a report analyzing the tax benefits of companies that operate in Puerto Rico and benefit from section 936 of the Internal Revenue Code. Section 936 provides for tax-free treatment of income earned by U.S. corporations from their operations in Puerto Rico. One of the primary purposes of this provision was to encourage investment in Puerto Rico by U.S. firms in order to create jobs there. Unemployment in Puerto Rico is now approaching 17 percent.

The GAO report concludes that the lion's share of the benefits of section 936 is realized by U.S. pharmaceutical companies. These companies produced only about 18 percent of the jobs created by all section 936 companies, but they realized about 56 percent of the tax benefits under section 936.

On an average, pharmaceutical companies in Puerto Rico save an average of $70,788 in taxes for every person they employ. For section 936 companies engaged in the electronics equipment industries, a tax savings of $16,450 per employee was realized, while the overall rate of tax savings across all industries was $10,593 per employee.

These figures for the pharmaceutical industry are astounding, but they're not new. In April 1990, the Subcommittee on Oversight of the Committee on Ways and Means held a hearing regarding section 936. We pointed out that the Department of the Treasury had estimated that section 936 pharmaceutical companies realize $2.64 in tax savings for every dollar they pay in employee compensation. On the other hand, the electronics companies doing business in Puerto Rico saved only 96 cents for every dollar of employee compensation. In the textile industry, tax savings were only 28.5 cents per every dollar of employee compensation.

Needless to say, pharmaceutical companies in Puerto Rico are not paying average salaries of $70,788. Rather, they set up their most profitable operations there to obtain the benefits of section 936. They also are able to realize substantial tax savings on tax-free investment income they earn in Puerto Rico. In fact, there are approximately $10 billion of section 936 funds on deposit in Puerto Rican financial institutions earning tax-free income.

Back in 1985 and 1986, when the Congress was considering tax reform, the disparity in tax savings among the various industries doing business in Puerto Rico led to calls for replacement of section 936 with a wage credit. With a wage credit, every company doing business in Puerto Rico would realize $1 in tax savings for every dollar paid out in compensation. In the view of many, a wage credit would have been the most efficient tax subsidy of jobs for Puerto Rico.

In the end, however, section 936 emerged relatively unchanged from the debate on tax reform. We did change section 936 to allow for investments of the profits of section 936 companies in other Caribbean countries. We made this change with the understanding that the Government of Puerto Rico would make every effort to see that at least $100 million in loans of section 936 funds would be made every year to eligible Caribbean Basin Initiative [CBI] countries. The use of these funds, for investments in business assets and development projects in the Caribbean Basin, furthered the "trade, not aid" strategy embodied in the Caribbean Basin Economic Recovery Act.

When compared to the $10 billion of section 936 funds in Puerto Rican banks, $100 million is really a drop in the bucket. Nevertheless, during the first 3 years after passage of the 1986 tax reform legislation, there had been only $79 million in loans made to other CBI countries. In the last 2 years, we have seen substantial progress in the use of loans of section 936 funds for business investments and development projects in other CBI countries. In 1990, $179 million in loans were disbursed, and in 1991, this figure reached $233 million.

This progress in the use of low-interest loans of section 936 funds to the Caribbean nations is encouraging. Nevertheless, I believe that we can do more to encourage investment and development in the fragile economies of the Caribbean region. I hope that the Department of the Treasury takes advantage of the recent success of this loan program to encourage more countries to sign Tax Information Exchange Agreements and thus be eligible for these low-interest loans. I hope the Government of Puerto Rico will continue to give this program a high priority and continue to promote loans of section 936. And I hope the pharmaceutical companies that reap such substantial benefits from section 936 will spread some of their wealth around to some of Puerto Rico's less affluent neighbors.

WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 4990, RESCINDING CERTAIN BUDGET AUTHORITY, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. BONIOR, from the Committee on Rules, submitted a privileged report (Rept. No. 102–531) on the resolution (H.R. Res. 462) waiving all points of order against the conference report on the bill (H.R. 4990) rescinding certain budget authority, and for other purposes, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

WAIVING ALL POINTS OF ORDER AGAINST CONFERENCE REPORT ON H. CON. RES. 287, CONCURRENT RESOLUTION ON THE BUDGET—FISCAL YEAR 1993, AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. BONIOR, from the Committee on Rules, submitted a privileged report (Rept. No. 102–532) on the resolution (H. Res. 463) waiving all points of order against the conference report on the concurrent resolution (H. Con. Res. 287) setting forth the congressional budget for the U.S. Government for the fiscal year 1993, 1994, 1995, 1996, and 1997, and against consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

PERMISSION FOR COMMITTEE ON RULES TO FILE PRIVILEGED REPORT ON FURTHER CONSIDERATION OF H.R. 776, COMPREHENSIVE NATIONAL ENERGY POLICY ACT

Mr. BONIOR. Mr. Speaker, I ask unanimous consent that the Committee on Rules have until midnight tonight to file a privileged report providing for the further consideration of H.R. 776, the Comprehensive National Energy Act.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

Mr. SOLOMON. Mr. Speaker reserving the right to object, there was a little confusion over her on our side of the aisle. If I might just ask the majority whip, the two conference reports that were just filed were on the budget and on the rescissions. The gentleman is now asking unanimous consent for late filing on the rule on the remainder of the energy bill?

Mr. BONIOR. If the gentleman will yield, that is correct.

Mr. SOLOMON. If the majority whip would be good enough to enlighten us about tomorrow's schedule, there seems to be some confusion. Could the gentleman give us specifically what we are going to be doing tomorrow and about what time we might be able to get out of here tomorrow?

Mr. BONIOR. If the gentleman will yield, the House will commence with floor action at 10 a.m.,and we will proceed with the rescission package, that which was just filed. We will also do the NIH conference report. Then we will go back to the energy bill, and we will work approximately until 6 p.m., somewhere in that neighborhood.

Mr. SOLOMON. So we will not be doing the budget conference report tomorrow then?

Mr. BONIOR. The gentleman is correct.

Mr. SOLOMON. When the gentleman says 6 p.m., will we be able to finish that energy bill by then, and if not, would we be able to leave any earlier for the Memorial weekend? Is there any judgment on that?

□ 2200

Mr. BONIOR. If the gentleman will yield, I do not believe we will be able to finish the energy bill tomorrow by 6:00 or 7:00, because of the number of amendments and the hours that the new rule will encompass. So my sense is that we will try to recess at a reasonable hour, but to my knowledge, we are talking about 6 or 7 o'clock.

Mr. SOLOMON. Further reserving the right to object, I certainly thank the gentleman.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. SOLOMON. Further reserving the right to object, I yield to the gentleman from Pennsylvania.

Mr. WALKER. Mr. Speaker, just a question. I did not hear anything about a rule or the Committee on Rules meeting or filing a late report on the NIH bill that you intend to bring up tomorrow. There was some indication that the NIH bill had scope problems and, therefore, would have to be brought to the floor under a rule. Is that not the case, or is there an intention to deal with that?

Mr. BONIOR. If the gentleman will yield further, staff advises me that the scope question that the gentleman from Pennsylvania raises just came to our attention, and that we are examining that now. There may be a possibility for a rule on that, and if it is necessary, and, of course, as the gentleman knows, under the rules, we would need two-thirds. I suspect that would not be forthcoming. So we are looking at the question of scope, and if it does by necessity require a rule, we will seek one. If not, we will bring it to the floor.

Mr. WALKER. If the gentleman will yield further, just to clarify the schedule, if, in fact, it does require a rule and have a scope problem, then we probably would not do it tomorrow?

Mr. BONIOR. If the gentleman will yield further, that would be my sense. Yes. Because we would need two-thirds, and my guess is that would be difficult to come by.

Mr. WALKER. Mr. Speaker, I thank the gentleman.

Mr. SOLOMON. Mr. Speaker, I thank the gentleman, and I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. JEFFERSON). Is there objection to the request of the gentleman from Michigan?

There was no objection.

VACATION OF 60-MINUTE SPECIAL ORDER AND GRANTING OF 5-MINUTE SPECIAL ORDER

Mr. DREIER of California. Mr. Speaker, I ask unanimous consent to vacate my 60-minute special order for today and that I be granted a 5-minute special order for today and proceed at the kindness of the gentleman from New York [Mr. OWENS].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

PROGRAM FOR GREATER STABILITY AND SUPPORT (PROGRESS) FOR THE INDEPENDENT STATES OF THE FORMER SOVIET UNION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DREIER] is recognized for 5 minutes.

Mr. DREIER of California. Mr. Speaker, I thank my friend, the gentleman from New York, for allowing me to take this 5 minutes.

Mr. Speaker, as we all know, foreign aid has become a very controversial subject lately. The public has grown increasingly angry about aid to other countries when we have plenty of problems right here at home, not to mention the skyrocketing budget deficit.

The American people are justifiably very, very angry. All too often our tax dollars in the past have gone to countries that are hostile to the United States and our interests and to democratic ideals, and our efforts result in little or no apparent benefit to our country or to the recipient.

By no means should foreign aid be an entitlement. Even with the fall of the Soviet Union not long ago, our greatest adversary, the United States should not turn over aid blindly just so that we can say that we contributed to the cause of freedom. With the remnants of a command-and-control economy still in place, recent infusions of cash and humanitarian assistance have disappeared down the drain of corruption, inefficiency, and archaic distribution systems.

I recall very well when the former President of the Soviet Union, Mikhail Gorbachev, could not tell anyone where the $1 billion in aid that we had provided to the then Soviet Union had gone.

Despite the obstacles, Mr. Speaker, I believe that we should help Russia, the Ukraine, the other republics including Kazakhstan, which has just recently within the past few days indicated that it will bring an end to nuclear expansion, and other republics within the new Commonwealth of Independent States that are working to establish democratic governments and free markets. In doing so, however, I believe it is imperative that we establish stringent guidelines and standards so that no taxpayer money is wasted.

That is the reason that just this evening I have introduced H.R. 5225, which would allow assistance only to those countries that are committed to political pluralism, a free economy, human rights, and friendly relations with the United States. But we should also recognize that Government aid alone cannot rebuild this former Communist nation.

I firmly believe that the best help the United States could offer to the former Soviet Union is private investment, not direct Government aid. Private investment will help build a market system from the ground up while direct aid alone will only serve to perpetuate the centralized bureaucracies that characterized the Soviet Union.

However, the problem is that many United States companies that would like to invest in the former Soviet Union are blocked by bureaucratic intransigence and a lack of information. Without accurate information about economic progress, investment laws, corporate taxes, or environmental restrictions, few American businesses can be expected to take that plunge and invest in the new Commonwealth of Independent States.

To facilitate the transfer of information to potential investors, the bill I have introduced, H.R. 5225, would establish a computerized business information management system to provide information on investment opportunities to United States business and information on potential United States investors to businessmen and women and from the republics of the former Soviet Union.

The legislation also asks the Small Business Administration to use its senior corps of retired executives, the SCORE program, to provide management assistance for small businesses in the former Soviet Union.

In addition to creating a more hospitable climate for investment, my bill would help spread information about the workings of a democratic system of government by establishing a fellowship training program to bring young leaders to the United States to work with the Congress, business, and the media.

H.R. 5225 would also encourage United States businessmen and women to spend substantial amounts of time in the former Soviet Union working with developing businesses through increased tax incentives. It would double the amount of income that may be exempt from the limitation on foreign earned income and would allow United States companies to deduct expenses associated with management conferences held in eligible republics of the former Soviet Union.

The problems facing the new Commonwealth of Independent States demand creative solutions, not the failed policies of simply sending hard-earned U.S. taxpayer dollars overseas. I believe that my legislation, H.R. 5225, will be a very good start as a move in that direction.

I urge my colleagues to cosponsor it.

Mr. Speaker, I again thank my very good friend, the gentleman from New York [Mr. OWENS], for allowing me to step in here.

THE TRAGEDY IN THAILAND

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California, [Ms. PELOSI] is recognized for 5 minutes.

Ms. PELOSI. Mr. Speaker, I rise today to express concern about the horrible shootings of Thai citizens, including small children who were speaking out for democracy against the military dictatorship there. Once again we are seeing courageous people from all walks of life trying to promote democratic reform. Once again, we are seeing a military establishment brutally crushing a people's movement for freedom. And, once again, we are seeing that the administration's policy leading up to these events was communication to authoritarian despots a willingness to turn a blind eye to abominable activities.

So far, at least 40 people have been killed and over 600 wounded as the people of Thailand have taken to the streets against the country's nonelected Prime Minister. By eyewitness accounts, it is clear that the demonstrators span the spectrum of Thai society, male and female, from workers and farmers, to students and business people. I salute the courage and determination of these people as they struggle against totalitarianism and for democracy.

The situation in Thailand has been a tragedy waiting to happen. For six decades, Thai politics have been characterized by military dominance and the use of force against demonstrators. Now, a clear message must be sent to the military that their actions will not be tolerated.

I call on the administration to send an unequivocal message to the Thai military. Half measures will not suffice. The administration should completely suspend the United States-Thai joint military exercises and should encourage multilateral institutions and other countries to use economic leverage to improve human rights in Thailand.

Mr. Speaker, the Bush administration missed an opportunity to send an unequivocal message to China that human rights must be respected. The consequences of the administration's weak response after Tiananmen Square are now having a ripple effect. The President's China policy undermined not only the prodemocracy movement in China, but also, as we have seen this week in Thailand with General Suchinda's actions, the efforts of prodemocracy activists elsewhere.

□ 2210

OLD-FASHIONED VALUES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. OWENS] is recognized for 60 minutes.

Mr. OWENS of New York. Mr. Speaker, I rise to speak in opposition to two big lies that are being recited over and over again with increasing momentum by the administration. These special orders provide an opportunity for a Congressman to at least get on the record some kind of answer to what the representatives of the administration are able to broadcast over the media day after day.

We have high level administration spokesmen who have been roaming the cities, condemning the cities, consulting the cities, making it appear that the cities are a great threat to our way of life. That is one big lie, that big cities are threatening our way of life.

The second big lie that high administration officials are perpetrating day after day is that we need to emphasize old-fashioned values in order to solve the basic problems confronting our society.

Now, this is not exactly a lie. I agree that we need to emphasize old-fashioned values. The lie is that the administration pretends that the old-fashioned values have to come from communities, neighborhoods, and families, and the Government has no role in emphasizing old-fashioned values. Old-fashioned values are not being emphasized here in Washington. Washington is like Sodom and Gomorrah. Washington is the last place that should attack neighborhoods and communities and challenge them on values. It is a big lie, and we need to answer the big lie regardless of what level in the administration the big lie comes from.

We have had the minority whip on this floor talk about big cities and how they threaten our way of life. We had the minority whip on the floor talk about the need to emphasize old-fashioned values, the need to stop wasting Government funds and end the welfare state.

I am all in favor of old-fashioned values. I am all in favor of ending the welfare state, but I think that the promulgation of old-fashioned values and the effort to end the welfare state have to begin right here in Washington.

The administration's spokespersons who talk to the people of America about values do not talk about the fact that Washington is a place which protects the culture of the gun. Washington is a place which protects the right of networks to broadcast endless amounts of violence over the airways. Our airways are regulated by the Federal Communications Commission. It is a Federal matter. The individual citizen of the United States does not have a right to broadcast over the airways. They have to have a license.

For years we have been subjected to violent programming and Washington has never done anything about it. The FCC has done nothing about it.

In that violent program, the culture of the gun is perpetrated. Is it any wonder that in our cities large amounts of young people kill each other without remorse. Large amounts of young people are immune. It seems they have no feelings when it comes to perpetrating violence. They have been fed a diet of violence over television for so long until it means nothing; but this is all perpetrated by Washington.

The power to regulate violence on the airways and the power to regulate the gun, the manufacture of guns, the sale of guns, the distribution of guns, is right here in Washington. It is all protected by the White House. It is all protected by the administration. This administration and its cohorts have attacked Public Broadcasting. Public Broadcasting gets a very small amount of money from the Federal Government, but they do not broadcast violence. They broadcast programs which are very informative. They broadcast programs that are quite uplifting. They are under attack, but not the violence, not the network of violence. The contributors to this violence, the friends of the administration, the people who are protected by this administration are obviously immune to any lectures on violence.

Washington repeatedly attacks our values, old-fashioned values like thrift, frugality, they are certainly not held up as examples in Washington.

The same administration spokesmen who go about the cities lecturing poor people have never raised their voices to attack the looting of the savings and loan industries, the way the savings and loan associations have looted the Treasury. They do not want to talk about that kind of looting. They do not want to talk about the fact that out of our cities large amounts of dollars, depositors' dollars, large amounts are transferred out of city banks into savings and loan banks scattered throughout the country to build shopping malls and housing developments and condominiums and hotels, numerous projects, real estate developments, that all went kaput. They went bankrupt, and the savings and loans had to be bailed out by the FDIC. The savings and loans had to be bailed out by the American taxpayers.

Nobody wants to talk about how that relates to our value system. Why did we allow bankers to steal so much money, or in some cases they say it was not stealing, it was poor judgment. Why did we allow so much poor judgment to carry away so much of the taxpayers' money? Why do we permit in addition to poor judgment a lot of stealing? There are blatant examples of stealing. There are blatant examples of wholesale thievery that was permitted by our Government with its value system, or the value system that it claims it has about thrift and frugality and honesty. Nobody talks about this when they go out to lecture the American people about values.

Let us talk about the savings and loans in terms of the system that was set up, how the regulators themselves were corrupted. They were people who were on payrolls in Washington. The regulators themselves were corrupted. In many cases high-level policymakers were pressuring them. The auditors, the accountants were all corrupted, the lawyers were corrupted.

People at very high levels, people who have college degrees, law degrees, MBA's, they all were part of this festering cesspool that created the savings and loan debacle; yet we hear nobody in the administration lecturing to America about the need to avoid this kind of wholesale thievery and these kinds of examples being set for our young people.

The savings and loan looting is unprecedented in history. Never before has so much of the taxpayers' money been required to take care of the scandal, to bail out a situation that never should have happened.

The American people get nothing in return for the taxes thrown down the drain in order to fill the vacuum that was created by the thievery of the savings and loan associations.

This is a moral issue. There is probably no issue of greater moral significance in America today than the savings and loan scandal. If it were examined thoroughly and you see how so many of our highest level citizens, so many of our most educated citizens, so many of our most powerful citizens were all involved in perpetrating this outrageous scandal on the American people.

Beyond the savings and loan looting, the commercial banks have also come in. We will hear more about them after the November elections. It is all very quiet now, but we are going to find a crisis in the commercial banks that has been there for a long time that will be exposed and revealed after the next election.

It was after the last election of a President that we suddenly discovered the savings and loan problem. We are suddenly going to discover the mushrooming commercial bank problem.

What is the commercial bank problem? Very much the same as the savings and loan. High-level people, well trained, the best educated men and women in America allowed themselves to be placed in situations where their coffers are empty because they made poor judgments, they say, or they were swindled or they acted in collusion with others to fleece the depositors of their money. Already $25 billion has been fed into the commercial banks. In addition to the more than $150 billion that the savings and loans have been appropriated, we have $25 billion that has been appropriated to help bail out the commercial banks.

□ 2220

Mr. Speaker, this is no small matter. These are funds which could have been used to provide measles shots for all those youngsters in the inner city that are now suffering from the measles epidemic. It could have been used to provide the proper care for people who are suffering from a new strain of tuberculosis because basic public health steps that we knew we should have taken were not taken. Money was not there for inoculations. Money was not there for immunization shots. As my colleagues know, basic majority was violated because the money that was there has been funneled in other directions to make the rich richer.

It is no accident that 1 percent of the wealthiest American people have more wealth combined, 1 percent, than 90 percent of the people who are on the bottom of the rung. One percent at the top have more wealth than 90 percent at the bottom combined. It is no accident.

I say to my colleagues, "If you allow your government, if Washington is an agent, is a vehicle for funneling money from the depositors, mostly middle class depositors, really poor people have no money to put in banks. It is the middle class whose money was funneled from their hands into the hands of rich and powerful, dishonest, corrupt people. These are the kinds of values that the administration should be speaking about to the American people.

Let us go one step further. Our young people out there are taught patriotism. We all read the story of the man without a country, and a number of other pieces of literature are factored into our curriculum all over America. Patriotism is very important, an old-fashioned value we try to ascribe to.

Let us thoroughly examine the value systems that were corrupted, and manipulated and mutilated in the Iran-Contra venture. Iran-Contra was treason in the basement of the White House, treason in the basement of the White House that basically has been unpunished. We know treason was committed, treason and thievery. It was treason, on the one hand, violating the intent of the law, the congressional mandates; stealing, on the other hand, because they used bribes from countries which we were illegally selling arms to, and they raised money in various ways to circumvent another policy of the government, another congressional mandate. So, Iran-Contra was double-barreled treason taking place in the basement of the White House.

Where are all the moralists? Why do they not lecture the American people about the implication of that kind of value system? What can happen to a nation which permits in the basement of the Executive Office, the home of the President, treason to take place and it go unpunished?

The Iraqi loans. We circumvented the law by giving large loans to Saddam Hussein even though we knew at one point that Saddam Hussein was converting loans for agriculture programs which were designed to buy food into cash to buy weapons. We sold Saddam Hussein some of those weapons. Our government licensed the sales. Our government knew that high level deals were taking place. The people are the contributors to this administration, the people who are the friends of this administration, were all involved, so nothing was done.

What kind of example are we setting for the American youth or for American families? They want to talk about old-fashioned values. Let us talk about patriotism as an old-fashioned value. Let us talk about what happens when we send American young people off to risk their lives in a war against an enemy that we have armed, against an enemy that we have encouraged. Old-fashioned values are very important.

Why do we not explain why the CIA was so close to Noriega, why they used Noriega for their own purposes even though they knew Noriega was part of a drug smuggling, drug running operation through Panama which fed right into our big cities? The same squalor, the same multitude of problems that are caused by crack, and cocaine, heroin, all began when we allow the drug smugglers from South America and other places to take hold and to build financial empires in our cities. They are so powerful now. The mob is so powerful. They have so much money, and they are better equipped than the law enforcement officials and able to avoid prosecution. Their tentacles reach out in all kinds of directions. They buy off high level people and policemen. They are powerful because we allow them to become powerful, and part of the process of their accumulating power was because our government winked, our government allowed it. They knew it was happening. For their own purposes they wanted to use Noriega, so they allowed him to go right ahead. They allowed Noriega, they allowed a number of thugs in Haiti and other places, to bring in their marijuana, their cocaine, their heroin, and we have a problem of demand generated because our government looked the other way and allowed the suppliers freedom to manipulate.

The BCCI, the Bank of Credit and Commercial International, existed for only a brief period as banks go. But probably there has never been a more corrupt institution on the face of the earth. The BCCI was known to be a criminal enterprise as long ago as 10 years ago. It was known to be a criminal enterprise at the time that the head of the Central Intelligence Agency, the highest intelligence agency of our government, was having regular meetings with the head of the BCCI. Nobody, nobody, questions the truth of these statements. It is admitted that William Casey met with the head of the BCCI on a regular basis.

What kind of message about values do we send when we admit that the highest level intelligence operatives in the United States met regularly with the highest level criminals in the world? BCCI was known to be a criminal enterprise. Nothing was done. Our value system or the value system that Washington endorses and that this administration endorses and holds up to our young people and our families is a value system that says, "If you're powerful enough and if you're rich enough, there is no morality, there are no laws which affect you. There are no sins. You're above it all. The government can get in bed with you, and the government is above it all."

BCCI, Iran-Contra, the Iraqi build-up, loans, the looting of the savings and loan associations, the looting of commercial banks, and now we have a new phenomenon, and that is military expenditures that are being perpetrated despite the fact that we have no more threat of an evil empire. It is just to keep the contracts flowing, to keep the money, keep shovelling the American taxpayers' money into the hands of the richest, most powerful people in the country who own the armament factories, who build the Seawolf submarines, who build the B-2 bombers, who build the nuclear carriers that cost $3.5 billion.

One nuclear aircraft carrier costing $3.5 billion could take care of all the budget problems of all the school systems of America today. Across the country school systems are faced with devastating budget cuts. They are laying off personnel. They cannot buy library books. Some of them are being forced to close their doors. But just to cease building one nuclear aircraft carrier would provide enough money to take care of all those problems, but, nevertheless, we are going to continue to build aircraft carriers, we are going to build Seawolf submarines, we are going to continue to fund Star Wars, Buck Rogers in Outer Space, a dream that never had a scientific basis, a fantasy of Ronald Reagan's that was always known to be a way to funnel money into the coffers of certain corporations and certain groups.

□ 2230

Taxpayer money is being shoveled down the drain for a Star Wars defense that has no meaning, that the majority of American scientists, physicists, have said from the very beginning was a stupid idea.

What kind of values do we hold up to American families and American youth when we demonstrate that we are willing to take their money and continue to throw it away while we at the same time neglect basic human needs? It only takes less than $1 billion to take care of all the immunization problems in all of the cities of America. We would not have to worry about measles and the other childhood diseases.

The cutbacks that have taken place under the Reagan Administration and then the Bush Administration, those cutbacks would not be there if we took just $1 billion from a Seawolf submarine, half the cost of one Seawolf submarine. It could wipe out the problems and provide enough serum for the immunization shots.

We could deal with the tuberculosis problem. A new strain of tuberculosis is taking hold. It is incurable because of the fact that it has been allowed to fester there for so long. We could deal with that with very small amounts of money. Yet we say we are broke, we have a deficit, while we keep expending large amounts of money for the military.

We continue to spend more than $100 billion for overseas bases. Tell me why we are spending more than $100 billion for overseas bases in May of 1992?

I can understand why we would be slow to close down bases in America. There are economies of certain localities and States that are very much impacted. I can understand and sympathize with a philosophy that says we should not rush to demilitarize so rapidly that we cause unnecessary suffering or dislocation in our economy.

But somebody has to suffer somewhere. Let it be a dislocation in the economy of Germany or a dislocation in the economy of Japan. For 50 years we have been dealing with a military expenditure related to those two countries. For more than 30 years we have been defending them from something.

Let them pay for their own defense. They are our primary competitors economically in the commercial world. Why are we continuing to pour $100 billion of taxpayer money down the drain? Why can we not at least close down one quarter, right away, of our military bases and save $25 billion?

Twenty-five billion could really revitalize our cities; $25 billion would do a lot to rebuild schools; $25 billion could build bridges; $25 billion could create jobs in the urban centers all across America and in the rural areas hard hit by poverty.

Twenty-five billion in the domestic economy can work miracles, but $25 billion being spent on overseas bases is just more money being dumped down the drain.

Why? When the question why is asked, you are going to find that some of these corrupt, low, cold-blooded people who have drained money from the savings-and-loans, who have drained money from the commercial banks, who are part of the BCCI, they are profiting from the overseas bases that we have.

I am certain that large numbers of people in Germany profit and large numbers of people in Japan profit from our overseas bases being located in those areas, but it would not continue if there were not large numbers of Americans in high places who also profit.

When the answer if found, you are going to find it is another scandal why we continue to go on with our overseas bases, giving various excuses. There really are no adequate excuses.

The Soviet Union is collapsing because of its own brand of corruption. The Soviet Union is no more, but the various States that made up the Soviet

Union are still on the verge of collapse because they continued to pour money into the military long after it was necessary.

They had to disengage rapidly. They pulled their troops out because they could not afford to keep them in Eastern Europe. The Germans are paying for their troops in Eastern Germany, and they are going to pull them out soon. The are forced by necessity to demobilize and get out of other countries rapidly.

We should consider ourselves in an emergency. We are in a crisis. Let us demobilize also.

We do not demobilize because somebody somewhere is making a profit, a very high profit, on the continuation of an overseas presence in Germany, Japan, and places that can afford to defend themselves.

In the meantime, we neglect grossly human needs like the need for childhood immunization, the need for housing for the homeless, the need for a program to eradicate tuberculosis, and the need to get on top of the AIDS problem.

There are people who make smart-aleck remarks about AIDS. "Well, it is a small portion of the population. Why should we spend a large amount of money on AIDS?"

In the year 1992, when we know so much about science, about biology, about microbiology, about viruses, why are we so stupid as to believe that the AIDS virus will stay in the same form forever? If you do not find a cure for AIDS soon, you are going to find yourself with a different version of AIDS.

The viruses are growing, mutating, changing all the time. We could have an AIDS virus which is airborne in a few years if we do not rush to find a way to stop it now.

AIDS is a threat to everybody. It is an incurable illness. Right now it can only be contracted through intimate contact. Tomorrow, in a few months or a few years, you may find it in another form, if you do not stamp it out now.

So AIDS is not a problem of a minority group in our population, of certain people who deserve it. We had better stamp out AIDS and any other incurable illnesses as rapidly as we can. All of the tools of modern science, everything that we can do, should be brought to bear on the disease that is incurable and is wiping out large numbers of our population now, because it is a threat to everybody in the future.

We should have values which place human life at the top of the scale where it should be placed. We pretend to value human life in the womb. We talk a lot about the unborn baby.

I am all in favor of protecting unborn babies and any other form of life, but it is so hypocritical to talk about all-out efforts to protect unborn babies when we will not provide the money we need to provide immunization shots for the babies who are already here.

There is a growing neglect of human needs. We have in certain of our cities, because of poor medical care, infant mortality rates, babies dying before they are 1 year old, at a greater rate than they do in many Third World countries.

This happens in the richest country in the world. Nothing has ever existed like the United States of America. We are the richest, most powerful colossus that ever existed. But we are rapidly becoming the most cold-hearted, cold-blooded, most dishonest group of people in the world.

We are being led by dishonest leaders. We are being led by people who lecture on morality, and yet they know that their own sanctioning of immorality in high places is the real cause of the problem.

So the big lie that old-fashioned values are going to save us and old-fashioned values are something that only little people in families and communities and neighborhoods are responsible for, but not the Government, the Government is not responsible for perpetrating old-fashioned values, we can let people steal; en masse, wholesale. We do not condemn corporate presidents in America for taking home big salaries.

The highest corporate salary in America I think is up in the $60 million range. One man is making $60 million. The average is between $3 million and $5 million a year for corporate presidents.

In Japan, one of our largest competitors and most effective competitors, the average corporate salary for the corporate chief executive is between $300,000 and $400,000 a year.

That is the difference in the efficient use of capital. Nobody in Washington, nobody in the administration, ever speaks about the morality or the immorality of the high level compensation of executives in America. They cannot find their voices when it comes to criticizing the greed that is so obvious and blatant, the greed that makes us less competitive on the world market.

□ 2240

So the big lie about family values and old-fashioned values must be challenged. I do not want any administration spokesmen, even the Vice President, coming to my neighborhood, lecturing people about values. Let him start first in Washington and lecture the Congress, the House of Representatives and the Senate. Let him lecture the departments in the executive branch. Let him lecture the regulators. Let him lecture the FDIC board. There are a lot of people that he needs to lecture about values before he gets down to our neighborhoods.

The second big lie that I mentioned is the big cities are still at the center of our civilization. We heard on the floor of this House big cities criticized, particularly New York City, the favorite whipping target. That is a big lie. The big cities are a threat to our civilization.

The shopping malls that have gone brankrupt and caused the problem with the savings and loan association are not located in big cities. The condominiums, the country clubs, all of that waste down in Texas and other parts of the Southwest, out in Arizona, that has nothing to do with big cities. The drain on our Treasury, the looting of our Treasury by the savings and loans is not a problem created by big cities.

On the contrary, bit cities, particularly New York City, provided a large amount of the money, the deposits that flowed into the savings and loan association. They had what they called brokered deposits so that money was being taken out of New York City by brokers and fed into savings and loan associations across the country. The deposits that accumulate in the big cities are of great wealth and that has always been the case. Big cities have provided the capital to fund the expansion of America.

Big cities have always been at the center of our civilization, and there is nothing different now. Big cities are the engine that makes America go, and the administration spokesmen that go around insulting big cities are liars.

Villages, towns, cities historically created governments. They created the first great universities, the first great civilizations were all associated with cities: Athens, Alexandria, Cairo, Rome, Paris. It is no different today. The great centers of civilization, London, Tokyo, Berlin, New York, Los Angeles, big cities produce the people. People interacting with each other produce wealth. Wealth produces deposits in our banks.

The deposits in our banks produce capital for expansion, either within the cities or in rural areas across the country into the Midwest, into the savings and loans. The capital flowed out of our cities.

The same banks that refuse to invest in neighborhoods in our cities because they consider them to be risks, they poured the money into the shopping malls and the condominiums in the suburbs and in the rural areas in the Southwest, the Sunbelt. And they lost the money. That is the story of the savings and loans. Bad judgment, collusion, speculation, people feeding each other, selling land to each other at inflated prices, all of it happened outside of the cities.

New York did not do it. New York is often criticized on the floor and cited as a place which is a great example of what the failure of the welfare state in America has wrought. It is a big lie.

New York State, and the biggest part of New York State is New York City. I hate to think of what New York State would be like if it did not have New York City. It is the engine that drives New York State, is New York City.

New York City created the suburbs around New York. New York City provides the largest part of the money that flows into the coffers of the capital in Albany. New York City generates the money.

New York State paid to the Federal Government last year, New York State, the home of the welfare city, paid $23 billion more in taxes into the Federal Government coffers than it received back from the Federal Government.

What am I saying? Senator MOYNIHAN, if we want more details, has the details. Senator Moynihan keeps track of the money that States pay as Federal taxes and the Federal expenditures that are poured back into those States.

How are those expenditures poured back in? In defense industries, in military bases, various ways, including Medicaid, welfare, disability payments. But when we add up all the Medicaid, welfare, disability payments, everything that New York gets, New York is still sending $23 billion more to the Federal Government than it is getting back from the Federal Government.

I do not think Georgia has the same record. I do not think a number of States that have large defense plants, an economy which is fed by military expenditures, I do not think they could make the same boast, that they paid so much more into the Federal coffers than they received back.

New York has people, population, people who pay income taxes. Even poor people pay income taxes.

The Federal Government makes it appear that they are doing New York a favor. They make it appear that they are doing the citizens throughout the country a great favor when they spend money for health care or spend money for housing or for transportation, but it is our money. It all flowed from the taxpayers in the first place.

They do not really make money here in Washington. They make the symbols of money in the mint. They print what is already tabulated as wealth. The money flows from the taxpayers. Taxpayers are you and I and individuals spread across the country. It is our money.

New York has provided a steady flow of graduates from its colleges and universities throughout the whole Nation. New York's bankers have capitalized the whole Nation. New York's soldiers in every walk, large numbers, we have the human beings in New York, and they flow out to defend the country. On and on it goes.

Our cities should not be denigrated. We owe a great debt to our cities, and we have not been paid that debt. In fact, we have swindled our cities a great deal.

It is a big lie that cities are parasites draining the Federal Treasury. The Federal Treasury is a parasite draining our cities.

Finally, Mr. Speaker, our biggest problem is the morality of the way our Government is conducted, the way our campaigns are conducted. Our society's biggest problem is that we are addicted to dirty tricks. The term "dirty tricks" was coined first, I think, in the election with the Nixon administration campaign. But dirty tricks have become a way of life.

Dirty tricks have been lifted to a science and an art by this administration and its cohorts. Dirty tricks are played when we use family values or talk about family values as a divisive and diversionary tactic. Dirty tricks are played when we denigrate cities while we rob them of their wealth. We are using that as a divisive and diversionary tactic. We are playing the cities off against the population of the suburbs and the rural areas while we are really swindling everybody. We are channeling the money from cities and suburbs and rural areas into star wars, into more *Seawolf* submarines and unwanted, unneeded, aircraft carriers, overseas bases.

We pull the wool over everybody's eyes. We confuse the situation. It is a great dirty track played by people at very high levels on the American people. If there is enough confusion, then they have a good chance of being reelected. And they will be able to continue their immoral practices, immoral practices which lead to the swindling of the majority to funnel money into the coffers of the minority, a small group.

There is an undercurrent of racism at all times that flows from these dirty tricks. Family values, cities, they somehow turn that into code words meaning those people, mostly minorities, are in the cities. It is mostly minorities who have no family values. Minorities did not rob and steal from our savings and loan associations. We cannot find a single billion dollar banker among any minority group in America.

□ 2250

Nevertheless, we are somehow, through Hitlerian tactics, insinuations of a Goebbels, repeated big lies which make it appear that somehow cities have been taken over by "those people," blacks, Hispanics, and family values are being eroded by "those people"; "those people" are poor because they are the way they are.

Naturally they are the way they are. It is not because there was a institution called slavery which existed for more than 300 years, and after that oppression which never allowed the accumulation of wealth among African-Americans. Those are the logical kinds of statements nobody wants to deal with.

There is an undercurrent of racism through all the dirty tricks, and it pays off very well. Willie Horton helped elect a President. Millie Horton, his aunt, an image of a welfare queen, a person who is swindling the American people because she is on welfare, will do it the next time, it is believed by the perpetrators of dirty tricks.

Nothing is more immoral than this steady stream of dirty tricks. Nothing is lower than the subversion of the democratic process by using all the organs of government, the organs of the media, to perpetrate upon the people a big lie which is divisive and racist.

Neat, clean men, men in clean shirts and expensive suits, are perpetuating these big lies. They are the real destroyers of the values, however. They are the real destroyers of our civilization. They have to be challenged. They have to be challenged, because they do not know how destructive they are.

There were powerful, cold-blooded men who destroyed the Soviet Union with their own form of corruption. We have our corruption that is equally as dangerous. We have seen that corruption in high places; Iran-Contra, Iraq, savings and loans, BCCI. We have seen that corruption and we do not realize how dangerous it is.

The big lies must be challenged. The people who perpetrate these big lies must be forced to retreat. We have to save our cities and save our families by really returning to some old-fashioned values, and insisting everybody from the top to the bottom adhere to these old-fashioned values.

URBAN AID: HELPING THE PEOPLE OR HELPING THE POLITICIANS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Georgia [Mr. GINGRICH] is recognized for 60 minutes.

Mr. GINGRICH. Mr. Speaker, I was very interested in listening to the last speaker, because I think there is in fact a very real difference of views about what works in America and what needs to be done to help the cities. I would like to talk this evening about what I would call the target of urban aid, helping the people or helping the politicians.

We are in the middle of an effort to pass a bill which will help the cities, which will help the poor, which will create better conditions and hopefully eliminate in the future the kind of looting and the kind of rioting we had recently in Los Angeles. Yet, as I try to prepare to negotiate and develop a package of urban aid, I think the key is to ask why is our analysis of what is wrong and what is our proposal, in general principles, for solving what is wrong?

It is very important, I think, not to focus on the immediate daily tactics of what specific legislation, what specific action, but to start at the vision level: What is our vision of American cities, what is our vision of helping the poor; and then once we have talked out our basic values and our basic goals, to develop some strategies for helping the cities and to develop some strategies for helping the poor.

Only after we have talked through our vision and our strategies, then we ought to talk about what projects we think will work, what kind of definable, delegatable, achievable, and what kind of building blocks will help. Once we have our vision and our strategies and our projects lined up, then I think we can get down to the daily steps of specific actions.

I find at the vision level there is a remarkably different view between the elite culture and the rest of us about exactly what is going on. I have been fascinated watching the news and listening to various mayors get on television. Their vision essentially is that this is the great opportunity to get Washington to send more money to big city machines, more pork barrel, more patronage, more opportunity for the mayors to give things away, more money for the bureaucracy.

I was sort of astonished to watch a number of mayors marching last weekend, because it shocked me that they just do not get the message. They just do not understand what the real problem is. The real problem is not the amount of money that is available. I had my staff work with the Congressional Research Service.

Just to put it in the record as a starting point, in 1990 the city of Boston, whose mayor has been on television a lot recently, had a budget of $1,415,000,000; the city of Los Angeles, $4,019,000,000; the city of New York, $28,700,000,000; the city of Washington, $3,200,000. Those are pretty large amounts of money.

If we break it down differently, per 100,000 people, Boston was spending $244,898,000 for every 100,000 people. The city of New York was spending $390,601,000 per 100,000 people, but the city of Washington was taking the cake at $650,000,000 per 100,000 people.

We have to ask ourselves, looking at these kinds of numbers, looking at the number of employees they had, 47,000 in the city of Los Angeles, and in the much smaller city of Washington, 47,000, 394,000 in New York.

In fact, New York City in the 1980's, a period when it was losing population, went from 318,925 employees in 1980 to 394,609 in 1990, or, to put it again in terms of per 100,000 people, for every 100,000 citizens of New York there were 4,510 employees in 1980, and there are 5,370 employees in 1990.

Again, New York is a piker compared to Washington. Washington went from 6,500 per 100,000 in 1980 to 7,760 per 100,000 in 1990. Washington, DC, has approximately five times as many employees per 100,000 people as Los Angeles, five times as many employees per 100,000 population as the City of Los Angeles.

You would think with those kinds of numbers, budgets measuring in the billions, thousands and thousands of employees, maybe the mayors would have decided to focus on reforming their cities, to spend the money wisely, to restructure their bureaucracy, to changing the values of the welfare state.

I think that precisely because, starting with a report that I read from Gov. Tom Keene of New Jersey, who when he was Governor of New Jersey had a report done on the Jersey City school system, over 1,000 pages, several years of research, where he discovered such things as the fact that the Jersey City schools were using education jobs as political patronage.

They had one $54,000 a year inspector of fire extinguishers who had not been at work in 3 years, because for those 3 years he had been busy in the political machine. So he was paid $54,000 a year, and he was putting at risk the children of Jersey City because he was not inspecting their fire extinguishers.

Then we went a step further. We looked at the whole question of why does the welfare state not work; why are the big cities, with their billions of dollars, with their tremendous bureaucracies, not working?

I have to give a great deal of credit to then Congressman, now Secretary, Jack Kemp, who really developed the first part of the revolutionary vision of replacing the welfare state with an opportunity society.

As early as the late 1970's Jack Kemp was speaking out about the important role of free enterprise, of incentives, of opportunity, of hard work, and it is fascinating to go back and look at some of the things Jack Kemp has said. I want to cite some things that were said before, before there were any riots. People have said, "Where have the Republicans been?" Let me give you an example.

The Wall Street Journal, June 12, 1990, "Liberate America's Other Economy," by Jack Kemp:

[From the Wall Street Journal, June 12, 1990]

LIBERATE AMERICA'S OTHER ECONOMY

(By Jack Kemp)

In 1984, Mario Cuomo of New York electrified the Democratic Convention with his tale of America as two cities, one rich and one poor, permanently divided into two classes. He talked about the rich growing richer and the poor becoming poorer, with the conclusion that class conflict, if not warfare, was the only result, and redistribution of wealth the solution.

With all due respect to Gov. Cuomo, he got it wrong. America is not divided immutably into two static classes. But it is separated or divided into two economies. One economy—our mainstream economy—is democratic and capitalist, market-oriented and entrepreneurial. It offers incentives for working families in labor and management. This mainstream economy rewards work, investment, saving and productivity. Incentives abound for productive economic and social behavior.

It was this economy, triggered by President Reagan's supply-side revolution of tax cuts in 1981, that generated 21.5 million new jobs, more than four million new businesses, relatively low inflation and higher standards of living for most people. This economy has created more jobs in the past decade than all of Europe, Canada and Japan combined. And according to the U.S. Treasury, federal income taxes paid by the top 1% of taxpayers has surged by more than 80% to $92 billion in 1987 from $51 billion in 1981.

Pockets of Poverty

There is another economy—a second economy that is similar in respects to the East European or Third World socialist economies. It functions in a fashion opposite to the mainstream capitalist economy. It predominates in the pockets of poverty throughout urban and rural America. This economy has barriers to productive human and social activity and a virtual absence of economic incentives and rewards. It denies black, Hispanic and other minority men and women entry into the mainstream. This economy works almost as effectively as did hiring notices 50 years ago that read "No Blacks—or Hispanics or Irish or whatever—Need Apply."

The irony is that the second economy was born of desire to help the poor, alleviate suffering, and provide a basic social safety net. The results were a counterproductive economy. Instead of independence, the second economy led to dependence. In an effort to minimize economic pain, it maximized welfare bureaucracy and social costs.

All around the world, despite the resistance of the old guard, freedom and free markets, democracy and capitalism are increasingly on the march. East Europe is looking to us for market-oriented answers, but so is East Harlem, East St. Louis and East Los Angeles.

If we are to present the example of democratic capitalism and the rule of law to the rest of the world, we've got to make it work for the low-income people and distressed neighborhoods and communities right here in our own country. Whether it's called bleeding-heart conservatism, capitalism with a social conscience, or populist conservatism—it's the right thing to do, the right time to do it, and we're the right people to help lead it.

Let's step away from our orthodox notions and examine this from afar. What if you wanted to create poverty? What policies and principles would you use to destroy the economy of cities and make people dependent on government? How would you do it? Let me offer some suggestions:

Impose steeply graduated and progressive tax rates and then inflate the currency to push people into ever higher tax brackets.

Reward the welfare and unemployment at a higher level than working and productivity.

Tax the entrepreneur who succeeds in the legal system—while permitting an underground, untaxed, economy.

Reward people who stay in public housing more than those who want to move up and out into private housing and home ownership.

Reward the family that breaks up rather than the family that stays together.

Encourage debt, borrowing and spending rather than saving, investing and risk-taking.

> Weaken and in some cases destroy the link between effort and reward.
>
> The startling fact in America today is that the highest marginal tax rates are being paid not by the rich, but by welfare mothers or unemployed fathers who want to take a job. In most cities, a welfare mother would have to earn $15,000 to $18,000 in a private-sector job to earn the equivalent of the average tax-free welfare payment.
>
> According to a study by Christopher Jencks and Kathryn Edin in American Prospect magazine, mother with two children who is employed at about $5 an hour would take home about 45 cents an hour less than if she were on welfare. She loses nearly $4 a day after taking into account the loss of government benefits, taxes and such work-related expenses as transportation and child care.
>
> The heavily regulated U.S. housing market is another example of government-created scarcity. Recent control in many major cities has crippled rental housing by making it unprofitable to be a landlord or investor. Rent controls do not help the poor, because they cut apartment supply.
>
> Another glaring example of counter-productive government policy is how the Department of Housing and Urban Development has been spending more than $1,300 per unit to subsidize vacant public housing—housing often used as crack houses for gangs and drug pushers. The Bush administration has started a policy called Operation Occupancy under which only units actually occupied by low-income people will receive pubic housing subsidies.
>
> Let me outline some ideas for a national agenda to help low income people and our nation find the keys that will unlock the shackles of poverty and despair:
>
> Cut the capital-gains tax to 15%. Eliminate it in distressed inner cities and rural communities that we would designate as Enterprise Zones.
>
> When the top capital gains tax rate was reduced to 20% for 49%, the number of small-company start-up more than doubled, rising to 640,000 and creating 15 million jobs. By dramatically reducing the capital-gains, tax rate again, and greenlining inner-city neighborhoods, we can expand the economy and put that enormous job-creating potential to work where it is needed most.
>
> Expand resident management and urban homesteading in public housing to employer residents to buy their own houses and enjoy the dignity of ownership.
>
> Widen use of housing vouchers and certificates to give low-income families greater choice of where to live, while expanding access to affordable housing for those most in need.
>
> Reform the tax system to remove low-income families from the tax rolls and dramatically increase the after-tax income of welfare mothers and unemployed fathers who go to work.
>
> In 1948, at the median income, a family of four paid virtually no income tax and only $30 a year in direct Social Security taxes (1%). This year, the same family's tax burden would be more than $6,000. To reach and level comparable to 1948, the personal exemption—the tax allowance for the cost of nurturing children—would have to be well over $6,000 today. Instead, it is only $2,000.
>
> EXPAND TAX CREDIT
>
> Expand the earned-income tax credit dramatically, creating up to a $6,000 exemption for children under 16.
>
> Help the homeless. Congress should pass the administration's new Shelter Plus Care program to expand community-based mental health facilities, drug-abuse treatment, job training, and day care. This program will help homeless Americans get shelter, transitional housing, and support services to help them re-enter the main-stream economy.
>
> Provide educational opportunity by expanding true choice and competition through magnet schools, education vouchers or tuition tax credit.
>
> Encourage Congress to pass President Bush's HOPE legislation, including IRAs for first time home buyers, the low-income housing tax credit, and Operation Bootstrap linking housing vouchers to strategies for gaining self-sufficiency.
>
> A program like this would make the 1990s the decade in which we win the war against poverty—just as the decade of the 1980's was the one in which we won the Cold War against communism.

□ 2300

This is an article by Secretary Jack Kemp, June 12, 1990, almost 2 years before there was any looting in Los Angeles.

His point is very simple. We know how to create jobs. Pass enterprise zones so that Los Angeles and rural Wisconsin, so that New York and rural Georgia would have a chance in the poorest neighborhoods to encourage real business, to encourage real jobs, to help the local entrepreneur, to eliminate the capital gains tax and to create other tax incentives for people who are willing to go out and willing to work hard and to create jobs.

As Senator Paul Tsongas said, you have to love job creators if you are going to love jobs. You have to be willing to feed the goose if you are going to get the golden eggs. It is time for us to pass an enterprise zone bill.

I am very saddened that an enterprise zone bill aimed directly at the inner cities, aimed directly at poor rural areas, aimed at green lining areas that have been red lined for far too long, that we did not in the last 2 weeks go ahead and pass it. We know the President would sign it. We know we could have gotten bipartisan support. I think we should have passed it already and we would now have people rebuilding in east Los Angeles using their own money, using capital investment from other businesses, using real private money to create permanent jobs for the future.

But let us go a couple of stages further, and again these are ideas developed before we had any riots. President Bush set up a proposal that would allow poor people on welfare to have $10,000 in assets. One might say why would we want to do that. Well, there is a tragic story in the newspapers from Friday about a young lady in Connecticut we had saved up to go to college. Then it was discovered that because her family was on welfare all of her savings would have to be spent. She was actually told by welfare workers in Connecticut to go ahead and buy perfume, go ahead and buy hi-fi equipment, go ahead and do anything but spend the money because you are not allowed to have any money, you cannot save to go to college. Then her mother was told you are now going to be forced to pay back $9,000 in welfare you got while your daughter was saving for college, because it is illegal to save if you are on welfare.

What a country when we are teaching exactly the wrong values. Is this something brand new that President Bush has not heard of? Was he out of touch? No.

In March, the President asked the Congress to pass a welfare reform bill to allow people to save to get an education, to get off welfare, to allow them to save up to $10,000, and nothing has been done by the Congress.

As another example, I had a press conference with Senator HANK BROWN, Congressman CLAY SHAW, Congressman VIN WEBER, and Republican candidates in over 30 States, over 101 candidates over the country who got together in April, and we agreed together that if we were in control of the House next year we would pass a welfare reform bill that would require work and require learning, that would begin the process of helping people leave poverty, leave the habits of not working, leave the habits of not learning, and would begin the process of eliminating the culture of poverty.

□ 2310

That was in April before there were any problems, any riots, any looting in Los Angeles, because they are concerned. You might say, well, was Mr. GINGRICH really concerned, were all of those Republicans really concerned.

Let me read an article from January 1991, in the Atlanta Journal, well over a year ago, by Jeff Dickerson, entitled, "Why Not Pay Welfare Moms To Teach Tots To Read?"

> While I was sipping coffee the other day with Newt Gingrich, the Congressman erupted into another of his conservative brainstorms. Why not give welfare mothers, he wondered, a financial incentive to teach their preschoolers to read? Why not try to break the cycle of dependency by putting money in their pockets if they offer their kids a leg up? It was a fresh idea that sounded workable. The beauty of it was that it acknowledged that the only way to break the cycle of dependency was by intervening into the lives of the young. This idea was even better by making the mom the intervenor. But how many thousands, millions would it cost? Actually, ignorance would be the more expensive choice. It is far more expensive keeping the illiterate and criminal caged at $20,000 and $30,000 a pop. It is far more expensive writing a stream of welfare checks with no end to dependency in sight. One of the odd things about Gingrich's proposal is that here sits an arch-conservative loathed even by some of his Republican colleagues, cooking up ways to rescue the poor from their poverty. It is a job you expect to fall to Ted Kennedy and Howard Metzenbaum, and yet their only idea on helping the poor has been more aid which means more of the same and more dependence. Gingrich is saying if we

> can teach the young to read and to respect education, we might break the cycle of poverty. That is more promising than breeding dependence, but it is not perfect. Who says the young mom has the wherewithal to teach her young boy or girl to read? Who says she will respond to financial incentives as if she were a venture capitalist? We cannot say that she would respond, of course, but would we not be remiss if we did not try to get her to? GINGRICH has other novel ideas. He thinks teenage mothers should get welfare checks only if they attend prenatal classes, which is another way to saying that if you are young and pregnant and ignorant of child-rearing, please take the time to learn a few basics.

My point is this: Jeff Dickerson, in January 1991, after a get-together we had had over the Christmas break, was catching the rhythm of the passion, the intensity, the sincerity that people like VIN WEBER, Jack Kemp, and I have in order to try to break out of the current cycle of welfare and bureaucracy and poverty.

My wife, Marianne, and I went in August of last year to a tremendous conference in Boston of over 1,200 tenant leaders from all over America, poor people, black, Hispanic, largely, some white, some American Indian, some Asian, gathered by Bob Woodson, one of the most innovative developers of new ideas at the National Center for Neighborhood Policy.

Bob Woodson brought together 1,200 people who were poor but who want someday to have a chance to own property, who want their children to go to school, who want to have a chance to control their neighborhoods.

We spend 2 days with them talking about dramatic, revolutionary, radical new ideas, ideas of replacing the welfare state with an opportunity society, and this was in August 1991, well before the looting in Los Angeles.

And yet we are not able to get these ideas through the Congress, to get these ideas developed the way they should be, to finance the reforms. It is easy to finance the same old bureaucracy. It is easy for people to send money to the same old mayors and same old city councils, and it is easy to prop up the same old public employee unions, but to get new ideas, new approaches, new hope, that is hard.

In the case of helping kids learn how to read, I worked with West Georgia College, and for the last two summers we have had a program called "Earning by Learning." Dr. Mel Steeley of West Georgia College is our coordinator. It is a Thousand Points of Light Program, 49 adult volunteers, 1 person paid $500. It would not look very impressive the way most of the liberal mayors count score, but 49 volunteers for free doing the work is a pretty good start. We went into five counties, public housing projects, did not spend very much. We, instead, used the public libraries. They are there. They are free.

We got poor children to go to the library. One of the first things we did in this program was give them a library card and teach them how to get to their library, to rent the books for free, to check them out, again, low cost, would not look very good. Most of our liberal friends would say, "Cannot be very effective."

We had a requirement. The children came once a week and brought the books they claimed to have read. Now, we met in free space donated to us by the public housing projects, because they were excited to have the children kept busy, to have the children doing something productive.

Now, in that sense, again, it does not look like very much, did not add up, free volunteers, free library books, free space, cannot be very committed, and yet we had a particular idea that was part of our revolution, a particular idea that is part of how an opportunity society would replace the welfare state.

We wanted an incentive for second- and third-graders who were poor, who grew up in single-head-of-household families, who maybe did not have a single book at home, who had no incentive to learn how to read and write. We went to them, and we said, "Well, we will do something most Americans understand. We will pay you $2 a book for every book you read." It is a very radical idea. It was child labor, and it was piecework. It only had one virtue: every child, no matter how poor, understood the concept and understood that if they would read, they would have cash.

We did have one group in Douglas County who were so cynical at 8 years of age, and it was frankly very frightening and it was a prelude to what happened this year in Los Angeles, and they said to us, "You are going to cheat us. You will manipulate us. You will get us to read, and then you will not pay us any money." That group we paid every week, and by the way, we doubled the number of kids who came in every week, because suddenly the only kids in the project who had cash were the kids who were reading. Suddenly it became a big deal to be a reader.

Now, what did the program accomplish? Volunteers, low cost, low overhead, no bureaucracy, would not have fit any of Mayor Flynn's proposals, too cheap.

There were 282 students, the first year, who read 3,602 books. We paid them $7,204. Our top student, the first year, was a young lady in Villa Rica who read 83 books. We paid her $166. Her dad took a day off work to protect her. Because, after all, you give a young girl that age $166, she needs somebody to look after her.

We did three things simultaneously without bureaucracy: We taught literacy. Some of our students jumped two grade levels in 7 weeks because, for the first time in their life, they were motivated to do real work. Second, we had empowerment, a fancy word. You read the article in the Noonan, GA, newspaper, about a 9-year-old girl buying her first pair of sneakers, you are seeing empowerment for real. Third, we taught free enterprise.

You do not have to be a pimp or a prostitute or a drug dealer to make money in America. You can do an honest day's work and get an honest day's pay.

People said you should not have to pay kids to read. I have yet to be in a middle-class neighborhood and ask parents, "How many of you reward your children for reading," and not have two-thirds of the hands go up. "How many of you give your kids a reward if they get straight A's?" Hand go up. "How many of you give your kids a reward if they are in the honor society?" Hand go up.

Well, what if you have child whose mother is too poor, whose background has no value for education, who has nobody locally giving them an incentive, what if we pretend we are middle class, and we give them some money just as though their mom and dad were middle class or upper middle class? It turns out it works, thanks to Dr. Mel Steeley's tremendous work at West Georgia College, there are now Earning by Learning Programs in 10 States, and in one school system in Texas, the public school is now paying every third grader 50 cents a book for every book they read.

We spent $6,100,000,000 on title I funding for the disadvantaged, and that would be 3 billion books read for $6 billion transferred to kids. My guess is, and I am not saying we ought to replace title I, but I am saying as a way of thinking, of breaking out of the bureaucracy, certainly it is worth exploring, and we were doing it 2 years before Los Angeles occurred.

One other example of the fact that we have been trying very hard to convince this Congress to pass things is what I think was a brilliant speech by the Vice President in New York City at the Economic Club on February 27. He said some, frankly, rather challenging things. He talked about how much we see around the world with things changing. He talked about the need to change things.

I want to quote from him, Vice President QUAYLE in New York City, not after the riots, Vice President QUAYLE in New York City on February 27:

> It was our fate and good fortune to watch the great collectivist experiment from outside the laboratory. But those millions of souls who had to endure it—they are our witnesses. And what they tell us is simply and unequivocal: Socialism, or any glossed-over variation of it, won't work. It will diminish, destroy, and devour resources, instead of creating and building. In man's economic life, the state may be an uneasy ally but never a friend.
>
> As we seek our economic security in this uncertain world, we must learn what works

and what doesn't. Let us look at this great city. It attests to what becomes of those who put their faith in the benevolence of the state. In what should be a liberal paradise, what do we find instead?

Honest, ambitious, hard-working New Yorkers struggling to pay the highest local taxes in America—about $1,600 per person.

A business tax three times greater than that paid by businesses in Chicago and Los Angeles. One in every eight people on the dole. Taxpayers investing $7,000 a year for each public school student compared to $3,000 per year per student in private schools. The taxpayers' investment in education gets a high school graduation rate of 38 percent. That means 62 percent don't finish on time. Liberal economics may prevail here, but it sure doesn't work here. It is estimated that by 1994 a total of 320,000 private sector jobs will be lost in New York City. When the taxpayers meekly protest these high taxes, the liberal deep thinkers snap back that we lack "compassion" for the working man, but the working man is usually the one most hurt by this kind of thinking.

Close quote from Vice President QUAYLE.

□ 2320

His point is this. We want to help the people of New York. We do not want to help the politicians of New York. We want to help the poor of New York. We do not want to help the political power structure of New York.

Vice President QUAYLE went on to say some very basic principles:

You don't build economic strength by taxing economic strength. If you tax wealth, you diminish wealth. If you diminish wealth, you diminish investment. The fewer the investments, the fewer jobs.

Now, the point we are making is very simple and very straightforward. We think we know how to create jobs, pass enterprise zone legislation, cut taxes, use the Weed and Seed Program of the Justice Department to clean out the criminals, establish an incentive program for education, develop new approaches that encourage people to create permanent private jobs and yet when we turn to the liberal mayors who came and marched on the city, we get the opposite, raise taxes, pay off the public employees unions, keep incredibly dumb work rules. Waste money.

Our critique of the welfare state big city is five points:

First, value. We believe in work. The welfare system has failed. We believe you should require work and/or learning from every able-bodied adult under the age of retirement, period.

We think the values of the welfare state simply do not function.

Second, the bureaucratic structure has failed. How can you look at the total number of workers in the city of Washington, the size of the city of Washington's budget, walk through the city, watch the evening news and not come to the conclusion that this is a city structure that has failed?

How can you look at New York City, look at the size of the city budget, $28 billion, and not conclude that there is something fundamentally wrong, that we need reform of the bureaucratic structure.

Third, we believe the future is not in government. The future is in private industry, in voluntarism, in community and enterprise zones, in Secretary Kemp's HOPE Program and Bob Woodson's Neighborhood Ideas.

Fourth. We have to stamp out violent crime. We need to apply the RICO statutes to the gangs. We need to set up a nationwide information system on gangs. We need to be prepared to use the Weed and Seed Program at the Justice Department to stamp out gangs. We have got to do something decisive on crime.

And yet if you go on a values basis from the welfare state to the Opportunity Society, you replace welfare with work and learning. If you replace the current bureaucratic structure with a system modeled on quality and Edward Demming's concept of how we can have people be effective, if you shift from reliance on government to shifting toward private industry, voluntarism, community enterprise zones, if you are willing to take on the criminals and recognize that when you learn that 40 percent of the people picked up in Los Angeles for major looting, 40 percent were convicted felons out on parole, that this was in essence a felons' riot. These were criminals on a rampage, and that is the latest numbers from the newspapers today, that 40 percent of the looters they picked up so far engaged in serious looting were convicted felons out on parole.

Can you wonder that we have problems when you put violent people back on the streets?

All our good friends on the left and all our liberal mayors say, "Fine, fine. We understand this value stuff. We understand using quality instead of bureaucracy. We know you have your values, but let us spend more money. The test of your sincerity is money."

As I said earlier, earning by learning would have failed because it was not expensive enough, and yet I would say before we ought to spend a penny more on our biggest cities, we should challenge the mayors and the city councils to three changes:

First, we should challenge them to change their work rules, especially the unionized contracts that are so silly and so foolish and so wasteful and so destructive.

Second, we should challenge them to have privatized and quality oriented commissions going through every element of bureaucratic waste, every element of bureaucratic stupidity, and every element of insensitivity to public need.

Third, we should tackle head on the problem of political corruption, precisely in the name of liberating the people of New York City, helping the poor get jobs, creating safety in the poorest neighborhoods, establishing the right to run their own neighborhoods, their own communities, their own public housing projects. We should be prepared to take on the big city bureaucracies and the big city politicians in order to lay out this framework.

If anyone wonders what I am referring to, let me just suggest if you read the January Reader's Digest article how the unions stole the Big Apple, you get a very clear sense of exactly what is going wrong. When you read in the Reader's Digest article how the unions stole the Big Apple, a $57,000 a year public school janitor whose union contract requires him to mop the school floor three times a year, that is about $19,000 per mopping, you know the system does not work.

When you read about a contract that involves the Sanitation Workers Union, a contract which is absurd and outrageous and indefensible, you know the system does not work.

And yet after I began talking about this and about the same time when the New York Times was attacking me and saying here I was as the Vice President was picking on poor New York City, let me read the following editorial from the New York Times about one of these contracts. Remember, this is about one of the mayors who marched on Washington because he wants us to raise taxes to send him more money.

This is from the New York Times:

CITY SHRINKS ON GARBAGE REFORM

After almost two years of negotiations, the Dinkins administration blinked and granted New York City sanitation workers a raise without insisting on a full day's work for a full day's pay. Instead the city agreed to more productivity negotiations that could take a year or more, and are not guaranteed to succeed.

What a lost opportunity and costly mistake! Mayor David Dinkins keeps saying that unions won't get raises unless they grant productivity savings. Until he demonstrates that, why should the public—and unions—believe him?

The negotiations provided the perfect opportunity for the city to demonstrate some muscle. Since the new recycling program began in 1989, many sanitation workers have been working partial days while collecting full salaries. They finish collection routes more quickly because recycling reduced the amount of garbage. The city is obliged to pay additional workers to handle recycling.

The city could have insisted that the new contract extend routes so that all workers put in eight hours, rather than as little as four. Instead the contract sets a goal of returning to 1980 productivity levels, but leaves the means to future talks.

The two sides are supposed to come up with a new collection route formula in about a month. If they disagree, either side can go to binding arbitration. The administration did go to arbitration with its police union and the subsequent agreement was fair, so maybe it will show some mettle with the sanitation workers. At least the new contract establishes a procedure for change. But if City Hall had made productivity reform a condition of the new contract, a city strug-

> gling with recession would already be saving badly needed money.

This is on page A-14, New York Times, February 18. I am going to check. I do not frankly know if the city did go back and go to artibration on this, but I am going to check on that.

Let me make this point. Here is the New York Times reporting about New York City, that they have garbageworkers working as little as 4 hours a day while getting paid for 8 hours a day of work.

Now why would I want to raise taxes on Marietta, GA, or Owensboro, KY, why would I want to raise taxes on St. Louis, why would I want to raise taxes anywhere in America in order to be allowed to have the honor of shipping money to New York City to subsidize a worker who is only working half the time he is getting paid for?

Why is it not fair, and reasonable, and responsible to insist that these big city mayors take on those kind of work roles and get a full day's work for a full day's pay? Why is that so outrageous? Why does it make us inappropriate, insensitive, unfair, and unkind to insist, when the New York Times is pointing it out, not some right-wing organ, but rather the New York Times is saying, "Hey, we got a problem here."

□ 2330

Quote from the New York Times Metropolitan Monday, August 12, 1991:

> New York City's payroll; how did it get so big?: The number of New York City's employees increased 26.8 percent from 1981 to 1991. In the same period San Francisco's total grew 11.2 percent, and Miami's grew 6.9 percent. From 1984 to the present Boston's total increased by 1.6 percent, and Chicago's fell 7.3 percent.

Now let me point out. Here is a city which increased its public payroll by 26.8 percent in a decade while population was declining.

Let me go a stage further, reading from the New York Times:

> New York City's work force is at its highest level since the city began keeping consistent records 16 years ago. Even if the city carries out its ambitious budget cutting program, the work force will still be above the level of June 1975 at the onset of the city's previous fiscal crisis. In the past decade the number of people in city government grew by more than a quarter of the city's population, grew only 3.5 percent. The planned head count reduction of 7151 workers to balance the budget for 1992 would reduce the city's work force by only 3 percent. City agencies do not say that services have gotten that much better, but that the city's problems, crime, homelessness, AIDS, the drug crisis, have gotten that much worse.

They then go through stage by stage each of the departments for the city, and we look at these and say to ourselves, "Now wait a second. Why should we be in a position where we are going to raise taxes everywhere else to send the money to a city that has this many employees and is spending this amount of money," and let me say one brief word about who is responsible for all of this.

I get a little tired of having a group of mayors come to Washington or get on national television and say, "Oh, it's the Republicans. It's that Republican administration." The last Republican mayor of Boston left office in 1973. The last Republican mayor of Los Angeles left office in 1962. The last Republican mayor of New York left office in 1972.

According to CRS, the Congressional Research Service, Washington, DC, has never had a Republican mayor, but it is not just the mayors. Let us look at city councils.

We asked the Congressional Research Service. Here is what we have as of today:

Boston—Congressional Research Service was still looking and stated the last Republican majority city council would have had to have been at the turn of the century, if there ever was one.

Los Angeles—Congressional Research Service looked back 60 years and has not found a Republican majority yet.

New York—Not a Republican majority in this century.

Washington—The city council has never had a Republican majority.

Now with a mayor, Democrat; city council Democrat:

Boston—$1,450,000,000 budget.

Los Angeles—$4,019,814,000 budget.

New York—$28,719,751,000 budget.

Washington—$3,210,000,000 budget.

And these are not mayors and city councils that are helpless.

Boston—20,800 employees.

Los Angeles—47,900 employees.

New York—394,000 employees.

Washington—47,900 employees.

It is amazing, but at the rate that New York is going, they will pass the city of Washington. They will have more city employees in New York than there are people in Washington, and these are the mayors who come to the city having had absolute Democratic control of their city for a half century and tell us that we have some obligation because we did not send enough money to them.

Well, let us look again at how they use the money. This is from an article in Newsweek, December 17, 1990.

[From Newsweek, Dec. 17, 1990]

WHY CITIES CUT MEAT, NOT FLAB—IN TOUGH BUDGET TIMES, BUREAUCRACIES THRIVE WHILE ESSENTIAL SERVICES SUFFER

Residents of New Orleans could tell it was budget time last fall because the city coroner issued a familiar threat: "No more picking up dead bodies on the street." And further, Dr. Frank Minyard warned, any corpses lucky enough to make it to the morgue would just have to lie there: budget cuts would prevent his office from doing autopsies, too. The bodies did not, it turns out, pile up on the streets. The city managed to find more money. The plan to shut down the coroner was part of a city ploy to wrangle funds from the state—and it didn't work. The governor suggested that before the mayor went begging—or cutting essential services—he might first trim the city's wasteful patronage jobs. For example, New Orleans traffic courts employ special judges who earn $67,000 a year, take 60 days' vacation and maintain private legal practices—and work only part time on the bench.

As more and more cities struggle with major fiscal crises, budget cutters are running into a perplexing question: why can't—or won't—cities cut bureaucratic bloat instead of essential services? Cities are finding themselves squeezed, partly for reasons beyond their control. Special referendums prohibit some from raising taxes; others suffer from mounting social problems, a declining economy or federal aid cutbacks. But too often cities end up cutting basic services or raising taxes because they are unable to shed flab. "The city is like a fat man who's told to lose a few pounds," says Henry Stern, president of Citizens Union, a New York City watchdog group. "He eats 5 percent more and then cuts off his fingers." Most cities now spend at least half their budgets on payroll. A guide to why cutting bureaucracies is so hard:

THE WASHINGTON MONUMENT SYNDOME

New Orleans' gambit was a creative variation on a common bureaucratic strategy. When faced with across-the-board cuts, agency directors may slash the *most* visible or important services to show the public they cannot spare a dime. The goal: intense public outcry forcing city hall to back down. (Bureaucratic turf battlers everywhere owe a debt to federal parks officials who have responded to budget cuts by padlocking the Washington Monument.) In New York City, transit-authority officials facing budget shortfalls first threatened to shut down night subway service, used by 39,000 people daily. When the city cut 98 Bureau of Bridges jobs in November, a deputy commissioner warned that even major bridges connecting Manhattan to the rest of the city might have to be closed. The cuts came anyway—and they're doing more maintenance than ever.

But few cities have practiced the ploy as aggressively as the Washington Monument's hometown, the District of Columbia. A recent blue-ribbon commission found the city's police department was embarrassingly top-heavy with expensive deskbound officers. Yet when the city council cut $4 million, the department quickly announced that "due to budget constraints" it would have to eliminate special summer street patrols in drug-ravaged areas and in exclusive Georgetown, home to many of the city's wealthiest and most politically influential citizens. A spokesman ominously warned visitors to avoid the trendy area because police could no longer guarantee their safety.

THE PROTECTION RACKET

Civil Service rules, of course, can sometimes make it hard to dismiss incompetent workers. D.C. government managers have hired entire staffs of "shadow workers" just to do the jobs of lousy employees they couldn't manage to fire, a recent private audit found. Just as important, byzantine personnel rules warp sweeping reform efforts. Washington's Mayor-elect Sharon Pratt Dixon won election by pledging to cut 2,000 unnecessary middle managers. But because of seniority rules, a midlevel manager whose position has been eliminated can "bump" someone more junior. "You could try to eliminate 2,000 middle managers and end up firing 3,000 secretaries," says city-council member Betty Ann Kane.

To avoid these obstacles budgeteers often try saving money by not replacing those who quit or retire. But what happens if too many people happen to retire in an already overburdened office? No place is hated by Washingtonians more than the Bureau of Motor Vehicle Services, whose daunting lines would frustrate a Moscow housewife. Yet despite the city's middle-management overload, budget freezes have left unfilled 59 slots for license clerks, car inspectors and other frontline Motor Vehicle workers. Maybe residents would finally believe the city budget is lean, Mayor Marion Barry said recently, "when the lines get long around down at Motor Vehicles—as they are going to." (Remember the Washington Monument Syndrome?)

UNNECESSARY WORKERS ARE NECESSARY VOTERS

Municipal unions are among the last organizations that can deliver large blocks of voters. San Francisco employs 25,000—equivalent to one tenth of the city's voters. Not surprisingly, unions have great leverage in contract negotiations. Philadelphia unions for 10 years kept the city from buying larger garbage trucks that would have increased efficiency, but cost jobs. In 1988 the city's unions agreed to delay wage increases if the mayor agreed to rule out any layoffs in 1991 and 1992. Now the mayor can legally dismiss only firefighters and police officers, who are politically untouchable. If he wanted to try it anyway he would have to first offer them lucrative early-retirement plans. In the short term, early retirement can cost more than keeping workers on their jobs.

HIDE AND SEEK

A savvy bureaucrat can find many crannies to hide unneeded workers from budget cutters. In New Orleans, a few favored workers can earn hundreds of thousands of dollars as city notaries, performing the demanding task of affixing city seals to official documents. The notaries are technically paid by outside contractors—and therefore "free" to the city—but the costs are passed on to the government as overhead. D.C. council member Kane recalls how she tried to eliminate the wasteful position of deputy to the district secretary. The next year the district secretary appeared before her committee along with an unidentified man. "Who is this man sitting next to you?" Kane asked. "This is my deputy," the official answered. "No, no, no, dear. We eliminated that position," Kane insisted. The official's response: "I thought I needed one." She had hired him back using discretionary contract funds—out of the reach of the city council.

REFORMERS GO NATIVE

New government managers may arrive as the mayor's representatives at an agency, but soon they become the agency's advocate at city hall. They often become zealously committed to the department's mission—in part because they've realized their own power flows from the size of the agency's budgets and staffs. Mayors are regularly astonished to find that their requests for budget cuts are rejected outright by their own appointees, says Esther Fuchs, author of the forthcoming "Mayors and Money." New York schools chancellor Joseph Fernandez publicly refused to cut $50 million of the $94 million ordered by the city budget office. He eventually backed down, but not before embarrassing Mayor David Dinkins.

In boom times, employing expensive notaries and part-time traffic-court judges may seem merely extravagant. A hefty bureaucracy can even act as an unofficial government jobs program for residents shut out of the private sector. But in difficult times the equation changes. Every dollar of bloat is a dollar less to keep streets safe, clinics open and teachers teaching.

☐ 2340

Mr. Speaker, that was from Newsweek. The date was December 17, 1990. The reason I cite that is we are not talking about a Bush administration proposal. We are not talking about a conservative think tank. We are talking about one of America's major magazines.

Let me conclude by saying the following: a number of us very much want to replace the welfare state with the opportunity society. We very much want to have a revolution that creates the opportunity for work. We very much want to develop programs so our neighborhoods can be safe.

We look forward to working on a bipartisan basis and passing real reform. But we are unwilling to send the political machines, the mayors, the bureaucracies, more millions to waste, more billions to lose. We believe that the cause of America is best served by adopting enterprise zones for private business, by creating the HOPE Program so people can become competent managers and owners, by having the Weed and Seed Program that goes after criminals and weeds them out and then seeds good community services, by taking the steps which will begin to replace the welfare system with work and learning, by taking steps that will allow the poor to have a chance to produce, to work, to learn, to rise from poverty.

We want to reach out our hand to every person in every city. Not to the power structure, not to the politicians, not to the bureaucracies, but to help every poor person to greenline their neighborhood that has been redlined for too long, to bring in private sector jobs that last for a lifetime, and to create the kind of programs that let every American have an opportunity to pursue happiness.

We have been working on this since the late seventies. We hope that now that the crisis has emerged, that the Democratic leadership in the Congress will agree to work on a bipartisan basis to pass a true reform package, a package that the President can sign, and a package that will truly bring hope to America's poorest neighborhoods and to America's great cities.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. COX of California) to revise and extend their remarks and include extraneous material:)

Mr. COLEMAN of Missouri, for 5 minutes each day, today and May 21.

Mrs. BENTLEY, for 60 minutes each day, on June 2, 3, 4, 9, 10, 11, 16, 17, and 18.

(The following Members (at the request of Mr. GONZALEZ) to revise and extend their remarks and include extraneous material:)

Mr. WOLPE, for 5 minutes, today.

Mr. CLEMENT, for 5 minutes, today.

Ms. PELOSI, for 5 minutes, today.

Mr. PICKLE, for 5 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

(The following Members (at the request of Mr. COX of California) and to include extraneous matter:)

Mr. BUNNING.
Mr. VANDER JAGT in two instances.
Mr. DUNCAN.
Mr. SOLOMON.
Mr. SANTORUM.
Mr. HORTON.
Mr. GOODLING in two instances.
Mr. DANNEMEYER.
Mr. BATEMAN.
Ms. SNOWE.
Mr. GREEN of New York.
Mr. GUNDERSON.
Mr. DREIER of California.
Mr. BLILEY.
Mr. ZIMMER.
Mr. BILIRAKIS.
Mrs. BENTLEY.

(The following Members (at the request of Mr. GONZALEZ) and to include extraneous matter:)

Mr. ABERCROMBIE.
Mr. HAMILTON.
Mr. VISCLOSKY.
Mr. ROE in two instances.
Mr. TORRICELLI.
Mr. ORTIZ.
Mr. TRAFICANT.
Mr. BLACKWELL.
Mr. MAZZOLI.
Mr. ROEMER.
Mr. STARK.
Mr. FORD of Michigan.
Mr. HOCHBRUECKNER.
Mr. BROWN.
Mr. DINGELL.
Mr. STUDDS.
Mr. HARRIS.
Mr. SWETT.

SENATE ENROLLED JOINT RESOLUTION SIGNED

The SPEAKER announced his signature to an enrolled joint resolution of the Senate of the following title:

S.J. Res. 254. Joint resolution commending the New York Stock Exchange on the occasion of its bicentennial.

ADJOURNMENT

Mr. GINGRICH. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 11 o'clock and 45 minutes p.m.) the House adjourned until tomorrow, Thursday, May 21, 1992, at 10 a.m.

MOTION TO DISCHARGE A COMMITTEE

May 20, 1992.

To the Clerk of the House of Representatives:

Pursuant to clause 4, rule XXVII, I, Charles W. Stenholm, move to discharge the Committee on Rules from the consideration of the resolution (H. Res. 450) providing for the consideration of the joint resolution (H.J. Res. 290) proposing an amendment to the Constitution to provide for a balanced budget for the United States Government and for greater accountability in the enactment of tax legislation, which was referred to said committee May 6, 1992, in support of which motion the undersigned Members of the House of Representatives affix their signatures, to wit:

1. Charles W. Stenholm.
2. Robert F. (Bob) Smith.
3. Thomas R. Carper.
4. Jim Nussle.
5. Ralph M. Hall.
6. Jim Bunning.
7. J. Roy Rowland.
8. Richard Ray.
9. Sam Johnson.
10. John T. Doolittle.
11. Dick Swett.
12. Olympia J. Snowe.
13. C. Thomas McMillen.
14. Charles J. Luken.
15. Pete Geren.
16. Jim Saxton.
17. John J. Duncan, Jr.
18. Harold Rogers.
19. Frank D. Riggs.
20. Dick Nichols.
21. Tom DeLay.
22. Dick Zimmer.
23. Charles H. Taylor.
24. Earl Hutto.
25. Gary A. Condit.
26. H. Martin Lancaster.
27. Randy "Duke" Cunningham.
28. J. Alex McMillan.
29. Dan Schaefer.
30. Glenn English.
31. James A. Hayes.
32. Elizabeth J. Patterson.
33. Don Young.
34. Thomas J. Bliley, Jr.
35. Joel Hefley.
36. Duncan Hunter.
37. Richard H. Stallings.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

3545. A letter from the Secretary of Agriculture, transmitting a draft of proposed legislation entitled, "Rural Telephone Bank Reserve Account Act of 1992"; to the Committee on Agriculture.

3546. A letter from the Acting Comptroller General, the General Accounting Office, transmitting a review of the President's 73d and 74th special impoundment messages for fiscal year 1992, pursuant to 2 U.S.C. 685 (H. Doc. No. 102–333); to the Committee on Appropriations and ordered to be printed.

3547. A letter from the Administration and Management, Director, Department of Defense, transmitting notification of the Department of the Navy's decision to exercise the provision for exclusion of the clause concerning examination of records by the Comptroller General, pursuant to 10 U.S.C. 2313(c); to the Committee on Armed Services.

3548. A letter from the Under Secretary of Defense, transmitting notification of waiver of the application of the survivability tests of section 2366 to the F/A–18E/F aircraft acquisition program, pursuant to 10 U.S.C. 2366; to the Committee on Armed Services.

3549. A letter from the Auditor, District of Columbia, transmitting a copy of a report entitled, "Review of Receipts and Disbursements of the Office of People's Counsel Agency Trust Fund," pursuant to D.C. Code, section 47–117(d); to the Committee on the District of Columbia.

3550. A letter from the Secretary of Education, transmitting notice of Final Priorities for Fiscal Year 1992—Rehabilitation Short-Term Training, pursuant to 20 U.S.C. 1232(d)(1); to the Committee on Education and Labor.

3551. A letter from the Administrator, General Services Administration, transmitting notification of a revised records system, pursuant to 5 U.S.C. 552a(o); to the Committee on Government Operations.

3552. A letter from the Director, Financial Services, Library of Congress, transmitting the balance sheet, statement of income and expenditures, statement of cash flows, and supporting schedules of transactions, present the activity for the Capitol Preservation Fund for Coin Sales Surcharges and Gift and Sales of Art, Property, and Money for the fiscal year April 1, 1991, through March 31, 1992; to the Committee on House Administration.

3553. A letter from the Assistant Secretary (Tax Policy), Department of the Treasury, transmitting a draft of proposed legislation entitled, "Railroad Retirement Administrative Improvements Act of 1992"; to the Committee on Ways and Means.

3554. A letter from the Comptroller of the Department of Defense, transmitting a report on proposed obligations for facilitating weapons destruction and nonproliferation in the former Soviet Union; jointly, to the Committees on Appropriations and Foreign Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. PANETTA: Committee of Conference. Conference report on House Concurrent Resolution 287 (Rept. 102–529). Ordered to be printed.

Mr. WHITTEN: Committee of Conference. Conference report on H.R. 4990 (Rept. 102–530). Ordered to be printed.

Mr. FROST: Committee on Rules. House Resolution 462. Resolution waiving all points of order against the conference report on H.R. 4990, a bill rescinding certain budget authority, and for other purposes, and against consideration of such conference report (Rept. 102–531).

Mr. BEILENSON: Committee on Rules. House Resolution 463. Resolution waiving all points of order against the conference report on the concurrent resolution House Concurrent Resolution 287, a resolution setting forth the congressional budget for the U.S. Government for the fiscal years 1993, 1994, 1995, 1996 and 1997, and against consideration of such conference report (Rept. 102–532).

Mr. DERRICK: Committee on Rules. House Resolution 464. Resolution providing for the further consideration of the bill H.R. 776, a bill to provide for improved energy efficiency (Rept. 102–533). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Ms. KAPTUR:

H.R. 5211. A bill to amend the Stevenson-Wydler Technology Innovation Act of 1980 to provide for making Malcolm Baldrige National Quality Awards to units of Federal, State, or local government and nonprofit organizations; to the Committee on Science, Space, and Technology.

H.R. 3122: Mr. Sangmeister.

H.R. 3439: Mr. Saxton.

H.R. 3477: Mr. Andrews of New Jersey, Mr. Barnard, Mr. Fish, Mr. Oxley, Mr. Hughes, Mr. Perkins, Mr. Hayes of Illinois, Mr. Vento, Mr. Guarini, and Mr. Mavroules.

H.R. 3549: Ms. Long, Mr. Williams, and Mr. Penny.

H.R. 3561: Mr. Inhofe and Mr. Archer.

H.R. 3636: Mr. Campbell of Colorado and Mr. Morrison.

H.R. 3803: Mr. Kopetski.

H.R. 3836: Mr. McCloskey.

H.R. 3956: Mr. Bryant and Mr. Lipinski.

H.R. 4008: Mr. Wilson, Mr. Waxman, Mr. LaFalce, and Mrs. Lowey of New York.

H.R. 4157: Mrs. Lloyd.

H.R. 4206: Mr. Bacchus.

H.R. 4207: Mr. Petri, Mr. Young of Alaska, and Mr. Lewis of California.

H.R. 4304: Mr. Hughes, Mr. Darden, and Mr. Andrews of New Jersey.

H.R. 4366: Mr. Sabo and Mr. Peterson of Florida.

H.R. 4399: Mr. Fish and Mr. Ravenel.

H.R. 4432: Mr. Kanjorski and Mr. Espy.

H.R. 4482: Mrs. Johnson of Connecticut.

H.R. 4498: Ms. Norton, Mr. Eckart, and Mr. Burton of Indiana.

H.R. 4530: Mr. Fields.

H.R. 4542: Mrs. Collins of Michigan, Mr. McCollum, Mr. Scheuer, and Mr. Lipinski.

H.R. 4558: Mr. Peterson of Minnesota, Mr. McCloskey, Mr. Atkins, and Mr. Lancaster.

H.R. 4585: Mr. Jones of Georgia, Mr. Livingston, Mr. Evans, Mr. Atkins, Mr. Dellums, Ms. Norton, and Mr. Lancaster.

H.R. 4690: Mr. Hancock, Mr. Gallegly, Mr. Clement, Mr. Schulze, and Mr. Roberts.

H.R. 4895: Mr. Ridge, Mr. Murtha, Mr. Sawyer, Mr. Thomas of Wyoming, and Mr. Livingston.

H.R. 4901: Mr. Miller of California, Mr. Lewis of Georgia, Mr. Rahall, Mr. Darden, Mr. Faleomavaega, Mr. Colorado, Mr. Richardson, Mr. Abercrombie, Mr. Murphy, Mr. Dooley, Mr. Towns, Mr. Rangel, Ms. Norton, Mr. Jefferson, Mr. Dixon, Mr. Pastor, Mr. Ortiz, Mr. Dellums, Mr. Owens of New York, Mr. Stokes, Mr. Martinez, Mrs. Collins of Illinois, Mr. Blackwell, Mr. Kostmayer, Mrs. Mink, Mr. Serrano, Mr. Payne of New Jersey, Mr. Sawyer, Mr. Hayes of Illinois, Mr. Andrews of New Jersey, Mr. Roemer, Mr. Roybal, Mr. de la Garza, Mr. Bustamante, Mr. Torres, and Ms. Ros-Lehtinen.

H.R. 4902: Mr. Rahall and Mrs. Lowey of New York.

H.R. 4929: Mr. Rhodes, Mr. Blaz, Mrs. Johnson of Connecticut, and Mr. Towns.

H.R. 4961: Mr. Dannemeyer.

H.R. 4991: Mr. Sikorski, Mr. Hansen, Mr. Waxman, Ms. Norton, Mr. Gilman, Mr. Hayes of Illinois, Ms. Oakar, and Mr. Matsui.

H.R. 5010: Mr. Roe.

H.R. 5020: Mr. Chapman, Mr. Stark, and Mrs. Schroeder.

H.R. 5039: Mr. Swift.

H.R. 5052: Mr. WEISS.

H.R. 5070: Ms. NORTON, Mr. TALLON, and Mr. FALEOMAVAEGA.

H.R. 5079: Mrs. KENNELLY and Mr. SANDERS.

H.R. 5108: Mr. RHODES and Mr. DOOLITTLE.

H.R. 5178: Mr. DORGAN of North Dakota.

H.J. Res. 271: Mrs. SCHROEDER.

H.J. Res. 411: Mr. GINGRICH, Mr. STARK, Mr. TAUZIN, Mr. VENTO, Mr. VALENTINE, Mr. THOMAS of Georgia, Mr. WAXMAN, and Mr. WILSON.

H.J. Res. 422: Mr. ANDREWS of Maine, Mr. ATKINS, Mr. BEVILL, Mr. BROOMFIELD, Mr. BROWDER, Mr. BUSTAMANTE, Mr. CLEMENT, Mr. COLEMAN of Texas, Mr. COLORADO, Mr. COOPER, Mr. COX of California, Mr. CRAMER, Mr. DARDEN, Mr. DAVIS, Mr. DE LUGO, Mr. DIXON, Mr. DONNELLY, Mr. DORNAN of California, Mr. DOWNEY, Mr. DUNCAN, Mr. DURBIN, Mr. DWYER of New Jersey, Mr. EMERSON, Mr. ERDREICH, Mr. FALEOMAVAEGA, Mr. FISH, Mr. GEJDENSON, Mr. GUARINI, Mr. HAMILTON, Mr. HANSEN, Mr. HAYES of Illinois, Mr. HERTEL, Mr. HUGHES, Mr. JACOBS, Mr. KENNEDY, Mr. LAFALCE, Mr. LEHMAN of Florida, Mr. LENT, Mr. LEVIN of Michigan, Mr. LIVINGSTON, Ms. LONG, Mrs. LOWEY of New York, Mr. MCDADE, Mr. MCDERMOTT, Mr. MCGRATH, Mr. MCHUGH, Mr. MCMILLEN of Maryland, Mr. MCNULTY, Mr. MANTON, Mr. MARKEY, Mr. MARTIN, Mr. MARTINEZ, Mr. MATSUI, Mrs. MEYERS of Kansas, Mr. MOORHEAD, Mr. MURTHA, Mr. NATCHER, Mr. ORTON, Mr. PAYNE of New Jersey, Mr. PETERSON of Florida, Mr. PRICE, Mr. RAHALL, Mr. RANGEL, Mr. RHODES, Mrs. ROUKEMA, Mr. ROWLAND, Mr. SCHUMER, Mr. SERRANO, Mr. SHARP, Mr. SLATTERY, Ms. SLAUGHTER, Mr. SMITH of Florida, Mr. SOLARZ, Mr. SUNDQUIST, Mr. TANNER, Mr. THOMAS of Georgia, Mr. TRAXLER, Mrs. UNSOELD, Mr. UPTON, Mr. VANDER JAGT, Mr. WALSH, Mr. WOLF, Mr. WYLIE, Mr. OWENS of New York, Mr. STALLINGS, Mr. BOEHNER, Mr. REED, Mr. SAVAGE, Mr. SPENCE, Mr. SARPALIUS, Mr. SPRATT, Mr. TALLON, Mr. TRAFICANT, and Mr. YATRON.

H.J. Res. 440: Mr. JACOBS, Mr. LEVINE of California, Mr. RIGGS, Mr. SLATTERY, Mr. SOLOMON, and Mr. SWIFT.

H.J. Res. 444: Mr. OBERSTAR, Ms. LONG, Mr. SYNAR, Mr. BONIOR, and Mr. WILSON.

H.J. Res. 475: Mr. CARPER.

H.J. Res. 483: Mr. LIGHTFOOT and Mr. MINETA.

H. Res. 388: Mr. SKEEN, Mr. FROST, Mr. MCNULTY, Mr. HUGHES, and Mr. LAGOMARSINO.

H. Res. 415: Mr. FROST, Mr. GUARINI, Mr. ARCHER, Mr. PORTER, Mr. SCHEUER, Mr. VENTO, Mr. SMITH of Iowa, and Ms. ROS-LEHTINEN.

H. Res. 417: Ms. NORTON, Mr. SCHEUER, Mr. ATKINS, Mr. HUGHES, Mr. BRUCE, and Mr. HOAGLAND.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.J. Res. 442: Mr. MCMILLAN of North Carolina.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

157. By the SPEAKER: Petition of the council of the city of New York, NY, relative to the establishment of a Federal youth development and delinquency prevention funding mechanism; to the Committee on Education and Labor.

158. Also, petition of the United Council on Welfare Fraud, Inc., relative to welfare fraud; to the Committee on Ways and Means.

REGULATION OF LOBBYING ACT

In compliance with Public Law 601, 79th Congress, title III, Regulation of Lobbying Act, section 308(b), which provides as follows:

(b) All information required to be filed under the provisions of this section with the Clerk of the House of Representatives and the Secretary of the Senate shall be compiled by said Clerk and Secretary, acting jointly, as soon as practicable after the close of the calendar quarter with respect to which such information is filed and shall be printed in the CONGRESSIONAL RECORD.

The Clerk of the House of Representatives and the Secretary of the Senate jointly submit their report of the compilation required by said law and have included all registrations and quarterly reports received.

REGISTRATIONS

The following registrations were submitted for the first calendar quarter 1992:

(NOTE.—The form used for reporting is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings. This page (Page 1) is designed to supply identifying data.)

PLEASE RETURN 1 ORIGINAL TO: THE CLERK OF THE HOUSE OF REPRESENTATIVES, OFFICE OF RECORDS AND REGISTRATION, 1036 LONGWORTH HOUSE OFFICE BUILDING, WASHINGTON, D.C. 20515

PLEASE RETURN 1 ORIGINAL TO: THE SECRETARY OF THE SENATE, OFFICE OF PUBLIC RECORDS, 232 HART SENATE OFFICE BUILDING, WASHINGTON, D.C. 20510

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19 . . . . . ◆

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

Is this an Amendment? ☐ YES ☐ NO

IDENTIFICATION NUMBER________________________________

NOTE on ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:

(i) *"Employee"*.—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)

(ii) *"Employer"*.—To file as an "employer", write "None" in answer to Item "B".

(*b*) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:

(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.

(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

☐ CHECK IF ADDRESS IS DIFFERENT THAN PREVIOUSLY REPORTED

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE on ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER —State name, address, and nature of business. If there is no employer, write "None."

NOTE on ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§ 302(e).

(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).

(c) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have

☐ terminated, place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the specific legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) description, (*b*) quantity distributed, (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed.)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and, if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. *If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page.* Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly Report."◆

QUARTERLY REPORTS*

*All alphanumeric characters and monetary amounts refer to receipts and expenditures on page 2, paragraphs D and E of the Quarterly Report Form.

The following quarterly reports were submitted for the first calendar quarter 1992:

(NOTE.—The form used for reporting is reproduced below. In the interest of economy in the RECORD, questions are not repeated, only the essential answers are printed, and are indicated by their respective headings. This page (Page 1) is designed to supply identifying data, and Page 2 deals with financial data.)

PLEASE RETURN 1 ORIGINAL TO: THE CLERK OF THE HOUSE OF REPRESENTATIVES, OFFICE OF RECORDS AND REGISTRATION, 1036 LONGWORTH HOUSE OFFICE BUILDING, WASHINGTON, D.C. 20515

PLEASE RETURN 1 ORIGINAL TO: THE SECRETARY OF THE SENATE, OFFICE OF PUBLIC RECORDS, 232 HART SENATE OFFICE BUILDING, WASHINGTON, D.C. 20510

PLACE AN "X" BELOW THE APPROPRIATE LETTER OR FIGURE IN THE BOX AT THE RIGHT OF THE "REPORT" HEADING BELOW:

"PRELIMINARY" REPORT ("Registration"): To "register," place an "X" below the letter "P" and fill out page 1 only.

"QUARTERLY" REPORT: To indicate which one of the four calendar quarters is covered by this Report, place an "X" below the appropriate figure. Fill out both page 1 and page 2 and as many additional pages as may be required. The first additional page should be numbered as page "3," and the rest of such pages should be "4," "5," "6," etc. Preparation and filing in accordance with instructions will accomplish compliance with all quarterly reporting requirements of the Act.

Year: 19 . . . . . ◆

REPORT

PURSUANT TO FEDERAL REGULATION OF LOBBYING ACT

P	QUARTER			
	1st	2d	3d	4th
(Mark one square only)				

Is this an Amendment?
☐ YES ☐ NO

IDENTIFICATION NUMBER

NOTE on ITEM "A".—(a) IN GENERAL. This "Report" form may be used by either an organization or an individual, as follows:

(i) "*Employee*".—To file as an "employee", state (in Item "B") the name, address, and nature of business of the "employer". (If the "employee" is a firm [such as a law firm or public relations firm], partners and salaried staff members of such firm may join in filing a Report as an "employee".)

(ii) "*Employer*".—To file as an "employer", write "None" in answer to Item "B".

(*b*) SEPARATE REPORTS. An agent or employee should not attempt to combine his Report with the employer's Report:

(i) Employers subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their agents or employees.

(ii) Employees subject to the Act must file separate Reports and are not relieved of this requirement merely because Reports are filed by their employers.

A. ORGANIZATION OR INDIVIDUAL FILING:

1. State name, address, and nature of business.

☐ CHECK IF ADDRESS IS DIFFERENT THAN PREVIOUSLY REPORTED

2. If this Report is for an Employer, list names of agents or employees who will file Reports for this Quarter.

NOTE on ITEM "B".—*Reports by Agents or Employees.* An employee is to file, each quarter, as many Reports as he has employers, except that: (*a*) If a particular undertaking is jointly financed by a group of employers, the group is to be considered as one employer, but all members of the group are to be named, and the contribution of each member is to be specified; (*b*) if the work is done in the interest of one person but payment therefor is made by another, a single Report—naming both persons as "employers"—is to be filed each quarter.

B. EMPLOYER

—State name, address, and nature of business. If there is no employer, write "None."

NOTE on ITEM "C".—(*a*) The expression "in connection with legislative interests," as used in this Report, means "in connection with attempting, directly or indirectly, to influence the passage or defeat of legislation." "The term 'legislation' means bills, resolutions, amendments, nominations, and other matters pending or proposed in either House of Congress, and includes any other matter which may be the subject of action by either House"—§ 302(e).

(*b*) Before undertaking any activities in connection with legislative interests, organizations and individuals subject to the Lobbying Act are required to file a "Preliminary" Report (Registration).

(*c*) After beginning such activities, they must file a "Quarterly" Report at the end of each calendar quarter in which they have either received or expended anything of value in connection with legislative interests.

C. LEGISLATIVE INTERESTS, AND PUBLICATIONS in connection therewith:

1. State approximately how long legislative interests are to continue. If receipts and expenditures in connection with legislative interests have ☐ terminated, place an "X" in the box at the left, so that this Office will no longer expect to receive Reports.

2. State the general legislative interests of the person filing and set forth the specific legislative interests by reciting: (*a*) Short titles of statutes and bills; (*b*) House and Senate numbers of bills, where known; (*c*) citations of statutes, where known; (*d*) whether for or against such statutes and bills.

3. In the case of those publications which the person filing has caused to be issued or distributed in connection with legislative interests, set forth: (*a*) description, (*b*) quantity distributed, (*c*) date of distribution, (*d*) name of printer or publisher (if publications were paid for by person filing) or name of donor (if publications were received as a gift).

(Answer items 1, 2, and 3 in the space below. Attach additional pages if more space is needed.)

4. If this is a "Preliminary" Report (Registration) rather than a "Quarterly" Report, state below what the nature and amount of anticipated expenses will be; and, if for an agent or employee, state also what the daily, monthly, or annual rate of compensation is to be. *If this is a "Quarterly" Report, disregard this item "C4" and fill out items "D" and "E" on the back of this page.* Do not attempt to combine a "Preliminary" Report (Registration) with a "Quarterly Report."◆

STATEMENT OF VERIFICATION

[Omitted in printing]

NOTE on ITEM "D."—*(a)* IN GENERAL. The term "contribution" includes *anything of value.* When an organization or individual uses printed or duplicated matter in a campaign attempting to influence legislation, money received by such organization or individual—for such printed or duplicated matter—is a "contribution." "The term 'contribution' includes a gift, subscription, loan, advance, or deposit of money, or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make a contribution"—§ 302(a) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN EMPLOYER.—(i) *In general.* Item "D" is designed for the reporting of all receipts from which expenditures are made, or will be made, in connection with legislative interests.

(ii) *Receipts of Business Firms and Individuals.*—A business firm (or individual) which is subject to the Lobbying Act by reason of expenditures which it makes in attempting to influence legislation—but which has no funds to expend except those which are available in the ordinary course of operating a business not connected in any way with the influencing of legislation—will have no receipts to report, even though it does have expenditures to report.

(iii) *Receipts of Multi-purpose Organizations.*—Some organizations do not receive any funds which are to be expended solely for the purpose of attempting to influence legislation. Such organizations make such expenditures out of a general fund raised by dues, assessments, or other contributions. The percentage of the general fund which is used for such expenditures indicates the percentage of dues, assessments, or other contributions which may be considered to have been paid for that purpose. Therefore, in reporting receipts, such organizations may specify what that percentage is, and report their dues, assessments, and other contributions on that basis. However, each contributor of $500 or more is to be listed, regardless of whether the contribution was made solely for legislative purposes.

(c) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE.—(i) *In general.* In the case of many employees, all receipts will come under Items "D 5" (received for services) and "D 12" (expense money and reimbursements). In the absence of a clear statement to the contrary, it will be presumed that your employer is to reimburse you for all expenditures which you make in connection with legislative interests.

(ii) *Employer as Contributor of $500 or More.*—When your contribution from your employer (in the form of salary, fee, etc.) amounts to $500 or more, it is not necessary to report such contribution under "D 13" and "D 14," since the amount has already been reported under "D 5," and the name of the "employer" has been given under Item "B" on page 1 of this report.

D. RECEIPTS (INCLUDING CONTRIBUTIONS AND LOANS):

Fill in every blank. If the answer to any numbered item is "None," write "NONE" in the space following the number.

Receipts (other than loans)

1. $..............Dues and assessments
2. $..............Gifts of money or anything of value
3. $..............Printed or duplicated matter received as a gift
4. $..............Receipts from sale of printed or duplicated matter
5. $..............Received for services (e.g., salary, fee, etc.)
6. $..............TOTAL for this Quarter (Add "1" through "5")
7. $..............Received during previous Quarters of calendar year
8. $..............TOTAL from Jan. 1 through this Quarter (Add "6" and "7")

Loans Received—"The term 'contribution' includes a . . . *loan* . . ."—§ 302(a).

9. $..............TOTAL now owed to others on account of loans
10. $..............Borrowed from others during this Quarter
11. $..............Repaid to others during this Quarter

12. $..............''Expense Money'' and Reimbursements received this Quarter.

Contributors of $500 or More (from Jan. 1 through this Quarter)

13. Have there been such contributors?
    Please answer "yes" or "no": ....

14. In the case of each contributor whose contributions (including loans) during the "period" from January 1 through the last day of this Quarter, total $500 or more:

Attach hereto plain sheets of paper, approximately the size of this page, tabulate data under the headings "Amount" and "Name and Address of Contributor"; and indicate whether the last day of the period is March 31, June 30, September 30, or December 31. Prepare such tabulation in accordance with the following example:

Amount	*Name and Address of Contributor* *("Period"* from Jan. 1 through............................, 19.......)
$1,500.00	John Doe, 1621 Blank Bldg., New York, N.Y.
$1,785.00	The Roe Corporation, 2511 Doe Bldg., Chicago, Ill.
$3,285.00	TOTAL

NOTE on ITEM "E".—*(a)* IN GENERAL. "The term 'expenditure' includes a payment, distribution, loan, advance, deposit, or gift of money or anything of value, and includes a contract, promise, or agreement, whether or not legally enforceable, to make an expenditure"—§ 302 (b) of the Lobbying Act.

(b) IF THIS REPORT IS FOR AN AGENT OR EMPLOYEE. In the case of many employees, all expenditures will come under telephone and telegraph (Item "E 6") and travel, food, lodging, and entertainment (Item "E 7").

E. EXPENDITURES (INCLUDING LOANS) IN CONNECTION WITH LEGISLATIVE INTERESTS:

Fill in every blank. If the answer to any numbered item is "None," write "NONE" in the spaces following the number.

Expenditures (other than loans)

1. $..............Public relations and advertising services
2. $..............Wages, salaries, fees, commissions (other than Item "1")
3. $..............Gifts or contributions made during Quarter
4. $..............Printed or duplicated matter, including distribution cost
5. $..............Office overhead (rent, supplies, utilities, etc.)
6. $..............Telephone and telegraph
7. $..............Travel, food, lodging, and entertainment
8. $..............All other expenditures
9. $..............TOTAL for this Quarter (Add "1" through "8")
10. $..............Expended during previous Quarters of calendar year
11. $..............TOTAL from Jan. 1 through this Quarter (Add "9" and "10")

Loans Made to Others—"The term 'expenditure' includes a . . . *loan* . . ."—§ 302(b).

12. $..............TOTAL now owed to person filing
13. $..............Lent to others during this Quarter
14. $..............Repayments received during this Quarter

15. *Recipients of Expenditures of $10 or More*_____________

If there were no single expenditures of $10 or more, please so indicate by using the word "NONE".

In the case of expenditures made during this Quarter by, or on behalf of, the person filing: Attach plain sheets of paper approximately the size of this page and tabulate data as to expenditures under the following heading: "Amount," "Date or Dates," "Name and Address of Recipient," "Purpose." Prepare such tabulation in accordance with the following example:

Amount	*Date or Dates—Name and Address of Recipient—Purpose*
$1,750.00	7–11: Roe Printing Co., 3214 Blank Ave., St. Louis, Mo.—Printing and mailing circulars on the "Marshbanks Bill."
$2,400.00	7–15, 8–15, 9–15: Britten & Blaten, 3127 Gremlin Bldg., Washington, D.C.—Public relations service at $800.00 per month.
$4,150.00	TOTAL
